LEAGUE'S SPOOKY SHOW FOR THIS HALLOWE'EN

The members of the Senior Epworth League are arranging a program for presentation in the auditorium of the Methodist Church, in the basement and other parts of that capacious building, which is one of the most eerie, the spookiest, creepy, goosefleshiest accumulation of Halloween horrors ever presented in this or any other country, and this shivery show will begin promptly at 8:00 o'clock p. m., Wednesday night, October 31st. Admission only 10 cents.

The business manager of this spooky show informs The Star that this will be one of the most uniquely thrilling entertainments ever presented in Baird, and as full of shivers and shakes as an old barn.

Entering the main auditorium of the church (after coughing up the all-important dime, of course), the auditor or auditee, as the case may be, will be delightfully entertained with a program of minstrelsy, as sweetly soul-soothing as a mid-summer night's zephyr. But harken! That's only preparing you mentally and physically for the spooky horrors to come. S—h! also hist! The plutonian plot thickens!

As the dreamy, dulcet sounds die away, grim faced, case-hardened warders take you in tow and conduct you to the Depths Below! S—h! Hist!

Next Wednesday night, on Halloween, at Methodist Church I will be seen.

If you want to know your future fate, Be there when the clock strikes eight. Great mysteries I will unfold, Your future mate you may behold.

I'll stew for you some witch's brew, So come and bring a friend or two.

The proceeds of this unique exhibition will be devoted to liquidating the debt the League owes on the beautiful stained glass memorial window presented by them to the church.

BUSTER BROWN AND TIGE ARE TO PAY BAIRD VISIT

"Buster Brown" and his faithful dog, "Tige," who both enjoy the felicity of eternal youth, will be in Baird Friday next, November 2nd, and they'll parade the streets and amuse the youngsters—and many of the old 'uns, who remember the inseparable pals, made world famous by the facile pen of Outacaut, the Cartoonist.

"Buster" and his dog will make their headquarters at B. L. Boydston's store during their stay in Baird. The next day, Saturday, the 3rd, the pair will be at Mr. Boydston's branch store in Clyde, and on Monday they'll double back to that gentleman's Putnam establishment.

PROGRAM PARENT-TEACHERS' ASS'N

The Baird Parent-Teachers' Association will hold its regular monthly meeting in the School Auditorium, Thursday, November 1st, at 4 o'clock p. m., when the following program will be rendered:

Song: High School Glee Club.
Why a Parent-Teachers' Association? Mrs. H. W. Ross.
Reading: Miss Theresa Weddington.
Parent's Power: Mrs. R. L. Alexander.

20 TESTS OF A GOOD FARMER

There Are A Few Of These Ideal Cultivators Of The Soil In Old Callahan

1 Is your farm operated with the determination to make the land richer each year?

2 Is yours a rotating, diversifying, "live at home" farm, giving proper attention not only to diversified farm crops, but also to live-stock, poultry and dairy products?

3 Are you using modern plows, cultivators, etc., which require cheap horse labor, rather than too much highly expensive human labor in making crops?

4 Do you, as far as possible, have something to turn under for soil improvement before each crop is planted?

5 Do you practice deep breaking followed by shallow and level cultivation?

6. On your farm are you making proper use of legumes—cow peas, soy beans, velvet beans, clovers, vetch and alfalfa—both for enriching land and for cheap hay?

7 Is there a constant effort to have well-shaped fields, free both of gullies and of ragged, uneven, sprouty corners.

8 Do you cut and shock your corn instead of practicing the old, labor wasting, corn yield reducing folly of "fodder pulling"?

9 Are you doing your part in the great movement that promises a new era for farmers through the business-like cooperating in buying and selling?

10 Have you joined the ranks of the progressive farmers whose houses are painted—both for reasons of beauty and as a preservative of expensive lumber?

11 Are you a reading farmer—not only reading newspapers, but bulletins, books and papers that deal especially with the great business of farming?

12 Is the farm house, as well as the farm itself, properly equipped with modern conveniences—a good range, fireless cooker, washing machine and wringer, running water, a modern lighting system, etc.?

13 Does your farm use none but well selected seed for the main crops planted?

14 Do you go ahead and do all your farm work when it ought to be done, regardless of any old superstitions about the moon or the signs of the zodiac?

15 Do you ask for the help of your county demonstration agent in trying to get your farming on the most profitable and business-like basis?

16 Are you giving your children the best education it is practicable to give them?

17 Are you trying to make your community a better place to live in and to encourage your neighbors in the adoption of progressive methods and ideas?

18 Are you giving your home a proper and beautiful setting of grass, trees and shrubbery, and have you provided good, well cared pastures for your cattle, hogs and horses?

19 Do you feel a real pride in your farm?

THE PASSING OF MAYFIELD & HALL

The members of this sterling young mercantile firm left yesterday for their new home in Amarillo.

The senior member, with Mrs. Mayfield and their two children, left in the morning, as did the firm's most efficient clerk, Miss Julia Bland. The party travelled in Mr. Mayfield's car.

The firm's junior member left yesterday in his new Overland coupe, accompanied by another clerk, Vernon King and Mr. Hall's brother, Earl. The wives of both the Hall boys remain here, and will not join their husbands until they get settled in their "hazard of a new fortune" and have time to secure homes.

Mrs. King and her two children also remain here for the same reason, and are at present the guests of Mrs. King's parents, Mr. and Mrs. John T. Edwards.

The passing of Mayfield & Hall leaves a void in the business and civic life of Baird that it will take some time to fill. Both are experienced, enterprising and aggressive merchants. Both took prominent parts in the civic development of Baird, and both were alive to its present welfare and its future development. Both cheerfully gave of their time and money for the public weal. No worthy scheme for municipal betterment failed of their personal and financial support. They believed in a bigger and better Baird, and they worked out this doctrine practically in the ordering of their civic and business lives.

