## A Good Job

### Of Planting and Cul-Cultivation Should Be Certain.

The combined cotton and corn planters that we have in stock are just as accurate as though the seed were picked out and dropped by hand.

Together with the P. & O. and J. I. Case planters and cultivators, we want to show you latest in the JOHN DEERE one row riding cotton, corn and peanut planter that, with other conditions being right, will get for you the biggest crop your land will sustain. At the same time saves seed, and that is no longer a small item.

This planter has a steel picker wheel with teeth shaped like the teeth of a gin saw. This picker wheel separates the fuzziest, lintiest seeds without injury, and drops them one at a time. It is the one big improvement in cottonplanter construction. You cen regulate the flow of the seed to suit the field you are planting.

We cordially invite you to come in and inspect our big line of farm implements.

Declares Unreasonable to Expect Nation to Remain Calm Under **Existing Conditions** 

Berlin .- The Communists in the Reichstag suffered a complete rout when Minister of Defense Gessler effectively disposed of a charge made by the "Reds" that the Government was winking at the alleged activities of secret Nationalist organizations suspected of arranging armed opposition against the Ruhr invaders. After branding the accusations of

The treaty of Versailes, the Minister continued, did not stipulate that a defenseless people should meekly submit to attacks and blows from a force armed to the teeth. "The German people, too, has a soul," said Herr Gessler, and "it is unreasonable to expect that a Nation which daily is subjected to brutalities and bully-ragging can remain calm and reasonable in all its component parts." Herr Gessler branded as the sheer-

"The German people, for obvious reasons," the Minister continued, "is in a state of spiritual morbidity, for the treaty of Versailles prescribes that in order to inaugurate general disarmament the German people first must be disarmed, but what do we observe?

Those that struck the lava hissed away into the crater: those that came biting through the choyas made a sound which resembled a sharp ripping of silk. Nell, regaining her composure, wiped her eyes and smoothed back her hair. "The other day, Wednesday," she began, "I was coming home, and in front of that mescal drinking place crowd. It was a sandy road there, and Jose happened to be walking. So I reined in and asked these engineers what they were doing. The leader, who was that same hold fellow who had followed me, seemed much pleased at being addressed. He said he was glad to tell me he was going to run water all over Altar valley. But he began to be flirty again. He got hold of Jose's bridle, and before I could catch my breath he said I was a peach, that he wanted to make a date with me, that his name was Chase, that he owned a gold mine in Mexico. ### NEWSPAPER ADVERTIS-ING IS ESSENTIAL

No matter if the merchant has the best goods to be found and sells them at the lowest prices, unless the people came to his store to trade he is going to go broke. If a merchant is to succeed, he must get the people to come to his store. In order to get the people to come into his store he must advertise. There are various ways of advertising, by words of mouth, by handbills or posters, by billboards, or by using the columns of a newspaper.

Experienced merchants are all agreed that newspaper advertising is the best and cheapest, and the best newspaper for advertising purposes are those that go into the homes of the people. And this is the class that the Cross Plains Review belongs, We have worked to that end and spared no expense in the effort, simply for the benefit of our advertisers and to enable the merchants of Cross Plains to keep the business at home. We have the circulation, and the Review goes into the home of nearly every family in this big trades territory.
