Locals Defeat Canadian; Split With Wellington

The local high school basketball teams rounded out a pretty fair record for the past week but illness of players was a big factor in the girls game with Wellington Tuesday night.

Last Friday, in the games with Canadian, the girls team won 58-34 with Dorothy Richey high with 29 points. In the boys game, the Bronchos were also victorious with a 77-55 win. David Mooring and Archie Smith split high point honors with 22 points each.

In the games with Wellington Tuesday night, Coach Charlie Sullivan had a hard time fielding a team due to illness of his players. Even then, the girls made a good showing although they lost 43-52. Dorothy Richey was high with 23 points. In the boys game, the locals were victorious with a 56-49 win. Archie Smith was high with 15 points.

These games completed the first half of the round-robin play. The boys standing in district play is one game in the lead and the girls are now 2 games behind.

Both teams will travel to White Deer Friday night for the next games and the boys will play Memphis here next Tuesday night. Memphis does not have a girls team.

This year, the boys will work the town block by block from a pick-up. They will take your order, fill it and make delivery all in the same operation. It may take two or three week ends to cover the entire town, but they will be around to see everyone.

This is the only fund raising campaign this troop has each year, and the proceeds has to support all their activities for the entire year. Light bulbs are not perishable so take inventory of your bulb stock, make an estimate of your needs for another year and lay in a few extras for a worthy cause.

Monday Is Deadline For School Census

Monday, February 1, will be the deadline on the annual school census as announced by Supt. K. C. Vaughan this week. All children who will be six years of age before September 1, 1965 or who will not have reached the age of 18 before that date must be enumerated on the school census.

The annual scholastic census is required by state school law. The amount of State per capita funds or the amount of money the state provides for each student in the Clarendon Independent School District will depend upon the number of children listed on the census. School officials also use these statistics in planning the number of classrooms and teachers that will be needed during the next school year.

If you have not filled out a current school census form or an older child has not brought one of the census forms home for you to fill out, and you have children in this age group, please contact the principal's office of any local school or check at the School Administration office. Remember the deadline is Monday.

The troop would like this to be a service to the people of the Clarendon area. We want to provide this service to those who need it. It is not our intention to sell something that is not needed nor place the public in a position where they feel obligated to buy from the Scouts.

REBEKAH LODGE POT LUCK DINNER SET FOR WEDNESDAY

The Clarendon Rebekah Lodge will have another pot luck dinner Wednesday, February 3rd. The public is invited to come eat with us. Serving time will be 12 o'clock. Adults \$1 and children under 12 years 50c.

As the situation looks right now, this could be the year that most anything could happen in the way of election results...only 585 have paid their poll tax in Donley County.

This means only one thing. An election of any kind could be called and a majority of Donley County residents would not be able to voice their rights or have any right to complain about the results for approximately one out of every three voters have not paid their poll tax.

The deadline for paying your poll tax is January 31, 1965. The 31st falls on Sunday, and the Tax Office is closed on Saturday. This means you must purchase your poll tax today or tomorrow at the Tax Office or from one of the Jaycee-ette booths which will be set up Saturday morning at the Post Office and elsewhere Saturday afternoon in order to be a qualified voter.

An undesirable bond election could go over easily with such a small voting capacity. There is always possibilities of an Amendment election and it is definite there will be school trustee and city elections. For your own sake and the sake of your community, please take time out to pay your poll tax and be in a position to defend your rights as a citizen of your community.

BREEDLOVE HONORED AT KGNC TV PARTY

H. M. Breedlove, who will be retiring as County Agent January 31st, was honored with a TV Party at KGNC-TV studios last Saturday from 12:30 to 1 p.m.

A large crowd was expected for the party but the nasty weather stepped in and kept a lot of Flip's friends at home. In spite of the blowing snow and hazardous roads, a sizeable number showed up to participate in Cotton John's program. It was a very nice affair and Flip's friends were happy to be on hand to honor him on this occasion.

Most welcome hot coffee and other refreshments were served during the party time through the courtesy of the Farmers State Bank.

McCully, local Civil Defense Director.

HEDLEY NEWS

Mabel Bridges

An American cargo ship and French coastwise gasoline tanker collided recently in the English Channel off Le Harve France. The tanker, Port Manech, sank after survivors were removed by the American ship and sent ashore in small boats. Captain of the American ship, the Lucile Bloomfield, was James W. Webb of Amarillo, a former Hedley boy. He advised his wife and mother, Mrs. J. W. Webb in Amarillo, that all his crew were safe. Two French died of burns. Five were missing, and 20 injured, 8 of them seriously. The American ship caught fire but flames were controlled. The Lucile Bloomfield, a 6,103 ton out of Galveston, was on voyage from New Orleans to South Hampton, England. James is the son of the late Dr. Webb. He attended school here. Hedley friends were happy to learn no one was injured in the accident.

How Can You Fight Birth Defects? March of Dimes Has Good Advice

What would you do if a defective child were born in your family or to friends or neighbors? Would you know where to turn?

