BAPTIST LET CONTRACT, BUILD-LING UNDER CONSTRUCTION

The Baptist church here has let contract for new church building, to cost approximately \$9,000.00. Tip Ross of Gorman secured the contract and began actual construction this week. Mr. Ross states that he expects to have the new edifice completed in eight weeks with reasonable weather conditions and no unexpected delays.

The new building will have basement, which will be used for Sunday school work, while the upper floor will be used for main auditorium.

During the construction of the building, church services will be conducted at the high school building each Sunday morning and at the Ideal Theatre for evening services.

ING CONTRACT SATURDAY So far

The Review is informed that the Methodist church here will let contract for their new church building Saturday. The building will be a hollow-tile brick structure, to cost approximately auditorium in basement and main floor, there will be thirteen Sunday school rooms. The building will be constructed on lots just east of Review office.

Metra Clarkson, Editor-in-chief Christine Cunningham, Social editor | Raymond Cross, Sport editor Elizabeth Pace, Reporter of 9th Gr. Brownie Baum, Reporter of 8th Gr. Marie Williams, Reporter of 8th Gr. Eugene Davanay, Reporter 7th Gr.

The Cross Plains basket ball team is on the war path they defeated Clyde. Since they defeated Clyde they have more confidence in winning the county championship. The scores were 17 to

HIGH SCHOOL SPORTS

14. If we defeat Putnam that will give us the county championship and then we will go to district meet at We as the basket ball boys feel that

we owe all of our success to Mr. Featherstone as a coach and a real sportsman. There is several reasons why we feel that way about him, one is that he has proved to us that he has a great interest in the boys as a whole; he is just one of the boys and is with us in all of our games. Due to his intense interest in the boys, we have resolved to show him ever respect that is bany News, and Dr. Hunt, president in our power. So we are going to be with him in the fight and we feel sure was the first speaker. He is not only that he is with us.

Come to Championship Game

at 3:30 and see the Cross Plains live in this wonderful and progressive county championship in what promises more in the past ten years than the basket ball games of the season. The ly asked "Where will we be ten years "Goober Grabblers" have seven vic- from now!" tories and not a single defeat to their victories with no defeats.

The 10th grade is reading Romeo and Juliet (A love story) and Theresa Clark was Juliet; she took it to heartgot married. The 10th grade is hoping that it don't effect anyone else.

Helms-Clark

Louis Helms and Miss Theresa Clark, both prominent young people of this community, were married, Friday, Jan. 30, and left immediately for honey moon trip east, to Fort Worth and other points. They will make their home here, it is stated.

Mr. and Mrs. Helms have many friends who will join in extending congratulations and wishing them a full er, will contrib te a column each week measure of happiness as they journey and life's pathway together.

The Chamber of Commerce banquet at the Methodist church here last Friday night was a big success and was enjoyed by approximately 200 people, including some twenty visitors from a

number of neighboring towns.

The C. of C. Band started the program off in grand style with a number of choice selections which were highly enjoyed, followed by a saxaphone solo by Miss Vernie Crabb and a vocal solo by Mrs. Harry Baker, with Mrs. Brabham at the piano, which revealed talent that could hardly be excelled any

Toastmaster, Paul V. Harrell, then welcomed and introduced the visitors, after which the invocation was offered by the Rev. J. Henry Littleton-then came the eats, a most elaborate spread served by the Ladies Missionary Society of the Methodist church, consisting of two courses.

The two principal speakers of the evening were: Col. Dick McCarty, veteran editor and publisher of the Al-McMurry College, Abilene. Col. Dick a successful and widely known editor, but he is also recognized all over West Texas as a fluent and eloquent after-People of Cross Plains are you in- dinner speaker. He said many good terested in your school? Would you things relative to West Texas and the like to know that your school and ours | Chamber of Commerce work. * "This had excelled other schools of the count- is a wonderful age" he declared and ry? If so come out Friday afternoon added with emphasis, "I thank God I 'Goober Grabblers' beat Putnam for age." He stated that we had advanced to be the fastest and most exciting preceding half century and dramatical-

Dr. Hunt spoke a very forceful mancredit and are going like a house afire. ner, mixing in quite a bit of humor, Putnam has likewise a long string of provoking much laughter. He drew a advance man, is here this week making Comparative scores made by the in the West, recounting some expertwo teams against Clyde, indicate the liences on the ranch, of being introduc- a supyly of circulars printed strength of the two teams to be about ed to the received by the assistance of bucking horse and later falling into the Plains for several years, and they have The boys need you on the side lines warm embrace of mother earth very one of the best shows on the road, and to cheer them on to victory and you suddenly. The speaker then mentioned need the outing so come on out and see a number of facts about the modern the fastest cage delegation in the West Texas of to day with its pro- tractions are high class in every regress, prosperity and its many advant-

Other visiting speakers wers: Cecil Gray and Mr. Martin of Coleman, C. S cry of "Hoot" Cross, see artificial Boyles of Sweetwater, Messrs. Rich-Wilson throw them over his back and ardson and Fannin of Cisco, all making not speak and the Review failed to get the Review is informed. their names, however a half dozen or more West Texas towns were represented, including Abliene, Cisco, San-Angelo, Coleman, Albany and Sweet-

Rev. Tom Brabham and F. M. Gwin, the evening; Rev. Brabham speaking of the local Chamber of Commerce. F. M. Gwin, secretary of the organization then spoke, stating that this organization needed the assistance and cooperation of the entire town and community, and urged an extensive and thorough membership drive. Membership cards were passed with instructions ler, Macon Freeman, Paul and Claud how to fill out. According to the program for this year, the work of the Chamber of Commerce will reach out to aid the farmers in a greater way than ever before. In fact it is not just a town program-but a community program, and many farmers are expected to join; several have already done so, it is stated. The banquet We can assure it was a most inter- Friday night created much new interest in the Chamber of Commerce work.

