## Robbery At Thomas Laundry Week End

The Frank Thomas Coin Operated Laundry located on Highway 287 east of Main Street was entered late Sunday night or early Monday morning of this week and money taken from all of the Washing Machines. A minimum estimate of the amount taken was between \$150 and \$175. A Master Key was used to remove the money from the new washing machines.

Frank Thomas, owner, is and has been hospitalized in Amarillo. Mrs. Thomas had removed the coins from the dryer but had not emptied the washing machines for a week due to her husband's illness.

This is indeed tragic. Robberies are hard on everyone but doubly so when there are huge doctor and hospital bills facing the Thomases. Mr. and Mrs. Thomas have both been ill, undergone surgery, and have had medical bills for sometime.

It is hoped that the intruder will be apprehended. No late report on Mr. Thomas' condition was available at press time.

## Moisture For Month Brings High Total

Tommy Saye, official weather observer, submitted a breakdown of the moisture received thus far this year. For Clarendon 4.04 was recorded for the month of April to bring the total for the year to 11.04. Only a trace was recorded Monday of this week.

Amounts of rainfall have varied greatly over the entire area and even from one side of town to the other. Hubert Rhoades reported 1.20 for Monday and 6.54 for the month of April. This brought Ashtola's total for the year to 14 inches.

Willard Knox at Lelia Lake reported 4.43 for April and 11.21 for the year.

Heavy rain fell on the Greenbelt watershed Monday afternoon. An estimated six foot wall of water rolled down Carroll Creek tearing boats from their moorings and setting rafts afloat. Several boats were reported to be adrift on Lake Greenbelt Tuesday but with diminishing winds they will be picked up. At any rate, the water level is up at Greenbelt Lake.

## Fishing Contest Ends Afternoon Of May 5

The Fishing Contest co-sponsored by the Sportsman Club at Clarendon College and Syd Blue's Little Emporium will come to a close at 5 p.m. Saturday May 5, when all fish taken in the contest must have been weighed in at the Emporium.

The contest has drawn considerable interest. Entries have been in two divisions: the Open and Sportsman Club.

At this time several are contending for the championship records. To name a few would include Stina Cain with bass in the Open; Gary Messer in the Catfish; and Chris Hand.

The Fish Fry scheduled for Thursday, April 26, was cancelled due to the high wind and blowing dust. It was decided to freeze the fish for a "Get Acquainted" outing when the fall term opens at the College in September.

Brandon will be showing films on his experiences in Brazil as a missionary for the Southern Baptist Convention. This cultural part of the week will spot light many of the cultural habits and life of the people of Brazil such as: education, commerce, religion, travel, farming, ranching, towns, cities, country sides, landscape, lakes, rivers, and etc. You will be taken through an agricultural institute which is an attempt to aid the Brazilian farmer in learning how to farm better. You will see the Amazon River. You will see how women live and work, and how men make their living.

Bro. Brandon will be bringing a message each evening assisted by Terry Scoggin, the Church Music Director.

Many of you have been hearing about Brandon's experiences in Brazil. This is your opportunity to see for yourself through these film the country of Brazil and share the experiences of a missionary family who has lived there.

## Moto-Cross Races To Be Held Sunday p.m.

Cycle races are scheduled to be run at Greenbelt Track south of Greenbelt Lake Sunday afternoon, May 6, beginning at 2 p.m. A record number of riders and spectators were on hand for the last racing day and attendance grows for each and every racing day.

Riders compete in the Micro-Mini, Mini-Man, 100 cc, 125 cc, 250 cc, and Open divisions with trophies awarded top riders. Though there are often spills and thrills, no serious injuries have resulted at the track, an indication of the high degree of skill of the riders and the general condition of the track.

With all of the rain in the area, it takes a tremendous amount of work to have the track in tip-top shape and many marvel that it has been possible to keep it drained and graded with a different pattern each racing day.

The public is invited to come out and watch these races. Parking space is ample with good viewing areas. Racing is a good, clean sport that the entire family can enjoy. Plan to come out Sunday afternoon for all of the excitement. Admission is \$1.50, children under 12 free.

Access from Highway 287 west of Clarendon, across the railroad track and north to the lake area.

Mr. and Mrs. Chester Scott of Plainview spent Saturday night with his mother, Mr. and Mrs. E. V. Quattlebaum.

CHS Snoopy

by The Snoopy

Last Tuesday was Kid Day for CHS starting with a slumber party for the girls at Katrina M.'s house, and an all night party for the boys at the Park which was then followed the next morning by a breakfast at Ruby Bromley's at 7 a.m. Everybody seemed to enjoy the breakfast and then the day began with riding bikes and water fights - and believe me it was a wet day for all Seniors and some innocent bystanders. At noon everybody enjoyed their own sack lunches and some other lunches too, with Cokes furnished by the Seniors' mothers. Then there was more bike riding and a lot more water fights. Some tried to get rest before finishing the day off with a Skating Party at Memphis. Everybody ended the day wet and tired but with many happy memories to look back on in the future.

The FFA Slave Sale was held Monday. Most of the boys brought a good price and everyone is expecting to get their money's worth out of the boy they bought. Work hard, boys.

