AUTO ACCIDENT ON BURKETT BRIDGE

J. E. Hill, carpenter contractor of this city, was badly injured, and J. E. Williams, of the Prideaux Lumber Company of Coleman, received a bad cut on his ankle in an accident on the Burkett bridge Tuesday night about 7 o'clock.

These men were on their way to Cross Plains to hear Will Hogg, the evangelist, and were driving Mr. Hill's Chevrolet sedan. On the Burkett bridge they met Bud Godwin, who was moving a house on a wagon, and Mr. Hill, who was driving the car, says he was unable to pass. His windshield mashed into the house, was broken and the body of the car badly torn up. Mr. Hill's left shoulder and arm were badly mashed and Mr. Williams received a bad cut on his ankle. First aid was administered by Dr. Pierce of Burkett and men called E. H. Henning at Coleman for medical treatment—Coleman Democrat-Voice.

Elder, P. S. Young, will fill his regular appointment at the Church of Christ Sunday morning and Sunday night, Oct. 21st.

SURPRISE WELL RENEWS ACTIVE DRILLING IN DRESSY FIELD

INTEREST IN NEW HIGHWAY IS KEEN

Interest in the proposed highway from San Sabathrough Brownwood from San Saba through Brownwood to connect with the Bankhead highway at Putnam was evidenced by the twenty-three men from towns along the road who met in the Brownwood Chamber of Commerce rooms Thursday afternoon.

C. Y. Early presided until Paul V. Harrell of Cross Plains was elected Chairman of a temporary organization, and Hilton Burks, secretary. Mr. Burks, who has been interested in having this proposed highway designated as such by the State Highway Commission, led the meeting with a definite proposal of submitting plans next week to the state commission.

At the early part of the meeting the following men from out of town were present: J. H. Baker, San Saba; Paul V. Harrell, Cross Plains; Claude C. Harrell, Cross Plains; Fred Heyser, Putnam; Tom Anderson, Cross Plains; Fred Cook, Putnam; J. B. Eubank, Cross Plains; S. C. Barr, Cross Plains; C. R. Cook, Putnam; J. A. Barr, Cross Plains; L. J. Cook, Putnam; W. A. Eyelett, Putnam; W. H. Norred, Putnam; G. B. Gaskin; C. K. Peek, Putnam; W. H. Cook, Putnam; R. W. Burleson, San Saba; E. B. House, San Saba; A. G. Crabb Cross Plains; Taylor Bond, Cross Plains; G. B. Scott, Cross Plains; Tom Bryant, Cross Plains; and Martin Neeb Cross Plains.

Brownwood men present at the opening of the meeting were: Sam Cutbirth, J. J. Timmins, Hilton Burks, J. T. Stovall, Fred Hayes and C. Y. Early.

The above is the Brownwood Bulletin's report of the meeting held in that city on Tuesday of last week.

A committee from Cross Plains and this community, composed of A. G. Crabb, Geo. B. Scott, Tom Bryant, Taylor Bond, Tom Anderson, J. B. Eubank, Sam Barr, Paul V. Harrell and County Commissioner Geo. Clifton left for Austin Monday of this week. They were joined by about an equal number of prominent representatives from San Saba, Brownwood and Putnam, and the combined delegation appeared before the State Highway Commission in the interest of securing the necessary State aid in building the proposed highway.

This highway when completed will be one of the greatest advantages, from a standpoint of travel, that has ever traversed this part of the country. It will not only give Cross Plains and all this part of the county an all-weather road to the county seat, but will place Cross Plains on a highway with a trunk line railroad at Putnam in less than half the distance it now is situated.

BYRD STARTS ON LONG ADVENTURE

Commander Richard E. Byrd has started on his long trek into the unexplored antarctic regions. The intrepid commander and his party sailed from San Pedro, Calif., last week and will make their first stop at New Zealand about Nov. 5. It is a dangerous journey, and the internationally famous explorer and navigator will be from American soil for two years, and probably longer. He leads one of the largest and most scientifically equipped polar expeditions the world has ever known, the purpose of which is to study the "birthplace of winds," and to fill the blank spaces on the map of the world. The C. A. Larson, largest Norwegian ship afloat, carried four monoplane, which Byrd and his mates will operate from their base near the South Pole. At New Zealand Byrd will be joined by two other ships of his expedition, City of New York, and the trawler, Eleanor Bolling.

