

"AS I SEE IT"

By Jack McCarty

Old Man Weather made a monkey out of several of the local forecasters here on Monday of this week when a fall of 3.05 inches of precious moisture was gauged.

All kidding aside, citizens of this area should get on their knees and thank Almighty God for answering their prayers for the life giving moisture which was general over our area.

The rain should also do away with the local water shortage and give the city council an opportunity to get the new water wells connected to the present system before they will be needed again.

Saturday is July Fourth and with a long week end ahead, many people will take advantage of the opportunity to go "places."

Our attention has been called to the fact that a dog poisoner is operating in our city. A fine, registered Collie has been poisoned, leaving four orphan pups and according to the owner, the dog was poisoned in its own yard.

THE BAYOU PHILOSOPHER HIGHLY IN FAVOR OF BILL TO ALLOW LIVING EXPENSES TO COME OFF INCOME TAX

Editor's note. The Bayou Philosopher on his Johnson grass farm on the Bayou obviously is on a wild goose chase this week, but there are certain charms about his proposal, even though he'll get nowhere with it with Congress.

It's customary I know to take pot shots at Congress, a man who can't find something bad to say about Congress any given day in the House of Representatives in Washington voted a measure which I take my hat off to.

That is, I'll take my hat off to provided they extend the measure to take in the entire country.

The bill will allow a Congressman to deduct as legitimate expenses on his income tax whatever it costs him to live in Washington.

But you take under the present system, it doesn't matter how far a man goes in the hole trying to make a living, if he makes a paper profit he still has to pay an income tax, whether he's paid his grocery bill or not.

Fish Poisoner Fined Heavily

AUSTIN, June 29.—The case of a chemical company employee assessed \$545 in fines and costs for poisoning fish in Toyah Creek, tributary of the Pecos River, marks the monthly arrest report announced by the Director of Law Enforcement for the Game and Fish Commission.

Game Warden R. E. Miller of Pecos, who made the arrest, said the man, who resides at Pecos, "gladly" paid up since he could have been sent to jail. Miller said Justice of the Peace Fenton Alley of Pecos justified the severity of the fine because some cattle recently were poisoned in a similar case. "Besides", the Game Warden added, "the people out here are trying hard to restore fishing in the Pecos and its tributaries."

Fines and costs for the month totaled \$5,665.85 as compared to \$6,110.69 for last month, and \$6,740.40 for the same month last year.

Mrs. Agnes Eastham of Fort Worth was a week end visitor here with her sister, Mrs. Bess Johnson. Jerry Eastham, who has been visiting here, returned home with his aunt.

Cat Curb Effected With Gun

AUSTIN, Tex. — Between-season shooting that helps keep the hunters' eyes sharp and also help protect game birds is described in the current issue of Texas Game and Fish magazine.

The article by Edward D. Hyman is entitled "Don't Put That Gun Away."

Hyman tells about varmint shooting which is permitted to varying degrees in most counties and emphasizes the need for cracking down as follows:

"One of the greatest game destroying predators, the wild house cat, can be found in any part of Texas, usually in large numbers.

"For many reasons, the wild house cat has become a real threat to our game birds. Young quail, being much easier to catch than mice and rats, have made the call of the wild sound like sweet music to the thousands of farm cats which have deserted the barns for the meadows.

"Another reason cats have become so numerous in the field is that many city dwellers, when they find Tabby with a litter of kittens, takes the unwanted new additions of the household out to the country and turn them loose in some farmer's field to fend for themselves.

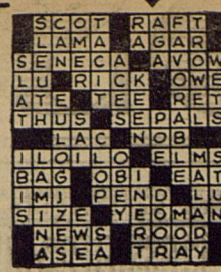

"This they do very well! The farmer could tell you, in a few short and possibly unprintable words, the effect they have on quail population and frequently his young chicks."

Hyman points out that Texans pursuing varmint hunting had better check the local game warden to determine which predators are most prevalent in different areas.

ROWDEN NEWS

By Velda Crow

Mr. and Mrs. Gerald Stephens and Eddie of Abilene and Mr. and Mrs. B. Crow visited Mr. and Mrs. C. E. Stephens Saturday night.

