Buffs Take Bi-District

By Carol Atchley

It came right down to the last few seconds, in a tense, action-packed game, but the Cross Plains Boys basketball team held on to a narrow lead to win their Bi-District game last Thursday, Febuary 24. The opponent was a tough Graford team and the score was 66-64.

Each team seemed to play two separate halves. In the first half, the Buffs dominated the court by outscoring the Jackrabbits by 20 points. First quarter ended 27-11 Buffs. The second quarter resulted in a 41-21 lead for Cross Plains.

The second half, however, belonged to Graford. Cross Plains was outscored 7 points to 20 in the third quarter. The score was 48-41 Buffs. In the forth quarter the Buffs were again outscored, this time by 5, but fortunately time ran out and the final score had the Buffs on top.

Statistically speaking, the Buffs shot a 44% in the 2 point range hitting 14 of 32. They made 38% of their 3 point attempts 8 of 21. In their free throws, 14 of 20 were good for a strong 70% compared to Grafords 29%.

Four Buffs made double figures in scoring. High point was Kevin Switzer with 17; then Jason Fleming and Brock Walker both at 14; and Matt Reed with 10. Donnie Dillard and Rodney Rudloff both scored 6 and 5 points respectively.

Reed led the team with defensive rebounds at 8 followed by Brock Walker and Fleming with 4, Dillard with 2, and Kelly Barclay, Jeremy Barnett and Switzer with 1 each.

Each game Coach Bill Boyds selects 3 players who exhibited outstanding effort. In this game "Mr. Hustle" was "Everybody" according to Coach Boyd. "Mr. Defense" was also "Everybody" and

about the game Coach Boyd said he was very inpressed with the boys determination down the stretch.

Since the Buffaloes won the Bi-District game they face the May Tigers for the Area competition. That game was played Tuesday night, March 1, at Coleman.

If the Buffs are successful at Coleman, they will compete in the Regional Tournament at McMurry University in Abilene, the opponent and time to be announced.

2 Announce Re-Election

James Nichols is presently the only candidate to file in the city election. Nichols is seeking re-election as councilman for the City of Cross Plains. Vacancies include two council seats (Nichols and Tom Clark) and the mayor's post (Eugene Dillard). Applications for the city election may be obtained at the Cross Plains City Hall.

Donnie Dillard has filed for re-election in the school board trustee election. The terms of Randy Montgomery and Dillard are expiring. Montgomery has decided not to seek re-election, but stated his appreciation of support in the past.

Candidates may obtain applications at the Superintendent's office at the Cross Plains High School from 8 a.m until 4:30 p.m. Monday through Friday.

The final day to file for the local elections is March 23. The election will be held on Saturday, May 7.

Wind Rights In West Texas

By TRAVIS WILLIAMS

Ranchers and farmers in the western half of Texas own a valuable wind resource that is becoming of interest to electric utilities and wind power develergy industry had its birth in the early Students must attend both nights of 80's, unwary ranchers lost control of their "wind rights" by making mistakes.

A co-operative study by ranchers of the region's wind resource would document the quality of potentially promising sites Association - extension registration for commercial wind power plants. A broad regional cost-shared approach towards wind resource evaluation would make participation in the study affordable and produce a good understanding of what the winds are doing 50 meters up in the air and where the promising sites for commercialization are located.

Once the rancher or farmer has a good understanding about the quality and quantity of his wind resource, superior production royalty agreements can be negotiated from an informed position. A good wind site averaging 16 - 18 miles per hour annually should command a production royalty arrangement for the landowner similar to a good oil or gas lease with proven reserves.

Most of the traditional landowners in California's wind parks didn't get advice in time about how to protect themselves and their long-term interests. Today in Texas, few attorney's, C.P.A.'s and real estate advisors have any wind industry experience to begin assisting rancher with windy land develop their interest safely in a very complicated power industry dominated by giant utilities.

Texas Turbine Corporation has assembled a team of highly-experienced wind energy professionals to educate, guide and protect landowners wishing to study their wind resource for commercial sites which can reward them with excellent production royalty streams of income for decades.

