Stonewall Jackson, Grand Ole Opry Regular For 40 Years, To Perform Saturday

Performing at the Cross Plains High School Auditorium Saturday, November 2, will be Stonewall Jackson, a Grand Ole Opry regular for 40 years. The performance begins at 7:00 p.m.

In July, 1990 Stonewall Jackson, besides playing the Grand Ole Opry as a regular favorite, formed his own supper club. "Stonewall Jackson's Yellow Rose" is located on Highway 70 By-Pass in McMinnville, Tennessee. It is a great show place that seats 1,000 people.

After 40 years on the road, around the world, and at the Grand Ole Opry, Stonewall still lives up to his name. His show is as solid as ever. His Christian ethics are evident and an important part of his life, both on and off the stage. Jackson states, "I'm still

married to Juanita, who I married a year after coming to Nashville."

In addition to the 1996 "FAN APPRECIATION TOUR," a Stonewall Jackson Tribute Album is in the final stages, and features Stonewall singing his hits, with over 50 of today's hottest stars, including Garth Brooks.

Don't miss this show of a lifetime, sponsored by Kiwanis Club of Cross Plains. Advance tickets for \$9.00 are available at: Cross Plains Grain and Peanut; Citizens State Bank; Greenwood Insurance; Lawrence Farm and Ranch Supply, Inc.; Pioneer Farmers Co-op; and Susan Schaefer, CPA.

Cross Plains JV Rattles Tolar 24-0

By GREG TURNER

The JV played the Tolar Rattlers last Thursday night and managed to score in all four quarters of the game. The Buffaloes' defensive team kept the rattlers from scoring all night. Tolar had a hard time handling the ball, fumbling 5 times with Cross Plains recovering 3 of them. The JV has been playing well these last few weeks winning each game and not allowing the other teams to score.

The Buff JV's first score on the night came with 8:02 left in the first quarter when Sam Nixon plunged over for the touchdown. The extra point failed. The score at the end of the quarter was 6-0 in favor of the Buffaloes. The defense of both Tolar and Cross Plains held firm as neither team could manage to score for some time. As the half time was nearing and only 11 seconds left, Quarterback Coby Richards saw Zach Edington in the endzone for the touchdown reception, but again the extra point was no good. The Buffs led at the half 12-0.

It wasn't until midway through the 3rd quarter when running back Sam

Nixon scored his second touchdown on the night from 3 yards out. Sam on the night rushed 9 times for 74 yards. The extra point failed once again giving the Buffaloes an 18 point advantage.

After playing another 2 minutes in the 3rd quarter, the Buffaloes scored again. This time the touchdown was made by Jody Pancake on a 4 yard run, and again the extra point was no good. Jody Pancake was leading rusher with 14 carries and 106 yards. Coby Richards passed for 50 percent, hitting 7 of 14 passes and 96 yards. The offense combined together passing and rushing totaled to 380 yards. A very strong outing with great blocking to make all of the above possible.

This week the JV plays the Santa Anna Mountaineers. Santa Anna beat the JV Buffs earlier in the year but this time the outcome will be different. The game will be at Buffalo Stadium following the Junior High game tonight. This should be a good game so make plans to attend and show your support for the Buffaloes.

See You There!

VARSITY BUFFALOES ENTERING THE FIELD FOR THE LOMETA GAME

Cross Plains Shuts Out Lometa 48-0

By GREG TURNER

The Cross Plains Buffaloes again showed a great team effort last Friday by shutting out the Hornets from Lometa. The Buffaloes held the Hornets scoreless on the night and giving up 6 first downs as they managed to tally up 21 of their own. What can be said about the defense only giving up 10 points in 8 games? When you figure then number of points per game average it comes to 1.25. Not many teams can win only scoring 1.25 points per game so I am convinced that is why the Buffaloes record this year is 6-0-1 and 4-0 in district play.

The Buffaloes kicked to Lometa and strong defensive play held and forced a punt. With 10:17 seconds left in the 1st quarter, deep back Joseph Turner returned the punt for 65 yards and a touchdown. Cory Switzer split the uprights for the extra point. The Buffaloes scored two more times in the 1st quarter. One was made with 4:00 left when Senior Sean Jones ran 9 yards and Cory Switzer was good on the extra point. With 52 seconds left till halftime, Jody Fortune scampered 4 yards into the endzone. Jody rushed 14 times for 134 yards and 1 touchdown against Lometa. The extra point by Switzer was good.