Granville Gibbs visited his mother, Mrs. Leila Gibbs, over the week end.

Mrs. Odie Smedley and Pearl visited Mrs. John Adair Tuesday of last week.

Visiting Mr. and Mrs. B. Crow Sunday afternoon were Mr. and Mrs. Dale Gibbs of Baird and Mr. and Mrs. Barney Gibbs.

Many from this community attended the funeral of George Parker, a former Rowden resident, but now of Abilene, who passed away on Friday of last week. Services were held in Abilene Monday.

Those attending the McGowan reunion at Lake Cisco Sunday were Mrs. C. E. Stephens, Weldon and Donald, Misses Velda and Thelda Crow and Dean Gibbs, all of Rowden.

Mrs. Ludie Owen of Oklahoma has been visiting with Mr. and Mrs. John Adair this past week.

Visiting Mr. and Mrs. C. E. Stephens and Weldon Sunday were Mr. and Mrs. Harold Stephens and Lynn of Abilene, Mrs. Ada McGowan of California, Sgt. Donald Stephens of Waco and Miss Velda Crow of Rowden.

Raymond Mauldin of Weatherford is visiting with Don and Roland Mauldin for a few days.

Mrs. B. Crow and girls visited Mrs. John Adair Wednesday of last week.

Mrs. Effie Holloway is visiting with her sister in Cross Plains for a few days.

Robert Lee Smedley visited Mr. and Mrs. Barney Gibbs and Dean Sunday evening.

Ray Boen, Mrs. Annie Miller and Miss Ruth Bowers attended a singing convention held in Coleman Sunday.

Mr. and Mrs. Frankie Crow and Richie of Baird had supper with Mr. and Mrs. B. Crow, Thelda and Velda Thursday night.

Many of the folks of this community got together Friday night at the community center to make plans for the annual July Fourth picnic, held on the Bayou every year. Plans were completed and we hope to see a big crowd that day.

LET'S TALK LIVESTOCK BY TED GOULD

FORT WORTH—Lighter receipts of livestock and some clouds and showers in the territory gave the cattle trade a stimulus at Fort Worth Monday. Most cattle and calves were 50 cents to \$1 higher and some cows and some calves were \$1 to \$1.50 above the low time last week. Receipts at Fort Worth were 20 percent under a week earlier and the nation's 12 major markets reported 11 percent fewer cattle and calves.

Hog prices were firm with top hogs at \$26, and sows at \$20 to \$23. Pigs drew \$20 downward.

Most classes of sheep and lambs were steady, except feeder lambs were slow and some sales weaker.

Good and choice fed steers and yearlings cashed at \$17 to \$22, and common and medium sorts sold from \$9 to \$16, with cull yearlings at \$6 to \$8.

Fat cows sold from \$8 to \$12.50, some heiferish kinds upwards to \$13 to \$14. Cannery and cutters drew mostly \$6 to \$8. Bulls sold from \$7 to \$13, odd heads reaching \$13.50.

Good and choice slaughter calves cleared at \$13 to \$18.50, while common and medium butcher calves sold from \$9 to \$13, and culls sold for \$6 to \$9.

Good and choice stocker calves drew \$12 to \$16.00, and stocker steer yearlings moved at \$10 to \$15. Heifer calves and heifer yearlings sold generally \$2 to \$3 under comparable steers. Stocker cows were considerably more active at \$7 to \$10.

Good and choice fat lambs sold for \$17 to \$23, and common to medium sorts drew \$10 to \$14, with culls from \$5 to \$10. Stocker and feeder lambs bulked at \$10 to \$15. Stocker ewes drew \$5 to \$7, slaughter ewes sold from \$3.50 to \$4.50. Fat yearlings wethers sold from \$10 to \$14, and feeder yearlings cashed at \$10 down. Old wethers sold from \$6 to \$8, and two-year-olds cashed at \$10 down.

Texans Invited To Visit Longhorn Cavern While On Summer Vacation

BURNET, June 30 (Spcl.)—Texas Longhorn Cavern, third largest cave in the world, is finally about to come of age as one of the state's prime tourist attractions. H. H. (Hob) Galloway, manager of the cavern, declared last week.

