We are equipped to give you expert ideas on every printing requirement. Our printing equipment is modern... our printers are the best. Why not let us show you just how inexpensive finer printing is in the long run?

The Baird Star

MODERN PRINTERS

housewives because quite often a soapy film is left on the surface of the material when it is dry. Evelyn Wieland, says that it shouldn't worry housewives any longer, not if they do it this way.

She suggests first that the housewife use detergents, the soapless kind, but to be sure and read the directions on the package, as some detergents are used for cottons while others are recommended for rayons. Next she says, to use gelatin instead of starch. Dissolve one tablespoon of gelatin in a little cold water and then add two quarts of boiling water. The amount of water used, she says, depends on the desired stiffness of the garment.

After the garment has been

washed and rinsed, and while still damp, dip it into the gelatin solution, squeeze out, roll in a towel, and iron while damp.

SEED SAVING

New and inexperienced gardeners in Texas now may be interested in some pointers of saving vegetable seed.

Seed saving is commonly practiced among experienced gardeners only on such vegetables as okra, corn, beans, peas, cucumbers, squash, cushaw, tomatoes, pepper, lettuce, mustard, eggplant, cantaloupe, water-melons and sweet potatoes. Cabbage, beet and carrot seed will not mature in less than two years time. Seed saving on those vegetables doesn't go so well in Texas climate.

The veteran gardener in saving seed, picks out particular plants that are true to variety, and which show productiveness and fruitfulness. He takes special care of the plants until time to harvest the seed.

Time of harvesting seed differs with the plant. On English peas and beans, the harvest sign is a browned pod; field peas and corn are left in the field until ready to harvest and store; cucumber, squash, cushaw, watermelon and cantaloupe seed can be taken when the plants are fully mature; on peppers and tomatoes the seed is ready when the fruit is dead ripe and brilliant red. Mustard, lettuce, radishes, collards and the like can be cut as soon as the seed pods are well matured, and hung in a cool dry spot.

TOMATO BLOSSOMS SHEDDING?

It's a good bet that gardeners are having troubles right now with tomato plants shedding their blossoms. Usually, it's caused by a combination of high temperature and low humidity. When hot, dry windy days come along, the blossoms become sterile and shedding follows.

Sometimes, you can cut down blossom loss by spraying or sprinkling water on the plants late in the afternoon. The water gives a more uniform moisture condition, raises the humidity and lowers the temperature.

Now you're going to say you've got tomatoes that have had plenty of water, the vines are in good shape and still the blooms are falling off. Well, the horticulturists say that your trouble in this case may be a small greenish bug that stings the blossoms and sucks the juices out of the small blossom stem. A dusting job with .75 percent rotenone will get this little green bug if you repeat the treatment for several days until all signs of the insects are gone.

In some cases, blossom shedding has been stopped by a little summer pruning, cutting off all the suckers up to the first flower cluster. And a virus disease, mosaic, which sometimes causes blossoms to shed and makes leaves curl up, can only be dealt with by pulling up and destroying the plants that are affected most.

Use stationery by The Star.

Oplin Observations

Odds and Ends Opportunely Offered in Open Order.
By Joretta Gwin

Mr. and Mrs. Nelson Burks were honored with a miscellaneous shower Saturday afternoon, June 28. Mrs. Burks is the former Joan Poindexter, daughter of Mr. and Mrs. Timmie Poindexter.

Mrs. C. P. Correl of Melrose, N. M. is visiting her children for a few days.

Mr. and Mrs. Joe McBride and family of Eden are visiting relatives and friends for a few days.

Mr. and Mrs. Henry Settle of Big Lake, have been visiting her parents, Mr. and Mrs. S. S. Harville.

Lucien Warren, Claudean and Joretta Gwin attended the Slough reunion at the 36th Division Park at Brownwood, Sunday.

The Intermediate and Young Peoples Sunday School class of the Baptist Church were honored with an ice cream supper by their teachers on Friday night June 27, at Tommie Windham's.

Mrs. J. H. Straley has returned home after visiting her children in Lampasas. Her daughter, Mrs. Ernestine Windham, and her sister, Aunt Mattie, accompanied her home.

