## Crop Gathering Swings Into Full Gear This Week In Donley Area

The grain harvest and cotton pulling swung into full gear this week with ideal weather conditions prevailing. In fact, combines have been rolling so fast that the grain crop is estimated as half complete at this time but the cotton pulling is just getting started good with a big demand for more laborers.

Local grain dealers reported that approximately 110 cars of grain had come in to date with the total crop expected to run around 225 cars. The moisture content of the grain has dropped down to an average of 14 which is quite an improvement over the past two weeks. The grain harvest will not measure up to the 1958 crop here for more acreage was planted in grain last year when hundreds of acres of cotton was destroyed by the weather. An average all-around yield is being reported by most farmers.

The cotton crop this year is expected to exceed the 1958 crop by several hundred bales as more acreage managed to get by the usual hail and wind damage. To date, Paymaster Gins 1 & 2 report a total of 595 bales ginned. If sufficient pullers were available this number would jump rapidly and will anyway just as soon as the fields get in shape for the cotton strippers.

J. R. Brandon, Paymaster manager here, reported that Paymaster No. 3 being constructed at Martin will be ready by the time the big load starts coming in.

### District 2-A To Have Fewer Members Next Year

University Interscholastic League realignment completely changed the complexion of Class 3 football teams in the Panhandle for next year and the Clarendon Bronchos will have only four conference opponents.

Spearman, a member of 2-A, was moved up to AA with Perryton, Quanah, Childress, Shamrock and Wellington in 5-AA.

District 1-A had the biggest shuffle. White Deer and Panhandle were moved in to replace Spearman making it a six team district. District 1-A is now composed of Stinnett, White Deer, Gruver, Sunray, Panhandle and Stratford.

Since 2-A has been composed of seven teams, no replacements were made for White Deer and Panhandle. The district is now composed of Clarendon, Canadian, McLean, Lefors and Memphis.

### Death Claims Pioneer Rancher Here Thurs.

Funeral services were held Friday afternoon at the First Methodist Church for Lu McClellan, pioneer Donley County rancher, with Rev. W. R. Lawrence, pastor of the First Baptist Church officiating.

Mr. McClellan, 77, died here Thursday morning in Stewart Clinic after suffering a stroke at his home a short time before.

Lu McClellan had been a resident of Donley County 69 years, moving to Lelia Lake with his parents in 1890. He worked for the JA Ranch from 1912 until 1918 at which time he settled on his own ranch south of Asholia. He remained on his ranch there until his retirement a few years ago. After moving to town, he didn't actually retire. He limited his work to a degree but when the opportunity came for him to mount a horse, he was happy again back in the saddle and he would always put in a long day's work right along with the rest of the cowboys. Mrs. McClellan preceded him in death in September, 1946.

Survivors include three sons, Johnny Rex and Horace of Clarendon and Lu McClellan, Jr., of Edinburg, Texas; a sister, Mrs. Eugene Noland of Clarendon; a brother, John McClellan of Clarendon; three grandchildren and three great-grandchildren.

Palbearers were Jake Chamberlain, Douglas Shelton, Ernest Kent, Buck Glass, George Jeffers and Doyce Graham.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

He has been the music director in First Baptist Churches of Chandler, Okla., Paul's Valley, Okla., Elk City, Okla., and now at Kelham Baptist Church of Oklahoma City. #### National Newspaper Week

At the conclusion of National Newspaper Week, it is a pleasure for us to print a note we received this week from one of our subscribers. Criticism comes often but bouquets are few and we do deeply appreciate this note which follows:

Mr. and Mrs. G. W. Estlack and Employees of The Donley County Leader

Dear Folks: Just wanted you to know how very much we appreciate our home town paper during this National Newspaper Week. Wherever we go the home town paper is the first paper we read, no where have we found a better one.

We realize just a little the effort in putting together a weekly newspaper where the news concerns people you all know.

We strongly feel that the power and freedom of the press is one of America's greatest blessings.

Congratulations, and may there always be friendly and informative weekly home town newspapers.

Sincerely,  
Mrs. Lee Muse  
Rt. 1

### P-TA Sponsoring Chicken Supper October 30th

The Sims Parent-Teacher Association is sponsoring a chicken supper October 30th in the school cafeteria from 6:30 to 8:30 p.m.

Funds from this supper will be used to buy educational toys and games for the children. Your cooperation will be needed in order that this objective may be accomplished. Plan now to come and enjoy this delicious chicken supper and be helping a worthy project at the same time.