Cavern visitors will total more than 250,000 long before the cave's 21st anniversary as a public showplace, Mr. Galloway predicted after studying attendance figures for years. In fact, the quarter-millionth visitor probably will pass through the famous Sam Bass entranceway some time in July, he said.

When the cavern was first opened for public inspection by the State of Texas back in the fall of 1932, after four years of development, few people even knew about it except the folks who lived in this area—like Mr. Galloway and his boyhood friends who used to play hide and seek in the dark reaches of the cave.

"We were a little bit off the beaten track then," recalled Mr. Galloway, who is also president of a bank, former mayor and a director of the Burnet Chamber of Commerce.

But today heavy tourist traffic streams down U. S. Highway 281, a direct Canado-to-Mexico route. And many tourists take time out to visit the cavern, reached by a paved road which enters Longhorn Cavern State Park at a point four miles south of Burnet.

"We're getting people from every state in the union now," Mr. Galloway said, "and you'd be surprised how many Texans visit the cavern and are amazed when they see what a spectacular natural wonder it is."

"We figure it's really unusual when a Texan is amazed at something that's in Texas."

This summer, Mr. Galloway estimates that more than 5,000 tourists and resorters a month will visit the cavern.

Two miles of the cavern have been developed and modern illumination installed to bring out all its natural subterranean beauty. Guides relate all of the cave's romantic legends of Indians, desperadoes and buried treasure.

Visitors are royally entertained and filled with cavern lore at the same time.

Health Officer Cautions Citizens About Careless Celebrating Over 4th.

Taking note of the approach of the great patriotic national holiday, July 4th, which this country has celebrated for one hundred and seventy-seven years, Dr. Geo. W. Cox, State Health Officer, calls the attention of the citizens of Texas to some of the dangers of careless celebrating. Each year on the 5th. of July one always reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin, heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the day's pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

Automobile accidents have usually one of three causes—exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgment of the driver. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Mrs. C. L. McDonald and son, Jimmy, have returned from a two week's vacation in Chicago, Illinois with their daughter and sister, Mrs. Hugh A. Harnols and daughters.

Mr. and Mrs. W. P. Yarbrough had as visitors last week their son, W. P. Yarbrough, Jr. and wife of Menville, Tennessee; Mike, Pat and Billy Yarbrough, of Abilene, and Mr. and Mrs. C. O. Larue and family of Sweetwater.

George Washington did not belong to a political party.

McMurry's Annual Band School To Be Held July 19-Aug. 1

Something entirely new has been added to the twirling division of McMurry College's Fifth Annual Vacation Band School, July 19-August 1.

Mrs. Ethel Preston Trice, a student of French ballet for nine years and a graduate of the Haines and Morton School of Expression and Dance at New Orleans, will supervise the division, directing the twirlers and emphasizing correct body movement.

Main stress will be on grace, rhythm, poise and fundamental body movements which are prerequisite to the modern trend in twirling, explained Raymond T. Bynum, director of the McMurry Band and dean of the Band School.

Mrs. Trice's daily study and training in ballet stopped only

when she declined several professional offers and entered Louisiana State University. She obtained both her Bachelor of Science and Master of Science degrees from LSU.

Besides serving as head of the women's physical education department at McMurry, and preparing for band school, Mrs. Trice also finds five extra hours a week to spend with the City Recreation program directing 100 children between 4-14 in rhythmic movements.

Assisting her with the twirling division of Band School will be Bill Adkins, former drum major of the McMurry Band and featured twirler with the Texas University Band; LaGaytha Wood, veteran Band School instructor and featured television performer with the McMurry Band; Darlene Palmer, another former outstanding McMurry twirler of Cisco. One hundred and fifty students

have already been accepted for the two weeks school from 32 different Texas cities. Registration will continue through July 10.

The students are coming from Abernathy, West Columbia, New Gulf, Andrews, Seminole, Panhandle, Conway, Winters, Bradshaw, Merkel, Midland, Big Lake, Iraan, Crane, Crystal City, Franklin, McHard, Sonora, Rotan, Odessa, Munday, Kermit, Bakersfield, Grand Prairie, Baird, Cuero, Roscoe, Slaton, Throckmorton, Coahoma, Junction and Wellington.