Mrs. Leola Peevy received word Tuesday that she had a new grandson. He is the son of Mr. and Mrs. Don Christie of Royalton, Minn. Mrs. Christie is the former Oma Johnson.

Mrs. Anna Atwood, Mrs. Eva Brock and Dean Brock of Abilene visited Mr. and Mrs. Ernest Gwin and family Monday.

Cottonwood Chips
Community Chatter Carefully Collected for Your Consideration.
Hazel I. Respass

Mr. and Mrs. Leslie Addis and daughter of El Paso, visited with her mother Mrs. R. J. Young and family last week.

Miss Lessie Joe Wood is attending a business school in Abilene this summer.

Mrs. Maud Whitzel and daughter, Rozell, of Roswell, N. M., and Mr. and Mrs. A. N. Whitzel and boys of Seminole, visited in the Respass home with relatives Sunday. Mrs. Maud Whitzel was on her way to Temple where she will enter the Scott and White hospital for medical treatment.

Mrs. May Corporal of Cleveland, Ohio, and her brother, Ross Norton of New Mexico, visited their sister, Mrs. R. J. Young and family Monday.

Mrs. Bud Haldridge, better remembered as Mrs. Sarah Eliza Kennedy, spent Friday, night with Beulah and Hazel Respass.

Mrs. Jim McGowen of Odesa, is visiting her mother, Mrs. T. A. Coppinger and other relatives this week.

The home talent play staged Friday and Saturday nights was well attended both nights.

Mr. and Mrs. Jessie Bigbee and daughter of Brownwood visited her parents, Rev. and Mrs. C. R. Myrick Friday night and attended the play at the school house.

Davy Todd, Anson, is visiting his grandparents, Mr. and Mrs. M. D. McElroy, and his uncle and aunt, Mr. and Mrs. John T. Sparks.

ALONG SHACKELFORD COUNTY LINE
Mrs. Opal Wolfe

Luncheon Club of Moran met at the home of Mrs. Floyd Parrish at Deep Creek Wednesday with Mrs. Parrish as chairman. Fried chicken with all the trimmings was served to Mrs. Dave Parrish, Mrs. B. L. Chaney, Mrs. G. W. Wolfe, Mrs. Bud Brooks, Mrs. Wilber Mitchell, Mrs. Hogan, Mrs. Albert Morris and Mrs. Durham. The grain harvest has cut our attendance to a small crowd, but if you want a good dinner for sixty-five cents, you ought to attend.

Grain harvest is about over in Moran with 46 cars being shipped and about 10 more to go. Hail destroyed most crops in the Colony district. Bertram Elliott has shipped 6 cars from his ranch. The yield has been good.

Mrs. John Wolfe has had her parents, Mr. and Mrs. Scotterwhite, of Oklahoma, and her sister, Mrs. Jack Coker of Brownwood, visiting her.

SCOUT CHATTER

Barbara Boyd and Gayle Dyer. A visitation course will be planned by members of the Girl Scout leaders to arouse the interest of the parents in the girl's scouting program in Baird. The decision was made when the leaders met with Mrs. M. D. Bell Thursday afternoon. The girls are taking a correspondence course in Girl Scout Training. Free swimming lessons are going to be given to the Baird Scouts July 28th through August 2nd, which is sponsored by the Abilene Reporter-News, and under the supervision of the Red Cross. Another leaders meeting will be held the third Thursday in July. An iced drink was served as refreshments.

went on a swimming party to Cisco Tuesday, June 24th. Four new members are Barbara Boyd, Melba Tyson, Robbie Lincecum and Norma Farmer. Troop 5 girls who worked at the hospital are Robbie Vaught, Melba Tyson, Anita Ivey and Betty Dungan.

DDT
The following are recommendations for DDT to control insects. Those insects not mentioned in this paper cannot be controlled with DDT or other insecticides are more effective or safer than DDT.