Contest Winners

The West Texas Texas Utilitie Co. recently put on a home lighting contest offering prizes for the winners. The contest created much interest and three local contestants won prizes, as follows: Chas Collins, 1st prize, living room fixture; Miss Elizabeth Pace, 2nd prize, bedroom fixture; Margarite Nicholson, 3rd prize, kitchen fixture,

Tom Bryant was a Dallas visitor this

New Feature

The Review is adding a new special feature to its columns this week. Irvin S. Coob, noted short story compilare full of spice and enjoy reading them.

COME in and see the new "Household Guide" to successful home painting and decorating, secured by this store for its customers. The "Guide" gives the recommendations of the Sherwin. Williams Company on the right paint, varnish, stain or enamel for each surface and article.

BRUNK'S COMEDIANS COMING

Brunk's Comedians will be here Monday for week engagement Chas. Brunk beatiful word picture of early day tife arrangements, posting advertising, etc. He ordered two ads for the Review and

Brunk's have been showing in Cross always play to a big crowd here. They feature clean productions and their atspect. They have good band and orchestra music also. Their opening play Monday night will be, "Saintly Hipocrites and Honest Sinners" a drama that will make you think and laugh too, but at times the situations becominteresting talks spiced with after- es serious. This is said to be one of dinner stories. Space will not permit the best plays ever produced. There elaborating on the speakers' points in will be vaudeville featured between detail. A large number of visitors did acts, and there will be no dull mements

The price of admission this season will be 10c for children and 30c for adults. The doors will open at 7:00 eachevening and show starts prompty at 8:00 o'clock. The people of Cross Plains need no introduction to Brunk's of this city, were the last speakers of Comedians. All that is necessary is to just to let it be advertised that they first, enlarged upon the 1925 program are coming and the crowds will be there when the door opens. They will show here under the auspices of the C. of C. Band and Parent-Teachers Club.

Lesson for February 8

CHRIST'S INTERCESSORY PRAYER

LESSON TEXT-John 17:1-26. GOLDEN TEXT—John 17:1-20.
GOLDEN TEXT—'Holy Father, keep through thine own name those whom thou hast given me, that they may be one, as we are."—John 17:11.
PRIMARY TOPIC—Jesus Praying for the Evidence

is Friends.
JUNIOR TOPIC—What Jesus Prayed

For.
INTERMEDIATE AND SENIOR TOP-IC—Christ's Prayer for His Disciples. YOUNG PEOPLE AND ADULT TOP-IC—Christ's Intercessory Prayer.

I. His Prayer for Himself (vv. 1-5). Fully conscious that the hour of His crucifixion was at hand He prayed to the Father saying, "Glorify thy Son, that thy Son also may glorify Thee.' His coming into the world had as its supreme mission the glorification of the Father. In order that the Father might be glorified it was necessary that the Son should be glorified.

1. To Him Had Been Given the Power to Give Eternal Life to God's Chosen Ones (vv. 2, 31). Eternal life is knowledge of and a right relation to the true God and Jesus Christ. Thus we see that eternal life is a relationship and not an entity.

2. He Declared That He Had Finished the Work Committed Unto Him (v. 4). The definite work which He came to do was to give eternal life to the chosen of God.

II. His Prayer for His Immediate Disciples (vv. 6-19).

1. Their Preservation (vv. 9-16). He did not pray that they would be taken out of the world but that they might be kept from the Evil One. It is not the divine will that we go to heaven at once when we believe because:

(1) Christ needs our ministry. Those who have been made partakers of the divine life are His representatives in the world.

(2) We need His grace strengthened and developed in us. Heaven is a prepared place and only those who have been prepared for it can be admitted into it.

(3) The world needs us. Christ declares that the disciples are the light of the world, the salt of the earth (Matt. 5:16). Only as the light of the Lord shines forth through the disciples can the people in the world find their way.

2. Their Sanctification (vv. 17-19). (1) Sanctify means: First, to set apart; that means then that the disciples were to be set apart to do the specific work of representing Christ; second, to cleanse; those who are set apart as His representatives need the special cleansing grace to make them. vessels fit for the Master's use.

(2) The Instrument used (v. 17). They were to be sanctified through God's truth. God's truth is His Word. (3) The purpose (v. 18). They were sanctified in order that they might be qualified for His service in

(4) Jesus' own sanctification was for that purpose (v. 19). He is the grand

example. III. His Prayer for His Future Dis ciples (vv. 20-26).

1. Their Unification (vv. 20-23). His great concern was that all believers should be united.

(1) The grand pattern of this spiritual union is the union that exists between the Father and the Son (v.

(2) The incentive making possible this union (v. 22). The vision of the glory of God in Christ (II Cor. 3:18) is the grand incentive which unites the believers.

(3) The purpose (v. 23). The supreme objective in the unification of the believers is to convince the world that God sent Jesus Christ to save it.

2. Their Glorification (vv. 24-26). The disciple of Christ enjoys fellowship with the Father and the Son and fellowship with his fellow believer, but he also looks forward to the time when he shall be glorifled.

