54TH PICNIC CELEBRATION LAUNCHE

Canning Plant Will Open Monday Mayor's Address Of Welcome

MRS. LOUIS HELMS TO BE IN CHARGE

A canning plant will be op-ened as a W.P.A. project in Cross Plains, Monday. Mrs. Lewis Helms, who has had charge of the sewing rooms for the past several months, will supervise the work.

The plant will be located in the ame building as has been used for the sewing project—the building tween the Piggly Wiggly and the West Teras Utilities Compan. The city of Cross Plains will co to enlist somt local couple to be married on the speaker's platform and furnish water and gas, while either (or both) nights of the cele- the West Texas Utilities Company will donate the electricity. Federa government rehuirements make appropriation for utilities or rent Just how long the canning pro ject will run was not learned by the Review in a check-up with auth orities yesterday, however, it was understood that it would operate as long as there are sufficient veg dings, that calls to mind the cere- ables, fruits and etc to justify the mony of two years ago, when one work. of Cross Plains' finest young coup- Pra

les recited their "I do's" before an garding commercial canning will be pursued this year as last, when the cannery was located in the Ty At the appointed nour for the the cannery was located in the x-wedding there was inadvertedly some delay. Cleve Callavay has been built of the cannery was located in further. Persons interested in furnishing the vegetables and having the can-nery do the preserving are urged to contact Mrs. Helms

The vast audience sat expectant ly, eyeing all directions for the ap ach of the bride and groom. Five In a manner of speaking, Cleve was "out of soap," He'd cracked every ioke he knew, danced a jig and

The crowd murmured for a mar-ried ceremony. The situation was ense, 5,000 people who had waited until 10 o'clock at night could not on the local links Sunday afterbe disappointed. Then with a sp-ark of brilliance Cleve played his trump card, which caused a ripple of laughter, from the sea of faces, and placed everyone in a jovial mood for the triumphant appearance of the couple a few minutes er match was, scheduled to have

"We've waited 15 minutes for this wedding. It begins to look as if there will be none; that is, unless some lady in the crowd would like to ascend this platform and join herself in holy wedlock with me. Come on girls, no one is bar-Come on girls, no' one is bar-" Cleve shouted.

5,000 people laughted out loud but not a single lady came. Cleve's proposal—and it was just that— was unheeded. At that moment, however, the appointed couple ap-peared and a beautiful ceremony solemnized. Cleve's jesture had minimumized the wait and ev erything was swell. * *

Have some choice "snoopings" Have some choice "snoopings" ing at 11 o'clock. The rites were om Rowden, which space forbids ttending this week. Watch the

Here's a true story, good enough for Rinley's "Believe It Or Not" And it happened right here in Cross Plains last week.

J. G. (Jack) Aiken, of this place, has a first cousin named Shaw Aiken, whom he had not seen in 50 years; since Jack was 12 and his Penn of Dallas, as well as a host ough three fifteen in the afternoon. cousin five.

The two men met unexpectedly here last week and each recognized the other on sight. It may be hard to believe but the incident happened just like that,

and there were witnesses. * * * * * This column is indebted to Jesse

the world's foremost civilization.

The Impending **American Boom**

IS SPRINGING INTO LIFE IN ALL PARTS OF THE COUNTRY-THE FOUNDATION WHICH WAS LAID LAST YEAR IS NOW PASSING THROUGH THE SECOND STAGE AND WE ARE KNOCKING AT THE THRESHOLD OF RENEWED BUSINESS ACTIVITY-AMERICA WILL RETAIN THE LEAD OF NATIONS ON ACCOUNT OF ITS UTOPIAN ACTIVITIES AND SHOW THE WORLD A NEW CIVILIZA. TION-OUR COMMUNITY KEEPING PACE WITH THE GREAT AD VANCES OF THE DAY.

The United States in its transition from an international to a national-istic trade policy has been busy with the fundamentals which are necessary for the coming days of the new prosperity. As a creditor nation we have been forced to do business with each other, and, until other nations emerge from this policy, our development, largely lies within the confines of our great republic.

