SOLDIER BOY KICKS AGAINST Y.M.C.A.

ves it on Toast With a Garnish of Scotch Blessings, but the Captain "Stumps" Him.

If every kick and knock against the M. C. A. service overseas could be handled as an American man I know treated one case in his company there would be more in the of what the "Y" did and less of at they failed to do," said John M. rie of Melrose, Mass., who is just ne from operating Red Triangle s in the Calais and Ypres sectors. The censor one evening came across after from a boy to his folks back up, in which the "Y" was panned I served on toast with a garnish of the Scotch Blessings and reverse fish the boy had on hand. Now censor is a pretty tired man, and would not have blamed him if he let that letter go. But there was extra strong touch of exaggeration it that roused the censor's sense of lice.

o he sent the letter to the captain he boy's company and the captain let the boy in. This is the convention that followed: Did you write this letter? Yes, sir. Read it over—is there anything you'd like to change before it sent? No, sir. Then there was a short pause, in ch the captain studied the boy

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For a long while I suffered with stomach trouble. I have pains and a heavy feeling after my meals, a disagreeable taste in my mouth. If I ate anything but butter, oil or grease, I would spit it up. I began to get a regular sick headache. I had used pills and tablets after a course of these, I would be constipated. It seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

"Where did you get this letter?" "The 'Y,' sir." "Who gave you the paper?" "The 'Y,' sir." "It's warm and cozy, and something like home these, isn't it?" "Yes, sir." "Where do you get your cigarettes, candy, etc.?" "The 'Y,' sir." "You're always sure of finding what you want there?" "Yes, sir." "You go to the movies and a real show occasionally?" "Yes, sir." "What time do you get there?" "Doesn't cost you a cent, does it?" "No, sir."

There was another pause, and the boy's face was redder and his expression softer. Then: "If you don't mind, sir, I'd like to see that letter again."

Without a word he took it from the officer's hand, tore it once across, and dropping it into the basket made his salute, turned on his heel and walked out.

MAYBE THE SOLDIER DOESN'T GO TO CHURCH

But These Figures Will Prove Illuminating to the Skeptic—Only 4,523,343 Attend.

If every man, woman and child in the state of Texas, plus the entire population of New Orleans, La., were to unite in going to church on one Sunday the mobilization would still be less than the attendance at religious meetings in the Army Y. M. C. A. buildings in the Southern department from May, 1917, to December 31, 1918. The total attendance at 24,700 such meetings in the "Y" but was 4,523,343, according to figures compiled by the religious work department of the Army Y. M. C. A. at San Antonio, Tex. At those meetings 74,457 soldiers requested prayers—a number greater than the population of Oklahoma City. The number of Christian decisions made by these soldiers was 49,929—more than the number of counts in 1917.

MAY START TROUBLE FOR MEXICO AT EARLY DATE

Recent news reports seem to verify President Wilson's alleged statement that the United States must now intervene in the quieting of Mexico. It is stated that before the President left Europe he promised the heads of the English and French governments to intervene in Mexico to set up a government which would protect the interests of foreigners and maintain order.

This promise was made France and England on their agreeing to recognize the Monroe doctrine and keep hands off in the Western Hemisphere. Enormous British capitalistic influences, representing concessions in Mexico, insisted that Lloyd George exact a promise from Wilson that he would establish order in Mexico and maintain it, as it was necessary for someone to do the job, and the Monroe doctrine prevented the European powers from attempting it.

General Bliss, it is said, is fully aware of the President's plans regarding Mexican intervention, and it is reported all military plans for any campaign of invasion have long been prepared.

Should the United States postpone intervention until the League of Nations is ratified and comes into actual being, that Articles of the League constitution would technically prevent intervention, and it may be that President Wilson, accredited father of the League of Nations, will be the first, compelled by conditions, to be accused of violating it.

LONGVIEW QUIET AFTER RAGE RIOT

Seventeen white men of Longview have been arrested and are out on bonds of \$1000 each. The arrests were made on charges of assault with intent to murder in connection with gun fights between whites and blacks there last Friday.

The riot was precipitated when the white men went to the negro settlement in search of negro, S. L. Jones, accused of writing an article defaming the character of a white girl of that county and published in a northern newspaper. Six negro homes were destroyed by fire, one negro reported killed and several considerably beaten up. At present the town is reported as quiet, although soon after the beginning the riot stained such proportions that it was beyond control by the local authorities, and the entire county was placed under marshal law and patrolled by Ranger troops.

