## Texas & Pacific Puts America's First Stainless Steel Train Into Operation in East Texas

America's first complete stainless steel high-speed, super-comfort railway train was put into service Monday by the Texas and Pacific Ry. Co. when with a notable list of guest passengers from Dallas, Fort Worth and other points along the line, the light weight, high speed all-metal train fairly flew along the rails with all the comfort and safety of the heavier steam trains.

Leaving Dallas at 8:27 a. m., after it has been displayed to 18,100 spectators Saturday and Sunday, the "100-150" ran the thirty-one miles to Fort Worth in twenty-three minutes. After a brief halt there, the train began its regular route through Denton, Sherman, Bonham, Honey Grove, Clarksville and New Boston to Texarkana, with stops at each of these cities to take on guest passengers.

In spite of the numerous halts, the rifle bullet, as it was dubbed by one farmer at the Clarksville station, made the 276-mile run from Dallas to Texarkana by way of Fort Worth in six hours and three minutes.

Speaking of the new train, Frank Jensen, General Passenger Agent of the Texas and Pacific Ry. says it departs radically from the usual railway train, and it is hoped will answer the need for economical rail passenger transportation at maximum speed, safety and comfort.

Other great railroads are planning and discussing somewhat similar improvements in equipment, but it has remained for the Texas & Pacific to place the first complete train in actual service. As the T. & P. pioneered in providing air cooled and air conditioned dining and lounge cars for its passengers, so it is now the first to introduce air conditioned coaches for the comfort of its Southwestern travelers.

The new T. & P. train is made up of two units, the forward combination motor, mail, baggage and express car and passenger car trails with accommodations for 76 passengers in three separate compartments. The power plant consists of two 240-horse-power gasoline engines with electric drive and auxiliary generators for the air conditioning, refrigerating and heating apparatus, all of which is located in the forward car, leaving the passenger trailer free of all moving mechanism to assure utmost ridding comfort and silence.

In keeping with the best traditions in the design of railway equipment, the rear car is finished and furnished even more luxuriously than the best appointed steam trains. Individual seats, deeply upholstered and covered with blue leather harmonize with the two tones of gray used in decorating the walls and ceiling. Electric lights are of indirect design and completely concealed as are the ducts for the air conditioning system.

The new T. & P. train is said to surpass in riding comfort anything on rails. While the pneumatic tires on the wheels and the automotive type roller bearings in the axle contribute materially to riding comfort, the body and spring construction and heat and sound insulation also are major factors in providing for the complete riding ease of passengers. Safety features of the train include a quick-acting duplex braking system, complete automatic lighting and signal equipment and automatic power and electric shut-off.

### Mayor Schwartz Issue Plea For Community-Wide Roll Call Support

"The Red Cross, universally recognized as 'the greatest Mother', is solely dependent upon individual backing. Lacking this proper support the organization would be unable to carry on its noble work during disasters, among War Veterans, in the health field, first aid, life saving, and its numerous other tasks.

"Every local citizen can answer the Roll Call appeal—a community's challenge—in full confidence that every dollar contributed to this cause will be multiplied in usefulness."

### "BIG BERTHA" ATCHISON MAKES 102-YARD DASH FOR TOUCHDOWN

On a muddy field, Friday, the Baird Bears downed the Moran Bull Dogs 12-2.

The muddy field stopped all of the sweeping end runs and slowed down the aerial attack, it also made the punts fall short. A blocked Moran punt by Bounds, center for Baird, kept the ball on their own 15 yard line. After three line plays failed Bell passed to Hollings for the first counter. Another pass fell short for the extra point. Moran returned at the half and drove the Bears deep into their own territory. After several plays the ball went over to Baird and Atchison tried to kick from behind his own goal line, but the Moran forward wall blocked the punt giving them their two points.

In this same quarter Atchison slipped through the Moran line and ran 70 yards only to be stopped by the Moran safety man, Moran rallied in the fourth quarter and again carried the ball deep into Bairds territory, a pass from a Moran back was intercepted by Atchison two yards behind the goal line and he ran the full length of the field for the second counter, running a total of 102 yards. (The following paragraph is taken from the Hi School Gid Notes column of The Star-Telegram.)

Probably the longest gallop of the Texas high school season to date was the 102-yard sprint by Atchison of Baird against Moran. He intercepted a pass and carried the ball for a touchdown. Baird winning, 12-0. In the game Atchison raced 70 yards but was caught from behind.

### BAIRD BEARS MEET CLYDE BULL DOGS HERE SATURDAY

Baird meets her old time rival here Saturday, Nov. 11th on the gridiron at 1:30, the Clyde Bulldogs. For many years this game has been full of thrills from one whistle to the other.

