CIO STOPS MINE STRIKE; AFL WELDERS OUT

ROSELL DANIEL, POPULAR YOUNG CISCO MAN, WAS BURIED THIS AFTERNOON IN OAKWOOD

All that was mortal of A. Roswell Daniel was laid to rest in Oakwood cemetery this afternoon following funeral services conducted by Rev. Judson Prince at Green's funeral chapel at 4 o'clock.

Banks of flowers, sincere tributes of friends and loved ones, showed the esteem in which this fine young man, cut down in the flower of active manhood, was held.

Death occurred Wednesday afternoon at his home in Humboldt at about 3 o'clock, from heart attack soon after he had been carried home from the office of Hickok & Reynolds, oil operators, where he was office manager. He had gone back to the office after lunch but, feeling worse about 2:25, Jack Lauderdale, an employe of the office, drove him to his home, where he died before the physician who had been summoned could arrive.

Mr. Daniel was born June 12, 1909, at Grandbury, Texas. He attended the public schools of Cisco and Tyler Commercial college, entering the Cisco Banking company employ immediately after leaving school.

He was married to Miss Frances Porter of Purcell, Okla., Sept. 1934, and out of this union was born a son, Roswell, Jr., age 14 months. Wife and son survive him.

He is also survived by two brothers, Jack Daniel, Luabock and Garth Daniel, Austin, and a sister, Mrs. Merl Bell, Austin. Also on his maternal side, by Guy Dabney, Carrizozo, N. M.; Mrs. Alex Ward, Cisco; Mrs. Geo. Anderson, Romney and Mrs. R. L. Mouldon, McKinney, uncle and aunts.

Active pall bearers were L. L. Keough, Dallas; W. W. Harvey and Joe Lawton, San Antonio; W. W. Fewell, Tom Stark, J. H. Reynolds, Frank Bond and H. H. Monk, Cisco.

Honorary pall bearers included all intimate friends of the deceased.

FLOODS AGAIN HIT WICHITA FALLS AREA

WICHITA FALLS, Oct. 30.—Rescue squads went into action today for the third time this year as heavy rains of cloud-burst proportions, sent streams out of their banks, flooding lowlands and interrupting rail and highway traffic.

Wichita Falls reported 5.97 inches of rain fell in 24 hours. Kelly Field airways communications service reported six inches of rain there in 20 hours.

Lake Wichita, which has been flowing over the spillway, rose 29 inches during the night and Holiday Creek, into which the spillway empties, flooded at least 100 residents and was still rising.

The Wichita River was expected to go out of its banks during the day, flooding additional homes. High water was expected to be near or equal the marks reached in an early October flood which drove 2,000 persons from their homes.

STATE OF WAR.

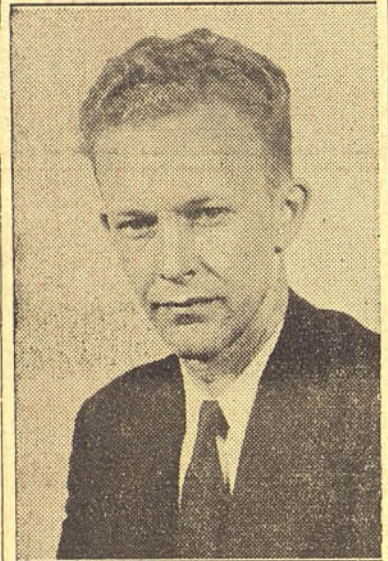

ROME, Italy, Oct. 30.—Roberto Farinacci, former secretary general of the Fascist party, wrote today in the newspaper Regime Fascista that the Axis powers are now in a state of war with the United States.

The Woman's Christian Temperance Union of Texas has had its corporate existence extended for fifty years from Aug. 4, 1936.

JESSE JONES ANNOUNCES A NEW SERVICE

WASHINGTON, Oct. 30.—Coincident with the arrival in Dallas today of Virgil D. Cover to take over his duties as regional business consultant of the Department of Commerce, Secretary of Commerce Jesse Jones announced the inauguration of a new service for the business men of Texas and parts of New Mexico, Arizona, Oklahoma and Louisiana which comprise the Dallas region.

This geographical area comprises the Dallas region recently created by the Department of Commerce with a view to rendering a more comprehensive and helpful service to business men and business groups in this emer-

VIRGIL D. COVER.

gency period. The regional business consultant will supplement the many services already being rendered by the regional manager and his staff and by the officers of the Houston district office.

As regional business consultant for the Dallas region, Mr. Cover will make available to business executives all of the information he has gained during many weeks of intensive study in Washington concerning the work of national defense and other government agencies. With sound business experience behind him, he will be able to work closely with business groups, possibly offering new solutions to old problems, spelling out new problems and suggesting solutions. He will seek promptly to establish mutual confidence, since he has no authority other than is invested in him by his instructions to cooperate wherever cooperation is requested by individuals or groups.