### REP. WILL EHRLI RECEIVES IMPORTANT APPOINTMENT

Word was received by the Leader this week that our State Representative, Will Ehrle, had been appointed to the Legislative Council by Speaker Waggoner Carr.

"The Legislative Council is one of the most important agencies to be appointed. I have found Will Ehrle to be always sincere and conscientious in his duties. His hard work in behalf of his district has gained for him a good reputation and high prestige in Austin," Speaker Carr stated.

The Clarendon High School Bronchos and the Lefors High School Pirates will meet in a District 2-A football game at Broncho Stadium Friday night beginning at 7:30.

The two teams appear to be well-matched and the game should be close. Clarendon and Lefors have met three common opponents this season. Stinnett defeated Lefors, 30 to 6, and beat the Bronchos, 34 to 6. White Deer beat Lefors, 34 to 0, and turned back the Bronchos, 39 to 6. Memphis defeated Lefors, 6 to 0, while the Bronchos defeated the Cyclones, 22 to 0. The Memphis-Lefors game was played in the rain and mud which is not a good measuring stick as to true strength.

Coach Tom Jinks stated that the starting line-up will be the same as started the White Deer game last week which included Philip Abel and Don Hudgins at ends; Lynn Spier and Jerry Gray at tackles; Leon Gibbs and Dennis Bradshaw at guards and Charles Percival at center; Neel Carter at quarterback; Wayne Mann and Jim Robinson at halfbacks and Dewey Wilson at fullback. Others who will probably see action include Bill Hermesmeier, Jerry Allen, Dwight McAnear and Eddie Tipton.

As an added attraction the band will crown their band sweetheart for the year and will perform their marches that they will do in the interscholastic league contest next week.

### Services At Hedley For Mrs. C. E. Johnson

Funeral services will be held Thursday afternoon at 2 p.m. in the First Baptist Church at Hedley for Mrs. C. E. Johnson with Rev. J. S. Tipton, pastor, officiating.

Mrs. Johnson, 67, died Monday afternoon while visiting in the home of a friend in Hedley. She moved to Hedley from Amarillo in 1956. She was the wife of C. E. Johnson, a pioneer operator of the Hedley Telephone Exchange. She was a past Worthy Matron of the Hedley Eastern Star.

Survivors include her husband, C. E. Johnson of Hedley; two sons, Clifton Rutherford of Big Spring and Payne Rutherford of Cambria, Calif.; two daughters, Mrs. Mildred Roller and Mrs. Alice Robison of Amarillo; two sisters, eight grandchildren and one great-grandchild.

Burial will be in Memorial Park Cemetery in Amarillo.

Mrs. Tom Crabtree returned last week after spending some time in Oklahoma City.

By Congressman Walter Rogers

WAS BARNUM RIGHT?

P. T. Barnum, of the famous circus team of Barnum and Bailey, and probably the greatest showman in the history of this country, or perhaps the world, was once quoted as saying: "There's a sucker born every minute." He proceeded to prove the statement by amassing several fortunes on the gullibility of man, as well as his desire to be entertained. There are many people in show business who believe this statement is still true and, with the increase of population, a much more fertile field for operation is provided; that is, if the fixed, rigged, and phony television quiz shows can be considered a yardstick. For the past several days the Subcommittee on Legislative Oversight of the Committee on Interstate and Foreign Commerce, of which I am a Member, has been listening to testimony from a varied group of characters, some of whom have openly admitted they committed perjury before a New York Grand Jury, some of whom feel very badly about participating in shows which deceived the American public, and some of whom openly admitted they engaged in these practices of deceit and false representation but felt they were all right, not immoral in any degree, and would still be doing it if they had not