Clyde Walker, who is employed in Montana, spent Friday of last week here with his parents, Mr. and Mrs. V. C. Walker.

Mr. and Mrs. G. E. Brown and children of San Angelo spent Monday here with her parents, Mr. and Mrs. Drew I. Hill.

"As It Looks From Here"

OMAR BURESON
Congressman
17th District

It is hoped that by the time this column is published, a definite program for relief of livestock owners in our area will have been worked out.

Along with other Members of Congress from Texas, I have been in almost daily contact with Government officials regarding the crisis created by the long drought. It is really difficult for a man who has never lived in a drought stricken area and who sits in an armchair in a cool office to realize just how serious conditions are in our section. However, I think we have convinced those in authority of the need for immediate action. We are asking that everything possible be done to cut the red tape which is always wound around things of this kind. If we have to wait too much longer for results, it will be too late.

In this instance, the Government should act as rapidly as it acted on providing one million tons of wheat to combat famine in Pakistan. Both Houses of Congress passed it in three days, the President signed it, and on the fifth day, the first shipload left the city of Baltimore for Pakistan. It seems we could move that rapidly to relieve a desperate situation among our own people.

We are asking that feed stocks now held by the Commodity Credit Corporation be made available and at the same time a system of guaranteed loans to help over the longer pull be provided.

It is likely that cotton acreage allotments will be imposed for 1954. Under the present formula, Texas would be compelled to cut back about 39%. Legislation has been introduced which would base acreage allotment on average production for the last three years and

would limit production to 25% in any State.

The Agriculture Committee of the House of Representatives has approved H. R. 4352 to make the Farm Credit Administration more independent of the Secretary of Agriculture.

The Bill would set up a thirteen-member Federal Farm Credit Board which would set policy and select an Administrator. It also would provide for greater farm ownership and control of farm credit agencies. As one favoring this change, I have been very much interested in having it brought up on the floor of Congress for action, and I hope, approval.

This past week, it was my honor to speak at a political rally in Alexandria, Virginia, in behalf of Thomas B. Stanley, candidate for Governor of Virginia. Mr. Stanley is a former of Congress and a very fine man. Virginia elects their State officials in what we call an "off" year. He is endorsed by Senator Harry F. Byrd.

At the time the invitation was made, I questioned the wisdom of a "furriner" from another State making a speech for another candidate but in this instance, they thought it was all right and I was glad to do it.

Mr. and Mrs. Edgar Ellis, Stamford; Mr. and Mrs. John Dix, Coleman; Mr. John C. Stevens, Abilene; Mr. J. E. Walker and his daughter, Miss Gerry Walker of Gorman; and Mr. G. C. Carothers, Jr., of Stamford; were all welcome visitors to my office in Washington this week.

Kay Riley of San Angelo is spending this week here with her grandparents, Mr. and Mrs. I. N. Riley.

Mrs. Zenovia Strickland visited relatives in Abilene over the week end.

Mr. and Mrs. Daniel Falkner and family of Brownwood were visiting hometowns Sunday.

George Anderson of Albuquerque, New Mexico is here visiting his mother, Mrs. W. W. Anderson, and other relatives.

CATTLE: Combination of drouth, high cost feed and low cattle prices has the Texas cattle industry in desperate shape.

A cattleman in Southwest Texas writes: "Cattle producers in Texas are doomed without some help immediately." A letter from a Panhandle cattleman says: "The people generally are scared, and this is true throughout the Panhandle area of Texas."

These are typical of the reports received in my office.

The cattle industry, so important to all Texas, faces difficult days.

HELP: I am working as hard as I have ever worked at anything to get help from the Federal Government for the cattlemen.

The most immediate need is for feed. There is literally no grass for grazing in the drought-stricken areas. Emergency supplies of feed must be made available to the cattlemen—at once. Extension of additional credit facilities also is a must. The banks have extended as much credit to the cattlemen as they can. Yet more credit is the only hope of the cattle producers, who are trying desperately to stay in business.