As the 2nd quarter began, the Buffaloes again found pay dirt when Leif Hunter ran in for the touchdown, the extra point failed. With 6:51 until halftime, Quarterback Jarad Richards threw the ball to wide open receiver Joseph Turner down the sideline as Turner ran 26 yards for the touchdown. Switzer's kick was good. The Buffaloes went into half time with a 34-0 lead. Joseph Turner had a good offensive game

handling the ball 5 times for a total of 116 yards.

In the 3rd quarter Quarterback Jarad Richards threw to Dusty Hargrove for the touchdown. Dusty being such a large target seems to manage to find an opening when the Buffaloes get inside the 20 yard line. Dusty has caught several touchdowns this year. Junior Jarad Richards completed 3 of 6 passes and 2 of the completions were for touchdowns.

The final touchdown for the Buffaloes came in the 4th quarter when Kevin Nickerson ran in from 1 yard out. Kevin the last couple of weeks has showed just how many skilled running backs we have and can fill positions as needed. Leif Hunter has also done a fine job filling in at running back.

The defense, what can you say, only 10 points. This week was led by Sean Jones with 11 tackles, 4 assists. Congratulations on honorable mention defensive play of the week. Also playing tough was Hugo Mauricio and Kevin Nickerson combining 16 tackles and 7 assists.

Things will really get tough this week when the Buffaloes travel to Santa Anna. Cross Plains will have to play well to beat this team because they are playing good football in district play. I think we might even get to be homecoming spoilers for the Mountaineers. These last 2 games are very important for the Buffaloes and as I look into the stands there are still a few seats open. I would like to encourage everyone of the community to back the teams playing by their attendance. I remember looking into the stands as a young football player and getting fired up when not many seats were vacant. You are IMPORTANT! See You There!

Cross Plains Junior High Zaps Lometa 46-20

By LARRY WHITEHEAD

Cross Plains Junior High traveled to Lometa Thursday and came away with a convincing win. Cross Plains Junior High is now 7-0 for the year.

Cross Plains received the kickoff on their own 20 yard line and on the first play Tony Beggs took a hand off from L.D. Whitehead and ran 80 yards for a touchdown to make the score 6-0 with 7:27 left in the first quarter.

Our defense was tough all night and was led by Cory Phillips, Roger Carey, Kyle McClure, Cody Reed, Nicholas Dimitri, Landon Hill, T.J. Harris, Ryan Aitchison, Scott Mackey, and Chris Kitchens.

Cross Plains' next score came when Chris Kitchens recovered a fumble on the 20 yard line and on the next play ran 20 yards for the touchdown. The extra points were good with

Whitehead passing to Ryan Aitchison for 2 points to make the score 14-0 with 5:14 left in the first quarter.

Cross Plains Junior High's next score came on a 20 yard run by Nate Hawkins to make the score 20-0 with 6:43 left in the second quarter. Less than a minute later, another touchdown was scored on a pass by L.D. Whitehead to Scott Mackey who ran in from 30 yards out for 6 points making the score 26-0.

The final score before half time came on good runs by Hawkins, Beggs, and Mackey, capped off with Mackey scoring from the 5 yard line to make the score 32-8 at the half.

In the second half, our second team got a lot of experience and did a good job. Our next score came with Tony Beggs taking a hand off and running in from the 2 yard line for a touchdown. Our extra points were good

with Beggs running in behind a good offensive line to make the score 40-20 with 7:56 left in the fourth quarter.

Our defense did another great job with Ryan Aitchison recovering a fumble and running 65 yards for the touchdown to make the final score 46-20.

Our second team was led by Aaron Norris, Seth Fortune, Kyle Wilson, Jason Beauchamp, Kevin Wilson, Drew Jenkins, James Ross and Citanya Scott.

