Fort Worth Stock **Show Premiums** Set New Record

.Fort Worth, Oct. 15-A record breaking total of premiums for the 56 year history of the Southwestern Exposition and Fat Stock Show will be offered at the 1953 exposition, January 30 through February 8, officials announce.

The amount is \$172,373 which represents an increase of \$9,673 over 1952. This figure includes \$26,-705 for the horse show as well as the rich cash awards which the winning contestants in the world's greatest indoor rodeo will receive. For beef breeding cattle, awards

amount to \$34,800 (not including carload-and-pen bulls), divided as follows: Herefords \$13,800; Polled Herefords \$3,000; Shorthorns \$6,-000: Brahmans \$2,000 and Aberdeen-Angus \$10.000.

The carload-and-pen division has greatly increased in interest since it was instituted several years ago and has done much to restore Fort Worth to its pre-eminence as a bull market. Awards in this division are: Herefords, \$2,335; Shorthorns \$2,000 and Angus \$2,000. For open steers, \$10,745 is offered.

The Junior Show-in which for the first time in many years girls, as well as boys, will compete-offers \$9,508, of which \$3,637 is for the steer division; \$2,000 dairy calves: \$1,128 lambs; \$2,098 pig and \$645 negro pig show. Other allotments: dairy cattle

\$5,279 (Guernseys and Holstein-Friesian \$1.679 each: Jerseys \$2,-637): sheep and Angora goats \$5 .named being shown for the first time) \$2,500; pudging contests \$2,-000; herdsman prizes \$320.

With the greatest premiums the show has ever known, officials are looking forward to a highly successful exposition. The '52 show had the largest attendance in the history of the Fort Worth exposition which began in 1896 with the display of a few animals under a tree on a creek bank with boots, hats and small articles of Western jewelry as the prizes. The show is held in the Will Robers Memorial Buildings and 14 other structures which give 32 acres under roof and make the show independent of weather conditions.

The closing entry dates for the departments are: cattle, sheep and swine, December 15; horses, January 8; poultry and rabbits, January 15.

Q-I'm planning to convert my NSLI term policy to permanent endowment insurance. If I'm still living at the end of the endowment period, how will I receive my money?

A-You will have a choice. You may either get the insurance proequal monthly installments ranging in number from 36 to 240. If you died before all the installments have been paid to you, the list again. remainder will go to your beneficiary, if you have named one.

Q-I am receiving a VA pension for a total and permanent non- day. service-connected disability. I have a house which I inherited, and I want to sell it. Must I include all the proceeds of the sale as income, in figuring whether I come under the income ceiling for pension

purposes? A-Since you inherited the house, the entire proceeds from its sale would be considered as income for pension purposes. If you receive a lump sum payment, it will apply for the calendar year in which you got it. If you get paid in installments, whatever you receive during a calendar year must be included as

income for that particular year. Q-I was forced to interrupt my training under the World War II GI Bill to go back into active service. I expect to be discharged soon, and I want to continue with my GI studies. Is there any time imit for resuming?

A-You must pick up your training within a reasonable period following your discharge. The "reasonable period" is determined for each veteran on an individual basis and depends on a number of factors such as the type of training involved, its availability and

Q-I know of a World War II veteran who has become incompetent. Can his GI insurance premiums be paid by another person?

A-The premiums may be paid by any person on his behalf. If the veteran's premium return envelope isn't used, care should be taken to identify the payment properly, including the insured veteran's full name, address, date of birth, service serial number and insurance

Bigger Acres With Legumes

This farmer wanted to buy some more land, but it just wasn't available close enough to do him any good. He decided to make his present farm bigger-not in size, but to get as much yield as he would have from owning more land. By growing and plowing under a crop of clover, he found he could increase his succeeding corn yields by 18 percent. It was produced cheaper, and he found that he was making as much clear profit on his present farm as he could have expected from buying the additional land using the old methods of farming. Your PMA office can help you with suggested legumes for soil building.

A bank account makes it possible for you to plow under a part of your income, storing it away to draw upon at some future time. It's like making your future income bigger.

"Another nice thing, you don't have to clean the kitchen so often, because there's no smoke and

no soot. The kitchen stays cooler, too, because the heat goes into the food, not the air." DID YOU KNOW ...

with an Electric Range you can: Melt chocolate squares in waxed paper on a surface unit . . . save natural vitamins and minerals by cooking vegetables with very little water . . . roast meats perfectly with a minimum of shrinkage . . . pop corn or sterilize baby's bottles in the deep-well cooker . . . have delicious "charcoal-type" broiling with no flame? Did you know that housewives everywhere are switching to Electric Cooking, the modern way?

Mother Knows Best . . . of Course, it's Electric!
