

COOKERS HELP IN 50-50 PLAN

WE PLEDGE TO CARRY OUT FOOD ADMINISTRATION PROGRAM.

IT CARDS IN STORES.

Plain New Wheat Ruling to thousands of Customers—Inures Greater Food Saving.

Millers of the nation have accepted enthusiastically the 50-50 basis for the issue of wheat flour and are doing their utmost to explain the new ruling to the housewife. This ruling by U. S. Food Administration requires the purchaser of wheat flour to buy a pound of cereal substitute, one or assorted, for every pound of wheat flour. It was necessary to rule the use of wheat flour in order that the allies and our fighting forces might be assured of an adequate supply of wheat to meet their needs. This supply must come from our savings because we have already sent our normal surplus.

Best saving pledge cards were forced by the Food Administration to retail food merchants, and these being signed and posted in stores throughout the country. This card is "We pledge ourselves loyally to carry out the Food Administration program. In accordance with this order we will not sell any wheat flour except the purchaser buys an equal part of one or more of the following, either one of which in the home saves wheat:

Cornmeal, corn flour, edible corn ch. hominy, corn grits, barley flour, rye flour, sweet potato flour, soy flour, feterita flour and meal, rice flour, oatmeal, rolled oats and wheat flour.

Some confusion has resulted on the part of the consumer in construing the "50-50" ruling to mean that an equal amount in value of substitutes is to be purchased with wheat flour. This is a mistaken idea. The ruling is that the consumer in purchasing a pound of wheat flour must purchase an equal weight of other cereals.

With no exception to this ruling is containing graham flour and whole wheat flour, which may be sold at the ratio of three pounds to five pounds of wheat flour. This provision is made to use approximately 25 per cent of the wheat berry is used in the manufacture of these flours than standard wheat flour.

Another exception is that concentrated flours containing less than 10 per cent of wheat flour, which may be sold without substitutes. Retailers, however, are forbidden to sell mixed flours containing more than 50 per cent of wheat flour by any person.

The amount of wheat flour substitute is sufficient to make the total amount of substitutes, including wheat flour, equal to the amount in wheat flour in the mixture. For instance, if any mixed flour purchased containing 60 per cent wheat flour and 40 per cent substitute it is necessary that an additional 10 per cent of substitute be purchased. This brings it to the basis of one pound of substitutes for each pound of wheat flour.

Special exemption may be granted in application in the case of special-repaired infants and invalids' food containing flour where the necessity is proven.

HIGH SCHOOL CLOSES WITH AN INTERESTING PROGRAM

Baccalaureate Sermon at Presbyterian Church Sunday May 5, 11 a. m.

The 1917-18 term of Cross Plains High school will close Friday of this week. The patrons have enjoyed a term of about seven and a half months, and we learn that through the efficient management of Supt. Joseph T. Fielder, and his efficient corps of lady assistants, this has been one of the best and most successful terms ever held here. Much credit is due the teachers and the board as well, for this splendid work, but we, being in favor of the best there is to be had in school work, think the present board and patrons should begin now, to do everything they can to make the next term longer and even better than the one just closing. Yes, they should not stop until Cross Plains has a school of FIRST CLASS. This can be done. No man who believes in the future of his children can object to any move that has for its purpose the betterment of the schools of his community.

The commencement exercise of the present term begins tonight and all our citizens should attend these exercises, as they will be interesting and your attendance will encourage the pupils and teachers in their work. Supt. Fielder and his wife and the lady teacher have made many warm and lasting friends here during their stay, who wish for them health and happiness during the coming vacation months.

