## LOCAL MARKETS

The Ginners' Report gave 14,447,623 bales up to Jan. 1, which would indicate a considerable smaller crop than has been estimated, which may account for a small rise in the price of cotton, the price for the best cotton row bringing 7½c and better. No. 1 peanuts are bringing about 55c. Good wheat is bringing \$1.00 and more, and oats 44 to 50c.

### Sell Three Cars of Oats

The Watson boys of the Burkett country have sold three cars of oats to be delivered right away at Cross Plains at 48c. Higginbotham Trading Co. being the purchasers. Oats at that price is a nice "combatant" for low-priced cotton, and in that quantity at the price they should take the place of quite an acreage of the fleecy staple.

### TO THE LADIES

You can buy a nice kitchen cabinet by paying one dollar down and one dollar per week from Rutherford. You will never miss the money when you pay it this way. Come on and get yours.—C Rutherford

## BANK REORGANIZED

The Bank of Cottonwood Has Been Reorganized With More Local People Interested

January 2nd the Bank of Cottonwood was reorganized, some of the old stockholders selling out and new people buying in. Paul Ramsey, the former cashier, has moved to Tulia.

As it now stands the stockholders and officers are as follows:

W. A. Everett, President; Geo. Coats, First Vice President; Jim Coffee, Second Vice President; W. Homer Shanks, Cashier. W. P. Wilcoxon, I. C. Thompson, J. W. L. Scott, W. S. Hinds, Bob Norrell, B. L. Russell, Paul Ramsey, and perhaps others whose names could not be recalled. Until about the middle of February at which time Mr. Shanks can move to Cottonwood to assume his duties as cashier Mr. W. A. Everett will act as cashier. The Cottonwood bank has done well considering the times and the size of the town, and that it will continue to prosper is promised in the personal of the new management.

## Child Badly Burned

Saturday C. W. Worthy's baby girl's clothes caught fire while playing near the fire and the little child was badly burned before the fire was put out by a sister. Mr. Worthy had stated to Cross Plains and his boy hurried to overtake him. The child is but two or three years old. Its condition is said to be critical.

### A Correction

In The Review's write up last week on the Cream business for Cross Plains we were in error in giving the total amount of business done for the year. We had the figures on the Neeb Produce business, and asked Bill Gibbard, manager of the Meat Market who buys for the M-B Ice Cream Co., as to the amount they had done, and he remarked that he supposed it was about the same as for the other agency. D. P. Carter, who owns the Meat Market, has totaled the amount of money paid out to farmers for cream during the year 1914 and he finds it to be \$6,142.95, which runs up the amount for the year about \$2,700.00 or makes a total business for the year of \$9,500 in round numbers. We are glad to make the correction, both in justice to the local agents and the town as respects the volume of business done.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

We received two or three letters from the country that should have appeared in this issue. but will not on account of lack of time for setting up of same. To insure publication all letters must reach us by Tuesday's mail.

**Did You Ever Stop to Think?**

If you read this article through thoughtfully you will, and if you are young you will think twice.

Did you ever stop to think that you do four things, just four and no more? You think; you remember; you imagine; you act. When you learn to think better, remember better, you are increasing your efficiency, and, therefore, your income. You may feel that you are very successful now. Suppose you are: it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all the laws means complete success. Our aim is to help you observe a higher per cent of the laws of success, and, therefore, enable you to be nearer the maximum success. The late Prof. James of Harvard declares that the average man only uses ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean you are only twenty per cent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. Did you ever stop to think that eighty-five of the men of this country are only earning \$15

a week or less? That ninety-two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? We have been very successful in getting men out of the eight-five, the ninety-two and the ninety-five per cent class. Why not let us help you? We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalog from former students. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of a man; you can if you will. We know that a man is worth only about \$2.00 a day from the chin down, selling muscle, but as high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell the higher type of brains; you can't afford to be a chin downer; there's no room for such a man in the high salaried class. Take our thorough, practical courses of Bookkeeping, Shorthand, Business Administration and Finance and Telegraphy., to learn how to think, to think, to remember, to imagine and act.

In this day of progress the man who would succeed must be informed about the world's doings. The local paper gives him local information which is needful, but it cannot cover the whole field. Hence the man who would keep step with the march of the times he will take a general newspaper also.

The Fort Record Semi-Weekly Record has taken front rank among the great publications of the south and west. It is specially prepared for the reader who has not the time or the opportunity to read a daily paper.

First of all, it is a newspaper. The Record believes that the people of the country and village are as much interested in current events as the people of the city.

In the next place, it carries features suitable to all members of the family—women and children as well as men.

Last, but by no means least, the Record's editorial policy comprehends the economic welfare of the farmer and stock raiser. The Record is an acknowledged leader in the discussion of public questions in their relation to agricultural production.

In subscribing through this office you can get the Fort Worth Semi-Weekly Record together with the Review, both papers one year for only \$1.75.
