MUTSCHER APPOINTS TEXAS HEALTH CARE COMMITTEE

AUSTIN — Speaker G. F. (Gus) Mutscher today made good his promise to appoint a Texas Health Care Committee to work with local citizens, federal administrators and the Congress to try to head off a medical crisis which threatens to close some 170 Texas hospitals.

"Present problems in handling the medicare program, especially in regard to hospitals and hospital care, are placing a tremendous burden on local facilities. The retroactive denial method of denying payments for services rendered is alarming hospital administrators throughout the state," Mutscher said.

"The Federal Government should find some better method of handling these problems than is used by the present administration. The very thought of the possibility of closing 170 hospitals is diametrically opposed to my plan of greater health services for the people which I presented to the Legislature in January, 1969."

"I am particularly concerned about this problem as it relates to the small towns and communities, for without health services, hospitals and medical facilities our rural communities cannot prosper and grow," Mutscher emphasized.

"Five outstanding laymen and five House Members, all vitally interested in the work of this committee, have enthusiastically agreed to serve on this commit-

- AN OPEN LETTER -

My name is Callahan County Hospital. I was built in 1938 so I am almost thirty two years old. I am YOUR HOSPITAL. I am not bad looking although my face could use an uplifting. I have been well cared for through the years. Some major and some minor repairs have been done to me which helped my looks and my efficiency but the people who run me know that I need more. They have been told that my hollow-core doors, twenty-one of them must be replaced with solid slab doors to meet the Medicare requirements concerning one hour fire rating. We all know this should be done because it is for the protection of our patients in case a fire should occur. But how these doors cost!

Although my lights have never been off or my doors have never been closed, both may happen without help. Another doctor would have been the answer to many prayers. But the new doctor didn't come so the ones who take care of me fear that I will soon close. They all worked so hard getting me ready for the Medicare Survey, and since so many small hospitals in Texas have been closed by Medicare, they were afraid that I wouldn't make it — but I passed!!

During the past year, I have housed an average of fourteen patients daily and in the past four years have registered about 2,200 patients, many who were treated more than one time. Since 1938, some 15,000 patients have been treated under my roof. Present employment involves some thirty-eight persons with an annual payroll of approximately \$150,000.00 So, you see, I am a valuable asset to you and to Callahan County.

Some of my patients could not pay their bills but I am able to pay. Many of your loved ones were born here and many of them died here. The care given is the best that anyone could ask for since the nurses and the doctors are so dedicated to my cause. Although there have been periods of financial difficulty in the past, they have never been as severe or as acute as they are now.

I wonder if you really realize who I am and the help I can be or have been to you? I am here if you want me, but it is up to you. Do I continue to serve you, keeping a never dying vigil for the ambulance to arrive at my back door with a badly injured or gravely ill person who needs my help? Or do my lights go off forever? I am here to serve you and to give you the help you need. Don't let my condition get worse before it gets better. I need to know — It is up to you. Do I stay open?

Burleson Introduces Bill To Help Small Hospitals

NOTE: Congressman Omar Burleson's staff advises us that he has introduced legislation to amend the Social Security Act which would exempt hospitals having 50 or fewer in-patient beds from the requirement of full 24-hour registered nursing services and his legislation also calls for the relaxation of such other requirements when applied to institutions having fewer than 50 in-patients, as requiring an autopsy being performed on 20 percent of deaths occurring in such hospitals.

"AS IT LOOKS FROM HERE"
Omar Burleson, M. C.
17th District, Texas

WASHINGTON, D. C. — The National Health Crisis has been discussed heretofore and from all indications it may get worse before it gets better. There is, however, concentrated attention being given to meet the situation. In spite of the high cost, the overcrowding of facilities, and shortage of technical help connected with illness, more people are receiving better care than ever before. But there are deficiencies which still have to be met for certain hospital to qualify under the Medicare program.

Special efforts are being directed to providing better nursing care. We probably have some of the best nursing home to be found anywhere but from reports there are also some pretty bad ones.

One of the great unanswered challenges is the shortage of nurses and yet small hospitals in many of our small towns are being denied medicare benefits because they do not have, and cannot afford to have, at least one registered nurse on duty for each 8-hour shift.