The Band members are all packed and ready for their trip to Canon City, Colorado. They will be leaving Friday morning and everybody is excited as they have all worked hard for this trip. Good luck, Band, and have fun!

Cathy H., what was so interesting in the trunk of Alan H.'s car the other night?

Steve C. found out what it is like to be struck by lightning, black lightning at that.

Joni M. is awfully proud of something on her left hand these days. Could it be something Scotty L. gave her recently?

Carolyn S. has a big secret these days. What's HIS name?

Russell B., do things really go better with Coke?

Katrina M., we knew cars used a lot of oil, but bikes, really!

Jim O. must have something special. The boys were willing to pay any amount for him at the Slave Sale.

David O. and Jerry C. are making a lot of trips to Groom these days, but it's not what we thought. Seems to be girls that they're making their trips for.

Elray K., isn't 2 a.m. a little late for unexpected company?

Richard L., did James T. get your window clean the other day?

Cheryl S. can't be still for a minute at the show because she is always running errands for everyone else. One way to stop this Cheryl - a simple NO might settle this.

A sore leg didn't slow Ray H. down on Kid Day. He could still manage to get the girls wet.

Danny M. and Freda W. really believe in togetherness these days.

Frankie J. switched his car for John H.'s bike and Frankie ended up with the flat tire. Oh, well, bike tires are cheaper than car tires.

Pam J. can really play pool with a little help. Right, Pam?

Wanda T., we think you had a good idea the other day when you and Mickey G. exchanged coats. Mickey would make a cute cheerleader.

Pat T. and Debbie R. found that being inside the car couldn't keep Mike L. and Danny H. from giving them a good soaking on Kid Day.

Highlights and Sidelights FROM YOUR State Capitol

By BILL BOYKIN
Texas Press Association

Legislators have a lot more left to do than they have done so far in almost four months.

Of the nearly 1,700 House bills and almost 1,000 Senate bills introduced, fewer than 100 actually have reached the Governor's desk.

If the 63rd Legislature accomplishes as much as the 62nd did numerically (more than 1,000 bills passed), about 99 per cent of the floor action must be captured in the brief period before the May 28 adjournment deadline.

Slow-moving debate in the House - where more than 200 amendments were offered - on the \$9.7 billion appropriation bill fanned some speculation that a special session may be necessary to complete mandatory work.

Gov. Dolph Briscoe, who holds the key to calling such a session, has made clear he doesn't want one.

Senators banged through their \$9.5 billion version of the state budget in an hour and 21 minutes.

In spite of the two weeks spent on the House spending bill, Speaker Price Daniel Jr. maintained "plenty of time" remains to consider other "must" legislation.

Daniel predicted House passage of these measures before May 28:

Mass transit.

Drug law reform.

Bills to improve fiscal responsibility in government appropriations.

Restoral of capital punishment.

Penal code revision.

Water district reform.

Public school finance.

Competitive insurance rating.

While the work load appears staggering, Texas legislators are used to concentrating most of their floor action in the last month of their sessions.

CONSTITUTIONAL HEARINGS BEGIN - The Constitutional Revision Commission began the first of its three-month's series of hearings in the Panhandle and Far West Texas.

Initial hearings were held in Amarillo, Lubbock, El Paso, Midland-Odessa and San Angelo before moving South to San Antonio. A total of 18 hearings will hear citizens' views on how the constitution should be revised.

Witnesses offered suggestions on everything from dipping cattle in cold weather to legislative pay and the rights of individual citizens. Some told the Commission it should move cautiously in changing the constitution.

Further hearings are slated at Arlington, Texarkana, Tyler, Lufkin-Nacogdoches, Houston, Laredo, Corpus Christi, McAllen, Beaumont-Port Arthur-Orange, Abilene, Wichita Falls, Waco and Austin between now and the end of June.

Higher hunting and fishing licence fees and lower age limits for jury service are virtually assured.

The Senate passed amended bills authorizing both and returned them to the House where they originated.

The hunting license will cost \$5.25 instead of \$3.35 and the fishing license \$4.35 instead of \$2.15. A combination license is available for \$8.75. Out-of-state hunters visiting Texas may pay \$37.50 for their licenses. A special, three-day, non-resident salt fishing license can be obtained for \$1.25.

Under the new juror age legislation, 18-20-year-olds can serve on any Texas state court trial jury.

A bill to provide full maturity rights to the 18-20-year-olds finally passed the Senate and went to the House.

AG OPINIONS - Atty. Gen. John Hill held constitutional bills to require Legislative Budget Board to establish a system of audits of state agency programs (including biennial reports to the legislature) and to identify the cost of legislation through fiscal notes.

In other recent opinions, Hill found constitutional:

Seniors at Clarendon High School enjoyed their annual Kid Day Tuesday. Pictured is the group attired for the occasion.

Some of the Senior girls attending the Kid Day breakfast at Mrs. Bromley's Dining Room Tuesday morning were (near to far) Carrie Neal, Katrina Messer, Wanda Trout, Cindy Hommel, and Vicki Childs.