been caught. Some openly admit they obtained the services of minors in the carrying out of this shady, deceitful and morally fraudulent practice. The general justification on the part of most of them seems to have been that their job was to provide entertainment and sell a product. They take the position that so long as they were doing this, all other matters were secondary, including the moral issue surrounding the fixing of a contest. A woman contestant who won several hundred dollars, in answer to one of my questions stated she could see nothing wrong with the fact that the program had been fixed, that the producers knew what the outcome would be, that she was a party to the scheme and aided and abetted in carrying it out. She based her conclusion on the fact that she was having a good time, the American public was enjoying the show, the sponsors and producers were happy, so why should anyone worry? This appears to be the general trend of thinking of a great number of those participating in these programs. These testified they could not see any similarity between the fixing of a basketball game, a baseball game, a football game, or a boxing match, and the fixing of a battle of wits in television program. They stated there was a great deal of difference, but none came up with even a remote basis for that conclusion. One witness testified the difference was in the fact that a television program had a sponsor, while a boxing match had none. Another stated the difference lay in the fact that in a baseball game the players are salaried, while the contestants in a television quiz program are after prizes. I must confess these reasons do not make sense to me as being even remotely connected with the question of honesty and dishonesty. The fact of the matter is that the American public has been led to believe these quiz programs were fair and honest contests between two unprepared contestants in a battle of wits or mentality. A boxing match is a physical contest between two individuals who employ their fists, under certain rules. The physical activities coupled with the mental processes could be applied to all other contests. They are all performed at least partially for entertainment. The American public is entitled to assume that neither of the contestants has been afforded an unfair advantage. Any arrangement creating a contrary situation is a fraud upon the spectators, whether they be sitting in the stands of a football stadium or in a comfortable chair in their living room watching television, and any person who is a party to such a scheme or device, whether he be the owner of the show, the sponsor, the network, the station owner, or a contestant is guilty of a flagrant, dishonest misrepresentation to the viewers of the contest or the program. The main concern of a number of these people seems to be the possibility of criminal prosecution, rather than their moral responsibility and obligation. It is entirely possible they may not be held criminally liable because of the absence of particular statutes on this subject. However, it is my belief these hearings will result in the adoption of legislation which will control the activities of those who seem to believe that anything is all right as long as you can get away with it. One of man's greatest jobs has been to protect himself from himself. Hence, if Barnum was right, we "suckers" need some

laws to protect us.

**TAXES AND THE "LITTLE FELLOW"**

There's one fact about taxation which can't be repeated too often: The great bulk of the tax burden is not borne by the rich, but by people of very modest means.

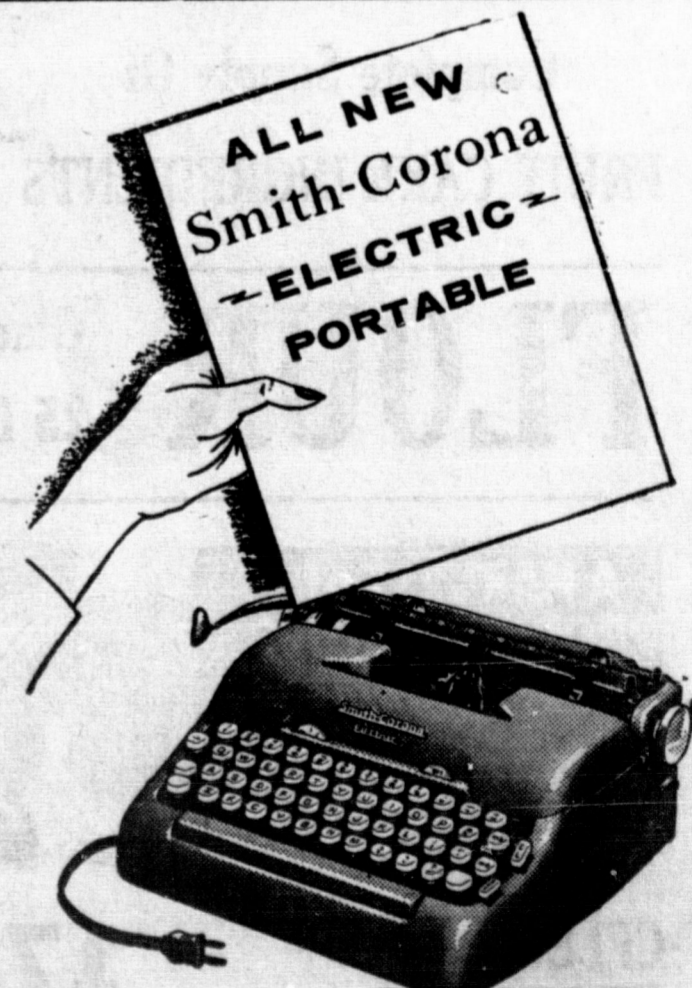

Economic Intelligence tells what happened in a recent year. Total federal individual income taxes came to just under \$30 billion. Of this, more than 85 per cent was accounted for by the lowest tax bracket of 20 per cent. Less than 15 per cent came from the higher brackets which reach a 91 per cent top.

Putting it another way, if the per capita exemption in that year had been \$800 instead of \$600, government revenue would have been reduced by a whopping \$5

billion, or about 17 per cent. It's the "little fellow", in the aggregate, who is important to the Treasury.