More Equitable Distribution of the Products of Labor

The President, Congress and people of all political parties who are students of the times realized that to emerge from the world depression, that things must be better equalized. In the old haphazard days, it made little difference as we were all spenders and there was plenty to spend. With our national income confined chiefly to trading in our own country, With our national income commed enterly to trading in our own contray, and, for all our people to participate in the prosperity, it was necessary for various changes to be made. During this process of transition, while progress has been slow and in waves at times, yet, we have been, contin-ually, going forward. Some of the measures of reconstruction have not attained their goal, but, as a whole, we are riding on to better days. So great and fundamental a change from not being able to dispose of our surgreat and fundamental a charge from not being able to dispose of our str-pluses abroad, but to restrict them and dispose of them at home, takes time, but, as the proposition of supply and demand has now about been equal-ized, we are on the threshold of expanding demands from our own people and this is the great underlying fact that is certain to bring an ever expanding activity

Dole Days Succeeded by Jobs for All

Dole Days Succeeded by Joos for All The vast program of public works, which is now being instituted to supercede the dole, assures all of a job at a living wage. This, in itself. means prosperity, as, when everyone is able to spend, all are doing business and the money is kept circulating. America is yet a comparatively new country and there is much needed in the way of public works. Various sections will have ideas, all of which cannot be fulfilled, even, in this vast program. We could continue this for many years and yet there would be program. We could continue this for many years and yet there would be much necessary work undone. The harnessing of nature has been the work of man from his discovery of fire at the brink of the burning volcano to the modern irrigating systems. While the Pharohs built the Pyramids that stood for thousands of years, yet they are only an ornament, while the pub-lic works which will be constructed in this new program in this country will have both utility and beauty, and will surpass the Pyramids by 5000 years of progress in engineering. We are entering upon a substantial campaign that will be planned, continuous and progressive, unfolding new ideas that are today herond the imagination of many. are today beyond the imagination of many.

The Even Distribution of Wealth Is Changing the Living Standard

The foundation of the future demands that all be prosperous. In the The foundation of the future demands that an be prosperiods old days some were making too much and others too little. The present more equitable distribution will make life more on an even tenor. The auto-mobiles are getting smaller for the well-to-do and better for the commons and this same trend goes through the various phases of life. Business mer The present who see the trend of the times will reap the golden reward of clear vision. The principle in business of "more for less" is a service to the people that brings its promoters greater prosperity. We are now on this step upward ir our climb to greater days. This will balance the public and private budgets our climb to greater days. This will balance the public and place the country on the certain foundation of sound business and fi-nance. There will be no poverty, the many will consume more and the rich will be saved from the gluttony of inordinate spending. Businesses and stores which deal in articles for small sums are, now, exceedingly prosper-ous. This will expand into broadened lines and soon we will be ready for the next great expansion.

"Trade Follows the Sword" will be Superceded by the Winning of the

Western Idea of Commerce It has been the history of world commerce that trade has followed the sword, but, the new day is dawning, when people are becoming more in-dividualistic and will follow their desire to trade with whom they please. dividualistic and will follow their desire to trade with whom they please. Regardless of this interim of a few dictators in the process of action and re-action, the pendulum of democracy will swing again to the idea of indi-vidualism and trade will thrive among nations. The western idea, as exem-plified in the career of Captain Macy in New York of one price to all, will win, and, America being the great promoter of this system, will assume world leadership and dominate the great arteries of trade and commerce in the air, on the sea, and, in fact, all corners of the globe.

United States Able to Give More for Less on Account of Mechanical Equipment

With fair trading established we will be able to give the world more for With fair trading established we will be able to give the world more for less on account of our superior mechanical equipment. Other nations, who as a whole are just imitators of our factory systems and inventions which follow each other so rapidly in this country, will have to keep buying our ideas to stay in the procession at all. The American inventive genius has ideas to stay in the procession at all. The American inventive genuits has been tuned to this idea, and, we are only in the days if its inception. The really great inventions of the morrow will far eclipse the ones of today. The conquest of nature and the development of the human mind are aca-demic, until we are able to imitate all the forces and elements of the universe.

