By Jack McCarty

Yea, Buffaloes, let's go against the Goldthwaite Eagles Friday night...

Little is known of the strength of the Eagles this year, but it is known that they lost very little material from their squad last year through graduation...

It can rain in Cross Plains! Yes, sir, the slow rain which fell here Tuesday afternoon and Wednesday morning helped this department's morale a great deal.

Readers will find a proclamation in this edition designating Sunday, September 14, as the starting day of a campaign to raise funds for the Gonzales Warm Springs Foundation for Crippled Children in Cross Plains...

Smith Drug Closed For 2 Weeks Vacation

In a display advertisement in this edition of the Review, Mr. and Mrs. Peyton Smith, owners and operators of the Smith Drug Store here call attention to the fact that this month marks their 25th anniversary in business here.

FIRE DESTRUCTION AT MAY—This aerial photo of the smoking and still blazing ruins of a May business block was taken by Fred Nobs of Jimmy McDonald's photo service, Brownwood. A. M. Henry, Jr., flight instructor at Brownwood Airport, piloted the plane. The fire destroyed block of four business buildings on the east side of U. S. Highway 183 which runs through the center of the Brown County town. Five fire trucks are shown in the picture. A sixth truck from Cisco arrived moments later.

PROCLAMATION

WHEREAS the Gonzales Warm Springs Foundation for Crippled Children is a charitable, non-profit, non-sectarian organization exclusively devoted to the vital task of providing a treatment center for the rehabilitation of the physically handicapped little ones of our state; and

WHEREAS this Texas institution has been made possible by the warm-hearted generosity of thousands of Texans from every part of our state; and

WHEREAS, in light of the greatly increased incidence of poliomyelitis in many communities and in consideration of the thousands of other crippled children who can benefit from the treatment program of this officially recognized hospital of physical medicine, additional facilities must be provided to meet this ever-increasing need; and

WHEREAS this worthy organization is now conducting a campaign to raise funds to effect this most necessary expansion to extend its facilities to a greater number of our crippled future citizens; now

THEREFORE I, S. F. Bond, Mayor of the City of Cross Plains, Texas, do proclaim Sunday, September 14, 1952, the starting day of this campaign in our community, to be Gonzales Warm Springs Foundation Day and urge all citizens of this community to be most generous in this support, and hereto I affix my name and the seal of the City, this 8th day of September, 1952.

S. F. BOND, Mayor.

Fire Thursday morning of last week destroyed approximately one-fourth of the business district of May, eight miles south of Rising Star. The fire was discovered about 9 o'clock at the rear of the O. L. Killion Red & White Grocery.

There is no fire department in May, and those who began fighting the fire were unable to prevent it from spreading throughout the entire block of four buildings. Fire fighting equipment from four towns arrived in time to prevent the blaze from spreading to other blocks in the little town.

In addition to the Killion grocery, other businesses destroyed were Willett's Grocery and Feed Store, Ira Nelson's feed store, the Masonic Hall, located above the Willett grocery, one building used for storage by Nelson and the unattended, automatic telephone exchange owned by Southwestern States Telephone Company in the Masonic building.

The fire was discovered in the wall of the building occupied by Killion near the rear. O. A. Burnett, operator of a grocery store across the street, said he and other men began investigating to determine where the fire was, since only smoke was coming from the wall. They pried off a board in order to

Oil Test Being Drilled On Barr Place At The South Edge Of Town

Inca Drilling Co. of Abilene is now drilling a wildcat test on the S. C. Barr place just south of town.

The test is located on a tract of 75 acres belonging to Mrs. S. C. Barr, in the W. G. Anderson Survey No. 777, and contract depth calls for the Cross Plains Sand.

In this area C. E. Davidson has secured a lease with drilling contract, and it is also reported that C. D. Lane, local operator has secured some drilling contracts in the immediate vicinity and all indications point to another townsite drilling program in the near future.

Girl Scout Leaders To Meet Thursday

It has been requested by Mrs. James Alexander that Girl Scout leaders and members of the executive committee meet Thursday afternoon at 4:00 o'clock in the directors room at the Citizens State Bank.

Mrs. Alexander states that this is a very important meeting and urges all leaders and committee members to attend.

Darwin Anderson has accepted employment with the Pool Drilling Company in Cisco.

Mr. and Mrs. Lindsey Tyson visited relatives in Brownwood Sunday afternoon.