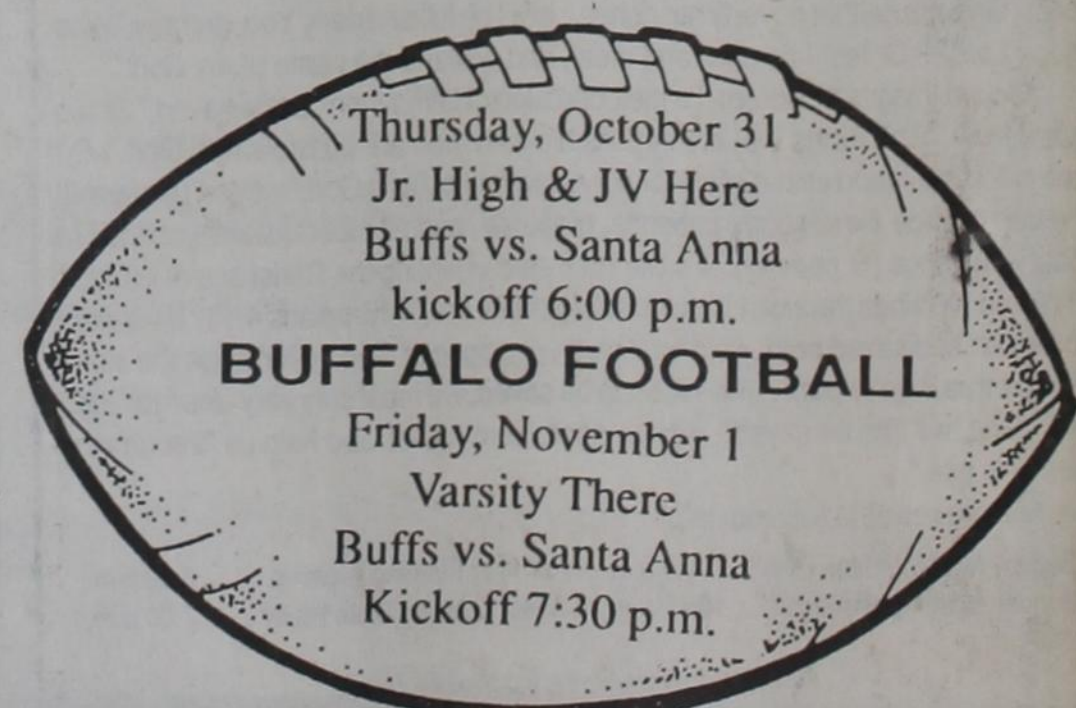

Cross Plains Junior High's next game will be tonight against undefeated Santa Anna in Cross Plains beginning at 6 p.m. This will probably be the toughest game of the year and the boys really will need your support so let's all come out and help the boys win.

See you at the game!!!

More Is Not Always Better

More is not always better, especially when it comes to supplementing children's diets with vitamins.

Over-the-counter supplements can be potentially toxic and megadoses can be harmful, warns Dr. Kathleen J. Motil at the USDA's Children's Nutrition Research Center.

"Too much iron can be fatal, and there are cases where excess vitamin A and D can damage the kidneys, heart, and brain," said Motil, an assistant professor of pediatrics at Baylor College of Medicine.

Vitamins are available in two forms: fat soluble and water soluble. Fat soluble vitamins include A, D, E, and K. Water solubles include B-1, B-2, niacin, B-6, B-12, and vitamin C.

Water soluble vitamins are easily absorbed by the intestinal tract and flushed out of the body during urination if not needed, Motil explained. Fat solubles, on the other hand, are more difficult to absorb and tend to be stored in the body.

"The fat soluble vitamins are the worry," Motil said.

"Reactions vary from person to person. Some people are more sensitive to fat soluble vitamins."

In general, Motil believes that vitamins are unnecessary if a child is

healthy and consumes a well-balanced diet.

She suggests the USDA's food guide pyramid as a reference.

The pyramid recommends 2 to 3 servings a day from the milk group, 2 to 3 servings of meat, poultry, fish or eggs, 3 to 5 servings of vegetables, 2 to 4 servings of fruit, and 6 to 11 servings from the bread/cereal group.

"Even the most finicky eater will get enough vitamins and minerals with a varied diet including meat, dairy products, grains, and fruits and vegetables."

There are exceptions, however. Motil believes supplements are appropriate for premature infants, children on restrictive diets including vegetarian diets, and for children under the care of a physician for specific medical reasons such as a chronic illness, teen pregnancy, or eating disorders.

A pediatrician may also recommend a fluoride supplement, available alone and in combination with vitamins, if there is insufficient fluoride in the drinking water.

Motil urges parents to consult their pediatrician or a registered dietitian who specializes in children's nutrition if they are concerned about their child's eating habits.