(1) "I will that they be with Me where I am" (v. 24). There is a present glory enjoyed by believers.

(a) They are now children of God, although it does not yet appear what they shall be.

(b) They now possess eternal life and therefore shall never perish. While there is the present glory, Jesus wants His disciples to be with Him in Heaven. He said, "Except a grain of wheat fall into the ground and die, it abideth alone." We can reverently say that unless the believer is taken to Heaven Christ will be lonely.

(2) "Behold my glory" (v. 24). The believer shall share the ineffable glory of Christ (I John 3:1-3).

The Master-Word The master-word of Christianity is

love.

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one helow. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions. lete forms are indicated in the definitions

F your body is all fagged-out and run-down, if you are losing weight steadily, lack appetite, have no strength or energy-why not let Tanlac help you back to health and strength?

So many millions have been benefited by the Tanlac treatment, so many thousands have written to testify to that effect that it's sheer folly not to make the test.

Tanlac, you know, is a great natural tonic and builder, a compound, after the famous Tanlac formula, of roots, barks and herbs. It purges the blood stream, revitalizes the digestive organs and enables the sickly body to regain its vanished weight.

You don't need to wait long to get results. Tanlac goes right to the seat of trouble. In a day or so you note a vast difference in your condition. You have more appetite, sleep better at night and the color begins to creep back into your washed-out cheeks.

Don't put off taking Tanlac another precious day. Step into

Presbyterian Church

Next Sunday (Feb. 8th) we will begin regular services at the Presbyterian church again after a long period of inactivity on the account of sickness. The Sunday School and Young People's work has been continued without hindrance but we have had no preaching service.

We have already the largest C. E. Society in Abilene District, we are planning some worth while advances in our Sunday School work, and we will endeavor to make the regular preaching services more interesting and de votional than ever before. Come and let us take a new start and accomplish the most possible.

For our mid-week service we are to have in the near future an exhaustive study of the book of Revelations. The pastor has made a careful study of this book under one of the best teachers in the church and he feels that he will be are visiting with S. R. Jackson and able to make this a very helpful as well as an interesting study. There is no book in the Bible so badly butchered and misunderstood and we want to straighten this out for the benefit of any who will care to pursue this course S. P. Collins.

KELLOGG PREDICTS ARMY REDUCTIONS

AMBASSADOR URGES EUROPE TO REMOVE THE CAUSES OF STRIFE.

PLEADS FOR SECURITY

Retiring Official Makes Final Bow to England in Speech Before Pilgrim Club.

London.-New Conferences to reduce armies and abolish armament competition were forecast by Ambassador Frank B. Kellogg in his speech to the Pilgrim Society.

The Ambassador's predictions were interpreted as a statement of the policy which will guide him after he becomes the American Secretary of State. Pledging himself to the contemplation of conferences to reduce the cost of preparedness, Kellogg urged Europe to remove the causes of war and to continue the spirit of the London conference. Kellog was the honor guest at a dinner also attended by the Prince of Wales and Winston Churchill. His speech was his final public bow before relinquishing his post.

"The Washington conference was one of the great, accomplishments of modern times," the Ambassador said. "I believe that other conferences will follow, resulting in the reduction of armies and cessation competitive armying.

"We must remove the causes of war. There must be a rehabilitated Germany and safety and security for other countries. Europe has approached her problems in a new spirit, believing that armed conflict and force could no longer solve these problems. It is that spirit which gives the greatest hope for the future. The result of the London conference far surpassed the expectations of its authors. The reparations question I fully believe, has been settled. It lay at the very foundation of European restoration.

'You are well aware of the sympathetic helpful attitudes of President Coolidge and Secretary Hughes. The events of the last year are evidence of the growth of the sentiment that more good can come to the world by fair, honorable adjustments and concessions, by recognizing the rights and aspirations of all peoples than by the dominating power of arms, or the strength and vastness of empires."

Regarding the American hoard of gold, the Ambassador said:

"Bring sterling to par, restore the European currencies, and the gold question will settle itself."

The spirit of the London conference, Kellogg belives, can solve the remainder of the world's great problems. He said that already the conference had resulted in restoring German currency to a gold basis and bringing the British, Swiss, Dutch and Swedish currencies near Europeans generally. are beginning to realize that stable currency is a necessity, and he foresaw the day when free gold again would be on the market in England and Europe.

CHARLES FORBES FOUND **GUILTY OF FRAUD**

J. W. Thompson of St. Louis also Faces Fine or Prison Term.

Chicago, Ill.—The Federal jury which reviewed the administration of the United States Veterans' Bureau, under former Director Charles R. Forbes, convicted Forbes and John W. Thompson, wealthy St. Louis contractor, of conspiracy to defraud the government in allocation of veterans' contracts.

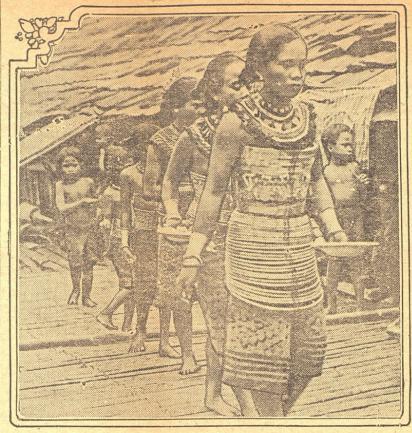

Pending hearing Feb. 4 on the defense motions for a new trial, Federal Judge George A. Carpenter reserved sentence. The maximum penalty for the offense is two years' imprisonment or \$10,000 fine or

The verdict came as a surprise to the defense and the crowded court-

Defense counsel indicated that the case would be carried, if necessary to the United States Supreme Court. "It is not all over with yet," Forbes said, in commenting on the verdict. Thompson, who was perhaps the calmest man in the startled courtroom, made no comment.