20 CARLOADS GRAIN SHIPPED FROM CROSS PLAINS

Up to Thursday morning of this week twenty car loads of this season's grain have been purchased by local buyers and shipped from Cross Plains. B. L. Boydston and Higginbotham Bros. & Co. share about equal in the purchases. Six car loads of oats are included in the shipment. These shipments can be classed as a very small percent of the total amount of this season's crop that will be shipped from Cross Plains, being principally toll and rent proceeds from the crop.

We are informed that the railroad company in their estimate of the number of cars that would be required to handle the grain crop from this point, had some time previous allotted only forty cars for Cross Plains. It is now estimated by local buyers and those familiar with the bulk of the crop that over two hundred carloads will be shipped from this place. However, should the favorable weather continue for the next ten days, threshing will be about completed, and it is believed that the grain in this section of Texas can be marketed before the crop farther north demands a large share of transportation facilities. During this week grain is being hauled to the local market at the rate of about forty wagon loads a day. It is believed by local buyers that by Saturday night of this week at least thirty car loads of grain will have been shipped and loaded ready for shipment from Cross Plains.

TRIBUNAL TO TRY KAISER TO HAVE FULL POWER

The international tribunal to try the ex-Kaiser will be absolutely unfettered; it will have power to impose any penalty it may think that the crimes of the imperial criminal demand, even the death penalty, if it is considered such a fate is warranted by the evidence brought before it.

There is no truth in the story that the American delegates only consented to the trial of the ex-Kaiser on the understanding that the death penalty was not to be inflicted. So far the names of the five judges to be chosen from Great Britain, the United States, France, Italy and Japan, have not yet been set ed, but the probability is that each country will send the head of its judiciary, the British Lord Chief Justice, the Chief Justice of the Supreme Court of the United States, and the President of the Court of Cassation of the French.

SOLDIER BUREAU FINDS JOB FOR EVERY APPLICANT

A hundred per cent record was maintained by the Soldiers and Sailors Employment at Fort Worth the past week. One hundred and nineteen men applied at the bureau for jobs and every one was placed in a job. The employment situation is greatly improved, Alex Terrell of the bureau stated. There are only a small number of idle men at present, and that number is decreasing slowly. Now that the majority of the soldiers have been released, Terrell says that the employment bureau is able to place every man who applies to them for a job.

MAY REPEAL DAYLIGHT SAVING LAW OVER WILSON'S VETO

The daylight saving law, adopted as a war time measure, repealed by recent act of Congress and would have changed back to the old time Oct. 1, has been vetoed by President Wilson. The President's objection to the repeal of the law was not readily accepted by Congress, as their act was governed by public sentiment and it is probable they will pass it over the veto.

**Governor Hobby
Asked to Resign**

A resolution asking the resignation of Governor Hobby because of his alleged action in connection with the attempt to relinquish the State's option to buy the Blue Ridge prison farm, was introduced in the House last Tuesday by Representative Pope of Nueces County.

It will be remembered that Representative Pope, last week, introduced a similar resolution asking for the resignation of W. J. Crawford of the board of regents of the State Normal Schools. According to news reports, Crawford has wired in his resignation, stating "he thought it best to resign because of recent matters in the Legislature."

Representative Malone's bill to give each Texas soldier who served in the United States army in the war with Germany, the sum of \$300 cannot become a law, because the State Constitution bars all bond issues over \$200,000, while Malone's bill calls for sixty three million dollars in bonds.

FIGHT FLIES; SAVE LIVES

It is said the American military records show that the common fly causes more deaths than the enemy.

Kill every fly you can and burn his body; but better still, stop his breeding by keeping your premises clean. See that your neighbors keep their premises clear of filth.

Flies will not go where there is nothing to eat; and their main diet is too filthy to mention.

The fly has no equal as a germ carrier; as many as five hundred million germs have been found on and in the body of a single fly.

It is definitely known that the fly is the "carrier" of the germs of typhoid fever; it is widely believed that it is also the carrier of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal and notification that a housekeeper is uncleanly and inefficient.

The foregoing is taken from a bulletin issued by the Merchants' Association of New York.

FIGHT FLIES; SAVE LIVES

It is said the American military records show that the common fly causes more deaths than the enemy.

Kill every fly you can and burn his body; but better still, stop his breeding by keeping your premises clean. See that your neighbors keep their premises clear of filth.

Flies will not go where there is nothing to eat, and their main diet is too filthy to mention.

The fly has no equal as a germ carrier; as many as five hundred million germs have been found on and in the body of a single fly.

It is definitely known that the fly is the "carrier" of the germs of typhoid fever; it is widely believed that it is also the carrier of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal and notification that a housekeeper is uncleanly and inefficient.

