ENLISTMENT PROGRAM

A large crowd attended the
 Enlistment Day program at the
 Baptist church on Sunday. The
 dinner was what one usually
 finds in West Texas, and that
 means there was plenty and to
 spare, and too good for a prince
 of the house of Hohenzollern.
 One of the best features of the
 day was two addresses by Paul
 Watanabe, a Japanese student
 at Simmons, who is studying for
 the ministry and preparing for
 missionary work in Japan. Cal-
 laban County Association has
 taken on itself the education of
 Mr. Watanabe at Simmons. At

 was given towards his education
 here on Sunday something more
 than eighteen dollars was given.

TWO REGENTS QUIT UNIVERSITY BOARD

WILBUR P. ALLEN AND DR. S. J. JONES TENDER RESIGNATIONS TO GOVERNOR HOBBY.

VACANCIES HAVE BEEN FILLED

Dr. Ralph Steiner of Austin and J. A. Kemp of Wichita Falls Are Appointed by the Governor.

Austin—Dr. Ralph Steiner of Austin and J. H. Kemp of Wichita Falls were appointed regents of the university of Texas to fill vacancies caused by resignations of Wilbur P. Allen of Austin and Dr. S. J. Jones of Salado. Governor Hobby announced these appointments following a conference with Mr. Allen, who visited the executive office. Dr. Jones has been in poor health for some time. He was one of the staunch friends of the university faculty members dismissed by the board at its meeting in Galveston.

The senate during the recent session adopted a resolution asking the governor to give Mr. Allen a hearing in order that he might be given an opportunity to show cause why he should not be removed.

Mr. Allen's resignation left a vacancy in the chairmanship of the board, which will be filled at this month's meeting.

Y. M. C. A. WILL RAISE, BIG FUND.

Texas to Furnish \$400,000 of \$1,000,000 Quota of Southern Department for War Work.

Dallas—The southern department of the National Y. M. C. A. war council at a conference in Dallas pledged the states of Texas, Oklahoma, New Mexico, Arizona, Arkansas and Louisiana to raise \$1,000,000 toward the fund of \$3,000,000 which the National council will raise to carry on the Y. M. C. A. work among the American soldiers training in this country and among the soldiers of the allies in Europe. At a recent conference in New York the southern department was allotted \$750,000 as its apportionment of the national fund, but the delegates decided that they could secure more than this amount.

In the apportionment of the amount each state in the southern department is to raise Texas was apportioned \$400,000, Oklahoma \$250,000, Arkansas \$125,000, Louisiana \$125,000 and Arizona \$100,000. The student Y. M. C. A. organizations of Texas was apportioned \$65,000 of the total \$600,000 and the balance will be allotted to the other five states.

End of F. and L. P. A. Trial in Slight Abilene—The defense in the case of the members of the Farmers and Laborers' Protective association, on trial here in federal court, rested its case Thursday morning and an adjournment was taken until Friday when the government began the presentation of its rebuttal evidence.

District Attorney Odell estimated that the introduction of rebuttal evidence would be completed within a day and a half at the outside and it is considered probable that arguments of counsel will be reached Monday.

Argentina Aroused by Tanton Intrigue

Buenos Aires—There is much concern among the people of Argentina over disclosures of German intrigues to bring about a conflict between Brazil, Argentina and Uruguay. The Argentine papers comment extensively on the disclosure that the German legation at Buenos Aires paid for the publication of a booklet predicting war between Brazil and Argentina. General Larreta, the former Argentine minister of finance, declares that a Von Laxburg dispatch, which has not yet been made public, refers to German intrigues in Argentina and Southern Brazil.

State Fair at Dallas Opens

Dallas—Gov. W. P. Hobby made the opening address of the thirty-second state fair of Texas here last Saturday. The attendance on opening day this year was beyond expectations and far exceeded that of the same day a year ago. The total number of persons that passed through the gates was 66,187.

HAWAIIAN SINGERS AND PLAYERS

At School Auditorium on Monday Night, October 22

For those who cannot visit these lands we have brought this quintet of Hawaiian singers and players and they can be enjoyed in your own town. Hawaiian music by the gifted native singers and players has been a great success in America because it is different. Love songs are particularly effective. The melodious strains of the songs and the accompaniment on native instruments, with the peculiar sliding of the fingers on the strings is plaintive and fascinating.