To answer these questions, marching mothers, more than a million strong, will distribute a new leaflet with sound advice for every family in the nation as they call on their neighbors during January for support of the March of Dimes fight against birth defects.

More than a quarter of a million babies are born each year in the U.S. with serious birth defects.

The leaflet being distributed by Mothers' March volunteers is called "THINGS TO DO IF . . ."

IF You Are About To Be Married,

- Select a family physician;
- Each partner should have a complete medical examination, providing the doctor with complete medical histories;
- Learn your blood groups and Rh factors (+ or -);
- Consult your physician together for advice important to your marriage, particularly if either family has a history of birth defects or if there is Rh incompatibility.

IF You Are Expecting a Baby,

- See a physician as early as possible to confirm pregnancy;
- Keep in close touch with him, reporting any unusual discomfort or bleeding;
- Follow the diet prescribed by your doctor;
- Do not take any drugs or medicines unless he tells you;
- Do not knowingly expose yourself to infectious diseases—particularly German measles;
- Tell any doctor you consult that you are pregnant so he may avoid prescribing harmful X rays or medication.

IF A Birth Defect Occurs in Your Family,

- Seek the best medical advice and treatment. Modern skills can often prevent or correct serious disability;
- Don't feel ashamed of yourself or the child born defective. No one is to blame so long as the stricken child is

helped to make the most of his precious gift of life;

- Do not despair. Professional help from physicians, clergy and others experienced in dealing with these problems can lead to a wholesome adjustment;
- Remember that there are many persons and organizations such as The National Foundation-March of Dimes that stand ready to help. Seek them out.

IF You Have Friends With a Defective Child,

- Treat them as you would any other friends. They do not desire pity, but the sympathetic understanding of true friendship is always welcome;
- Avoid giving advice. Let them make their own decisions with the aid of competent professional consultation.

The National Foundation-March of Dimes is using the experience gained in the fight against polio, which led to the

development of both the Salk and Sabin vaccines, to back its attack on birth defects. March of Dimes funds now support:

• more than 50 March of Dimes Birth Defects Centers across the U.S. which make the most advanced medical care and treatment for birth defects available to young victims and their families;

• a national research program which finances the work of scientists studying the causes of birth defects and seeking ways to prevent or correct them;

• a professional education program to train medical professionals in diagnosis and detection, and in practical application of scientific advances to treatment techniques;

• a public education program, of which the marching mothers' leaflet is a part, to alert the people to the magnitude of the birth defects problem and to let them know how much can be done to help defective children.

actly above each row and attached to the house frame. Wires are generally 6 to 7 feet above the soil surface. Number 11 wire is adequate to support 200 feet of row if supported by cross wires tied to the overhead structure.

Individual plants are most commonly supported by a length of ordinary binder twine tied to the wire and the other end loosely tied around the stem in a non-slip knot near the plant's base. The twine should be tied to a plant not directly below the knot on the wire but to the right or left depending on which direction plants are to be "dropped" later.

Larsen says the twine should be of such length that after tying the plant and to the overhead wire, about 3 feet of "pig tail" is left hanging from the wire. The twine should have some slack.

Tomato plants are pruned to a single stem by removing small shoots at the leaf axils that would develop into lateral branches.

"Generally, pruning is necessary about once a week," the horticulturist said. "But during early fall, it may be required about every four to five days when growth is very rapid."

Shoots should always be removed by breaking and not cutting, Larsen emphasized. Small shoots less than 3 inches long can be snapped off easily by a sharp bend and pull to one side. Larger shoots are bent over sharply to one side, then snapped off with a sharp bend and pull in the opposite direction.

Population of Phoenix, Arizona quadrupled between the census of 1950 and 1960.

CALL 874-3430 FOR AN APPOINTMENT

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

OUR MILITARY SUPREMACY

In the fast pace of headline-making events during Inaugural Week, many Americans may have missed the substance of President Johnson's message to Congress on the current state of our Nation's defenses.

For friend and foe alike, the message was clear: Our military forces are supreme and unparalleled and we mean to keep them that way. "I am able to report to you that the United States today is stronger militarily than at any other time in peacetime history," the President declared. "For the past 4 years, the focus of our national effort has been upon assuring an indisputable margin of superiority for our defenses. I can report today that effort has succeeded."

In four years, Americans can make these milestones of progress—and our enemies abroad, who might be contemplating new ad-

ventures in a test of arms, also can give them soberly study: Our strategic nuclear power on alert has increased threefold; our tactical nuclear power has been greatly expanded; our special forces, trained for the undeclared, twilight wars of today, have been expanded eightfold; our combat-ready Army divisions have been increased by 45 percent; our Marine Corps has been increased by 15,000 men, our airlift capacity to move troops anywhere in the world has been doubled; our tactical Air Force firepower to support these divisions in the field has increased 100 percent. Remember: This strength has been developed to support our basic military strategy, a strategy of strength and readiness, capable of countering aggression with appropriate force from ballistic missile to guerrilla bands.