The point is, of course, that there aren't enough rich, and not enough big incomes, to make

more than a small dent in the tax burden. It must primarily be borne by families of modest means, simply because there are so many of them. And it is these families which have the most to gain from tax reforms.

**HEDLEY NEWS**  
Mabel Bridges

Due to the serious illness of my mother, Mrs. Rains, I spent last week at the hospital and could not get my Hedley News. I am happy to report my mother able to be brought home Sunday afternoon and she is feeling much better.

Some times in our busy life we seem to forget there are so many good people in our community. When sickness comes to us it makes us ashamed we do so little to help others. Our friends and neighbors have been so kind and helpful during our illness we resolve to do more for them whenever possible. May we say thanks to each of you and God bless you.

This community is busy with fall harvest. We hear so many farmers say the cotton and feed are making more than they thought it would. No place but Donley County could do it.

Mr. and Mrs. M. W. Mosley visited their daughter, Mrs. Ruby Bromley in Clarendon Sunday.

Mr. and Mrs. Barney Greene of Brownfield, Mr. and Mrs. Geary Reckling and children of Plainview were recent visitors in the Loyd Bailey home.

Mrs. Viola Small and son, Mr. and Mrs. Ross Small and family of Farmington, N.M., visited Mr. and Mrs. R. M. Bradley last week.

Mrs. Sam Roberson of Amarillo visited her aunt, Mrs. Rains, and her cousin, Malcolm Glass, last Friday.

Mrs. Bill Johnson received word Sunday afternoon that her father, Mr. Creig, of Fort Worth passed away at the home of his daughter as the result of a heart attack. Funeral services will be held there pending the arrival of his son from Anchorage, Alaska. Mr. Creig has been a frequent visitor in Hedley and has a host of friends. To know him was to love him. His visits will be missed by his friends here. We extend our sympathy to his family.

Mrs. J. B. Masterson is leaving for Ardmore, Okla., to visit a sister who has undergone major surgery.

Rev. and Mrs. J. S. Tipton have moved to the new Baptist parsonage recently completed. They held open house Sunday afternoon.

Charles Rains of Amarillo spent the week end with his mother, Mrs. Rains.

Some of the visitors in Hedley for the Cotton Festival were Mr. and Mrs. C. A. Woods who visited in the Tom Moffitt home, Mr. and Mrs. C. C. Cavender of Amarillo and Mr. and Mrs. Jiggs Mosley of Amarillo.

Mrs. Walter DeBord was honored with a birthday dinner in the Slats DeBord home Oct. 12. All of the family of Slats DeBord was present. The Herman Ward family, Mrs. Walter DeBord and others I failed to contact. May we wish many more Happy Birthdays to Grannie.

Mr. and Mrs. Levi Brown returned home the first of the week to Atlanta, Georgia, after visiting his sister, Mr. and Mrs. Henry Nivens. The Browns made a movie of events at the Cotton Festival. Levi said he did not miss one of the beautiful girls. He wanted to show the Georgia "peaches" what Texas beauties looked like.

Malcolm Glass is convalescing at his home, still confined to indoors and plenty of rest due to a heart condition. We wish him a speedy recovery.

Mr. and Mrs. Joe Glass of Snyder were recent visitors in the Malcolm Glass home.

Mrs. Anna Mae Riddle of Amarillo spent the week end with her parents, Mr. and Mrs. Walter McCracken.

Mrs. G. C. Heath of Clarendon Mrs. Willie Hopper and Harve Ray of Portales, N.M., visited Mr. and Mrs. Frank Murray last week.

The community was shocked and grieved Monday afternoon. Mrs. C. E. Johnson suffered a heart attack and passed away before a doctor arrived. We extend our sympathy to the family.

SECRETARY OF THE ARMY Wilber M. Brucker leads the way in Savings Bond buying! Secretary of the Treasury Robert B. Anderson (left) personally sold Mr. Brucker the first bond issued after President Eisenhower authorized the increase to 3 1/2 percent interest on Series "E" Bonds. Mr. Brucker has urged all Army personnel to buy bonds as a means of "participating directly in strengthening our national economy and protecting the American way of life."

**GRASS ROOTS OPINION**  
Covington, Tennessee, The Leader: "Let's not fool ourselves. We, the people, are going to pay for our schools. We can pay to a city or special school district, a county school organization, a state department of education or a federal education bureau. Whichever one raises taxes and meets the needs will handle the funds and set up the standards by which the schools should be run."  
"If the financing is federal, sooner or later the federal bureaucrats will be calling the tune. We believe we would rather pay a piper who is a little closer to home..."