One of Mr. Cover's functions will be to present to Washington the attitudes of business men who have to meet the payrolls of the Dallas region. He will report not only the problems of business in the region, but also the proposed solutions to those problems offered by business men.

Another duty of Mr. Cover as regional consultant will be to report periodically on business conditions in his region, and to encourage the study of industrial and commercial problems both by private enterprise and by university schools of business and department of economics, knowing, as he does, that sound facts are the best answer to economic blackouts and new facts are needed to meet current changes.

Mr. Cover can be reached at the Dallas regional office of the Department of Commerce, located in the chamber of commerce building.

Mrs. E. L. Springer of Brownwood is a guest of her son-in-law and daughter, Mr. and Mrs. Bob Key.

PLANE IN CRASH; 14 DEAD

MOORHEAD, Minn., Oct. 30.—Fourteen persons were killed today when a Northwest Airlines transport plane, landing in the dark on the Minnesota prairie, struck a ravine and burst into flames.

Only Pilot Clarence Bates, Indianapolis, escaped with his life, and he suffered so from shock that he was unable to tell what happened.

There are no witnesses, but airline officials and police are agreed that the plane was gliding to the field for a landing when it hit the ravine—50 feet wide, 25 feet deep and extending across otherwise unbroken land for 100 yards.

The dead are twelve passengers, the co-pilot and the stewardess.

Scores of military and private planes have crashed this year, but this is the worst in the United States since August 31, 1940, when a Pennsylvania Central airline plane fell in a thunderstorm near Lovettsville, Va., and 25 persons were killed.

NAZIS STRIVE HARD TO TAKE CAPITAL CITY

The German armies stepped up attacks on Moscow today and drove deeper into Crimea, thus bringing the military threat closer to the big Russian Black Sea fleet base of Sebastopol.

Russian reports admitted dangerous Nazi pressure on the Orel-Tula line, 210 to 100 miles south and southwest of Moscow, and indicated defenders of Crimea are falling back after a terrific battle with the Germans in which 20,000 casualties were inflicted.

British experts suggested the Germans are opening up with a final attempt this year to break into Moscow and obtain warm winter quarters for hundreds of thousands of troops now fighting in zero weather near Moscow.

On the Donets front the Russians claim the recapture of strategic heights before Don and it is clearly indicated that the Nazi progress in that area has slowed down.

EVEN IN AFRICA—Hitler's ill-repute has spread even into darkest Africa where natives of Nigeria are pictured above surveying bus bearing banner "Kill Hitler with War Certificates." Poster was brought into play in connection with British "War Weapons Week" throughout empire.

GAME TONIGHT AT BROWNWOOD IS POSTPONED

The football game scheduled at Brownwood with the Brownwood Lions for tonight has been postponed until 7:30 Monday evening, on account of rain which would make it dangerous for players, as well as uncomfortable for fans who would like to see the game. Principal Stamey says the postponement was agreeable to both sides and the Monday evening game, if the weather is favorable, should attract many people from both towns.

Lasater will not be able to enter the game and one or two others have injuries that may handicap action of the Lobos. However, substitutes, although light in weight, are anxious to get a go at the Brownwood Lions and show their metal in action.

Coaches Murphy and McCasland have been busy through the past two weeks, whipping the team into a smoother working unit, realizing proper training and oily teamwork often make good substitutes for lack of weight.

THERON GRAVES COMMISSIONED AIR OFFICER

Aviation Cadet Theron J. Graves, son of Mr. and Mrs. T. A. Graves, 1206 W. Seventh St., Cisco, is a member of a class of 140 to be graduated October 31, from the air corps advanced flying school at Stockton, California.

Upon graduation, Graves will be commissioned a second lieutenant in the air corps reserve, army of the United States, and will be given the coveted silver wings, symbolic of the aeronautical rating of pilot. With others of his class, he will perform three years active duty in his new rank.

This class is the seventh to be graduated from the school at Stockton Field, and will make a total of 919 pilots turned out by this one school since January 1, 1941, for Uncle Sam's rapidly expanding air force.

Before entering the final and advanced course at Stockton Field ten weeks ago, Aviation Cadet Graves completed twenty weeks of primary and basic training. In the advanced course he was taught to fly the large combat airplanes of the army air corps and acquainted himself with meteorology, radio code, navigation, engineering, signal communication, and other professional and military subjects.

The class is composed of young men from 15 states.

Mr. and Mrs. Glenn Henry and son of Rising Star visited Mr. and Mrs. Wyatt Jacobs Wednesday night.

Visitors present were two Rotarians from Abilene—Wendell Bedichek and Walter Jarrett.

PERDUE SAYS: "HAVE A GOOD TIME - SANELY"

M. L. Perdue, chief of police, has organized a special force to patrol the city Friday night and do everything possible to prevent the destruction of property by thoughtless and too often criminally-minded hallowe'en celebrators.