JUDGE JIM R.
WRIGHT

Judge Jim R. Wright, is currently serving as Justice, 11th Court of Appeals. Jim is seeking to continue to serve in that position and is on the ballot for the November election. Before Judge Wright began serving on the Court of Appeals, he served in the trial court for over 15 continuous years as District Judge. Judge Wright graduated from Eastland High School, earned his undergraduate degree from North Texas in Denton and graduated with high honors from Texas Tech University School of Law in 1971. The 11th Court of Appeals covers this area and is very important to the 23 counties it serves.

"I began serving as Judge of the 91st District Court in December 1979. I served in that capacity continuously until April 1995 when I was appointed to fill an unexpired term on the 11th Court of Appeals. I continue to serve as Justice on the 11th Court. I am asking for the opportunity to continue to serve you on the Appeals Court. I make no promises other than to continue to uphold the laws of this great Nation and State in a fair, equitable and efficient manner. Thank you very much for your consideration and continued support."

Vote '96

TONY GARZA
Texas Secretary of State

You get your ticket weeks in advance. Your seats are never as close as where you really wanted, but that makes little difference. After all, your ticket not only means you see the action, it guarantees you're part of it. Then you notice some prime seats where no one will sit. Who gets a ticket to a big event and then opts not to use it?

In attendance-keeping, they are known as the "no-shows." People who buy tickets and then for some reason don't attend. No-shows can prevent an event from touting itself as an official sellout. For that reason, you'll hear boos, hisses, and catcalls when the number of no-shows is announced at some sporting events.

In many respects, Texas elections vary little from this scenario. You get your voter registration card (your ticket) weeks in advance. Most of us are never as close to the political action as we'd like, but on election day that makes little difference. Our vote makes each and every one of us a vital part of the action.

And like any big event, organizers always hope for a 100 percent turnout (a "sellout," if you will) on election day. However, over the years, the political arena has been anything but full. Empty seats are easy to find.

So where are the "Boos" for the no-shows on election day?

Let's face it, booing the election day no-shows is no longer fashionable. Yes, it's certainly chic to complain about "the system," but taking an active role in changing it?

That's for the other guy to worry about. The right to vote, once a patriotic duty, has become as important to some people as a weekend chore that never seems to get done. "Yeah, yeah. I'll do it -- if I get around to it."

With 1996 being a Presidential election year, that fact alone would be enough to spark voter interest across our state. And considering Texans will also have the final word on one U.S. Senate seat, all 30 Congressional seats, all 150 seats in the Texas House and approximately half the seats in the Texas Senate, you can understand why 1996 is viewed as a significant election year - and why voter participation is as important as ever.

However, if a 20-year trend holds, more than a quarter of the registered voters in Texas will opt to sit out this Presidential election year. In hard numbers, that's more than two-and-a-half million people. Since 1976, voter turnout in the November General Election has surpassed the 70 percent mark only once. As Secretary of State, that's a trend of voter apathy that disturbs me.

Upon being appointed by Governor George W. Bush, my goal has been to continue the strong legacy of my immediate predecessors in the area of voter registration. Secretaries of State including Jack Raines, George Bayoud, John Hannah, and Ron Kirk have all worked to assure every Texan eligible to vote gets the chance to register to vote.

Passage of the National Voter Registration Act has made registration a relatively simple process. A record 10,540,678 Texans are regis-

tered to vote this election year, representing approximately 77 percent of the eligible voting population. With registration made easy, the challenge is now on assuring those registered to vote will show up at the polls.

The answer to voter apathy has proven elusive. Feelings of isolation from government, negative campaigns, the overwhelming number of elections have all contributed to the problem. All have added to the perception, "What does it matter?"

If you are concerned about how state and federal government utilize your tax dollars, your vote is crucial. If you consider jobs and the economic future of our children a priority, your vote is significant. In 1996, as in every election, your vote still matters.

Democrat or Republican, Libertarian or Independent: your political affiliation is not the issue. What matters is that you let your voice be heard on election day. The sounds that resonate from the ballot box are ones that cannot be ignored in Washington, in Austin, in county courthouses or in city halls.

Your voter registration card is your ticket. The political arena has plenty of seats. With so much riding on the outcomes in 1996, it's time we start booing the election day no-shows again.