Many of our older and smaller hospitals do not meet the safety standards set by regulations under the Medicare Program. In many instances these physical facilities can be improved to the extent of qualifying but no one wants to spend the money necessary if they are unable to have at least three registered nurses on duty over a 24-hour period.

In Texas alone there are some 170 hospitals which may have their medicare benefits terminated if they have to comply with the unbending strictness of the rules and regulations laid down by the Department of Health, Education and Welfare. Like most, if not all, Federal programs, administrators must "go by the book" but the book itself, in the form of rules and regulations, is forcing the closing of some small-town hospitals. This means that elderly patients would have to go to a hospital located in some larger town. Elderly people accustomed to local care just simply don't

want to leave their community.

Everyone agrees that any hospital or nursing home should have the best and most modern care available but when regulations and rules leave no hospital at all people the understandably upset. There should be more time for modernizing

buildings to meet proper safety standards but under the rules this still leaves the requirement for nurses.

Licensed Vocational Nurses do a very fine job and could well, under the general supervision of doctors and registered nurses, fill the practical needs.

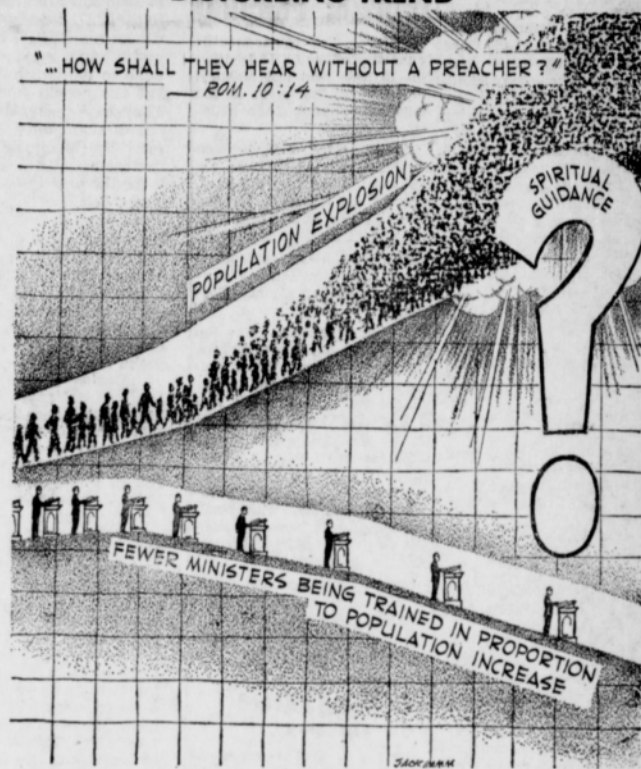

There is an area for common

sense to be provided and particularly until reasonable deficiencies can be met. A hospital less than two years old in South Texas faces the prospect of being denied admittance to the Medicare Program because of the requirement of equipment which probably will not be used and lack of nurses which it cannot obtain.

DOCTRINE OR NO DOCTRINE

(continued from last week)

So, it is not a matter of doing away with doctrines (for that is impossible), but it is a question of what doctrines will we accept. How are we to determine what doctrines are right and should be accepted, and what doctrines are wrong and should be rejected?

Fortunately, we do not have to rely on human judgment. The Bible answers the question for us. Christ said, "But in vain they do worship me, teaching for doctrines the commandments of men." Matt. 15:9. If there is no authority for some doctrine other than what man thinks, it is to be rejected.

John the Apostle wrote, "Whosoever transgresseth, and abideth not in the doctrine of Christ, hath not God. He that abideth in the doctrine of Christ, he hath both the Father and the Son. If there come any unto you and bring not this doctrine, receive him not into your house, neither bid him God speed." 2 John 9. If a doctrine does not have the authority of Christ behind it, it is to be avoided.

Jude verse 3 says, "Contend earnestly for the faith once delivered to the saints." If a doctrine is not as old as the New Testament, we must not contend for it.

Paul warned, "But, though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed." Gal. 1:8. So we must reject any doctrine that is not in harmony with the teachings of Paul (or other apostles).

The inspired word of God must be used as the measuring rod for all doctrines. This is all we need to determine whether a doctrine is of God, or of men. The Bible is a book of doctrine. Our only hope of settling the matter of doctrine lies in accepting what the Holy Scriptures teach whether it coincides with what we believe or not. We must be willing to investigate differences in doctrine in the light of God's word. Shutting our eyes to the predicament and hoping it will go away will never solve it.

