### LESSON FOR OCTOBER 29

MESSIAH'S MINISTRY (WORLD'S TEMPERANCE SUNDAY)

LESSON TEXT-Isa, 61:1-9. GOLDEN TEXT-Righteousness exalteth a nation; but sin is a reproach to any people.—Prov. 14:34. REFERENCE MATERIAL-Matt. 7:15-PRIMARY TOPIC-How Four Boys Became Healthy and Happy,—Dan. 1:3-20.
JUNIOR TOPIC-Destroying the World's

INTERMEDIATE AND SENIOR TOPIC -The Next Step in the Prohibition Cam-YOUNG PEOPLE AND ADULT TOPIC -Progress of Prohibition Throughout the

The lesson committee has gratul, tously named this lesson "World-wide Prohibition." Neither the text nor the context, directly or implied, says anything about prohibition as we understand the use of the word. However, when Messiah shall reign upon the earth the rum traffic with all other niquitous practices will be abolished.

1. Messiah's Commission (v. 1). He was appointed by the Lord. God's plan for the world is a time of peace and blessing.

,II. Messiah's Program (vv. 1, 2). Messiah's program is twofold; to proclaim the acceptable year of the Lord, and the day of vengeance of our God." The careful reading of her, "I will explain that to you." Luke 4:18-21 will show that Jesus suspended reading of this passage at the comma, in Isaiah 61:2. His first bark boys had made most of it and coming opened up the day of "grace and the acceptable year of the Lord," and His second coming will usher in 'the day of vengeance of our God,"

(II Thess. 1:7-10; cf. Mal. 3:1-3). 1. Proclaiming the Acceptable Year of the Lord (vv. 1, 2). In His ministry of grace He preached (1) "good tidings to the meek." "Meek" here means not only a grace, but a condition, that is, those in poverty and affliction. (2) "Bind up the brokenhearted." "Bind up" signifies healing. (3) "Liberty to the captives." The figure of deliverance from the Babylonian captivity is used to describe 2:15). (4) "Opening of the prison to them that are bound," Messiah's work was to give deliverance to those

who were enslaved by the consequences of their sins. (5) "The acceptable year of the Lord." This means a space of time in which God would accept all who repent of their

sins and come to Him. 2. Proclaiming the day of vengeance of God (v. 2). While the day of mercy is lengthened out, the time of judgment will surely come. The day of vengeance will break upon the world when the Lord shall be revealed from heaven (II Thess. 1:7-10). The period of mercy is called "year," while the period of vengeance is called "day," showing that the period of mercy is much longer than the period of wrath.

III. The Blessings of Messiah's Kingdom (vv. 3-9). 1. "Comfort all that mourn" (v. 2). The day of vengeance will bring sorrow to many, but they shall be comforted when they shall see the King on the throne.

2. "Give unto them beauty for ashes" (v. 3). This peculiarly applies to Israel.

3. "Oil of Joy for Mourning" (v. 3). Israel has been mourning for centuries. When the Messiah shall reign as King they shall be glad. 4. "Garment of Praise for the Spirit of Heaviness" (v. 3). Instead of wearing the symbol of the burden of sin they shall be clothed so as to in-

dicate their joyfulness. 5. "Called Trees of Righteousness" (v. 3). These trees represent Israel as planted by God and bearing fruit, not as reeds bowed down with sor-

6. "They Shall Build the Old Wastes" (v. 4). Israel shall return Diapepsin" tablets your stomach feels to their own land and shall rebuild the city of Jerusalem and the cities of Judah which lie waste,

7. "Strangers Shall Stand and Feed Your Flocks" (v. 5). In the time of the kingdom the Gentiles shall render voluntary service unto Israel so that Israel may devote her whole time to the service of God. white so as to

8. "Ye Shall Be Named the Priests of the Lord" (v. 6). God chose Israel to be the priestly nation to represent Him to the Gentiles. 9. "For Your Shame Ye Shall Have Double" (v. 7). Instead of the shame

and confusion which Israel has experienced for centuries she shall have double honor and rejoicing. 10, "I Will Direct Their Work, and

Make a Covenant With Them" (vv. 8, 9). God will vindicate His people and cause the Gentiles to see the divine favor upon them.

### CLAIMS GOVERNMENT IS HANDICAP TO DOCTOR

Medical Editor Is Anxious Regarding Patronage of Bootleggers.

Cleveland, Ohio.-The Shepherd-Towner maternity act was condemned as "another form of Government bureaucracy," which "accomplished little more than the separate States are now doing and has provided soft jobs for political appointees." J. Whalen of Chicago, editor of the Illinois Medical Journal, declared here Louisville Courier-Journal. at the opening session of the fifty. third annual meeting of the American Medical Editors' Association.

Sessions of the editors' association are being held in connection with the fifty-first annual convention of the American Public Health Association. Abolishment of Government regulations over physicians in prescribing narcotic drugs and alcoholic bever ages was advocated by Dr. F. H. Mc-Mechan, editor of the Ohio State Medical Journal.