Beyond these two measures, we must have a long-range program designed (1) to restore the industry to economic health and (2) to bring about more efficient conservation and utilization of our water resources.

This is not a political question. It is a problem of national significance which must be met—and solved.

PLAYBACK: From a speech by Lyndon Johnson, made in October, 1952: "I don't want those \$175 Democratic cows (on my little farm) followed around by \$10 Republican calves."

EXCESS PROFITS TAX: If the bill extending the excess profits tax is reported from committee to the floor of the House, and if the House passes it, and if it comes before the Senate for a vote—I will support the extension, as requested by President Eisenhower.

COTTON: Private estimates of this year's cotton crops indicates a production of nearly 15,300,000 bales. That's above last year's production—almost 30 per cent over average annual output from 1941 to 1950. Domestic and foreign carry over from this year's crop 500,000 bales. That would leave a carryover from this year's crop alone of 2,800,000 bales. We already have a carry over of some five million bales.

Acreage allotments and marketing quotas for the 1954 cotton crop are almost certain.

LIVING COSTS: Farmers are receiving lower prices for their products, but the cost of living hit a new high mark for the year in May. The consumer's price index for May was nine per cent higher than a year ago—12 per cent above prices in June, 1950.

Farmers are being hurt by the lower prices they get for what they raise. Consumers apparently are not benefiting.

NEWS BRIEFS: In line with my bi-partisan mealtime policy, I, along with more than forty other Democratic Senators, had lunch Wednesday with Former Senator and Ex-president Truman—lunch Thursday with President Eisenhower and key Republican and Democratic leaders in the Senate.

Democrats support President Eisenhower's request to extend Reciprocal Trade Act, but oppose efforts of some old guard Republicans to pack the Tariff Commission. That has been a non-partisan agency since 1916.

Wheat producers in "selected areas" of Texas can get emergency loans at 80 per cent of the going support price. These loans, to be made on wheat which can't be adequately stored due to lack of facilities, will be good for 90 days.

Senate Public Works Committee has approved legislation which would make possible establishment of Eisenhower Park near Denison. The bill was written by House Democratic Leader Sam Rayburn.

Take Salt With Water Prevents Heat Cramps

If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat or drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pain (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

RULES CLARIFIED ON RESTOCK AREA

AUSTIN, June 29—The Director of Wildlife Restoration for the Game and Fish Commission clarified regulations covering the newly established Snake Creek Wildlife Restoration area in Morris and Titus Counties. He said the five-year closed season effective until January, 1958, applies only to deer and that the landowners, who have pledged more than sixty thousand acres to the project, may legally permit hunting of squirrels, doves, waterfowl and other species subject, of course, to state laws.

The Director pointed out that persons desiring to benefit from the open seasons as permitted by law must obtain permission from the owners of the land where they wish to hunt. The Snake Creek area is one of several created in Texas whereby landowners and hunters are cooperating with the Game and Fish Commission to restore big game.

The Director of Wildlife Restoration said this particular area was

set up last fall too late to begin restocking operations immediately but he emphasized that the Snake Creek program has a high priority under the coming late fall trapping operations. The area is along Snake Creek and also adjoins Sulphur River on the north.

The OASIS on your route

The traveler of ancient times sought rest and refreshment at an oasis on his route.

So does the traveler of modern times . . . he stops at an oasis that prepares his automobile for another hundred miles or more of driving . . . at an oasis that provides ice water and a chance to stretch . . . at an oasis that offers clean and sanitary rest rooms . . . at an oasis where our traveler can give and get a friendly greeting.

Today's oasis is the service station on the American highway.

It makes your trip. It provides your contact with the country through which you're driving. On its driveway you feel at home; you get the impression wherever you stop, that this is your America.

Not one service station, but thousands of them. All along the highways you'll find them staffed and equipped to give your car the expert care it requires, to make your brief visits on their driveways comfortable and pleasant.

The service station where you buy gasoline and motor oil is your chief contact with the American oil industry. It is probably an individual enterprise; and it competes to give you better service and better products than another station down the street or on the other side of town. No small part of the oil industry's progress in the service of the motorist finds final expression on service station driveways.

