Lord's Acre Dinner Is Home Cooking

The First United Methodist Church in Cross Plains will hold its annual Lord's Acre Festival Saturday, Nov. 7, and one of the highlights of that undertaking is the turkey and dressing dinner which is served.

The dinner, served with all the trimmings at a cost of \$3.00 per plate, became so popular because when it was originated it was all home-cooked by women of the church. That is true today also.

Tickets may be purchased from many members of the church or by calling any of the following numbers: 725-7225, 725-7538, 725-7377, 725-7578 or 725-6218. It was noted that pre-empt purchase of tickets is preferred so an adequate amount of food may be prepared. Tickets will, however, be sold at the door November 7.

The meal will be served buffet style at the church, located at corner of North Main and George Scott Street, or carry-out service will be available by calling 725-6218. Service at the church will be from 5 to 7 p.m., and plates may be picked up at the home of Betty Browning at 1347 Avenue E from 4:30 to 6:30 p.m.

Frost Seen Locally Friday And Monday

Early risers in Cross Plains saw frost two recent early mornings. In both cases it could be termed scattered and not killing, but was evident, primarily on vehicle windows and tops.

Frost was first seen Friday morning, and then again on Monday morning. Temperatures dipped into the mid to upper 30's both mornings.

Rain Wednesday and Thursday of last week dropped 1.30 inches of not needed moisture on Cross Plains. The rain last week brought the total for October to 7.80 inches, much more than normal. Aggregate for the year has also surpassed normal and now stands at 31.09 inches.

Some peanuts are now moving to market locally, but most are yet to be harvested.

Higginbotham's Will Close For Inventory

The Higginbotham's store in Cross Plains will be closed Friday and Saturday, October 30 and 31, while employees are taking inventory.

The firm will re-open on regular schedule Monday, Nov. 2.

EVANGELICAL METHODISTS SET REST HOME SERVICE

Mites Test Kittens There On Thursday

Cross Plains Junior High School Mighty Mites were denied playing a football game last Thursday by heavy rains which made the Santa Anna field too muddy to play on. That game was cancelled and will not be made up.

Mites are scheduled to travel to Rising Star Thursday in what was originally supposed to be the final contest of the year.

There will be two games at Rising Star Thursday. The first tilt will begin at 5 p.m., according to Mack McConal, athletic director at Cross Plains Schools. The second contest will be the regular eighth grade contest and will start immediately upon the completion of the first game. "We hope the second game will get started by 6 p.m.," McConal said.

"We wanted to play the Santa Anna game," the athletic director said, "but could not re-schedule it." Mites have already re-scheduled a postponed game with Lometa, now set for November 5.

Natural Gas Costs Increase By \$2.38

When natural gas bills for Cross Plains are mailed on the November 1 billing, they will be \$2.38 per thousand cubic feet higher. The new rate will be \$8.77 per thousand.

The Railroad Commission of Texas, Gas Utilities Division, at Austin has issued a Purchased Gas Adjustment order on the in-

terim order dated Nov. 17, 1980, and through a formula, has calculated that the additional \$2.38 per thousand cubic feet may be charged.

Rate last year was \$6.392 per thousand.

Flame Gas, Inc., distributor of gas within the City of Cross Plains, was notified of the adjustment factor Monday afternoon, while City of Cross Plains, which has been opposing cost increase, was notified of the advance by letter Tuesday morning by Vaughn Pirtle of Flame Gas.

It was explained that the price of gas sold to Flame has been increased, thus the gas cost adjustment factor allows that cost to be passed on to the consumer. Flame Gas stated that the rate adjustment is subject to change

and is based on what amount of gas is bought and what is sold.

EMS Unit Grows; Members Advance

Four new persons have joined the ranks of the Cross Plains Emergency Medical Service recently.

Three are drivers, including Chuck Woody, Bill Reed and Lee-Land Watson. Betty Edwards is the new dispatcher for the unit, a duty which was formerly swapped around among members.

Two longtime members of the service, Carolyn Wilson and Paula Petty, have finished long hours of training to become a fully accredited paramedic. Mrs. Wilson, however, has taken a leave of absence because of health reasons.

A spokesman of the organization said, "We are proud of the entire organization and the community and hope to continue to meet emergencies as they arise."