Baird is assuredly a big loser by their going and Amarillo is to be congratulated on securing their citizenship and their business enterprise. The gap they make in Baird will be hard to fill.

In regretful post-written expressions at their leaving, The Star wishes them all honor and glory and material profit in their new field of endeavor and—for the entire exodus—a long life and a happy one.

Vale! Mayfield & Hall!

REMEMBER THE BUCKNER ORPHANS

"As ye have done it unto the least of these—ye have done it unto Me!"

The merciful ladies of the Baird Baptist Church never forget the parentless little ones in that splendid eleemosynary institution the Buckner Orphan's Home, and they ask assistance of the charitable people of Baird to make their gift-offering this year a notable one.

The "Box for Buckner's" this year will be packed next Wednesday, October 31, at 2 p. m., by these good ladies at the Church, and they announce that "every one wishing to honor the Lord by helping His little ones," bring or send "any good clothes, shoes, towels, or bed linen."

State Highway Engineer T. H. Webb, assisted by Engineer L. C. McCannies of Moran, who has charge of the construction of the substantially beautiful concrete-steel bridge across Mexis Creek, has opened an office on the second floor of the courthouse, and they will begin immediately a survey of Callahan County's sector of the Bankhead Highway, securing data for preparing plans and profiles for the guidance of contractors in making their bids.

DETAILS OF GREAT FAIR

Have Been Worked Out And Promises Of A Record Making Occasion Assured

H. W. King, Secretary of the Callahan County Fair Association, returned from San Francisco, California, last night, whither he had been as a solo member of Brown-wood's famous "Old Gray Mare Band," escorting National Commander Alvin Owsley, of the American Legion and his entourage to the National Convention of that organization in Frisco.

Secretary King had a most glorious time, and may have something to say about the trip later. Just now, however, he can talk about nothing but the coming Callahan County Fair, in the successful promotion of which he has taken a most prominent part.

He was more than pleased with the preparatory progress that has been made during his absence, and gave due credit to his able and efficient assistant, Miss Juanita Bow-lus—as busy as a bee in clover time. She has kept up with the routine work, not the least of which was the folding and mailing of two thousand of the big "blue" fair programs, turned out by The Star Job Print, one of which, at least, will go into every home in Callahan County, advertising the gala week attractions.

"Everything is riding pretty!" was Secretary King's sententious observation. "On Monday morning November 5 we'll be all set, and—we'll go!"

FOR THE BENEFIT OF FOOTBALLERS

The strenuous field work and the explicit and easily understood theoretical instruction which has been given the Football Team of the Baird High School by Coach Hughes, has brought the esprit du corps of that organization close on to the nth power, and they are forging thitherward, with several notable victories to their credit.

The team needs financial help, however, to purchase uniforms and necessary paraphernalia, and to assist them in this endeavor Dramatic Promoter and Manager E. D. Merrill, who is always jumping into the breach where there is a forlorn hope, has put his very talented and dramatically excellent company of players in rehearsal, and on Tuesday night next, October 30th, at The Tabernacle, they will produce a screamily funny 3-act comedy, "A Family Affair," which is as full of laughs as an egg is of meat.

The net proceeds of this production will go into the treasury of the foot ball team. The tickets are only 35 cents for adults and 20c for the kiddies, and there should be a full house.

County Superintendent of Public Instruction B. C. Chrisman went to Putnam Tuesday to receive a car of coal for rural Callahan County Schools in that section. A similar consignment arrived at Clyde for schools in that neighborhood. The coal was purchased some time ago at \$4 per ton, f. o. b. mine. A dozen or more rural schools pooled to buy the coal.

Junior Red Cross Spreads Good Will Throughout World

Nearly 5,000,000 pupils in the schools of America are following the standard of unselfish service as members of the American Junior Red Cross, the annual report of the American Red Cross discloses. This valiant host is represented in 125,072 school rooms of 24,259 schools throughout the United States. With a service program that is local, national and international in scope, the American Junior Red Cross is working unflinchingly for health and happiness and in the promotion of activities among boys and girls wherever there is opportunity for usefulness.

Increased activity on the part of the schools enrolled and deeper recognition by school authorities of the educational values of Junior Red Cross have been significant features of the last year. Carrying on educational and relief work in France, Poland, Austria, Hungary, Yugoslavia, Albania, Bulgaria and Rumania, the American Juniors have influenced the forming of Junior departments in the Red Cross organizations of these countries. American boys and girls wearing the "I Serve" button of the Juniors are proving apt messengers of the spirit of good will and mutual understanding through correspondence with pupils in schools scattered throughout the world. At the close of the school year in June 2,009 schools were engaged in correspondence with a like number of schools in Europe; 284 schools in our insular possessions and Alaska territory carried on an exchange of letters with schools in the United States and South Africa. In fact, nearly 2,700 schools with probably 100,000 pupils were busy in this fine act of cheerful communication, while 8,347 articles passed through National Headquarters of the Red Cross in exchanges between the interested pupils here and overseas. An incident of the year's advance was the beginning of activity which will eventually install Junior Red Cross in the Indian schools of the United States.

From every section of the country reports of the tour of the unit of crippled children with their chorus which came from the Bakule school in Prague, Czechoslovakia, to show gratitude to the American Juniors for their assistance declare that nothing since the World War has done so much to awaken the Red Cross spirit in the communities visited by the unit.

