## Local Nine Skins Coleman Sunday In 13 To 3 Score Here

Showing up a faster team with fielding, pitching and batting averages improving in every game, the local baseball nine Sunday skinned a Coleman team in a final score of 13 to 3 in favor of the Cross Plains team, managed by Don Smith, student at McMurry in Abilene.

Tommy Hinkle pitched for the locals with Norman (Red) Coffey behind the bat. A. C. Abernathy was the losing pitcher for the visitors. Hinkle struck out eight men, to keep his average. Bill Shield, first baseman and coach of the high school football team hit a triple at bat, and considerable improvement in infield play was noted as two double plays were worked in a combination of Coppinger to Smith, to Shield. The team works out each Wednesday and Friday afternoons at 5:30.

Complete lineup of locals was Hinkle, pitcher; Coffey, catcher; Bill Shield, first base; Don Smith, second base; Mack Coppinger, short stop; John Purvis, third base; Keith Coburn, right field; Emil Ringhoff, center field; and Carter, left field.

She purchased the property some time ago from H. W. Mason, who bought it from the church when the new building was erected on North Main Street.

## Cottonwood School Will Open With Two Teachers

Two weeks ago the Review published an item of the proceedings of the county school board in session at Baird in which were listed classifications recently given schools of the county.

The item stated that Cottonwood had been classified a one teacher school to handle the first six grades, which according to Superintendent B. C. Christman, whom the Review contacted Tuesday, was correct at that time. However, since the meeting of the county board, representatives from the Cottonwood district have met with state department of education officials at Austin, and the Review is furnished the following statement by the Cottonwood school board:

"We, the school board of Cottonwood, wish to state that

## Valuable, Old Furniture Is Owned By Local Lady

An antique bedroom suite owned by Mrs. H. P. Moon, of Cross Plains, was definitely identified last week by a prominent Texas antique expert as being of the "William and Mary" period, dating from 1689 to 1702.

The local lady acquired the suite in 1941 in a bequest from an aunt, who lived in Georgia. An unusual feature of the suite is that it was in the house to which John Howard Payne wrote "Home Sweet Home", and Mrs. Moon has documentary evidence to prove the point.

Payne is believed to have written the song to a young Southern girl, with whom he was in love. The bedroom suite was in her home and Payne is believed to have occupied it in his frequent visits to the home.

## P-TA Does Swell Job In Sponsoring Picnic Celebration

The Parent-Teachers Association, one of Cross Plains most active civic groups, report that a gross profit of over \$300 was made by their sponsorship of the Picnic this year. A few bills are yet to be settled and exact figures were not immediately known, however, in view of the parade prizes provided by the organization and expenses of the two afternoon programs and other incidentals necessary to arranging this year's affair, their financial handling was regarded as exceptional.

P-TA members worked throughout the two days checking rides and concessions at the grounds. "I have never worked with a more cooperative group," said Don Franklin, manager of the carnival which operated here, "and consider Cross Plains fortunate to have such an efficient group so interested in the welfare of its schools and other civic enterprises."

## Out-of-Town Firms Contribute Toward Football Stadium

Out-of-town concerns, doing business in Cross Plains, contributed \$185 to the football stadium now being built on the local high school campus, it was revealed by members of the Parent-Teachers Association yesterday.

Firms contributing and their respective amounts are as follows: Mrs. Baird's Bakery, Abilene, \$50; Mead's Bakery, Abilene, \$37.50; Mid-West Fruit Company, Brownwood, \$15; Banner Ice Cream Company, Abilene, \$25; Coca Cola Bottling Company, Abilene, \$25; 7-Up Bottling Company, Abilene, \$7.50; Barq's Bottling Company, Abilene, \$10; West Texas Produce Company, Cisco, \$15.

### Burkett News

By Mrs. T. C. Strickland

The Methodist revival is in progress this week with Rev. Frank Stone doing the preaching. Good crowds have been attending these services, both morning and evening. Everyone is cordially invited to attend and take part in these services.