THE LIBERTY BOND CAMPAIGN

The campaign to sell Liberty Bonds in Callahan County is meeting with fairly good success. Very likely by the time this comes to the public the full quota of a little more than one hundred and forty-one thousand dollars shall have been subscribed. Cross Plains' quota of \$32,500 lacking only about seven thousand dollars being raised by the first of the week. The Government is asking that everybody do all he can, and that the three billion be exceeded. It would not be a bad thing for Callahan to go considerably over the top, and we believe she will. Next week the Review will publish the entire list of subscribers thru the local banks to this third Liberty bond campaign. Be sure your name is on that list, which is the Government's Honor Roll. Saturday is the last day you will have to get your name on this Honor Roll. If you have the money to make the initial payment, you are not excusable not to subscribe. In that event, you will be a slacker.

OFF ON FISHING TRIP

Messrs John Horr, Billie Bagwell and Jeff Clark, all clever salesmen of the Higginbotham Bros. and Co. Store of this city, left Saturday for a fishing and outing trip to Madina Lake, near San Antonio. They will be gone some ten days, and we learn, confidently told, a few of their close friends to have everything ready for a "Big Fry" upon their return.

J. M. Hembree and family motored over to Abilene for the day last Sunday.

SCHOOL CHILDREN BUY BONDS

Prof. J. F. Boren, Supt. of Baird Public Schools gives us the following amount of bonds and stamps purchased by the school children of Baird: Liberty Bonds, \$5,550.00 Thrift Stamps \$939.25. In addition to this the senior class purchased a bond of the second Liberty Loan and presented it to the School Library. The figures certainly surprise us because we did not expect them to raise so much. Think of it the Baird school children have bought \$4,489.25 worth of bonds. What school out this way can beat it?—Baird Star.

And Home Came Ted

A very fine Melodrama, to be played by the high school pupils. Walter Ben Hare, author, was also author of "The College Town," the school play last year. Saturday night, May 4. Admission 25c and 35c.

WATER QUESTION FOR THIS CITY MAY BE SOLVED NOW

Three Big Wells of Fine Water Completed. More to Go Down if Necessary.

For some time there has not been sufficient water for domestic and commercial purposes in Cross Plains, but at a meeting of the citizens and business men of the city some few weeks ago, arrangements were made for the putting down of from three to five wells, and pump the water from these into the big stand pipe on the hill. And we are glad to learn that three wells are now being completed and the water is going into the stand pipe and it is thought by those in a position to know, that there will be plenty of fine water from these wells for all purposes.

This is indeed good news and will be a great thing in the way of fire protection. It will also make Cross Plains more inviting to the prospect who comes this way, to invest his money and become a citizen of the town. Now watch Cross Plains grow.

BUYS FARM

W. T. Beiler, who has recently come here from Tennessee, has bought W. D. Drury's farm eight miles west of town, at a consideration of twenty-five dollars an acre. There are 384 1/2 acres of land in the place. Mr. Beiler will move to the place as soon as Mr. Drury can get out. He means to move to New Mexico, where he expects to get in better health.

PROVEMENT

In the first place, every town needs a feed crop, and unless it is raised on the farm it must be bought. Then why not take advantage of the opportunity to plant your own feed crop along the road side, say plant ten, fifteen or as high as thirty rows of feed stuff of some kind along the roads and sides of your fields bordering on the public roads, you need the feed any way, hence the crop is not wasted and the stalks and other cover crops left on the ground will protect the land and stop the erosion and from piling up in the road, and ruining several hundred dollars worth of work that has been done on the roads. Further

You, as a Farmer

Have been selected by Uncle Sam as one called upon to take a large share of the Liberty Loan.

Where crops and prices are good we cannot let our country call in vain.

EGG CIRCLE AGAIN

The egg circle association met recently and organized for the year. The 1917 officers were elected again; namely, Alvin Smith, Secy., Robert Cunningham, Pres., J. A. Atwood, Vice Pres., and R. E. Wilson, agent, who will handle the eggs. Already about forty members have registered against only thirty last year. All who want to join will find stamps at the Wilson Produce Co's store.

Makes Trip Through Okla.

J. L. Beam returned last week from a prospecting trip through north Texas and Southern Oklahoma. He says that he found conditions much better in most of the country through which he traveled, as a great deal more rain had fallen. He also stated that he saw lots of fine country, but still felt well pleased with old Callahan.