The wind energy market is devloping in Texas faster than other states because of pro-renewable energy support at the Public Utility Commission which regulates utilities. Texas has a large potential wind resourceten times that of California. West Texis, part of the Gulf coast, the Panhandle and parts of central Texas have substantial wind resources of varying qualities and quantities that require documentation for commercialization to proced. The mountain ranges in West Texas mesas, ridgelines, high country, escarments, and the regions surrounding thm are especially attractive because th mountains, mesas, and escarpments ca serve as platforms to position wind urbines higher up into good wind currets.

Ranchers in Vest Texas have a wonderful opportuny to develop a new energy resource buthey must be extremely careful about conpromising their wind rights in any wa if they want to realize significant streams of income over the long-term.

In Callahan County we have contested races for County Judge, County Commissioners in Precincts 2 & 4, and Justice of the Peace in Precincts 1 & 3. Uncontested offices include District Clerk, County Clerk, County Treasurer. Democratic County Chairman and Democratic Precinct Chairmen, Precincts 1 thru 7.

There are 29 offices (28 in Precincts 1. 3 & 5 where there is no Commissioner Race.) and 58 people (48 in Precincts 1, 3 & 5) asking for election to these County positions.

According to Tom Ivey, Veterans County Service Officer for Callahan County, the Blinded Veterans Association (BVA) will award twelve scholarships in the amount of \$2,000 each under its Kathern F. Gruber Scholarship Program for the 1994-95 academic year. This is the eleventh year of the program.

Only dependent children and spouses of blinded veterans of the U.S. Armed Forces are eligible for the scholarships. The veteran must be legally blind; the blindness may either be serviceconnected or nonservice-connected. The veteran need not be a member of the Blinded Veterans Association. Additionally, to be eligible for the scholarship, an applicant must have been accepted for admission, or already be enrolled, as a full-time student in an accredited institution of higher education, or business, secretarial or vocational training school.

The scholarships are intended to be used to defray a student's educational expenses, including tuition, books and other academic fees. Scholarship directly to the educational institution.

Applications for the scholarship may be obtained from: The Kathern F. Gruber Scholarship Program, Blinded Veterans Association, 477, H Street, N.W., Washington, DC 20001-2694.

Completed applications and supporting materials must be returned to the BVA no later than April 15, 1994 to qualify for the 1994-95 academic year scholarship program.

The scholarships will be awarded on a "most-highly-qualified" basis utilizing the following criteria; answers to questions in the application form; transcripts of high school and/or college records; three letters of reference; and a 300-word essay on the applicant's posteducation, lifetime career goals and aspirations, Kathern F. Gruber scholarships are awarded for one year only. It should be noted that Katherine F. Gruber scholarships are now limited to a recipient completing only one degree (baccalaureate, graduate or vocational) or non-graduate certificate (nursing/ business/secretarial or comparable curriculum) under this program.

The Blinded Veterans Association is a national non-protit organization concerned with the welfare of blinded veterans. Founded in 1945 by a group of veterans who were blinded in World War II, the BVA is chartered by the U.S. Congress and serves as the official representative of blinded veterans throughout the United States.

Someone has said that bad breath (halitosis) is better than no breath at all — and while that is true, we all know how offensive halitosis can be. But have you ever heard of "personality halitosis"? Some, because of a bad temper, jealousy, foul language, or a gloomy, pessimistic nature and attitude, could be diagnosed as having "personality halitosis!" And this kind of halitosis can't be cured with toothpaste or mouthwash or breath fresheners. This kind of "bad breath" doesn't come from anything eaten or infected tonsils or bad teeth — it comes from a bad heart. Not one's physical heart, of course, rather one's mind — spiritual heart. Think dreary, immoral and greedy thoughts and you'll spout that kind of ugliness out of your mouth and entire life and life-style. And sooner or later, not only will others be unable to stand you, you won't be able to stand yourself!

Now there are other types of personality halitosis — other bad traits that can cause ones personality to be of such a nature that it simply stinks! It may be harshness, or it may be wishy-washiness. Some may not be as bad as others but none of them are a joy to be around. (I guess the one I detest the most is foul language — cursing...)

