VOL. 36 NO. 29

CROSS PLAINS, CALLAHAN COUNTY, TEXAS

"When The One Great Scorer Comes To Write Against Your Name He Writes Not If You Won Or Lost But How You Played The Game"

"Without offense to friends or foes we sketch Cross Plains exactly as it goes."

## VIEWING... PROMOTING

... he was here Thursday night... and in consideration of the fact that we know this is the best time to hit Cross Plains this month, we are presenting a special feature...

... those of you who were present at the Chamber of Commerce luncheon Tuesday, missed a very interesting and beneficial to each, if not to all, of the B-29 was in helping Japan to her knees in the Pacific. We can take the theme of the talk and build a character, and body that could only be found in Jesus Christ.

... at this time we would like to call the attention of our subscribers to a goodly number of subscriptions are expiring and becoming delinquent every day, without being done in regard to renewing. We know that this is an oversight on your part, so come in while it is on your mind. We will continue sending the Review to you, but we pride ourselves on the fact that we carry more news than any other paper we read in its category.

... The Review is not offering a special Bargain Rate this year but at the regular price of \$1.50 per year in the trade area, and \$2.00 elsewhere.

## Buff's Take Beating From Clyde Bulldogs; To Play May Tigers Here Tonight

... The Buffaloes took a genuine good licking at the hands of the Clyde Bulldogs last Friday afternoon on the Clyde field. Final score stood at 13-0 in favor of the Bulldogs.

... Both teams showed to have either pulled plenty of foul plays out of the bag or the officials needed some practice on foul-calling; our guess would be that both teams were just a bit rough. Looking from the sideline, the game consisted of mostly penalties and fumbles by both teams.

... The Buffs held their opponents to a scoreless half but the beginning of the third stanza marked a period scoring for the Bulldogs. It seemed that they could not be stopped at all on any of their plays for any length of time. The Buffs made their first score late in the third quarter, and again in the early part of the fourth when a Buff punt was returned 50 yards by the Bulldogs for a touchdown.

## Game To Start At 7:15; Plenty of Action Expected From Buffalo Squad Tonight

... The Buffaloes took a genuine good licking at the hands of the Clyde Bulldogs last Friday afternoon on the Clyde field. Final score stood at 13-0 in favor of the Bulldogs.

Before an altar banked with palms, ferns and potpourri Miss Eva Mae Tassi daughter of Mr. and Mrs. Joseph Tassi of Minneapolis, Minn., became the bride of Sergeant Boswell Burks, U. S. Air Corps, son of Mr. and Mrs. B. Burks of this city. The ceremony took place at Our Savior's Lutheran church Wednesday, Oct. 10, at 10 o'clock with the Rev. B. J. Rothman officiating at the double ring service.

The bride entered the church escorted by her father as Mrs. B. Rothman, organist, played the traditional Wedding March from Mendelssohn.

Miss Tassi was attended by her sister, Mrs. Joseph Daniel, as the maid of honor. Paulie V. Tassi, brother of the bride, was the best man.

The bride was attired in a gown of white tulle with a fitted bodice, a full skirt and a full shawl. Her hair was styled in a full roll. Her bouquet of white and pink roses was a single strand of pink and white roses from which a crown of white and pink roses was made.

Mrs. Tassi attended her daughter's wedding in a powder blue silk dress with which she wore accessories. Her shoulder was of full flowers.

A reception for the bride and immediate family was held at the home of the bride's mother, Mrs. B. J. Burks, and sister, Mrs. M. Burks, following the ceremony. A three-tiered wedding cake was served with miniature bride and groom figurines. The bride and groom were further decorated with white and pink roses.

Miss Tassi is a graduate of the Margaret high school and entered into the Army Air Corps five years ago. Mrs. Burks is a graduate of the Virginia schools and the Academy of Beauty Culture in Minneapolis. Before her marriage she was employed at Mather Field, Calif.

Mr. and Mrs. Raleigh Rutledge and small son of Waco were weekend guests in the T. W. Kell home.

Mr. and Mrs. Willis Brown were Sunday afternoon in Cross Plains. Mr. and Mrs. J. P. Pratt.

### Frigidaire Model on Display at West Texas Utilities Co.

The West Texas Utilities Co., local Frigidaire dealer here announced today that they had received their first new post-war Frigidaire model and that refrigerators have now been released for sale to the public. "These new refrigerators," they said, "have been in production for some time, but have not been available to the public due to War Production Board restrictions."

"Now that restrictions have been lifted, the refrigerators now on hand and those that will be manufactured in the future will be for sale to the public. Right now," continued Mr. Foster, "the demand for new refrigerators far exceeds the supply, and for a short while the supply will be limited, but, every day production at Frigidaire is increasing and in a little while there will be enough new Frigidaires for everybody."

"Frigidaire Division, G.M.C., began a limited production of refrigerators following the termination of its war contract in July. Following V-J Day the almost job of reconstruction and production began at the huge Dayton plants where refrigerators, electric ranges and commercial refrigeration products are being made for civilian consumption. In an unbelievable short period of time, and due to its 25 years of experience in household and commercial refrigeration, Frigidaire reached peak efficiency."

Mr. Foster stated further that "in that race to serve the American public as quickly as possible, Frigidaire did not lose sight of the fact that quality, dependability, and service are equally as important as quantity. This fact is evidenced by the exclusive developments of Frigidaire which are contained in the new models now available to the public."