Build Cities on Each Continent for World Depots

Following or coincident with our internal public works' program, we Following or coincident with our internal public works program, we suggest the laying of the foundation of world trade centers which will be ready for the new day in commerce, when the barriers will be broken down by population seeking travel, knowledge and desiring the advanced products of the modern Utopia. In Little America, we suggest the City of Byrd. This would be a city suited to the development of the life in the Antarctic. Airconditioned and built to withstand the Antarctic winter, it out and put it in shape so that it products of the modern Otopia. In Intue America, we suggest the Otopia Byrd. This would be a city suited to the development of the life in the Antarctic. Airconditioned and built to withstand the Antarctic winter, it would be the center of a vast development in the mining world where metals yes untouched by man would be a source of wealth. Mining activity can be carried on under ground with modern air-conditioning in any cli-mate. In Liberia, we suggest the City of Africa with shining, white sky-scrapers that would enhance and amaze the chiefs of Africa. This would be scrapers that would enhance and amage the cherks of Africa. This would be the center of the tropical trade. In Alaska, we suggest the City of Arctic, a stopping place on the new highway, which is being built so that one can motor from America to Europe. It would have many activities in com-merce. These cities can all be made self liquidating by rentals, concesetc. They could be zoned and centers of travel by air, train, ship auto. Their modernity would make them the amusement centers of and auto. the continents and leading ports of air and ocean travel. Connected by radio, they would herald the American idea of civilization and commerce to

Mary Beauty Shop

THE CROSS PLAINS REVIEW

The Mary Beauty Shop at Abilene really worthy of mention as con-ributory to the good appearance of nany ladies and misses over this sec-

In these days of the equality and rights of women it is necessary that all ladies and misses keep up to the minute in beauty culture. Women and misses of today keep in contact with the world of business and soriety as well as the household. In the Orient where they wear the veil, the South American country where they rarely come in contact with the public it is not nearly so important to "fix up." At no time except the time of the Caesars were women se prominent in the life of the period as they are today.

Their modern methods of permanent wave work produce long, nat-ural waves with entire freedom from kinks. In fact you will never find permanent waving done by their No mat methods in kinks nor short, knotty

The manager of this beauty salon has devoted herself to a study of beauty culture and is to be commended for wonderful Consequently you are always work. given the most courteous attention here no matter whether it is a manicure or a permanent that you desire. The service covers all phases of the work.

In this review we desire to call the attention of all the ladies to The Mary Beauty Shop and suggest that an appointment with them will bring added beauty and happy days.

NEW PERFECTED HYDRAULIC BRAKES

BKAKES You and your family want safe brakes on your new cat—brakes that will give maximum stop-ping power—brakes that will be always equalized, always de pendable—Chevrolet's New Perfected Hydraulic Brakes!

SOLID STEEL one-picce TURRET TOP You want a safe roof over your head, too—a Solid Steel one-piece Turret Top. It gives com-plete overhead protection . . . is smarter looking . . . and helps to keep passengers cooler in summer and warmer in winter.

IMPROVED GLIDING

KNEE-ACTION RIDE'

You also want the greater comfort and greater road stability of Chev-rolet's Knee-Action Gliding Ride*. Millions of Knee-Action users will tell you that this is the safest and smoothest ride of all.

GENUINE FISHER NO DRAFT VENTILATION You'll get a lot of comfort out of this feature, too. It gives each passenger individually con-trolled ventilation ... "scoops in" tefreshing breezes on hot days ... and eliminates drafts in cold weather.

In cold weather. HIGH-COMPRESSION VALVE IN-HEAD ENGINE And for all-round performance with economy, there is nothing like Chevrolet's High-Compres-sion Valve-in-Head Engine—the same type of engine that is used in record-holding airplanes, power boat and racing cars.

