MONTGOMERY HOUSE--Located

on Cisco Highway, north of Stock Barn.

MONTGOMERY HOUSE--In keep- Charlou Cowen, Earl Montgomery, ing with Project Pride's efforts to document and preserve Cross Plains' history, a plaque was installed recently at the former Davis Montgomery home located just off Highway 206 two miles north of the city. Present for the ceremony and pictured above were left to right: Lewis Fortune, Lurlene Montgomery Fortune, Margaret and Susan McNeel.

Minnie Cunningham and Johnnie Fortune Bland.

Project Pride members present but not pictured were Betty Lewis, president, Mr. and Mrs. John Adams, Mr. and Mrs. Alton McCowen, Clara Nell Spencer, Era Lee Hanke, Billie Ruth Loving,

The Montgomery Home

On May 12, 1960, an open house was held at the home of the late Mr. and Mrs. Davis Montgomery. The story, written by Sara McCowen thirty years ago, described the event.

An old house with a history, which has been recently restored by Mr. and Mrs. Burl McCowen, will be the scene Sunday afternoon of an open house observance, to which all their friends are invited.

The place is that built in 1916 for the late Mr. and Mrs. Montgomery, long time residents of this area. The McCowens purchased the place and the surrounding 219 acres about two years ago. In restoration of historic, old dwelling, said to have been built of number one, prime materials, they made no changes in the original floor plan, other than adding bath

Contractor on the Montgomery home 44 years ago was J.T. Boswell. The late Bill McMillan, brother of J. M. McMillan, and S.O. Montgomery were carpenter's helpers on the project. One of the outstanding features of the house is that even though it was a family home for nearly four decades, no births and no deaths occurred there. Early day citizens, however, remember that it was the scene of many gala gatherings for friends and neighbors.

The open house observance Sunday afternoon will be from two until six o'clock and Mr. and Mrs. McCowen urged that all their friends and everyone who knew the place in bygone years, visit it at this time. They stress, however, that no gifts be made.

Submitted by Mrs. Burl McCowen In 1961, the place was purchased by Mr. and Mrs. Mike Cunningham. Mrs. Cunningham, the former Minnie Coppinger, was the daughter of Mr. and Mrs. Louis Coppinger, pioneer settlers in Callahan County. The Cunninghams lived here until Mike's death in 1991. Mrs. Cunningham still owns the place which is now occupied by Leslie and Charlou Cowan. Mrs. Cowan is Minnie's nicce.

Earl Montgomery of Cross Plains is the last remaining child of Mr. and Mrs. Davis Montgomery. Several grandchildren also reside in the Cross Plains community. The are Lurlenc Montgomcry Fortune, John D. Montgomery, Lucille Montgomery Payne, and Joan Montgomery Ringhoffer. Several great

grandchildren also reside in this vicinity. Project Pride will place a plaque on the Montgomery Home to honor it as a place

in the history of Cross Plains. _Submitted by Clara Nell Spencer

Texas Railroad Commissioner Mary Scott Nabers Comes Back Home To The Heart Of Texas To Launch Election Campaign

AUSTIN, Sept. 1 — Texas Railroad Commissioner Mary Scott Nabers will come home to the Heart of Texas to kick off her 1994 election campaign for Railroad Commissioner. The kickoff, free and open to the public, begins at 6:30 p.m. on Tuesday, Sept. 14, at the Brownwood Coliscum.

"It's only fitting that Mary Scott Nabers come back home for the beginning of this important race. We know her best. Mary Scott Nabers' friends and family from this area have long been aware of her commitment to the Texas cconomy, its people and their jobs." said Putter Jarvis, Brownwood businessman. "Most Texans do not realize how important Nabers' work is - in fact, the Texas Railroad Commission affects one out of every five jobs in the Lone Star State. We know she'll continue her record of breaking down bureaucracy."

Opening will an Honor Guard from the Brown County Sheriff's Posse, Howard Payne University president Dr. Don Newbury will emcee the ceremonies. Entertainment will include the Cross Plains High School Band, Howard Payne University Band and the Heritage Singers. Complimentary sandwiches, soft drinks, popcorn and cookies will be

Created in the 1800's to regulate the rail industry, the Railroad Commission now regulates more than \$65 billion of Texas industry each year. These industrics include oil and gas, trucking, pipelines, gas utilities, environmental protection, delivery services, bus transportation, propane and natural gas,

Governor Ann Richards appointed Nabers to replace Bob Krueger at the Texas Railroad Commission in February 1993 to serve as one of the three Railroad Commissioners. Her leadership in state government began when Governor Mark White appointed Nabers to the Texas Employment Commission in 1984, the first time a woman was appointed to a full term. She was reappointed in 1991 by Governor Richards and served until being asked to serve as Railroad commissioner. In addition to her government service on behalf of Texans, Nabers is known for her experience in the private sector where she owned and managed various com-

Girl Scout"

The Heart of Texas Girl Scout Council. a United Way/Fund agency, is preparing for another membership year of fun and challenges. The Cross Plains Service Unit is getting ready for girls and adults to work together in troops. During the past year, 60 girls and adults have been active in Girl Scout troops in Cross Plains as well as individually-registered members. Their activities have included: trips to interesting places; troop campout/cookouts, council-wide events, summer camp, learning many things and earning badges, patches and other insignia -- and Our appreciation to Mabel Halsell for a all the while, they are having fun!