A group of women from the Burkett H. D. Club met at the tabernacle and spent the day cleaning and improving the grounds and the inside of the tabernacle. Seats were repaired, a concrete curb was placed across the north side to turn the water around the tabernacle. Gravel and sand was hauled and covered the entire floor. The roof had been recovered a few weeks ago. The county road men who were repairing a culvert in front of the yards scraped the grounds with the grader. The job was certainly appreciated. They did it so much better and quicker than by hand.

The Burkett H. D. Club wishes to thank each and every one that contributed to the tabernacle fund and also to those that contributed labor. It was appreciated very much.

There will be a Stanley party at the home of Mrs. Hattie Adams Wednesday evening, August third. Everyone is cordially invited to attend.

Mr. and Mrs. Doyle Burchfield of Cross Plains attended church here Sunday morning and the singing in the evening.

A nice crowd attended the singing Sunday evening. There were visitors from various communities.

Miss Nell Gist of Abilene visited in the W. E. Koenig home part of last week. Laverne Koenig returned home with her for a week's visit.

Mr. and Mrs. Raymond DeBusk of Coleman and Mr. and Mrs. S. D. DeBusk visited relatives at several New Mexico and Texas cities last week.

Judy Angley of Muleshoe is visiting her grandparents, Mr. and Mrs. S. D. DeBusk.

Joan Studdard and Mrs. Bernice Chandler and baby of Brownwood visited Mrs. Chandler's mother, Mrs. Henry Beavers, Saturday.

Dr. James Henderson returned to Mexico City Sunday after 10 days visit here with his parents, Mr. and Mrs. E. E. Henderson.

Others visiting in the Henderson home were Mrs. Hendersons sisters, Mrs. Winnie Breeding, of Shreveport, La., and Mrs. J. C. Morris, of Dallas.

Mrs. Ethyl Tabor and Joyce and Mr. and Mrs. Harry Porter of Baird visited relatives and attended church and singing here Sunday. Joyce is spending the week here.

Mr. and Mrs. H. C. Burkett left Friday to visit relatives in Joplin, Missouri.

Mr. and Mrs. Joe Hanke recently visited their daughter and husband, Mr. and Mrs. Kermit Diehls of Butler, Missouri. They went to Kansas City and Independence, Missouri while on their trip.

W. E. Audas has been real sick over the week end.

A large number of people from here attended the picnic and rodeo at Cross Plains last week.

Mrs. W. H. Thate of Comanche is visiting here parents, Mr. and Mrs. W. R. Roberts, this week.

Mr. and Mrs. Virgil Burkett and family of Bisbee, Arizona, arrived here Monday for a visit.

George Brown of Fort Worth is visiting friends here this week.

Mr. and Mrs. Rector DeBusk of Stamford visited Mr. and Mrs. Alfred Koenig Saturday.

Mr. and Mrs. Gene Penn and daughter, Genie, have returned to their Colorado City home after visiting Mr. and Mrs. M. E. Howell.

**APPRECIATION**  
May God's richest blessings rest upon you people, who have made my illness lighter with your thoughtful deeds, beautiful cards and flowers, also such good trays of food.  
Really did not know people were so wonderful! Thank you again and again.

Mrs. Walker McLain

Mrs. Ida Gray, the post mistress, is vacationing at this time. Mrs. L. W. Pancake is serving in her absence.

Still hot and no rain. The crops would be helped a lot if a good rain would come our way in a very short time. Melons and peaches are being marketed at this time.

Mr. and Mrs. William Lee Shultz and children from Fort Worth visited in the home of Mr. and Mrs. Henry McCoy over the week end.

### "TEXAS GOVERNMENT" IS TITLE OF BOOK COVERING MANY PHASES OF LAWS

You've heard the paraphrase, "The government sometimes moves in strange and mysterious ways." The mystery surrounding Texas government is removed in a book by the same name, "Texas Government," by Dr. Stuart A. MacCorkle of the University of Texas and Dick Smith of Tarleton State College. Both men are government professors. MacCorkle is also director of the University's Bureau of Municipal Research and an Austin city councilman.