The remedy of "personality halitosis" is to simply clean up one's act — clean up the heart, one's life — thoughts and action alike, including the mouth. Solomon put it so well in saying, "Keep your heart (mind) with all diligence, for out of it comes the issues of life." If we'll put

> Re: Elect Lester M. Wyatt Precinct No. 4 Commissioner Callahan County, Texas

Dear Voters:

I would like to encourage all the voters of Callahan County Precinct No. 4 to elect Lester M. Wyatt as their new Commissioner.

I have known Lester for twenty years. During that period, Lester worked for our company in positions of major responsibility. Lester has made good decisions on supply contracts, prepared budgets and maintained an adequate inventory. He has demonstrated the ability to manage people and equipment in a responsible manner, time and time again.

While employed at Cross Plains Oil Field Supply Company, Lester Wyatt ensured that project deadlines were met and expensive oil field equipment was properly used and always accounted for. With Dynamic Production, Inc., Lester kept oil and gas wells producing efficiently and maintained the production equipment related thereto.

Lester M. Wyatt brings honesty and respect to any job he performs. In addition, he has the necessary background to tackle the responsibility of an elected position.

Please vote for Lester M. Wyatt. It is your opportunity to put a responsible and honest person in an important county position.

Very truly yours,

Charles E. Graham, III Professional Engineer

Financial Aid Presentation March 7

It is time to begin preparing for financial aid for your student if he/she plans on attending a two or four year college or a vocational school. On March 7th, Barbara Callaway, the financial aid director for Cisco Junior College, will do a presentation for parents of Juniors and Seniors. After an overview of financial aid, she will take Senior parents through a financial aid form. Senior parents who are applying for aid will need to know two things

before comin to the presentation: (1) which school our child plans to attend and (2) your 993 income. Mrs. Callaway will answr questions and help you fill out the 1rm regardless of what school the stdent is attending. Most schools have cadlines for filing for financial aid ind it is important to complete thes forms as soon as possible. Please cl me if I can help you. Please join us March 7, at 7:00 p.m. in the high schol library.

Radio: A New Wave

(NAPS)—Now hear this: Soon you may be watching, as well as listening to, your radio, thanks to an exciting new technology called Radio Broadcast Data System (RBDS).

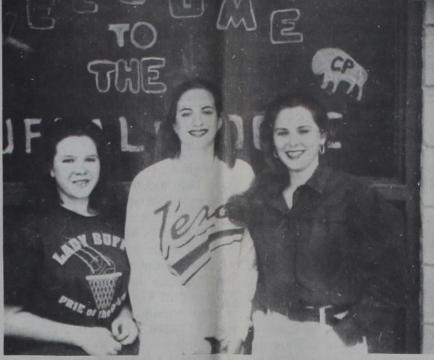

Some new home radio receivers will feature digital displays of stock quotes, sports scores, and weather reports.

RBDS allows broadcasters to transmit, in addition to their regular programming, a variety of information to car or home radio receivers. New car and home radios and tuners will feature digital text displays that can give consumers access to artist or programming information, traffic and emergency alerts, stock quotes, sports scores, weather reports, even brief commercials.

RBDS also allows the radio to automatically tune to another channel to get the clearest reception of a common program or switch from a cassette to the radio for emergency alerts or even traf-

fic reports.

Currently, 83 radio stations
(FM) across the country are broadcasting the RBDS signal, reports

By Esthloy S. Dickson

Here it is, the last day of February! And my comments on the weather are not complimentery, so I'll just skip them! There is certainly nothing I might do to change the weather.

We missed the Dale Bishops in church Sunday morning. However, Dr. Smith met with the children in Dale's place and they just loved him, as they should. There were only 152 in Sunday School. There were eleven women and five men in the choir -- Brother Bill deserves better attendance than that.

My nice neighbor, Sally Roady, sounded cheerful this morning, however, she is only slightly improved. She continues taking the medicine which is supposed to clear up her problem. Their son, Joe called in from Brownwood. Cindy called-she went on the truck with Jim this past week. Bob visits with his mother at the Nursing Home nearly every day.

J.T. Beggs, Betty and son, Rex made a business trip to San Antonio this past week. They had some visitors--Mr. J.T. Clark of Kingsland, and Mr. Charlie Venson of Rising Star.

Congratulations to J.D. and Doris Goble on their 50th Wedding Anniversary. They are such lovely people! We've appreciated their friendship all the thirty years we have been here.