One of the most decisive games of the season in District Eleven, Class B of the Interscholastic League will be played Saturday at Cross Plains, between the Buffaloes and the invading Albany Lions, district champions for the last three years.

Cross Plains and Putnam battled to a scoreless tie at Putnam last Friday, Nov 3rd Albany and Rising Star also played to a scoreless tie the same day. Should Albany defeat Cross Plains it would give Baird another chance at the district title, but if Cross Plains wins over Albany, it would leave Baird out of the running. Putnam tangles with Rising Star, but both of these teams are out of the running.

Baird used a five man line to stop 'Hungry' Spencer the safety Cross Plains back. After Cross Plains scored the first counter Baird shifted back to the seven man line and Spencer scampered on for many gains which resulted in all of their tallies. Thereafter, Atchison, Baird halfback, stole the show, scoring two touchdowns. One of the tallies were made when Atchison took a lateral pass from Bell and ran around left end. Strickland, best blocking fullback in the district, covered the ball over the goal line after it had been thrown wild by a substitute Cross Plains center, for the third and last touchdown.

### THE NEW DEAL BRIDGE CLUB

The 'New Deal' bridge club was organized on the evening of Nov. 1, in the home of Mr. and Mrs. W. O. Wylie, Jr.

Several games of bridge were played. Miss Donna McGowen won high score for the girls and Dr. Carroll McGowen for the boys.

After the serving of delightful refreshments, the club went into a business session. The club has decided to meet every second Tuesday night. Those present were Vermon Johnson, Katie Lou Moore, Cliff Johnson, Dorothy Mae Scott, Ira Putnam, Ruby Casey, Dr. Carroll McGowen, General Federation of Women's Helen Settle, Olaf Hollingshead, clubs," by Mrs. Haynie Gilliland and Donna McGowan and Mr. and Mrs. a Reading, selected, by Miss Clark, W. O. Wylie, Jr.

## Blanton, Ardent Pay-Cut Advocate, Is Cunning Foe

(The Washington Daily News)  
Rep. Tom Blanton, the gift of Abilene, Texas, to American statesmanship has come out against any present or future restoration of Government salaries to their pre-depression level.

Blanton is to well-known around here for there to be any need of a dissertation on why he is on this side of the question.

It is natural and fitting for Terrible Tom to take the contrary side of any attempt to give Government personnel a break and it wouldn't look right if he didn't. And it would be foolish to underestimate this man's resourcefulness and parliamentary cunning.

I saw him, single-handed, kill the District appropriation bill in the last few minutes of the congressional session that ended March 4. After weeks and months in which he had mocked this measure from enactment, he seized the precise moment for the bill and by his lone objection drove the fatal dagger into the palpitating legislation.

Of course, the extra session provided the essential appropriations, but they were at Blanton's figures. Blanton had his way. Take care that he doesn't have it now.

One way to block Blanton is to help The News build up such a convincing case on the 'human side' of the cost-of-living question that President Roosevelt and the majority of Senate and House will see fit to end the pay cut and give Uncle Sam the right to fly a Blue Eagle by repealing the pay-cut law early in the January session.

Abilene, Texas  
Nov. 4, 1933

Hon. E. Claude Babcock, National President, American Federation of Government Employees, Washington.

Dear Mr. Babcock:  
I have your letter and will gladly answer your questions. You stated in the Washington Star that 25 Congressmen have pledged their vote to restore cuts in salaries of Government employees. I being the only one to oppose your plan. I note that the News there suggests organizing against me, by playing up the small salaries before the public. Washington papers don't like me. I stop raids.

You certainly remember that in the last Congress I fought against cutting the small salaries, but sought to cut to the bone all of the larger salaries. They must be reduced. You say: 'We desire to ascertain the source of the information on which you base your assertion that Government employees draw from \$3,000 to \$10,000 per year.' You surely won't deny such facts.

Look on page 3624 of the Daily Record for February 8, 1932. The authentic official data there shows that, excluding the \$75,000 President's salary those of the Supreme Court Justices, Cabinet officers, Ministers in foreign countries, and the \$8,500 per year salaries now paid Senators and Congressmen, this Government then had: 32 employees drawing over \$15,000; 41 employees drawing \$12,000; 6 employees drawing \$11,000; 134 employees drawing \$10,000; 138 employees drawing \$9,000; 40 employees drawing \$8,500; 244 employees drawing \$7,000; 309 employees drawing \$6,500; 1943 employees drawing \$6,000; 442 employees drawing \$5,800; 1324 employees drawing \$5,600; 314 employees drawing \$5,400; 510 employees drawing \$5,200; 1602 employees drawing \$5,000; 2034 employees drawing \$4,800; 2605 employees drawing \$4,600; 1714 employees drawing \$4,400; 1535 employees drawing \$4,200; 154 employees drawing \$4,100; 2371 employees drawing \$4,000; 1489 employees drawing \$3,900; 2954 employees drawing \$3,800; 1602 employees drawing \$3,700; 3196 employees drawing \$3,600; 2105 employees drawing \$3,500; 2019 employees drawing \$3,400; 2749 employees drawing \$3,300; 4613 employees drawing \$3,200; 2011 employees drawing \$3,100; 4191 employees drawing \$3,000; 4263 employees drawing \$2,900; 9425 employees drawing \$2,800; 8177 employees drawing