Something new in books on government is a chapter on inter-government relations, a discussion of the tie that binds federal, state county and city governments together. The book also contains an indexed Texas Constitution, recent changes in Social Security laws and their effect on Texas,

and a complete listing of the than 100 state administrative agencies.

"Texas Government" points out the most serious defects in governmental structure and practices and offers suggestions for their improvement.

McCorkle has written extensively in this field, including "Texas Municipal Government Administration," published in "Municipal Administration," and "Forms of Local Government" with Wilfred D. Webb, published by the Bureau of Municipal search in 1948.

Recent visitors in the home of Mr. and Mrs. M. E. Howell, Mr. and Mrs. John Tolleson daughter of Byrns, Texas; Mr. and Mrs. C. C. Roeder sons, of Fort Ord, California.

Walter Westerman, who has con-  
ducted a barber business in Cross  
Plains for many years, has purchas-  
ed a farm near Lamesa and will  
move there with his mother before  
the end of this year. Walter says  
he is going to raise cotton.

Poley Williams who last week  
sold his grain and poultry business  
in Cross Plains, will move with his  
family to Spur, where they will  
make their home.

H. C. Preemas has sold his build-  
ing and blacksmith equipment to  
John Booth and J. C. Huntington,  
who will take charge August 1.

Children of Mrs. M. A. Elliott  
gathered with her for a week-end  
reunion.

Those present were L. W. Placke  
and family, A. Martin and wife,  
Conner and Ford Elliott and fam-  
ilies, W. P. Elliott and wife of Enid,  
Okla.; Fletcher Elliott and Ragan  
Elliott of Harmony, Okla.; Bryan

**Bus Service From  
Here To Baird Is  
Asked By Clubmen**

The need for bus service between  
Baird and Cross Plains will be told  
to bus companies now serving these  
towns by a committee of men from  
Baird. The committee, composed of  
C. W. Sutphen, Randall C. Jackson,  
and B. H. Freeland, was appointed  
by the Callahan County Club at the  
luncheon Wednesday, after the  
need for bus service was discussed.  
Baird and Cross Plains are the  
two largest towns in the county,  
and at the present time, it was  
pointed out, residents find it neces-  
sary to travel via Abilene when  
they go by bus, which requires three  
or four times as long as it would  
to go direct. The committee will  
invite business men of Cross Plains  
to go with them when the appeal  
for bus service is made.

**To Have Barbecue  
On Grounds At Old  
Settlers Gathering**

Barbecue will be available on the  
grounds at the annual reunion of  
Callahan County Old Settlers to be  
held at Denton August 12.

Arrangements have been made by  
the committee in charge of the re-  
union to have a Brownwood concern  
prepare the meat and serve it  
at a very small charge for those  
who will be unable to bring a pic-  
nic lunch. The same arrangement  
was observed last year.

Volcanologists count about 500  
active volcano craters in the world  
—active by virtue of eruption within  
recorded history. Three-fourths or  
more of the total are in the Pacific

under the American flag in Alaska  
and Hawaii. In the United States  
proper, Mount Lassen, California,  
is the only one.

## New Safety Regulations Fixed At B'wood Lake

Changes in rules and regulations governing water safety on Lake Brownwood were announced the past week by officials of the Brown County Water Improvement District.

The purchase of a 14-foot boat and a motor for use by the sheriff's department also was announced.

Under the new regulations any peace officer or game warden can

require that any boat not in a safe usable condition must be removed from the lake.

No power boat shall pass small craft within 150 feet unless at a speed under 10 miles per hour.

All boats operating after sunset and before sunrise shall carry lights plainly visible not less than 150 feet in all directions and such boats must be equipped with proper safety appliances.

All boats must be equipped with approved life preserving devices sufficient to sustain afloat every occupant of such boat in the event the boat should capsize, overturn or sink.

The owner of any boat, renting for use by others must see that the boat is equipped with one life preserver in good condition for each occupant.

Metal boats must be equipped with air chambers or air tanks sufficient to float the boat if it capsizes, and air chambers or tanks must be maintained in a sealed air tight condition at all times.