Woman and Her Home

To some women home is simply an expression of an ambition to be "different." Their homes are simply advertisements of position and wealth. Such women have houses built of marble, stone and brick. The magnificent interiors are cold, formal, stiff. There is an atmosphere of splendor—splendor without a soul.

To most women home is associated with all that is nearest and dearest. Such women desire a home that will fulfill the true meaning of that word. Beauty, harmony, comfort, convenience, all must be there. These homes invite and welcome you. The hours spent in them are full of pleasure. It is quite natural that such homes should be built of wood—many of them of Southern Pine—for wood alone can impart that quality which makes a house a home.

To the real home planners and makers—women—we extend an invitation to look over our splendid plan books and exterior and interior views of real homes.

The Busy Bee Cafe

W. M. GIBBARD, Proprietor

Our reason against imploring the Deity to break the drouth is that it would be so hard to convince Him that were not actuated by selfish motives.

Oplin went over the top last week in the matter of buying Liberty Bonds. That country is blessed in having a patriotic Englishman, Mr. Creswell, who, is said, has bought some twenty-five thousand dollars' worth of bonds in all.

No man will dispute the fact that a good newspaper is one of a town's very best assets. To put out a good newspaper it cost something. Therefore such newspaper must have the liberal and undivided patronage of all the business men and people of the town and surrounding country.

Don't let the dry weather bluff you. It is a fine thing to train your nerve on. The westerners don't get blue of over a little three year dry spell. The further the pendulum swings toward the drouth the further she will go when she starts the other way. Look out for good times soon.

Send the Review news items, and do it the first of the week. It is hard to give us too much news at the right time, and very easy to do it after Tuesday. The Review is forced to do its work by hand, as it has no linotype machine. If the folks will get behind the proposition right a machine will be bought soon. It takes lots of money to buy one or pay for it.

The women of the county should be preparing themselves for the glorious privilege of voting. The Dallas News began a series of articles on Monday that are meant to acquaint women with the principles of government, and instruct them in the rudiments of citizenship. We want to encourage every woman to help herself to the end that she may make a useful and intelligent voter, whose franchise may be to the general good of the country.

The Review is now fortunate in having Mr. Durham, a good all-round newspaper man, who with the present help will do their best to give Cross Plains a good paper. The dry weather is a little bit disheartening, and it takes a good deal of business to keep two families going out of a small business. If you want a paper there is but one way in the world to get it, and that is to patronize it in its every department. If every business firm in town will give all its business to the Review, with a reasonable liberal advertising patronage, that claim to be interested in better Cross Plains, show your faith by your works. Good words of commendation are nice, but it "takes money to make the mare go."

The business men of Cross Plains are up-to-date and alive. They carry large and complete stocks of goods in their respective lines. They are enjoying a large trade for many miles around. This is as it should be. Where the merchants of a town carry large and complete stocks they should have the patronage of all the people. There should be no sending out of town for any article that can be purchased here. Traveling men of every line say Cross Plains is one of the best business points of any town the size in this part of the state. There are many things however that the business men and citizens of Cross Plains can do toward making this city a better place in which to live, and at the same time increase their business opportunities. It is taking the co-operation of the allied armiesto whip autocratic Germany. It will take the co-operation of all people of Cross Plains to build a city. Are they co-operating?

A North Texas reader writes in to declare that anybody in this country ought to be ashamed to own a pleasure vehicle and not own a Liberty Bond, therefore he suggested that every patriot in Texas who owns an automobile put a badge on it in testimony that the owner has recognized his obligation to his country in at least some degree. State Press seconds the motion. Any man or family which claims to be unable to buy a Liberty Bond, or several such bonds, and yet finds the money to pay for a pleasure car and feed it with gasoline

is slacking. A real patriot would rather walk and tote a rail than ride in an automobile which represents a thousand dollars spent for pleasure and not a cent for duty. Indeed it would be difficult for an American to justify himself in spending more for a luxury like a pleasure car than for his country's defense. The money put into Liberty Bonds is only a loan. That put into gasoline is literally burned up for all time to come.—State Press in Dallas News.