SB 499 ratifying creation of the Crosby Municipal Utility District of Harris County.

HB 25 providing that governing bodies may require real estate subdivisions to provide up to 10 per cent of subdivisions for school, park or playground purposes.

HB 1066, requiring appointment of two additional public housing authority commissioners "who must be tenants" of a public housing facility.

In other recent opinions, Hill said:

Ambulance attendants may perform emergency "nursing care" under radio or telephone directions of a licensed physician.

A simple majority vote can authorize bonds for seawalls and breakwaters.

A bill to grant emergency furloughs for convicts is constitutional if the leaves do not constitute reprieves, pardons or paroles. (Governor Briscoe returned the bill to the Senate where it originated.)

A hospital district cannot render such services as regulatory restaurant, meat, milk, Sewage and water inspections.

Railroads cannot be forced to comply with crossing marking requirements contained in an appropriations bill rider unless present law requires the same.

Student fees may be collected to cover public interest research activities.

A bill to validate a \$1.5 million Corpus Christi bond issue to buy facilities for a new college unit is constitutional.

One appointment by former Gov. Preston Smith to Rio Grande Valley Municipal Water Authority is invalid because Starr County was not represented.

Conservation and reclamation districts are not authorized to contract with other local govern-

ments for fire protection except under limited conditions.

The multi-colored feral pigeon is a variety of wild pigeon.

No law authorizes withdrawal of a portion of legal recovery by a minor or the interest from it to support the child or for other purpose.

SCHOOL LAW REVISION PONDERED - Governor Briscoe said he is "optimistic" the Legislature can still turn out a bill revising the present system of financing public schools.

Briscoe emphasized he would discourage the idea of a special session on the School law revision, and prefers to meet the issue this year if a method can be found to defer new taxes to foot the bill.

Efforts are being made to "phase-in" the program over a six-year period to avoid an \$812 million tax bill which the contemplated revision would force in 1975.

APPOINTMENTS - Rep. L. DeWitt Hale of Corpus Christi, R. L. Vale of San Antonio, Joe Allen of Baytown, David Finney of Fort Worth and Neil Caldwell of Angleton were named to the planning committee for the constitutional convention next year.

Governor Briscoe appointed Bunyan L. Hutchinson of Texarkana as Fifth District Judge in Bowie to succeed the late Judge Stuart Nunn of Texarkana.

Briscoe earlier reappointed Dempsey Henley of Liberty to the Commission for Indian Affairs and named Wayne Owen of Lubbock to the West Texas State University board of regents.

PLANTING PLANS CONFUSED - Unseasonal weather has created havoc with planting plans, State Agriculture Commissioner John C. White reports.

White said planting is three to four weeks behind schedule, and wet, cool weather lingering into spring has created "peculiar situations." For example, he noted, High Plains farmers are still harvesting their 1972 cotton crop, while time for 1973 planting is at hand. Rains, said White, assured excellent pasture conditions, livestock, oat and wheat crops.

Social Security

By TRAVIS C. BRIGGS

Social security retirement payments to most aged widows and dependent widowers will be increased in 1973, according to Travis C. Briggs, social security district manager in Amarillo.

Up to now, a widow's retirement benefit could be no more than 82 1/2 percent of the amount her husband would have received at age 65.

"But under new social security legislation, a widow who

started getting benefits at 65 or later can get the same benefit that her husband would have received at 65," Briggs said. "If she first started getting checks before 65, the benefit will be less than the full amount of her husband's benefit but not less than she was getting before."

"For example, a widow who started getting benefits at age 26 will now get 82.9 percent of her husband's benefit amount, instead of the 82.5 percent she receives under present law."

The new law will also apply to benefits paid to dependent widowers. In addition, dependent widowers will be able to get reduced benefits at age 60, as widows can now, instead of waiting until they're 62 to start getting checks.

Nationwide, about 4 million widows and dependent widowers are expected to get higher payments under the new law. The increase will first appear in checks delivered in early February.

The G. I. Bill has helped train 3.7 million veterans of the Post-Korean and Vietnam period and 4 million will have trained by the end of 1973.

This is a picture of the largest Regal Python on exhibition by the Fisher Bros. Circus which the Lions Club is sponsoring in Clarendon on the 11th day of May at the Rodeo grounds for 2 performances at 6 and 8 p.m. Tickets are on sale by members at the low price of \$1.00 to everyone when bought from a member. If purchased at the circus ticket office they are \$1.25 for children and \$1.50 for adults, and all tickets are good for any seats in the big top at the Fisher Bros. Circus does not have reserved seats.

Besides Conga who is over 20 feet long and weighs over 200 lbs. you will see a very good circus performance with elephant acts, trapeze, jugglers, clowns, balancing acts, something to entertain and please everyone.

Get your ticket in advance from the sponsor. Do this for three very good reasons. One, you save money on the adult tickets; two, you don't have to stand in line at the ticket office, and last, but not least, you help the sponsor make and keep more money as they get a much larger percentage from the advance sale than they do at the door, so if you buy your ticket from them in advance you put more money into the various projects that they do to help better the community.