**TEXAS TOPS ALL STATES IN 1958 NET FARM INCOME**

College Station — Texas farmers realized a net income of \$1,001.5 million from farming in 1958, \$474.6 million more than in 1957. Estimates prepared by the Agricultural Marketing Service show that Texas ranks 1st among states in realized net farm income.

Realized net is the income farm operators have to spend after paying their production expenses.

Average realized net income per farm in Texas amounted to \$3,430 in 1958, compared with \$1,774 in the preceding year. The Texas farm operators ranked 17th among the states in realized net income per farm.

Farm operators in Texas built up inventories of crops and livestock in 1958 by \$46.4 million. When realized net income is adjusted to allow for the change in inventories, the total net farm income of Texas operators was \$1,047.9 million. It was \$719.1 million in 1957.

Cash receipts from sales of farm commodities yielded Texas farmers \$2,372.6 million in 1958 compared with \$1,702 million in 1957. Government payments to farmers totaled \$122.2 million, \$9.5 million more than in the preceding year. The gross farm income of Texas farmers amounted to \$2,684.3 million in 1958, a loss of \$697.7 million from 1957. Gross income includes cash receipts and government payments plus allowances for the value of food and fuel produced and consumed on the farm and the rental value of the farm dwelling.

Production expenses of Texas farm operators rose from \$1,459.7 million in 1957 to \$1,682.8 million in 1958. Production expenses are subtracted from gross income to obtain realized net income.

### Bucks Hand Broncos 39 To 6 Defeat

The Clarendon Broncos got a good look at the speed of the White Deer backs, especially Jackie Burns, as they went down to a 39 to 6 defeat at White Deer last Friday night. The Bucks capitalized on their terrific speed to keep rolling to what looks like their third straight district crown.

With the exception of five long runs, the Broncos held the Bucks pretty well in check. The Bucks scored a safety on the opening kickoff when the strong north wind carried the ball into the end zone and a Broncho was tackled in an attempt to run the ball out. They scored again only seconds later when their fleet halfback, Don Carter, circled left end for 49 yards and the score. This put the score at 8 to 0 where it stood until the second quarter got underway. It was in this period that the Bucks broke the game wide open with three touchdowns, all by their great halfback, Jackie Burns on runs of 70, 44 and 75 yards. The first was on the run back of a pass

interception. Burns scored again on a 25 yard run in the third quarter and the Bucks' last score came on the last play of the game, a 10-yard pass play from Dijkie Hanna to end Jack Braddock.

The Broncos kept fighting all the way and threatened several times. Their only score came early in the fourth quarter on a 65 yard drive climaxed by a seven-yard scoring play by fullback Dewey Wilson.

The Bucks rolled up 301 yards rushing and 193 of those yards came on four plays. They completed one pass in three attempts for 10 yards for a total of 311 yards from scrimmage. The Broncos made 171 yards rushing and failed to connect on three pass attempts. White Deer made 12 first downs to 10 for the Broncos.

The starters in the game were Ted Graham, Jerry Taylor, Ronnie Longan, Corky Leffew, Dennis Stewart, Faylon Watson, Steve Shelton, Ronnie McAnear, Roger Stone, Tommy Edwards and John Grady.

Other Colts seeing action were Richard Bell, Douglas Bradshaw, Bobby Cain, Barry Hudson, Timmy Ray, Larry Gray, Cecil Jones and Buddy Wooten.

### COLTS LOSE TO LEFORS, 30-0

Thursday night the Jr. High Colts were defeated by a speedy Lefors Jr. High team by a 30-0 score.

The Colts took the opening kick and marched 80 yards but a fumble on the 15 yard line cost them the ball. The drive was made possible by some good running by Ted Graham, Corky Leffew, Jerry Taylor and Ronnie Longan.

The Lefors team scored in the first quarter and led 6-0 at the beginning of the second. In the second quarter the Colts again made an attempt to cross the goal line. A fumble again cost them the ball on the 16 yard line. The Colts made several spectacular runs but were never able to launch a scoring drive.

The starters in the game were Ted Graham, Jerry Taylor, Ronnie Longan, Corky Leffew, Dennis Stewart, Faylon Watson, Steve Shelton, Ronnie McAnear, Roger Stone, Tommy Edwards and John Grady.

Other Colts seeing action were Richard Bell, Douglas Bradshaw, Bobby Cain, Barry Hudson, Timmy Ray, Larry Gray, Cecil Jones and Buddy Wooten.