We want your eggs.—B. L. Boydston.

Mrs. Lucile Popcoe of Silver Valley is visiting her mother, Mrs. L. M. Wyatt.

Mrs. Aaron Gage of Sabanno is reported to have been sick for the past two weeks.

L. M. Bond is still here. If that watch he repaired some time ago is not giving satisfaction, bring it in and have it repaired tree. ad

Mr. and Mrs. D. N. Patterson have a letter from their son, Floyd, who is in France, which was written on March 31, taking six weeks or more to get here. He seems to be getting on all right.

W. C. Adams, accompanied by Mr. and Mrs. Bud Harpole, went to Baird on Sunday to meet Miss Bulah Harpole who has been for some time visiting Mr. and Mrs. S. C. Lamar at Big Springs.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

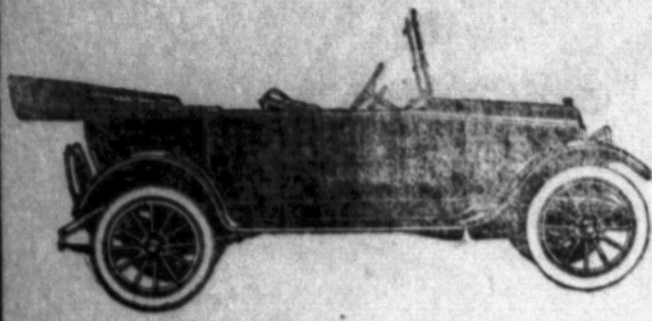

THE FORD'S BLACK-DRAUGHT

recommended very highly, so began to use it. It cured me. I keep it in the house all the time. It is the best liver medicine made. I do not have sick headache or stomach trouble any more." Black-Draught acts on the liver and helps it to do its important work by throwing out waste materials and poisons from the system. This medicine should be in every household for use in time of need. Get a package today. If you are sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package. All druggists.

C. C. NEEB, Agent

You know, of course, that the Maxwell Motor Car is the long distance champion of the world.

You have read that a "stock" Maxwell 5-passenger car ran for 44 days and nights without stopping the motor.

And that, in the 44 days non-stop test, the Maxwell covered 22,022 miles, at an average speed of 25 miles per hour.

But have you, up to now, realized the full significance of that performance?

Do you know that no other motor car in the world has ever equalled or even approached that performance?

In a word, did you take this test seriously when you heard of it?

Or did you set it down as a "selling stunt" to give the publicity man something to talk about?

It's worth your while to read and to study the conditions under which that test was made.

You know that the American Automobile Association (familiarly known as the "A.A.A.") is the official arbiter of every automobile test and contest.

But perhaps you didn't know that when a maker places his product under A. A. A. supervision he must do absolutely as told and abide by the decisions of the Board.

That's why there are so few A. A. A. Official Records!

This 22,000-mile Maxwell non-stop test was official from start to finish.

Therein lies its value to you.

It proves absolutely the quality of the car—of the very Maxwell you buy.

For verily this was a "stock" Maxwell. Listen:—

First: the inspectors disassembled the motor to see that no special pistons, valves, bearing-metal or other parts had been used.

Every other unit was as critically inspected. Then the car was re-assembled under their own supervision.

As we had much at stake and the test was made in winter (November 23 to January 5) we asked permission to take certain little precautions against accidental stoppage.

Sounds reasonable, doesn't it?

But they refused permission to do any such thing.

For example:—They would not permit a rubber cover over the magneto—it wasn't "stock."

They refused to let us tape the ignition wire terminals—they are not taped on the Maxwells we sell—so of course it wasn't "stock."

Neither would they let us use a spiral coil in place of the usual straight one from tank to carburetor to guard against a breakage from the constant, unremitting vibration—it isn't "stock."