The pall of disappointment that hovered over the Dressy shallow oil field for a few days following the report last week that two nearby offsets to the largest producer so far discovered in that locality resulted in failures disappeared like magic the first of this week when a few feet of extra drilling was made in the Eubank well, one of the supposed dry holes. This extra drilling revealed the sand at thirty feet below the depth of the other good producers in the field, and its yield is an average of the discovery wells, coming in for about fifty barrel production. The other well, located on the Andy Foster farm, which was abandoned after reaching the depth of the pay sand in the preceding wells, will doubtless be drilled to a greater depth. Two good wells have been added to the field since and drilling is in progress on about half-dozen others as nearby off-sets, one of which is Andy Foster No. 2, and Kluttz No. 4.

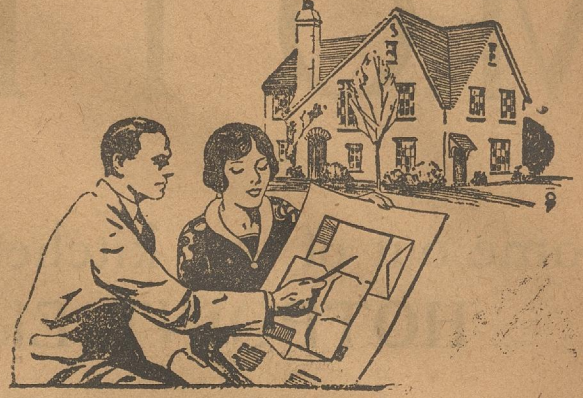

SUNRISE BREAKFAST ON CATTLE TRAIL

A unique testimonial of their welcome to Fred Cutbirth and other prominent ranchmen and farmers of Callahan county who have recently chosen Cross Plains as their future home, moved here and built beautiful residences, was given at sunrise Friday morning of last week. The occasion was a well arranged reproduction of a sunrise breakfast around a lunch-wagon so thrilling and immensely enjoyed by the cowboys of the old-time cattle trails. This manner of welcome, so appropriate and appealing to the nature of a life-time cowboy and ranchman, was sponsored and the excellent breakfast provided and served in true lunch-wagon style by Geo. Scott and Tom Bryant, and the lonesome wilds of the John Barr pasture was the scene of the gathering. The lunch-wagon breakfast was served promptly at sunrise, followed by many interesting talks, the themes of which diverted memories of many of those present back the customs and thrills of the old time cowboy life along the cattle trails and round-ups.

Those early raisers who were present and got every enjoyment out of the occasion, were: R. P. Odom, Carlos McDermott, John Bryant, Frank Spencer, William Koonce, E. A. Whiteside, T. M. Windham, J. L. Joy, J. Henry McGowen, Vernon Spencer, F. A. Lane, E. D. Priest, E. R. Hargrove, J. A. Baum, Tom Bryant, W. L. Rice, Ove Wooten, M. L. Cutbirth, C. E. Barr, R. B. McGowen, Mrs. J. A. Barr, Evelyn Barr, Mrs. Tom Bryant, Tom Bryant, Jr., Mrs. Russell McGowen, Mrs. Maggie Cook, Mrs. A. G. Crabb, Fred Cutbirth, E. E. House, Oscar McDermott, C. D. Anderson, Chas. Hemphill, H. L. Vestal, J. C. Watson, Slim McNeal, Paul Harrell, C. D. Stone, E. M. Curry, Evangelist Will Hogg, Fred Heyser, John Holder, Jack Aiken, G. E. Morgan, S. H. Westerman, Glen Adams, W. C. Adams, Geo. Baum, John Westerman, S. C. Barr, W. O. Spencer, Fonia Worthy, Walter Westerman, Claude C. Harrell, Clyde Derringer, J. K. Koonce, C. F. McNeal, D. B. Baum, W. A. McGowen, T. J. Harris, Hugh McDermott, Ove Watson, Tom Anderson, Aubra C. Dodson, E. I. Vestal, J. A. Barr, W. D. Wilburn, L. D. Montgomery, W. R. Wagner, Henry Williams.