The women and men who volunteer fruit and to Mary Van Der Linden for the their service to help girls develop their full potential are making substantial in-Virginia Callaway, Hazel Bigbee from vestments in our community. Some of Cottonwood, Ricky and Sherri Wheeler these volunteers work directly with girls as troop leaders and/or program consultants, and some work indirectly as part Morris Renfro from Denton visited of the service unit team that makes Girl Scouting happen in our community. Some volunteers are trainers who work with adults to help them learn how to do the best job of working with our girls; the list of adult volunteer positions goes on. All volunteers, and especially the troop leaders, are stepping in to see that our girls do not become part of the growing Clara Nell Spencer visited Clara group of young people abusing alcohol and drugs, dropping out of school, facing unemployment and giving up on life by committing suicide.

> Girl Scout leaders form key partnerships with girls. They help girls realize their self-worth, develop sound values and decision-making skills, and turn potentially destructive behavior into positive action. These leaders invest their time and support. Girls gain self-confidence and begin exploring their future roles as women. With their personal lives in focus, girls move on to become responsible citizens and make valuable contributions to society. "THEY ARE WINNERS, THEY ARE GIRL SCOUTS."

A good investment pays dividends for many years. The investment of a Girl Scout leader helps ensure a positive future for our girls and our community. It gives volunteers the benefit of knowing they have helped mold tomorrow's lead-

Sound investments promise high returns with a minimum of risk, Girl Scouting is one sure investment that yields excellent benefits for girls and their communities, requiring only and enthusiastic commitment of time and

The Girl Scout program is open to all girls ages five through seventeen. As troops begin their fall activities in Cross Plains, girls and adults who are interested in joining the fun of Girl Scouting are encouraged to contact either Patricia Cook, Cross Plains Service Unit Chair, at 817/725-7741 or the Heart of Texas Girl Scout Council at 915/646-1516.

BREAKTHRU

By Bob Pipes, preacher **Cross Plains Church of Christ** 433 N. Main At 12th (817) 725-6117

As children we thought: "I'll never be able to shoot a basketball.... school will never be out... Christmas will never get here." As we grow older, the objects of our impatience changes but we're still skeptical when it come to believing things about the future. Saint Helen built elaborate houses on the very rim of the volcano, thinking that since it had not erupted in their lifetime, why worry?! But the residents had a surprise a few years ago — and those who moved back have to scamper several more times with further quakings.

For years we have been reminded: "The gas gauge on this good earth reads closer to empty every day." Yet we keep burning gas as if we had an inexhaustible supply. The environmentalists keep crying: "Careful with wastes. Filter that exhaust. Use chemicals with caution." Warnings have been ignored and the air, streams and land are sick with

"I will come again," Jesus promises. But scoffers sneer, mockers mock, the foolish ignore Him. By the fact of Christ's resurrection we can believe it and should prepare for it — but we all, in our own way, say, "He won't come today - won't return in my lifetime." A breakthru is to prepare for it and begin looking forward to it instead of ignoring it!

Come prepare with us. We really do care about you, too!

Buffs' Opener A Real Battle

By CHARLES CHESSHIR

The football slipped through a Buffalo receivers' hands and an upset victory was snatched away late in the fourth quarter as Cross Plains lost to the Bronte Longhorns Friday night, 12 to 7.

It was an insignificant loss to the Buffaloes compared to the emotionally draining news earlier in the day of the death of beloved former teammate Billy Brown. The team honored Billy and his family by playing Friday night with his number on each helmet. Billy in his senior year in the 1992 season, was known for never giving up and playing his very best every play of the game. He is gone but will never be forgotten.

The game opened with an excellent drive down the field by the Buffaloes but was stopped short of scoring by Bronte's stubborn defense. The remainder of the first quarter the Buffalo defense was pounded by an experienced and talented offense, but the score remained 0 to 0 until early in second quarter when Bronte scored. The extra point kick failed.

The ball bounced Bronte's way in the third quarter when Brian Hall on a long run was hit and fumbled, but his teammate Jason Wilson recovered it in the end zone for a touchdown. The two point conversion was stopped by a determined Buffalo defense.