\$2,700; 15,567 employees drawing \$2,600; 49,291 employees drawing \$2,500; 23,293 employees drawing \$2,400; 26268 employees drawing \$2,300; 16,384 employees drawing \$2,200; and 118,759 employees drawing \$2,100 each per annum. Isn't that a pretty good bunch?

Most of them had all 52 Sundays off, all of the many holidays off, including half day off Saturdays, 30 days vacation on full pay, 39 days sick pay on full pay, comfortable working environments, many drawing large travel allowances and retired on pay after 30 years.

Government employees constitute the favored few. They are entitled to the same consideration shown other citizens, no more, no less. They have no political campaigns, pay out nothing to hold their jobs, and are not beset continuously with demands for contributions to this and that which Congressmen must endure. Yet many draw better pay than some Governors. In one State the Governor draws only \$3,000, in three States only \$4,000 and in two states \$4,500.

It costs the Government \$13,000 to put each Cadet through either West Point or Annapolis. In the Record of April 8, 1932, I showed that able-bodied Generals and Admirals are retiring as young as 45, and commercializing their government training by drawing huge salaries from corporations, while also drawing retired pay for life. I mentioned General James G. Harbord, on retired pay and for years drawing a salary of \$50,000 per year from the Radio Corporation of America.

His prestige and chance to get Army and Navy contracts does it. I also mentioned General Herbert B. Crosby, then drawing \$6,000 retired pay, and \$9,000 salary as Commissioner; General Mason M. Patrick then drawing \$6,000 retired pay, and a salary of \$7,500 as Utility Head; General Pelham D. Glassford then drawing \$4,312.44 retired pay and \$8,000 salary as Police Major, which situation since then has been changed, and I gave an extended list of lawyers and doctors in one Bureau drawing large retired pay and also large annual salaries. I showed in the record of April 21, 1932, that one Bureau had 876 lawyers, some of whom through the workings of your Employees Classification Board had had their salaries raised from \$1,500 to \$8,000 per annum. The Classification Act of 1932, which raised many \$1,500 salaries to \$5,000, \$6,000 and \$7,000 was put over by just such pledges as you are now exacting from Congressmen in vacation.

You entered civil service employment ten years ago at a salary of \$1,100, while as Secretary of the Civil Service the Government was paying you last August \$5,600 per annum. American tax-payers are tired of standing the tremendous over-head off Government expense, notional state, county and city. They demand reductions. If you will send me a list of all your members who are dissatisfied with their government pay, and are willing to give up their positions, I will furnish from my District 500 qualified applicants for each position, who will gladly take the job at a lower salary. You had better let well enough alone. The people are waking up. They want pledges made to them and not to selfish groups. They want their new deal continued. They are backing the President one hundred per cent in reducing expenditures.

Very sincerely,  
THOMAS L. BLANTON.

## EULA NEWS

Well how is The Star force? We are all ok out this way.

We are all about through gathering our cotton crop. Eula made a very good cotton crop. The gin will get between 1100 and 1200 bales and the price was not bad. It has paid many debts and farmers came out much better than they did last year. Here's hoping the 1934 crop will bring us all out on top. We have got to live at home and hard at the same place. Most of us have plenty of meat and turnips greens to go through the winter with and as long as we can get plenty to eat we

will be all ok.

Well I see quite a bunch of the boys have an invitation to meet the court the second and third week. It is good for us to meet our old friends over the county. I guess my good friend Sam Barr, of Cross Plains and I will meet one more time.

F. L. Smith and Bob Stephenson met with the 600 Masons on Bald Eagle Mountain at Ovalo last Thursday night and it was one great time. There were so many of my old friends there. A big crowd from Baird and Clyde. We must hand the Abilene and Ovalo lodges a bouquet for the way they handled the big crowd.

Our school is moving along fine. We have a fine bunch of teachers at Eula. Everett Jones who is teaching over at Lone Oak, visited home folks Saturday and Sunday.

This is a short letter but will come again later when I get back from Shackelford county and tell you all the news.

Best wishes to every body.

PATSI E.