Vera's Royal Hawaiian Quintet

was selected to fill lyceum engagements after the affiliated American Amateurs had listened to concert by every standard Hawaiian company in America.

Their repertoire includes all the songs of Hawaii sung in native tongue many of the popular airs of this country and classical and operatic numbers. The entire company appears in native Hawaiian dress. They present a musical program of real merit.

Remember date, on Monday night, October 22.

M. E. QUARTERLY CONFERENCE NEXT MONDAY

The Fourth Quarterly Conference of the Cross Plains Charge will be held at Dressy next Monday. Rev. O. F. Sensabaugh, our Presiding Elder, will preach at Cross Plains next Sunday night, and at Dressy Monday at 11 a. m. Conference will begin its session promptly at 1:30 p. m. There will be "dinner on the ground". Everybody is invited to attend and especially are the official members urged to be present. C. R. Kidd, P. C.

MARKETS FIRST PEANUTS

C. G. Hampton, who owns the McDaniel farm just east of town, on Monday sold the rent peanuts off his farm at \$1.27 1/2c. They were the first sold here this season. They were not very good, being light and "poppy". N. W. Dennis cultivated the place. The peanuts averaged about seventeen bushels per acre, and counting the hay, Mr. Hampton realized about \$7.20 per acre in rent, which is not bad for land that cost \$35.00 per acre.

LONG-WHITE

George Long and Miss Nora White were married at the home of the bride west of town on Monday evening, Elder J. M. Harlow officiating.

The groom has been reared just south of town, and is a son of Mrs. Long, and the bride is a daughter of Mr. and Mrs. M. A. White who have lived near town for three or more years, and they are two good families who have lots of friends. The young couple have the best wishes of a wide circle of friends for a long and pleasant married life.

Mr. and Mrs. E. A. Haley made a trip last week to Nolan, where they visited Mr. Haley's brother.

Win. Carey of Merkel came in on Saturday to spend a time at work. He says that, tho it is very dry in the West, in favored localities some stuff is being made, summer showers being very spotted.

C. C. NEEB TO MOVE

C. C. Neeb, assistant cashier of the bank of Cross Plains since its organization in 1911 has accepted the cashiership of the bank at Rockwood, and will move there about the 25th inst. Parker Bond, who has been cashier at the Rockwood bank, has accepted a similar position with a Santa Anna bank. Mr. Neeb's family will follow him in a short time. We regret to lose him and his family. Mr. Neeb says he hates to leave the town but that he is bettering himself in point of salary and otherwise.

C. C. Hampton, attorney, has taken Mr. Neeb's place at the bank.

Dr. Mary L. S. Graves, dentist the first of the week sold part of her furniture and household goods, and on Wednesday left for Canyon City, where she will practice her profession. We are sorry to lose Mrs. Graves and her daughter.

TEXAS COTTON PALACE DELIGHTS FARMERS

State Department of Agriculture Will Supervise Mammoth Display at Waco in November.

ALL OF BUILDING IS SET APART

Food Conservation and Demonstration Daily By Some of the Leading Food Experts of the United States Is Assured.

Waco, Texas.—The State Department of Agriculture of Texas has conferred an honor and distinction upon the Texas Cotton Palace Exposition that will cause the fame of that exposition to become nation-wide in its scope.

The State Department of Agriculture has selected the Cotton Palace as the only place in Texas for a colossal exhibition of agricultural products of all kinds. The second largest building on the grounds has been turned over to the State authorities, who make the assurance that they will have it filled to overflowing with a variety of exhibits that have never before been seen by the farmers of Texas. It is declared that nothing like it or on such a comprehensive scale has ever been attempted by any State in the South.

Fruits, grains, foodstuffs and every article that is raised in Texas will be shown in rich array. Expert lecturers will be present to explain to the visitors the best methods of producing paying crops.

In addition to the unparalleled display of agricultural products, the State Department will also conduct a food conservation demonstration that will be larger and more original than anything of that kind ever before attempted in the United States.

Some of the best food experts obtainable in the United States will be present and give daily lectures on the most economical methods of preparing food of every description.

This is decidedly a new departure in expositions. The Cotton Palace Exposition as usual takes the lead in this important work, setting an admirable pace for other expositions to follow.