I appreciate my friends, Allie and Marvin Dickson. They came out here the other day to "help" me hunt for my misplaced keys. I still haven't found those "silly things".

Sorority Meeting Held

The Alpha Rho Zeta Chapter of Beta Sigma Phi met on February 21, in the home of Dora Smith.

A business meeting was held with Judy Luter, President, moderating. A report of the Miss Valentine Parade and also the upcoming Forum were discussed.

Secret Sister gifts were distributed and delicious refreshments were served.

Those present were: Sally Boyd, Sarah Brashear, Debra Childers, Joy Gerking, Judy Luter, Joyce McCoy, Wanda Merryman, Janice Phillips, Dora Smith, and Kathy Wood.

Mark your calendars on March 26 as a reminder of the Cottonwood Volunteer Fire Control Group Fundraiser. A barbeque dinner and a "Who Done It" mystery is in the works. In the next several weeks the volunteer fire callers will be contacting residents in the community for donations to help with the expenses of the dinner. Your support will be greatly apreciated. Presently the funds are low for the organization and your help is needed in this area.

The Cottonwood Baptist Women will meet on Monday, March 7 at 2:00 p.m. in the church annex building. The ladies

Polled Hereford Jr. Market Steer **Show Results**

The Polled Hereford Junior Market Steer Show was held February 18 at the 45th Annual San Antonio Stock Show and Rodeo. The 48 Polled Hereford steer entries were divided into three weight classes: light, medium and heavy.

Champion was exhibited by Dennis Hajdik from Fort Bend Co. 4-H, a 1,220 pound medium weight steer. Reserve Champion was shown by Misti Johnson from Callahan Co. 4-H, a 1,155 pound light weight steer.

will be busy planning for their up coming projects. At Christmas time the women made lap robes and presented them to the patients at the Colonial Oaks Nursing Home. Many of the residents have these displayed in their rooms.

Last Thursday fourteen young ladies of the Girl Scout Troop Group 215 visited with Cottonwood Quilting Club members to learn the procedures of quilting. The girls are working for their merit badge in survival. Their troop leaders are Sherilyn Bell and Marilyn Cary.

A spokesperson for the Cottonwood Quilting Club reported the organization will be sending \$700 to the Ben Richey Boys Ranch in Abilene. The proceeds came from the benefit held in February.

A.A.R.P. Meeting Monday, March 7

The March meeting of A.A.R.P. will be held on the 7th at 11 a.m. in the Cross Plains Multi-Purpose Center.

The entertainment for this month will be the musical trio of Ruby McCowen and her two sons, who are well known in the community.

This group performs in the Colonial Oaks Nursing Home and various other places and are a joy to listen to.

Plan to attend and welcome this musical group and enjoy the covered dish luncheon.

No program benefits subject to limitation may be provided to any producer until the necessary payment limitation determinations are made. The producer will remain ineligible until all required forms are provided to the county office.

Payment limitation and payment eligibility determinations may be initiated by the County Committee or requested by a producer. If you request a determination, the request may be filed anytime before the final date for submitting CCC-502's.

There are statutory provisions that require entities earning benefits subject to limitation to:

-provide the names, addresses, and ID numbers of the entities' members to the County Committee by filing a CCC-

-inform the entities' members of the requirements for designating "permitted entities". "Permitted entities" must be designated on a CCC-501B by every member of the entity.

All CCC-501's and CCC-502's submitted by producers are subject to spot check through the end-of-year review process. The producers selected for end-of-year review will be required to furnish detailed information to the County Committee to prove their inputs used to:

*determine significant contributions to the farming operation,

*that contributions were commensurate with claimed shares of the farming operation,

*contributions were at risk,

*the "person" determination was

*permitted entities were properly designated,

*land ownership was accurately reported,

*and any other pertinent factors used in the original determination were

WTU Teaches Students To "Play It Safe Around Electricity"

An electrical safety program was presented to 4th grade students at Cross Plains Elementary School by West Texas Utilities Company representative Linda Caton. "Play It Safe Around Electricity" was the emphasis and title of WTU's Public Awareness program.

