

## \$650,000 Bond Vote Set Saturday

### Expect Heavy Turnout To Decide Proposed New High School Fate

Citizens of the Cross Plains Independent School District will go to the polls Saturday, May 24, to approve or reject issuance of up to \$650,000 in bonds for construction of a new high school building and levying of the tax for retiring the bonds.

Balloting will be done at the City Hall in Cross Plains. Polls will be open from 7 a.m. to 7 p.m.

Voting is expected to be heavy, as the issue has apparently stirred controversy within the district.

Alton E. Hornsby, election judge, has requested voters have registration cards ready. It was understood that any person who has been a registered voter at least 30 days prior to the election and who resides within the school district may vote in the election.

Absentee voting closed at 5 p.m. Tuesday. Peggy Dickson, school tax assessor-collector who served as absentee voting clerk, reported late Tuesday afternoon that 27 ballots had been cast with her.

The ballot is simple, and it carries the proposition in both English and Spanish. There is a square to place an "X" in adjacent to for and against the proposition as follows: "The issuance of bonds in the amount of \$650,000 and the levying of the tax in payment thereof."

The proposed \$650,000 in bonds are to be used, if approved, to build a new high school building, replacing the present one built in 1927.

Ads in this issue of the Review and mailed or otherwise distributed flyers and information pamphlets are pointing out various points of concern and contention about the proposition.

General increase in taxes if the issue is okayed will be 38.46 per cent, according to figures supplied by the school's financial advisor Joe Smith of Abilene representing the First Southwest Co. of Dallas. That figure could, however, be changed by a varied number of alternatives on specific taxable properties.

If the election fails, apparently other steps will necessarily have to be taken to satisfy mandates of the State Fire Marshal's Office and Texas Education Agency. Cross Plains School has been told that it is on advised accreditation status primarily because of the deplorable condition of the high school building.

There is sentiment for renovating, refurbishing the present building instead of razing it and building a new one.

If passed and all \$650,000 in bonds is issued, repayment will be made in 16 years, two payments yearly, with payback averaging just over \$74,000.

when a rabid skunk was killed in the back yard of the home of Mr. and Mrs. Bob Lane in the 1200 block of Avenue C.

The Lanes' son-in-law Johnny Wooten shot the animal, after it had caused a disturbance by chasing the family dog over the yard.

City Health Officer Dr. Carl J. Sohns advised how to prepare, pack and ship the animal's head to the State Health Department for examination. Word from that department was affirmative to the rabies infection. According to Byron Lowder of the state health office in Abilene, phone (915) 673-5231, it is the eighth rabid skunk killed in Callahan County since January 1.

### Rabid Skunk Is Killed In City; Caution Urged

Danger of rabies was brought closer to home late Wednesday night (early Thursday morning)

### HUD Grant Spurs City Clean-Up Effort

One of the objectives of the HUD Grant is the revitalization of the community receiving the grant funds. The program is to rehabilitate conditions to provide a basis for renewed self sufficiency within the community. City of Cross Plains officials state:

"The community resources should be directed toward then betterment of the community and the improvement of individual opportunities," according to Mayor O. B. Edmondson.

To accomplish the above, HUD is encouraging the city to establish ordinances, code enforcement and community clean-up programs, the mayor continued.

A city-wide clean-up will be planned and announced in the near future. "For the project to be successful, it will require the cooperation of all citizens of Cross Plains," said Edmondson.

To improve drainage of city streets, the city council is planning to clean grass, weeds, and sediment from clogged ditches in the city.

All persons are being advised to use extreme caution around strange acting animals, wildlife or domesticated pets.

It was also explained that all personal pets should be vaccinated against rabies, as state law now requires. Suspected animals should be destroyed in a safe manner or kept under observation for up to 90 days. Pets coming in contact with suspect animals should be penned and observed.

LOCAL FIRE COMPANY GIVEN \$25 DONATION  
Cross Plains Volunteer Fire Department has received a \$25 donation recently. It came from Wayne Newton.