**Soil Stewardship To Be Observed Here**

Soil Stewardship Week will be observed nationwide May 27-June 3, according to Bud Hermsmeyer, Chairman Donley County Soil and Water Conservation District. "Changing Challenges" will be the theme of this year's observance. The observance is sponsored by some 3000 companion Districts throughout the nation along with State and National Associations in this, their 18th consecutive year.

Among the local events scheduled in observance of this Week are a ministers' breakfast and tour and the annual Conservation Awards Program with the Lions Club.

Some time back we wrote about the good job that the Texas Highway Department was doing in cleaning off the snow from our highways . . . This saved a lot of money for we taxpayers in life of our paved highways . . . This went the rounds and wound up in the State Highway Magazine. It proved to us that we ought to be more liberal in our compliments of those we usually term as big business. We so often gripe instead of showing our appreciation.

This last week during the storms something else happened that made us want to say another Thank You . . . We tried and tried to complete a One Plus long distance telephone call. The connections wouldn't complete and the noise was bad. Finally we called the operator and explained our problem. She informed me that she would be glad to try and if she completed the call she would still give me self-dialing rates. I thought this was super service but when she completed the call she talked with the party long enough to be sure that the reception was good enough to be charged for the call. This just seemed to us to be as kind and considerate as one would expect from his neighborhood grocer. I guess we often forget that in every type of service there is within our contact the warmth of a human heart. For both of the above experiences we are thankful.

After reading some of the epitaphs in the cemetery we wonder where they buried all the bad people . . . Seriously I am glad that it is that way. It just goes to show that after someone is gone we are inclined to remember only the good. It is a pity we can't do more of it while they are still living.

If two friends ask you to help settle a dispute, you better not for you are sure to at least lose one friend . . . If two strangers ask you to settle a dispute it might be alright . . . At least you might gain one friend. Just don't ever try to settle a fuss between a man and his wife - this way they will both be mad at you.

For every guy that is filthy rich there is probably a dozen women ready to take him to the cleaners.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks and gratitude for all those comforting acts.

The Family of Dudley Wilson

With deepest gratitude we extend this word of thanks for the many gestures of thoughtfulness and acts of sympathy expressed by thoughtful friends in our bereavement. Your kindnesses have meant much to us.

## Exhibit Of Indian Arts Attract Many Sunday April 29

Over 300 people attended the Les Beaux Art Club Indian Arts Exhibit at the Farmers State Bank and Trust Co. Sunday afternoon, April 29, 1973. Praise and admiration of the fine collections were expressed by the guests, many of whom were from surrounding towns and some from other states.

Guests attended from Claude, Wellington, Groom, Memphis, Quail, Wichita Falls, Amarillo, Plainview, White Deer, Pampa, Big Spring, Happy, Canyon, Midland, Tulla, Lelia Lake, Silverton, Panhandle, McLean, and Howardwick as well as Clarendon; also from Maywood, New Jersey and Hammond, Indiana according to signatures in the guest registry.

Mr. and Mrs. Ben Konis of Amarillo brought an outstanding selection of his Indian portraits and landscapes in both oils and pastels. His sensitive capture on canvas of the subtle facial expressions in portrait made a deep impression on the viewers. He has spent much time among the Indians at their pueblos in New Mexico and Arizona.

Mr. Merle McMurtry of Tulla, Texas brought a small portion of his large collection of fine Navajo rugs and wall hangings. Mr. McMurtry has devoted many years and done extensive traveling in his search for fine examples of art. He also exhibited Indian basket work, pottery, and a selection of Indian Jewelry. An upsurge of interest in Indian jewelry and a scarcity of fine turquoise has brought a great increase in value to these articles.

Mr. and Mrs. Frank Walker, Jr. of Wheeler, Texas exhibited and had for sale a wide variety of jewelry. Mr. Walker has a vast knowledge of skills and materials required to produce a piece of Indian jewelry and visitors learned much about this art while talking with him. He displayed necklaces, belts, pins, tie tacs, bracelets, and rings.

Mrs. L. E. Holloway of Clarendon shared her collection of Indian basket work which she acquired in Arizona in the 1930's while her husband was an extension agent there. Native materials of bleached yucca, cat claw, and manzanita fibers were used.

Mr. Dennis Harrison of Clarendon exhibited his collection of Indian arrowheads which he started in Idaho when he lived there from 1960 to 1966. Many of his points were found along the Snake River as well as the

During the banquet, music and entertainment was provided by the Clarendon Junior College Stage Band under the direction of Kern K. Pigg.

Following the banquet, "Angel Fire," a band from Amarillo, provided music for dancing in the Cafeteria.

Both the meal and the dance were enjoyed by all with everyone reporting a good time.

### Retirement

by Travis C. Briggs

Retirement is a most delightful time for many people. It is thought of as a time of leisure and freedom from day to day responsibilities of a job. Unfortunately, it is still necessary to comply with other responsibilities connected with retirement, according to Travis C. Briggs, social security manager. For example, the social security office should be notified promptly if any change occurs which may affect monthly payments—such as change in mailing address or going to work for more than \$200 a year. Reporting is necessary when beneficiaries become unable to manage their own funds or die.