Highlights and Sidelights FROM Your State CAPITOL

AUSTIN, Tex.—Federal officials are taking action on emergency drouth relief for Texas as requested by Governor Allan Shivers.

Secretary of Agriculture Ezra Benson conferred with the governor and toured drouth areas from Lubbock to San Antonio.

More than half of Texas has been labeled a disaster area by the Southwest's soil conservation chief at Fort Worth.

President Eisenhower had previously notified Shivers that the Federal Civil Defense Administration and the Department of Agriculture had been put to work on the drouth disaster problem.

"The western half of the state is now in the fourth year of drouth. Conditions continue to grow worse," the governor reported. He asked for "credit extension and other relief" for farmers and ranchers.

The governor said that reports indicate at least 128 counties seriously affected. A survey among livestock producers showed a growing sentiment that government aid, either by purchase of cattle or the sale of feed at disaster prices, may be necessary to prevent wholesale bankruptcy.

Republican Committeeman Jack Porter of Houston and other state leaders urged maximum federal assistance.

Farmer and rancher groups from various counties discussed the emergency with Secretary Benson, who was in Lubbock to speak before the American Cotton Congress. Among other things, Benson discussed ways of preventing dumping of beef cattle on the markets from the Southwest.

Texas Commissioner of Agriculture John C. White, said that the three-way squeeze of continued disastrous drouth, falling prices and rising costs has made the farm outlook this year "grim." He urged farmers to tighten their economic belts in order to get through this year.

The outlook for the cotton crop is about 3,808,000 bales, White said, or half of the potential of an average year. A wheat crop of 20 million bushels is expected in place of a normal yield of 60 million bushels.

A fund is already available to drouth-hit farmers and ranchers, according to the U.S. Department of Agriculture. The federal loan aid which they've been receiving for the last year is still available for seed, feed, fuel, groceries and other operating expenses.

A few solutions to water shortages have been offered by State Health Officer George W. Cox. He says that if the state had built

reservoirs on Texas streams we wouldn't have a water problem.

More than 85 per cent of our storm waters reach the sea," he said. "That means that only 15 per cent is soaked up by our parched earth."

There is no reason, Cox said, why these waters cannot be captured and transported to areas of scarcity.

The heat wave spread to Texas politics. Two Democratic Party organizations were getting steam-ed up over a complete break between national and state party machinery. And the beefed-up Republican Party was trying to consolidate its gains, capitalize on the Demo split, and grab congressional and state offices next year.

The five-day visit in Texas this week of Stephen A. Mitchell, national Democratic chairman, apparently gives the national party blessing to the supporters of Adlai Stevenson in the last presidential race. Mitchell conferred with this group, recently formed as the Democratic Organizing Committee.

On the other side of the fence are Governor Shivers and the Democratic State Executive Committee, who supported Eisenhower for president.

Texas Republicans at a recent meeting decided to start an early drive to place candidates in all political races next year. They are also expanding their campaign headquarters in Houston.

Since the Republicans gave Gov. Shivers an overwhelming vote under the cross-filing system, they will have to hold primaries next year.

The Texas GOP could make further use of cross-filing, which is strongly opposed by Stevenson Democrats. The Republicans could join forces with the Shivers group to put across the same congressional candidates on both tickets.

Attorney generals from Texas and New Mexico met in Austin to iron out several problems between the two states.