The jury was out five hours and tifty minutes, but its verdict was reached on the twelfth ballot after five hours of deliberation. The vote on the first nine ballots was nine to three for conviction. On the next two, it stood ten to two. The verdict in the ten weeks' litigation was reached on the next ballot.

Shatter Tax Collection Record. Fort Worth, Texas.-Tax collection records for Fort Worth were shattered by last year's present totals, according to Spencer Smith. Deputy Tax Assessor and Collector. Final totals will be over \$2,500,000. According to a report filed with Mayor Willard Burton by City Auditor Cheatham the city has on hand for general purposes \$78,275 and a sum just received from tax collecand not yet distributed to \$289,392. Net balance at present is \$1,374,732.

Borneo Women Preparing for Harvest Festival.

(Prepared by the National Geographic Society, Washington, D. C.)

To most ears Borneo is almost a synonym for the end of the earth. Yet Its people are not quite so savage as might be supposed, for they have been subjected for years, save in the heart of the big island, to the fringe of civilization that is constantly extending, chiefly under Dutch and British influence, through the islands of Malay-

The country, however, is wild, choked by a riotous tropical growth. The jungles of the island embrace tremendous arous covered with huge trees. Almost lost in this growth are mountains under a mantle of evergreen foliage. Even cliffs that elsewhere might stand out gauntly are buried under a blanket of vines and ferns. The trees are noteworthy chiefly because of their enormous size and the way in which they are crowded together. There is little of beauty or color. Very few bright flowers break the monotony of green leaves and greenish brown trunks and stems. Now and then one encounters a few reddish berries. Orchids abound, to be sare. but the speecyer on the ground is almost ignorant of their existence, for they grow far up in the world of green foliage where they may find a place in

the sun. These somber regions are still peopled by scantily dressed men and women who, in their strange houses, live in a world of queer ceremonies, superstitions and customs. The few Westerners who know primitive Borneo fear that they see an end of it in the not distant future, for civilization already gives evidence of putting an end to many distinctive customs of the Dyaks. as the chief people are called. In the towns that have grown up along the coasts, Dyaks are mixing with other races, and the garb of the West is becoming more and more popular.

The passage of the last three-quarters of a century has made one difference in the Dyak's mode of life, much to the advantage of the community. In the middle of the Nineteenth century the various tribes were in constant warfare. The odd "long houses" in which many families live together were surrounded by stockades. Frequently the young men would go on sorties against some neighboring tribe merely that they might add to their ghastly collection of human heads, for these people were head-hunters. By such exploits they gained favor in the eyes of the Dyak girls.

Dyak and Malay Pirates.

At that time, too, the Malay pirates were in the height of their power, and many Dyak braves joined them in their attacks on ships in the China-Singapore trade. These ruthless allies made it a point to destroy every ship that came into their waters, murdering a large part of the crew and capturing the rest for slaves. Their terrible boats, manned by from 50 to 80 men, hid in coves and darted out on their unsuspecting prey whose ships were then dependent on sails alone Such expeditions were the delight of the Dyaks since they not only were highly profitable but also afforded an easy source of human heads for their trophy racks. The appearance of steam war vessels put an end to this piracy, and the growth of British influence in Borneo also practically put a stop to head-hunting.

The Dyak of Borneo is somewhat taller than the Malay, but is inferior in stature to the average European. The men are slender, their form suggesting activity and endurance rather than great strength. The women are somewhat smaller and well proportioned. They are good-looking when young, but show age early

The Dyaks practice the ugly custom of blackening their teeth, this being considered a mark of beauty. A coconut shell or a piece of a certain kind of wood is held over a fire until a black juice is forced to the surface. While still warm this waxy surface is spread over the teeth. Sometimes front teeth are filed to points. An odd sort of dentistry is also practiced by some tribes, holes being led in front teeth which are then d with

Beards are tabu among Daks, and the young men spend a great deal of their time carefully pulling out hairs. Quicklime is also rubbed on the face to destroy the hairs. The dislike of facial hair goes even farther among some tribes in which both the men and the women shave the eyebrows and pull out the eyelashes, a practice which gives their faces a weirdly vacant expression.

Many Families In One House. A "village" among the Dyaks is a one-house affair. Twenty-five or thirty or even more families live together under one roof in a "long house." This struture is built on hard-wood piles which raise its floor six, or eight, or even twelve feet off the ground. A notched log at each end furnishes a

means of ingress and egress. Both the roof and the outer walls are thatched with palm leaves made into huge shaggy shingles. The houses are built in a straight line with horizontal ridge pole and sloping sides which extend practically to the floor level. Near the bottom, however, sections of the roof are hinged so that they may be raised and propped up to admit air.

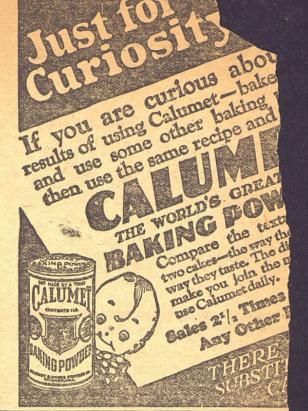

Outside the roof along the length of the house the floor is continued to make a wide uncovered veranda or wooden terrace. Rice and clothing are placed on this veranda to dry and numerous odd jobs, such as the sharpening of tools by the men, dying by the women, are performed on this open-air structure. Ironwood is usually employed to construct the veranda floor because of its resistance to the weather.