The foregoing is taken from a bulletin issued by the Merchants' Association of New York.

Date of Picnic Changed.

There will be a picnic Aug. 2, 1919, two miles southeast of Burkett at the same old place, in Frank Brown's pasture. There will be amusements for everybody. The public is cordially invited to come and bring a well filled basket. This is the first picnic of the season. We invite the hearty co-operation of everybody to make this picnic a success. Bert Brown, Foreman of Committee.

On account of threshing date of above picnic was changed from July 19 to August 2.

Army Experience

I left Camp Bowie July 11, 1918, and on August 1 we landed at a place called Brest in France. We did the most of our drilling at Pruett where we were in camp for two months. We then hiked 150 miles and on October 7 we got lost and wandered all night long. On the 8th we went over the top at St. Etienne and ran the Hun's twenty-seven miles and then on the 9th we went over the top the second time, after which we came off the front.

We boys sure saw some sights. On coming from the front we were covered with "cooties" and had to be dipped and were furnished with plenty of "conceal" or what we

call wine. I belonged to the 142nd Infantry, Company I, 72 Brigade, 36th Division. I am leaving for Vernon, and so thought I would write a few lines to our old home paper, wishing which a very long and prosperous life, I remain. Charlie Fullen.

THE NORTHERN STATES HAVE OFFICIALLY ADOPTED THE 56" AUTO TRACK WAGON

Neither too Wide nor too Narrow but Standard 56-Inch Auto-track

WEBER

Bought by Farmers Because of Its Known Qualities

REGARDLESS of all other considerations—the 60-inch wagon does not fit the road. Any advantages it might possess are offset by the fact that it is a stranger on its own roads. It rides the ridges, which causes broken axles, wheels and other parts, and the tongue whips about which is hard on the team.

The justly famous Weber wagon is built only in 56" auto-track because this is the standard approved tread of automobiles—and the automobile makes the ruts in mud or soft roads. If the farm wagon is increasing the same path it is out of date for road service. Automobiles are increasing among farmers because they are a time-saving necessity, and every farmer who hasn't an automobile intends to procure one at the earliest opportunity.

The Weber 56" auto-track wagon will do everything that the old 60" wagon would do. It will haul cotton bales as easily as the wide track wagon and the team can draw the load without having to pull every inch of the way. It lends itself just as readily to all kinds of farm work and in addition it fits the prevailing road tracks.

Besides the auto-track feature the new Weber has the patented Fifth Wheel and the "Safety First" Swivel Reach Coupling—two advantages that are worth \$20 apiece to the user during the life of the wagon.

By all means see our Weber wagons before you buy. We can offer you something that will save you money and give you service.

A Well Prepared Seed Bed Produces Bigger Crops

When you can make a better seed bed simply by using a disc harrow that does better work, pulls lighter, and lasts longer, why not do it? We can show you just such an implement—one that can be adjusted instantly to penetrate and pulverize the soil thoroughly its entire width in dead furrows, hard and soft ground, and over ridges, as well as on level land.

Next Saturday, or the first time you are in town, drop in and look at the John Deere Model "B" Disc Harrow which we have set up. Get on the seat and operate the levers. Notice that there is a lever for

angling each gang backward or forward so as to make the pull on the horses just right when part of the harrow is working in soft ground and part in hard ground.

And remember to ask us about the third lever. That is the feature you will appreciate because it enables you to raise or lower the inner ends of both gangs so as to make the harrow penetrate at the same depth its entire width in dead furrows or over ridges.

We want you to notice also the neat, substantial construction of this harrow. You will readily understand why it lasts longer.

CITATION FOR PUBLICATION.

The State of Texas. In the District Court, August Term, A. D. 1919.

To the Sheriff or any Constable of Callahan County, Greeting:

You are hereby commanded, That by making publication of this citation in some newspaper published in the County of Callahan, if there be a newspaper published in said county, but if not then in the nearest county where a newspaper is published, for four weeks previous to the return day hereof, you summon B. F. Hoffacker, Harold W. Seaman, I. W. Seaman, Lewis P. Lutzinger and the Southern Oil and Gas Company to be and appear before the District Court, to be holden for the County of Callahan, at the court house thereof in Baird, Texas, on the 11th day of August, 1919. File Number being 1865, then and there to answer the petition of A. J. Mathis and L. G. Mathis, filed in said Court on the 15th day of July, 1919, against the said B. F. Hoffacker et al., and alleging in substance as follows, to-wit:

Plaintiff says that on the 12th day of December, A. D. 1916, they were the owners in fee to 63

acres of land more or less, being a part of D. Millican survey in Callahan County, Texas, Pat. No. 383, Abstract No. 274. That on the above named day and date defendant B. F. Hoffacker unlawfully entered upon said premises and ejected plaintiff therefrom to their damage in the sum of \$1,500.00, and he, the said B. F. Hoffacker and his assigns are still unlawfully holding the said premises from these plaintiffs.

