Watch Screwworms, County Agent Urges

BAIRD - Callahan County ranchers are urged to be on the look-out for possible screw-worm cases, advises Gregory Gerngross, County Agricultural Agent. Several cases were confirmed in South Texas this past week. Vigilance on the part of all ranchers is needed to insure that another outbreak will not occur over the state.

Periodic spraying of livestock every three weeks with Co-Ral or Ronnel will aid greatly in the prevention of screwworm infestations.

Local ranchers are urged to inspect all livestock frequently and treat all wounds promptly. If maggots are found in any type of wound, they should be collected and sent to the Mission Lab. Vials for collecting samples may be secured from the County Agent's office on the second floor of the Courthouse in Baird.

COTTAGE KINDERGARTEN ADDS PRIVATE FIRST GRADE

CLYDE - Construction was begun Monday morning at the Cottage Kindergarten for a 1st grade classroom. The new structure is expected to be completed by the end of July and will be ready for the August 25th opening day of school. Students are already enrolling in both the first grade and kindergarten class.

The first grade is recognized and approved by the Texas State Department of Education in Austin, and is in compliance with the regulation state required text books. Any child may enroll in the private first grade class and will be qualified scholastically to enroll in any public school second grade the following year. The first grade is primarily for that child whose 6th birthday falls reasonably soon after the state deadline of September 1st, and is not eligible for entrance in the public school system.

The school has hired as its first grade teacher Mrs. Lois Ferrell of Clyde, a certified teacher who retired after 40 years in the teaching profession. Mrs. Ferrell was graduated from Hardin-Simmons University with a B.A. degree, an elementary education major. Her last 18 years in public teaching were at Rising Star in third grade, when she retired. Coming to us with the highest recommendations as a very competent teacher, we are happy to know she will indeed be a great asset to the Cottage School.

Also added this year are meal tickets and transportation. Baird students, both first grade and kindergarten will be picked up and delivered in front of the County Courthouse.

The Kindergarten class will be taught by Mrs. Oscar (Marie) Brown again this year.

What New Industry Can Do For A Community

The Texas Industrial Commission has released some interesting statistics which show just how vital industry is to a community.

When a manufacturing facility brings 100 new employees into town, data compiled by the U. S. Chamber of Commerce shows it means the addition of 296 more people; 112 more households; \$590,000 more in personal income; \$270,000 more in bank deposits; and \$369,000 more in retail sales per year.

POINTS OF REBELLION

By Sterling Tucker

The Constitution of the United States gives us freedom of speech, the freedom to peacefully assemble and the freedom to petition our Government for the redress of our grievance. The writers of our Constitution should have had more foresight. Having learned from their own experience they should have provided some means for us to change unjust laws. For they had assembled peacefully, made their speech and petitioned their government, King George the Third, for redress of their grievance and had their petition fall on deaf ears. The results was violence and the war called The American Revolution.

I don't think anyone can condone senseless violence or the wanton destruction of property, such as the burning of a bank in California and an ROTC building in Ohio. I do not believe anyone can agree with young people who want to des-

stroy a university that they would not know how to rebuild or a society they could not replace. And yet, those who say that violent protest should be repressed and that dissenters have no place in America are just as wrong as the burners and the rioters. Sometimes the Constitutional process bogs down in the muck of politics and the bureaucracy of the government and unjust laws can't be changed peacefully. Sometimes the injustices pile so high and the law changing process is so slow that violent protest is the only answer.

Supreme Court Justice William O. Douglas has recently written a 97 page booklet entitled "Points of Rebellion." Justice Douglas said "King George the Third was the symbol against which our founders made a revolution, now considered to be bright and glorious. We must realize that today's establishment is the new King George. Whether it will continue to adhere to its tactics we do not know. If it does, the redress honored in our tradition is also revolution."

Justice Douglas has been severely criticized by many people for his book, Points of Rebellion. Congressman Omar Burleson has called it "a tirade against the American establishment, the Pentagon, the FBI, the CIA, the police, employers and educators." Some of the criticism is justified, most of it is not, I think. There is a great deal of truth in what Justice Douglas says. History bears out the fact that when the legitimate protest and grievances of the people go unheeded and fall on deaf ears, then violent revolution is the inevitable result. I would hope that the American establishment recognizes the fact there are some legitimate grievances the young people have, and that the "establishment" will not become the King George of our day.

GRAIN FIELDS READY TO BE COMBINED IN UNION AREA

Hi neighbor! Been two weeks since I said Hi to you, Roma McIntyre and I went to Vernon to visit Mildred and Gerald Carter and spent a week there. We came home a week ago today, Tuesday.

Some have their grain combined but we don't have any harvested yet. Weather is too damp and the grain has some green heads yet. If the weather would clear up we would all get ready to harvest in a hurry. Sure is nice weather on people but not on grain.

John and Roma attended a homecoming at Oplin Sunday. They reported somewhere about 500 attended.