Get your Bible out; dust it off and see if it teaches the doctrine you hold. If you are not right, get right before it is too late.

Are You Getting Ready To Retire?

ABILENE — If so, James Smith, social security field representative who visits Baird has some tips to save you time and trouble.

A telephone call to the social security office (915-677-5262) is a good first step. The office can answer your questions and tell you how to apply and when to do it. In some cases they can call you back and complete the application by phone and mail it out to you for signature.

Otherwise they'll tell you when and where to meet him.

Have your social security card or a record of your social security number, some proof of your age, and your last year's income tax return if self-employed or withholding statement if an employee.

The best evidence of age is a birth of baptismal certificate made at or near the time of your birth. However, if neither exists, other documents may be used. Generally, the older the document the better.

It's generally a good idea to apply about 3 months before

you retire. Don't delay because you don't have any of the required documents or information. The people in the social security office will be glad to help you get the necessary information.

If you are housebound and unable to come to the office, arrangements can be made for taking your application by mail, or, if necessary, someone can come to your home. Just let the social security office know.

How to build a family nest egg with U.S. Savings Bonds.

It takes money to feed a family.
It takes money to clothe a family.
It takes money to house a family.
It takes money to send the kids to school, buy a car, give birthday presents, make insurance payments and pay the doctor.
With all the dues it takes just to make it from one day to the next, how's a man going to find a buck to tuck away? How's he going to sock away enough to make tomorrow a better day? How's a man going to build a family nest egg?
It might be easier than you think. All you have to do is sign up for the Payroll Savings Plan where you work. That way you can have a small amount taken from your paycheck, before you receive it, and invested in U.S. Savings Bonds. Your nest egg grows automatically each and every payday.

Jan Dowden Selected Sweetheart Of Heart of the Hills Twirling Camp

CLYDE — Jan Dowden, daughter of Mr. and Mrs. Wayland Dowden of Clyde, was selected sweetheart of the "Heart of the Hills" twirling camp which is an annual camp held in Hunt. She was selected by a vote of the students attending camp. This was the second year in a row that the Sweetheart of the camp was a member of the Clyde band. Last year's sweetheart was Lee Ann Brown, who is this year attending Tarleton, playing in the band and fronting the band as a twirler. In the finals of this year's contest was Lucy McClaran, another of the Clyde majorettes.

While at camp the majorette line was each awarded a medal for 1st in ensemble dance routine and Becky Spears, Clyde drum majorette, was awarded two medals, one for divisionals and another for twirling competition. Besides these five high school students, over twenty other Clyde band students went to band school at Abilene Christian and Texas Tech in Lubbock.

STATE CAPITAL Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN — A legislative committee is sampling recommendations for sweeping court reforms, including creation of judicial system administrators with authority to send judges wherever they are needed. Judicial section of the State Bar will detail its proposals at an October meeting in Galveston.

Judges and practicing attorneys gave the House judiciary sub-committee, at a hearing in the capitol, their ideas for improving and speeding up court machinery. Sample recommendations include: Strong court administration, including authority to ignore present district lines in assigning judges to duty where the action is.

Giving 14 Court of Civil Appeals power to handle intermediate appeals of criminal, as well as civil, cases to ease load on overworked Court of Criminal Appeals (which now receives appeals direct from district courts all over the state.) Creation of a "unified" court system (a variety of plans have been suggested) to insure an even work load on courts, again by shifting judges to areas where dockets are overloaded. Automatic judicial redistricting by a five-member board if the Legislature refuses to do the job.

Removing judges from politics. Stiffer fines and jail sentences for contempt of court to help prevent court disruptions like those which have shocked the nation in recent months.

Simplification of the judicial article of the state constitution so the Legislature can make necessary changes without having to submit constitutional amendments. "The climate for judicial reform was never so good," Supreme Court Associate Justice Jack Pope told the committee members. "But if reform is passed up this session of the Legislature, it may be too late."

OIL ALLOWABLE AT RECORD — Texas Railroad Commission boosted the oil allowable for September to 79.9 per cent of potential - highest level since October 1951. Order is seen as likely to boom production higher than during the Arab-Israel war in 1967.

