GALLAHAN COUNTY MAN WINS AT ABLINE

R. G. Jones of Cottonwood Wins Grand Prize for Individual Exhibit at Abilene Fair.

The many friends of Bob Jones of Cottonwood and Callahan county in general are glad to learn that he won the first prize for individual exhibits at the Central West Texas Fair at Abilene last week. Mr. Jones, who is some diversifier, had 104 varieties of truck in his collection, and every one of them something useful for man or beast. J. M. Hembree, who attended the Fair, says that Mr. Jones won over a very pretty exhibit from Hamby, Mr. Jones saying that his exhibit was awarded the prize from his great number of different crops and their utilitarian value. \$50.00 was the premium offered and we understand that he sold the exhibit for \$25.00. Callahan county and Callahan citizens are hard to excel.

TO PREACH SUNDAY AND SUNDAY NIGHT

Rev. W. R. Earp, State Evangelist, for a number of years pastor of the Coggin Avenue Baptist church at Brownwood, was here Monday

night. He will preach at the local Baptist church Sunday next and night. All are requested to come out and hear him.

See how cheap you can buy a stylish tailor-made suit at—Garter's.

BIG PEANUT CROP

From all around come reports of a big yield in peanuts. Boyd Foster of Pioneer has sold his crop at 57 1-2 cents and got 40 bushels to the acre. G. W. Carey of Pioneer is reported to have made a big crop. Clark Rollins will make a big yield on John Conlee's farm. And so on in all the sand.

The price, too, is not bad. Every precaution should be taken to harvest the nuts in good condition, or else the price will be ruined. The peanuts are a fine substitute for cotton this time.

FIRST LYCEUM NUMBER A SUCCESS

Rounds and his All-Star Co., as he terms his bunch, entertained a good house at the picture show building Saturday night, their entertainment consisting mostly of music, from the classical to the most popular ballads. Everybody was well pleased, this number being called by many, and especially those who love music, the very best attraction our town has ever had. Theirs was a high class entertainment in every respect.

SELLS HOTEL

Mr. and Mrs. Jim Cross have sold their hotel, the Central, to S. F. Knight, getting as part pay property in Coleman and Ballinger. They will move to Ballinger, and Mr. Knight and wife will take charge of the hotel. Mr. Knight was formerly owner of the livery stable here and is well acquainted.

TRADES DAY A BIG DAY

From what we can learn from the merchants, trades day was a success in every respect, all having all the trade they could wait on. The Racket Store, Boydston's, Higginbotham's, the Mercantile Co., Forbes & Adams, The Candy Shop, all who advertised for this day, report good returns.

SYNOPSIS.

The New York police are mystified by a series of murders and other crimes. The principal clue to the criminal is the warning letter which is sent the victims, signed with a "clutching hand." The latest victim of the mysterious assassin is Taylor Dodge, the insurance president. His daughter, Elaine, employs Craig Kennedy, the famous scientific detective, to try to unravel the mystery. What Kennedy accomplishes is told by his friend, Jameson, a newspaper man. After many fruitless attempts to put Elaine and Craig Kennedy out of the way the Clutching Hand is at last found to be none other than Perry Bennett, Elaine's lawyer and the man she is engaged to marry. Bennett flees to the den of one of his Chinese criminals. The Chinaman forces from Bennett the secret of the whereabouts of \$7,000,000. Then he gives the lawyer a portion which will suspend animation for months. Kennedy reaches Bennett's side just after he has lost consciousness.

TWENTY-FOURTH EPISODE

SHADOWS OF WAR.

It was a day or two after the escape of Wu Fang and Inez. Kennedy had Chase and another detective, whom he frequently employed on routine matters, at work over the clues developed by his use of the sphygmograph. Elaine, anxious for news, had dropped in on us at the laboratory just as Kennedy was hastily opening his mail.

Craig came to a large letter with an official look, slit open the envelope, and unfolded the letter. "Hurrah!" he cried, jumping up and thrusting the letter before us. "Read that."

Across the top of the paper were embossed in blue the formidable words:

United States Navy Department,
Washington, D. C.

The letter was interesting:
Professor Craig Kennedy:
The University, New York City.

Dear Sir—Your teleautomatic torpedo model was tested yesterday and I take great pleasure in stating that it was entirely successful. There is no doubt that the United States is safe from attack as long as we retain its secret. Very sincerely yours,
DANIEL WATERS,

Assistant Secretary.
"When are we going to see the wonderful invention, Craig?" I added as I grasped his hand and, in return, he almost broke the bones in mine wringing it.

"As soon as you wish," he replied, moving over to the safe near by and opening it. "Here's the only other model in existence besides the model I sent to Washington."

He held up before us a cigar-shaped affair of steel, about eight inches long, with a tiny propeller and rudder of a size to correspond. Above was a series of wires four or five inches in length, which, he explained, were the aerials by which the torpedo was controlled.

"The principle of the thing," he went on proudly, "is that I use wireless waves to actuate relays on the torpedo; the relay releases it. That is, I send a child with a message; the grown

man, through the relay, does the work. So, you see, I can sit miles away in safety and send my little David out anywhere to strike down a huge Goliath."