A total of \$722 in donations have been received over a period of the past five months. They came from the following, according to the reporter: Mr. and Mrs. James Alexander, W. L. Lawrence, R. L. Pittman, Mr. and Mrs. Frank Rone, Vera Pearl Bunnell, Mrs. R. W. Spencer, Mr. and Mrs. Henry Burkett, Citizens State Bank, Mr. and Mrs. Roger Watson, Mrs. Damon Jones, and N. L. and Martha Dilard.

Halloween Carnival Slated Here For Saturday Night

Members of the Senior Class at Cross Plains Schools will sponsor a Halloween Carnival, haunted house and hay ride Saturday night.

The carnival will be held at the Multi-Purpose Center beginning about 7 p.m. Bobby Winfrey, class president, said that among the activities offered at the carnival will be bingo, cake walk, booths for little folks, football and basketball throw. Admission to the carnival will be 50 cents for students and \$1 for adults.

Winfrey emphasized that there will be a concession stand selling hamburgers at the carnival. Cooking will begin at 6 p.m. at the Multi-Purpose Center for carry-home orders.

The haunted house will be at the Christian Youth Center, for-

merly the United Methodist Church building, and admission to that will be \$1 per brave soul.

There will be hay rides to and from the carnival and haunted house several times nightly.

Results of the Halloween King and Queen contest will be announced at 8 p.m. at the carnival, according to Winfrey. Five boys and five girls, all local young folks, have been nominated. The class president noted that all contestants need to be present for the announcement.

It was explained that entertainment for all age persons will be found at the carnival, and everyone is invited.

Proceeds from the carnival will be used by the class for their senior trip to be taken after school is completed next spring.

Miles Blanks Buffs 21-0 In Home Football Finale

Cross Plains Buffaloes suffered a 21-0 defeat Friday night at the hands of District 7-A foe Miles Bulldogs in the last game before home fans of the 1981 season.

The loss dropped the Herd's conference record to 0-3 and season mark to 1-7. Miles remains unbeaten in league action and is 6-2 on the season.

A much larger team than the Bisons, Miles dominated the statistics, but Head Coach Ed Higginbotham said that the Herd did pretty fair considering the difference in size. He continued, "Overall I was pleased with the defense."

The head mentor also stated that the timing was off on passes last Friday. Much of that was attributed to rainy, wet weather which did not allow Bisons to get out on the field last week to work on that portion of the game. Cross Plains completed only 4 of 14 aerials and had two intercepted.

The visiting Bulldogs recorded 12 first downs to 5 for the Herd, and logged 182 total yards with 178 of that coming on the ground. Buffaloes had 106 yards total offense, divided almost evenly between passing and rushing. Ground attack provided 52 yards and airways got the other 54. Both teams lost one fumble, and both punted five times, Bisons for 26-yard average and Bulldogs for a 35-yard mean.

Miles counted its first touchdown with 1:55 left in the first quarter when 197-pound Running Back Willie Banks went one yard over his right side. The short scoring drive followed a blocked Bison punt, but Miles had made a long drive on first possession to back the Bisons into their own

territory. Phil King kicked the extra point, as he did after each touchdown of the night.

Almost a quarter later, with 3:14 showing on the clock, Bulldog Banks scored again. This time on a 37-yard dash. The Bulldogs carried the 14-0 halftime advantage through the second half until only 1:22 showed on the clock when Running Back Ruben Casarez tallied on a two-yard run. That brief drive was set up when the Herd gambled on a four-down play deep in their own end of the field and did not make the first down.

Although pretty well shut down by the bigger Bulldogs, Buff Tommy Conlee got 28 yards on eight carries, and Dennis Koenig collected 23 yards on the same amount of tries. Jon Schlittler was the leading pass catcher, one for 22 yards, and Bill Burleson also caught one for 17 yards.

Koenig was the leading defender making 12 tackles. Conlee got eight tackles. Buff Scot Taylor and Andy Meiron each had three quarterback sacks with the Bisons getting seven and three tackles respectively.

The Thundering Herd will test Santa Anna Friday at the home field of the Mountaineers. Kick-off is scheduled for 7:30 p.m. in the District 7-A contest.

Cross Plains and Santa Anna compare favorably in size. Until last week, records were identical. Last Friday the Mountaineers defeated Iron County 14-0 to bolster season mark to 2-6 and gain first 7-A victory in three starts.