No boat shall be operated in violation of any state or federal law.

Persons under the influence of intoxicating liquor or drugs are prohibited from operating boats on Lake Brownwood.

Penalty for violation of any of the rules shall be a fine not exceeding \$1000, or imprisonment not exceeding 30 days, or both fine and imprisonment.

The new rules will be effective immediately.

The Brown County sheriff's department, in accepting responsibility for enforcement, said the department will require proper safety equipment on the lake.

The outboard motorboat with 22½ horsepower motor will permit the patrol boat to work in shallow at well as deep waters of the lake, the sheriff's department pointed out.

R. E. McCrary, secretary of the Brown County Sportsmen' Club, pointed out that the primary purpose of the project is to insure safety on Lake Brownwood. McCrary said the Sportsmen's Club takes the responsibility of using all funds paid to the water district for boat licenses for improvement of the lake.

License funds from last year were used to create fish shelters. Under the direction of Game Warden John Wood, men were employed to cut brush and provide shelters, which were also fertilized for the benefit of young fish.

Boat licenses are payable at the water district's office.

Water district officials emphasized that the project is for the benefit of the public and the cooperation of everybody to make the lake safe will be appreciated.

## Program To Help Veterans Secure Land Now Ready

Any Texan who served at least 90 days in World War II and still resides in Texas may buy land under the Veteran's Land Program. To get started in this program a veteran should first find the land he wants. If it is for sale, find out the price, and then write Alvis Vandygriff, executive secretary of the Veteran's Land Board, General Land Office, Austin, Texas.

Under the plan for veterans to buy land they must pay 5 per cent of the total up to \$7,500. For instance the veteran pays \$375 cash on a \$7,500 farm. The interest rate is 3 per cent for 40 years. The veteran can also receive aid on purchases up to \$10,000, but the vet-

eran's land board will only pay \$7,500 minus his 5 per cent interest. The veteran can buy any farm or grazing land from anybody, if appraiser ok's the value. The veteran's board will buy it and resell to the veteran at the same price. Veterans having service-connected disability sustained in combat have a 90-day priority.

## Large Home Repair Program In County

Repair expenditures on Callahan county's non-farm homes will total an estimated \$171,000 during 1949 and will serve as an important factor in keeping both labor and business activity at high levels, according to a report just released by the Tile Council of America.

"Practically every trade in the community will benefit this year from home repair expenditures," declared A. T. Wintersgill, chairman of the Council's residential construction committee. Such work, he pointed out, is a vital stabilizing influence throughout the building trades.

Painting and redecorating will account for about \$39 of every \$100 to be spent in the South on home repairs, the report revealed. Roofing repairs will take \$25 to \$30, and work with stone, glass and clay tile about \$6.

Carpentry repairs will require approximately \$5 of the theoretic \$100 and installation of showers, tiling of bathrooms and replacement of plumbing will account for another \$4. Miscellaneous work will take the balance of the \$100, according to the report.

"Production of such materials as finished hardwood flooring, clay tile for bath and kitchens and cement reached all-time highs in 1948, and 949 output of products for construction promises to be more than ample for both home building and repair," Mr. Wintersgill declared.

Most materials are available today in a much wider range than at any time since the war, he pointed out. Clay tile manufacturers, for instance, have added scores of new hues to color lines in recent months, he said.

Expenditures throughout the United States on home repairs will total between \$2,500,000,000 and \$3,000,000,000 in 1949, the Tile Council estimated.

## Peanut Price Is Reported Normal

Southwest peanut markets displayed firm prices this week, the U. S. Department of Agriculture's Production and Marketing Administration reports.

Limited offerings of edible peanuts found very light demand in the southwest. Shelled No. 1 Spanish peanuts were quoted at 17 to 17½ cents a pound, or a fraction of a cent higher than a week or month ago. Most shellers were working on government export contracts.