EDITORS NOTE:—Sorry your letter was left out last week. Hope you have returned safely from your visit to Shackelford and will send the promised news.

## Bus Companies Merge

One of the biggest bus-line mergers in the history of the bus business was put through the past week. Southwestern Greyhound Lines, Inc., a new company made up of Southland Greyhound Lines, Western Greyhound Lines, and Southwestern Transportation Company, came into being as the result of the deal, according to statements made by officials of the new company.

The three companies involved are among the most important bus systems in America. Southland Greyhound operated lines throughout Texas; Western ran from Chicago to Los Angeles and Dallas; and Southwestern operated from Dallas to St. Louis via Texarkana.

The new companies headquarters are in Fort Worth, Texas. The Greyhound Union Bus Depot in that city has been remodelled and enlarged to make room for the 150 or more new people who will move to the Texas city as employees of the company. Bus men here say the new Fort Worth depot is one of the most modern in

the country.

The new company will have 700 employees, altogether, and the payroll will amount to more than \$1,500,000.00 per year. It will run 200 buses over 6,500 miles of road in the states of Illinois, Missouri, Arkansas, Kansas, Oklahoma, Texas, Colorado, New Mexico, and part of Louisiana. The company will operate about 30 terminals on the new system, but there will be agencies in practically every town on the lines. Fifteen company-operated garages will be maintained.

The president of the new company is Paul W. Tibbetts, one of the pioneers of the bus business, who started his career over fifteen years ago in the early days of Greyhound buses. G. P. Schmal becomes Vice-President and Comptroller; Howard H. Morgan is General Traffic Manager, and J. A. Knutson, Operating Manager.

Southwestern Greyhound officials who announced the new merger said the past summer was one of the best they ever had. They said the World's Fair at Chicago had greatly stimulated travel, but also said that a good deal of the improvement was due to general improved conditions in all lines.

### Farm, Poultry and Livestock Hints

By Ross B. Jenkins, Co. Agent

The 1933 turkey market is about to open in full swing and the time to think about next year's turkey crop is at hand. It is hoped that the producers will not make the mistake that many have made in the past and sell off all the best individuals in order to get a little better price per bird or to get a few more dimes right now. If you are to raise strong vigorous birds another year we must give those birds a good start in the form of good strong parents. Those small underweight birds will lay a few eggs and will raise a small percentage of their hatch but nothing to compare with those produced from strong healthy birds, the best in the flock, if you please. Our plea, then, is to choose the best, largest, strongest hens for the next year foundation birds. Don't choose birds with a crooked breast to lay for you. It is not that they transmit the crooked breast to their offspring but that it has been definitely proved that they transmit the weakness to their offspring that will often cause crooked breasts. In other issues we have discussed crooked breasts as being caused from lack of mineral but all the birds in a lot did not show up with crooked breast notwithstanding, all got the same food so it is believed that the weakness for crooked breast may be inherited. It is not wise turkey management to choose those that may harm your future flock for a very few extra dimes now. Those early layers and continue to lay longer than the smaller ones and will lay larger eggs and will have a better livability and hatchability record. It is not the number of birds that we are able to hatch that counts, its the number we are able to market at the end of the year that brings home the bacon.

While you are selecting the hens for another year it will also be wise to look over the neighbors flock and find that Tom that you would like to have and propose a swap if they are not already related in blood. Get the best stock and raise better turkeys cheaper next year.

The Red Cross has given relief to those in need because of unemployment, disaster and related causes, in every State, in practically every county, of the United States the past year.

With 85,000,000 bushels of government wheat it produced and distributed 10,500,000 barrels of flour to nearly 6,000,000 families, more than 25,000,000 men, women and children.

From 844,000 bales of government cotton it produced 104,000,000 garments to help clothe more than 5,000,000 families.

2,627 Chapters expended \$2,420,000 in relief in various forms to the unemployed.

92 disasters in the U. S. and its possessions required Red Cross relief. The National organization appropriated \$382,200 for relief work in these disasters in addition to contributions raised locally. In 12 weeks disaster service was given in 147 counties in 24 States to more than 30,000 families.

275,000 war veterans and their families were aided by Red Cross Chapters.

700 Red Cross public health nurses made more than a million home visits.

65,000 First Aid certificates were issued. 75,000 individuals enrolled in Life Saving Classes. 35,000 students of Home Hygiene were awarded certificates. 6,700,000 school children enrolled in the Junior Red Cross, served in their communities.

The pictures on this page illustrate but a few incidents in the year's nation-wide work of the national Red Cross and its 3,670 Chapters, 10,000 Branches. The Red Cross must "carry on."

It must have YOUR generous support through membership. You are urged to JOIN in the annual Roll Call, November 11 to 30. Help your Red Cross to carry on.
