Quality Rubber at Lower Cost! . More Efficient Manufacturing! . Lower Distribution Costs!

THESE SAVINGS PASSED ON TO YOU IN THE FORM OF EXTRA VALUES AT NO EXTRA COST!

IN PLANNING your Fourth of July trip, plan now for the SAFETY of yourself and family by replacing your smooth, worn tires with a set of new Firestone Standard Tires! Firestone makes great savings by controlling rubber and cotton supplies at their sources, by more efficient manufacturing methods, by selling in such large volume that distribution costs are lower. These savings are passed on to you in the form of extra values.

EIGHT EXTRA POUNDS OF RUBBER to every 100 pounds of cord. Extra value AT NO EXTRA COST.

PROTECTION AGAINST BLOWOUTS, because Gum-Dipping, that famous patented Firestone Process, makes these tires run up to 28 degrees cooler. By this process, every fiber of every cord in every ply is saturated and coated with pure, liquid rubber, counteracting internal friction and heat that ordinarily destroy tire life. Extra safety AT NO EXTRA COST.

PROTECTION AGAINST PUNCTURES, because under the tread are two extra layers of Gum-Dipped Cords. Extra tire strength AT NO

PROTECTION AGAINST SKIDDING, because the tread is scientifically designed to prevent this danger. Extra safeguard AT NO EXTRA COST.

Don't take chances with worn tires on your Fourth of July trip. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires - today's top tire value! Listen to the Voice of Firestone featuring Margaret Speaks, Monday evenings over Nationwide N. B. C. Red Network

F. J. Helms of Cottonwood, is trench silo.

Last fall the frost and freeze got a field of feed before it had headed ont. He dug a trench silo while waiting two weeks for it to dry out, then put it away in the bundle. Helms says that this silage certainly came in fine this spring with the stock clearing up every bite, whereas if he had cut and stacked it dry less than half would have been eaten by the stock.

Many stockmen consider frost litten feed of little value, but Helms made good use of this. And to see the way stock and saddle horses fight over this silage a person would see that the stock want it.