Mike Newman, starting end, is expected to be able to rejoin the team Friday. He was injured in the Eden contest and missed last week's game.

Eddie Albrecht has done it again. This time it is a light brown furry, four legged henny mule he brought home this Monday morning. He told Barbara Saturday he bought something; flash, Barbara thought more cows, as he had been at Pat Morgan's. What a surprise! Ginnv Lynn is the new addition to the animal herd. She is a mixture of a Shetland and mule; that's quite a combination. We will anxiously follow Eddie's progress in the breaking in of Ginny and keep you posted. Take care, Eddie, those critters can really pack a wallop.

Mrs. Bob (Lavonne) Childress and Mrs. Dan Childress are still commuting back and forth to Temple where Lavonne is continuing tests. It is hoped she will have these completed this week and released to return to her home in Texline. Bob and boys, Bobby and Brett, were here over the week end from Friday through Sunday seeing his wife and their mom, plus Nancy and Dan; mom and dad and grandparents.

Mr. and Mrs. Raymond Whitzel of Lubbock came through Cottonwood on their trip home from San Antonio Saturday afternoon. Raymond was born and raised in Cottonwood. The son of Mr. and Mrs. Arnold N. Whitzel and nephew of Misses Hazel and Beulah Respass. We talked briefly at the Cottonwood post office building. Raymond was turned around trying to locate the old cemetery. He was telling me of how Cottonwood looked when he was growing up; none of the homes he described to me exist today, but you could visualize the booming town when one talked to him. Raymond related a story to me of when he was a younger lad. His grandmother Respass was not allowed any sweets. When her grandsons came to visit, she would send them to the Coffey general store to get some bubble gum. There was an elderly gray headed man who ran the store who waited on him. Mr. Coffey asked him who all the gum was for, as a sack was full of the purchase. Raymond told him, "I can't tell you," as Grandmother Respass gave strict orders it was a secret. Mr. Coffey replied, "It is for your grandmother Respass I'll bet, as she sends a lot of her grandchildren up here for bubble gum." Raymond said when they took the purchase home grandmother would hide the bubble gum under the cushion in the back of her rocker so Beulah and Hazel wouldn't find her forbidden

It's Another Way To Winterize Geraniums

(From Cross Plains Garden Club)

If you enjoyed your geraniums this summer and do not want to make cuttings to carry them over this winter, there is another way to winterize them.

Before the first plants should be pulled, roots and all, and soil taken off. Roots can be wrapped in a plastic bag with peat moss, or in paper bag. Beware of storing the entire plant in plastic as this might cause black rot. It is best to hang plant upside down in a dry place protected from freezing temperatures.

In early spring after danger of frost, cut off tops of plants leaving two or three inches of firm bottom stem and plant either in pots or garden, using a liquid fertilizer and some Vitamin B-1 (Root Stimulator) when planting. This storing method has been tried successfully by those who grow geraniums. It doesn't seem possible, but it works.

Local Students Invited College Night Parley

Junior and senior students who plan to attend college after graduating from high school, and parents of those students, will have an opportunity to meet and talk with representatives of various colleges, universities and vocational training schools November 2 at Abilene High School.

Mrs. Bobbie Trammell, Cross Plains Guidance Counselor, said that a special invitation had been sent to her office from Abilene High and Cooper High Schools, sponsors of College Night. A general meeting will be held at 7 p.m. A financial aid officer will address the assembly. Following the general meeting, each student and parent will have an opportunity to attend three discussion groups of 25 minutes each to discuss colleges in which they are interested. College representatives from some 40 institutions will give information on entrance requirements, application procedures, estimated yearly costs, courses of study, types of housing available, financial aid and other topics of concern.

Mrs. Trammell stated that she attended College Night last year with several students and parents and found it to be a very beneficial aid in planning college careers.

If enough students and parents are interested in attending college night, transportation will be provided from Cross Plains. You may call Mrs. Trammell's office, 725-6121 for more information or to sign up to attend.

Pioneer News Items

By Mabel Halsell

We drove cautiously into a lake area recently. Amount of damage from a recent flood was not known. We were looking for familiar places. This lake area had once been our home community. Great changes had been brought about by the building of the Morris Sheppard Dam and the filling of Possum Kingdom Lake.