City Water Storage Tank Is Undergoing Repair Program Here

A crew of workmen for the Dixie Tank & Bridge Co., Memphis, Tennessee, moved in here Monday of this week and started an extensive repair program on the city water storage tank and tower here.

City Water Commissioner E. C. Neeb stated that the work should be completed this week and that a contract with the company called for cleaning, scaling, spot welding and painting the tower and tank. According to Neeb, the tank will be painted inside and out with special paints and when completed the tower should be in first class condition for some time to come.

The tank has been drained of its contents and while work is going on, city water department employees are keeping the wells here pumping continuously directly into the city water mains in order that consumers will have sufficient water for their needs.

Mayor S. F. Bond stated this week that the city is now engaged in a drilling program to discover new sources of water for local use and that while there is not a dire need for additional water at this time, the council feels that a surplus should be found and tapped for future use.

Local Man's Father Buried At Bangs

A. L. Petty, 76, of Bangs, father of A. D. Petty of this city, passed away Sunday morning in a Brownwood hospital following an illness of one week.

Funeral services were held at 4 o'clock Monday afternoon in the Bangs Baptist Church with Rev. O. D. Carpenter and Rev. R. C. Tennison officiating. Burial was made in the Bangs Cemetery.

Alexander Leslie Petty was born July 6, 1876, the son of the late Mr. and Mrs. J. R. Petty. He moved to Brown County with his parents at the age of six and lived near May until moving to Bangs nine years ago.

Survivors are his wife, the former Nettie E. English, five sons, A. D. of this city, R. R. of Sweetwater, W. Ralph of Artesia, New Mexico and L. B. and K. M. of Farmington, New Mexico; three daughters, Mrs. J. T. Evans of Bangs, Mrs. W. B. Maxfield and Mrs. H. J. Collard of Arlington; three brothers, one sister and a number of grandchildren.

Matson Butane Closing Its Retail Store Here

Perry Matson, owner of the Matson Butane Co., here and in Brownwood, was here the past week and ordered a display advertisement run in the Review, in which he states that he is closing the local retail appliance store here, effective Monday, September 15.

He stated, however, that this move would not inconvenience butane gas customers, as he had arranged to have W. J. "Son" Sipes, local Magnolia distributor, act as agent here and both of Matson's butane tank trucks will headquarter at Sipe's station, next door to the Calhoun Motor Co., here.

In speaking of the move, Matson stated that conditions forced him to close the local store in order to hold the line against continued rising costs of operation. He pledges the same quality service to his customers in this area.

HOSPITAL NOTES

Ben Pierce entered the Rising Star Hospital Tuesday morning after suffering a heart attack at his home here.

Mrs. John Fore is receiving medical care in the Rising Star Hospital.

Claud Foster entered Memorial Hospital in Brownwood Tuesday where he will undergo major surgery.

Paul Harrell is receiving medical treatment in Medical Arts Hospital in Brownwood this week. He was admitted to the hospital Tuesday.

Rev. and Mrs. C. Y. Butler visited in Gorman Tuesday afternoon.

Coaches Frank Rundell and James Alexander will take their Cross Plains Buffalo football squad to Goldthwaite Friday evening, where they will open their 1952 football season in an encounter with a strong Eagle squad, in a non-conference game, to start at 8:00 p.m.

Rain Totalling Over Half Inch Falls Over Area

While maybe it is not worth a "million dollars", a slow rain which started here shortly after noon Tuesday and continued intermittently all night, totalled over a half inch Wednesday morning and is worth a lot as a morale builder in this parched country.

As the Review goes to press the skies are heavily overcast and everyone is hoping that a real soaker will fall before it clears.

Campaign Dates Set For Gonzales Warm Springs Fund Drive

Dates for the Cross Plains campaign to raise funds for Gonzales Warm Springs Foundation for Crippled Children, Texas' own treatment center for physically handicapped youngsters, have been set for September 14 through the 20th, according to an announcement by Mrs. Fred Cutbirth, local chairman.

During the two-weeks period the local campaign will seek to raise a portion of the funds necessary to maintain and expand the facilities at the Gonzales treatment center, which are available to any Texas child regardless of race, color, creed, or financial condition.

Gonzales Warm Springs Foundation operates a 115 bed hospital, non-profit and non-sectarian, built by the contributions of generous Texans from every corner of the state. It has earned the approval of the American College of Surgeons and other accrediting agencies. It accepts patients from all over Texas, any child whose physician feels will be benefited by the treatment program of physical medicine and rehabilitation.