Nor to use a special high priced foreign make of spark plug—the run was made on the same spark plugs with which all Maxwells are equipped.

So rigid were the rules, we were unable to carry a spare tire on the rear—it wasn't "stock." A telegram to headquarters in New York finally brought a special permit to carry a spare tire.

"It isn't stock!" "It isn't stock!"

That was the laconic reply of those A. A. A. inspectors to every last suggestion that called for anything but the precise condition of the standard, stock model Maxwell that any customer can buy from any one of 3000 dealers anywhere.

We are glad now—mighty glad—that the rules were so strict and so rigidly enforced.

Any other car that ever attempts to equal that record must do it under official supervision—and comply with the same terms.

And it will have to go some.

For Maxwell set the standard when it performed this wonderful feat.

Maxwell complied with those rules—and made good.

Every drop of gasoline and oil and water was measured out and poured in by the inspectors themselves. They would not even let our man pour it in!

Every four hours the car had to report at the official station for checking.

And it had to be there on the minute.

And every minute there was an inspector beside the driver on the front seat—two more men in the rear. One got out only to let another in—day and night for 44 days and nights!

There was one technical stop.

It is interesting to know the circumstances.

Dead of night—a driving storm—a cloudburst—suddenly another car appeared in the road ahead.

In his effort to avoid a collision the Maxwell driver stalled his motor.

At least the observers thought it stopped and so reported.

The car did not stop, however, so its momentum again started the motor (if it had indeed stalled) when the clutch was let in.

The contest board exonerated our driver on grounds that his action was necessary to save life.

That shows you how rigid were the rules—how conscientiously applied by the observers.

You who have owned and driven motor cars—you who know how small a thing may clog a carburetor or a feed pipe; "short" a spark or stall a motor—will realize what a wonderfully well made car this must be to go through that test under those conditions—44 days—22,022 miles without stopping.

The exact amount of gasoline, of oil, of water used; the tire mileage, tire troubles, tire changes; the distance and the routes are matters of official record, attested under oath and guaranteed by the A. A. A.

(By the way, the average was nearly 10,000 miles per tire.)

Any Maxwell owner—or anyone interested may see those records.

And—here's the most wonderful part—though no attempt was or could be made for economy; the Maxwell averaged 22 miles per gallon of gasoline.

Some other car may, some time, equal some one of these performances. But to equal them all in the same test—that car must be a Maxwell.

The I. O. O. F. lodge voted to buy \$150.00 in bonds but last week's Review made it read \$50.00. The mistake was made by the omission of the digit "1".

Mammoth Bronze Turkey Eggs from good healthy stock. \$3.50 per setting of 11 eggs. Mrs. Bob Colvin, Burkett, Texas.

A movement is on foot at Coleman for an oil refinery.

Improvements are under way on the court house at Hempstead.

Gold and silver deposits have been found by prospectors near Munday, Texas.

The contract for building the dry dock on Pelican Island near Galveston was awarded to a Missouri firm.

The cause of the leaks in the great dam at Austin has been determined and repairs are to be made at once.

The forty-fifth annual tournament of the Texas State Sportsmen's Association will be held in Houston June 3 to 6.

The annual convention of the Daughters of the Republic of Texas will be held in San Antonio April 19 to 21, inclusive.

The county judge of Gonzales county has received \$2,895.73 from the state highway department for road maintenance, being the county's refund on auto license fees, being the second allotment received by the county.

The State board of education has granted State aid to approximately 1,600 county school districts, the amount allotted ranging from \$200 to \$500. The money apportioned is provided for under the \$2,000,000 rural school law.

A drought of several weeks which was becoming serious has been broken by heavy rains over almost all North and Northwest Texas. The rain extended northward into Oklahoma and almost the entire state of Oklahoma received good precipitation.

Cadet San Arnhem of the Royal Flying Corps, who was killed by a fall of 400 feet near Hicks Field, Fort Worth, Texas, on March 21, left an estate valued at \$500,000. He was president and a stockholder of a clothing company in New York City.