We were turned back by barricades just before we reached the site of Lucille school. High water had closed the road. By way of another road we proceeded to find the location of Lucille School Reunion.

"When you get to Mrs. Long's house, go northwest until you come to a sign directing you to the place. It is the house where Uncle Boss Hays lived." That was our direction by letter, from one of our ex-pupils. How could one find a landmark amid all the camphouses, boat docks, etc.?

Instinct led us and we arrived. Soon we were greeted by ex-pupils, friends and neighbors. Between conversations, I tried to orient myself. The house had been remodeled; the lake was in throwing distance. Where were we anyway?

By inquiring and close observation, I soon knew that this reunion house was where our closest neighbor had lived. I had "sat up" with her in her last illness. The creek I had crossed on dark nights to go home was covered with the lake. So was our home-site.

When we left, we drove slowly on badly washed roads. Familiar places were hard to find. Many camphouses and homes had been flooded. We thought of the many contrasts, due to change. All this making us know change is inevitable, but the people were the same. That was the important thing.

Gail Flippin's parents, Mr. and Mrs. E. W. Rutledge, visited in their home last Tuesday.

Mrs. Grace Norris reports a very good singing at her house last Friday night. Her visitors were Ruby and Naomi McCowen of Cross Plains, Winnie Flippin of the community, Elaine of Brownwood, Mr. and Mrs. John Eppard of Early and Mr. and Mrs. O. E. Self of Bangs.

Ruby and Naomi McCowen attended church services at Mountain Top (Romney community) recently. Rev. John Jones is pastor. There were about 100 in attendance, with beautiful singing.

Mr. and Mrs. Bill Sessum's visitors were her daughter, Patricia Witherspoon and little daughter, Rachel, of Lancaster.

Betty Browning of Cross Plains, Norma and Eugene Foster of the community, Charles and Lucille Foster of Clyde and Mrs. Sooter of the community, were recent visitors with Mr. and Mrs. Hiram Foster.

Mr. and Mrs. Joe Fleming, Jim and Charlene Fleming and children went to Brownwood Wednesday evening.

Mrs. Joe Fleming attended her Sunday School class luncheon Wednesday.

Wanetta and Homer Parson and children had lunch with Mr. and

Mrs. Truitt Parson on Sunday.

Mr. and Mrs. Charles Butler and son, new minister at Cross Plains Church of Christ, had lunch with Mr. and Mrs. Cowan Hutton.

Mr. Cowan Hutton's mother, Mrs. J. P. Hutton of Shallowater, and Steve Lee of Cotton Center were recent visitors in the Hutton home.

Wanetta reports that the children are getting the Halloween spirit and that they are looking forward to next Saturday night.

Visitors in the Ron Holman home on Wednesday were Charles Payne and Charley Fortenberry. Mrs. Holman visited Mrs. Mary Taff recently.

After much insistence by her children, Mrs. Holman reported their recent purchase of a new Chevette car. Who isn't proud of a new car?

Mrs. Annie Laurie Alexander was feted with a birthday party at the home of Mr. and Mrs. James Alexander recently. Among the guests were Mrs. Cullers of Breckenridge, her daughter, and her granddaughter, Mrs. Fambro of Lake Brownwood.

Mr. and Mrs. D. G. Stover visited Mr. and Mrs. Mike Hinyard in San Saba during the week end.

Mrs. Tommy King and children visited her grandmother, Mrs. Loma Atwood, in Cross Plains on Sunday. Other visitors with Mrs. Atwood were Mrs. Imogene Booker of Abilene.

Vanda reported that her dad, Mr. Darwin Anderson, is at home in Abilene where he is convalescing from a recent heart attack.

Mrs. Nora Phillips spent two weeks in Midland visiting her son and wife, Mr. and Mrs. Bill Cloud, her daughter and husband, Nancy and Tom Wolf and Tam. Mrs. Phillips spent three days in Brownwood where she visited her son and wife, James and Wanda Cloud and Elma Cloud of Copperas Cove. Her son, Vernon, and wife, Glenda, their son, Allen, and wife, Janet, had lunch with Mrs. Phillips on Sunday.