In announcing the local campaign, Mrs. Cutbirth expressed the hope that everyone in this community would join in the effort to expand the facilities of the Gonzales Foundation. A building program now under way will increase bed space by 30 per cent, she pointed out, enabling the hospital to accept many more patients each year.

THE BAYOU PHILOSOPHER AGAINST NEW PLAN TO LET THE BUREAUCRATS DECIDE WHEN HE OUGHT TO RETIRE

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou is off on a topic he seems to be an authority on.

I read the other day where some expert in Washington has come up with the idea that arbitrarily fixing 65 as the age to retire is an impractical notion. According to him, some men at 65 aren't near ready to retire, lots of good work still left in em, and there are some who can go on to 75, even 80 or beyond. Claims the government could save a lot of pension money this way.

Accordin to him, you can't have a set rule on automatically retiring, your 65th birthday ain't no way of determining whether you're ready to stop or not.

I want you to know I am opposed to this new idea 100 per cent. If there's any freedom left in this world, it ought to be freedom to retire without being inspected, but if this new idea gets goin, don't you know the first step will be to set up a board to decide when a man's ready to quit work?

Like it is now, all you have to do is hold together until you're 65; you can start aimin at it from way back and when you get there you can retire and draw a pension, but under this new system they'd be around inspectin you, probably havin you flex your muscles, have you plow a few rounds, chop a few acres, pound you on the back, and then take 90 days to mail you back a report on whether you're ready to retire or not.

Thunder, we don't want any such system. When a man gets ready to retire, he oughtn't to have to ask anybody. Just drop his hoe and walk to the shade and sit.

In fact, if he wants to retire when he's 50, or 40, or whenever he can swing it, that's his business too. In fact, under my system, retirin ain't no sudden move, like jumpin into a cold tub of water, it's a gradual thing. It ain't good for a man to be pulled up short and have to stop workin all it once, he ought to start early in life, easin up on the thing, gradually doin less and less, so when the time comes to retire there ain't hardly any noticeable change.

There ain't nothin more pitiful than a man who has worked hard all his life suddenly not havin anything to do. Some folks say the way to avoid this is to not give up, keep on workin, but my idea of the way to avoid such a catastrophe is to plan your retirement early in life and work up to it. I got mine in such shape I won't even know I'm retired unless I mark it on the calendar.

Yours faithfully, J. A.

**Texas Safety Association Appeals to Drivers to Watch for Children**

It's School Time again in Texas and today W. Carlos Morris, Jr., President of the Texas Safety Association issued an appeal to all Texans to redouble their efforts toward the saving of life and limb in this great state.

"This year probably more Texas boys and girls than ever before will be attending school for the first time. It will be a new experience for them and many will be sent out to go to, and to come from, school alone," he said. Motorists must keep this in mind. A youngster, thinking about baseball or football will often not see your car and may step off the curb in your path. Be watchful, Mr. and Mrs. Motorist—give the kids a brake!

For you who travel the highways, here is a point of interest to you. By Texas law, motor vehicles must stop for a stopped school bus—whether you are following or approaching. Don't run down an innocent child—and there will be over one third million youngsters traveling in Texas school buses this year.

And here is a final word to

mothers and fathers: Teach your youngsters these Safety Rules:

1. Where there are sidewalks use them.
  2. If they must walk in the street, walk facing oncoming traffic.
  3. Cross only at intersections.
  4. If riding a bicycle, ride it on the right side of the street and use hand signals.
  5. Obey the safety patrols when and where safety patrols are used.

Q—I am the widow of a World War II veteran, and I am receiving GI insurance payments at a certain rate each month over a period of 10 years. My husband chose this method of payment because it seemed best at the time. I find now, however, that I need a good-sized sum of money immediately. May I be paid the rest of the insurance in one lump sum?

A—No. GI insurance may be paid in a lump sum only when the insured veteran himself has made that selection.

Q—I'm a World War II veteran suffering from a non-service-connected disability. I went to VA and was told that I might be hospitalized—if I waited for a bed to become available and was unable to afford private treatment—but that I could not get outpatient treatment. Why is that?

The VA is not permitted by law to give outpatient treatment for non-service-connected disabilities. On the other hand, a veteran may be hospitalized for such a disability if a bed is available and if he can't afford treatment elsewhere.