COTTON INSECTS: Flea-hopper - 5% DDT-Sulphur mixture with at least 75% sulphur at 12 to 15 lbs. per acre usually a single application is sufficient. Boll Worms: 10% DDT-Sulphur mixture with at least 75% sulphur. Apply 10 to 15 lbs. per acre at 5 day intervals. Sink bugs and plant bugs - Same as bollworms. Thrips - 5% DDT. Sulphur dust applied at 10 lbs. per acre.

FRUIT INSECTS: Pecan nut casebearer - 3 lbs. of 50% DDT per 100 gallons of water when tip end or small nuts turn brown or black. Leafhoppers - 5% DDT dust or 2 lbs. of 50% DDT per 100 gallons of water. Grape leaf older - same as for leaf hopper. Codling moth - 2 to 3 lbs. of 50% DDT per 100 gallons of water at 10 to 14 day intervals. Oriental fruit moth on peaches - 2 to 3 lbs. of 50% DDT per 100 gallons of water at 10 to 14 day intervals. Peach twig borer - Same as for fruit moth. No DDT should be applied within three weeks of harvest.

HOUSEHOLD PEST: Ants - 5% DDT dust or spray. Houseflies - 5% DDT in oil as a residual spray, or 3% DDT and 2% pyrethrum in aerosol bomb as space spray. Mosquitoes - Same as for houseflies. Bedbugs - 5% DDT oil spray applied only to the bed. Dog ticks - 5% oil spray, or 10% DDT powder. Cockroaches - 10% DDT dust or 5% oil spray followed by 3% DDT aerosol. Clothes moths - 5% DDT stainless oil spray. Carpet beetles - Same as for clothes moths. Silverfish - 5% oil spray, or 10% RRT dust. Human lice - 3% DDT dust or spray clothing with 5% DDT stainless oil spray.

FLOWERS, SHRUBBERY & SHADE TREES: With the ex-

ception of scale, red aphids, mites and mealy bugs, 5% DDT dust, or 2 lbs. of 50% DDT to 100 gallons of water repeated at 10 to 14 day intervals will control other insect pests.

POULTRY LICE: Chicken lice - 3% DDT or 5% Spray over the birds when on roast. Feather mites - 5% DDT with sulphur at 10 day intervals. Blue bugs - 10% DDT oil spray wherever blue bugs are hiding.

STORED SEED, GRAIN, ETC.
1. One ounce of 3% DDT dust with 100 lbs. of seed plus equal amounts of magnesium oxide protects seed from insects and some diseases. 2. Spray bins or other storage places with 5% DDT oil spray before storing grain destroys all but egg stage of stored grain pests. 3. Treating bags of kraft paper by dipping in a 10% DDT acetone solution prevents damage by stored products insects for many months.

ANIMAL EXTERNAL PARASITES: Beef cattle - either spray or dips can be used so long as every animal is thoroughly wet. Hornflies - 4 lbs. of 50% DDT per 100 gallons of water will last approximately 2 weeks and all of the next generation of flies will emerge at the same time. Second application of 8 lbs. of 50% DDT wettable powder per 100 gallons of water will protect the animals

longer than the hornfly generation. Usually a third application will not be needed until late summer or early fall. Use 4 lbs. of DDT per one hundred gallons of water in animals were not treated. Lice - the above treatment for horn flies will control the lice if animals are thoroughly wet, or two treatments at 15 day intervals with 4 lbs. of DDT per 100 gallons of water. Ticks - 8 lbs. of 50% DDT per 100 gallons of water repeated at 2 or 3 week intervals will control ticks. Lice - Same as for beef cattle. Live and Sheep Ticks - A single dipping in Stock 1235 which contains DDT in pine oil emulsion. The finished dip should contain .2% DDT. Hog lice - Thoroughly wet the animals with 8 lbs. of 50% DDT per 100 gallons of water.

BARN AND OTHER OUTBUILDINGS: 5% DDT spray either made from oil or wettable powder in water. If second application is needed, use 2 1/2% DDT.