Chairman Ben Ramsey noted that the Commission's staff report warned the higher factor could cause pollution, wasting of gas and pipeline bottlenecks in some areas. A major oil company spokesman said Texas crude oil stocks are down 4.5 million barrels from 1969. A rapid decline in imported oil was noted.

September allowable would provide for a maximum daily production of 4,166,870 barrels, although actual production is estimated at 3,409,000 barrels a day. Latter is just under the written nominations of major purchasers for 3,428,395 barrels of crude daily. Production in August at 70 per cent factor was estimated at 3,310,000.

MERCURY RULES URGED — Texas Water Quality Board has been urged to adopt tougher mercury discharge limits or out-law discharges outright. A Federal Water Quality Administration official and a top Texas Parks and Wildlife Administrator recommended even tighter controls on mercury and other heavy metals than proposed by the Board.

Spokesmen for Diamond - Shamrock Chemical Company and American Smelting Refining Company, on the other hand, argued that the proposed five parts per billion mercury discharge level is beyond their capacity. They called for a delay in adoption of the standards. Federal officials took exception to the state Board's order which said there is no evidence of public health hazard from heavy metals contamination in Texas. He pointed to mercury coastal waters and in certain

species of salt water fish and shell fish. He noted, in particular, industrial waste along the Houston ship channel and its Lavaca Bay.

CELIA JOBLESS AID PAID — Texas Employment Commission will pay disaster unemployment assistance to persons unemployed as a result of Hurricane Celia in a dozen South Texas counties.

These are Atascosa, Aransas, Live Oak, McMullen, Bee, Jim Wells, Nueces, San Patricio, Refugio, Goliad, Karnes and Williamson Counties. Those eligible include persons who worked or were scheduled to work in the areas but who no longer have jobs or places to work or could not reach their place of work because of storm damage.

Also eligible are those who lived in areas and could not get out to work elsewhere, those who could not go to work because of injury or illness due to the disaster, those who became heads of households and needed to work due to the death of the family breadwinner during the emergency period, or those who had completed work training and could not find work because of hurricane damage.

WELFARE REGION ESTABLISHED — A new State Department of Public Welfare region serving six South Texas counties will go into operation on September 1 with headquarters in Laredo.

M. J. Raymond Jr. will serve as regional administrator for all department programs in Webb, Duval, Jim Wells, Jim Hogg, Zapata and Starr Counties. Counties previously were part of a larger region. Department now has a 17-region setup.

APPOINTMENTS — Governor Preston Smith reappointed Dave Smith of Austin to the board of trustees of the Employees Retirement System of Texas.

Governor also reappointed Paul G. Veale of McAllen and W. M. Bell of Donna to the Rio Grande Valley Municipal Water Authority board of directors and Dr. Frank Lamont Jennings of Galveston and Thomas Frank Jennings of Winnie to the Gulf Coast Waste Disposal Authority.

William Terry Bray of Austin is new assistant solicitor general of U. S. Department of Justice.

Dr. Robert D. Mettlen was designated assistant to the president of the University of Texas at Austin effective September 1.

COURTS SPEAK — U. S. Fifth Circuit Court of Appeals denied Texas' appeal on who has jurisdiction in a Padre Island buried treasure case. U. S. District Judge Reynaldo Garza of Brownsville had held on June 12 that he could take jurisdiction in the dispute over ownership of the recovered artifacts. State wants the articles. So does Platero Ltd., of Gary, Ind., salvage firm which recovered them. Atty. Gen. Crawford C. Martin filed a triple damage, anti-trust suit against three big drug firms, accusing them of conspiracy in restraint of trade leading to a monopoly in Ampicillin and other synthetic penicillins.

State's request for lifting an injunction against enforcing the private bottle club guest rule has been delayed until September 30 by the Austin District Court.

Meanwhile, the chairman of the Alcoholic Beverage Commission, Tom Gordon of Abilene, said ABC would be in contempt of court if it tries to crackdown with "Rule 56."

Bottle clubs said they will appeal the top state court rule which upholds the U. S. Supreme Court ruling.

SHORT SHORTS
William Steger of Tyler announced his candidacy for reelection as State Republican chairman at the September 15 state convention in Dallas.

Governor Smith has recommended that the federal government take over the entire cost of welfare programs in states.