Dependents and survivors receiving benefits under social security should also report marriage, divorce, adoption, change in school attendance, etc. Reports may be made by mail, in person, or by telephone. A "Reporting Card" may be obtained from any social security office.

"Failure to make these reports timely could result in overpayments which would have to be paid back to social security," Briggs concluded.

### Mrs. E. L. Lewis 93rd Birthday Sun.

Mrs. E. L. Lewis, whose 93rd birthday was Saturday, was honored with a family dinner and visiting at her home Sunday. Her children helped make the occasion a happy one and a number of friends called to wish many happy returns of the day.

Children present were Mrs. Lorene Holland and Texas Batson of Lubbock; Mr. and Mrs. Lon Howard of Anton; Mr. and Mrs. Charlie Robertson of Amarillo; Mrs. Lea Reeves and Mrs. Reggie Reeves of Canyon; Mr. and Mrs. McHenry Lane of Pampa; Mr. and Mrs. Carroll Lewis and the honoree of Clarendon.

Birthday cake and coffee were served in the afternoon.

### Social Security And U. S. Servicemen

Starting in January, people who were on active duty with the armed forces anytime from 1957 through 1967 will get social security credit, according to Travis C. Briggs, social security district manager in Amarillo.

As a result of a change in the social security law, Briggs said, wage credits of \$100 are granted for each month of active military service performed in this 11-year period.

"Similar social security credit is already provided for military service after 1967," he said. Social security contributions on basic military pay are deducted from paychecks. There's no paycheck deduction for these additional military wage credits.

Monthly social security payments to retired and disabled workers and their families—and to the families of deceased workers—are based on average earnings over a period of years.

Social security benefits paid to some people have been low because they were partly based on low military earnings in the 1967-68 period for which additional military wage credits were not previously provided.

About 130,000 social security beneficiaries will be entitled to higher social security payments under the new law, according to Briggs.

People now getting benefits who think they may be eligible for higher payments because of the new wage credits, should contact any social security office.

### FRIENDSHIP CLUB

### Selective Service Registration A Must

Mr. John Rankin, Chairman of Selective Service Local Board No. 52 reminds young men of their obligation to register with Selective Service within 30 days of their 18th birthday.

Mr. Rankin stresses the fact that the requirements to register continues to be in full effect and every young man is required to present himself for registration 30 days before or 30 days after his 18th birthday. If for some reason he has failed to register he should do so immediately to escape the penalty of Federal law.

Failure to register may result in a fine, imprisonment, or both, under provisions of the Military Selective Service Act.

Registration may be accomplished at the office of the local board or at designated places of registration located in most communities.

Texas Local Board No. 52 serves Gray, Wheeler, Donley and Roberts counties. The Local Board office is located in the Post Office Building, Rooms 4-6, 120 E. Foster, Pampa, Texas. Office hours are 8:00 a.m. — 4:30 p.m. Monday through Friday.

Registrars for the Clarendon area and Donley County are: Mike McCully, located in the Clarendon Post Office and Clarence Hamilton located at the Clarendon Junior College.

### Free Phone Service Offered On Federal Job Information

To improve Federal job information services to the public, the Civil Service Commission provides toll-free telephone service from any point in the North Texas area to the Federal Job Information Center in Dallas.

Vere B. Robinson, Area Manager, of the Commission's Dallas Office said: "We believe this new service has significantly increased our ability to provide prompt and accurate information on current Federal job opportunities as well as information about special employment programs for returning veterans." Anyone in the North Texas area may call toll-free 1-800-492-4400 (in the immediate Dallas area, the number to call is 749-3156). The North Texas area includes such localities as Amarillo, Lubbock, Wichita Falls, Ft. Worth, Texarkana, Abilene, Sherman, Waco and Tyler. Applications for employment, job information, and other Civil Service pamphlets will be mailed on request.

Mrs. Robinson emphasized that this new service is a means to provide prompt Civil Service employment information to all segments of the public and does not imply an immediate increase in Federal manpower needs. Although Federal employment has declined somewhat since 1968, in a workforce as large as the Federal Government there is a continuing need for qualified persons in many occupational areas. Information about these current needs may be obtained simply by placing a toll-free call directly to the Dallas Federal Job Information Center.

### Veteran News

Q—If I purchase a mobile home with a VA guaranteed loan, just what does this guarantee?

A—VA guarantees up to 30 percent of loans — up to a maximum of \$10,000 for mobile homes and up to \$17,500 if the loan covers a lot as well as the mobile home. The guarantee usually permits eligible veterans and widows to arrange "no down payment" loans with private lending institutions.

Q—To settle a disagreement in my family, can you tell me if many veterans participate in job and farm training programs under the G. I. Bill?

A—In Fiscal Year 1972 (ending June 30) there were nearly 170,000 veterans in on-job training programs, which is 20,000 more than in FY 1971 and nine times the total in FY 1968.

Q—What is the income limit governing entitlement to non-service-connected disability and death pensions for veterans?

A—The income limit to such pensions for a veteran or widow with no dependents is \$2,600, and \$3,800 for a veteran or widow with dependents.