Memo to the community's elder citizens:

The Hospital Board considers it important to point out the privilege of persons over age 65 to apply for Blue Cross-Blue Shield coverage during this month only.

There are no salesmen and each person has to apply on his own initiative. Acceptance is based on eligibility on the same basis as persons under 65.

The hospital has a limited supply of enrollment cards and the business office will gladly assist interested applicants in completing the required forms for mailing to Dallas.

The frightening expense of serious illness and prolonged hospitalization is a real problem to most families. The broad plans offered by Blue Cross-Blue Shield provide an easy solution to applicants who qualify and maintain this coverage.

**Information Given  
On Water  
District Proposal**

Additional information was released this week by Del E. Wells, president of the Hall and Donley Counties Water Control District No. 1, pertaining to the district. In his report, he gave background information, and certain facts received from personnel of the Soil Conservation Service.

Land in the original district comprised 237 square miles, or 151,680 acres, he stated. Since that time additional acreage has made it larger.

The feasibility study is continuing, and two engineers of SCS have been working in the district during the past two weeks, gathering data. They have located tentative sites for dam structures. Their data will be mailed to Washington, where it will be processed within 60 days.

According to Wells, \$45,000 will be needed to pay cost of getting the planning party, which will engineer the district.

The engineering crew will survey 15 structures, and probably use 12 or 13 of them. These are called major structures. Included

in the area behind the major structures is approximately 119 square miles of land.

According to Wells, the SCS personnel have estimated that the average annual benefit to be derived from construction projects in the district will be \$137,000. This was based on amount of damage from floods. The estimated annual cost of retarding structures to control run-off waters from approximately 50 per cent of the district's area, including about 34 miles of channel improvements would be approximately \$92,500 annually Federal expenditure under Public Law 566. This figure was arrived at by using the amortization factor, he added.

"If the figure is projected into the future for 60 years, total benefit would amount to \$8,220,000," Wells stated. "This is the reasoning behind the federal expenditures, whereby citizens would reap more benefits—in dollars and cents—than the amount of money the government paid out."

"They estimated that total expenditure of federal funds will amount to \$2,700,000," he said. "This figure was set nearly two years ago."

The life expectancy of this type structure (dams) is estimat-

ed to be 50 years before siltation becomes objectionable, then probably another 50 years before dams would quit functioning as flood control structures.

Structures to be built to take care of 25-year period storms; also take care of worst storms in 100-year period—and dams not to be destroyed, he pointed out.

The figure which was set originally as the district's share was \$150,000, Wells explained. This money would take care of all expenses, plus the sum needed and necessary to be set aside for maintenance and repair.

The board of directors, at different meetings, has set an average cost to taxpayers for their share of cost at \$1.00 per acre, he added. For this \$1.00 per acre, which owners of land will pay, the federal government would spend \$170.00 per acre, based upon the original estimate.

"If the federal government did not think the program is worth this amount," he said, "then the engineers would not have approved it. All facts are required to be obtained in their feasibility study."

"We are planning for our children and grandchildren to receive benefits from the program of flood control. The pity of it is

fic violations, according to Department of Public Safety statistics, are the ones who have the most accidents.

It is also hoped, of course, that the plan will encourage careful driving with its cash incentive.

Drivers with no record of an accident or violation for the past three years will get a 20 percent reduction in their insurance rates. Drivers with one point against them will pay current rates.

Those with from one to five points against them will pay increased rates on a sliding scale, and those with six or more points will pay through the nose — double rates.

Some activities will be very expensive, point-wise. Drunken driving, hit-and-run driving and negligent homicide will cost four points. An accident with damage over \$25 brings two points; running a red light, only one point.

In most cases, the effect of a violation on insurance premiums will hurt the pocketbook worse than the usual fines.

**STILL AT IT** — For the umpteenth time, Texas' high-powered legal talent has gone to Washington to do battle for the state's tidelands before the United States Supreme Court.

Gov. Price Daniel and Atty. Gen. Will Wilson head the team presenting Texas' claim that it owns the submerged lands for three leagues — or nearly 10 miles — into the Gulf. Federal attorneys argue that the state owns the land only three miles out.

Former Supreme Court Justice James P. Hart and J. Chrys Dougherty, a former assistant attorney general, also went to Washington to join in the presentation.

Other Gulf Coast states which are "in the same boat" with Texas on the tidelands issue are also participating in the now historic struggle.