Plans are being made by State Treasurer J. M. Edwards to buy not less than \$2,000,000 additional United States war certificates and securities. The state, acting under an act passed at the last special session of the legislature, purchased \$5,000,000 of short term securities which will mature on May 28, and the interest will yield the state \$56,000.

The attorney general of Texas has approved the following bond issues for registration: Panola County common school district No. 11, \$3,000, ten-twenty-fives; \$30,000 of Bellville independent school district school house, five-forties, 5s, and two issues of \$1,800 each of Wilbarger county bridge repair bonds, being ten-twenty-fives, 5 1/2s.

Certificates of authority to do business have been issued by Commissioner of Insurance and Banking Charles O. Austin to the following new banks: First State bank of Post, Garza county; capital stock, \$25,000. First State bank of Plantersville, Grimes county; capital stock, \$10,000. Both banks adopted the guaranty fund plan for the protection of depositors.

Rhodes grass for the lower Texas gulf coast country has the endorsement of experienced farmers and live stock raisers. It has proved itself one of the most prolific hay crops ever grown in the South. Large profits have been made in counties south of a line composed of Brazoria, Matagorda, Wharton, Jackson, Victoria and Goliad, and due south of Bee county to the Rio Grande Valley.

The \$90,000 bonds issued by the city of Bryan for the erection of a new high school building some months ago have been sold. The bonds brought par and accrued interest.

Cattlemen and ranchers of the Big Bend country of Texas at a recent meeting voted unanimously to create a cowboy constabulary to patrol the Mexican border, to act as scouts for United States cavalry patrols and cooperate with the army in preventing further raids and depredations on American ranches in the Big Bend, which has been raided frequently by organized bands of armed Mexicans.

As a part of the movement of the federal department of agriculture to restrict the allied countries with pure bred animals for food production after the close of the war, Professor I. B. Burk, associate professor of animal husbandry in A. and M. College of Texas, and swine expert of the experiment station, has been called to Washington, effective June 1, to work on plans for the distribution of the live stock.

The case of the State of Texas against the East Texas railroad and other Texas lines growing out of the Shreveport rate case will be heard by the supreme court on April 15 on an appeal by the state from the United States court from the western district of Texas. The court has postponed the motion to dismiss the appeal, pending argument of the case. The state filed suit in the state court, the result of which was to compel observance of the Texas commission tariffs on intrastate transportation.

FACE the FACTS

LET us face the facts. The war situation is critical. Unless the Allies fight as they never yet have fought, defeat threatens. Hungry men cannot fight at their best; nor hungry nations. France, England, and Italy are going hungry unless we feed them.

Wheat Savings—They must have wheat. It is the best food to fight on. It is the easiest to ship. We alone can spare it to them. By saving just a little—less than a quarter of what we ate last year—we can support those who are fighting our battles. And we can do it without stinting ourselves. We have only to substitute another food just as good.

The Corn of Plenty—Corn is that food. There's a surplus of it. Providence has been generous in the hour of our need. It has given us corn in such bounty as was never known before. Tons of corn. Trainloads of corn. Five hundred million bushels over and above our regular needs. All we have to do is to learn to appreciate it. Was ever patriotic duty made so easy? And so clear?

America's Own Food—Corn! It is the true American food. The Indians, hardest of races, lived on it. Our forefathers adopted the diet and conquered a continent. For a great section of our country it has long been the staff of life. How well the South fought on it, history tells. Now it can help America win a world war.

Learn Something—Corn! It isn't one food. It's a dozen. It's a cereal. It's a vegetable. It's a bread. It's a dessert. It's nutritious; more food value in it, dollar for dollar, than meat or eggs or most other vegetables. It's good to eat; how good you don't know until you've had corn-bread properly cooked. Best of all, it's plentiful and it's patriotic.

