

BURKETT
By Mrs. Merrel Burkett

The marriage of Miss Louise Hayes and Fleddon Strickland took place in Cross Plains Sunday when Justice of Peace, Drew Hill, read the single ring ceremony.

The bride is the daughter of Mr. and Mrs. Roy Hayes of Cross Plains. She finished high school in Cross Plains and has been attending college in Cisco. The groom is the son of H. L. Strickland of this place. Mr. and Mrs. Strickland are making their home here.

Mrs. Clarence Porter honored her mother, Mrs. Charlie Holman, with a birthday dinner Sunday.

Mrs. Velma Lee Renfro spent several days last week in the W. H. Thate home in Comanche.

Jack DeBusk sustained a broken finger Wednesday of last week while working with his cattle.

Following are some fish stories that evidently reverse the old theory about the big fish that always gets away!

On Thursday morning of last week Paul Thate and Claude Gray brought in a 4 1/2 pound yellow cat.

Paul Golsen and G. A. Earp got two last week that weighed 19 1/2 pound and 36 pounds.

Saturday morning Merrel Burkett and Elmer Edmondson brought in a 40 1/2 pound cat.

Also on Saturday morning a 34 pounder was caught by Grady Glen Harris and Marvin Burton. All these fish were caught on trot lines.

Guest in the home of Mr. and Mrs. Elmer Edmondson Sunday were: Mrs. Bill Watson, grandmother of Mrs. Edmondson; Mr. and Mrs. Otis Watson of Lawa; Mr. and Mrs. Melvin Haynes of Lawa, H. L. Strickland and Mr. and Mrs. Merrel Burkett of this place.

Mrs. H. B. Ramsour is attending school in Brownwood this week and will continue to several more days.

Mr. and Mrs. J. H. Patton of Kilgore spent last week here with her brother, J. C. Bowden and Mrs. Bowden.

Garvice Boyle, student in Draughon's Business College in Abilene spent the week end here with his parents, Mr. and Mrs. J. C. Boyle.

Jack Martin, J.T.A.C. student at Stephenville, spent last week end here with his parents, Mr. and Mrs. E. W. Martin.

Mr. and Mrs. Reece Porter and family of Fort Stockton have come back here to make their home at the present time.

Mr. and Mrs. Bert Brown of Cross Plains spent Sunday in the home of Mrs. G. W. Ramsey.

Mrs. Mildred Bagley of Sweetwater spent Sunday here in the home of her parents, Mr. and Mrs. J. R. Herring.

Mr. and Mrs. Judd Barnett and Mr. and Mrs. Paschell Jennings and baby, all of Cross Plains spent Sunday here in the home of Mr. and Mrs. L. D. Barnett.

Savings Stamp sales to the school children Tuesday amounted to \$16.50.

Trustees met one night last week and rehired the following teachers: Supt. W. R. Chambers; Principle, LeRoy Beard; A. J. Edwards; Mrs. J. C. Bowden; Mrs. O. Odums; Miss Vera Pearl Oliver and L. F. Holder. They hired one new teacher, Mrs. Clyde Brown.

COTTONWOOD CLUB MEETS ON FRIDAY IN STRAHAN HOME

Making useful and attractive slip covers for furniture was the demonstration given by the agent, Miss Ellen Steffens, to members of the Cottonwood home Demonstration Club Friday afternoon, April 17, in the home of Miss Missouri Strahan.

How to estimate yardage for material needed, blocking out pieces and cutting an accurate pattern were some of the features shown.

Slip covers have three uses: namely, as a protection, in place of upholstery, and as a decorative asset. The ideal slip cover fabric should be pre-shrunk fast color and easy to tailor as well as serviceable and decorative; emphasized Miss Steffens.

Those present were: Miss Steffens, Mrs. R. S. Peavy, Mrs. Floyd Coffey, Mrs. O. D. Strahan, Mrs. Bud Strahan, Mrs. S. B. Strahan, Miss Missouri Strahan and Mrs. Norman Coffey.

The Cottonwood Club will meet with Mrs. Bud Strahan Friday afternoon May first, at 2:30 p.m.

METHODIST NOTES CROSS CUT CIRCUIT

We had two good services at Cross Cut Sunday. Congregations small; but the best in the country.

The best always go to church, if not provisionally hindered. Because of the rain Saturday night and Sunday morning some believed that it was too wet and muddy to go to church. Did you know that it was that way or did you let the Devil pull the wool over your eyes and you saw the wrong side?