There is considerable discussion in this campaign about the relatives merits of men seeking public office. It is right that this should be the case. But we must not overlook the fact that our government is one of law and not of men. Constituted authority goes on when men stop. A time honored phrase is, "England expects every man to do his duty." In our own country we might enlarge upon the theme by adding, "And we expects every law to accomplish its purpose."

Andy and Pat Gaines have sold their automobile agency in San Angelo, and were recent visitors in Cross Plains.

BIRTHDAY SURPRISE FOR WILL MCGOWEN

Will McGowen, manager of the Helpy-Selfy store in Cross Plains, was given a unique surprise by his family on his sixty-first birthday, last Tuesday, Oct. 16. When he returned home at noon he was greeted at the door by his wife, who handed him a beautiful bouquet of autumn flowers and the end of a cord, which lead to a basket filled with useful presents from his family and friends. A birthday cake bearing sixty-one candles, decorated in white and gold, had been prepared, Miss Edna Bonar rendered a number of birthday greeting songs. Those present besides the immediate family were Mr. and Mrs. John Baum and son, Jimmie, and Dr. McGowen. Mrs. John Baum gave toasts to the honoree.

Kathleen Neeb was in Rising Star Sunday.

H. C. Gracey and family of Rising Star were in Cross Plains Sunday.

600 QUARTS NITRO EXPLODE AT BORGER

Six hundred quarts of nitro-glycerine exploded at 11 o'clock at night two miles from Borger last week, shattering nearly every window in that town. The explosion was in a magazine owned by the Atlas Glycerine Company. B. F. DeLong, manager, had inspected the magazine the evening before the explosion, and cannot account for the cause of the explosion. The explosion tore a big hole in the ground, broke nearly all the windows in Borger, tossed dishes off shelves, stopped some timespieces and rocked the town as though it was in the grip of an earthquake.

The ladies of the Methodist church at Dressy will give a box supper Oct. 26th, for the purpose of paying off a note on some good work they have done in improvements to the church. All are cordially invited to attend.

These may be the melancholy days, but the first robin in the spring isn't any more appealing to us than the first editor in the fall who mentions Thanksgiving.

REMEMBER THAT----

No one is a stranger in the Will Hogg union revival.

It is everbody's meeting. You are welcome to all its services. Its music and preaching is inspiring.

In the Will Hogg revival you are as big as the next fellow.

Will Hogg is your friend. It is a distinction to attend every service.

Fellowship is the spirit of this revival. You should attend unanimously its last services.

Last week I heard a lecture by Dr. Ames, who is in Union Seminary, New York. He claimed that the preaching of sin causes nervous diseases and drives people away from the church. He is recognized as authority on some points, at least as a psychiatrist.

Our own Dr. Will Hogg, who is a militant fundamentalist, on the other hand tells us people are staying away from church because ministers are no longer preaching sin. It seems to be easy to empty the pews, but Dr. Hogg is proving he can fill his pews by preaching sin. Often it is a proposition with him to get enough pews to seat his hearers. Sunday evening many stood during the long services.

FLORA JACKSON.

To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been trained and equipped to do this work promptly, thoroughly and economically.

Misses Johnnie Myrl West and Louie Williams of Hamlin, were visiting friends and relative here past week end. These young ladies formerly lived in Cross Plains.

SPEND ALL YOUR DOLLARS AT HOME

Consider these things—before you mail your orders out of town. The dollar that you spend out of town is gone forever. The dollar that you spend at home—stays here and works. Whether it goes into civic improvements, via taxes, better school, churches, streets—or whether it simply goes into more merchandise for your next needs—it circulates at home. Remember your neighbor will take better care of you than a stranger. It is to his interest to do so. His future depends on his winning and holding your confidence and friendship—and he's right here to make good any mistakes. When you help the home merchant, the home industry—they in turn help build up your town—thus making greater and better opportunities for you and your children. Spending money at home is putting a mortgage on it to come back to you—spending it away from home is bidding it goodbye. And your home purchase is better, for you can see and measure its value—before you part with your money. His so with "the cat in the bag" you buy from the distant point. Don't mail your order until you have considered these things—and you won't mail it at all.