Area Code Changes For Houston Suburbs Nov. 2

IRVING—The suburban areas around Houston now in the 713 area code will be assigned the new 281 area code beginning at 12:01 a.m. November 2. The central Houston area, defined primarily as the area inside Beltway 8 (Sam Houston Parkway), will retain the 713 area code.

The area code change is the second in Texas in as many months. The suburban areas surrounding Dallas changed from the 214 area code to 942 September 14. The central Dallas area continues to have the 214 code.

To ensure calls are completed to the party called, GTE urges callers to use the proper area code when calling numbers in the Dallas area, and in the Houston area beginning November 2. Some seven digit numbers are already assigned in both the 214 and 972 area codes in Dallas, and the 713 and 281 area codes in Houston.

GTE officials remind telephone users to change equipment that uses the new area code, such as telephone equipment that stores or analyzes telephone numbers, business telephone systems, modems, speed call lists and automatic dialers.

Most calls will be completed for a six month period in both areas when either the new or old area code is dialed. However, to complete a call in the Dallas area after March 14, 1997, the correct area code must be dialed. The correct area code must be dialed beginning May 3, 1997 in the Houston area.

It's Never Too Late To Prevent Heart Disease

It's never too late to prevent heart disease, says a geriatrics expert in The DeBakey Heart Center at Baylor College of Medicine in Houston.

"Even if you are 70 years old, exercising and eating right can decrease your heart disease risk," said Dr. Robert Luchi, a professor of medicine and director of the Huffington Center on Aging at Baylor. "But the earlier in life you start, the better."

Heart disease is the leading cause of death of Americans and is more common in older people. The risk for heart failure increases dramatically after age 75.

Coronary artery diseases, such as atherosclerosis (artery blockage), often take up to 40 years or more to progress to a heart attack. And, like high blood pressure, heart disease is not necessarily a natural part of aging, Luchi said.

"It's not normal for blood pressure to rise with age. But when it does, it's still treatable," he said. "By lowering blood pressure, you can reduce the risk of death from heart attack and stroke."

The key is making healthful lifestyle choices, such as eating low-salt, low-fat and low-cholesterol foods, not smoking, and watching your weight.

Among the best choices? Exercise. "Recent studies have shown that sedentary older adults who gradually

add physical activity to their lifestyle can significantly improve cardiovascular performance," Luchi said. "Walking, water aerobics, and dancing are good ways to improve blood circulation and make you feel good."

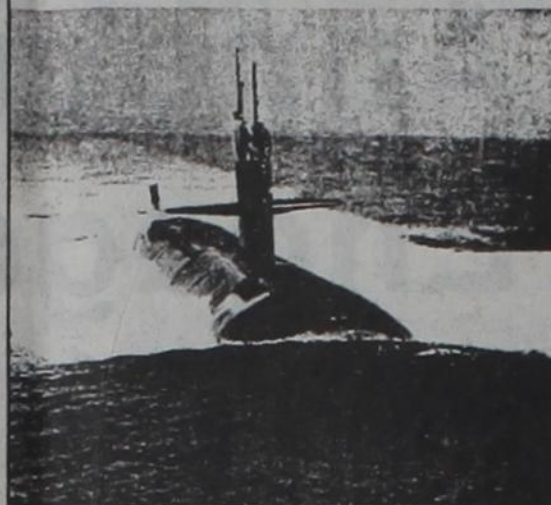

Medications like "clot-busting" streptokinase and aspirin can help prevent blood clots that cause heart attacks. Studies have shown that postmenopausal women who take estrogen supplements seem to be protected against heart attacks.

According to Luchi, adults should have an annual check-up by age 65 and have a stress test before beginning an exercise program.

Luchi says it's important to know heart attack warning signs:

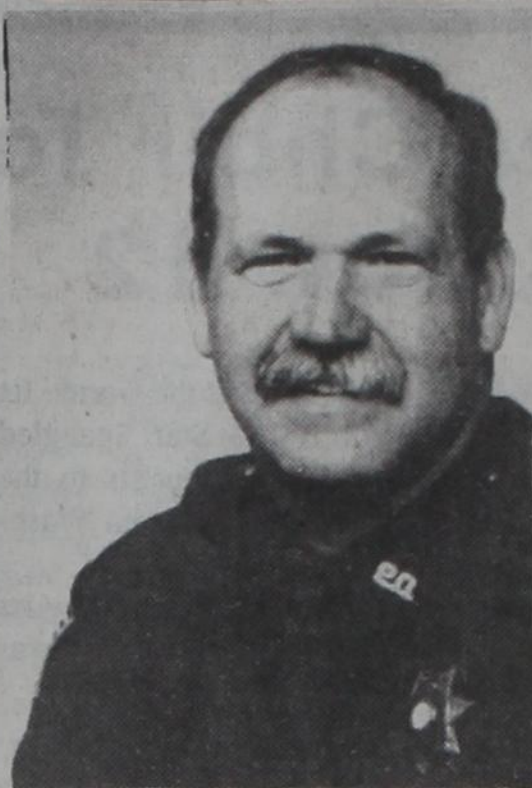

- Chest discomfort spreading to the neck, shoulders, and arms
- Sweating, nausea and shortness of breath
- Dizziness or fainting

PAUL JAWORSKI
...candidate for sheriff

Paul Jaworski Asks For Your Vote

TO THE CITIZENS OF CALLAHAN COUNTY:

My name is Paul Jaworski, candidate for Sheriff. I have been a resident of the Eula community for fourteen years. I was granted a license by the State of Texas to be a Peace Officer in 1990. The last six years have been devoted to full time law enforcement in Clyde, Callahan County and the city of Coleman. You may ask, "Why should I vote for Paul Jaworski?" In 1992, there were signs for the incumbent in my yard. After working under the incumbent for 18 months, and being involved in law enforcement for the past four years, I realized the need for professional law enforcement on the County level and decided to make that my goal.

In this Sheriff's election, there is a vast difference in the candidates qualifications. The incumbent feels that he has enough hours of training to be qualified and certified. I completed a 10-week long 444 hours of training through West Texas Council of Governments as required by the State of Texas. Since receiving my license, I have completed over 200 additional hours of formal training. I also endorse D.A.R.E. and will work to make it an effective

program. Presently, the incumbent puts more emphasis on this program while ignoring the basic need for 24 hour patrol. I will organize and schedule deputies to insure the safety of the county around the clock which is a service you are not getting now. The incumbent feels by passing the Jail Standards, the County jail has been effective. I feel that an effective jail is one that houses the inmates acting as a deterrent and provides maximum safety to all jail employees. I would also like to see the inmates involved in county work programs. My prior management skills will equip me to better handle the administrative duties of Sheriff. Currently, training for deputies and support personnel is handled on a minimum required basis. I feel that training is of paramount importance for ALL personnel. Every decision made that involves the safety or the life of a citizen should be based upon knowledge and training not happenstance. Trained personnel with a license and trained Sheriff make professional decisions. The citizens of Callahan County entrust their safety to a Sheriff and that Sheriff should be determined on his qualifications as set out by the State of Texas. On November 5, VOTE for Paul Jaworski, the only candidate that is a licensed Peace Officer.

Pol. ad. paid for by the committee to elect Paul Jaworski. Darrell Conway, treasurer, P.O. Box 492, Clyde, TX 79510.

\$72,500 in donated equipment, services and merchandise has already been pledged for the sale. Additional pledges are coming in daily as the sale approaches. John Chalmers and Myrle Greathouse, co-chairmen for the event, expect more donations this year and more buyers due to increased activity in the oil patch. Last year's sale raised more than \$70,000 for the Rehab Center.

Drill bits have been donated by New Tech Rock Bit Co.; Security DBS, a Dresser Industries Co.; Smith International; Reed Tool Co., Odessa; Hughes-Christesen, Midland; and Varel Manufacturing, Inc. The value of the bits range from \$2,550 to \$5,355.

Fairbanks-Morris engine for the sale. McCarty Equipment Co. is offering \$1,500 book credit for miscellaneous supplies, and G&L Tool Co. has donated one-day reverse unit rental.

In addition to oil field related equipment and services, the auction will feature a variety of items of general interest. Joe Crawford of Abilene Aero has given gift certificates for ground school and instrument school. Smalley Drilling Co. is offering the use of a Ruidoso condo for four days and nights. It will sleep eight and can be used any time in 1997, subject to availability.

Bidders also may want to bid on a set of four Bridgestone tires donated by GCR Truck Tire Center. Don Malm will provide a 30-minute flight for two passengers in the 1941 aircraft, "The Spirit of Abilene." Artist Jodie Boren has donated an original and a print, both framed.