If you had known that Jesus would have appeared in the clouds, at 10 o'clock Sunday morning with His mighty trumpet in His hand, averting that time should be no longer, would you have gone to the picture show, played "42" or some other game until a late hour Saturday night; or would you have snored around until 10 o'clock Sunday morning? No you would not have acted just like you did. You would have been so alarmed that the picture show nor any kind of a game would have appealed to you. You would not have slept any Saturday night. You would have been praying to get in touch with your loved ones and friends, to see if they knew of the coming event; and if they were making any preparation for it. You say, "Brother Walker, you are just talking, we have heard talk like that before". Yes, I'm talking, but once in awhile I tell the truth.

MRS. NORMAN COFFEY IN CHARGE OF WOMENS MISSIONARY MEETING

The WMU of the Cottonwood Baptist church met Monday afternoon April 20th, with Mrs. Norman Coffey, president in charge of the meeting.

The Bible lesson was taught by the Bible Study Chairman, Mrs. Sam Moore.

Present were: Miss Eunice Hembree, Miss Mary Thomas and Mmes. H. S. Varner, W. R. Thompson, J. F. Coffey, W. B. Shirley, J. D. Mitchell, J. R. Ramsey, Sam Moore, and Norman Coffey.

On Monday afternoon, April 27th at 2:30 p.m. a Mission Study lesson from the book "The Larger Stewardship", will be taught by Mrs. R. T. O'Neal, Mission Study Chairman. All ladies are urged to be present for the WMU meeting.

***** BAPTIST CHURCH NEWS *****

The school exercises are changing our church program just a bit. Last Sunday we had the morning service. Only next Sunday, April 26, we will meet for the Sunday School at 10:45, central war time, and at 11:45 will dismiss and go to the Presbyterian church. Bro. Collins is not able to fill his pulpit as yet, and the Baptist, pastor will preach for him and his people at the morning service.

We will have our regular evening service at the Baptist church at 8:30 p.m.

Of course we expect the entire Sunday School and congregation to go with us to the Presbyterian church for the morning service.

Let us make it a great day for our Lord.

Cordially, C. E. POE, pastor

Roland Bryan, who was formerly stationed in Fort Sill, Oklahoma, has been transferred to Baton Rouge, Louisiana.

Mr. and Mrs. Owen Renfro visited relatives and friends in Baird Sunday.

Mr. and Mrs. Lou Haley visited relatives and friends in Baird the first of the week.

County Agent Says - -

Pocket Gopher Control

The Situation: Serious losses to food and feed crops grown on a large percentage of sandy soil in Texas result from damage by the pocket gopher. Control of the pest is of first importance in increasing crop yields. The rodent is especially the enemy of peanuts and truck crops.

Control: The most practical methods of control are poisoning and trapping. Where control is sought over a large area heavily populated by gophers, either poisoning or a combination of poisoning and trapping should be used.

Poisoning: As a pocket gopher will put up as many as 75 mounds in constructing its runways, each runway system should be baited at two or three places. Use about one level tablespoonful of poisoned grain, or two pieces of poisoned carrot or sweet potato at each baiting place. Locate the main runway by probing near, or between, fresh mounds. Do not probe too near a mound. Close opening in runway so that no light will enter, but avoid allowing sand or loose dirt to cover the bait.

Poisoned grain for control use is prepared by the United States Fish and Wildlife Service in its cooperative bait mixing plant at San Antonio. It is available to farmers at cost through commissioners courts or farmers' organizations.

Trapping: The specially designed pocket gopher traps when set will fit inside the runway or burrow. A gopher probe or iron rod may be used in locating a runway.

The runway should be opened up to allow placing of the traps. Traps should be set as far back in the runway as possible, one heading each way from the opening, and should be staked or tied together with wire. The opening should be left uncovered until after the prey is caught.

Pointers for Texas Agriculture

Fertilizer a year old is as good as that newly made, say Extension agronomists. It may cake in storage and have to be broken before use.

Bait mixture of 2 1/2 pounds bran, two ounces paris green, one cupful molasses, one orange or lemon and about two quarts of water should be scattered in areas infested by cutworms as soon as they appear. If the bait dries make three applications at four-day intervals.

To preserve rubber-insulated electric cord, lay it flat in storage and out of the sunshine. Avoid sharp kinks and bends.

