CROSS PLAINS' OLDEST BUSINESS INSTITUTION

FRIDAY, MARCH 26, 1943, Vol. 33, No. 52

"Without offense to friends or foes we sketch Cross Plains exactly as it goes."

## COUNTY TOPS RED CROSS GOAL

CALLAHAN TOTAL IS LIKELY TO REACH \$5,000 SAYS SOUTH

\$4,600 Already Paid In And Three Communities Have Made No Reports As Yet

Callahan county maintained its perfect batting average of never failing to meet a war time goal this week, as the Red Cross quota assigned Callahan was exceeded by nearly \$1,000. The figure will be swelled even further when funds from three unreported communities are received, opined Ralph South, county chairman.

Already paid in is \$4,600 and the consensus is that the final figure will pass the \$5,000 mark.

Cross Plains led off with a brilliant start two weeks ago when more than \$1,300 was raised in a street rally here. Baird, with the same plan, plunked down over \$1,800 last Saturday. Other communities came in comparatively good and the \$3700 quota has long since been exceeded.

Red Cross officials over the entire county have repeatedly expressed their appreciation to the public for the patriotic response to the call, and as expressed by V. C. Walker, chairman of the Cross Plains precinct, the consensus appears to be: "We never have, and never will, fail to meet a war time quota; we'll back our fighting men with all we've got".

## Farmers Asked to Meet Here Night of April 3

BOARD MEMBERS ARE TO BE PRESENT AND OFFER SUGGESTIONS

Other Gatherings Also Set In Cottonwood, Putnam, Denton and Oplin Areas.

As a part of a series of instructional meetings held over the entire county, a gathering of farmers has been scheduled in the Cross Plains high school building for Friday night, April 2, beginning at 8:30. Members of the Callahan county U. S. D. A. board are to be present and outline ways and means of increasing production to the end of helping each individual farmer reach his established goal in the "Food for Freedom" campaign.

Other meetings of this nature are to be held in the Denton school building the night of March 26, at Oplin the night of March 29, at Cottonwood the night of April 31, at Putnam the night of April 1st and at Baird the afternoon of April 13th.

The Callahan county U. S. D. A. War Board is recommending that peanut growers of the county follow the practice of stubble mulching to help keep the land from blowing and to increase yields of the much-needed war crop. "Stubble mulching," says the War Board "is the use of field residues or trash such as dead grass and weeds, feed stalks, pea vines and other litter to cover the ground."

Such practice will increase yields and prevent blowing. L. W. Mansfield reports that for several years he has followed the practice of keeping maize stalks and stubble on top of the ground. He keeps them there by plowing his maize land with sweeps instead of breaking plows or listers. He says that yields are increased without the use of extra labor or machinery. In fact he probably uses less power than he would if he broke or listed his land.

M. E. Herron of the Golan Community in Jones county says he has followed the practice for years of trying to farm with the trash on top of the ground. He finds it keeps his sandy land from blowing.

W. O. Dawson, near Abilene, has changed to stubble mulch farming his entire farm this year. He operated his one-way plow to leave trash on top of the ground. He is carrying on a special demonstration of the practice on an eight-acre plot between a couple of terraces. He was able to leave at most all dead plant material on top of the ground by removing the wings from his John Deere lister and plowing with only the points.

He plowed the middles and then went back and rooted out the maize stalks with the same plow. "I understand," Dawson stated, "that stubble mulching will increase the rate that water will soak into the ground from three to eight times. That means the litter should be kept on top throughout the year." It is possible to keep as much litter as possible on top of the ground during the spring and summer. Dawson plans to kill any weeds that come before planting with sweeps, plant behind solid sweeps set flat, cultivate the crop with sweeps.

## BAYOU 4-H CLUB MEMBERS MEET AT SCHOOL MARCH 17

How to feed and take care of baby chicks was the subject of the program held by 4-H members of Bayou at their meeting at school March 17, at which Charles Sargent presided.

Feed for chicks of different ages was shown by H. D. Agent, Miss Brown, who also showed homemade feeders made from scrap lumber. "Baby chicks must have clean feed and water given to them in clean containers," said Miss Brown.

Keeping chicks warm and conditions about their sanitary were points made by W. M. Meador, county agricultural agent. Making a small home-made brooder burning oil when no brooder house is available was pointed out as a means of taking care of little chicks. Correct heat, ventilation, and sanitation through providing a satisfactory litter are necessary if a good percentage of the chickens are to be raised.

## H. A. MCWHORTER BURIED TUESDAY

Last rites for H. A. McWhorter, 84, beloved pioneer citizen and Callahan county ranchman, were held from the First Methodist church in Baird Tuesday afternoon at 3:30 with Dr. J. T. Griswold, veteran Methodist minister, conducting the rites. He was assisted by the Rev. W. B. Hicks, pastor of the church. Burial was in the Ross cemetery at Baird.