### Apply Now For Post Of DPS Patrolman

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, has announced the DPS is accepting applications for appointment to the post of patrolman.

And for the first time since the State law enforcement agency was created in 1935, female applicants will be considered for patrolman positions. Also, the DPS director noted that the department has been increasingly successful in recruiting persons from minority groups to patrolman positions and said efforts in this direction will continue.

Speir said general qualifications for DPS patrolmen are these: Applicants must be 20 through 35 years of age (inclusive); good moral character; excellent physical condition; height not less than 68 inches nor more than 76 inches; weight not less than two pounds nor more than 3½ pounds per inch of height; visual acuity no worse than 20/40 correctable to 20/20; and a citizen of the United States. Educational requirements are a minimum of 30 semester hours of college credit.

Persons selected as cadets will be assigned to Austin for an 18-week training school beginning June 26 at the DPS Academy. The salary during training will be \$600 per month, and room and board during this period will cost the cadet approximately \$55 per month.

Speir said upon being commissioned a patrolman, the salary is automatically raised to \$743 monthly. Patrolmen receive additional longevity pay for each five years of service to 25 years. They are also granted a monthly uniform cleaning allowance, and receive travel expenses when away from their station.

Uniforms, vehicles, weapons, ammunition and related equipment are furnished. Group life

and hospitalization are paid for the employee, and dependent coverage is available at reasonable rates. Patrolmen participate in the Employees Retirement System of Texas as well as Social Security. Vacation, holidays and sick leave are as provided for all State employees.

Successful graduates will be assigned to the Highway Patrol, License & Weight Service, Motor Vehicle Inspection Service, or Drivers License Service according to the needs of DPS and consideration of personal preference.

Patrolmen are eligible to compete for promotions after two years of service. Experienced uniformed DPS personnel interested in criminal investigation may apply for appointment to positions in the Criminal Law Enforcement Division, which includes Narcotics, Intelligence, Motor Vehicle Theft and Texas Ranger Services as vacancies occur.

Speir said applicants should contact any DPS office or patrolman for an application. The completed application form should then be taken to the nearest regional, district or sub-district DPS office where the competitive examination is given.

Arrangements will be made for a physical examination. A character investigation will be conducted and those persons who are accepted for employment will be notified prior to beginning of the June recruit school.

Mr. and Mrs. Richard Thornberry of Hastings, Nebraska, Mr. and Mrs. Lloyd V. Risley and children, Mr. and Mrs. Butch Schollenbarger and children, and Jim Risley of Lubbock were week end visitors in the home of their parents, Mr. and Mrs. Lloyd Risley.

Longest recorded period for which a person has voluntarily deprived himself of sleep has been 276 hours.

### Pants, Dresses Last Resort Words

"Overdone" and "dull" get walking papers as now-look pants and long dresses swirl onto resort scenes.

"Pretty softness and bright colors promise eye interest," notes Marilyn Brown, consumer education - clothing specialist, Texas Agricultural Extension Service, Texas A&M University. "With new emphasis on dress-ess, many resort goers are wondering about pant status in the fashion picture. If your resort traveling is on a cruise ship, by all means take pants.

"The wide look is good news, because wide pants are cooler than those cut narrow. Coordinated tops go along loose, in smock style gathered on a shoulder yoke, or cut shirt style."

Wool flannel for pant ensembles returns to the resort scene in soft pink or baby blue pastels. Sleeked over the hips, wider to the hem these pants step out under a shirt jacket with back pleating on a deeply rounded yoke.

"It's this kind of detailing found in resort pant outfits this season," the specialist noted, "and for evening, pants return in very wide styles — palazzo pants."

Resort dresses are long, staying in the pant mood, Miss Brown said.

"Beach dresses consist largely of robe - like coverups derived from the caftan and Kimono. Caftans sub for evening wear, featuring embroidery around the slit neckline and edged short sleeves and hem.

"Resort evening dresses are long and achieve a soft, pretty look with knit-jerseys with halter - top bodices or airy-light, sheer wool.

"More bare - topped knits promise to arrive on the resort set under angora jackets, the cardigan or battle jackets buttoned on the waistband."

## Game And Fish Law Hearings Coming Up

Texas hunters and fishermen have approximately one billion dollars invested in their equipment, and soon they will have the opportunity to put their voices where their money is.

The opportunity will come when Texas Parks and Wildlife Department officials hold public hearings in counties across the state concerning changes in laws affecting fish, game animals and fur bearing animals.

Clayton Garrison, executive director for the department, said the hearings are the first step toward setting the coming hunting and fishing regulations. The proposals will be set forth at the hearings, and citizen comments will be invited.

Detailed reports of the hearings will be submitted to the Texas Parks and Wildlife Commission. The reports will be used by the commissioners when they are considering changes in game and fish regulations.

Garrison said department officials are hoping for a good turnout at the public hearings. "Citizen participation at these hearings is absolutely essential if we are to get a full picture of many variables affecting fish and wildlife programs," he said. "We sincerely urge anyone interested in our fish and wildlife resources to attend these local hearings."