Corn's Infinite Variety—How much do you know about corn? About how good it is? About the many delicious ways of cooking it? And what you miss by not knowing more about it? Here are a few of its uses:

There are at least fifty ways to use corn meal to make good dishes for dinner, supper, lunch or breakfast. Here are some suggestions:

HOT BREADS

Boston brown bread.
Hoecake.
Muffins.
Biscuits.
Griddle cakes.
Waffles.

DESSERTS

Corn-meal molasses cake.
Apple corn bread.
Dumplings.
Gingerbread.
Fruit-gems.

HEARTY DISHES

Corn-meal croquettes. Corn-meal fish balls.
Meat and corn-meal dumplings.
Italian polenta. Tamales.
The recipes are in Farmers' Bulletin 565, "Corn Meal as a Food and Ways of Using It," free from the Department of Agriculture.

COTTONWOOD NEWS

Pro. Ben Randals of Hico is here, looking after oil interests on his farm.
Prof. Ben Randals W. R. Robbins and family and Carl Murdock and family visited H. S. Varner's Sunday.
Jim Cross and family and Mrs. Bill Hilliard visited Cottonwood Sunday.
Mrs. D. P. Carter is visiting W. R. Robbins and family.
The Cottonwood school took their Red Cross Play to Putnam and were very liberally patronized. Nine cars went from Cottonwood.
One of A. V. Gareys' children is very sick of catarrh fever.
Bro Kidd filled his regular appointment at Cottonwood Saturday night, Sunday and Sunday night. He organized a Senior Epworth League Sunday evening.
Baptist and Methodist Sunday School are making efforts to buy a Liberty Bond each.
Mr. John Nordyke has sold his team and implements to Howard Nathan.
War and oil wells are the topics of conversation everywhere now.
Miss Last wrote your paper, Guy

ALLIED LINE IN FRANCE AND FLANDERS HOLDS

GERMANS HAVE NOWHERE BEEN ABLE TO MAKE GAINS IN LATEST THRUSTS.

BRITISH REGAIN GROUND

Voormezele Changes Hands, But Tautons Were Unable to Hold It. Repulsed at Other Points.

London.—The entire allied line in France and Flanders still stands firmly. Nowhere have the Germans been able to make a further dent in it. Hard fighting has been in progress on the Ypres sector around Voormezele and the south of Loere. Both places have several times changed hands, but at last reports Voormezele had been recaptured by the British, but the Germans had obtained another foothold in Loere.

Voormezele was taken by the Germans Saturday, but the British in a night attack won it back and since have held it, inflicting heavy casualties on the Germans in renewed efforts to take the place.
The Germans have tried at several points along the front held by the French to pierce the line, but everywhere have been repulsed, notably in the St. Mihiel and Luneville sectors, where recently American troops were stationed. Whether the Americans again came in contact with the enemy was not vouchsafed by the French official communication.

Aside from these attacks and a few unimportant operations between the British and Germans, artillery duels have predominated. The big guns of the French and the Germans have been carrying out mighty reciprocal bombardments north of the Aves river and in the region between Laasigny and Noyon.

Reports are to the effect that in Germany there is much perturbation over the inability of the Teutons to pierce the allies' lines and nervousness and depression over the losses the Germans have suffered.

Passenger Ship Turns Over at Pier.
An Atlantic Port.—The American line steamship St. Paul, a famous passenger liner, overturned and sank at her pier here while being warped into a pier preparatory to loading for a trip to Europe. Three men probably lost their lives in the accident. The St. Paul was not under steam at the time, but was being brought by tugs from a dry dock, where she had been undergoing repair. On her at the time were several hundred men—a majority of them employees of the dry dock—who had been sent with the vessel to complete their work while she was being loaded. The steamer now is lying on her port side with about ten feet of her hull amidships above water and is completely submerged both fore and aft.

Holland Yields to Two Hun Demands
London.—Holland has yielded to Germany's demands concerning transport and the supply of sand and gravel, although it is understood that the amount of sand and gravel will be limited instead of unlimited, according to a dispatch from The Hague.