He had scarcely finished his brief description when there came a knock at the door. I answered it. It was Chase and his assistant.

"We've found the place on Pell street," they reported excitedly. "It's No. 14, as you thought. We've left an operative disguised as a blind beggar to watch the place."

Half an hour later we turned into Chinatown from the shadow of the elevated railroad on Chatham square, doing our best to affect a Bowery slouch.

We had not gone far before we came to the blind beggar. He was sitting by No. 14 with a sign on his breast, grinding industriously at a small barrel organ before him on which rested a tin cup. We passed him and Kennedy took out a coin from his pocket and dropped it into the cup. As he did so he thrust his hand into the cup and quickly took out a piece of paper which he palmed.

The blind beggar thanked and blessed us, and we dodged into a doorway, where Kennedy opened the paper and read: "Wu Fang gone out."

We had scarcely mounted the stairs to the den of the Serpent when a servant in a back room, hearing a noise, stuck his head in the door. Kennedy and I made a dash at him, and quickly overpowered him, snapping the bracelets on his wrists.

"Watch him, Walter," directed Craig as he made his way into the back room.

In the devious plots and schemes of Wu Fang, his nefarious work had brought him into contact not only with criminals of the lowest order, but with those high up in financial and diplomatic circles.

Thus it happened that at such a crisis as Kennedy had brought about for him Wu had suddenly been called out of the city and had received an order from a group of powerful foreign agents known secretly as the Intelligence Office, to meet an emissary at a certain rocky promontory on the Connecticut shore of Long Island sound the very day after Kennedy's little affair with him in the laboratory and the day before the letter from Washington arrived.

There on the rocky shore, he sat gazing out at the waves, waiting, when suddenly, from around the promontory, came a boat rowed by two stalwart sailors. It carried as passengers two dark-complexioned, dark-haired men, foreigners evidently, though carefully dressed so as to conceal both their identity and nationality.

As the boat came up to a strip of sandy beach among the rocks, the sailors held it while their two passengers jumped out. Then they rowed away as quickly as they had come.

The two mysterious strangers salut-

ed Wu. "We are under orders from the intelligence office," introduced one who seemed to be the leader, "to get this American, Kennedy."

"Information has just come to us," the stranger went on, "that Kennedy has invented a new wireless automatic torpedo. Already a letter is on its way informing him that it has been accepted by the navy."

The other man, who had been drawing a cigar-shaped outline on the wet sand, looked up. "We must get those models," he put in, adding, "both of them—the one he has and that the government has. Can it be done?"

"I can get them," answered Wu sinisterly.

And so, while Kennedy was drawing near together the net about Wu, that wily criminal had already planned an attack on him in an unexpected quarter.

Down in Washington the very morning that our pursuit of Wu came to a head, the officials of the navy department, both naval and civil, were having the final conference at which they were to accept officially Kennedy's marvelous invention, which it was confidently believed, would ultimately make war impossible.

Seated about a long table in one of the board rooms were not only the officers but the officials of the department whose sanction was necessary for the final step. By a window sat a woman stenographer, who was transcribing the notes of the momentous meeting.

They had just completed the examination of the torpedo and laid it on the end of the table scarcely an arm's length from the stenographer. As she finished a page of notes she glanced quickly at a watch on her wrist. It was exactly three o'clock.

Hashtly she reached over for the torpedo and with one swift, silent movement tossed it out of the window.

Down below, in a clump of rhododendrons, for several moments had been crouching one of the men who had borne the orders to Wu Fang at the strange meeting on the promontory.

His eyes seemed riveted at the window above him. Suddenly the supreme moment for which this dastardly plot had been timed came. As the torpedo model dropped from the window, he darted forward, caught it, turned and in an instant he was gone.

Wu Fang himself had returned after setting in motion the forces which he found necessary to call to aid the foreign agents in their plots against Kennedy's torpedo.

As Wu approached the door of his den and was about to enter, his eyes fell on our outpost, the blind beggar. Instantly his suspicions were aroused. He looked the beggar over, with a frown, thought a moment, then turned and instead of entering went up the street.

He made the circuit of the block and now came to an alley on the next street that led back to the building in which he had his den. Still frowning, he gazed about, saw that he was not followed, and entered a doorway.

Up the stairs he made his way until he came to an empty loft. Quickly he went over to the blank wall and began feeling cautiously about as if for a secret spring hidden in the plaster.

"No one in the back room," said Kennedy, rejoicing in the den itself with the prisoner. "He's out, all right."

Before Craig was a mirror. As he looked into it, at an angle, he could see a part of the decorations of the wall behind him actually open out. For an instant the evil face of Wu Fang appeared.

Without a word, Craig walked into the back room. As he did so, Wu Fang knife in hand, stealthily opened the sliding panel its full length and noiselessly entered the room behind me. With knife upraised for instant action, he moved closer and closer to me. He had almost reached me and paused to gloat as he poised the knife ready to strike, when I heard a shout from Kennedy and a scuffle.