The chief says: "It is hoped the young people of Cisco will have a good time tomorrow night, while avoiding unnecessary destruction of property, or placing obstacles in the public streets that might wreck a car and cause a death."

The Texas Department of Public Safety, as well as police departments in many Texas cities, will take unusual hallowe'en precautions to protect property and life.

PAMPA DRIVER PAYS FINE IN CISCO COURT

Marion Gwinn of Pampa paid a fine in justice court here early Wednesday night to satisfy a charge of driving on the wrong side of the street. The car which Gwinn was driving side-swiped a truck parked across the street from Hamp's cafe, at the traffic light on East Eighth street. The owner was in the car with Gwinn, and said he was from El Paso, but Justice Brown failed to learn his name.

Gwinn, in his own defense, claimed the "street was too narrow for him to miss the truck," but the highway patrol measured the space of 60 feet between the truck and south boundary of the highway at that point.

The truck was an Abilene machine, parked while the driver was drinking coffee in Hamp's place, and was headed west, while the passenger car was going east. The truck had all lights burning, Justice Brown said.

The El Paso car, badly wrecked, was left here, the owner saying he would return for it early this morning, but he had not put in his appearance at 2 o'clock this afternoon. The truck was not damaged.

CISCO RAINFALL DURING PAST 5 YEARS OVER 100

Two-tenths of an inch of rainfall today dampened the streets of Cisco, and accompanied by a cold wind that made outdoors extremely disagreeable, a slow misty rain fell most of the day and is still falling. Total rainfall for October was 4.2. The end is not yet, according to the weather observer, who promises continued cloudiness and showers tomorrow.

The rain gauge at the city hall shows a precipitation of 47.4 inches during the ten months of 1941—15.8 more than that of 1940—the highest rainfall in the past five years.

By years, the precipitation was: Ten months of 1941, with two months to go, 47.4; 1940, 37.6; 1939, 25.9; 1938, 24.7; 1937, 18.3. Increased rainfall every year since 1937.

The heaviest rainfall this year was in August, when the precipitation was 11.2.

The program, directed by Mrs. Paul Woods, will be as follows:

OPEN SHOP IS STILL MATTER TO BE FACED

Two critical defense labor disputes were dissolved today as 53,000 CIO miners prepared to resume operations at steel company pits in four states and the government-supervised termination of a month long strike on aircraft parts production at Bendix, N. J.

Still confronting labor experts was the jurisdictional strike of AFL welders at Pacific coast shipyards, which spread today to the Bay City area at San Francisco.

John L. Lewis announced in Washington that the United Mine Workers had accepted President Roosevelt's recommendation for immediate restoration of the coal output at the captive mines pending the mediation board's findings in the protracted dispute over the closed shop.

LABOR HERE AND ABROAD.

There is a striking difference in the attitudes of British labor and American labor toward the war. Our workers have seemed, for the most part, to regard the war as none of their business, although the American Federation of Labor delegates, at their recent convention, adopted some strong resolutions denouncing Nazism.

It is very different in England. British labor has clamored for the government to send a big army to the Continent and open up a western front against Hitler, relieving the pressure on Russia.

The British workers are not "reds," either. There appears to be more statesmanship among them than among our working classes. They see more clearly than ours—perhaps because they are nearer to the peril—that the collec-

tive Nazi system is the greatest threat which has yet risen against the workers and their hard-won rights as individuals. In Germany and Italy, and in the free countries now conquered, the workers are virtually slaves.

SEA CONTROL.

It's the same old story. Britain may "rule the waves" but Germany waives the rules. And the same conflict occurs when America comes into the picture.

There is a definite complication now in the western Atlantic, which we Americans regard as particularly our own sphere. Our government has drawn a line south from Iceland and sent a garrison to that half-way station to maintain the boundary. But it happens that Germany, without any authority that we can recognize, has claimed the whole North Atlantic as far west as the southern tip of Greenland. Thus she overlaps a large part of our sphere.

Of course we cannot allow such German claims, whether they are supported by the furtive murders of Nazi submarines or by more honorable warfare in the open sea. The time has come when mastery of the Atlantic is crucial, and mastery of the Pacific is equally important. We must not fail in either instance and the sooner the two jobs are completed, the better it will be for free peoples.

Fortunately the United States and Britain are the two foremost sea powers. Together we can preserve the freedom of the seas for our own present safety, and in trust for the world against the time when full sea freedom can be restored.

Mann Rules License Suspension Mandatory

AUSTIN, Oct. 30.—A six-month suspension of a driver's license is automatic and mandatory on the first conviction of drunken driving, Atty. Gen. Gerald C. Mann ruled Wednesday.

Answering questions of County Attorney Shelburne H. Glover of Jefferson, Mann pointed out it was not up to the discretion of a jury or court at law as to whether the license would be revoked, but that on conviction that a driver was operating a vehicle while drunk, the license was to be suspended.