As a preventive to coccidiosis, add 2 1/2 pounds of dusting sulphur to 100 pounds of mash and keep it before chicks until they are about 16 weeks old. Begin when chicks are three weeks old and have had access to sunlight (six hours of sunlight weekly is sufficient.)

The 1942 Texas goal for peanuts is 1,950,000 acres, or more than three times the acreage planted the previous year.

Lespedeza will grow on some soils too poor for any clover and on fertile soils too acid for either alfalfa or sweet clover, extension specialists say.

In summer pastures when grass is dry and dormant, lespedeza increases total yield from 25 to 100 per cent.

Whorled Milkweed Poison To Young Turkeys

A mouthful or two of whorled milkweed may kill a young turkey in a few hours. Because of its deadly character, George P. McCarthy, poultry husbandman of the A. and M. College Extension Service, advises raisers to eradicate the plant from turkey ranges before young birds are turned out.

Ranchmen long have known that this species of weed kills cattle, sheep and horses on the range each year, and have destroyed the poisonous plant wherever found. Recently, however, whorled milkweed has been proved a killer of turkeys and chickens as well. Immature, tender milkweed plants prevalent in the spring seem to be more deadly than more mature ones.

Mr. and Mrs. Frank Medford, of Kermil, visited Mr. and Mrs. E. E. Thate in Cross Plains over the week end.

A man may have a greasy hat and the seat of his pants may be shiny but if his children have their noses flattened against the window pane half an hour before he is due home for supper, you can trust him with anything you have.

How to take care of Your Electric Washer

Don't overload the washer, or use it to wash out just a few small pieces unless necessary. Drain immediately after using. Rinse thoroughly. Rolls and frame of wringer should be wiped dry. Release pressure on rolls when not in use. Leave cover off tub until all dampness has evaporated. Cord should be wiped dry and carefully wound on hooks. In using wringer, take care that no objects are left in pockets or metal buckles are allowed to scar or nick the rubber rollers.

How to take care of Your Electric Water Heater

No special care is required for an electric hot water heater. If properly installed, you can forget it. It will take care of itself. But be sure the thermostat is set to give the correct temperature. Keep it in operation all the time. (Since it's automatic, then reheating it, uses more current than continuous operation). If you live in a section where the water is extremely "hard", it occasionally may be wise to have the heating element taken out and the lime deposit removed. Other than this, there is nothing for you to do except don't waste hot water by letting it run down the sink.

How to take care of Your Electric Range and Small Appliances

Plan menus so that entire meals are cooked at the same time in oven or thrift cooker. In top-burner cooking, turn burner to low as soon as boiling begins. Be sure burners off when through using them. Don't allow liquids to boil over onto the cooking coil. (Metals in coils include copper and magnesium oxide and are hard to replace.) Wash outside of range with warm soapy water when cool. Food spilled over on surface cooking coils should be burned off. Wipe oven with damp cloth and remove food spillage after it cools.

Take good care of your small appliances because parts are becoming hard to replace. For example, the bristles in your sweeper come from China—or did. Not any more. And rubber belts and cords. You know about rubber and copper. Even electric elements in all appliances and switches for lamps are becoming scarce. So take care not to abuse them. All lamp and appliance cords should be handled a bit more carefully. Keep them off the floor if possible so they won't be trampled, knotted or kinked, causing the rubber insulation to break.

BE GOOD TO ELECTRIC APPLIANCES AND BE GOOD TO YOURSELF

METHODS of efficiency and economy being worked out to provide an ample light and power for military training wartime industries in this West Texas addition to your home and business. Appliances that once turned out an abundance of electric appliances today have been a production of war materials. Since appliances are vital in maintenance of civilization and in conserving time and energy for war, it is essential that we all take steps to insure the usefulness of the appliances now in use. We are offering some suggestions to make them last.

Take care of your Refrigerator

Cynical cynical Sam says, "Charity begins at home—but, in too many cases, it ends there, too."

Along the Bowen route: Down at San Antonio, Frenchy's Black Cat Cafe has a cash register that can ring up a ticket for \$999.99. The machine cost \$1,000.00. Of course, there's no need in and of itself of registering such the rest of the restaurant as practically a stage-restaurant sum as practically a million dollars but this high-priced register has features not available in a less expensive one.

And you and your observer never realized that at the making of a fur coat was so elaborate until a display at Josk's shop showed one being made and there were thousands of pins holding the material in place.