LOST—On Cottonwood road John B. Stetson hat, No. 7. Will pay liberal reward for same. Carl Slaughter.

INTERESTING NEWS FROM AN INTERESTING TOWN
(By Vera Baker)

Mr. and Mrs. T. A. Burns spent the week end in Camp San Saba.

The League and B. Y. P. U. enjoyed a social hour at the Park Sunday evening. Four new members were enrolled in the B. Y. P. U. At 7:30 the League entertained the B. Y. P. U. at the Baptist Church. An interesting discussion was given on "Introducing My Friend to Christ."

Mrs. Frank King of Cross Plains, and Mr. and Mrs. C. D. Baker and family, Mrs. Jane Baker attended the Ballinger Fair Friday.

Miss Alta Remington, spent the week end with home folks at Brownwood.

Mr. Jasper Burkett and Mr. Joe Burkett spent the weekend in Forth Worth visiting their sister, Mrs. Minna Cunningham.

Mrs. Tom Marshall gave Mrs. Charlie Trueitt a bridal shower Monday evening at 6 o'clock. Refreshments were served to some twenty guests, Mrs. Trueitt was formerly Miss Cleeta Boyce.

The Royal Neighbors gave a "Tacky party" at the Hall Friday night, Miss Pauline Shelling and Mr. Glen Edgington received prizes, Pauline Shelling was the "tackiest dressed girl" and Glen Edgington, the "tackiest dressed boy."

Various games was played, Supper was spread to about 60 people.

Mr. and Mrs. Marton Whitstill of San Angelo visited Mr. and Mrs. W. L. Young Sunday, Mrs. Whitstill was formerly Miss Winona Young.

The Comal school began to day Monday with Miss Dicy Powell and Minna Weekley teachers, Donaldson is visiting relatives here.

Marshall Jones and Miss Neeb of Cross Plains visi-

ted Mr. and Mrs. Jimmie Lowe.

The Glee Club elected the following officers Monday.

Vera Baker—President; Pauline Shilling—Secretary; Vera Pearl Oliver—Pianist; Ernestine Oliver—Chairman of social committee.

Mrs. Opal Oliver and Miss Kathalyn Neeb, visited Miss Yonette Sipes last week.

Mrs. Frank Golsen celebrated her forty-fourth birthday Tuesday by inviting her friends and relatives to a dinner given at her home. Mr. and Mrs. Will Ferguson, and family, Mr. and Mrs. W. R. Oliver, Mrs. Gertie Graham and Missis Vera Pearl and Ernestine Oliver were present.

Mr. and Mrs. W. H. Thate of Santa Anna spent Sunday with Mr. and Mrs. W. R. Roberts.

Mr. Glen Edgington, Mr. Raymond Edgington, Miss Thelema Wilson and Mr. W. C. Wilson, attended the party at Miss Clov Edgington at Cross Cut Saturday.

I want to write a few words to our show manager, Earl Zirkle. He certainly shows good clean pictures to the people of Burkett. The show Saturday night Calleen Moore in "Naughty but Nice" was a good picture, especially for a town of the size of Burkett, I am not writing this as means of advertisement; but to show our, (speaking for the young people), appreciation of our friends, Mr. and Mrs. Earl Zirkle.

Many people of Burkett are attending the Revival at Cross Plains. Many have said they never heard a more "wonderful evangelist than Will Hogg. The writer agrees with these statements.

What Friends Means—It seems that life would mean very little to me without my friends.

Without true friends there would be no real ladies or gentlemen. There is nothing in the world I appreciate

more than I do my real friends. When I say real friends, I don't mean a person that will eat you up to your face and talk about you to your back.