Craig had leaped out from behind a screen near the doorway to the back room where he had hidden to lure Wu on. With a powerful grasp he twisted the knife from Wu's hand and it fell with a clatter on the floor. I was at Wu myself an instant later. He was a powerful fighter, but we managed to snap the handcuffs on him finally, also.

"Walter," panted Kennedy, straightening himself out after the fray, "stay here with the prisoners. Go get the police."

I hurried out and rushed down the street seeking an officer. Up in the den, Wu Fang, silent, stood with his back to the wall, scowling sullenly. Close beside him hung a sack of bell-cord, just out of reach. Kennedy, revolver in hand, was examining the writing table to discover whatever evidence he could. Slowly, imperceptibly, inch by inch, Wu moved toward the bell-cord. He was reaching out with his manacled hands to seize it when Kennedy, alert, turned, saw him, and instantly shot. Wu literally crumpled up and dropped to the floor as Craig bounded over

M. Vignal survey; thence east 518 2-3 yds. to the place of beginning, containing 92 acres of land, more or less, and. Plaintiff alleges that he, and those under whom he holds title, claiming to have good and perfect title to the land above described, has had and held peaceably the land claimed, and adverse possession of the same, cultivating, using and enjoying the same for a period of more than ten years after defendant's cause of action of right to said land, if any they have, accrued, and before the commencement of this suit.

Plaintiff further alleges that he, and those under whom he holds title, claiming to have good and perfect title to the land as above described and being the same tract hereinafter described, and says that he and those under whom he claims and holds title, and now holds title to said land under

deeds duly registered in the Deed Records of Callahan County, Texas, and has had open and peaceable possession, and continuous and adverse possession of the land herein mentioned, using and enjoying the same and paying all taxes due thereon, for a period of more than five years, after defendant's cause of action or right to said land, if any he had, accrued before the commencement of this suit, said land and premises being described as follows: Being a part of subdivision No. 6, of the George M. Vignal survey No. 798, Abstract 523, patented to the heirs of George M. Vignal on May 23rd, 1861, by patent No. 477, Vol. 12, situated in Callahan County, Texas, and described by metes and bounds as follows: Beginning at the northeast corner of said G. M. Vignal survey No. 798; thence south 1002 yds., thence west 563 yds. to the place of beginning of this tract; thence south 1002 yds. to corner; thence west 518 2-3 yds. to corner of subdivision No. 6, and same being the southwest corner of this tract, and also the S. W. corner of subdivision No. 6; thence north 1002 yds. to the northwest corner of said subdivision No. 6, and also being the northwest corner of this tract; thence east 518 2-3 yds. to the place of beginning, containing 92 acres of land, more or less.

That the defendant, Clifton L. Vignal, is asserting or claiming some adverse interest or claim to said land and premises, which is a cloud on plaintiff's title to said land, as above described.

This action is brought as well to try title as for damages.

Wherefore plaintiff prays the court that defendant be served with notice of the filing of this said suit, as required by law, and that he be compelled to answer this petition; that on final hearing hereof, he have judgment for the title to the above described land, and premises, and for damages and costs of suit, and for such other and further relief, special and general, in law and in equity that he may be justly entitled to, etc.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Baird, Texas, this, the 10th day of Sept., A. D. 1915.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—“I suffered for three summers,” writes Mrs. Walter Vincent, of this town, “and the third and last time, was my worst.

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether.”

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

**YOU ARE GORDI-
ALLY INVITED**

To Visit Our Interestins and In-structive Exhibit at the Texas State Fair, Dallas, and La. State Fair of Shreveport. We invite all our former students, their friends and those contemplating entering a business training school to visit our booth in the Exposition Building, and see our splendid exhibit which has won first honors at these state fairs. Our exhibit this year will be more extensive than ever before; it will be interesting and educational to old and young. We will have demonstrations on some of the most modern office appliances which are taught in our school. Speed demonstrations in Stenotypewriting exhibit of student's work in Book-keeping, Business Training, Short-hand, Typewriting, Business Ad-ministration and Finance, Penman-ship, Cotton Classing and Telegra-phy. A visit to our exhibit will show you why we have the largest school of the kind in America, when you are shown clearly why it is that we can make you a more practical and thorough stenographer in three and one-half month's with the famous Byrne Simplified Short-hand or Stenotypewriting than other schools teaching other systems can in seven month's, and why it is with our original copyrighted sys-tems of Bookkeeping and Business Training that we can give you both a course of Bookkeeping and Busi-ness Training in less time than other schools can give you a mere theoretical course of Bookkeeping, and why it is that our practical de-partment of Telegraphy, the largest in the United States, with a loop of the Cotton Belt train wire, giving every message to our students that goes from Mt. Pleasant to Waco; every station blank and record book that is used by Western Union or Cotton Belt Railroad, turns out practical operators and station men; and that we place our graduates into good positions.

From present indicators we will easily enroll 2000 students this year.

Whether you are going to attend one of these Fairs or not, write to-day for catalog and read what we guarantee to give you, what our former students say we have given them, and what their employers say of their efficiency. Address Tyle Commercial College, Tyler, Texas