The work of the American Juniors in foreign fields is emphasized in the advancement of playgrounds, scholarships in farm, trade and other schools, community and school garden work, and donations of cash and equipment to children's organizations. In these projects \$112,660.17 was spent during the last year in ten European countries, in China and in the Virgin Islands.

"It is inconceivable that the Red Cross could have come thus far only to retreat; that it could have succeeded up to the present time only to fail."—President Coolidge.

HOLD LIQUOR MAY BE MADE AS A MEDICINE

Status of Manufacture Must Be Settled by Jury Under Facts, Says Appeals Tribunal

Austin, Texas.—Nowhere in the Dean liquor law, as originally enacted by the Thirty-Sixth Legislature, or amended by the Thirty-Seventh Legislature, can there be found a provision making it a penal offense or fixing the punishment for manufacturing intoxicating liquors for medicinal purposes without a permit, the Court of Criminal Appeals held in reversing and remanding the case of Gabriel Horak, from Milam County, convicted on a charge of manufacturing liquor and sentenced to eighteen months.

Also it is the opinion of the court that permit is not required for the transportation of liquor to be used for medicinal cases. This was held in reversing and remanding the case of L. A. Fuller, from Milam County, who had been convicted of transporting liquor, with punishment assessed at one year. Judge O. S. Lattimore wrote the opinions in both the Horak and Fuller cases. It is the first time the higher court has passed on the question.

In these cases, the issue was raised that permit was not required for manufacture and transportation of liquor to be used for medicinal purposes and refusal by the trial judge to submit the issue to the jury constituted error, in the opinion of the court of Criminal Appeals, and for that reason the cases were sent back for another trial. It was held that "the law does not penalize the transportation of liquor without permit, and no such charge was made in the indictment" in the Fuller case.

"The court can not refuse to submit the issue whether such transportation was bona fide for medical purposes or not, as it is a question of fact," the opinion held.

At his trial Horak's defense was that he manufactured liquor for medicinal purposes; that he was afflicted with lung trouble. He contended that a permit was not necessary.

In holding that the trial judge erred in refusing a special charge to the jury on the permit issue, the Court of Criminal Appeals said: "In the entire body of our law, including the Dean act, and the amendment of the Thirty-Seventh Legislature, we confess our inability to find any written statute making it penal or fixing the punishment for manufacturing intoxicating liquors without a permit." It was declared that the amendment of the Thirty-Seventh Legislature "manifestly does not create the offense of manufacturing liquor without a permit," for the law allows the manufacture of liquor for medicinal, scientific, industrial and sacramental purposes.

The opinion further declares that "whether the liquor was in fact made for medicinal purposes must be settled by the jury under the facts of the case. The Legislature did not see fit to define what is meant by medicinal purpose as expressed in the Constitutional amendment, or any of the statutes putting same in force."

A Tax Free Investment

The 7 per cent Cumulative Preferred Stock of the American Public Service Company is free from all taxation in Texas, and is also exempt from the normal Federal Income Tax. Dividends are payable quarterly on the first day of January, April, July and October.

THE AMERICAN PUBLIC SERVICE COMPANY HAS NEVER FAILED TO PAY WHEN DUE THE QUARTERLY DIVIDEND ON ITS PREFERRED STOCK

For the quarter ending August 1, 1923, the output of electrical energy by the operating companies of the American Public Service Company, of which the West Texas Utilities Company is one, was 31.5 per cent larger for the corresponding quarter of 1922. This fact speaks most emphatically of the progress and prospects of the Company.

There is practically an unlimited field for the successful development of the electrical light and power industry. The Preferred Stock of the American Public Service Company, which is engaged in this business, is an attractive investment offering safety of principal and regular dividends.

Stock may be purchased for cash, or on the part payment plan, the liberal feature of which will be explained upon application to any office of this Company.

TEXAS WHEAT MEN OPPOSES INCREASES

Hay Growers Join in Action Against Move by the Railroads

Austin, Texas.—The declaration nationally made of the dilemma of the wheat growers of this country in not receiving an adequate price for their product was repeated before the Texas Railroad Commission and the Interstate Commerce Commission by representatives of the Texas wheat growers, who vigorously opposed the application of railroads to materially increase the rates on grain, grain products and hay. The same protest was lodged for the hay growers by J. A. Fields of El Paso, representing the Texas-New Mexico Alfalfa Growers' Association.

E. P. Galley of Hereford of the Grain Sorghum Association, Troy Wamble of Hereford of the Texas Wheat Growers' Association, C. L. Lockwood, traffic manager of the Southwestern Wheat Growers' Association; Fred Keller of Electra, J. C. Paul of Pampa and Judge Hare of Miami all testified regarding the plight of the wheat growers and their utter inability to stand any increased burdens, presenting figures to show the losses as result of the cost of production compared to the price wheat.

RANCHER TAKES MEN AS THEY LOOT HOME

At Point of Gun Henry L. Brown Effects Capture Near San Antonio

San Antonio, Texas.—Quick action by Henry L. Brown, a rancher who resides nine miles from San Antonio, resulted in the capture of two men whom the rancher declared he caught in the act of robbing his home. An automobile trip, in which it is claimed, all road records were broken by Deputy Sheriffs, resulted in the arrest of the men and their confinement in jail.

Brown said he returned from a trip over his pasture and noticed a bundle of clothes on the floor in one of the rooms of his house. In another room he saw two men in military uniforms bundling up more clothing. Brown slipped in through a rear door and obtained a pistol, and confronted the men.

"Throw up your hands," he said. The men looked into the muzzle of a gun. Brown took them to a store near by and telephoned the Sheriff's office.

RED SAXONY WINS IN BERLIN STRUGGLE

Diplomatic Relations Severed as So-
cialists and Labor Unite in
Defying Reich

Berlin.—Confronted with bayonets
of Federal troops, its cities buzzing
with talk of Communist revolutions,
Red Saxony stands victorious in the
first show-down of its proletarian
struggle against Berlin.