Mrs. Phillips made a plane trip to Rialto, Calif. She was accompanied by Christine Melton. Her nephew, Kenneth Melton, took them to Dallas where he and they boarded a plane for a non-stop trip. They spent 10 days with her

DOC RACHELS DUE SURGERY AT DE LEON HOSPITAL

W. O. (Doc) Rachels of Rising Star, former longtime Pioneer resident, was scheduled to enter the hospital at De Leon Tuesday, and undergo surgery there Wednesday (today).

He is to be moved to the Gorman hospital in two or three days to continue his recovery.

brother, Starlin Melton, and wife who celebrated their 50th wedding anniversary during that time. They returned home by plane.

Visitors with Alma and Josie Morris were Mrs. Truitt Parsons, Mrs. Sylvia Brown and Wesley, Mrs. Emma Kent, and David Turner of Andrews and his friend, Mr. Underwood.

Mr. and Mrs. W. G. Parrish have returned from Houston where he had an appointment with his doctor. He got a good report.

Velma Jones visited with the Parrishes recently.

Mr. and Mrs. Lynn Daniel have returned from a three-month visit in Aberdeen, Scotland, with their daughter and husband. Her report on the beauty of Scotland was interesting. There is the beauty of flowers on every hand. The peace and tranquility of the country is in sharp contrast to the terrorism in neighboring Ireland. This visitor would like to interview Mrs. Daniel and get a better report. The length of time she and her husband spent in Scotland gave her a chance to learn much about the country and the people.

Their daughter and husband met them in Dallas and took them to Big Spring where they visited. Their son-in-law, Jim Athens, is pastor of a Baptist Church which is located on the road between Big Spring and Gale, Texas.

Gail Flippin will write the next news for Pioneer. Call her at 643-3272.

A

Boulder APPROACH:

OR how

Hoover Gave a DAM.

In the early 1900's, a concrete solution was needed to prevent flooding along the Colorado River. The Hoover administration provided it, 4,400,000 cubic yards' worth. Enough concrete to pave a two-lane highway between New York and San Francisco. It was the Hoover Dam at Boulder City, Nevada. And it not only controlled flooding and irrigation, but today it generates power for Southern California, Arizona and Nevada. The cost: \$385 million. And one of the ways money was generated was by Americans buying government securities and taking stock in America. Today, you can take stock in America by buying United States Savings Bonds. It's easy when you join the Payroll Savings Plan. That way, a little is automatically set aside from each paycheck to buy Bonds. Before you know it, you'll build up a nice reservoir of savings. So buy Bonds. It's one savings plan that holds water.

Series B Bonds pay 5% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Burkett News Items

By Lovera Strickland
Bill, Joyce and Barbara Strickland have enjoyed the company of Max Baker of Churchill, Victoria, Australia, the past week. He arrived in the States Sept. 1 and has visited several states and parts of Canada. Bill and Max visited several places of interest and Max picked up a lot of souvenirs from this area. Bill and Max have been corresponding for 3 1/2 years and it was a real pleasure for Bill and family to meet him in person. Bill and Max visited with Mike and Dru McClure and Ike Neal of Cross Plains Friday morning. Bill took Max to Mason Saturday morning to meet another friend from San Antonio. Then Max was to fly to Southern California to visit three weeks before returning to Australia.

B. W. and Billie Adams went to Fort Worth for his first check-up since his spinal surgery in August. His check-up and x-rays were very satisfactory. The doctor thought he was progressing as well as he could. He has to go back in January.

Mrs. A. B. Adams of Fort Worth returned home with them. As they returned home they stopped in Stephenville to visit Rev. and Mrs. Milton Baty at the Community Nursing Home. They were so happy to see that Bro. Baty was able to walk with the aid of a walker and his mind was so alert. He hopes to be able to go home by Thanksgiving. The Batys sent their love and prayers to all their friends in Burkett.

Visiting Mr. and Mrs. B. W. Adams last week end were Mary Allen, a neighbor of A. B. Adams, and Jim Morris of Fort Worth. Mrs. Lyda Harris of Colonial Oaks Nursing Home and Mr. and Mrs. R. E. Harris visited in Burkett Sunday. Lyda enjoyed her visit very much.

Bro. and Mrs. Ted Bigham, Mrs. Esther Johnson and Mrs. Puline Burns visited Mrs. Montie Jennings and Mrs. Lula Havner. Eli, Russell and Mary Gould of Abilene visited Mr. and Mrs. Dalton Gould Sunday.