Just inside the roof from the exposed veranda is the covered veranda or ruai which also extends the entire length of the house. The floor there is made of split bamboo tied down with rattan. No partitions obstruct the ruai and it is usually a cool place where the Dyaks love to lounge, talking or engaging in some indoor occupation such as weaving cloth or mats, chopping firewood or even building boats. Thick mats of cane and bark cover the floor. Slabs of stone are let into the floor opposite the quarters of each famiy to form small fireplaces. Above these hearths, among the savages, is displayed the owner's collection of human heads.

How Dyaks Fish.

The Dyaks eat much fish which they catch in a variety of ways. They make fish traps of bamboo and rattan which they set in streams. They also use nets. The most popular of these is the jola, a circular net with weights about the edge, which they cast. Sometimes these nets are as much as 20 feet across. A high degree of skill is shown in casting the jola, so that all the outer edge touches the water at once. The weights cause the net to close about the fish underneath, and the catch is hauled up by a rope, one end of which is attached to the net while the other is tied firmly to the threwer's wrist.

Fishing with the aid of tuba root is, however, the favorite method. Fishing parties are organized on a large scale and the expeditions become gala events. All of those who are to participate take bundles of tuba root, nets and spears to some river selected for the enterprise. The first step is to build a fence of stakes from bank to bank save in the center where an opening is left into an enclosure which will trap fish attempting to escape. Then the bundles of tuba root are loaded into canoes and taken several miles up stream. Several canoes are beached and filled with water and in them the root is soaked, beaten and wrung. Before a great while the canoes are filled with a whitish, soapy liquid. The remaining canoes are manned and then the poison solution is emptied into the stream. Fish, stupefied by the tuba, rise on all sides. The larger ones are speared while the smaller are caught up in nets by the women and children amid much excitement. The fish swimming down stream to escape the polyon are caught by the fence and trap. Great quantities of fish are taken in these drives, the surplus being dried for future use. The poise affect the food value

SUCCESS HIS BECAUSE HE LOOKED FORWARD

Career of Newspaper Man Points a Mored.

By KEMAL STRAIGHT

On a lonely Kansas farm in the year 1869, a little boy was born. His early childhood was spent in the rugged environment of the then almost unbroken prairie.

Fortunately for him his parents moved to a camp in the Michigan lumber region.

Here the boy attended the primitive public school of the lumber camp. And it must have been at about this period that the youngster made his first forward look. He wanted to be a teacher.

When he finished at the local school, he went to the nearest normal institute and before he was twenty-one his dream had been realized.

This, however, was only the beginnis He saw that as a teacher of a single class, he could instruct but a few at a time.

Could he but talk to the little community in which he lived, how much more good he could do. He looked forward again. He would

study the people, find out what they most needed to know, and talk to them through a newspaper. He would become a reporter. That would be the

His promotion was rapid-it could not have been otherwise-BECAUSE as he attained each position and worked hard to fill it, he looked forward to the next place ahead; and he kept his eyes clearly fixed until the step was taken.

He was still the teacher, the server of his fellow men. But he always pictured larger audiences and more people to listen to his teachings.

He became editor of a prominent Detroit newspaper.

In far New Yerk, Joseph Pulitzer needed help. His newspaper was growing beyond its great chief's waning strength.

He needed a man big enough to wear his shoes when necessary. He scanned the newspaper field.

Did he find the man he wanted among his well-trained subordinates? Did he find him among the university graduates that crowded the ranks of newspaper men in the East?

NO. He found him in Frank I. Cobb. a wan who had looked forward-a can who could build not only as well as he, but better-a man who had vision to "carry on."

Truly here were two great men. And they were great because they cand see ahead of them, picture what they here Sunday. should be, what they should do.

Frank I. Cobb saw his vision matecialize. He talked to millions, he taught them. He made the world better because he had lived in it. And (Copyright, 1924, by The Eastment Syndicate.)

Not That Kind

Eugene Foster, director of the Indianapolis Foundation, recently was sitting in his office at work. The door stood ajar and he noticed a stranger walk past scanning the painted words: "The Indianapolis Foundation," on the

The man walked in and as Foster rose to meet the stranger, was asked: "Say, how are you fixed for ce-

"How am I fixed for what?" Foster

"For cement," the man replied. 'Aren't you in the foundation busi-

"Yes, I'm in the foundation business, but this foundation business does not use cement," replied Foster. -Indianapolis News.

Data in Corner Stone When the corner stone of a new

hospital now being erected in New York has been set in place, a complete record of modern medicine will be placed in the block for posterity. Molded in the block will be a reel of motion picture film showing doctors performing operations of this period. There will also be a complete set of glass-stained specimens of all known disease-producing bacteria, and ready for scrutiny under the microscope 100 years from now; a collection of drugs regarded as specific cures for diseases and a record of those diseases now regarded as incurable.

The Chief's Prediction

A pepful young messenger boy walked briskly into the captain's office at police headquarters several days ago with a telegram in his hand. Not deigning to glance at the outstretched hand of the captain, he walked over to Herman Rikhoff, chief of police, and-Wham !-slapped him on the back with all the strength he could muster.