DON'TS FOR DDT
1. Don't mix DDT with lime, but it is compatible with insecticides not highly alkaline.
2. Don't use DDT on vine crops, melons, cucumbers, etc.
3. Don't use DDT liquid preparations which contain solvents for DDT on cattle.
4. Don't use DDT on leafy vegetables.
5. Don't overdose fruit and vegetables with DDT.
6. Don't mix liquid preparation of DDT in dipping vat containing arsenic.

**SGT. JOYCE RAINBOLT
IN GERMANY**

Weisbaden, Germany, June 17
Sgt. Joyce Rainbolt, daughter of Mrs. G. F. Rainbolt of Cisco, will have much to tell about Germany when she returns to the States. Wiesbaden itself, now the home of the Headquarters, United States Air Force in Europe, the organization policing occupied Germany from the air, is one of the most famous spas and health resorts of pre-war Europe. Sgt. Rainbolt has found much of interest in the city where she serves with WAFS radio station of Headquarters Command.

The Wiesbaden Military Command has taken over many of the famous buildings of the city. For example, the Kurhaus, a famous casino built in the Classic style, is now the home of the American Red Cross Club. Hotels and Pensions have been taken over for billets and just ask Sgt. Rainbolt when she gets

back about the hot mineral baths.

Sgt. Rainbolt, with her fellow soldiers is taking her job with the Occupation Forces seriously. Work with the German Youth Activities Program, which seeks to bring the benefits of democratic way to the youth of post-war Germany offers her a change from the more serious job of policing the occupied country.

DANGER AHEAD!

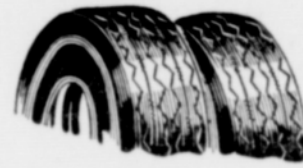

James Cagney, Annabella and Richard Conte have a rendezvous at "the most sinister address in history" in Twentieth Century-Fox's exciting story of dangerous adventure, "13 Rue Madeleine," which opens Saturday Prevue, Sunday and Monday at the Plaza Theatre. The swiftly-paced film unfolds a thrilling saga of espionage and counterespionage behind enemy lines.

Some of the real occurrences used in the picture are far more exciting and daring than any fiction conceived by man. The film takes the spectators behind the scenes of the most closely guarded secrets of the Allied intelligence services during the war and shows the fearlessness of the heroes who risked their lives unsung and unheralded.

**WHO RUNS
THE NATION'S LARGEST*
BUSINESSES?**

NOTHING quite so much astonishes the stranger to America as the democracy of American Businesses—where the factory employee can become the president of the largest corporation, or a grocer one of the world's great food suppliers.

In a recent survey of this subject, 50 of the largest businesses in America, employing several million workers, were asked to give starting figures on the men who are now their top management.

Here are the results. One started for \$1.50 a week—eleven others for less than \$5.

Forty-three others started work for less than \$10 a week.

Eighty-one others received between \$10 and \$25 a week. And only 7 received more than \$25 a week—the highest getting paid \$69.23 a week.

The average starting wage of all 143 was \$13.40 a week. Thus every one of these managers, it can be truthfully stated, worked up from the bottom rung of the business ladder.

When you think of the head of a big business, think of a young man who once drew an envelope at the end of the week with \$13.40 in it.

*Based upon an analysis of assets in the years immediately preceding the war.

Company**

Midway Musings
Miscellaneous Melange and Minor
Mention of Men and Women.
By Mrs. W. B. Tarver

Rev. Egger, Methodist pastor of Clyde, preached for us Sunday, and has an appointment for next Sunday at 3 p. m.

Louise and Fay Etta Faircloth and Betty Gaye Webb spent last week visiting relatives in Marfa.

Otto Rogers family were picnicking and fishing Saturday.

Oneal Faircloth returned home from a week's visit near Bradshaw Monday.

Mrs. Albert Owens and children of Abilene visited her parents, Mr. and Mrs. A. Wilson Saturday.

Mr. and Mrs. Lewis Simmons were supper guests of Mr. and Mrs. Wyndell Batley Tuesday evening.

Mrs. Burton of Fort Worth spent one night last week with her brother, V. O. Faircloth and family.

Mrs. Sidney Strain and sons of Moran visited her parents, Mr. and Mrs. Tarver this week-end.