Nothing in the country will be able to touch the bigness and thoroughness of the agricultural department of the Cotton Palace this year.

LIVESTOCK EXHIBIT GREATLY ENLARGED

Texas Cotton Palace at Waco, Will Have Some of Finest Stock Ever Shown.

Waco, Texas.—No exposition in the country has won greater distinction in the variety and quality of live stock exhibited than is the case with the Texas Cotton Palace Exposition. It has been necessary each year to greatly enlarge the facilities in order to take care of the new entries that exhibitors from all parts of the country desire to make.

The man who is interested in cattle, hogs, horses, mules, ponies, sheep and goats, will surely tear his shirt in order to be present when the Cotton Palace opens on November 3, and will want to be present every day until it closes on November 18. Specimens of every breed of the above animals will be there in great abundance. Stock raisers can learn more about the way to raise stock and the kind to raise by spending a few days at the Cotton Palace Exposition than he could in any other way.

TEXAS COTTON PALACE WILL SERVE RABBITS

Under Supervision of the State Department of Agriculture Rabbit Dinners Will Be Served.

Waco, Texas.—There are millions of rabbits in Texas. Up to the present time they have been looked upon as being very destructive pests. Public opinion, however, is undergoing a rapid change toward these little animals.

Leading authorities make the assertion that it is within the range of possibility that a comparatively short time good old Texas rabbits will furnish the chief source of meat supply, not only for the people of Texas, but for many other states, and also for the brave boys who are going to the other side of the sea to fight in France for the salvation of America.

With a shortage of beef cattle facing the world, a new meat supply is imperative, and it is up to the rabbits to meet the situation.

The State Department of Agriculture of Texas, which has full charge of the agricultural exhibits and food preparation at the Texas Cotton Palace Exposition, is going to give a series of rabbit cooking demonstrations during the exposition from November 3 to 18.

Mr. Rabbit will be presented in the most palatable way that he can be prepared by expert cooks.

It will be served in French, Swiss, Italian, German and English styles. People who have partaken of rabbit in European countries have gone wild over it, declaring it to be superior to venison steak or fried chicken—when properly cooked and served.

All Kinds of Fancy Work at Cotton Palace

Waco, Texas.—The women of Texas who are interested in needle and fancy work of all kinds will be delighted with the textile department of the Texas Cotton Palace Exposition. Articles that will make glad the heart of any woman can be found in rich profusion in this section of the Cotton Palace.

Sweet potatoes at \$1.50 a bushel are still cheap eating in these war times. Moreover, they are still very delicious eating.

Dry weather is still in vogue, but Cross Plains is likely better situated in respect to dry times than any other part of the country. The answer is the missing link in the prosperity of our country. It is going to link us over to another year with reasonably good times. Come to Cross Plains.

The Baird, Clyde, and other people of the north part of the county are making arrangements to vote on a bond issue to take care of Callahan's part in the Fort Worth El Paso highway. All seem to be working in accord, and we hope that we have the best part of the highway in our county? Cross Plains people may have some trouble wading thru our sand to get to a good road, but perhaps it will be better appreciated, when they do get to it.

Buy a Liberty Loan bond. Koot in the Dallas News graphically illustrates the difference in the position of us Americans who finance the war and our soldiers in France who to the fighting, with a pole reaching from the United States to France, supported at this end by buyers of bonds and war tax payers and at the other end heavy end by the soldier, and with the great burden of the war suspended from the pole on the soldier. We could exchange cash and then not bear the burden equally with those that are fighting.

Cole's Original Hot Blast

The Imperial German Government has committed a number of crimes against the Government and people of the United States; any one of which is just cause belli. Count von Bernstorff, German ambassador to this country endeavored to make the legislative and political policies of the United States subservient to the interests of Germany. He notified his foreign office at Berlin that he "is just about to enter upon a vigorous campaign to secure a majority in both houses of congress favorable to Germany." And he requested "further support," by which he meant more money with which to influence our officials if possible. This act of the Imperial Government was an indignity which no self-respecting government would brook.