Peanut meal and oil were scarce. However, some crude peanut oil was quoted at 14 cents a pound at southwest mills. Peanut meal of 41 per cent protein content sold at \$60 to \$65 a ton, sacked, f.o.b. southwest points. This week's prices were unchanged to \$3 a ton higher than a week ago, and \$10 to \$12 above a month earlier.

Growing conditions favored the new crop in southwest peanut producing areas this week. However, fields in the Virginia-Carolina and southeastern sections of the country became grassy and plants showed vigorous top growth on account of heavy rains.

## Rail Shipments Of Texas Fruits Drop

Rail shipments of Texas fruits and vegetables in June totaled 7,718 carloads, a decrease of 14 per cent from May and 20 per cent from June, 1948, the University of Texas Bureau of Business Research reported.

Cantaloupe and tomato shipments increased 48 and 12 per cent, respectively, over May; but other shipments declined as follows: cucumbers, 99 per cent; mixed vegetables, 92 per cent; carrots, 86 per cent; corn, 77 per cent; onions, 69 per cent; and potatoes, 25 per cent.

In comparison with June, 1948, carrot shipments increased 66 per cent; onions, 27 per cent; and cantaloupes, 1 per cent; but shipments of mixed vegetables decreased 82 per cent; potatoes, 79 per cent; watermelons, 33 per cent; tomatoes, 4 per cent; and corn, 2 per cent.

### Employers Urged To Get Clearance In Working Minors

Secretary of Labor Maurice J. Tobin today strongly urged Texas employers to obtain Federal certificates of age for minors. These certificates, showing the age of the minor, will protect employers from unintentional violation of the child-labor provisions of the Fair Labor Standards Act of 1938 and the Walsh-Healey Public Contracts Act. "Investigations under the Fair Labor Standards Act show that less than 4 percent of certificated minors are found employed in occupations illegal for the age shown on their certificates," stated Lawson A. Wood, field office supervisor in the North Texas area. "In contrast," said Wood, "30 percent of the minors found employed without certificates were working in violation of the Act's child-labor provisions."

Sixteen years is the minimum age for general employment under the child-labor provisions of the Fair Labor Standards Act, and 18 for occupations that have been declared particularly hazardous by the Secretary of Labor. The Walsh-Healey Act, which applies to firms supplying goods or materials to the Government on contracts exceeding \$10,000, prohibits a boy under 16 or a girl under 18 years old from working on such contract goods.

In this state, Federal certificates, which are acceptable as proof of age, are issued by the Divisions of office located at 1114 Commerce St., Dallas 2, Texas, according to William J. Rogers, regional director. Applications for age certificates are obtainable at local offices of the Texas State Employment Service.

### Cross Plains Has Over 2,000 People

By all approved means of estimates, Cross Plains population is expected to soar well above 2,000 when the 50 year head count is taken shortly after the first of January.

More than 300 homes have been built or moved in here within the past five years, the number of utility consumers is 50 per cent greater than when the last count was made in 1940.

Cross Plains population in 1940 was listed at only 1,229.

### LIFE INSURANCE OWNED BY TEXAS FAMILIES HAS INCREASED PAST 2 YEARS

Texas families, owned \$6,865,000, 000 of life insurance at the start of last year, according to the 1948 Life Insurance Fact Book, published by the Institute of Life Insurance and released recently.

This represented an increase of \$1,618,000,000 over the ownership reported in this state two years before.

During 1948 the people of this state purchased \$741,000,000 of new ordinary life insurance, the Fact Book also shows.

Death benefit payments in Texas during 1948 are reported as \$43,552,000 under 31,362 policies.

In a table listing the location of the 584 legal reserve companies in the U. S. this state is listed with 104 companies whose head offices are here.

"For policyholders, as for the companies," the yearbook says, "the 1948 highlights of the U. S. life insurance business were: first, the investment earning rate went up; second, more families had more life insurance protection than ever before; and third, purchase of new life insurance stayed near the very high level of the past three years. "Probably the most important

### Rowden Revival To Begin Friday Night

A revival meeting will start Friday night, July 29, at the Rowden Baptist church, and continue through Sunday night, August 7. Services twice daily will be conducted at eleven in morning and eight o'clock in the evening. Rev. J. D. Holt will be the guest evangelist and Rev. Clifton Hancock, pastor of the Rowden church, will have charge of song services.