Herein fail not, but have you then and there before said Court this writ, with your return thereon, showing how you have executed the same.

Witness, Roy D. Williams, Clerk of the District Court of Callahan County.

Given under my hand and seal of said Court in Baird, Texas, this 15th day of July, 1919.

JOHN W. BAKER

STATE TREASURER ADVISES INVESTING MONEY IN W.S.S.

Two big reasons why every person should invest in War Savings Stamps are given by John W. Baker, State Treasurer of Texas, who was County War Savings Chairman in the 1918 campaign. Here is what he says:

"Thrift is the foundation upon which success is built. Those who save succeed.

"The people who take advantage of this year of the opportunity offered them in the Government Savings campaign to acquire the habit of saving sanely and spending wisely through the purchase of War Savings Stamps will be building for future prosperity and power. Thrift is power.

"Intelligent saving looks to future wise spending and is, therefore, postponed enjoyment with interest.

"United States Government War Savings Stamps are the best and safest securities that money will buy. These Treasury bonds pay four percent interest, compounded every three months. They increase constantly in value and that constant increase is guaranteed by the Government.

"There are two big reasons why every person should save and invest in W. S. S. First, it is to every one's financial interest to become the owner of as many War Savings Stamps as he can acquire. Second, there are still 2,000,000 American soldiers in France, Germany and Russia. They have to be taken care of, and money invested in War Savings Stamps will enable the Government to take care of them and bring them back home to America when they have finished the job of making world-wide peace permanent.

"This is no time for people to lay aside their patriotism, but instead a time when all of us must exhibit a higher type of patriotism than ever before. Investing in War Savings Stamps is profitable patriotism.

WAR IS NOT OVER UNTIL BILLS PAID

American soldiers in Europe must be fed and brought home. Until that is done the war will not be over, declares Carter Glass, Secretary of the Treasury. Buying War Savings Stamps will help the Government in making its final settlement of war obligations.

"There are two million American soldiers in Europe," Secretary Glass points out, "and obligation is just as much on the Government today as when the guns were firing to see that they are maintained in comfort, to provide for their return home. It is just as important, and even more important, to impress upon the American people the necessity of cultivating the habit of thrift and saving."

"The war will not be over until the United States Government has honorably met every commitment made in order to win the war."

JULIUS HAD NOTHING ON CAESAR OF TEXAS

J. Caesar of Rome, Italy, who took everything in sight he wanted, is dead and has been for a long time, but Caesar, Texas, is just a little more alive than anything else on its section of the map.

The word "Caesar" seems to stand for action and they do things at Caesar, Texas. For one thing—they stand loyally behind their Government.

Like thousands of other cities and towns, Caesar was swept by the War Savings movement last year. Every citizen who could bought or agreed to buy War Savings Stamps. Postmaster W. J. Vaughn now reports that every pledge has been kept, that no applications have been made to cash War Savings Stamps and that the Caesarites are still backing up the Government with their money.

Julius Caesar had "nothing on" Caesar of Texas.

Helps Sick Women

Cardui, the women's tonic, helped Mrs. William Eversole, of Patch, Ky. Read what she writes: "I had general breaking-down of my health. I was bed for weeks, unable to get up. I had such weakness and dizziness... and the pain was very severe. A friend told me I had tried everything else, why not Cardui? I did, and soon saw it was helping me... After 12 bottles I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is there a lack of good health? Do you get nervous from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for many thousands of other women who suffered should help you back to health.

Ask some lady who has taken Cardui. She will tell you how she has been helped her. Try Cardui.

In addition the president approved the licensing plan put into effect by Governor Barnes providing that persons handling wheat, with exception of growers, must be

Children Must Be Transferred Now

All parents or guardians of children desiring to transfer these children from one school to another for any purpose whatever must have the transfer made on the books of the county superintendent of schools on or before August 1. "Upon the transfer of any child its portion of the school fund shall follow and be paid over to the district or independent district to which such child is transferred; provided no transfers shall be made after August 1 after enrollment was made."

A child of a non-resident transferred to a district which levies a local tax, is entitled to free tuition for so long a time each year as the state and county funds maintain the school of the district, after the expiration of which time a reasonable rate of tuition should be charged, according to Texas school laws.