"Medical men should be permitted o use drugs and whisky in the treatment of cases without being hampered by Federal regulations," Dr. Mc-Mechen declared. "Under the present enforcement laws a bureau of laymen determines how we shall use these valuable therapeutic remedies."

Dr. MsMechan declared in treating diptheria whisky is prescribed in certain stages of the disease and that a 4-year-old child can be given a quart of whisky in twenty-four hours and not become drunk.

ference to ratify the treaties agree on at that conference, but a good man, persons outside the State departmen are continuing to ask questions abou the unexplained delay. It will be year November 12 since the armamen conference met. The United States Japan, Great Britain and China hav ratified all the treaties to wmch the are parties. France has referred th treaties to a committee of her senat and the State department is withou dependable information as to whe this committee is likely to report Italy, Belgium, Portugal and th Netherlands have not touched th treaties. The government's information is that they are waiting on France Some day, it is assumed here, Franc will ratify and the State department has every reason to believe that Italy Belgium, Portugal and the Nether lands will not delay action long afte the French ratification. Then what i known in diplomatic parlance as "th exchange of ratifications" will tak place, and the treaties will be in force In spite of the optimism in the Stat department with respect to the dela in completing ratification, there ha been for a long time and continues t be a good deal of quiet comment t the effect that the United States i being punished for her refusal to par ticipate in the affairs of Europe. I is undoubtedly true that when the cor ference treaties were agreed on her the European nations represented i the conference expected to see the Un ted States warm up toward the Et ropean problem. The British, Frenc and Italian statesmen undoubtedly be lieved when they agreed to the treatie that the United States would take rep resentation on the reparation commis sion. this government would participate i

It is admitted here in official quar ters that France can hold up the ex change of ratifications indefinitely, she has a mand to do it. The officia view, however, is that France has bee so engrossed with the European situ ation as it affects her that she has no had time to think of the Washingto treaties. It was assumed when the arms conference adjourned that th treaties would all be ratified within three or four mosths, and that unde the provisions of the treaty limiting Ilm Star-How much will you naval armament, the powers would b put on a new naval basis by midsum mer of this year. The United States adle all your divorce suits for the Great Britain and Japan, without wait ing for formal ratification of the treat limiting naval armaments, have take steps to carry out the provisions o that treaty, but the great work o wrecking battleships will not begin un til the treaty is ratified by France and Italy. Portugal, Belgium and the Netherlands are not parties to the na

The delay in completing the worl of ratification is upsetting some of the campaign plans which the Republicat national committee had made. It was proposed to have the campaign liter ature say a great deal about the work of the arms conference, and campaigr speakers were to have been instructed to dwell on the completed work of this conference as one of the great assets of the Harding administration. The conference will not be ignored by the campaign managers, but as long as the quicksilver. Calomel is danger, treaties are unratified they will have to be careful about laying too much stress on the work of the conference.

Two Proposed French Reservations.

Assuming that France ratifles, two reservations unacceptable to the other powers are proposed. Ratification with these would be equivalent to rejection, it is declared here. First, it is if it doesn't start your liver and proposed to stipulate that France's then you up better and quicker ratio of capital ships be increased from a nasty calomel and without making 1.75 to 2.5 as against the 5-5-3 ratio of the major naval powers. No This last point was bitterly contested during the conference proceedings. asse it is perfectly harmless and France losing all along the line. To accept it now would be too much to expect, particularly from Great Britain, for whose embarrassment the reservation is very plainly intended.

It is understood here that the proposal, informal though it was, for the three major powers to carry out the terms of the naval limitation agreement whatever course France and Italy took, came first from Japan. Baron Kato, who headed the Japanese delegation in Washington, has since then become premier. If anything, his government is more committed to

SLEEPLESS nights and daytime irritation, when caused by coffee drinking, often require a call on the grocer to avoid a later call on the doctor.

Postum, instead of coffee, has brought restful nights and brighter days for thousands of people-together with complete satisfaction to taste.

You will enjoy the full, rich flavor and aroma of Postum, and nerves will be free from any possibility of irritation from coffee's drug, caffeine. You can begin the test today with an order to your grocer.

Postum comes in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully 20 minutes.

## A Famous Invention That Makes The Brunswick A Super-Phonograph

of her sister, Mrs. C. O. Hamilton. greatest country in the world.

No one feature of the Brunswick Method of reproduction has done so much to revolutionize people's ideas of the difference be tween phonographs as the Utica. It was one of the many Brunswick superiorities that attracted us.

This Ultona is an exclusive Brunswick idea, covered by patent.

At a turn of the hand it plays all makes of records—not an attach ment, but a part of the design. The Ultona obtains better playing

But this is not the only advantage. It is connterbalanced—the only scientific reproducer that cushions the path of the needle by proper suspension. This means an end to "scratching" noises. It means bringing out the hidden beauties of the record. It means a longer lasting record, one that retains its newness.

If the Brunswick had no other advantages over ordinary phononographs, this one feature should decide you in its favor. But there are many other exclusive features. We want to point them out to you, so that you can make intelligent comparisons. You buy only one phonograph-you might as well take time to investigate-find out before you decide.

Let us bring you one to hear it over night in your home.