There are a lot of people that does not want friends, but they will need some friends when they get out into the world alone. I try to keep all the friends I have and win others.

Cross Cut and Dressy, come on and write every week along with Burkett, Let's make Cross Plains Review say they have some INTERESTING NEWS FROM INTERESTING TOWNS!

Earthworm Its Own Rebuilder of "Parts"

If any of us have been wasting tears of sympathy over the lowly earthworm we may as well employ them to better purpose, over our own hard luck, for example, for the fisherman's friend doesn't need 'em.

These unlovely dwellers of the underground, the combined bulk of which is five times that of the whole human race, clothes and all, apparently drew what was left when nature was handing out her gifts.

While we share the sunshine with the house flies, the beasts of the field and the birds of the air, these down-trodden individuals pass a lack-luster existence moving dirt from one place to another. Yet without eyes, without ears and without lungs, for they breathe through their skins, and with a string of nerve ganglia instead of a brain, they are independent of repair shops.

Whether they started that way, as science insists, or learned the stunt later to better cope with accidental encounters with the farmer's spade, the earthworms have a most admirable system of regenerating or growing brand new parts for those they may happen to lose. Cut one of them in two and ordinarily the front half will grow a new rear elevation as good as ever. And, if conditions are fairly good, as apt as not, the old rear remnant will get busy on its own account and grow itself a new front portion, thus making two complete worms out of the fragments of the original individual.—Kansas City Star.

Poet's "Silvery Moon"

Set Down as Illusion

Another illusion has been swept away by the observant scientist.

Most of us have heard so frequently of the "silvery moon" that we have taken its silveriness for granted. Now an astronomer declares our satellite is not "silver," but yellow.

It appears he once had the good fortune to observe a white star come very close to the crescent moon, when, as he described it to the British Astronomical association, "the star looked like a globule of mercury on a dull brass ball."

The poets, however, will doubtless continue to sing of the "silvery moon." One of the greatest of our poets, Tennyson, sang of the white stars coming up one by one, whereas to the astronomer the stars show a wonderful variety of shades of color. Some very brilliant ones are red, others blue or bluish, and others a beautiful orange. And how many people have ever seen a green moon? The writer is one who has.—London Tit-Bits.

Best Sort of Success

You may succeed without half trying, if you are twice as bright as your competitors; but they may be twice as bright as you, and then where will you be? You may succeed by working twice as hard as any of your competitors; and then, if you happen to be twice as bright as any of them, your success will be four times as great as theirs. You may succeed by doing your best and at the same time helping others to do their best, never regarding them as competitors; in that case they will push you up the hill in their gratitude, and your success will stand on top of their success. That will be the greatest success of the three.

When Pasteurization Fails

The value of the pasteurization process as applied to milk has been questioned from time to time and it is undoubtedly true that for one reason or another, the operation does not always seem to be entirely satisfactory in the results. Somewhat recently it has been discovered that milk left uncooled between milking and pasteurization for a period of about four hours contains a large percentage of organisms that resist the pasteurizing process, while milk cooled and held to below 50 degrees Fahrenheit until it reaches the pasteurizer contains relatively few of these heat-resisting organisms.

Sun Dogs

"Sun dogs" are mock suns, appearing in the form of a bright light near the sun, usually tinged with the prismatic colors and sometimes having a luminous train. Two or more are generally seen at the same time in connection with solar halos. They are popularly called "sun dogs" because they are attendant on or followers of the sun. They are really optical illusions and are known scientifically as "parhelia." The images are due to the prismatic reflection of the rays of light through ice crystals formed in the upper atmosphere.

Jewish Funerals Simple

No flowers are used at Jewish funerals because the Jewish law requires that a funeral be as simple and democratic as possible. Jews use platin pine boxes and plain linen shrouds. They have no music and no flowers. There must be no distinction between the rich man and poor man.

Magic Phrase

The phrase "open sesame" was the password at which the door of the robbers' cave flew open in the "Tale of the Forty Thieves" ("Arabian Nights"); hence a key to a mystery or anything that acts like magic in obtaining a favor, admission or recognition.