German Socialism and German labor
are united behind Saxony in her
defiance of the Federal Govern-
ment.

The free trade unions of Berlin
have passed a resolution calling for
a general strike if the Government
employs troops against Saxon labor.

Socialist Cabinet members joined
in support of Saxony, threatening to
withdraw from the Cabinet and crash
the Stresemann Government if the
Saxon workers were oppressed.

The vaunted ultimatum that Fed-
eral troops would be used to disband
the Communist "Hundertschaften"
units unless Saxony dissolved them
crumpled before this combined at-
tack.

Premier Zeigner of Saxony ignored
the ultimatum. Federal Gen. Muel-
ler's saber rattling was silenced from
Berlin. Federal War Minister Gess-
ler ordered additional troops to
Saxony, but no other action was
taken.

It was announced that the Saxon
police had been commissioned to dis-
solve the Communist bands.

Berlin had backed down, although
it was announced that troops will
be used if the police fail in the task.
Officials privately predict that the
police will fail. In this event the
real crisis will be postponed.

Calling in of troops would again
raise the whole issue of Civil War.
Simultaneously with the crisis
over the Communist units Saxony
has offered a new affront to the
Federal Government by appointing
Saxon Finance Minister Boettcher
and his Communist ministerial as-
sociate, Herr Heckert, to the
Reichsrat, or supreme national coun-
cil of Germany, which contains rep-
resentatives of all the German
States.

Temper is high among the Saxon
people and in the Saxon Government.
Hostility to Berlin has been increas-
ed by the fact that while the Fed-
eral Government was mobilizing troops
along the Saxon frontier it took no
such action against the Monarchist
powers of Bavaria, which also had
defied Berlin.

Postponement of the final show-
down, even though it gives Saxony
first victory, may also give Saxon
leaders time to cool off and size
up what civil war would mean for
Germany, including themselves.

WASHINGTON

Retirement of Ambassador Child
at Rome will be effective at his
pleasure, it was said officially at the
State Department. The ambassador
is now en route to the United States
on leave. If it proves his desire to
return to Italy and sever his connec-
tion with the diplomatic service at
a later date, he will do so.

The state department has been
advised of the death of Diego Manuel
Chamorro, president of Nicaragua.
He died in Managua, the Nicaraguan
capital. Vice President Bartolome
Martinez is en route to Managua
from his country estate to be sworn
in as president.

The Government has removed 250,
600 barrels of whiskey from private
warehouses to new concentration
warehouses designated by the Reve-
nue Commissioner without losing a
single gallon by theft, officials of
the Treasury announced.

One hundred miles of the Alaskan
Railway has been put out of com-

tides.

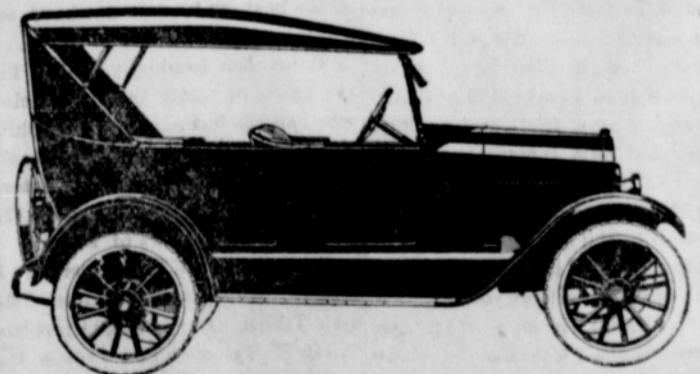

Friends of Mrs. Florence (Zina)
Harding have been informed that
she has decided definitely to spend
the coming winter in Washington,
but is still undecided as to where
she will make her future home.

Announcement has been made by
the federal farm loan board, that
land banks would make a combined
offering of \$47,000,000 in farm loan
bonds. The securities, dated July 1,
1923, will bear interest of 4 3-4 per
cent and will mature in 30 years.

"Don't get married on less than

Only a few days now until the Callahan County Fair and every business man in Baird should assist in making the thing go. We started late—too late, some of us thought—to do much; but if all will pull together, we can make it go.

The Invisible Empire has ousted the Governor of Oklahoma, but we are not informed as to whom the Imperial Wizard at Atlanta will select to fill his place permanently. A man by the name of Trapp assumes the duties of Governor temporarily, but if he is not a subject of the Invisible Government, he will not last long in Oklahoma.

RELIGION

A magazine writer says we need a new religion. But let's not do anything rash until we try the old.—New Britain Herald.

Ah! well, when the churches discover that they cannot successfully compete with the theatres, perhaps they will try religion again.—Baltimore Sun.

High officers of the Invisible Empire figure in court frequently these days. The Imperial Kludd (chaplain of the Invisible Empire), was arrested last week on the streets of Atlanta, Georgia, for driving an auto while drunk.

His Nibs, the Kludd, denies that he was drunk, though he admitted that he did take one drink. Too bad that the Klan cannot keep its high officials out of the police courts of the country, especially the spiritual Kludd.

A card received by The Star this week announces the association of Judge Chas. H. Jenkins and Ed J. Miller in the practice of law at Brownwood.

Judge Jenkins for several years was a member of the Court of Civil Appeals, Austin District, but recently resigned to accept the Chairmanship of the Codification Committee, and will remain in Austin most of the time during his term of office, but consulting on all matters presented to the higher courts.

Judge Jenkins is justly regarded as one of the ablest lawyers in Texas and, with all, a man of sterling character and a gentleman in every way that the word means.