**SAUNDERS ASKS RE-TRIAL**—Former Insurance Commissioner J. Byron Saunders is asking for a new trial of the perjury charges against him.

Saunders was convicted in an Austin district court and sentenced two years in prison. He was

accused of having lied to a legislative investigating committee as to why the now-bankrupt ICT Insurance Co. paid him 7,000 while he was insurance commissioner. Saunders contended the money was payment for his interest in oil royalties on a piece of property he sold the company.

It is the first time in the history of the state that a person has been charged with perjury as a result of statements to a legislative committee. Saunders' attorneys have vowed to take it all the way to the U.S. Supreme Court if necessary.

**PANEL ON AGING** — Sen Crawford Martin of Hillsboro has been named to head the Governor's Conference on Aging.

This group will study problems of elderly people and take the state's report to the 1961 White House Conference on Aging.

Also named by Gov. Daniel to the panel are State Welfare Commissioner John Winters; State Health Commissioner J. E. Peavy; State Employment Commissioner Perry Brown; Dr. C. J. Rullmann, state director of mental health and hospitals; and Jess Irwin, the governor's budget director. Also, Mrs. William B. Ruggles, Herbert Shore and Eldred Thomas, all of Dallas.

**GIBBS RE-CALLED** — Joe P. Gibbs has, for the third time, been tapped to join the high command of the State Board of Insurance.

Gibbs was appointed by Gov. Daniel to succeed Board Member David B. Irons who will leave Nov. 1 to join a Dallas law firm. Irons said his resignation was not triggered by the Department's recent difficulties with the Legislature which cut salaries of top

officials.

Gibbs served as an insurance commissioner from 1941 to 1952 as an appointee of Govs. W. Lee O'Daniel and Beauford Jester. He served again from 1957 through February, 1958, after Gov. Daniel made appointments to an entirely new, reorganized board.

**MORE APPOINTMENTS** — Other new appointees announced by Gov. Daniel are:

To the State Finance Commission: Lacy Bogness of Fort Worth, W. B. Russell of De Kalb and Walter Taylor of Tuscola.

To the board of Texas Southern University: Dr. W. R. Banks of Prairie View.

To the Seed and Plant Board: Owen Gilbreath and Arthur Young of Lubbock, Emmett Harper of Maritindale, Heino Staffel Jr. of Austin and C. B. Godbey of College Station.

As chief justice of the Seventh Court of Civil Appeals, Amarillo: James G. Denton of Lubbock. Howard Davison of Lubbock was named to serve Denton's unexpired term as judge of the 98th district court at Lubbock.

**HOSPITALS, COLLEGES A-BUILDING** — With a new fiscal year begun, state boards and agencies are busy making plans for building programs.

State Board for Hospitals and Special Schools announced that a 1,000-bed nursing hospital for mentally retarded patients will be built at Denton. Construction of new cottages to house mental patients at Denton is already underway.

University of Texas Board of Regents is beginning a \$17,895,000 building program spread over the various branches of the

huge system. Most recently approved by the regents are three buildings for Texas Western University, El Paso. They will include a classroom-office building, a warehouse building and gymnasium-field house. Other UT projects, either begun or being planned, include improve-

ments at the Medical Branch at Galveston and at McDonald Observatory, a new headquarters at the Institute for Marine Science, Port Aransas, and five buildings for the main campus at Austin.

Friendship like a golden chain  
Will bind our hearts together;  
Make our ways, all joyous days,  
Through fair or stormy weather.

If we are hungry likely the county will feed us as a charity case. If we are sick there may be some way that the hospital will take us in. If we are broke it may just happen that we are due some sort of a pension or assistance. But if we are without a friend no one can help us but ourselves. If we have passed along most of the road of life and have not as yet made even one real friend then we are in the true sense poverty stricken.

A true friend is one to whom we can tell the truth and not be afraid of their laughing at us. We can admit the bad in our life along with the good and feel that they will still believe in us.

Our best friends may not be the ones who pat us on the back when things are going good for us. It might well be one who only comes and stands by our side when sorrow or disappointment fills our life.

Someone has so wisely said: Make new friends but keep the old  
One is silver, the other gold.

Opportunity still knocks at our door now and then, but most of us are waiting for it to press an electric button or ring softly on the chimes.

It won't help much for opportunity to knock unless we are easily awakened.

Sometimes when someone tries to sell us a bargain and tells us that if we don't buy it we will be passing up the opportunity of a lifetime, we should take a second look and be sure whether it is our opportunity or his that is being passed by.