"The Mer-Mor Super-Freezer, Lifetime porcelain finish, Quick-Ice Trays, Meat Tender and other advantages that have served to make Frigidaire the world's largest manufacturer of refrigerators are again present, and are made with the same or better material than was used in pre-war construction," added Mr. Foster.

"Little Wonder," concluded Mr. Foster, "the public has made Frigidaire the favorite in the past. This year, as always, it will be 'Look to the Favorite, Look to Frigidaire.'"

WITH the fall come shorter periods of daylight, and this calls for the use of more artificial light.  
Ninety-five per cent of the children enter school with good normal eyesight. On leaving school twelve years later, twenty-five per cent will be in need of glasses, and upon graduating from university thirty-five per cent will require them.  
A large percentage of defective vision is the result of eyestrain caused by inadequate lighting. Children give little thought to the care of their eyes. For instance, a favorite position when doing homework or reading the "funnies" is on the floor. Habits such as this should be corrected.  
Good light is always important. Fortunately we can now purchase for a penny as much light as cost a dollar not long before our parents were born. Young eyes have years of work ahead of them and good lighting pays in dividends more precious than money.

**"National Velvet" to  
Show Here 2 Days,  
Sunday and Monday**

A dream of glory shared by two youngsters—a dream that becomes a reality—is unfolded in deeply absorbing human terms in a fascinating new picture that has come to the Liberty Theater.

That picture is "National Velvet" produced in Technicolor by Metro-Goldwyn-Mayer with Mickey Rooney and Elizabeth Taylor as the chief protagonists. Directed and produced by those makers of hits, Clarence Brown and Pandro Berman, "National Velvet" relates the story based on Enid Bagnold's best-seller novel, of an ex-jockey who becomes the trainer of an unwanted horse owned by a 12-year girl. Their great dream is to win the Grand National at Aintree, England—the most famous, most grueling race of them all.

How they do it makes for solid entertainment, for laughter and for tears, for joy, and heart-tragedy. It brings us outstanding "carnegie" citations by the veteran actors as Donald Crisp, Arthur Treacher, Anne Revere and Reginald Owen, as well as the up and coming youngsters headed by Miss Taylor and including young Jackie Jenkins of "Human Comedy" fame and Angela Lansbury, who scored as the maid in "Gaslight" in her American debut.

As does Mr. Brown, Crisp opposes the children's idea, but understanding Mrs. Brown encourages them, gives them the entry money for the horse. Then Pie, the horse's name, becomes sick and Mickey and Elizabeth stay up all night and save his life. They finally go to the race track only to discover at the last moment that they have no rider for the horse, Elizabeth, in a desperate move, cuts her hair and poses as a boy. She goes on to win the race in what is certainly the most thrilling contest ever brought

**Buffaloes Trample  
Score of 24-7 Frid  
TO PLAY RISING STAR  
WILDCATS TONIGHT;  
GAME STARTS AT 7:30**

The local Buffalo squad came back in grand form Friday night, by defeating the May Tigers 24-7, to redound themselves off the defeat suffered at the hands of the Clyde Bulldogs the week before.

The Buffs have played 4 conference games, winning 3 and losing 1.

The game Friday night was played and won for Clendell Joy who suffered a broken collar bone in the Clyde game.

The Buffs opened the scoring with their first mark coming late in the first quarter. Doc Brown started the drive downfield for the score with a ground play beginning on his own 32 and carrying to the Tiger 10. Brown ran over center for another first and Lane cleared the ball around right end for the score. Try for extra point failed.

The Tigers had possession of the ball at the beginning of the 2nd period. The first play, a pass from Billy Sheppard to David Lee who then ran 50 yards, was good for a score. Conversion was good and the score stood at 7-0 for the Tigers. Half ended without either team seriously threatening again.

The squad will travel to Rising Star tonight to play their long-scheduled game with the Rising Star Wildcats. Cross Plains and Rising Star have been at each others throats on the gridiron for years and the seasons most exciting moment comes when the two teams meet.

Tonight's game promises to be a hot one, with the Wildcats sharing a tie with the Clyde Bulldogs while the Buffs suffered a defeat there on the gridiron for years and the seasons most exciting moment comes when the two teams meet.

**Postwar Agriculture  
Demands  
THE RIGHT TRACTOR  
FOR THE PARTICULAR JOB**

THE proverbial Jack-of-all-trades was master of none. The modern world of science and technology passed him by.

The same principle applies to farm tractors. The tractor that does a wide variety of jobs unsatisfactorily can't possibly produce the greatest results at the least cost in any job.

But that's what the farmer—particularly the small operator—has got to do to meet postwar competition: he's got to produce the most food possible with the least effort and, consequently, at the lowest cost.

The farmer with 10 acres in truck crops needs one kind of tractor. The farmer with 100 acres in wheat alone needs another kind—or, as is usually the case, two or more different tractors. The tractor which does a good job on the Great Plains may be useless in the

rice territory. And so it goes.

Conditions of climate, the lay of the land, and the character of soils in the different parts of this vast country, together with wide variations in the nature of crops and the size of operations, combine to produce wide differences in the requirements for tractors. Harvester's policy is to meet all these requirements.

That is why Harvester's postwar line includes a great variety of Farmalls and other specialized tractors and attachments rather than a single tractor with a single system of tools. Every tractor in the line was developed after scientific research and testing under actual operating conditions showed the specifications needed for efficiency and economy.

Ever, Harvester-built tractor is the right machine for its particular job.