# Attention Voters

On May 24, 1980, a bond election has been called to build a new High School building for the Cross Plains Ind. School District. We, concerned citizens, should have asked for at least three (3) outside contractors to give an estimate on how much it would cost to renovate the present school building. At this time, only one company has made a cost estimate which is not realistic. Competitive bids would give a better understanding of our building situation.

If this bond is passed it will increase your taxes by approximately 38%. This is not the only increase in taxes you will have. Your 1980 School taxes will be increased due to a new law passed by the State to have a one County School Tax Office. This office is to be in Baird, Texas, and the Cross Plains Ind. School District's prorated share to operate this office will add an additional 20% to your present taxes.

We are all interested in keeping our school, but let's do it as economically as possible.

Voice your opinion at the polls and say no to the new building at this time and ask the Board of Trustees for more bids to renovate. A new building may be the answer, but let's be competitive.

The school WILL NOT CLOSE if this bond election is not passed. The TEA and the Fire Marshal have said that something must be done, build or renovate.

### PRACTICAL CHRISTIAN COVETOUSNESS

Does the Bible speak authoritatively and relevantly to believers in the 20th Century? Does it give men blessed solutions and remedies to past sins and meaningful promises of mercies, salvations and triumphs? Is Biblical Christianity really for everyday men and situations? Of course, most church-going folks of any fundamental persuasion heartily concur. Christ is real! The Bible is Truth! Christianity is the answer! Sin is the basic problem! Every man's real need is to be saved! But now a real world test. Will church-going professors of religion in CROSS PLAINS deny by their acts (votes) professed Christian principles? Will they opt for more government programs & more taxes of plunder for state-ordained, approved education? Will May 24th now be known as the time of BRINGING IN THE THIEVES?

It's time for Christians to think and act like the people they are called to be: holy and righteous, lovers of God, doers of His will, followers of His Word just as so many claim to be. The Apostle Paul in his exhortation to the Ephesians saints to walk in love, specifically directs them "But fornication, and all uncleanness, or covetousness, let it not be once named among you, as becomes saints; . . . For this you know, that no whoremonger, nor unclean person, nor covetous man, who is an idolater, has any inheritance in the kingdom of Christ and of God. Let no man deceive the children of disobedience. Be not therefore partakers with them." Eph. 5:3, 5-7.

With conformity to and with the world the erring standard of multitudes, it is not surprising that COVETOUSNESS is not taught to be a sin, to be identified and to then be departed from. Nonetheless, these same multitudes are very familiar with Exodus 20 wherein God teaches and proclaims, "You shall not covet your neighbor's house, you shall not covet your neighbor's wife, nor his manservant, nor his maidservant, nor his ox, nor his ass, nor anything that is your neighbor's." Thus we have God's mandate. A mandate binding upon all men for all time and because of their changed hearts and minds, the desire of all true Christians . . . not to be guilty of the practice; not even by proxy (the taxcollector). And surely the Apostle Paul's words are clear. Such people are evil, they are idolaters. Christians are to KNOW this and not to participate in such evil.

Now some will object that such wrongfully mixes religion and politics. Others will claim that government-run education is as old as America and the Puritans. Still others motivated by unguided emotions and unexamined theology will claim that anything for the children is fine; we need to do more. Misguided clerics will question my love, or lack of love. Names will be called. Rocks and stones will be thrown with destruction of property. Nonetheless, careful examination of the issues & obedience to God's written Truth will faithfully guide and direct every earnest believer in rejecting the proposed increases in taxes, increases in government, increases in unnecessary and unfruitful administration with the added burdens of further strangling the growth of church & private education, decreasing monies available for the area's needed & necessary productivity expenditures, destroy a renovatable building, defraud bondholders by the inflationary process, evilly divide the community with another attempt to 'solidify' it with an unnecessary financial burden and under guise of 'love' and 'caring' evilly vote to take other men's property & labors.

REMEMBER: It is God Almighty Who has taught and qualified real love as that which has practical, moral, sin-denying qualities and which specifically reproves the old practices of COVETOUSNESS and who warns, Be not deceived by fantastic words. Let those who 'want' the new, unnecessary, burdensome building & expenses pay for it themselves . . . and run it. And let real men of God work together to educate their own children by their own God-blessed means. The Miletus Church can assist every good man to these ends. And the Director of THE CHRISTIAN SCHOOLS OF OHIO: Brother Alan Grover, will soon be in Cross Plains. And I am sure his testimony of truth and righteousness and practical Christian holiness will encourage and aid each man and woman of good will and desire to honorably serve Christ by walking in true love.