Another telegram from Germany to the military attache of the German Embassy at Washington, Captain von Papen, submitted to him the names of three men as "suitable for carrying on sabotage in the United States and Canada." It further informs him that in the United States sabotage can be carried on in every kind of factory supplying munitions of war, which means the destruction of property by unlawful acts. This dispatch was sent January 22, this year, at a time when our Government was bending every energy to avert war with Germany. Those who read know of the hundreds and thousands of dollars worth of property and the more than one hundred American lives, many of them of women and children, sacrificed in this secret and detestable method of warfare. At a time when Germany was protesting its friendship and a desire for peace she was shedding American

Bonehead Business Methods

Hundreds of dollars are being sent out of Abilene every week for printing which could be done at home. Those people who send their printing away should not complain at others for patronizing mail order houses.—Taylor County Times.

And Abilene is not the only city and Taylor is not the only county where this practice is carried on to an extent that is a gross injustice to the county papers which yearly donate, free of charge and in a glad spirit, many dollars worth of space and many hours of time that is taken from their own business, to boost and build the section of country which they represent. It looks as if the business men and the county officers would recognize a community of interest that would prompt them to throw every possible bit of patronage that lay in their power to the home paper.—Odessa Herald

Why We Are at War With Germany

That this question should be asked at this time by an American citizen is very strange and can be answered in only one of two ways. The questioner is ignorant and needs more light, or he is an enemy to his country, and seeks by this question to imply that his country has no cause for being in the war.

Called Her Family TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royce City, Tex.—Mrs. Mary Kilmann, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, get Cardui, the woman's tonic, a trial.

HORSE RACING AT TEXAS COTTON PALACE

Opportunity to "See the Ponies" Go at Waco During Big Exposition Period.

REAL THRILLERS UPON PROGRAM

Writers of Fine Racing Stock Have Already Entered for Some of the Handsome Premiums Offered By Management.

Waco, Texas.—Horse racing will be one of the biggest features of the Texas Cotton Palace Exposition this year from November 3 to 18. The Cotton Palace Exposition boasts of having the finest half mile track in the country. It is speedy and in as good condition as human ingenuity can make it. Many of the leading horsemen declare they would rather race their animals on the Cotton Palace track than anywhere else in the country.

Arrangements have been made to have high class horses from all sections of the country enter the races. The racing feature of the Exposition will attract every lover of the racing game from all points throughout the southwest.

At tremendous expense, the Cotton Palace management has erected a magnificent and commodious grandstand capable of comfortably seating immense throngs that will be dozens of witnessing the great racing events.

Those who like the thrill that permeates the system as the result of races by thoroughbred horses must not miss the Cotton Palace races.

EXTRAORDINARY SOCIAL EVENT OF ALL TEXAS

Will Attract Entire State.

Texas.—The most important social event of the entire state of Texas this year is the grand Queen's Ball at the Texas Cotton Palace Exposition. This is a large claim, but it is conceded by society leaders throughout the state. Every town from Texarkana to El Paso from Texline to Brownsville will be represented by a duchess and her court.

These young ladies are selected not only for their beauty and personality, but for their social and general cleverness. Hundreds of letters have already been received by the committee in charge of this magnificent affair asking for details and making arrangements for the event. The indications are that the attendance this year will be the largest in the history of the Cotton Palace. The ladies, now being selected, are being sent to the Cotton Palace to be fitted to their respective duties. The ladies, which have already been looked upon as the acme of beauty and ingenuity, promise to give an elaborate than in former years. Expert decorators are now at work upon original designs that will give a surprise on the night of the ball.

RAILROAD RATES TO WACO IN NOVEMBER.

Texas.—Every railroad in the state, including interurban lines, has granted exceedingly low special rates to the Cotton Palace Exposition which commences November 3 and continues until November 18. Every agent in Texas will be able to give full details concerning excursions to the greatest exposition in the southwest.

WORMS AT WORK.

Texas.—Did you ever see a worm at work? Come to the Texas Cotton Palace Exposition and see the worm farm for the first time in its life. It will be the most interesting of that kind that has ever exhibited in Texas. It is very profitable.

Singers at Cotton Palace.

Texas.—A quartet composed of the greatest singers of the state will sing every afternoon at the Cotton Palace in conjunction with the exposition. This has been an arrangement that has been given free concerts.

Those who are fond of sweet singing will surely enjoy this exhibition at the Texas Cotton Palace on which opens on November 3.

Raise Hogs Successfully.

Texas.—Hogs are now almost their weight in gold. Nothing more profitable for the farmer of Texas to raise. The question is what kind of hogs and how best to raise them. This can be easily solved by visiting the Texas Cotton Palace Exposition where more hogs of every breed will be shown than any former year.