It attended Fay and Emmett Wood family reunion Saturday night at Ranger. The reunion was at the home of Holmes and Peggy Wood, close to Ranger. There were forty some-odd attended. They have a lovely place to have a reunion - had lots of good food and nice shade trees and big yard and pretty home. Everyone seemed to have a good time Burette and Johnny May Ramsey were there for dinner and spent the afternoon Sunday.

Mr. and Mrs. Bill Brown and family of Fort Worth and Ollie Burnam spent the weekend in Midland with relatives.

The 88 party met last Thursday night in the home of Mr. and Mrs. Bill English, north of Moran, with 14 present. We had a good time.

Several out this way have their cotton planted or are planting. The weather here is cool - was 64 about 9:30. Guess it will warm up by noon.

Mr. and Mrs. Jesse Burnam of Idalou visited out in this community while I was in Vernon. I got to see them Monday night before I went to Vernon two weeks ago. They both are looking good and kinda like me, glad around a lot, which I think does them good.

The bridal shower for Miss Connie Feely last Friday evening in the home of Mr. and Mrs. Weldon Isenhower was well attended. I did not get all the names of all who were there - some from Fort Worth, Abilene, Cisco and all other surrounding towns. It was a lovely shower, Guess I better say bye for now. See you next week.

TAX MAN SAM SEZ:

The Tax Reform Act of 1969 is helping thousands of Texas students save time and trouble on filing an income tax return this year. This summer students who will not owe any income tax for the year can fill out the new Withholding Exemption Certificate, Form W-4E. This authorizes their employer to stop withholding tax and they won't have to file an income tax return next January 1 to get their money back. The same rule applies to some retired persons and part-time workers.

For 1970, a single person who makes less than \$1,725 owes no tax. This is based on the \$1,100 personal exemption and a personal exemption of \$625. A taxpayer over 65 can earn wages up to \$2,350 without incurring a tax liability. If you qualify, talk to your payroll office, but you will not ordinarily qualify if you are married due to the community property law in Texas.

AUSTIN — Pollution of Texas beaches brought strong recommendations to Senate committees for curbs on offshore oil exploration, vigorous enforcement of anti-spill regulations and creation of a national oil company.

Senate beach and pipeline study committees listened to a full day of testimony. Highlights included:

Complaint of pipeline committee consultant Terence O'Rourke that state agencies seldom file cases to collect fines for oil spill pollutions. O'Rourke said Texas would have a fund of "millions of dollars" from fines to combat pollution if strong enforcement were the rule. Railroad Commission Chief Enforcement Officer Roy Payne acknowledged under questioning that the Commission has never filed lawsuit to punish accidental pollution through spills.

Statement by Sen. A. R. Schwartz of Galveston that the oil industry should not be permitted to drill in coastal waters until it can give assurance it has technology to prevent spills.

Recommendation of Sen. D. Roy Harrington of Port Arthur that double safety devices be installed on huge coastal rigs so emergency manual shut-offs could be used when automated equipment fails or is destroyed by fires.

Suggestion by Austin journalist Ronnie Dugger that a national oil company be established to produce oil on public lands. Dugger said former Gov. Ross Sterling, himself an oil company executive, as far back as 1931 had proposed the state drill its own oil and that President Nixon's task force wants to federal government to finance exploration and development of an emergency standby reserve.

Recommendation by governor's aide John Shanahan Jr. for tighter rules over oil industry operating in state waters and legislative designation of responsibility for oil spill contingency planning.

COURTS SPEAK — In district court cases at Houston and El Paso, Atty. Gen. Crawford C. Martin won first judicial orders checking air pollution by trash burning in industrial smoke. Civil penalties were assessed in the Roberts' Dump case, Houston. An El Paso smelting and refining firm was given deadlines for installing anti-pollution devices.

Supreme Court held that cities under 5,000 (Lindale) cannot annex territory without consent of the people living in the area.

High Court set July arguments on the issue of whether an insurance company (Allstate) issuing uninsured motorists coverage should be allowed to enter court against its own policy holder on the side of uninsured drivers to prove its client was partly at fault or his injuries less than claimed.

Supreme Court reversed the \$42,892 judgment awarded a 79-year-old woman injured in a stairway fall at Houston's Astrodome.

Attorney General announced acceptance of voluntary compliance from a Beaumont housewares franchiser, agreeing to discontinue advertising and sales practices questioned as deceptive.

APPOINTMENTS — Former State Rep. Bill Hollowell of Grand Saline is the new director of hearings and permits for Texas Water Quality Board. Jim Showen, who served as acting director, will continue to serve as senior hearing examiner.

Houston Mayor Louis Welch was named to a vacancy (succeeding Al Henry, also of Houston) on the Texas Criminal Justice Council.

San Antonio public relations man Jim Battersby was named executive vice-president of Discover Texas Association to replace James M. Gaines, who became director of HemisFair

Plaza in San Antonio. Headquarters of the privately-supported tourist-promotion group also moved with Battersby from Austin to San Antonio.