Q—I have been attending college, on my own, ever since my discharge in May, 1952. Now that the Korean GI Bill has been passed, may I put in a claim to collect money for at least part of my expenses since last May?

A—No. Under the new law, payments may not be made for any training taken prior to August 20, 1952.

Q—As the widow of a World War II veteran, I am drawing both VA death compensation and payments under the GI insurance carried by my late husband. I am planning to remarry. Will VA cut off both payments?

A—Your compensation payments will be discontinued upon your remarriage because, under the law, death compensation is payable only to an unmarried widow. But your remarriage will not affect the payment of your insurance. You will continue to receive the insurance checks.

**HEALTH NOTES**

Typhus fever continues to make its appearance in various counties of Texas, says Dr. Geo. W. Cox, State Health Officer. Like typhoid fever, most cases appear during the summer and fall and all citizens are urged to help control the spread of typhus by assisting in exterminating rats.

"There is only one way typhus can be controlled," Dr. Cox said, "and that is by, as nearly as possible, completely exterminate rats in the State, since fleas from infected rats transmit the disease to man. We can begin to visualize the extent of the needed extermination campaign when we realize that there is estimated to be 13,000,000 rats in Texas."

There has been some confusion concerning the type of typhus fever which is occurring in Texas, but Dr. Cox pointed out that this disease is entirely different from the old world type which has followed some of the armies in Europe. Ordinarily the kind of typhus which makes its appearance in this section of the country is not a fatal disease, although there has been a death rate of about two percent from typhus this year.

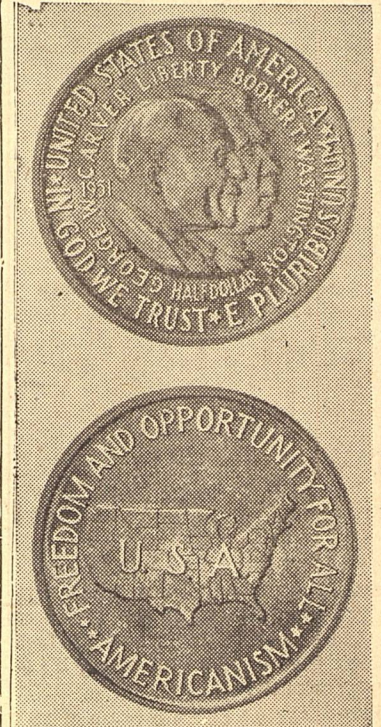

The poisoning and trapping of rats throughout the state will help to control the spread of this disease although these are temporary measures. In order to be permanently rid of rats they will have to be starved out, which means that buildings housing food supplies must be rat proofed.

It should also be remembered that rats cost the householder millions of dollars each year in the amount of food they either eat or spoil.

**Gov. Shivers Endorses Negro Self-Help Program**

Gov. Allan Shivers of Texas has endorsed as "most timely and commendable," the nation-wide self-help and Americanism program sponsored by the Booker T. Washington Birthplace Memorial for American Negroes, S. J. Phillips, founder-president, has announced.

"As a means of combating communist infiltration, your Americanism program with its theme of 'Freedom and Opportunity for All' is most timely and commendable," the governor wrote Mr. Phillips at Booker Washington Birthplace, Va., where the organization is developing a service program to perpetuate the teachings of that famed educator.

"The Carver-Washington commemorative half dollars are very distinctive and pay appropriate tribute to two outstanding Americans," the governor added.

His commendation follows congressional action in voting the minting of a special commemorative half dollar honoring George Washington Carver and Booker T. Washington, two great Negro leaders now dead.

By specific congressional approval, the new coin, on which are embossed profiles of Carver-Washington with the slogan, "Freedom and Opportunity for All—Americanism," is being sold at a \$2 premium by Texas banks as a public service.

All proceeds are turned over to the Booker T. Washington Birthplace Memorial. That organization's primary objective, said Mr. Phillips, is to enlarge the opportunities for Negro work training so they can improve their living standards, thereby demonstrating to the under-privileged Negro masses the sharp contrasts between America's advantages and communist propaganda.

## PIONEER NEWS

By A. O. (Slim) Harris

The stork paid a visit to the home of Mr. and Mrs. Billy Pancake of Cross Plains last Saturday. Ronnie Lemoine, a seven pound son, was born in the German hospital. Both mother and son are doing fine. Billy is still traveling around in broad circles with his chest sticking out like a pouter pigeon on a bright spring morning.