Visit Woman's Exchange.

Texas.—The Woman's Exchange at the Texas Cotton Palace will be much larger than on any former occasion. Thousands of women will be found in this exhibition at the Cotton Palace. It is held annually by thousands of women with great profit and interest.

Cotton Modeling.

Texas.—Those who have not seen cotton modeling department at the Texas Cotton Palace Exposition will begin to appreciate the things that are made from cotton. A visit to the Cotton Palace will be profitable and interesting.

FRENCH INDUSTRY IS RECOVERING

Natural Thrift and Economy Promise Rapid Progress

EXPORT BUSINESS GROWING

Our Great Ally Possesses Recuperative Powers Which Justify Belief That She Will Meet and Solve Triumphantly the Problems Which Confront Her After the War.

With Paris Boulevards echoing with "vives" for American troops our interest in the warfare of our ally vastly increases, and the facts are not lacking to encourage the belief that she is already on the road to recovery from the blow of invasion by a ruthless enemy. One of the most important developments is the announcement that one of the largest banking institutions in America concerned with foreign trade, the Guaranty Trust company of New York, has opened a Paris branch to handle the rapidly increasing volume of French business.

Marshal Joffre and the French Mission in America.

This action may surprise many persons who had thought of France as bowed under a calamitous invasion. The bank, however, gives figures indicating that France is not only meeting her military and civilian problems with a stout heart and never failing courage, but is re-establishing her export business with this country.

In 1914, the year of the outbreak of the war, imports from France to this country totaled \$141,446,252. This total was reduced to \$77,158,740 in 1915, but last year the value of French imports to the United States rose to \$102,077,690.

"A nation that can achieve such a commercial recovery while her territory is being ravished by the invader," says the Trust company's statement, "possesses recuperative powers which

General Pershing Arrives in France.

Justify the belief that she will emerge from the present conflict prepared to meet and solve triumphantly the problems which confront her."

The commercial and industrial record of France, following past wars, indicates that she should recover quickly from the actual physical destruction inflicted in the present conflict. The reconstruction of railroads, the erection of factories to replace those destroyed, and the replacement of the mechanism of industrial activity that will be required and that is in part already planned, offer a peculiarly inviting field to American capital and enterprise. Tentative steps have already been taken by representatives of American engineers and business men in this work.

Conservation Saved 10,000 Cars

Through intelligent co-operation, shippers and the railroads are securing surprising results. War conditions require the railroads to move the greatest volume of traffic in their history, giving preference to military traffic. Without patriotic public support of car conservation policies, transportation facilities are not adequate to meet demands.

Since May 1st, public co-operation with the railroad effort to secure heavier loading of cars has enabled the Missouri, Kansas & Texas Lines to save more than 10,000 freight cars. In July 1917, the average loading of cars moved on the M. K. & T. Lines was 17 1/2% greater than in July 1916. This heavier loading, combined with speedier handling, has been an important factor in increasing the nation's industrial efficiency. The shippers who have contributed to the results secured have not only aided the government, but they have also saved cars for their own service.

Traffic will be much heavier during the closing months of 1917. Fall business is at its height and demands for military transportation are increasing. There is imperative necessity for the most intelligent and earnest co-operation in conserving transportation facilities, and a patriotic work to do in which every man can help. We offer a few suggestions for your co-operation.

Mr. Shipper

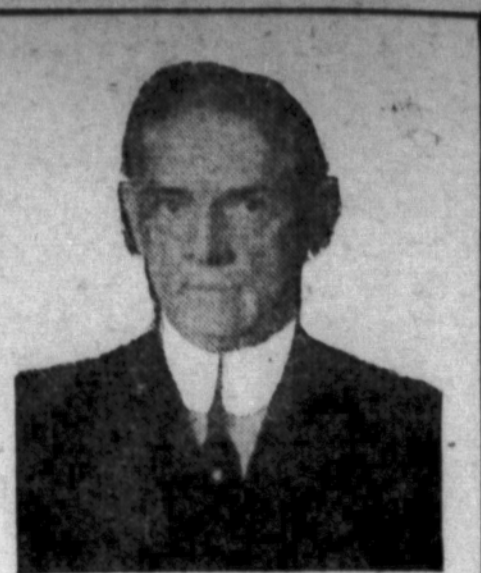

- Do not order cars till you are ready to load.
- Do not order more cars than you need.
- Do not duplicate orders for cars.
- When ordering cars state size you can load to capacity.
- Load cars as soon as placed.

