WEST TEXAS DEVELOPMENT

Lometa -- Local business men have raised a fund to be expended in acquaiting the oil men all over the United States with the opportunities for investment in this part of Lampasas County. Eight wells are being drilled and many new locations are being made, yet lease prices have not yet reached an unreasonable figure.

Brady-The Chamber of commerce is devoting its entire attention lates that he is making to the oil industry. This community is extending the glad hand to the C. F. Austin's place, oil traternity and hundreds of promen nearly impassable inent oil men are here looking the field over.

> Comanche-Comanche has assumed the most prosperous air in its history and business men and farmers are highly enthused over the outlook for oil production on a big scale. There are about twentyfive rigs up in the county and the big companies are securing every available foot of acreage.

DeLeon-The business men of ross Plains country, this city are great believers in printthe biggest snow in ers ink and are using this product ill be fine on grain and in attracting the attention of oil season for all 1919 men to this section. Full page ads are running in the large . dailies and an extensive campaign through other mediums is being mapped out by the chamber of commerce

BREWER WELL EXCITIN

Brewer No 1 blew isself Saturday on Monday of this week, will give some idea of the gas pressure.

Magnolia-Elizabeth Morris No. 7 is location near the Gray wells in Colman County, and about ten miles south west of this place.

Cordwent No. 1, nine miles north east of Cross Plains, in southeast corner of section 12, and Odom No 1 on P. H. Cummings survey, seven miles west of Cross Plains, are both temporarily shnt down.

F. S. Henderson et al Childs No 1, J. Sayers, five miles north of town is again drilling at about 1200 feet, after being delayed for some time waiting for underreamer.

L. P. Litzinger et al Albin No. 1; two and one half miles southeast of Cross Plains, has set 15 one half inch casing at 540, and is steadily drilling. with the best rig in this part of the country. This company means to put down three wells or find oil.

Other contracts for wells are pend ing that promise to be interesting when their details can be made public.

The chances are that within three or four months this part of the country will be a great oil field. At least, we will have some wells tested out by that time. We are all confident that oil will be found somewhere near.

Have small leases and royalty around Odom's and Albin's can trade for bonds or good car, or sell in small quantities.
