# SWEET 'N SOUR

Happy Thanksgiving an' stuff like that to all of you from all of us, and we hope you'll have a wonderful day chock full of all the things that make a day wonderful, like having your family at home and friends in for visits.

Since Thanksgiving is also the sort of unofficial kick-off for the Christmas shopping season, it might be well to remind you that before you reach for a gift catalogue or whisk off to neighboring cities to make your selections, why don't you see what the home town merchants have to offer? Never have we seen such a variety of lovely Christare the things you find so tempting in the magazines. There's cause you can really do as well Moran. or better here than anywhere.

Do you know who has a beautiful autumn yard all decked out with chrysanthemums and fall shrubbry? It's Anna Jackson's and its lovely.

By the way - if you go visiting for Thanksgiving or if you entertain guests won't you let us know so we can tell everyone about it? This we do know, Mr. and Mrs. Dan Overman will be El Paso bound when school doors close Wednesday and they'll spend the Thanksgiving holidays with Mrs. Overman's family.

And that wraps it up for this week - happy holidays, we repeat, to each and every one of you (including our vast reading public - both of 'em).

We Appreciate Your Patronage!

Railroads are vigorously promoting a so-called "Cabinet Committee plan" to restrict public controls over transportation rate-making—returning such power to reilroad hands.

Your rights and privileges as an American citizen are protected by the Constitution, a unique and magnificent document whose principles are as sound today as when written, over 150 years ago.

Through the years, amendments have been added to keep the Constitution up-to-date.

The same is true of the regulatory powers of the Interstate Commerce Commission. Congress has enacted more than 150 amendments to the Interstate Commerce Act since it was passed in 1887, completely overhauling it twice.

In principle, present ICC regulations governing the various transportation systems are pertinent, constructive, and modern in concept. Under these principles, we have developed the greatest competitive transportation system in the world!

### SCHOOL NEWS

November 18th, the Putnam Panthers played the Noodle High basketball clubs in the Panthers' gym. The Putnam boys were defeated 69-51 with highpoint man Jack Francisco scoring 13 points. The girls teams was also beaten by Noodle with a score of 59-37. Marjorie Bailey scored 25 of the 37 points.

Saturday night the boys and girls drove 95 miles to play Old Glory. In spite of Jack Francisco's 28 points, the boys lost the game with a score of 66-55. Due to the fact that two of the main string players, George Ramsey and Glen Shirley, were not able to play, Mr. Reynolds borrowed a couple of players from George's grade school team, James Isenhower and "Butch" Pettie. The pair came in pretty handy and made a couple of points each during the last quarter. Ervon Brown, who graduated from the local high school some four years ago and since has served in the Navy, also gave the boys a hand in the game. Marjorie Bailey was high point girl with 14 points. The girls score was 64-35 in Old Glory's favor.

The cooked food sale that was advertised in the last edition of the Panther Pulse was carried out as scheduled. The Juniors and Seniors are proud to say that they made practically \$30 and want to thank each and everyone for their support and contributions to our fund.

George Ramsey, business manager for The Panther, and his assistants have been doing a nice job of selling advertisements to be published in the annual. The ads are being listed in a new fashion this year. If you are interested in having your business advertised, contact George or some other student.