SHOCKPROOF

STEERING*

Also an outstanding advantage —and, like all the above features exclusive to this one low-prices car —is Shockproof Steering⁴ Visit your nearest Chevrole dealer and have a thorough demonstration of this only complete low-priced car-unday.

of strength.

CROSS PLAINS, TEXAS

ROBERT E. HOWARD AS A BOY

By Mrs. T. A. Burns

It has long been conceded that the home owner is the best and "Tis early one Spring morning, accompanied only by current mag-azines. We take off across a near-The home is the Nation's citadel by pasture for a walk, stopping occasionally to pluck an anemone or Those who have made it easier to some other dainty pastel bued blosown a home and to keep a home, som which mother nature displays have rendered a distinct service to soon after the first robins return. humanity. They have planted fl-After a time we find ourself seated upon a rock, lost in musings, with the only disturbance a tink-The Nation's strength lies in the small homes because most homes are small. What affects modest ling cow bell down by a wooded section near the water hole on the The twitter of birds as they flit to and Texas Legislature not only showed fro among the branches of an oak its interest in good citizenship but above us. Finally becoming so obits consideration for the hard pressorbed in reading we are unaware sed when it adopted Senator Carl of any approach until a big black and white dog wearing a collar C. Hardin's home exemption measure relieving from state tax all homes up to the assessed value of bounds down from a ledge of rock behind, startling us. The kind look in his eyes assures that he is at least friendly, when almost immediately a call "Come Patches, come Patches" is heard and looking up in direction of the voice we see a lad of about ten years crossing fence wearily. Simultaneously each Patches in the meantime, seems to be investigating a small cave under a huge rock. As his master approaches our position and politely announces, "I'm Robert Howard, am. sorry if we frightened you Patches and I are out for our morning stroll. We like to come here where there are hig rocks and caves so we can play "make believe," Some day I'm

going to be an author and write stories about pirates and maybe cannibals "Would you like to read them?"

Assuring him that we would, he calls to Patches and they are so out of sight over the crest of the nearly hill, where-up we resum musing and reading.

Sometime later Robert comes to live next door, we watch him as he and his faithful and beloved dog, Patches, play dog after day until they are joined by a pet coon which Patches seems to understand is one of the family. many romps and spills are enjoyed by the trio, Rob ert ever manifesting kindness an consideration for his pets. After a time the coon becomes so mischievous that the family hold council and agree with reluctancy to return him to his native haunts on Pecan Bayou.

Roberts father, being a practicing physician, gives opportunity for the father mother and son to spend

CHAMPION HOME NEAR COTTONWOOD LOOTED

When Mr. and Mrs. Lee Champ ion returned to their home near Cottonwood early this week after visit in Oklahoma, they found the house ransacked. Evidence was plentiful that pillagers had visited the place, however, no ser ious loss was noticed.

Canned goods had been partaken of and other food-stuffs mol-

preparation, compounded by a specialist in nervous disorders, for the relief of Sleeplessness, Irritability, Nervous Indigestion, Nervous Headache, Restlessness, the Blues and Hysterical Con-

During the more than fifty years since this preparation was first used, numberless other nerve sedatives have come—and gone. But the old reliable has always been in constantly increasing demand. Only one medicine fits this discription.

DR. MILES

NERVINE

If you are nervous, don't wait to get better. You may get worse. Take Dr. Miles Nervine. You can get Dr. Miles Nervine —Liquid and Effervescent Tab-lets—at your drug store.

HELPED 98 PERCENT Interviews with 800 people who had used or were using Dr. Miles Nervine showed that 784 had been definitely benefited. Isn't anything that offers a 49 to 1 chance of helping you worth truing? trying?

trying? Get a package of Dr. Miles Nervine today. If it fails to help you-take the empty bottle or carton back to your druggist, and he will refund your money.