That's what reminds me of the lady who was looking at a coat made of skunk and she asked the salesman, "Will this be as injured by the rain?" He replied, "Madam, I have never seen a skunk carrying an umbrella."

"In all likelihood, Governor Coke Stevenson will not have an opponent," remarks the Clarendon News, editorially, "for if he does, the opponent will be some chap running for public with a scant chance of getting warm, since the Governor has made so many friends by his quiet, unobtrusive, kindly efficiency. The Governor should be returned to office and Texas voters will see that he is returned by a landslide."

Sign of a Los Angeles book store: "Bring a wheelbarrow and your small change—we mean business" (If Judge Ralph Yarborough had been out there, there really would have been action for the Austin jurist likes nothing better than browsing in a second-hand book store and emerging from the dark interior with some old, out-of-print precious book on Southwestern history).

A motorist was speeding along at 90 miles an hour when he was stopped by a highway patrolman. The driver driver injured, apologetically, "Was I driving too fast?" The officer replied, with elaborate politeness, "Oh, no! You were flying too low."

One of the tricks of Texas loan sharks is to have the borrower sign a check for the amount he promises to pay back on a loan. It doesn't make any difference whether he has a checking account, the lender says—it's "just a matter of form." But if the borrower gets behind in his payments, the check can be waved in front of him and he is reminded of the "hot check" law, which provides stiff punishment for persons who write checks without having a checking account in a bank. Faced with a jail threat, the borrower is an easy victim for a new loan at a still higher interest rate.

The Rockwall Success says that a young widow applying for membership in a certain life insurance organization was asked, "What is your husband's occupation?" Her answer was, "An angel."

Other replies by life insurance applicants: "Father went to bed feeling well and the next morning woke up dead." "Applicant has never been fatally sick." "Grandfather died from a gunshot wound inflicted by an Indian arrow." "Father died suddenly—nothing serious."

State Banking Commissioner McAdams announces that farm compliance checks hereafter will be mailed out of the regional office in Dallas direct to the farmer. This will make it unnecessary for the farmer to go to a designated town, usually the county seat, for his check—in some instances, making several trips to the AAA office to see if his check had arrived.

ANGELO MAN IS LONG CANDIDATE CONGRESS POST

James In Review Placing candidacy before Coleman Brown County Voters

Fisher, 38-year-old native of Congressional District, has been reared in Kimble County, and is a son of Mr. and Mrs. P. Smith of this place. We join their many friends in offering congratulations.

January 7, 1921: John Atwood and family last week moved to Abilene, where Misses Ruby and Myrtle are attending Simmons College. They will remain there during the school term, and perhaps the year. They are not giving up Cross Plains as their home.

January 7, 1921: On Thursday, December 23, 1920, Loyd Montgomery and Miss Cassie Wright were united in marriage at the Methodist parsonage in Cross Plains, the pastor, Rev. R. O. Bailey, performing the ceremony. The bride and groom lived north of town, the former a daughter of Mr. and Mrs. M. Wright, and the latter a son of Mr. and Mrs. L. D. Montgomery. The young couple are representative young people having the good-will and best wishes of many friends for a long and happy life, and may they have it.

May 6, 1921: A severe wind storm, accompanied by a downpour of rain and hail, extended over this community last Saturday evening. Considerable property damage is reported from various parts of the surrounding country and a number of windows were broken out in Cross Plains, the interiors of the buildings being damaged by the rain and hail. The new oil derrick which was completed last week by the Penant Oil & Gas Co., on the Newton location about two and one half miles West of Cross Cut, was blown down and completely wrecked. The contractors at this well, state that it will require about ten days to rebuild the derrick. At Pink Barr's home near Cross Plains all the brick floors were blown down considerably damaging the roof. A dwelling house on the Newton farm near the destroyed derrick was blown from its block.

June 10, 1921: A few days ago while Mr. John Farr's boy was plowing a horse on his farm a short distance South of town a large rattlesnake was encountered while lying in the furrow, which bit the horse a number of times on the leg. Mr. Farr was near by and thinks the horse remained standing on the tail of the snake until bitten several times, as part of the snake's rattles had been mashed off. Mr. Farr killed the snake, measuring about four feet, and the effects of the poison was so intense that it was only after great efforts by bandaging the leg, making incisions over each of the bitten parts and applying antivenoms that the life of the horse was saved.