The management of M. K. & T. Ry. sincerely appreciates the help its patrons have given it in efforts to protect the public interest, and will be glad to have shippers call attention to any delay or deficiency on our part, so as to supplement our supervision and further help us to subserve the best interest of all.

Prohibition Increases Army Efficiency 100 Per Cent.

Captain R. C. Winslow, regimental surgeon, at Battle Creek, Mich., enthusiastic on the subject of the prohibition of the manufacture of whiskey. He said:

The prohibition of whiskey making has increased efficiency in the army 100 per cent. Normal men do not hard to govern and the absence of liquor has enabled us to get the men into the camp and make all necessary adjustments with very little friction, because the men are in a normal condition. Officers also are much better. Headaches and torpid liver and such ailments are no longer common. The entire esprit de corps of the army is improved. If we could compare conditions here with the time of the Spanish-American war we would appreciate prohibition has done."

HOUSE INVESTIGATING COMMITTEE TO MEET

CHAIRMAN FLY WILL ISSUE CALL
FOR MEETING ABOUT OCT. 25.

Plans Will Then Be Made and Sub-
committees Assigned for Investi-
gation to Start Nov. 1.

Austin—W. M. Fly, of Gonzales,
chairman of the central executive
committee of the house investigat-
ing committee, was here and an-
nounced that he will call the cen-
tral committee to meet in Austin
about Oct. 25 to prepare the details
and make the assignments for the
actual work of investigation to start
Nov. 1. He further stated that the
senate committee of 10 will not meet
with the Central house committee.
Chairman Westbrook having advised
that he did not think he was au-
thorized to take such action. How-
ever, Senator Westbrook wrote, in
response to the invitation to be pre-
sent, that the senate committee will
be on hand Nov. 1 ready to co-op-
erate with the house committee in
every way.

Mr. Fly explained that the meet-
ing of the central committee will
name the ten subcommittees of two
members each and designate the
state departments and institutions
where they shall begin work. Each
of these subcommittees will be re-
inforced by a member of the senate
committee of ten. Thus there will
be ten investigations in progress at
once with three members doing the
work in every instance.

Dismissing the week ahead, Mr.
Fly declared that the object of the
wholesale investigation is to give
the state a modern business system
and recommend abolishment of de-
partments, boards and commissions
where the work could be done in
the interest of economy and more
efficient administration.

Sells the Champion Cream Saver

THE NEW DE LAVAL

ALMOST any separator will do fairly good work when it is brand new, perfectly
adjusted and skimming warm milk from freshened cows.

But a separator can't always be new, cows can't always be fresh, nor can you
always separate your milk while it is at 85 or 90 degrees. In other words, your separa-
ting is done under practical conditions, and the sensible thing to do is to get a practical
separator.

The NEW De Laval is the most practical separator you can buy

because it is the only separator that you can depend upon to skim clean under any and
all conditions of milk and temperature, and to deliver cream of uniform thickness.

If you want to own a separator that will do its work
better than any other, and do it without constant tinkering
or adjustment, then the NEW De Laval is the machine
to buy.

While this statement has always been true of De Laval
machines, it is true today to an even greater degree than
ever before because of the many improvements in the
NEW De Laval.

The new self-centering bowl which gives the machine
greater capacity and skimming efficiency, the De Laval
bell speed-indicator, which alone would be worth many
dollars a year to a cow owner, the improved automatic
oiling system and the many other improvements found
in no other make of machine, make the NEW De Laval
by far the most satisfactory separator to operate and the
most profitable to own.

You can buy a NEW De Laval from us on liberal
terms. Come in and look the machine over.

DO YOUR DUTY

You would be a very unnatural
parent if you did not wish to give
your boy or girl the best educational
advantages that are in your power,
a very thoughtful parent if you sent
him to the first school that mailed
you a catalogue, and an unpardon-
able parent if you entered him in a
school without first investigating its
location, sanitation, equipment,
character of student body, faculty,
system of discipline, and above all
the moral surroundings. Yours is
the duty of investigation, comparison
and ultimate decision.