Ed Miller is a Callahan County raised boy, who many years ago went to Brownwood to practice law, and we are glad to know that he has made a success in his profession, for he is a worthy young man.

We congratulate both of our old friends in forming a partnership in the practice of law. It has been a long, long time since the writer first met Charley Jenkins, a young lawyer just entering the practice of law at Brownwood, in the early 70's. Must be nearly fifty years ago.

Fortunately Charley and the writer

were nearly always on opposite sides, but this did not blind us to the fact that Charley Jenkin was one of the brainiest lawyers in all West Texas. We hope Ed Miller, with his new associate, may prove equally as worthy and successful as his illustrious senior in the new law firm.

The State Court of Criminal Appeals seems to have crippled the Dean law, but not as badly as some believe. The decision was in a case where the trial court refused to allow the defendant to introduce evidence that he made liquor exclusively for medicinal use, he being an invalid.

The higher court held this an error, and the case was reversed and was remanded for new trial, saying that the court failed to find anything in the Dean law requiring a permit to distil liquor for medicinal purposes.

At first glance it would appear that this would practically destroy the law, because, if liquor can be made for medicinal purposes without a permit, every old toper in Texas can, if he so desires, erect a still and souse himself to death in short order.

This is an extreme view of the case, however, and The Star would not advise any one to try it, because in every case proof would have to be made that the maker actually needed liquor for his internal works, and juries might not agree with all these sick home brewers.

But, listen! No matter what you prove in a State Court. Mr. Volstead stands at the door, waiting to grab medicinal distillers as well as others. The best way is to obey the law.

The editor of The Star opposed prohibition and has no apologies to make for it, neither did he favor the Dean Law, because it was too drastic; but our motto is and always has been to obey the law.

The decision of the State Court of Criminal Appeals may, and no doubt will, get many an alleged invalid in hot water and land them in a Federal prison or give them a heavy fine at least. Let the home brew and the bootleg stuff alone and you will live longer, even if you are—or think you are—an invalid.

We would like to see Underwood of Alabama, or some man like him of equal character and ability, nominated next year, but—remembering how the Democrats slaughtered Judson Harmon in 1912, we very much doubt if the Democrats will consider the claims of such a man as Senator Underwood.

As a rule, a man to win office this day and time in the Democratic party, must advocate every ism and schism that has wrecked the party in the past, or he does not have any show.

Texas has gradually fallen into the hands of small bore politicians who can see but one issue—prohibition mostly. What is the result? We have no more Sam Houston, Cokes, Irelands, Jim Hogg or Culbertsons as Governors of Texas.

What is true of Texas seems to be true of other Southern States. Men like Tilden, Hendricks, Cleveland, Allen G. Thurman and Judson Harmon are not nominated for high offices now. When men like John Sharp Williams and others voluntarily quit the United States Senate in disgust, it is time for the people of the South, at least, to stop and think.

Our ablest men in Congress, from the South, seem to be ignored for the small bore political office hunter. That is one reason the writer, after fifty years' activity as a Democrat, who loved to mix in the political game, no longer feels much interest in politics, and others can run it in to the ground, as they did in 1920,

when Cox was nominated.

If we cannot select a man that will at least not consolidate all the Republicans and all the Independent votes and a lot of Democratic votes too on the Republican candidate, why we had as well not nominate any one.

This thing of helping to dig our candidate from under seven million majority, may be fun to the Republicans, but not a blamed bit of fun to the Democrats, we want to say, for one of them, at least. So the boys can have the fun of pulling McAdoo from under the debris, the next time, if they want to.

The "forward lookers" of Texas will never be satisfied until they try it, so will not consider Underwood, or any man like him. Some of them will talk of endorsing Governor Neff. Well, if he does win the nomination, we hope he will not be buried as deep as Cox was.

Still in the right to stay;
If I am wrong, O teach my heart,
To find the better way.

Only regained by faith and prayer,
Only regained by prayer and plaint
Each lost day has its patron saint.

NEW MEXICO HAS THE OLDEST APPLE ORCHARD IN THE WORLD

Jim Seay hands The Star the following story, copyrighted by the North American Newspaper Alliance, describing what is probably the oldest apple orchard in the world, and which Mr. Seay declares is really there as described, as he has visited it:

"Nestling on the foothills of the Manzano Range, in Central New Mexico is what is probably the oldest apple orchard in the world.

"A Spanish priest brought from Mexico City, in 1635, the apple seeds that started the venerable Manzana orchard, near one of the largest springs in New Mexico.

"It flourished and, in 1675, the last of the Pueblos fell before the Apaches, and silence descended on the region in which the orchard is located.

"In 1880 Adolf F. Bandelier, the best known historian of the early days of the New Mexico region, visited Manzano, and his investigations led him to affirm that the origin of the old apple orchard predated 1675.

"The trees are obviously sprout growths, many of them in groups of two or three, starting from a common center, where once grew a tree now entirely decayed and gone.

"The present stand of trees is quite decadent, many being more than half dead. They still bear fruit that is used, the apples, however, being quite small, obviously seedlings."

A Factor in Baird's Progress

Because a bank is able to extend credit, it can contribute largely to the progress of its customers as individuals and of its community as a whole.

The degree of its helpfulness depends on the wisdom and vision with which credit is extended, and used.

Since 1884 the First National Bank, by working sympathetically and helpfully with those individuals and business enterprises who were building for the future, has been a strong factor in Baird's development.

MEXICAN FACTIONS IN BLOODY CLASHES

FOLLOWERS OF RIVAL PRESIDENTIAL ASPIRANTS BATTLE IN CAPITAL

FIVE ARE DEAD; 20 HURT

Largest Demonstrations in History of Capital Results in Fatalities on Sunday

Mexico City, Mexico.—Five persons are dead and about twenty wounded following a day of street clashes between rival political factions here.