The equipment will be on display at the fair grounds the morning of the sale. Buyers are invited to come early and look over the offerings and enjoy a bar-b-cue lunch served before the sale.

Anyone wishing to donate to the sale should contact the Rehab Center in Abilene at (915) 691-7200 or in San Angelo (915) 949-9535.

Heartworms Growing Problem In County

HEARTWORM: A growing problem in Callahan County area with increase mosquito numbers.

Dogs with heartworms are being diagnosed on a regular basis in our area. Thirteen cases have been diagnosed since the first of the year and more cases are sure to be found before the end of the year. Many of these cases would not have been found until clinical signs of heart disease were evident, but increased awareness of the problem has increased the testing for heartworms. Our area was once thought to be a low incidence area, but with the rapid increase in the numbers of heartworm cases we must take a more aggressive approach to the problem.

Heartworms are on the increase: Mild winters with increased rainfall resulting in more mosquitoes and year around exposure; owners traveling with their dogs either to or from areas with severe heartworm problems; owners more aware of the problem which results in more testing of infected dogs. Heartworm checks and preventatives must be initiated to decrease the incidence of the disease.

This is such a deadly disease that it is well worth reminding owners of certain facts:

--The net result of heartworm disease is the serious mechanical damage it causes to a dog's heart, lungs, liver and kidneys. But while it is stopping up kidneys and blood flow, there are few outward signs of all of the internal damage being caused until the disease is very far along.

--Mosquitoes are key carriers of heartworm disease. When an infected dog is bitten by a mosquito, blood is carried away which may include tiny, immature forms of heartworms called microfilaria.

--It takes about three months for these larvae to travel through the tissues of the body to enter the heart.

Dozens of these larvae (some of which can actually become up to 14 inches long) become adults within another three months. By that time, much of the mechanical

damage just mentioned has become fact.

Thanks to research and modern preventative medicine, there is a lot you can do to avoid heartworms in the first place or see that it is successfully treated if it hasn't progressed too far:

*A blood test is the only way to detect heartworm disease in its early stages.

*Since it's possible for an infected dog to have adult heartworms without microfilaria, an x-ray examination and other lab tests may be needed to confirm heartworm infection.

*After the disease has progressed, symptoms can include frequent coughing, sluggishness, rapid tiring and finally, labored breathing.

*If caught in time, a series of injections of an organic arsenical drug can be used to kill heartworms. Then another drug can be used to get rid of the microfilaria.

*No vaccine is available for heartworm disease, but we can give you regular doses of a drug which can prevent infective larvae from developing into adult heartworms. This can be in the form of a daily tablet or a once a month tablet.

TWO GOOD MEN, BUT WITH BIG DIFFERENCES

Rick Rhodes?

He says he is a conservative but he supports Bill Clinton and Victor Morales, and he backed Ann Richards for Governor.

Rhodes supports Clinton's gun control and has received big campaign gifts from labor unions and support from campaign organizations funded by trial lawyers.

Troy Fraser is a Proven CONSERVATIVE.

Troy Fraser is different. He thinks like us. He was born in Abilene and he grew up in a farming community, where he learned a healthy respect for hard work, personal responsibility, and the importance of keeping your word.

Troy is a businessman who led the effort to balance two state budgets with no new taxes while in the State House. He supports protection of personal property and underground water rights, supports your right to bear arms, and he wants to reduce your property taxes.

In the Texas Senate, Troy Fraser will work for:

- Welfare reform, reduce dependency on government, and discourage illegitimacy;
- Strict penalties for violent juvenile crime;
- Tougher action against violent adult criminals;
- Property tax relief with no state income tax;
- Strict term limits for elected officials;
- Reduced spending and lower taxes; and
- Local control of schools.

Along with the support of Governor George W. Bush, Senator Kay Bailey Hutchison and Agriculture Commissioner Rick Perry, Troy Fraser has been endorsed by the political action committees representing:

- the Texas Farm Bureau,
- the National Federation of Independent Business,
- Texans for Lawsuit Reform, and
- the Texas Association of Business and Chambers of Commerce.

TROY FRASER. TRADITIONAL TEXAS VALUES. PROVEN CONSERVATIVE LEADERSHIP.