"Hi!" he said, a broad Irish grin breaking over his face.

Rikhoff looked him up and down for

a few moments. "Well, boy," he said, "there's one thing-you'll get along in the world all right,"-Indianapolis News.

The Christian Endeavor Society of the Presbyterion church will render the following program Sunday evening, Feb. 8, at 6:45. Everybody welcome.

Topic: The Conquest of selfishness

Candle Light Meeting. Song No. 147. Scripture Reading, Olney Walker.

Prayer, Carl Eager.

Song, No. 102. Leader's Talk in outline, Mrs. Jim Barr

Every member is on the programwhen they enter the church will be dark except at the leader's desk, which will be lighted by one large candle-as the members enter they will be given a small candle-as they take part they will in turn, each light his candle from the leader's candle then move around to the lighted section so when all have responded the room will be full of light and all selfishness will be driven out.

The program will have talks, recitations, poetry, debates etc. interspersed throughout and promises to be a good one.

Business. Announcements. Benediction.

W. A. Rawlings and family left this week for Big Spring, where he has purchased a farm. We wish them success in their new home. They will continue to read the Review.

Oldsmobile Light Six-

With L. E. Jennings as Manager

A six cylinder car for less than you have been paying for a four cylinder. Car performance plus beauty -- the car that went from coast to coast with all gears removed but high, a distance of 3700 miles-same feat in Australial 2000 miles. Some of the features of the New Oldsmobile: Fisher built bodies, Delco ignition , crg & Beck disc clutch, Brown type Chapman differential, Alemite greasing system, L motor, grey steel pistons, oil cushioned motor, as much performance as you will be able to buy in cars that cost much more money.

One of the first automobiles built-28 years of building Oldsmobiles successfully; the best car we have ever built for several hundred dollars less money than ever sold at before. The wonderful buying power of General Motors Corporation makes it possible to build a car of this quality at so low cost; the oldest division of General Motor Corporation.

Let us show you what we have in this car. Try it in sand bed or hill. If others do it, we will; if they can't we may-make us prove what we say with a demonstration, and prove to you that we have the most wonderful car on the American market for the money.

Price ranges from \$998.00 to \$1,550.00. Buy the type of body you want; all models have Duco paint. Be sure to see this car before you buy.

bread and meat, hoarded from her scanty meals, she hid in her blouse.

"If I could stun her, just stun her," she got into the way of whispering to herself. "Not kill her outrightjust stun her-

At last, seeing that she must work her own salvation with the crude weapons given her, Judith told herself that she could wait no longer. Another day and another and she would be weak from the confinement and poor food and nervous, wakeful hours. She must act while the strength was in her. And, if Trevors had spoken the truth, if there were a man to deal with outsidewell, she must shut her mind to that until she came to it.

Mad Ruth was gone again, and Judith stood by the thick door, her heart beating furiously while she walted. It seemed to her eager impatience that Ruth would never come back. Then after a long, long time she heard a little scraping sound upon the rock ledge outside, the sound of a quick step. And then, before she heard the snarling, ugly voice which she had heard once and had never forgotten, she knew that this time she had waited too long, that it was not Ruth coming.

One man-and there might be others. She stepped back to her bed, hid the two weapons and waited. She must make no mistakes now.

The door was flung open. Outside t was dark, pitch-dark. But evidently the man entering had no fear of being seen. He threw down a bundle of dry fagots, and set fire to them. The blaze, leaping up, casting wavering gleams to where Judith stood, showed her plainly the twisted, ugly face of Quinnion, his red-rimmed eyes peering at her, filled with evil light.

"The better to see you by, my dear!" was Quinnion's word of greeting. Judith made no answer. drew a little farther back into the shadows, a little closer to the things she had hidden among the firbranches.

from the first plain enough to read in the glimpses of his face and in the added harshness of his voice. "Timid little fawn, huh? By G-d, a man would say from the bluff you put up that it was all a dream about findin you an' the han'some Lee in the cabin together! Stan' off all you d-n please; I've come to tame you, you

little beauty of the big innocent eyes!' Not drunk; no, Quincion was never drunk. But, as he came a step closer, the heavy air of the cave grew heavier with the whisky he carried, whisky enough to stimulate the evil within him, not to quench it.

"Stand back!" cried Judith, with a sharp intake of breath. "I want to talk with you, Chris Quinnion."

"So you know who I am, do you?

"I know who you are and what you are," she told him defiantly, suddenly sick of her long hours of playing baby, knowing at the moment less fear than hatred and loathing. "Listen to me: Bayne Trevors has come out in the open at last; he has made his big play and is going to lose out on it. Your one chance now is to let me go and to go yourself. Go fast and far, Chris Quinnion. For when the law knows the sort Bayne Trevors is and how you have worked hand and glove with him it will know just how much his word was worth when he swore you were with him when father was killed! Coward and cur and murdered!"

Quinnion laughed at her. "Little pussy-cat," he jeered. "You've got claws, have you? And you spit and growl, do you? Want me to let you go back to that swaggering lover of yours, do you? Back to Lee-

"That's enough, Quinnion," she said

"Is it?" He laughed at her again, and again came on toward her, the red-rimmed evil of his eyes driving quick fear at last into her. "Enough? Why, curse you and curse him, I haven't begun yet! When I'm through with you I'll go fast enough. And he can have you then an' d-n welcome to him!"