SHOULD JP'S BE LAWYERS? — State Bar will take up a resolution at its San Antonio convention July 2 urging the legislature to require urban county judges and justices of the peace to have credentials as lawyers.

Resolution suggests attorney qualifications for judges of counties over 50,000 and for JP's in counties over 200,000. Among other resolutions on the agenda is one seeking higher pay for lawyers in military service.

REGULATORY AUTHORITY SOUGHT — State Department of Agriculture has requested power to outlaw chemical compounds harmful to public health.

Commissioner John C. White also proposed in a meeting of the Interim Legislative Study Committee on Land Use and Environmental Control that the legislature regulate disposing of pesticides and chemical compounds that are no longer needed, no longer used or banned from use.

Committee called the meeting following a report on cumulative effect of the pesticide DDT on animals.

White repeated his previous statement that he knows of no case in which humans have been harmed as a result of the use of DDT in agriculture.

Same Committee was told by a Florida biologist that oysters taken from the Arroyo Colorado area of Laguna Madre had the highest DDT concentrations of any in the nation. This, the biologist said, is a reflection of intense agricultural activity in the Rio Grande Valley. Oysters, according to the same authority, are not killed by DDT, but fish that eat them are.

A Texas Parks and Wildlife Department spokesman said hydrocarbons (such as DDT) cannot continue to be used without serious degradation of the world ecological system.

OBSCENITY CRACKDOWN — Federal Court in Dallas held that almost all of the new state obscenity control law is constitutional, and Attorney General Martin predicted a crackdown on distribution of obscene material will result.

Only section of the law invalidated was on allowing seizure of material without a hearing.

Ruling rejected requests for injunction of book stores and movie houses in Dallas, Amarillo and Lubbock.

SMALL TOWNS IN TROUBLE — Noting preliminary census figures discouraging to many communities, Gov. Preston Smith said revitalizing the small towns of Texas may be tougher than starting them.

"Right now," said Smith in a speech at Crane, "the people of Texas - whether they live in the largest city or the smallest rural community - have some problems as tough for them as were those that confronted the 'frontier busters.' In many respects, our challenge and our tasks are more demanding and much more complex. The preliminary reports on the census of so many of our smaller cities spell out in box-car size letters that as much tenacity - just plain guts - is required to tackle that job as the old-timers needed."

WEIGHTS EQUIPMENT ACCEPTED — National Bureau of Standards presented the state with \$80,000 worth of weights standards and calibration equipment.

Precision instruments will be used in the new Department of Agriculture Weights and Measures Laboratory just dedicated here. Equipment is first of kind officially issued to states by the federal government since the 1840's, and the Governor said it will benefit industry, commerce and consum-

HAWKS OUTLAST RANGER 24-14; TAKE JETS 8-7

CLYDE — The Hawks defeated the Abilene Semi-Pro Jets again Friday night 8-7. They were led in hitting by Jimmy Newman, who had 2 for 3 and Wilbur Nettleton, 2 for 4. David Everett started on the mound for the Hawks and was the winning pitcher.

Tuesday night the Hawks went to Ranger to face the team they tied with for the league title last season, and came away with an unbelievable 24-14 victory.

Ranger took a 1-0 lead in the first inning, only to see the Hawks score 2 in the second, 3 in the third, 5 in the fourth and 8 in the top of the fifth, for an 18-2 lead. Ranger then came back and scored 10 runs in their half of the fifth, for a total of 18 runs scored in one inning. The Hawks scored 6 more in the seventh and Ranger tallied 2.

Jimmy Newman was the big stick as he moved into the cleanup spot in the batting order just for this game. Jim appeared determined to make the managers look good as he responded with 5 hits in 6 times at bat. Among his hits were 2 doubles and a 350-foot 3 run homer in the 5th. Lending batting strength was Tim Copeland with 3 for 3; Rusty Stovall, 3

for 4, and Craig Loper 3 for 5. Wilbur Nettleton started out and was winning pitcher.

The Braves will meet the Clyde Cougars Thursday night at Clyde Bradford Field.

The Yankees won 15-1 over the Colts in the late game. Steve Holcomb pitched three innings of perfect ball, with no one reaching first base. Randy Edwards and Daryl Shelnut pitched the last three innings.

Giants won again as they had a close call with the Braves, 6-4. Jimmy May was on the mound for the Giants and Curtis Chiappone for the Braves. May struck out 15 batters and Chiappone struck out 4. Giant runs were made by Buddy Moore, Randy Cummings 2, Miller Scott, Jimmy May 2. Brave runs were made by Donnie Benson, Curtis Chiappone, Tracy Tedford and Shaw.

Tuesday night, the Red Sox came alive to win 3-2 over the Yankees. David Roberts of the Red Sox joined the home run crew as he knocked one over the fence for the third run of the game. Yanks scores came later in the game but failed to pass the Sox. Bobby Mize pitched for the winner and Ely was on the mound for the losers.