Police, assisted by detachments of soldiers, handled the situation in a forceful manner and prevented the disorders from spreading.

Senor Calles, candidate for President, returned to Mexico City Sunday morning and paraded the streets at the head of 75,000 followers. Marching with him was Luis Morones, president of the Mexican Federation of Labor.

During the day supporters of Adolfo de la Huerata, another candidate, organized impromptu parades to oppose the Calles showing. One of these parades numbered 5,000 people. Whenever the parades met clashes occurred.

Further disorders are feared.

After the parade Gen. Calles issued a statement declaring he would demand the principles incorporated in the constitution and specifically included Article 27, the clause nationalizing oil resources, which has caused so much controversy between Mexico and the United States.

"Some have said my candidature is unacceptable to the United States and to European countries," Calles said. "That does not worry me. I have to answer for my acts only to the free people of my country. Those who think otherwise are those same traitors who, on one occasion, went to Europe to ask a Prince to govern them."

SAYS BAVARIAN AIM IS NOT SEPARATION

Von Kahr Explains Reason for His Defiance of the Reich Government

Munich, Bavaria.—In a proclamation to the Bavarian people, Dr. Von Kahr, military dictator of Bavaria, declares that Minister of Defense Gessler tried by threats against Bavaria to compel Gen. Von Lossow, commander of the Reichswehr in Bavaria, to resign and that Gessler had replied to the protest of the Bavarian Government "with an order for the immediate dismissal of Gen. Von Lossow."

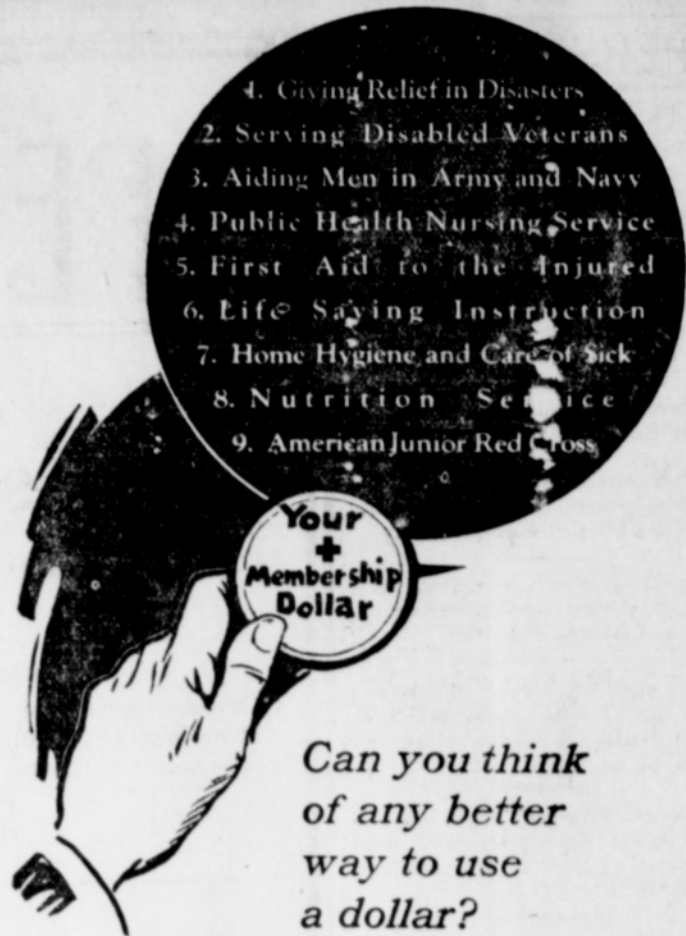

"The Bavarian Government and the State Commissioner," says the proclamation, "know themselves to be in accord with all nationally minded Germans if they reject this. Bavaria considers it her duty in this hour to be the stronghold of threatened Germanism. The Government therefore has entrusted Gen. Von Lossow with command of the Bavarian section of the Reichswehr."

"Bavarians and Germans: Remain true to the lofty task of restoring internal freedom to the German fatherland."

Von Kahr explained to the newspaper men his reason for what has been described as the Bavarian Government's open rebellion against the Berlin Government. He emphatically declared the Bavarian Government, in taking its momentous step, had rejected all ideas of separatism and particularism. It considered its attitude as a national duty against internationalism and Marxism. Its action was not taken against the Reich, but only against the policy of the Government of the Reich. A choice now must be made between the German and the non-German peoples. The Bavarian Government was fighting for the idea of a greater Germany, he said.

110 DISASTERS IN YEAR ENLIST RED CROSS AID

Nearly \$400,000 Spent in United States—Greek Refugee Work Completed.

For its preparedness to render relief through effective and generous aid to the sufferers from disaster the American Red Cross is universally regarded as the one organization from which response to appeal for help is immediate. In the last year, according to the annual report of the Red Cross, its disaster relief operations were carried out in 110 localities in the United States. This work, with activities carried over from the previous year, required the expenditure in the United States of \$397,468.04 by the American Red Cross, its Chapters and Branches. In the emergency following the defeat of the Greek forces in Turkey and the burning of the city of Smyrna, which entailed the relief of nearly 900,000 men, women and children, Red Cross National Headquarters expended \$2,605,596.09. The food distributed in Greece aggregated 25,000 tons; garments, \$09,000; blankets, 48,550; new shoes, 5,000 pairs; medical, hospital and sanitary supplies, 304 tons. In the feeding of the refugees there was listed upwards of 32,000 children under three years of age.