The hearing in Donley County will be held at the Courthouse in Clarendon, Wednesday, March 28, at 8 p.m.

Order now, supply is limited.

to show signs of weakening under a long (two-hour) high pressure sales pitch, she was offered another bonus in the form of a set of cutlery — if she agreed to buy the cookware that very day.

After the Salesman glossed over the financial features and fine print of the time payment contract, with (according to the customer) a running line of distracting patter and frequent glances at his watch, she signed on the dotted line.

The next morning she was remorseful — as so many customer in door-to-door transactions are, and regretted the fact that she had agreed to buy a set of pots and pans for a total of \$27.34 — including taxes and interest charges.

She felt even worse, she said, when she visited a retail store, and discovered she could have purchased the same brand of cookware and the same pattern of china at less than half of the amount she had obligated herself to pay. "I discovered it was a rip-off," she said.

The attorneys in my office immediately recognized that this contract was invalid, because the buyer was under 21 years of age. The cookware and china had not been delivered, but the contract had been sold to a lender. After several telephone contacts, the cookware firm agreed to buy the installment "paper" back from the finance company, thus relieving the young woman of any obligation.

But there would have been no relief in sight for the customer if she had been 21 years of age or older. The lender who bought her signed note would have had no obligation to cure her complaints.

So there would have been no happy ending. The customer would have had to pay out the \$27.34 note — even if the goods were not what she had expected; even if they deteriorated rapidly.

The moral to that story, and to most of the complaints of misrepresentation and exaggerated promises by door-to-door sales persons, is that the homeowner who answers that knock on the door should be extra cautious about 1) admitting the salesman in the first place; 2) listening to the sales spiel, unless it relates to a product the resident knows about and wants; and 3) signing a contract on the spot.

who have untreated hay fever will develop asthma, say state health officials. In many cases, seasonal asthma may fail to subside with the end of the season and may become chronic.

Among the most common forms of respiratory allergy is "pollinosis" — a respiratory reaction to pollens. Tree pollens cause trouble from about the middle of March to the middle of May, grass pollens from May to August, and ragweed pollen from approximately the middle of August to October. Because they come in direct contact with the tissues, only small amounts of pollen are required to produce symptoms.

The severity of hay fever varies in different parts of the country, from season to season and day to day. It is largely dependent on the weather conditions during the growth of the plant, and the temperature, humidity, sunshine and wind velocity during pollination time.

Molds commonly grow on plant life, and the seeds (or spores) are microscopic in size, many of them being even smaller than pollen. The kinds of molds which produce hay fever and asthma are particularly prevalent on grains, such as wheat, oats, rye and corn. Next to pollen, molds are the most common causes of seasonal hay fever and asthma.

Then there is contact dermatitis. If you go for a hike in the woods you may suffer an inflammation of the upper layers of the skin, varying from redness to blisters and also accompanied by itching. It is an allergy caused by direct contact of the causative substance. Poison ivy dermatitis is one of the best known examples of this kind. Poison ivy is not a poisonous plant. No one is affected by it the first time he touches it. Only on subsequent exposure does an allergy show up in about half or more of the persons. But many other plants and common substances in use in the house can produce this disease.

Three factors may play a part in the production of allergic illness. Susceptibility is one. Only certain people have the ability or the background to become allergic. Granting you have this background, you still must become sensitized to a special substance and then be re-exposed to it. If you avoid either of these steps, you will have no allergic illness. A third factor is what might be called contributing factors. Various conditions — temperature, chemical irritants, dust, emotional disturbances, etc. — may aggravate allergies or trigger their attacks. But by themselves they do not cause allergic symptoms.

If there is a family history of an allergy either on the father's

frequently manifests itself in the offspring. But the allergy they develop will not necessarily be the same type as their parents.

Specific allergy tests can be given by your doctor to discover the substances to which you are reacting. Specific desensitizing treatments may be given to build up immunity gradually. Prevention and avoidance of the offending substance, if possible, is the most effective means of dealing with an allergy.

### Texas Receives Funds For Fish & Wildlife

Hunters and fishermen in Texas will receive more federal money than any other state in the Union for fish and wildlife restoration work.

In 1973, the Texas Parks and Wildlife Department will receive \$605,000 in aid for sport fish restoration.

Alaska and California received the same amount.

Texas will also receive the Lion's share of wildlife money. Some \$1,876,620 is slated to flow into the coffers.

Alaska and California follow close behind.

Fish restoration funds come from the 10 percent excise tax on certain articles of fishing tackle. Distribution is made by the federal government to the states according to a formula based on the number of fishing license holders and the geographical size of the state.

and striped bass in Texas reservoirs, white-winger dove studies and wildlife disease programs funds.

In addition to excise tax-derived funds, Texas is also one of seven states that annually receives the maximum apportionment of \$228,000 in the Federal Aid to Commercial Fisheries Research Development Act.

These funds, appropriated by Congress from general revenue sources, are used in research and management of Texas \$70 million commercial fishing industry.

Federal money comprises 75 percent of the tab for such work and the state is required to put up the remaining 25 percent.