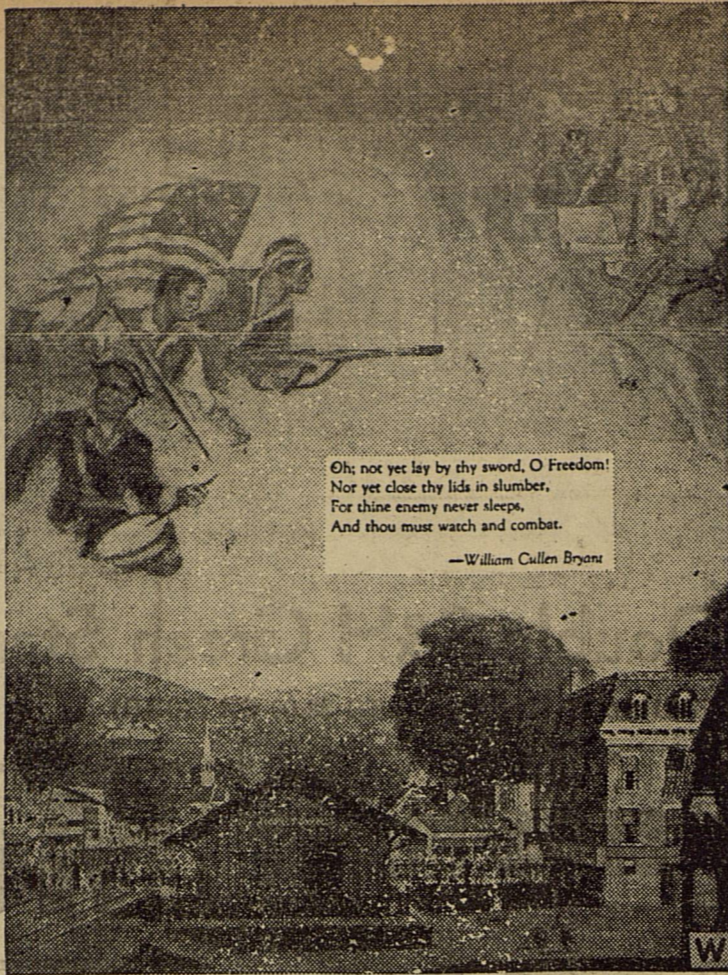

Among other issues is one over water rights. Texas has filed suit against New Mexico in the U.S. Supreme Court to compel the release of water in the Rio Grande River for irrigation in Texas.

New Mexico is reported ready to sue Texas for draining underground water across the border with numerous water wells.

Simple driving courtesy on the highway would greatly reduce the accident rate, according to one traffic expert.

D. A. Weaver of State College, Pa., speaker at the first annual Motor Fleet Management Institute, explained that a man drives as he lives. A man who has a sense of social responsibility tends to be a better driver than anti-social people, he said.

"If You Can Keep It"

Oh, not yet lay by thy sword, O Freedom!
Nor yet close thy lids in slumber,
For thine enemy never sleeps,
And thou must watch and combat.

As Benjamin Franklin left Independence Hall, a woman asked him, "Mr. Franklin, what kind of a government have you given us?" He answered gravely, "A Republic, madam, if you can keep it."

In painting this Independence Day scene in Hometown, U.S.A., the artist, E. Franklin Wittmack, has found an echo of Franklin's warning in a quotation from the poet William Cullen Bryant. The historic scene of Magna Charta, the signal light on old North Church Tower, the embattled "rebels" of a great new nation—symbolize the hard-won victories, and the priceless freedom, which, on Independence Day 1953, are given every Hometown in the land—not done to celebrate, but to protect.

Q—I expect to graduate from law school under the Korean GI Bill. After I finish, would I be allowed to take further training on-the-job in a law office, for the study of clerkship?

A—You would be permitted to take this job training under the Korean GI Bill only if your State requires it as a condition that must be met before you may be admitted to the bar examination and to practice.

Q—I am the widow of a World War I veteran, and I have a daughter, age 20, who is in school. The VA has been paying us a pension that covers us both. My daughter is planning to get married and drop out of school. Will she still be entitled to a pension?

No. Under the law she may not be paid a pension after she marries or drops out of school, or both.

Q—I have been paying premiums on my GI insurance by having VA deduct the payments out of my monthly disability compensation check. My compensation has just been reduced so that it no longer covers the amount of the premium. Could VA continue to apply the compensation toward my premium payments, if I send in a check for the difference each month?

A—No. One of the requirements that must be met, for VA to pay premiums out of compensation, is that your monthly compensation pay be at least equal to the amount of the premium.

Q—I have a 20-year endowment GI insurance policy. I have elected to receive installment payments, after the endowment period is up. What would happen if I die before I receive all the payments, and I fail to name a beneficiary?

A—In such a case, the unpaid installments would be paid in one sum to your estate.
