County To Charge Sheriff, Deputy

The battle between the Callahan County Sheriff's Department and County Commissioners has intensified again after commissioners voted unanimously to file official misconduct charges against the sheriff and chief deputy.

County Judge Bill Johnson said commissioners met Tuesday, July 21 at 9:00 a.m. to discuss official misconduct charges being brought against Sheriff Bill Skinner and Chief Deputy Wayne Knowles.

Commissioners met in an open meeting for approximately 20 minutes, with Skinner and Knowles attending the meeting, before approving the motion, by a 5-0 vote, to file official misconduct charges against the two men. Voting for the motion were Judge Johnson and commissioners Roy LaFoy, Tommy Holland, Lowell Johnson and Joe Ingram.

Judge Johnson said others attending the commissioner's court meeting were County Clerk Darlene Walker and County Treasurer Dora Hounshell. Callahan County Star newspaper editor Debbie Smedley attended the latter part of the meeting, the judge said.

The official misconduct charges concerned the use of a sheriff's department vehicle by Knowles. Johnson said

Knowles used the county vehicle to take a vacation to Ruidoso, New Mexico. Johnson stated a Callahan County resident observed Knowles driving the vehicle in Ruidoso last weekend.

When confronted with the charges, Judge Johnson said both Skinner and Knowles didn't deny the chief deputy driving the vehicle in the resort town.

Johnson said the charges to be filed apply to the penal code, under Chapter 39. Abuse of Office. The penal code reads: 39.01. Official Misconduct (1) A public servant commits an offense if, with intent to obtain a benefit or with intent to harm another, he intentionally or knowingly:

(2) misapplies any thing of value belonging to the government that has come into his custody or possession by virtue of his office or employment.

The county judge stated he received an Attorney General's opinion before commissioners voted on the motion and the AG's office recommended charges of official misconduct be brought against the sheriff and chief deputy.

Johnson said the charge would probably be a Class B misdemeanor if the value of the use of the thing misapplied is \$20 or more but less than \$200. He said the value of the vehicle used would be the number of miles driven multi-

plied by .20 cents per mile.

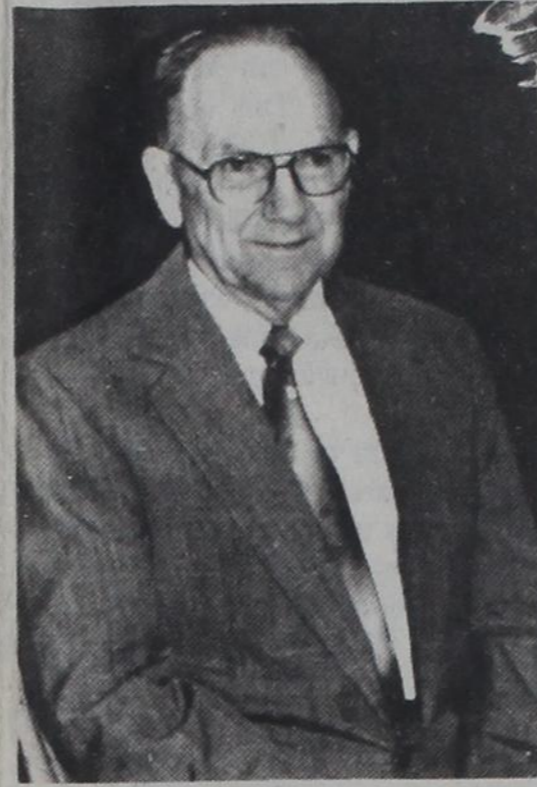

The judge said everything has been turned over to the county attorney for the filing of charges. If the case is handled as a misdemeanor, the case would be tried in county court. Johnson said a visiting county judge would be brought in to try the case in Callahan County or a request could be made by the defendants to move the case to another county.

"We hate to do it, but we can't stand by while they use taxpayers money and not do anything about it," Judge Johnson said.

The vehicle used is one of four vehicles owned by the county and used by each of the four deputies in the sheriff's office. The deputies use the vehicles during work and at times on personal trips in the county, Johnson added.

Judge Johnson added the charges of official misconduct brought against Skinner and Knowles have nothing to do with a lawsuit Knowles and two other deputies have filed against the county asking for over \$51,000 in overtime pay and attorney costs.

When contacted about the charges of official misconduct, Sheriff Skinner said that upon advice of an attorney, he could not comment on it. Skinner did say Bob McCool would handle the case for the two men.

GETTING ACQUAINTED — Larry Cheshier, Area Manager of Cross

Plains (left), and Cross Plains Review editor Vanda King (right) chat with

West Texas Utilities Company President CEO Glenn Files.

WTU-Media Brunch Informative

West Texas Utilities Company, which provides electricity to customers in Cross Plains, doesn't anticipate a rate increase until the next century, according to new WTU president and chief executive officer Glenn Files.

Files had some good news to report, as a matter of fact, saying WTU expects to refund some excess fuel charges to its customers later this year, with the Public Utility Commission's approval.

Bake Sale For Lori Dillard

Support Lori Dillard as she represents Cross Plains High School in the Lord Mayor of Westminster New Year's Day Parade by coming to a Bake Sale on Saturday, August 1, from 8 a.m. until sold out.

There will be lots of goodies, so come and see!!!

Need a night out? Look for details in next week's paper for a Mother's Night Out.

Files made the comments to the Abilene area media during a brunch with reporters Friday, July 24, at WTU's Lytle Shores Auditorium.