Your boy or your girl is the hope
of your life. In him or her is centered
your most cherished ambitions.
His or her worth to you cannot be
measured by dollars and cents, but
his or her value must be measured
by the training which he received in
home and in school. If the local
school were an ideal place for your
boy or girl, you wouldn't think a
boat seeding him away from home

Under present conditions, they
doubtless need more self reliance,
because they lack the power of in-
itiative, are wanting in breadth of
scope of vision, haven't learned how
to study, can't make for themselves,
and are ignorant of the fine art of a
business career. If so their educa-
tion should be continued in a busi-
ness training school where discipline
really means something, where per-
sonal supervision by the faculty is
constant, where our service is ren-
dered above every thing else, and where
manly and womanly character and
conduct are held paramount to all
other considerations.

Our school offers many advan-
tages that no other commercial
school can afford. Its location, ex-
cellency of environments, its student
body is made up from the best homes
of the country, the faculty is second
to none, its discipline the outgrowth
of long experience, tempered to con-
serve individual needs, just, sane and
firm. One or two hundred dollars
spent on your boy or girl now may
mean an unbounded success for
their future life. There is a time in
every young person's life for them
to consider an education, and if
that time goes by, unheeded by the
parents, and they fail in the future,
you are, in a measure, responsible
for that failure. On the other hand,
if you encourage the seed thought
of an education when your son or
daughter is interested, it may mean
the turning point in their lives, and
will cause you much joy and happi-
ness in the future. One or two
hundred dollars spent on them is

THE CROSS

PL VIII

CRO

IN 1780

The French Comte de Rochambeau said to the President of the American Congress:

"We are your brothers and we shall act as such with you; we shall fight your enemies by your side as if we were one and the same nation."

IN 1917

We have sent back this identical message to the French nation. Let us add this:

"We will lend you money, also, to conduct the war."

THE HAWAIIAN SINGERS

The Hawaiian Singers, five in all, three men and two ladies, their program on Monday at the school building to a large and a very appreciative audience. All music lovers, especially entertained. To natives of Hawaii, for folks like us don't get to travel much, is a treat. If these singers are a fair sample of the inhabitants of the Islands, we may well be proud of the work our government is doing in annexing them as a territory.

PEANUT HARVESTING

Peanut harvesting has taken precedence of all kinds of work around Cross Plains. On account of the war's demands, few soldiers and help for building the cantonments, labor is scarce, and just now every available man is put to work in the peanut field. Diversification has done well it work in the sand--Old King Cotton has been dethroned, owing to necessity at the hands of the weevil and an enlightened public. Gathering of peanuts will not take but two or three weeks while picking cotton is a fall's job if you make it. Peanuts are selling at about \$1.50 a bushel, but they will doubtless go higher.

CARD OF THANKS

With thanks to our many friends for assistance and comfort, and address shown us during the illness and death of our husband, W. P. Atwood and family.

Born on Friday the 19th inst. to Mr. and Mrs. Jim Lawrence a girl, All doing nicely, except that Jim is acting since becoming "father."

Do Hogs Have an Eye for Beauty?

Probably not, but they do like a good house to live in. With nothing but a few bristles to keep out the cold, they need the best of protection. As proven by experiments at an agricultural college, the wooden hog house is best because it keeps out heat as well as cold.

We have the lumber for hog houses of all kinds and will help you select the kind and grade which will serve best and last longest. That is part of our free service to you. We also have the best information on how to build hoghouses, and how to creosote them to prevent decay and disease.

George Kemper of Clyde was in town on Monday after feed. He has lately moved from this place to Clyde. He has lived there before.

Organ for sale cheap or trade for hog. Jesse Moore.

Mrs. Bob Harrell and son Loyd, of Vernon arrived here on Monday the guests of Mrs. Harrell's parents, Mr. and Mrs. J. A. Pyle of south of town. Loyd left Tuesday for his home.

J. B. Eubanks of the Bayou below town was here on Monday. Mr. Eubanks states that he has a girl in C. I. A., two children in the Brownwood school, and a son in A. & M. This son will soon be of military age, and Mr. Eubanks says that if his Government calls on him the boy nor himself will not complain. Mr. Eubanks has so sympathy with Americans who are not wholly American in spirit. We need every one of this same mind.