Through a video and other visuals, the students learned to avoid flying kites or climbing trees near power lines, to stay away from electrical substations and downed lines, and to always observe overhead lines when working or play-

Mrs. Caton also discussed the nature of electricity and what to do in case of accidents. After the program, students were given an opportunity to ask questions. Each student received a booklet of electrical safety tips and other materials to take home.

Flea And Tick Problems Can Show In Animals

Due to recent rains and warm weather the mosquito and tick problems are continuing to cause various diseases and illnesses throughout the Callahan County area. An infestation of ticks can cause great discomfort to a dog, contribute to generalized skin problems, create anemia leading to the death of the dog and pose a serious threat by transmitting diseases from infected to non-infected dogs. Also, a severe mosquito problem greatly increases the chance a dog will become infected with heartworms.

Tick-borne diseases have been diagnosed with increasing frequency in the last few years. With the spread of these diseases into new areas, including the infection of humans, the frequency of their diagnosis is expected to continue to increase. Suspicious dogs should be tested so that infected dogs can be treated to eliminate the reservoir of the disease and prevent its spread to other dogs.

Even though we are seeing these new tick-borne problems, the most common complication in our area is severe infestation resulting in anemia and occasionally death. If dogs become infested with ticks they should be dipped, sprayed or powdered as frequently as recommended to kill the ticks. If dogs have access only to a limited area, a tick eradication program should be followed in that area to eliminate ticks that may be harboring the disease organisms. Due to EPA regulations, many of the residue producing solutions have been taken off the market so the retreatment of the animal or premise may be necessary. All label instructions on any dip, spray or powder should be strictly followed for safety and effectiveness.

Mosquitoes are key carriers of heartworm disease. When an infected dog is bitten by a mosquito, blood is carried away which may include tiny, immature forms of heartworms called microfilariae. It takes about three months for these larvae to travel through the tissues of the body to enter the heart. Dozens of these larvae (some of which can actually become up to 14 inches long.) become adults within another three months. There have been 24 confirmed cases of heartworms diagnosed at the Callahan County Vet Clinic since January. Twenty-three cases is an overwhelming number for a rural area like Callahan County.

Thanks to research and modern preventive medicine there is a lot you

can do to avoid heartworm in the first place - or see that it is successfully treated if it hasn't progressed too far:

-A blood test is the only way to detect heartworm disease in its early stages.

-Since it's possible for an infected dog to have adult heartworms without microfilariae, an X-ray examination and other lab tests may be needed to confirm heartworm infection.

-After the disease has progressed, symptoms can include frequent coughing, sluggishness, rapid tiring and finally, labored breathing.

-If caught in time, a series of injections

of an organic arsenical drug can be used to kill heartworms. Then another drug can be used to get rid of the

-No vaccine is available for heartworm disease, but we can give you regular doses of a drug which can prevent infective larvae from developing into adult worms.

A little preventative medicine is much better than treating the problem. If the warm, wet weather continues, these parasites may be a threat for several

Use Social Security Statement As **Proof Of Benefits**

"If you're on direct deposit, you can use amount. The stuffer cannot be used as the cost-of-living letter you received proof of payment. from Social Security as proof of your benefit amount," said Glyn Hammons, Social Security manager in Abilene. People who have their Social Security checks sent to their bank received a costof-living adjustment (COLA) notice last month telling them what their new benefit rate will be effective January 1994. Hammons said this notice can be used when people need to prove the amount of their Social Security payments to the welfare office, a landlord, an energy company, or any other business or agency that provides a service or a subsidy that takes into account the amount of a person's Social Security check.

Hammons indicated that some agencies and businesses requiring proof of Social Security payments send a verification form to the beneficiary for him or her to have completed by the Social Security Administration. "They should check with the organization that sent the form," Hammons said, "to find out if the cost-ofliving notice can be used instead. If it can, it would save a call and a trip to the Social Security office".