Mr. and Mrs. Carey Hightower of Cisco, Mr. and Mrs. Tommie Strickland of Snyder, Mr. and Mrs. Jack Strickland and Johnnie Tinney spent the week end fishing at the Buchanan Lake. Mrs. Ruby Allen of Coleman spent the week end of Oct. 18th with her sister, Mrs. Buddy Thate. They all spent Sunday at Gatesville to celebrate the 50th wedding anniversary of their brother, Mr. Vernon Collins.

This past week Buddy Thate had the misfortune of falling with a

ladder from the attic of his home; his foot, ankle and leg were badly bruised; he now gets around on crutches, but luckily no bones were broken.

Rev. and Mrs. Bigham visited Mr. and Mrs. Thate Sunday evening.

State To Seek Crop, Stock Data Soon

The Texas Crop and Livestock Reporting Service will begin interviewing Texas farmers and ranchers in mid-November on 1981 final acreage, yield, and crop production and end-of-the-year poultry and livestock inventories for Texas and individual counties.

The confidential interviews will be conducted through the mail or phone or in person by field enumerators. Data collection will end in early January.

Doug Murfield, State Statistician, has urged farmers and ranchers to return questionnaires promptly. He said all information reported is kept confidential and is combined with other reported information for state and county estimates. These estimates give Texas farmers and ranchers information on which to plan their production and marketing activity in a way that will be most beneficial to their individual operations.

The reports help in transporting, storing, marketing and processing farm products to maintain an orderly flow from producer to consumer. They also assure competitive markets, Murfield said. Without them, most producers would have to depend on trade sources for information on crop and livestock prospects.

The cooperative effort between the Texas Department of Agriculture and the U. S. Department of Agriculture eliminates duplication of effort and saves tax dollars.

County estimates are available for livestock, dairy, poultry, field crops including cotton, small grains, vegetables, fruits and pecans, and cash receipts from the sale of Texas farm commodities.

They can be obtained by writing the Texas Crop and Livestock Reporting Service, P. O. Box 70, Austin, Texas 78767 or Agriculture Commissioner Reagan V. Brown, the Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711.

Prussic Acid Poisoning Again Threat To Stock

Frost will be hitting Callahan County before long, and this could lead to prussic acid poisoning in livestock grazing certain pasture grasses and forages, points out Greg Gerngross, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Although many plants contain the toxic material that causes poisoning, those causing the highest mortality in livestock when grazing after they have been frozen and wilted are Johnson and Sudan grasses and sorghum or hybrids of these.

The most dangerous time as far as the grazing of these plants is concerned is following frost when the plant material begins to wilt, emphasizes Gerngross.

Livestock should not be allowed access to the wilted material until it has dried completely. This usually takes three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

As far as prussic acid poisoning is concerned, the poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10-15 minutes after eating toxic material and can die in two to three minutes. Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. Stupor (loss of sensibility), difficult breathing and frequent convulsions may result. Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues. This also causes the blood to appear bright red.

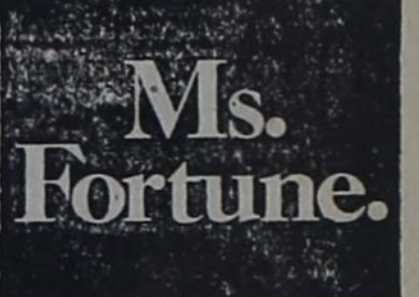

To prevent prussic acid poisoning in livestock, Gerngross outlines these steps:

1. Allow plant material affected by frost to dry thoroughly before grazing. This may require a week or more of good sunlight.
2. Feed animals hay or a supplement before turning them in on plants that may contain prussic acid. Animals that are not hungry will not be affected as seriously by toxic material since their intake will be limited.
3. Remove all animals from the pasture if one in the herd shows any signs of poisoning.
4. Call a veterinarian immediately if an animal appears to be poisoned. An antidote to treat af-

fecting animals is highly efficient if given early. This product is available from veterinarians.

5. Have suspect plant material checked by the Texas Veterinary Medical Diagnostic Laboratories at College Station or Amarillo. Local veterinarians will be happy to submit samples for you.

The overall key to prevent prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then to keep cattle from grazing such plants until a safe period has passed.