Brock Walker, on an excellent option play, and led by determined blocking broke for a 77-yard run for the Buffaloes only score late in the third quarter. Kevin Switzer kicked a picture perfect extra

The valiant effort was led on offence and defence by Seniors: Jason Fleming, Kevin Switzer, Colby Childers, Robert Lee, and Rodney Rudloff; Juniors: Scott Chesshir, J.J. Higgins, Miquel Mauricio, Daniel Bushnell, Jimmy Lee, Josh Coburn, Willie Nickerson, Matt Reed, Cole Gulliam, Terry Schults and Jared Harris. Supporting and adding excitement and depth to the team are Freshmen and Sophomores: Brock Walker, Donnie

Dillard, Todd Smith, Jeff Brown, Cody Leight, Jeremy Barnett, Scan Jones, Porcious Pouer, Hugo Mauricio. Brent Mackey, Corey Switzer, Roger Pope, and Justin Richey.

Despite great adversity and the fact that Bronte fielded an older and more experienced team, the Buffaloes went to the final minutes of the fourth quarter with the chance of a go-ahead score. With the clock ticking down and the Buffaloes threatening to score on a drive mixing running and passing, the ball slipped through a Buffalo receiver's fingers and was intercepted by the Longhorns. They were able to run the clock out from that

Visitors to Cross Plains Friday night gave lavish praise to the effort put forth by our boys. While most folks see only the score as the measure of success, these who win at life after high school understand that winning is a process in which each battle, each pain and each setback is merely a stepping stone to future victory. A true winner fights to the end, not thinking of his own inadequacy, inexperience, or lack of talent, but contributes everything he has to good of the team. Friday night the community of Cross Plains saw a team of football players who are winners and on their way to true victory.

COACH JOHN STARCHER

So Who's That **New Coach**

By CAROL ATCHLEY

It's a bit early to talk about basketball, but it's not too early to introduce a new addition to the coaching/teaching staff at Cross Plains I.S.D.

John R. Starcher came to Cross Plains from Alvarado High School (south of Fort Worth), where he taught and coached for six years. At Cross Plains, Starcher has taken on the roll of Girls' Athletic Coordinator, Head Girls' Basketball Coach, Assistant High School Football Coach, Seniors' Government/ Economics teacher and the Juniors' World history teacher.

Starcher is a graduate of Patton Springs High School. He received his B.S. degree from Angelo State University in 1983 with a degree in Physical Education, History, and Driver Education.

When asked about Cross Plains and why he came here, Starcher replied that he wanted a "chance to work and reload a girl's athletic program and basketball team." He also wanted to move closer to his family in West Texas and he was "ready to move from the Metroplex to a more peaceful area."

He finds the people very "open and friendly" and intends to develop a winning attitude in both the girls and boys not only in athletic competition, but in the classroom. Starcher says he's glad to be here and hopes he has the chance to accomplish these goals.

In what little fee time he will have, Coach Starcher enjoys relaxing at home (he's single), playing the guitar, driving all over Texas, and collecting comic

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION **NOVEMBER 2, 1993**

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses. The amendment provides that the legislature by law may establish a Texas historically underutilized business capital growth and start-up fund. The money in the fund may be used without further appropriation and only for a program established by the legislature to aid in the start-up costs of a historically underutilized business, as defined by the legislature. To carry out the program, the legislature may issue up to \$50 million of general obligation bonds to provide funding. The legislature may require review and approval of the issuance of bonds, the use of the bond proceeds, or of the rules adopted by an agency to govern use of the bond proceeds. Bonds authorized by the amendment constitute a general obligation of the state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the issuance of \$50 million of general obligation bonds for the recovery and further development of the state's economy and for increasing job opportunities and other benefits for Texas residents through state financing of the start-up costs of historically underutilized businesses."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution. The amendment applies to real and personal property used as a facility, device, or method for the control of air, water, or land pollution that would otherwise be taxable for the first time on or after January 1, 1994. The amendment does not authorize the exemption from ad valorem taxation of real or personal property that was subject to a tax abatement agreement executed before January 1,

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air. water, or land pollution."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to an undivided one-third interest in and to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick on or about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830. Title to such interest in the lands and minerals is confirmed to the owners of the remaining interests in such lands and minerals.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin

PROPOSITION NO. 4

ON THE BALLOT Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax. The referendum must specify the rate of the tax that will apply

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax.

The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than twothirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the dedication of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties; and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear

on the ballot as follows: "The constitutional amendment abolishing the office of county surveyor in

PROPOSITION NO. 7 ON THE BALLOT

Jackson County."