Mr. and Mrs. R. E. Duncan of Big Spring are vacationing here with his sisters, Mrs. A. O. Harris and Mrs. T. R. Montgomery, and catching up on some delayed fishing.

Mr. and Mrs. Moore of Ranger, Mrs. Ruby Dell Henry of Seagraves were guests at the home of Mr. and Mrs. Duke Mitchell last Friday.

Mr. and Mrs. Loyse Bellar and children, who have been living at Vernon where he was employed, have returned home to place the children in school.

Donald Duke of Big Spring visited with his uncle and aunt, Mr. and Mrs. George Scott, last Sunday.

Dinner guests at the home of Mr. and Mrs. Duke Mitchell were Rev. Quint Farley and family, Mrs. Loyse Bellar and children. Others calling in the afternoon were

Mr. and Mrs. A. O. Harris, Mrs. Golson and daughter of Cross Plains, Mrs. James Lane and Rev. Whaley, pastor of Grosvenor Baptist Church.

Rev. Tom Flippin, who recently resigned as pastor of the Pioneer church, here, has accepted a call to Oplin to pastor a church there.

E. M. Pancake has been staying with his son, Ralph, who has been ill for a few days.

Grandpa Lemoine Pancake is in search of a good gentle walking stick since becoming grandfather last Saturday afternoon when Mrs. Billy Pancake presented him with a seven pound grandson.

Cotton picking and castor bean harvest will soon be underway in our community. The crop will be short due to a very dry year.

No one can tell when Uncle Graves Harris goes to town now since he let old faithful (his Model A) go. He has a Chevrolet now. Uncle Graves enjoyed the old car a long time and did not want to let it go, but age overtakes autos as well as folks.

## FORMER RESIDENT GRADUATES FROM SCHOOL OF NURSING

Mrs. Pattie Sue Watkins of Abilene, the former Patti Sue Huntington, daughter of Mrs. Eva Huntington and former Cross Plains residents, was graduated from the Hendrick School of Nursing last week. She was one of a class of 13 graduates.

Mrs. Watkins is well known here, having graduated from the local high school.

Mr. and Mrs. Jack Preston and family spent the week end with his mother, Mrs. R. M. Illingworth, and family and also visited Mr. Illingworth who is a patient in an Abilene hospital.

Rev. and Mrs. Paul Smith and twins of Mexico City spent last week with his parents, Mr. and Mrs. Marvin Smith. The Smiths have been attending Oklahoma University at Norman this summer, but were on their way back to Mexico.

Mr. and Mrs. R. E. Duncan of Big Spring are spending this week with Mr. and Mrs. Dick Montgomery. Mr. Duncan is Mrs. Montgomery's brother.

Mrs. Exal McMillan attended funeral services in Putnam Thursday for John Cook. She was accompanied home by her mother, Mrs. J. A. Hart, and Mr. and Mrs. Kenneth Gaskins, Rev. and Mrs. Bill Gaskins and James Gaskins, all of Fort Worth, who had dinner in her home.

## Electric Power

## PRODUCTION FOR FREEDOM

America must produce more and more to stay free! And the key to that vital production is an abundance of electric power. With only six per cent of the world's population and only a small fraction of the world's natural resources, American workers . . . utilizing enormous quantities of electrical energy . . . produce nearly half the world's goods.

That abundance of electrical power is provided by the heavily taxed, privately owned electric companies financed directly or indirectly by the savings of private citizens. Since 1945 those privately owned companies have spent \$10 billion to increase the nation's electric productive capacity 50 per cent; and in 1954 another \$8 billion will step up generating capacity 100 per cent.

Here in West Texas, your electric service company by 1953 will have increased its capacity for production 151 per cent since 1945. Yes, the privately owned electric companies have proved their ability to provide more . . . and more . . . and more *Electric Power for Production for Freedom.*

definitely needed. But those who adhere to the short-sighted policy of neglecting soil work because the land will not be in their hands much longer have nothing to recommend them. The land will be here long after we are gone. We should pass it on to the next generation of farmers in a better condition than we found it.

**THE SOIL SAVING ARGUMENT**

For a great number of years, much time, effort and money have been expended on a vast educational and promotional program devoted to improving soil saving practices.

This program is gradually taking effect. Farmers in Texas, especially, are becoming increasingly more aware of the importance of saving our soil for future generations. But every major undertaking has its obstacles. And the soil conservation movement is no exception.