People who have their Social Security checks mailed to their home did not receive a personalized COLA letter from Social Security. Instead, they received a "stuffer" with their January Social Security check advising them of the COLA increase but not of their specific dollar

Greeting From Senior Citizens Of Cross Plains

By Thelma Long

As this report covers the last two weeks, lets go back to Friday, the 11th. There was a Valentine party at the center. It was a real blast! Thanks to Vicki and her helpers. The center was decorated with red and white balloons, paper streamers, hearts and cupids. The table was pretty, covered with a cloth of lace and hearts. Two delicious cakes, baked by Mary Bates and Vicki. One was chocolate with white icing, sprinkled with colorful "stuff" the other a pound cake served in pretty little red plates with coffee (of course). Each person had a valentine and a cup of colored candy as a place setting. After games of Bingo and Pool (and I might add that the men at the pool table were so boisterous that we, at the Bingo tables couldn't hear ourselves think great!)

Then the big event was the crowning of the 1994 King and Queen, Frank Rone and Ila Mae Marshall. We, then played a couple of games. One was really hiliarious and we laughed a lot. We've been told and we believe that laughter is good for the soul. So really Senior Citizens can have fun.

We appreciate Vicki for the effort she puts forth to keep us happy. She is doing a good job of it. After our meal, we played Chicken Foot and Pool.

Doyle McMillan has been sick at home. He is back with us now. You were missed Mr. President.

The Pioneer quilters met at the Community Club on Tuesday. We had a good attendance. We were pleased to complete three quilts last week. They were Doris Grider's, an outside pay, Nell Fleming's beautiful Dresden PLate and Novella Barton's pretty Nine Patch. Jean Fore put in her hostess quilt and a quilt for Kathleen Hardesty, an appliqued Butterfly was placed in the frame to be quilted.

On Thursday, Lottie Sooter, Donna Pickett, May Jones, Laverne Hutton and Barbara Powell met at the club. We quilted on Kathleen Hardesty's Butterfly. Jean Fore and Velma Morrow stopped by

for a short time.

Today, Frankie Smith is at the club installing a pay quilt. I'll let you know nexyt week the name. The ciub is making a concerted effort to complete our long list of outside pay quilts.

I'm sorry to hear that Richard and Billy King are leaving the Lakewood Recre-M ation Center. They have done a fantastics? job. They will be missed and we wisheld them lots of luck.

Did you know that? Each year oni Memorial Day the American LegionT gives a Memorial Day Service at the .L Pioneer Cemetary. They place a flag on M each veteran's grave and hold a nice M service. NO ONE ATTENDS!

Diesel Price Report Released By Railroad Commissioner

The results of a Railroad Commission investigation that was ordered when diesel prices skyrocketed statewide have just been released, according to Railroad Commissioner Mary Scott Nabers. The report revealed that the price hikes were the result of a variety of factors. Flooding in the Midwest caused the shutdown of a major Texas pipeline that supplied diesel. The untimely shutdown of a Kansas refinery also added to the problem, and as diesel became scarce the market forces of supply and demand impacted the price of diesel. "The result was that lots of Texas consumers suffered and the state experienced dramatic price discrepancies," said Nabers.

Nabers called for the investigation into the extreme differences in the price of diesel fuel at the request of State Senator John Montford of Lubbock and Senator Peggy Rosson of El Paso and hundreds of Texas consumers.

Prices in West Texas during October 1993 reached levels 15 to 25 cents higher than comparable prices in other parts of the state, Nabers said. The Railroad Commission's investigation determined several contributing factors. Flooding in the Midwest cut off Houston's Explorer Pipeline for 10 days at the same time a Kansas refinery shut down -- which created a fuel shortage in the Midwest.

"West Texas refineries supplied more diesel to help alleviate the disruption, "Nabers said, "leaving less available to West Texas markets'

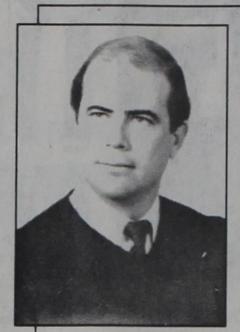

Nabers said these free market supply and demand forces resulted in West Texas diesel prices rising much higher than the price fluctuations caused by increased federal tax and low sulfur requirements put in place Oct. 1. The seasonal price increases for diesel that occur each fall due to demand for heating oil were another factor.

"Market forces have reduced prices of crude oil on international markets worldwide," Nabers said, "which have dropped diesel prices in West Texas to the same point as before the tax and lowsulfur requirements took effect".

"In short, our investigation concluded that Mother Nature in concert with market forces temporarily drove up the prices in West Texas," Nabers added.