Crops are being greatly damaged by grasshoppers.

Summer is the time for play and that of course means all sorts of bright play clothes for fun and frolic. This year designers have created some of the most flattering outfits ever. They are designed for comfort, but they're pretty, too. Furthermore, you can make them yourself for a mere pittance. With material salvaged from an old dress—or even a worn shirt of your husband's—you'll be mighty pleased with the perky sun seekers you can turn out.

Imagine how proud a young daughter will be to have an outfit which is a twin to her mother's. And who would suspect that the two happy suits started life as pastel dresses in a 1940 wardrobe? Or that a couple of packages of Turquoise Blue all-purpose dye transformed them into the lovely color that made the material look like new? A simple pattern from the local pattern counter, a few

sessions at the sewing machine and the suits were done. Think of it—two snappy beach outfits for around the sum of \$1!

That number you split under the arms last summer still has a mission in life, too. For by cutting off the sleeves and shoulders and restyling with a camisole top, then dyeing it one of this season's popular colors, you've got another dazzling sun number.

When a favorite bathing suit has become faded from the sun and frequent wear, don't cast it aside to be forgotten but dye it a brilliant color and credit yourself with the cost of a new number. But do remember to use an all-purpose dye, for sometimes fabrics are not what they seem and what appears to be wool may be a combination of many fibers. So use an all-purpose dye that works on all fabrics and eliminate the risk of making a wrong guess.

Rowden Round-Up
Community Activities Reliably Re-
ported by The Star Reporter.
By Dorris McClain

A very large crowd attended the Callahan County Fifth Sunday singing convention at the Rowden Baptist Church Sunday.

Clydene Hilley and Raymond Wayne Mauldin of Tuscola have been visiting with Mr. and Mrs. Gene Mauldin and children.

Miss Gayle Sanders of Abilene has been visiting Mr. and Mrs. George Sanders and Miss Belinda Kline.

Mr. and Mrs. J. C. Bruce and daughter of Putnam spent Monday afternoon with Mr. and Mrs. R. L. McClain.

Miss Carlene Roberson has not been feeling well lately.

R. L. McClain suffered bruises Thursday while working in Abilene. A scaffold he was on broke

and he fell six feet to a concrete floor.

Miss Frankie Rae Frye returned to Midland with her father Sunday.

Rev. E. L. Redden has resigned the pastorate at the Rowden Baptist Church. Rev. Mathers of Clyde will deliver the sermons next Sunday morning and night.

Mr. and Mrs. Ruben Sanders and children of Abilene, visited Mr. and Mrs. George Sanders Sunday.

DUDLEY H. D. CLUB

Dudley Home Demonstration Club met in the home of Mrs. F. L. Coughran with Evelyn Wieland, county agent, as guest speaker. Her topic: "A convenient Work Area In The Yard."

Kitchen conveniences was the topic discussed by Mrs. Roy Armor. Suitable tools for the task was discussed by Mrs. John McKenzie.

Mrs. H. M. Burleson was named candidate from the Dudley Club as delegate to the Texas Home Demonstration Association meeting.

Miss Thelma Casey, district agent for this district, spoke briefly.

A refreshment plate was served to the following: Mrs. Dixie Ferguson and Miss Thelma Casey, visitors and members: Meses. Roy Armor, Lawson Armor, C. H. Betcher, John McKenzie, Dolph Hodges, Oia Roberts, F. L. Coughran, H. E. Baldrige, Jr., L. L. Atchley, H. M. Burleson, M. C. Wolfe, C. W. Wilkerson, E. W. Crawford, Esker Crawford, L. G. Chrane, C. W. Barnard, Misses Evelyn Wieland, Wandene Crawford, Elizabeth Ann McKenzie, Charlotte Baldrige, Betty Lou Coughran, Wilma and Margaret Armor, Stanley Crawford and Ross Betcher.

Next meeting will be July 9.

Don Wilson has been made manager of radio station KORC at Mineral Wells. Mr. Wilson was formerly employed at the radio station at Denton.