The disasters in the United States during the past year reported 240 persons killed, 591 injured, 12,691 rendered homeless. The total property loss was estimated at \$29,710,000.

Relief of suffering caused by disasters of such magnitude as to overwhelm the resources of the communities in which they occur is fundamental to the charter of the American Red Cross. In addition to making appropriations from its treasury and assigning trained personnel to relief work, the Red Cross in disaster centralizes and makes more effective relief funds and supplies contributed by the country at large.

Since 1881 the Red Cross has administered more than \$20,000,000 for the single purpose of disaster relief. That it may continue to accept the responsibilities which grave emergencies place upon the American Red Cross appeal is made for a nation wide renewal of membership during the annual roll call, which opens on Armistice Day, November 11, and closes on Thanksgiving Day, November 29.

"Our country could secure no higher commendation, no greater place in history, than to have it correctly said that the Red Cross is truly American." —President Coolidge.

Every day is a better one to the man and woman stimulated by the Red Cross spirit. Join now for happiness.

Life Saving Work Of Red Cross Corps Wars on Drownings

The insignia of the American Red Cross Life Saving Corps on the bathing apparel of men, women and youths is seen everywhere at favorite bathing places along the coasts, rivers, lakes and ponds. In its unrelenting campaign to reduce loss of life by drowning the Red Cross is making constant headway. The demands for instruction from organizations in all parts of the country were so numerous the past year that it was necessary to more than double the staff of Red Cross instructors. This work of training for water life-saving showed an enrollment of over 30,000 volunteers enlisted for duty on patrol, for rescue and resuscitation, all competent to instruct others in the standard water-safety methods. The Red Cross by request of the War Department gives water first aid training at the United States Military and Naval academies and in the military training camps for reserve officers and civilians. The four cash prizes awarded by the Red Cross last year for heroic rescues were conferred upon two girls, a boy and a man, indicating that the youths of the country stand well at the top in conserving life along our water courses.

Red Cross Field Of Action Covers All the World

Represented by 92,668 members, the American Red Cross penetrates to nearly every part of the world. The insular and foreign roll call statistics for the past year are a most conclusive manifestation of the Red Cross spirit carried into the most remote lands. In Europe there are 4,088 members; in Turkey, and active in the Constantinople Chapter, 3,545. China has an enrollment of 2,252; Africa 136; India, 224; and Australia, 29. Even Vladivostok, in frigid Siberia, has a live chapter with 160 members. The Philippine Islands can mobilize 58,747 under the Red Cross banner and Hawaii 7,863. The total funds raised through foreign and insular membership enrollment and sent to national headquarters in Washington amounted to \$60,216.54, while an additional \$33,350 was forwarded for the endowment fund of the American Red Cross. The high seas roll call in 1922 was an inspiring success. The Navy signed on 4,331 for the Red Cross and the merchant ships 4,141. Of the total membership outside the United States 83,990 are registered with chapters in foreign lands, the insular possessions and dependencies.

"I want to; therefore I can!" is the spirit that spurs the Red Cross worker in well-doing.

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Refined Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity,—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(Adv.) 32 131

LADY WAS IN A BAD FIX FROM NERVOUS INDIGESTION

Biloxi, Miss.—"I had, for a year or more, nervous indigestion, or some form of stomach trouble," says Mrs. Alonzo Ford, 1117 Clay Street, this city. "The water I drank at that time seemed to constipate me. I would suffer until I got so nervous I wanted to get down on the floor and roll. I felt like I could tear my clothes.

"Every night, and night after night, I had to take something for a laxative, and it had to be kept up nightly. My side would pain. I looked awful. My skin was sallow and seemed spotted. I would look at my hands and arms, and the flesh looked lifeless.

"I happened to get a Birthday Almanac, so I told my husband I would try the Black-Draught, which I did. I took a few big doses. I felt much better. My liver acted well. I made a good, warm tea and drank it that way. Soon I found

that nervous, tight feeling was going, as was the pain in my side. I found I did not have to take it every night. Soon, after a few weeks, I could leave it off for a week or so, and I did not suffer with constipation. . . I gained flesh. I have a good color, and believe it was a stubborn liver, and that Black-Draught did the work.

"I went to my mother's (Mrs. Deeters) one day, and she wasn't well at all. . . I told her we'd try Black-Draught. We did, and now she keeps it to take after eating. It certainly helped her, and we neither will be without it in our homes. It is so simple, and the dose can be regulated as the case may be. We use small doses after meals for indigestion, and larger doses for headache or bad liver."

Thedford's Black-Draught liver medicine is for sale everywhere. 1 84

15,000 PHYSICIANS HAVE BOGUS LICENSE

Diploma Mills Are Operating in the Eastern Part of the Country and in California.

St. Louis, Mo.—The belief that approximately 15,000 physicians are practicing in the United States under bogus licenses obtained through the fraudulent issuance of high school and medical school diplomas by "rings" in various parts of the country, was expressed here by William F. Saens, former examiner for the Missouri School Department, in a statement to Howard Sidener, circuit tatorney.

Sachs, who was sought by police since Monday in connection with the expose here of a "diploma ring," which was alleged to be selling diplomas to unqualified persons, voluntarily appeared at Circuit Attorney Sidener's office and in a long conference admitted his part in the "mill." He named Dr. Robert Adcox of St. Louis and Drs. D. R. Alexander and Ralph Voight of Kansas City as members of the "mill." The three physicians named have been arrested and released on bond.

During the conference Sachs said he had evidence of at least 100 physicians practicing throughout the country without genuine licenses and would later present these names to Sidener together with those he believes are operating in Missouri under fraudulent licenses.