A cordial invitation is extended the public to attend and enjoy good preaching, singing and fellowship.

single development was the upturn of the investment earning rate on life insurance funds after a decline of about 20 years. The rate in 1948 was 2.96 per cent, upturn. One was the continued direction of funds into higher earning investments such as business and industrial securities, real estate and mortgages that began in 1947. The other was the upward trend in interest rates in general that also began in 1947.

"Today nearly eight times as many people have life insurance as in 1900. Four out of five American families are protected. The large amounts of new insurance bought in the past few years, together with the low lapse rate, brought the total owned in the U. S. at the end of 1948 to \$202,000,000,000. This is twice the total only 13 years ago and nearly 30 times the amount in force in 1900.

"Purchases of new insurance in 1948 were again near the high level they first hit in 1946. For three years now, 1946-7-8, new insurance purchased has been over \$20 billion each year, with 1948 only two per cent below the peak of 1947.

### New Well In Baum Field Making Over 200 Barrels Daily

The recent Ellenburger oil discovery on the Sawyer tract, five miles west of Cross Plains, drilled by Coe Oil Company, is said to be producing at a rate in excess of 200 barrels daily, although only one foot of a break in the formation has been drilled, and no acid applied. The test is a north extension to the Baum field.

### Tuberculosis Rates 5th Place As Killing Disease In The State

There is no more emphatic proof of the power of ignorance and ignorance to spread disease than is shown by the continued ravages of tuberculosis, which is responsible for more deaths between the ages of 15 and 45 than any other disease.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave public health problem, and today it holds fifth place among the killing diseases in this state. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized early and proper treatment applied.

These facts are disclosed by Dr. Geo. W. Cox, State Health Officer, who says, "treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives."

The State Health Officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults, including chest X-rays; frequent check-ups by physicians where active cases and their contacts are known; isolation or hospitalization of active tuberculosis cases, and a more intelligent application of hygienic living principles.

### Farmers Urged To Cut Surplus Grass And Put In Silage

Texas dairymen should take advantage of the abundance of grass that is now growing in most sections of the state. They can make excellent silage from it and at the same time the mowing will improve the pasture, says R. E. Burleson, associate extension dairy husbandman of Texas A. & M. College.

Almost any grass that is palatable as well as nutritious for cattle can be made into silage, he says and Johnson and sudan grass, if properly handled, will make silage almost equal to sorghum and some of the other row crops commonly used. Grasses or hay crops should be cut for silage at the stage when they make the best hay. In most cases, this would be the boot stage or when the first heads are emerging. When grass is cut at this stage, it is generally desirable to reduce the moisture content by wilting it a few hours in the field. Harvesting at a later date, warns Burleson, is likely to result in an unpalatable silage.

Wilt immature grasses only slightly after cutting, advises Burleson. One or two hours on good drying days is usually sufficient unless the crop is very heavy or immature. Grasses approaching maturity need very little or no wilting. During periods of wet weather, two or three hundred pounds of high quality cured hay should be mixed with each ton of green material to absorb the excess moisture. Run the two through the cutter together.

Grass is wilted to a safe moisture content when you can twist a small bunch and bring moisture to the stems but no free moisture will drop off. A moisture content of 60 to 65 per cent is desirable.

Burleson adds that no more of a crop should be cut at one time than can be stored in about half a day. Fine chopping is important in making good wilted grass silage. He advises adjusting the cutter so it will make 1/4 inch cuts. Be sure the silo is tight and the smooth because mold will develop if air is present. Distribute silage evenly and pack thoroughly. Two feet of unwilted silage will add additional weight and cause silage to pack more tightly. Extra packing and tramping will lead down spoilage.

Burleson says cattle may not like grass silage at first, but they will soon become accustomed to it. Make the shift from the old to the new gradually and feed need to feed about three or four and a half pounds of silage to replace each pound of hay.