"Stop!" cried Judith. His laughter did not reach her ears now, but as he kicked the fire at his foot and the flames leaped and showed his face, she read the laughter in his soul; read it through the gleam ing eyes, the twisted mouth which showed the teeth at one side in a horrible leer. His long arms thrust out before him, he came on.

"Oh, my G-d!" cried Judith. "My

G-d!" Then suddenly she was silent. She thought that she had known the uttermost of fear and now for the first time did she fully know what terror was. His strength was many times her strength, his brutality was unbounded, she was alone with him. There was no one to call to, not even Ruth, the mad woman.

She was shaking now, shaking so that she could barely stand. Quinnion came on, his long arms out.

She felt the strength die out of her body, grew for a moment blind and

But her voice stuck in her throat.

He was gloating over her, a look strangely like Mad Ruth's in his eyes. Good G-d! He was like Mad Ruth; the same eyes, the same long, powerful arms, the same look of cunning! In a flash there came to her a suspicion which was near certainty: this man was blood of Mad Ruth's blood, bone of her bone; her son, and, like her, tainted with madness.

He shot out a long arm, his hand barely brushing her shoulder. She shrank back. He stood, content to pause a moment, to gloat further over

"You little beauty," he said, panting. "You little white and pink and brown beauty!"

Judith had shuddered when he touched her. But a strange thing had happened to her. His touch had angered her so that she almost forgot to be afraid, angered her so that the louthing was gone in white hot hatred, giving her back her old strength.

Now, though he had the brutal force of a strong man, Quinnion did not have the swiftness of movement of an alert, desperate girl. Before he could grasp her motive she leaped toward him and toward the bed of houghs, found the ragged stone, and lifting it high above her head flung it full into his face. The man staggered back, crying out in throaty harshness. a cry of blind rage. But he did not fall, did not pause more than a brief instant.

A little dazed, with blood in his eyes, he lunged toward her. She had found the club now and struck with all her might, again beating into his face and again and again. He sought to grapple with her and she beat him She saw his hand go to his hip and heard him curse her, and she leaped in on him and, panting with the blow, struck again. He flung up his arm. She struck once more. Taking the blow full across the face. Quinnion reeled back, stumbled at an uneven spot in the rock floor, balanced, almost falling.

Only a moment he held thus. But there was a chance to pass him in the narrow way, and she took her chance, her heart beating wildly. And as she shot by she struck again.

She heard him after her, shouting curses, stumbling a little, coming on. The door was open, thank God, the door was open! She shot through. If she could but take time to close it But there was no time for that: he was almost at her heels. And outside was the ledge and the dizzy climb

If she slipped, if she fell, well, it would just be a clean death and nothing more. Quinnion was but a few steps behind her. He had not fired Had he perhaps dropped his gun back there in the darkness? Or was he so sure of taking her, alive and struggling, into his arms in another mo-

She was on the ledge. It was dark. pitch-dark. But she found a handhold, threw herself flat down and thrust her feet out over the ledge, less afraid of what lay below than what came on behind her. She was gripping the ledge now with her hands, already torn and bleeding, her feet swinging, touching sheer rock wall, slipping, seeking a foothold. Quinnion was just there, above her. She must move her hands so that he could not reach her. It seemed an eternity that she hung there, seeking a place somewhere to set her feet.

She found it, another lesser ledge hich she had almost missed, and knew that this way she had clambered upward with Bayne Trevors. If she could only find another step and another before Quinnion came upon her! She held her club in ner teeth; she must not let that go.

Quinnion was over the ledge, folowing her. She heard his heavy breathing, heard him cursing her again. She was going so slowly, so slowly, and Quinnion would know the way better than she. Quinnion would make better time in the dark.

She moved along this lower ledge. At each instant she wondered if It were to be her last, if she were going to fall, if a swift drop through the darkness would be the end of life.

Suddenly there was scarce room in the girl's breast for hatred of Chris Quinnion, so filled was it with the love of life. She wanted to see the sun come up again, she wanted the sweet breath of the dawn in her nostrils, the beauty of a sunlit world in her eyes. She thought of Bud Lee.

Clinging to the rocks, hanging on desperately, taking a score of desperate chances momentarily, she made her way on and down. She found scant handhold and, almost falling, dropped her club, heard it strike, strike again. Black as the night was, its gloom was less than that of the cavern to which Judith had grown accustomed; little by little she began to make out the broken surface of the cliffs. The chasm below was a pool of ink; above were the little stars; in the eastern sky, low down, was a promise of the rising moon.

The surge of quickening hope came scraps of dizzy and sick. She tried again to into her heart. Had she hurt Quin-

call out to him, to plead with him. I nion more than she had guessed? For, I ing to make out the form of the mad slowly as she made her hazardous way down, it seemed to her that Quinnion came even more slowly. Could she but once get down into the gorge below, could she slip along the course of the racing stream, she might run and the sound of her steps would be lost even to her own ears in the sound of the water; the sight of her flying body would be lost to Quinnion's eyes.

Then she heard him laughing above her. Laughing, with a snarl and a curse in his laugh, and something of malicious triumph. Was he so certain of her then?

"Ruth!" called Quinnion. "Oh, Ruth! The girl's gettin' away. Goin' down the rocks. Head her off at the

Judith had found, because her fate was good to her, the long slanting crack in the wall of rock up which she had come that day with Bayne Trevors. There was still danger of a fall, but the danger was less now than it had been ten seconds ago. She could move more swiftly now and confidence had begun to come to her that she could elude Quinnion. But now, suddenly, she heard Mad Ruth's voice screening a shrill answer to Quinnion's shout; knew that Ruth had been in her cabin across the gorge and was running to intercept her at the foot of the cliffs.