House Joint Resolution 57 proposes a article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second type of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax

PROPOSITION NO. 10 ON THE BALLOT Senate Joint Resolution 34 proposes a

constitutional amendment that adds a

new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (\$950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government. an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, and at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Housing Fund. If there is not enough money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or

become due during that fiscal year. If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates

of interest as the Board determines. The general obligation bonds authorized to be issued by the Board by this section or be sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the

board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or-aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 13 proposes a

constitutional amendment that amends

article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a twothirds vote of the membership of each house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes for the purposes of refunding bonds or notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge money to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent im-

provements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (e) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. The office of county surveyor is abolished if a majority of voters of the county voting in the election approve the measure. If the office of county surveyor is abolished, the maps field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 44 proposes an amendment to article III, section 49-i(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

COTTONWOOD NEWS

By BEVERLY BROWN

Over the past eight years, the Cottonwood Quilting Club members have been sending \$1000.00 to the West Texas Rehabilitation Center from their Rehab Night benefit held in September, thanks to the community and surrounding areas'

Just one week from this Friday, on September 17, the Rehab Night 1993, in conjunction with the Cottonwood Musical, will be held. Featured for the evening festivities will be a barbeque supper, a country store, baked good sale, quilt drawing, and great country-western music entertainment.

The club members need volunteers for the 17th, and donations will be welcomed for the country store and bake sale. Contact Ethel Champion at 725-6536; Isla Stroud at 725-6263; or the quilting club on Thursdays at the center, or call 725-7183 if you are available.

Mr. and Mrs. John Purvis recently visited in Kemp with Mr. and Mrs. Homer Griffin at Mount Pleasant with their son, Mr. and Mrs. Tommy Purvis and family, and in Paris, Texas with Mrs. Cora Howland at the Cherry Street Manor.

Mrs. Sherry Shepherd of Balch Spring was visiting with Mrs. Charlie Sowell at the morning services at the Cottonwood Baptist Church on Sunday.

Shelby Champion of Stephenville spent several days with her grandparents, Mr. and Mrs. Glenn Champion Sr.

On Saturday, Glenn Champion Jr. of Potosi came by to see his parents, Ethel and Glenn. He was down to pick up a Rottweiler (dog) to take to the shop in Abilenc.

Mr. and Mrs. Monte Champion and Jeffrey of Stephenville were here on Monday to visit with the folks and to get Shelby.

Dean and Shirley Draper and grandson, Jeffrey, of Duncanville, were visiting with Don and Bobby Draper over the weekend.

MINUTE MUSINGS

By ESTHLOY DICKSON

What a difference one day can make! I was in the mood to write yesterday. Today I don't seem to function properly. Just maybe my mood will return soon.

My dearest friend in Abilene (Elvia Keck) called me Sunday afternoon. I thoroughly enjoyed our chat. We have been friends many years. I've been down here thirty years. Our husbands were oilfield buddies.

Sally Roady always gives me a good report. Bob visited his mother in the Nursing Home nearly every day. They talked to their son, George, on the telephone. Cindy and Jim visited them often. Joe and Beverly of Brownwood visited this week. Sally spent four days in the hospital, having tests made--received a good report.

I enjoyed a nice chat with Lucille A. Callaway. She has had some interesting guests lately, some are from Mississippi.

Betty Beggs was doing some work at the church and I didn't get to talk to her. We will get her reports next week.

Ms. Jewel Foster has been getting along real well. Her health is just great. We had a good group in our class on Sunday. We have some great teachers in that class.

Peggy Purvis and Denise Cavness of Austin and Steve Wilson and Steve Gray of Dallas, were at the home of John and Janct Purvis over the Labor Day week-

Paul and Carolyn Williams and Wendi of Austin were at his parents, J.O. and Laura Williams over the weekend.

Mr. and Mrs. Turner Simpson had several of their children and families at home over the Labor Day weekend. Marion and Glenda Simpson and daughter, Carol and Andy Carter, Rebecca, Cody and Amanda of Abilene; Vernon and Shirley Simpson and friend, Charlene of Giddings, spent the weekend. Granddaughter, Christi Kay Simpson and friend of Abilene were by on Saturday. On Sunday, the family attended the Simpson reunion held at Turner's niece's, Freddie Bates, at Palo Pinto Lake.

On Thursday, Mr. and Mrs. J.O. Williams went to spend the day with his sister, Mrs. Shirley Riley in McKinney. Mr. and Mrs. Alton Haston and boys were down from Jacksboro last week to visit with Carlile, who was home from basic training, and parents, and Mr. and Mrs. Eddy Albrecht, Emma and Andrew and Mr. and Mrs. Lee Creamer and boys.

"I have always had a special affinity for libraries and librarians for the most obvious reasons. I love books. Libraries are a pillar of any society. I believe our lack of attention to funding and caring for them properly in the United States has a direct bearing on problems of illiteracy, productivity, and our inability to compete in today's world. Libraries are every man's free university"