Lower taxes aids every earnest citizen and they also reduce government and assist the family and Christian church. "RIGHTEOUSNESS EXALTS A LAND but sin is a reproach to any people". Proverbs 14:34 So, let those initially inclined and emotionally persuaded to approve of officially practiced covetousness examine their ways and now "Abhor evil and cleave to that which is good." Romans 12:9 Let those who still desire God to bless our families and land do righteously (according to His standards) knowing that His wrath comes upon the children of disobedience . . . by whatever name.

# Important Questions And Answers Concerning The School Bond Issue

## 1. WHY DO WE NEED A BOND ISSUE?

This is best answered in quotations from two letters to the local school district from the TEXAS EDUCATION AGENCY in Austin, Texas.

"This building, erected in 1927, has deteriorated beyond any reasonable repair and should be demolished. The interior is in such poor condition that it would be impossible to create a learning atmosphere. Rest room facilities are disgrace to health education." (Letter dated July 12, 1977)

"We have done all that we can do to impress upon you and your community the seriousness of the conditions which exist in the high school building. The responsibility for the health and safety of your students rests with the Superintendent and the elected Board of Trustees. Should there be a disastrous fire in this building resulting in the loss of life and property, the lengthy discussions concerning how and when to correct the problems will not bring back that which is lost. If the Board of Trustees and the Superintendent do not take all reasonable action to correct the deficiencies and a fire or explosion occurs as a result of the lack of action on the part of the Board of Trustees and the Superintendent the responsibility for any loss of life or property, in my opinion, will most likely rest with the Board and the Superintendent." (Letter dated October 26, 1979)

## 2. WOULD IT BE CHEAPER TO REPAIR THE OLD BUILDING?

Again this would be best answered with quotations from letters to the local school district from the TEXAS EDUCATION AGENCY in Austin, Texas.

"... the reports concerning the physical facilities in the high school have consistently pointed out the futility of attempts to make cosmetic changes in the high school building. In addition to reports from the state agencies, the firm of Boone & Pope, Inc., Architects and Engineers, noted in a letter dated August 4, 1976, the poor conditions of the building and they questioned the wisdom of attempts to refurbish the high school building." (Letter dated October 10, 1979)

Also, the school district received from the architects of Huckabee & Donham, a proposed plan for remodeling the present high school building at an estimated cost of over \$552,000.00. This information is on file with the school district.

Insurance rates at the present time would run an estimated \$3,000 per year greater on a remodeled building versus a new building. This will be an additional expense of \$90,000.00 over a period of 30 years.

## 3. HOW MUCH WILL MY TAXES GO UP?

Not everyone's taxes will go up. Rural landowners using Agriculture Use land values for the first time may actually see a drop from their 1979 level. Here are some random examples from various classes of tax payers from the local tax rolls.

RANDOM TAXPAYER	AMOUNT PAID IN 1979	PROJECTED FOR 1980
"A"	\$ 6.45	\$ 8.86
"B"	\$ 35.98	\$ 49.82
"C"	\$ 137.49	\$ 190.37
"D"	\$1,001.52	\$1,063.30
"E"	\$1,819.48	\$1,001.67*
"F"	\$ 543.49	\$ 349.63*
"G"	\$1,014.00	\$1,135.37*
"H"	\$ 80.29	\$ 44.78*

\* Taxpayer claiming Ag. use for first time.

## 4. IF I AM OVER 65 YEARS OLD, HOW WILL THIS AFFECT MY TAXES?

School taxes paid on your homestead of a home and two acres are frozen at the 1979 levels by state law. Only major improvements to your property will increase your taxes.

## 5. ARE OUR TAXES HIGHER THAN NEIGHBORING SCHOOL DISTRICTS?

Here's how we compare to neighboring school districts with rates adjusted to 50% evaluation.