Proposes German Boycott After War.
Washington.—International boycott of Germany after the war unless the German Reichstag or people by referendum accept definite principles of international law is proposed in a senate resolution sponsored by Senator Owen of Oklahoma.

Board Declines to Fix Cotton Price.
Washington.—The War Industries board has informed the National council of American Cotton manufacturers that it would not fix a price on raw cotton, as it was not necessary to the Government's operations in respect to the cotton goods being purchased for the army and navy. Fear has been that the price of the raw material would be related to the finished product when the government became a purchaser, as appears to have been the case with lintens in the manufacture of powder.

Great French Liner Launched.
Paris.—The largest freighter in the French mercantile marine service has been launched in Dunkirk and now is safe in a French port remote from the fighting zone. It is 450 feet long and is of 19,000 tons displacement. The Germans, aware of the location of the shipyard, tried in every way to interfere with the work and destroy the yard and ships. The ministry of marine considers it a great feat to build and launch a great ship within seven miles of the actual fighting zone.

Champ Clark Declines Senatorship.
Washington.—Speaker Champ Clark has declined Governor Gardner's proffer of the Missouri senatorship to fill the vacancy caused by Senator Stone's death. Mr. Clark's announcement came after two days of consultation with political and personal friends. Mrs. Clark and Mrs. James W. Thomson, the speaker's daughter, urged him not to relinquish the speakership. Chairman Ferris of the Democratic congressional committee, also urged him not to accept.

PEDIGREE JACK

My Pedigreed Kentucky Jack will make this season at my barn, \$10.00 insured. See his colts this spring I will use all precautions to prevent accidents, but will not be responsible should any occur. S. F. Knight

NOTICE

On the 20th of April the factories advanced beds 10 to 15 per cent. On the 26th several of the houses withdrew all prices on beds and springs. I have a nice lot of them. If you are in the market and want to save money on beds, you had better buy now while you can.
Rutherford.

SCOTT-PHILLIPS

George Scott, eldest son of Mr. and Mrs. J. W. Scott of Liberty and Miss Lena Phillips, daughter of Mrs. J. P. Phillips of Liberty, were married on Tuesday of last week at Coleman. The young couple will make their home for the present on the farm with the parents of the groom.
The groom is in the draft age and since his marriage has received his card telling him to be ready to report for duty at any time. The Review joins the friends of the young couple in offering congratulations.

RUSS AND LINOLEUM

I have a very nice assortment of this fine of goods now and will say that if you are in the market for this line now is the time to buy. The price is higher to-day wholesale than I am selling them for and that means higher prices if you wait.
Rutherford.

Mr. and Mrs. C. E. Boydston have returned to Baird from California, where they have spent the winter. C. E. has been connected with a cotton firm there, and the season being over he has returned to Callahan for a few months.
See us for Seed Maize.
Neeb and Sipes.

CALLAHAN OVER THE TOP

At the last moment the Review received word from the First National Bank at Baird that Callahan had exceeded her quota by twenty-five thousand dollars.

Card of Thanks

We wish to thank our friends for the kindness and sympathy shown us during the brief sickness and death of our mother and wife.
J. H. Rollins and children.

Pinderpan Pinderpan

Charlie Austin came in last week on a thirty-day furlough from Camp Bowie. He states that he is subject to be called back any time.

A new Ford for sale—C. S. Boyles.

TANLAC, The Master Medicine

The Cost is Small

The Benefits Large

The purpose of TANLAC is to make you fit, and keep you feeling fit. To help you stand the strenuous times of the present day. To make you eat heartily and digest your food properly. To help you out of your weak, nervous run down condition. To relieve you of that tired, fagged out feeling and supply you with new life and energy. To build up your strength and enable you to meet the demands your work requires.
In other words, TANLAC was designed to restore lost health and vigor, and when so many people testify that it has helped them, it must be accepted as a fact.