Well, s'll there was a race to be run and the odds not eptirely uneven. Ruth must desc nd the other side of the canyon, get down into the gorge, nake the crossing, which, so far as Judith knew, might be farther up or farther down stream, come to the liffs below Judith before Judith herself made her way down.

Again Judith took what risks the night and the rocks offered her and hanked God in her soul that it was given her to take a chance in the open, to use her own muscles in her own fight, not to lie longer, playing the part of a do-nothing. Now and then, across the void, there floated to her a little moaning cry from the mad woman's lips. Now and then she heard a curse from Quinnion above; often from above her, from below her own feet, from across the chasm, dropoing stones, falling almost sheer, told of haste and death which might come

from ar unlucky step. as Judith went now, having fair sort of cliff trall under her Mad Ruth went faster. The gorge mensured a scant fifty feet between them and the girl's alert senses told her that already Ruth was on a level with her. Ruth was winning in the lesperate race. She knew her way down so perfectly, her heart was so filled with madness, that danger was

Down and down climbed Judith, caution wedded to haste, as she told that that chance must not be tossed away in a fall, though it were but a ew feet. She must have no sprained

The flush had brightened in the sky where the moon was so near the ridge. The moon, too, had joined in the race; with one quick glance toward it, Judith again discarded caution for haste. She must get down nto the floor of the canyon before the noonlight did: she must be running pefore its radiance showed her out to Quinnion and Ruth.

Her hands were cut and bleeding. her heart was beating wildly, already her body was sore and bruised. But these things she did not know. She only knew that Quinnion was still coming on above her, and coming more swiftly now, quite as swiftly as she herself moved, since his feet, too. were in the better trail; that Mad Ruth had completed the descent across the chasm and by now must be crossing the stream upon some fallen log or rude bridge; that one minute more, or perhaps two, would decide her fate.

She could see the stream, glinting palely in the starlight. It seemed very near; its thunder filled her ears. Down she went and down, down until at last she was not ten feet above its surface, with a strip of gently sloping bank just under her. She stopped, took firm hold upon a knob of boulder, prepared to swing down and drop to the bottom. And, as she stooped, she heard a little whining moan just under her and straightened up, tense and terrified. Mad Ruth was there before her, Mad Ruth was waiting.

CHAPTER XV

Alone in the Wilderness

And Quinnion was coming on. She was trapped, caught between the two of them. She heard Quinnion laugh again; he, too, had heard Ruth. "Oh, God help me!" whispered Judith. "God help me now!"

There was no time to besitate. It she stood here. Ouinnion would in a moment wrap his arms about her: if she dropped down, she would be in the frenzied clutch of Mad Ruth. A second she crouched, peering

down into the gloom belg

over the girl's ankle. Judith rolled, struck again with the free boot, twisted sharply and felt the grip torn loose from her ankle. She was She jumped up and ran and knew that Ruth was running just behind her, screaming terribly. Judith fell, and her heart grew sick within hes, But again she was up just as Ruth's hand clutched at her skirt, clutched and was torn away as Judith ran on. Ouinnion cursed from above as she

woman. Then she did not merely

strangling cry from Judith, and the

reviled both her and Quinnion for having let her go. Judith was running swiftly and felt that she could get the better of the heavier, older woman in a race of this sort. She stumbled and fell, and

had not yet heard him curse. Ruth

Jumped, Striking With Her Boots, an Mad Ruth's Ample Shoulders.

fear again gripped her: it seemed so ong before she could rise and clamber over a fallen log and race on. But the darkness which tricked her protected her at the same time, playing no favorites now. Ruth, too, had fallen; Ruth, too, was frenzied at the brief delay.

Stumbling, falling, rising, staggering back from a tree into which she had run full tilt, bruised and torn, the girl ran on. At every free step hope shot upward in her heart: at every fall she grew sick with dread.

The canyon broadened rapidly, the ground underfoot grew less broken and littered with boulders and logs. Through tangles of brush she went blindly, throwing herself forward, falling, rising, falling, rising again. It was a nightmare of a race, with Ruth always just there, almost at her heels. She turned as far away from the stream as she could, keeping under the cliffs where there was less brush; where the way was more open, where the shadows were thickest.

She was outdistancing Mad Ruth. Ruth's weird voice came from a greater distance; the woman was ten, maybe twenty, feet behind her.

The moon at last rose pale gold above the eastern ridge. And now Judith could thank God for it. For the canyon had widened more and more, the banks of the river were studded with big trees, there were wide open spaces between them through which she shot like a frightened deer, turning this way and that, darting about a clump of little firs, plunging into the shadows under great sky-seeking cedars, running as .she had never run before and as she knew Mad Ruth could not run.

Free! She was free. The triumph of it danced in her blood. On she ran and now Quinnion's voice and Ruth's were confused with the roar of the river. On she ran and on and on, and but faintly there came to her the sound of breaking brush somewhere behind her. Never had her blood sung within her as it sang now; never had the dim, moonlit solitudes of the mountains opened their sheltering arms to one more grateful to slip into them, like a wounded child into the soothing embrace of its mother.

Now again she turned so that her flying steps brought her close to the water's edge. Louder and louder grew its shouting voice in her ears, little by little drown the sounds of Ruth and Qui behind her. Now, in all the night, there was no sound to her but the sound of running nd her owr eating feet. S (TO BE