Where Man Can Live, but Not Raise Family

Among the various climatic limits those of individual existence, reproduction, and civilization are especially important. So far as civilized man is concerned, the climatic limit of individual existence is probably not reached on the earth's surface. No place is so cold or hot, so dry or wet, so windy or still, so monotonous or so variable, that individuals cannot survive.

In primitive times and in the Glacial period, however, half of the earth's surface may have been so cold that unprotected savages would have frozen to death had they tried to live there. Even now in regions like Greenland and Antarctica the well-equipped, vigorous, adult white man stands an extremely good chance of freezing to death if he tried to remain year after year.

In such places families cannot survive. Until our skill increases very materially it would be suicidal to attempt to raise a family on the Antarctic ice sheet where the intrepid Scott froze to death. It would be almost equally foolish to make the attempt in Death valley, where the thermometer rises above 135 degrees, and the summer is one long discomfort because one's tissues call for water no matter how much one may drink.

Men can live there, but not mothers and babies; the climatic limits of reproduction are more narrow than those of individual existence.—Ellsworth Huntington in Harper's Magazine.

Western Novel Heroes

Draw Rap From Critic

I wonder why, when a feller picks up a Western novel nowadays, there has to be so much smoke and dust, smoke from six-shooters and dust from one man chasing another. It seems like there's no rest for the good any more than there is for the wicked, and a feller wonders how come all the characters ain't killed in the first round of the first chapter, but if that was the case there wouldn't be no story much, so the characters have got to suffer on through and live anyhow, only the bad boys are relieved at the end, by sudden death or by a term in the pen. That's proper and as it should be, sure enough, but that ain't life. I don't object to the guns, as long as they ain't pointed toward me, what I object at, by making that big fuss over 'em, is that so much that's good in the Western life is covered up by 'em.—Will James in the Bookman.

Golfer's Composition

(1) Although I have practiced, my game is not good. (2) The second hole was worse than the first hole, and the third hole was the most bad. (3) I have struck my golf ball over 100 times. (4) The grass near the fourth hole is long and very beautiful. (5) I have lost there my white ball with the pretty dots. (6) While I am hunting for it my partner is angry. (7) No, I have no more golf balls. (8) Have you found my golf ball, caddy? (9) Yes, here it is under this little stone in the sand. (10) Give me my iron and then give me my niblick, too. (11) See, I have struck the ball and it is in the lake. (12) I think I shall not play golf again because I am tired. (13) I shall go to church the next Sunday.—Kansas City Star.

Nearly a Tragedy

His absent-mindedness had got him into such an unfortunate mix-up that he resolved to end it all. He carefully stuffed the keyhole, the window cracks, and then threw himself upon the bed.

Next morning, when he did not appear for breakfast, they went upstairs and smashed the door. They found him snoring. He had forgotten to turn on the gas!

If the farmers get all the relief promised them in this campaign, the great menace of gigantic agricultural monopoly will be the issue in 1932.

We don't accuse him of commercializing art, but the other night a California undertaker played "Waiting For You" on a trumpet at a lodge function.

BUFFALOES BEAT CISCO PUPS 7 TO 6

Gorman got the cold-feet and called off the game which was to have been played at Murphy field. As Coach Huggins did not want his crew to be idle Friday he asked Coach Chapman, Athletic director of Cisco High to send a tough crew of gridsters for a game Friday. The Buffaloes Coach had in mind of putting to test his remodeled offense and defense against real power.

The Buffaloes, whipped to a standstill in the first half and with a score of 6-0 against them, came back in the second half and flashed an offensive which finally netted them the winning touchdown.

BUFFS NOT TOO LATE

The Buffs in the first half seemed to be afraid that the Lobo Pups would bite them, but, after the between halves from their wonderful Coach Huggins, combined with the experience of going against the puppies, they realized that the puppies were only playful and unharmed.

The Lobo Pups out weighed the Buffaloes and it seemed as if some of the "Pappa" Loboes might have helped out their Pups, but they all looked the same to the Buffs in the second half.