### The Consumer Alert

In the spring, a young girl's fancy often turns to thoughts of love, and the high pressure salesman who works from door-to-door can be expected to take advantage of the season.

The Attorney General's Consumer Protection Division already is receiving complaints of being pressured into high-cost contracts for hope chest items, such as cookware and china.

In one instance, the young woman and her roommate had been called on by a door-to-door salesman who claimed to have a superior set of stainless cookware to sell. While the cost for such quality was a bit high, the customer was assured she would be getting more than her money's worth, because she also would receive "free" a four-place setting of china.

### Accent On Health

#### ALLERGIES

If you sneeze and snifle during the ragweed season, if you have cramps, diarrhea, or rash after eating a particular food or drug, if you wheeze or itch when around a cat, a horse, chicken feathers, or some other substance — then you may be suffering from an allergy.

An allergy is an unusual reaction to a substance, an abnormal behavior of the body to it. Half of the people in the world sneeze or snifle, wheeze or itch, suffer intestinal disturbances or other uncomfortable symptoms because of their allergies. Half of the adult population in Texas and one-third of our children are afflicted, say state health officials.

In some it occurs only at certain seasons of the year, in others at fairly long intervals, while in many it is a daily problem. When the allergy-producing substance enters your system and comes in contact with the antibodies in the cell, that union produces dramatic effects. The best known of the results of these min-

iature explosions is the release of the chemical histamine from the cell. Normally, presence of histamine stimulates production of adequate amounts of antihistamine which would of course cause no symptoms to develop. Sometimes enough antihistamine is not produced to counter the levels of histamine.

Histamine is perfectly harmless when inside the cell, but once released outside the cell it produces undesirable changes. It dilates and congests blood vessels so that fluids from your blood stream leak out into the tissue, causing swelling.

If this change takes place in the skin the result is hives. If this reaction occurs in the nose, the membrane swells and you have a condition known as hay fever or "sinus." Another action of histamine is to contract or put into spasm involuntary muscle fibers — muscles not controlled by your own will, such as stomach, intestine, urinary bladder, or the uterus. If this muscle effect takes place in the muscle fibers around the bronchial tubes, asthma is the result; if in the intestine, cramps and diarrhea may be the effect.

### Family Life In God's Law

By Rev. Weldon Rives

**READ: PSALM 78**  
May 6-13 will be observed as National Family Week and, therefore I should like to direct our thoughts together on the general subject of The Family Life in God's Law. And, to do this we must go to the foundation of our faith upon which, through Christ interpretation and additions, we have our beliefs built on a sure foundation. The philosophy of the Jews was relatively simple; according to the teaching of Moses God had chosen the Hebrew people as an instrument for accomplishing a vast plan. To bring this to pass the people had entered into an agreement with God involving a series of responsibilities, one of which was the duty of instructing the young in the meaning of the covenant between the people and God. Every father was responsible for teaching his own child so that the child, when grown, would become responsible in maintaining the Covenant. Thus, religious teachings of children in the home by the father was an essential part of one's covenant with God.

Somewhere along the way—I'm not sure just when—an element of "Woman's Lib" got into the act, for by the time of the Wesley (John and Charles) the mother often had the responsibility, along with her other household duties. But, still, the religious training was primarily the duty of the home.

But, then, Robert Raikes, an Evangelical layman in the Church of England, began a Sunday School in his home city, Gloucester for the very poor children of his day, the year being 1780. And, eventually that God became responsible to parents given the task of the church and the church school teacher. And now, how often does one hear a parent say: "Well, I don't want to influence my children in the area of 'religion'; I'll wait and let them make up their own minds." Well, try as hard as it may, the church can neither take the place of parents teaching by precept and example nor can it do all that needs to be done in the area of Christian Education. We still need strong family units for the spiritual development of our children. It's the Law of God! And, I am convinced that when we have returned to this aspect of the Covenant, Family Life will not break down as often as it does this day and there will be less and less disruption of home life because "The Family That Pray Together Stay Together."

Grace and Peace In Christ Jesus.

### CHS Kid Day Is Event Of Tuesday

Tuesday, May 1, 1973, the Senior Class of Clarendon High School held its annual Kid Day. Seniors dressed in their "Kid Clothes" and on bicycles showed up at Mrs. Bromley's Dining Room at 7 a.m. for a breakfast.

Following the delicious meal, the group returned to school where most of the morning and afternoon was spent riding bicycles and shooting water guns. At the lunch hour, the class went to the Lloyd Leeper home and ate sack lunches returning to school for afternoon classes. Except for being a little tired and wet, the Seniors seemed to enjoy being together for this day of fellowship and fun.

Mr. and Mrs. Richard Thornberry of Hastings, Nebraska spent the week end with their parents, Mr. and Mrs. Lloyd Risley and Mr. and Mrs. Bill G. Thornberry. They were here for the Greene - Renfro wedding. Leane was a member of the houseparty. All of the Risley's children and grandchildren were home Saturday.

Mr. and Mrs. E. V. Quattlebaum visited Sunday afternoon in Hall County Hospital, Memphis, with Mrs. Ora Aiken who is hospitalized with a broken hip.