Four major reasons loom as to why the farmers are not applying all the beneficial practices recommended for their farms. They claim:

1. Mortgage debts and high operating and living costs make it necessary to borrow money to establish these practices.
2. Many rental agreements do not provide for sharing costs of soil conservation with owners of the land.
3. Many farmers do not expect to live on their farms very long. This group includes renters with short-term agreements and owners who expect to sell or retire so soon

that they could not benefit from these practices.

4. If these soil saving practices were established, farmers would have to change their major farm enterprise.

To elaborate on these reasons, many farmers said adoption of all practices would make it necessary to change from cash crop and grain consuming livestock such as hogs and fattening beef cattle, to roughage consuming livestock such as beef and dairy cattle. They claimed the time and expense involved prohibited the change.

Over half the tenant operators surveyed said their rental agreements did not provide the share-the-cost clause. This was especially true in crop-share rental contracts. Nearly half the owner-operators had a mortgage debt which averaged about \$4,000. Other farmers said high fixed costs kept them from making additional cash soil outlays.

These arguments have valid points. As a result, continued technical assistance on how to overcome these obstacles may be necessary. It may also be desirable in some cases to give financial assistance where it is requested and

# Game Warden Discusses Laws On Dove Shooting

By JOHN R. WOOD  
State Game Warden

There seems to be a lot of people who are still mixed up about the laws that govern dove hunting. I hope that this will give you some more information about playing the game of dove hunting.

If you will heed the information given here, you might be able to save a little more money for some other things that you need more than doves. There is probably less value received from the Justice of the Peace office than from any other place you may put the money.

There are not many dove laws but I will try to list them so you will be able to understand them easily.

1. Get your hunting license if you hunt doves out of the county of your residence. (Children under 17 years of age do not need a license to hunt doves in any county in the state).

2. If you have a repeater or an automatic shot gun, be sure that it is plugged to a three shell ca-

capacity. That means two shells in the magazine and one in the barrel. A shot gun is the only type gun that may be used to hunt doves—22 rifles are out.

3. Get permission to hunt from the landowner or the agent in charge of that land. Do not trespass on other people's property without their consent.

4. Do not hunt doves from a car, motor boat, sail boat or boat under tow by a sail boat or motor boat.

5. Do not hunt in any public road. The season is not open on doves in public roads.

6. DO NOT HUNT DOVES BEFORE NOON EVERY DAY DURING SEASON. No morning hunting will be allowed.

7. Do not kill more than ten (10) doves a day, nor possess more than 10 doves at any one time.

8. Do not hunt doves except between noon and sunset. (Don't come up with the statement that you did not know the sun was down).

9. Season on doves closes October 10.

## 10. DON'T FORGET THIS:

The penalty for violating the dove laws means that it will cost you from \$36 to \$211 fine. In addition to that you will lose your right to hunt with a gun in the state for a period of one year. Each bird illegally taken means a separate fine. Shells to kill doves which are high enough without adding a fine to the cost of the birds that you do not get.

Land owners are reminded that they do not have to post their land against hunting to file on that person for trespassing. All land is "posted" under the law and no sign of any kind is necessary. If a hunter does not have permission to hunt on your land, then he is subject to being filed on for trespassing.

## BE CAREFUL WITH THAT GUN

Hunters are again reminded that "gun safety" is still in season. Never carry a loaded gun in a car. Be sure that you know the gun that you are shooting. Do not go through a fence with a gun loaded. "If you drink, don't shoot. If you shoot, don't drink." Atom bombs are made out of alcohol and gun powder. Maybe not that, but if you are killed by an accidental shot, you are just as dead as you would be, if an atom bomb hit you.

We do not want any one killed

## Rev. Gene Edwards To Speak At Cottonwood Baptist Church Sunday

Rev. Gene Edwards, son of Mrs. Leonard Breeding of Goldthwaite, a missionary who has recently returned to the states after doing work in Switzerland, will speak at the Cottonwood Baptist Church Sunday Morning at 11 o'clock.

Buffalo Band News

By C. W. Bell, Reporter

The Buffalo Band is getting in tip-top shape for the Buffaloes' first game of the year to be played in Goldthwaite Friday night, September 12. The Goldthwaite Eagles have a very good band, so we are trying to get in shape.

We believe that we can beat them in band drills as well as in football. If you citizens think so just let us know by going to the game and yell for us and the team.