June 17, 1921: Lon Poage, 35, a farmer, was instantly killed by lightning last week while at work in his field. He lives a mile North

NEWS BRIEFS OF BYGONE DAYS

Little Squibs Gleaned From Files Of Review

January 7, 1921: Charley L. Smith and Miss Dovie Childers were married in Cross Plains on Saturday, January first, at the home of the M. E. parsonage, the R. O. Bailey making them one. The bride is a daughter of Mr. and Mrs. J. M. Childers of Dressy, and the groom is a son of Mr. and Mrs. P. Smith of this place. We join their many friends in offering congratulations.

June 17, 1921: Lon Poage, 35, a farmer, was instantly killed by lightning last week while at work in his field. He lives a mile North of May in Brown County. Three other field workers were shocked but not seriously injured. Poage is survived by a wife and four children. He was one of the well known farmers of the North section of Brown County.

July 15, 1921: A new Ford touring car was stolen from Wilbur Williams' private garage on last Saturday night. Wilbur and family were fully prepared to leave on Sunday morning for Houston and other points and had the Ford filled with gas and oil in the afternoon, putting it in good shape to go one hundred miles or more without stop. Their disappointment was great when Wilbur went to his garage on Sunday morning to find the garage open and not a car in sight. He got an officer and traced the car for a distance North of town. Every effort is being made to locate it, but it is a hard matter to get a car back once it is stolen. He carried no insurance.

July 15, 1921: Mrs. Will Burns, of Burkett, claims the prize winning turkey hen of the state. The hen since March 15, has produced 91 eggs, which is claimed a record breaker.

LARGE SNAKE CAUGHT ALIVE ON FARM FOUR MILES SOUTH OF HERE

A diamond-back rattle snake, nearly five feet in length, was captured alive by Harry Walker and J. E. Steward on the former's place, four miles South of Cross Plains, Monday morning.

The reptile one of the largest ever taken alive here was brought to town and exhibited to townspeople. Walker explained that the snake was taken alive after he had been addled by several stone throws. The men then looped his head with a large cord. It is believed that there is a large snake hibernating place somewhere in the vicinity of the Walker farm.

***** METHODIST CHURCH *****

What are you, an active aggressive Christian, a lukewarm follower, or an abandoned bull of a one time usable vessel? Float the old vessel again, get off the sand bar, and the rocks, you probably have valuables in your cargo the world badly needs. Go to church regularly; join the groups that would turn the world back to God, and prosperity.

Please remember that the Sunday School starts at 10:45 and the Morning Church Service starts at 11:45 each Sunday.

Young people and Intermediates meet each Sunday at 7:45 just before the Evening service at 8:30.

"He who goes one inch toward God through doubtings dim, God will advance a mile in blazing light toward him."

Attend the services of your church regularly and give God a chance to use you in His service. C. D. WOOTEN

This honor list is compiled from students making a grade of "A" in one or more courses during the past nine weeks.

100 POUNDS OF FISH CAUGHT IN ONE NIGHT

Jeff Clark and Rev. C. E. Poe returned to town Thursday morning with one of the largest catches of fish seen in these parts in some time. They had nearly 100 pounds of fish to show for one night's effort. Largest fish in the group weighed 38 pounds.

Members of the board of deacons, their wives and families enjoyed a fish supper at the church tabernacle Friday night.

"As usual, you can quote us as saying the biggest fish got away but this time that's exactly right," the two declared.

Mr. and Mrs. Franz Freeman visited here the latter part of last week before leaving for Jackson, Mississippi, where they visited Harold Freeman, who is in the air corps the past week end.

Woman Lives Through 5 Wars BILLINGS, MONT.

Mrs. Sarah Vorus, 102, bases her conviction that "war is a terrible thing" on the fact that she has lived through five of them—from the Mexican war of 1849 to the present conflict. Her husband was a first lieutenant in the Civil War, in which she served as a nurse.

A hick town is a place where it's cheaper to feed your neighbor's chickens than to have a next-door enemy.

SEE SUGAR RATIONING AS AID TO ASTHMA SUFFERERS

The war-time sugar rationing program will have its bright side for asthmas sufferers, Dr. Earl J. Drinkall, Chicago physician reports.

Dr. Drinkall told the Western Pennsylvania Osteopathic Association that asthmas sufferers can find great relief by total abstinence from sugar and sugar products.

Sugar aggravates asthma, he explained, describing the breathing difficulties of afflicted persons as a "reflex from the action of sugar in the stomach and intestines."