Mr. McWhorter, who had been in declining health for several weeks, died suddenly Monday morning at his ranch home, 16 miles West of Cross Plains. He had stepped out to the back porch and was feeding pet squirrels when fatally stricken. Death resulted from heart failure.

Born in Hood County, near Granberry, November 18, 1859, Mr. McWhorter came West settling in Callahan county in 1876, one year before organization of the county. He remained 67 years and became one of this section's prominent and more favorably known cattlemen. For the past few years however, he had not been as active as hitherto as a result of his advanced age.

Auditorium of the Baird Methodist church was crowded to capacity Tuesday afternoon as friends gathered from far and near to pay last respects to another lamented member of that vanishing legion of Pioneer Texas cattlemen. There for their last earthly adios were elderly men and women who in their youth followed the setting sun beyond another horizon to win and build an empire on the expansive prairies.

H. A. McWhorter was married to Miss Rosa Lambert, daughter of the late Wiley Lambert, November 28, 1893 and to the union were born six children, five of whom with the widow survive. They are: Mrs. Fred Cutbirth, of Cross Plains; Mrs. Colonel Dyer, Baird; Mrs. Delbert Sawyer, Lubbock; Aleo McWhorter, Jr., Oplin, and W. O. McWhorter, who lives on the home ranch. Other survivors include 12 grandchildren, two great grand children, a number of relatives and a great host of friends.

## LOGAN LONG AND MISS MADELINE McANALLY WED

Private Logan Long and Miss Madeline McAnally were united in wedlock at a firelight double ring ceremony at the First Baptist Parsonage by Rev. Chaffin at Coleman, Texas Saturday evening at 8:00 March 6th. Their only attendant was the bride's cousin, Mr. Billy Gould.

Logan Long is the younger son of Mr. and Mrs. R. K. Long of Pioneer, Texas. He graduated with honor from Pioneer High School in 1940. He later attended Cisco Junior College for one year before he entered the Army Air Corps. Since his induction, he has been stationed at Midland Bombardier school where he is training in Aerial Photography.

Mrs. Logan Long is the daughter of Mr. and Mrs. C. M. McAnally of Cross Plains. She attended school in Cross Plains where she was a leader in sports and school activities. As the Business Manager she assisted the Senior Class of 1941 in publishing the "Bison" first annual ever published. After her graduation, she attended John Tarleton Agricultural College. There she was awarded many honors. As a Business Administration major, she received a special Certificate of Merit in clerical filing. By popular selection, the Tarleton Cadets selected her as honorary Major of the 2nd Battalion. For the past month she has been employed as secretary and filing clerk for the Clark's Auto Parts Supply at Coleman, Texas.

The marriage of Pvt. Mr. and Mrs. Long was a culmination of an extended romance begun in their high school days.

The bride wore the customary something old, something new, something borrowed and something blue. She was attired in a silk navy two-piece suit with huge white lace lapels. Her accessories, a navy ruffled straw hat with a veil of navy with scattered rose dots, a navy kid bag with rose gloves and navy shoes, completed the costume.

After a few days stay in Coleman the couple returned home for a few days visit with their parents.

Pvt. Logan Long has been on furlough but returned to duty March 11. Mrs. Long will continue her work in Coleman for the present. However she plans to join her husband in the near future.

By helping make steel strong, electric power makes West Texas and Uncle Sam strong, too. One big basic reason for Uncle Sam's matchless war production is America's abundant power supply, over 90 per cent of which is supplied by electric companies like the West Texas Utilities... operating under well-balanced business management and manned by men and women with training and experience in production problems. This power was ready when war came because these men and women already had the "know-how" and the freedom to plan and create—the initiative to invent and improve—for everybody's benefit. This, too, is why the average West Texas home today gets twice or three times as much electricity for its money as just ten or fifteen years ago! Women with training and experience in production problems. This power was ready when war came because these men and women already had the "know-how" and the freedom to plan and create—the initiative to invent and improve—for everybody's benefit. This, too, is why the average West Texas home today gets twice or three times as much electricity for its money as just ten or fifteen years ago! It's the reason why electricity will be on the job to help rebuild a better world—after we have won the victory and the peace.

CROSS PLAINS, TEXAS

METHODIST CHURCH C. D. Wooten, Pastor

"We pride ourselves on being willing to die for our faith, but will not go to church or prayer meeting on a rainy night. The question for most of us is not whether we will be crucified for Jesus, but whether we will be inconvenienced for Him. It is not a question of whether we will be thrown to the wild beasts for our faith, but whether we will turn the wild beast of passion and selfishness in our own lives." These words were found in a church bulletin and I believe we should be reminded of the truth involved.

God never works miracles for those who will not work for themselves. When we have filled all the conditions, God does His part, but not until then. Come on and give God a chance in your life and you will have no regrets for the time spent in His service. Sunday night service starts now at 8:15. C. D. Wooten