SCHOOL DISTRICT	TAX RATE PER \$100
Bangs	\$2.80
Cisco	\$2.38
Coleman	\$2.05
Rising Star	\$2.00
Baird	\$1.52
Eula	\$1.46
Clyde	\$1.04
Cross Plains	\$1.04

These rankings can be varied somewhat by how a certain school district values a specific piece of taxable property.

## 6. WHERE DO WE GET THE MONEY TO OPERATE OUR SCHOOL?

In 1979 - 80 we received:

Federal Money	\$ 75,000.00
Local Money	\$264,984.00
State Money	\$377,609.00

We recognize the foresight of the local Board and Administration in constructing the Special Education and Agriculture buildings with very little or no use of local funds. Had this not been accomplished our bond issue now, might be nearing the \$1 million level, as compared to the \$650,000 bond issue before this community.

This question and answer page has been presented by the Committee For Concerned Citizens in Cross Plains. Our goal is to simply inform the public of some needful and helpful facts relating to our up-coming bond issue.

Doyle Clawson, Chairman — Vaughn Pirtle, Sec. — Eddie Petty, Tres.

## Twin Foals Born To Mare Of Local Folk

A rare occurrence happened recently on the ranch of Mr. and Mrs. Nolan Tidwell located a mile from Early on the Jenkins Spring Road. The family's 10 year-old mare, Miss Double Flit gave birth to twins.

The family, who includes the former Mary Sue Peevy who spent many childhood years here, had no idea the mare was going to have twins. The second foal was born minutes after the first on April 19.

The mare is used as a roping horse by the Tidwell's son, Paul. The mare's first foals, the twins were sired by a 3-year-old stallion, Catch-A-Cowboy, a barrel horse.

It was reported one of the foals had to be bottle fed a couple of days before its legs were strong enough to stand.

## PATRONS OF C.P.I.S.D.

I intended to remain silent in the upcoming bond election because we had presented the facts as near as possible and I felt like the voters should have the say now. There are a few misrepresentations that need to be cleared up. I am not publicly stating how I will vote but which ever way it goes I'll be happy.

A lot of people felt like because we voted 7-0 to hold the bond election we were all for it passing. We voted only to put the proposition before you the people and let you decide and we may or may not have all been for it passing.

There was a news release in the May 14 paper and I quote, "Taxes are projected to increase 38.46% but that means only \$2.00 on each \$1000.00 assessed valuation the school board says." The school board has never discussed it in these terms. If you look at your last year's assessed valuation and it was \$20,000, you would expect a \$40.00 increase when they would be raised \$80.00, or \$4.00 per \$1000 on last year's assessed valuation. Our bondsman who has had years experience with bonds figured the percentage increase and I believe he knows his business.

There has been a telephone poll conducted, I don't know by who, asking how they will vote. If answer is "yes" nothing else is said, if the answer is "no" the caller will say if this issue is not passed we will lose our schools, the cities will be bused to neighboring schools, (an ad in the paper says practically the same thing), businesses will close down and Cross Plains as a town will die. Nothing could be farther from the truth. This is very disturbing to everyone, especially parents. It is true we will have to make some changes, anyone that walks through our high school can see this, but to say this bond issue must pass or else is misleading.

The night the two state men met with us and the structural engineer who inspected the high school for us at the fire marshall's request, and they were told the building is structurally sound and he saw no reason it wouldn't be there another 50 years, the state men were asked if they would recommend to us to renovate or rebuild. One of them said it didn't make them any difference, it was up to us. If no kind of bond issue is passed, I know there are some things we will have to do before we can use the high school next year, namely get an electrical and gas engineer to inspect these areas for safety, send their reports to proper authorities and if either report is negative, the problems will have to be corrected.

Again let me say the high school closing does not hinge on this bond issue as some people say, it will be kept where it is supposed to be, Cross Plains.

This was written as a parent-taxpayer and not as a school board member and however the bond issue goes we will go ahead with correcting the high school problems.

Saturday the bond issue will be in your hands, and however it goes we should all be happy and work together on our school problem.

Sincerely,

John D. Montgomery