Files, who became president and CEO of the electric company in May 1992, said WTU has not increased electric rates to its customers since 1987. Its last rate increase was sought when the new Oklaunion coal burning power plant came on line in Vernon.

Files succeeds Glen D. Churchill as president and CEO effective with Churchill's planned retirement. Files joined WTU in October 1991 as executive president and a member of the board of directors after serving 20 years with sister companies of WTU. He most recently was vice president of marketing and business development and a member of the board of Central Power and Light Co. in south Texas.

Prior to that he worked more than 19 years with Public Service Company of Oklahoma. WTU, CPL and PSO are subsidiaries of Central and South West Corporation, headquartered in Dallas. Central and South West Corp., which

also owned a natural gas pipeline company, is one of the largest electric companies in the United States.

He spoke to the area media of the changes being made in the electric industry.

One of the changes is in nature and environment. He said WTU is proud of its environmental record, noting six of the seven electric plants of WTU use natural gas, a cleaner burning fuel. Another electric plant uses western United States coal. He also talked briefly of the company's record of recycling products including petroleum and paper products.

The WTU CEO also spoke of the deregulation of the electric industry being forced upon the federal legislature. "We don't oppose deregulation, but don't want the same problems as in the other industries," Files said referring to the airline and savings and loan deregulation that has forced bail-outs and mergers of those industries.

Cisco Junior College Drive-In Band Camp August 3-7

The annual Cisco Junior College Drive-In Band Camp will be held August 3-7 from 9:00-3:30 on the campus of Cisco Junior College in Cisco, Texas. As has been done in the past, area musicians have found this camp to be an excellent way to get ready for the start of a new school year. Again, area band directors will assist in the instruction at this year's camp.

The cost of the camp will remain at \$50 per student. This tuition will include a camp T-shirt, especially designed for this camp, a full meal each day, daily awards (given by area directors), a swimming party and cook-out, and trophy will be awarded to the most outstanding junior high and high school musician as chosen by the camp staff.

One reason this camp has been so successful over the years is the variety of activities offered to the students.

Each day consists of rhythm, theory, sectional rehearsals and band rehearsals all taught by the area band directors.

This year we will have students and directors from Cross Plains, Albany, Baird, Ranger, Breckenridge, and Cisco.

Any students who has had at least one year of formal band instruction is encouraged to attend. Even if your band director is unable to attend, you are invited to participate.

Something new they are starting is a "traveling trophy" which will be given to the school with the most students present. The winning school will be able to carry the trophy with them and winning three years in a row will allow them to keep the award for their school.

"Come be a part of the fun with your friends and prepare for the new year." If you need any information concerning this camp, please call Cisco Junior College at (817) 442-2567. Camp director is Bill Swinney, Director of Bands.

MINUTE MUSINGS

By ESTHLOY S. DICKSON

Here it is — the last week in July — I can hardly believe this year has 'flown by' so rapidly! But, fortunately, it hasn't been dull at all — not for me.

Last week my 'great-grandchild' had her first birthday. I sent the family some money for her, and my grandson, the proud father, called me to say 'thank you'. He said that Natalie is walking and trying to talk. They are thoroughly enjoying her!

My good neighbor, Sally Roady, called me early — which I appreciate. I have asked a favor of her — to put a new light bulb in my kitchen ceiling. I just don't dare get up on a high stool for that job.

The Roadys have visited with Ms. Nettie at the nursing home nearly every day. They talked on the telephone with Cindy and Charlie. They visited in Cross Plains with Mr. Mac Childers. They visited one day with Bob and Sue McNeil in Baird.

I received a good 'bear hug' from Betty Beggs on Sunday. Rex Lee Beggs, Nikki, Ashley, and Anthony visited at the ranch this week. Betty visited with Ms. Novella Barton of Pioneer one day this past week.

I waved to my next door neighbors on Sunday. I don't see them often. They both work. They entertained friends on their front porch Sunday morning.

There was good attendance at First Baptist on Sunday. The pastor's topic was "Holy Moments," taken from Romans 6. He brought a tremendous message.

I just adore talking to Helen Tillotson — she has the cutest accent. On Saturday evening, Ruth and Ronnie Hutchins and three children of Potosi, also Donna and John Burleson had supper in their home.

Social Security Direct Deposit — Popularity Continues To Grow

"Over 20 million Social Security recipients already receive their payments by direct deposit," says Glyn Hammons, Social Security Manager in Abilene. "And the number continues to grow."

Direct deposit is a more convenient way for Social Security and Supplemental Security Income (SSI) recipients to receive payments. With direct deposit, recipients have their payments electronically deposited in their accounts on the same day the payments are scheduled to arrive in the

mail. When you have direct deposit, you do not have to make a special trip to the bank to deposit your check. "This is especially important in bad weather or during periods of ill health," says Hammons. With direct deposit your money is available at the opening of business on the same day payments are scheduled to arrive in the mail. "In fact, you can write personal checks to pay bills or use your bank card to get money immediately."

WTU

Continued From Page 1

The WTU president also said federal and state deregulation is going to create more competition among electricity carriers.

Files also spoke about the changes to the WTU billing statement after the state placed a special tax on electric service to all rate payers. He said the "cost of service" surcharge on all WTU bills is just a state tax that goes into the state's general fund.

He noted WTU's involvement in the economic development, saying economic development provides a direct benefit to WTU through the sale of electricity. He cites the company's price rates is an added service that attracts new business to West Texas.

Files said although WTU is a subsidiary of Central and South West Corp., the company is still home grown and home operated. The Central and South West Corp. president, Dick Brooks, hails from Abilene.