CISCO TOUCHDOWN

When Cisco kicked off to Cross Plains in the first quarter, they tried an own side kick. "Boots" Harlowe, of the Buffaloes, reached the ball but fumbled it and Cisco recovered, and started a march toward the Buffaloes gold line. The Pups bucked the ball to the Buffs 20 yard line where Coach Huggins pulled some of his calves who had started the game, and the Buffs held the Pups for 3 downs, but on the fourth down, the Pups slipped a pass over the Buffs for a touchdown. They failed in try for point.

Neither scored until the last quarter when the flashing attack of the Buffaloes netted them their touchdown. Extra point was awarded when Cisco tried to trip Adams.

BUFFALOES TOUCHDOWN

The touch down came when Adams was sent in the last three minutes of play, when the ball was on the 40 yard line. On the first play, a criss cross which puzzled the visitors, he made 10 yards. A Buffalo plunged the line for a small gain. A pass from Bennett to Murry netted the Buffs 28 yards. This run of Murry's was very brilliant. A line plunge by Murry gained the necessary 2 yards.

R. CLARK AND IVY SHINE

Brilliant footwork was shown by R. Clark and Ivy, the most promising backfield men of the Buffaloes Friday.

DAVIS AND ADAMS HURT

Davis being unable to play on account of a bruised shoulder which occurred during scrimmage.

He will alright against the Bulldogs Friday.

Adams was also hurt during scrimmage with an injury to his eyes, he started the game but had to retire during the game on account of his eye sight, he will be alright Friday.

A NEW PLAYER

Audry "Cop" Eppinger, the big 175 pounder from Cisco, with only a week's training behind him, started the game at tackle for the Buffaloes. He is one of the Buffs' most promising line men. His game at tackle was very good. He will take some one's place as a regular.

Starting Line up:

R. E. Adams; R. T. S. Carmichael; R. G. McDermitt; C. A. Carmichael; L. G. Chandler; L. T. Harlow; L. E. Maize, Substitutes:

Reynolds for A. Carmichael (1), Carpenter for S. Carmichael (1), Maddux for Chandler (1), Nickoles for Adams (2), Clark for Copinger (3), Carmichael for Nickoles (3), Adams for Carmichael (4).

First Downs:

Cross Plains: 9. Cisco, 7.

Score:

Cross Plains, 0 0 0 7 -7

Cisco: 6 0 0 0 -0

CROSS PLAINS vs CLYDE

The Buffaloes will play the Clyde Bulldogs, Friday Oct. 19, at Murphy field.

This game is going to be one of the best games of the season, as the Bulldogs are strong and so are the Buffaloes.

Mr. Daniels, teacher, and Dr. McGowen were Cisco visitors Friday night.

E. D. Priest attended business in Waco the first part of the week.

To The Public:

This is certify that I have been a sufferer of rheumatism for many years.

I have taken treatments at Marlin and Mineral Wells but those treatments didn't help me near as much as the treatments I have taken from Dr. Shoultz.

Before I started taking treatments from Dr. Shoultz I suffered great pain, but since taking two weeks from him I am in much better health and haven't suffered any pain in several days, and I earnestly recomend Dr. Shoultz to all Sufferers.

WHAT IS GOING ON UNDER THE HOOD?

If your Cylinders were made of glass you would be interested in seeing what goes on within them—but there are other reliable ways of telling their condition.

If your motor has lost its original power, is "sick and all in," hasn't the get-up-and go pep, carbons easily, knocks at times, pumps oil—has nothing but a poverty producing appetite for gas and oil, it is time to Stormize the motor—delay means excessive wear of motor.

Turning aside from its customary recommendations, the Baker county grand jury, in session last week at Weatherford, warned the public against itinerant spectacle peddlers, whom the jury alleged had been charging exorbitant prices for glasses which do not fit.

These peddlers are practically all violating the law in some form or other and are not capable of properly fitting glasses, we wish to warn against them so that the public may be prepared to protect itself against their fraudulent methods," a report signed by F. C. Varner, foreman of the grand jury, said.