Often we spend good time waiting for opportunity to knock when we could have the door open ready to meet it coming down the walk.

We have always heard that "Everything comes to the fellow who waits." Most of us have already learned that things will come a lot quicker if we work while we are waiting.

When the door of opportunity seems to be closed the really successful man will find a way to climb in through the window. Real success will be almost sure to come when Opportunity knocks and finds Preparedness ready and waiting.

The best way to find the right way is to be on your way.

Congressional District, Galveston, Texas. He is chairman of two sub-committees, one of his own creation. The Family Farms Committee.

He says: There is a determined move on the Department of Agriculture to concentrate farming in the hands of big operators. "Who did they think they were hiding that bit of news from?" But he says he is trying to re-establish the making of a living on a small farm.

We heartily agree with Mr. Thompson and wonder if the 18th Congressional District would be out of order to write and tell him so? His district is a fur piece from the Texas Panhandle, all the same we just might let him know we are behind him.

Our hearts are sad as we see so many of our young Farm Families move into our already over crowded towns and cities. Intensifying the problem there a hundred fold.

George says he's a little old to give 'em much trouble, but if they don't hurry with this making a living on a small farm that he will have to move into town and join the spit and whistle club, and that's a messin' things' up considerable.

## GABIE BETTS BURTON LIBRARY NOTES

EDITH BARNES

A memorial book, "The Image of America" by R. L. Bruckberger has been given to the library in memory of Mrs. Thelma Bennett.

A friend gave us four new books. They are all fiction. Two of them are for adults, one for teenagers and one for children. Thank you.

A memorial fund has been given dedicated to the memory of Mr. Jack Killough.

"My God and My All" by Elizabeth Goudge is inspirational reading for everyone regardless of his religious affiliation. She has this to say about her book, "I wanted to write it so much I had to." For her "My God and My All" is a reverent work of love. This book will be a surprise to those who think of her as only a writer of fiction.

Loula Grace Erdman and Al Dewlen ("The Bone Pickers") of Amarillo and Mrs. Laurene Chinn of Borger were honored at "Texas Writer's Day" in Austin last week. They were among the 25 so honored. These 25 were chosen by the nation's publishers from a list of 80 Texas Writers.

Zane Grey has had some 57 novels published, and although he died in 1939 new books of his are still being published. The many manuscripts he left make this possible. We have his "Arizona Clan" copyrighted in 1958.

A bunch of our readers will be glad to know that the library has two new books by Grace Livingston Hill and one by Emi-

lie Loring for them. If you are reading the articles in the "Life Magazine" about Benjamin Franklin you know that here was a man who was more advanced in his thinking and things that he did than most people are even today. If you are not reading them you are

missing something. We have several of the books listed on this weeks best seller list both fiction and non-fiction. A book can make this list real quick if it is a book club selection, but it has to have something to offer to stay there weeks on end.

fresh new beauty

from the only car with

Wide-Track wheels!

A car is a living thing.

And all living things must change.

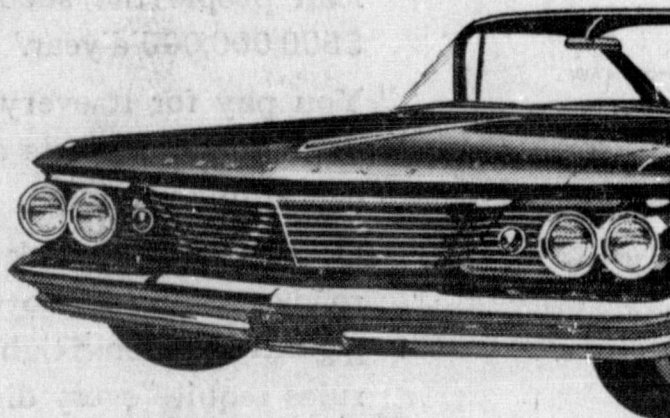

This is why the creative car builders of Pontiac took the proved principle of Wide-Track Wheel Design and surrounded it with fresh, exhilarating, totally new beauty for 1960.

The prow is styled for excitement.

The horizontal bars bear the artistry of the classical.

The perfect profile comes from just-right proportion, unity, rhythm.

The clean, graceful back contributes character where other cars seem only to reflect confusion.

Its effect upon your attitude toward driving an owning cars can be quite radical.

For you cannot possess this automobile and be anything less than lighthearted. You cannot control it and be anything less than sportive about driving. You cannot be seen in it and be anything less than buoyantly proud.
