EMPHATICALLY, we say NO! Lumber is not too high. You will see it higher 3 to 6 months from now.

The man that does his lumber buying and building NOW will save 5 to 10 per cent, within the next 3 to 6 months. EMPHATICALLY, we say "YES!" Money invested in a home, or a barn, Implement Sheds, hog houses, chicken house, or a silo, makes a good safe investment-one that you will never have cause to regret.

Duke and Knowles Wells Now In-Davis Drilling In Oil-Not a DRY Hole

Any Red Blooded American who will not Invest in the "Duke Well" Field in our Proposition under the Plan herein set out Should Never Give "OIL" Another Thought.

OUR PLAN AND PROPOSITION

We buy a lease close enough to a Drilling Well, or Wells, so that when the "Drilling Well" comes in, we can get our Leass drilled on the shares, by a reliable Drilling Company, at no expense whatsoever to the owners of the Lease. We have the title to our Lease transferred to B. J. Pittman, TRUSTEE, who holds the title for us and those who buy an interest with us in the Lease, Mr. Pittman is Cashier of the First National Bank of De Leon, Texas. We sell you an UNDIVIDED fractional acre, full acre, or several acres, interest in the Lease, retaining an interest in each Lease we Syndicate. We issue to you a CERTIFICATE of INTEREST covering the undivided interest in the Lease purchased by you, COUNTERSIGNED by B. J. Pittman, TRUSTEE. This "CERTIFICATE of INTEREST" is transferrable, in whole or in part When the nearby "Drilling Well" comes in, and we secure a drilling contract on the Lease, B. J. Pittman, Trustee, transfers, by regular Lease Assignment, the undivided interest in the Lease purchased by you, which you place of record in Comanche County. YOU BECOME THE OWNER of ROYALTY, but at a small per cent. of what it would cost you from the LAND owner; and the Pipe Line Company will have to settle monthly directly with you. UNDER OUR PLAN, THERE IS NO EXPENSE TO YOU, no officers Salaries, no "Majority Control."

DID YOU GET IN WITH US ON THE "BENDER LEASE?"

We closed our Syndicate on the BENDER LEASE on Saturday, Dec. 21. On Monday, Dec. 23, two for one was being offered in De Leon for Syndicate Certificates in the BENDER LEASE, with none to be obtained at that price. Why? Simply because, if the Harvey Well near the BENDER LEASE comes in, we should get the BENDER LEASE drilled on the halves; and the owner of a \$100.00 interest in the Bender Lease stands a good chance to make a small fortune out of his investment. Then why should he take two for or ten FOR ONE! The Bender Lease contains 40 acres and was syndicated by us at \$300.00 an acre. NONE of the Interest Retained by us in the Bender Lease Is FOR SALE.

Waco, Texas, Dec. 26, 1918.

TO WHOM IT MAY CONCERN:

I invested \$1000.00 in royalty in the Duke well tract before the well came. I can now sell my interest for \$50,000.00. B. J. PITTMAN.

HOG CREEK LEASE CO. De Leon, Texas,

Gentlemen:- I invested \$100.00 with you in the Bender Lease. I have refused \$200.00 for my interest I believe you have the righ plan for the small in stor to make money in the oil business. I would like to inves ney in each lease you syndicate

> S. W. KENWARD. De Leon, Texas.

The "Peters Lease" advertised last week was oversold before any subscriptions came in from Cross Plains. If you want in on the next lease, which we are now preparing to put on the market, keep in touch with L. P Henslee, agent at Cross Plains. You will have to act at once to get in on a deal like this. A number of Cross Plains people wanted in on the Peters Lease but were turned down.

A Faint Heart Never Won a Fair Lady in Love; and a Faint Heart Will Never Win a Fortune in Oil

But with a little common sense, a little nerve, and a little money, you can become wealthy and independent through our plan of investment in the "DUKE WELL" oil field. We will not syndicate a lease where we are not willing to hold our interest and let it ride with the "point of the bit" to the bottom of the well. If you make, we make. If you lose; we lose. We are on the ground floor watching every well. We are simply plain business men of De Leon, Texas; but for more than a year, we have studied the West Texas Oil field and how the small investor could get into the producing end of the oil business, and make a fortune out of a little money. The information gathered by us convinces us that our plan is the way.