Sachs told Sidener that he had sold principally the high school certificates, although he admitted having sold a few medical school diplomas. He said during the last ten years he had sold approximately 1,000 high school diplomas for sums ranging from \$5 to \$100.

Sachs added that "diploma mills" also were operating in the eastern part of the country and in California.

After the conference Sachs was released without bond and Sidener intimated that he would be used as a State's witness in the ultimate prosecution of members of the Missouri "mill."

HAYNES STARTS WAR AGAINST HOME BREW

Will Revoke Permits of Breweries Making Malt Syrup.

Washington.—Prohibition Commissioner Haynes has launched upon a new campaign against home brew.

In order to stamp out what he characterized as "the menace" of trafficking in home-brew ingredients, the commissioner announced that he would revoke the permits of all breweries which continue the practice of making malt syrups, now widely used as a base for home made beers.

So extensive has become the traffic in malt and other beer ingredients that in many cities retail stores have been established dealing in nothing else. Several such stores are flourishing in Washington, where a campaign to put them out of business was begun several months ago, but failed. The establishments were raided by revenue officers and the stocks carted away to a Government warehouse, only to be returned a short time later when it was found that there was no provision of the law under which prosecutions could be brought.

Clem Gray Found Guilty. Mount Pleasant, Texas.—G. C. (Clem) Gray was convicted and given the death penalty by a jury here on a charge of the murder of Otis Ballard. None of his family was in the courtroom when the jury, which had retired at 6:10 o'clock Thursday evening, filed in with its verdict. Gray sat with downcast eyes. Late Thursday evening he had pleaded with the jurymen to spare his life for the sake of his family. Through the trial he had tried to fasten the guilt on a negro.

American Faces Expulsion. San Antonio, Texas.—The State of Tamaulipas has asked the ministry of interior to apply article 33 of the Mexican constitution providing for expulsion to an American citizen, Harvey S. Leach, manager of the light and power company at Tampico, according to information received here. Leach is considered "a pernicious foreigner."

Big Hog Shipment at Paducah. Paducah, Texas.—One of the largest shipments of hogs that has ever been shipped out of Cottle County was loaded out of Paducah last week. A total of 607 hogs was sold by J. B. Sneed to parties that shipped them to Nebraska and California.

THE motoring public has been emphatic in its approval of the new Ford Four-Door Sedan. In all parts of the country its stylish appearance and inviting interior have brought the car instantly into great demand.

Now, at its reduced price, it presents a more compelling value than ever. Although better looking, roomier, easier riding, it is listed at forty dollars less.

Alice Paul Calls Meeting

Washington.—A special conference, to prepare for launching a national campaign, in behalf of a new equal rights amendment to the Constitution, was called by Miss Alice Paul, vice-president of the National Woman's Party, to be held here November 17 and 18. During the conference, an announcement from the party's headquarters said a delegation of 200 women, representing all sections of the country, will call at the White House and lay the proposed amendment before Coolidge.

Although he previously has advocated resumption of commercial relations with Russia, Representative Britten (Rep.), Illinois, who recently returned from a month's tour through Russian territory, told President Coolidge he was opposed to any form of recognition for the Soviet authorities. The Soviet regime was described by Mr. Britten as "a visionary government, whose very foundation is based on murder, anarchy, Bolshevism and theft."

DIXIE LYCEUM SERIES FOR BENEFIT OF BAND

Through the enterprise and public spirit of E. D. Merrill, arrangements have been made with The Dixie Lyceum Bureau, for five of that organization's superior entertainments, which will be given at stated intervals from November 3 until March 12, inclusive.

The net profits of these entertainments, for which you have to pay but \$1.50 for the full course, will be turned into the treasury of the Chamber of Commerce of Baird, and so worthy an object of benefaction, which has done so much to advertise Baird, should receive the unanimous cooperation and financial support of the citizenry of Baird.

Single admission to any of the five entertainments of the course, has been fixed at 45 cents for adults and 20 cents for children. These prices are below those usually charged for such high class entertainments, and everybody can afford to buy at least one season ticket and pay the kiddies way to all five numbers.

The first attraction, "The Sorority Singers" comprising the Misses Estelle Van Horne, soprano and entertainer; Ethel Carter, second soprano; Muriel Shewan alto; Frances Northam, second alto and pianist, will appear here Saturday week, November 3rd, and the Tabernacle should have a capacity audience.

This talented quartette have a repertoire that will include standard selections from such well known composers as Nevin, Parks, Cadman, Beach, Sproule and others. An interesting feature will be a group of college songs given in regular "co-ed" style, as only a quartet of charming collegians can render them.

MARSHAL ROPER AND THE NIGGER

A nigger hobo was put off a train here Wednesday morning about 4:30 o'clock, and that chill South wind set his teeth chattering, for he was thinly clad. He slouched up the east side of Baird's White Way with his black hands thrust deep in his britches pockets, his shoulders hunched above his woolly head, on a shivering search for shelter from that biting wind.

North of the City Bakery he peered into the roofless depths of the late Airdome Theatre, and his roving eyes rested on the loose lumber lying about, leftovers from the grandstand of the last boxing carnival.

"Hot dog!"

The coon's sleepy eyes blazed with delight, and in a jiffy he had gathered up an armful of the loose lumber, piled it against the north wall of the bakery building and presto! a bright fire was blazing.

Night Marshal Roper found him there fast asleep, with his head to the fire. The officer roused him into wakefulness with a prod of his toe.

"Here, nigger!" he commanded, "is an empty can; there's a hydrant across the street. Hustle for the water and put out the fire—then hit the grit."

"Yas' sub! yas' sub!" chattered the Ethiopian, grapping the can, and in no time the last embers of the fire had sizzled out and the nigger was on his way.