Supporting our defenses at this level of preparedness costs approximately half of all the money we Americans pay in taxes. But Congress and the country know that our security and continued sovereignty depend on vast military expenditures—and will for the foreseeable future. As the President said, "...We—and free men everywhere—have proved preparedness to be the most effective means of preserving peace".

Our defense dollars are to be spent, according to the President's plan for the next fiscal year, on further increases in missile strength as well as further tech-

nological improvements and research and development. Major new developments to begin include these: A new missile system, the Poseidon (with double the payload of the Polaris), to increase the striking power of our nuclear submarines; new payloads for strategic missiles, a new short-range attack missile, the SRAM; improved ability to concentrate U. S. military power rapidly, by expanding airlift and sealift capability and increase the amount of prepositioned equipment; stepped-up efforts to protect our people, cities, and industry should a war be forced upon us; and continued research and development into systems providing protection against missile and bomber attacks.

We all know that the United States is the leader of Free World forces arrayed against a treacherous enemy. International Communism may be deterred from overt aggression by the knowledge of America's military might, but despite serious problems created by ideological differences the Red-dominated nations are bent on world conquest by whatever means they determine will succeed. Thus, the struggle involves more than military might. The moral and economic vitality of Freedom will continue to be tested.

Inaugural Week Visitors: Mr. and Mrs. B. R. Barfield, Mr. and Mrs. James F. Smith, Sr., and Mr. and Mrs. James F. Smith, Jr., Mr. and Mrs. S. B. Whittenburg and daughter Bonne, Mr. Charles Gibson, Mr. and Mrs. Allen Early, Jr., Miss Claudia Brummett, Mr. and Mrs. Wales Madden, Mr. and Mrs. Frank Rapstine, Mr. and Mrs. V. E. Patterson, Mr. and Mrs. Blue Morrow, Mr. and Mrs. L. P. Gilvin, Mrs. Howard Fuqua, Mr. Jay Taylor, Mr. and Mrs. Robert Darden, Mrs. Naomi Harney, Miss Dale Barnes, Miss Jonnie Rowan, Mrs. Pauline Gettys, all of Amarillo; Mr. and Mrs. Bob Lindsey and Mr. Douglas Meador, of Borger; Mr. and Mrs. Clayton Cook of Vega with daughter Melanie and son Mike, Mrs. Dorothy Groneman of Vega with daughter Orvilla and son Kiven; Mr. and Mrs. R. M. Lemon of Booker; Mr. and Mrs. W. D. Bales of Dumas; Mr. J. D. Helms of Spearman; Mr. and Mrs. Ken Kendrick of Stratford; and former Amarillo residents, Mr. and Mrs. Robert E. Chevelle Malibu Super Sport Coupe

(discover the difference)
Find out what 350 hp feels like
in America's favorite intermediate size car

Next time you're feeling low, come on in and plunk yourself down in the bucket seat of a Chevelle Malibu Super Sport. Flick the ignition—bring that special-order 350-hp power plant to life. Then go find a road and try not to smile.

We think it's the greatest pep pill since weekends—and that goes for the other Chevelle V8's too. The 195-hp. And the 250- and 300-hp jobs we can order for you.

And of course if power doesn't sell you right off, maybe Chevelle's short turning radius and overall handling ease will. Or its Full Coil suspension ride. Or its all-vinyl, carpeted interior. Or maybe it's just plain old Chevelle value.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

The 59th Legislature, faced with the heaviest work load in state lawmaking history, eased into its second week with some top Senators and Representatives on the absent list. A good many legislators took off for Washington to attend the inauguration of President Johnson.

These events highlighted the Legislature's opening week:

Rep. Ben Barnes of DeLeon was elected Speaker of the House by acclamation. He is the youngest speaker named since reconstruction days.

Sen. Tom Creighton of Mineral Wells was named president pro tempore of the Senate, to preside when Lt. Gov. Preston Smith is not present. In choosing Creighton, the Senators went against tradition when they passed over Sen. A. R. Schwartz of Galveston, who was next on the seniority list. Schwartz has opposed closed door sessions.

A record \$3,500,000,000 budget bill, calling for an increase of \$97,300,000 in general revenue spending, was introduced in the Senate. Proposal calls for \$567,300,000 general revenue spending, compared to \$599,500,000 recommended by Gov. John Connally.

Lieutenant Governor Smith named full membership of 24

Senate standing committees. The Senate was thus organized and ready for business on the second day of the session.

In the House, Barnes—whose speakership campaign had to be conducted in a few days due to unexpected appointment of ex-Speaker Byron Tunnell to the Railroad Commission—conferred with members day and night in an effort to speed committee appointments there.

Representatives drew priority numbers for bills. Both houses completed appointment of employees, other necessary routine and marked time before the big battles ahead.

Despite controversial decisions to be made on congressional and legislative redistricting, big finance and other matters, Smith and Barnes expressed confidence the Legislature can complete its work within 140 days. But some lawmakers weren't so sure.

BETTING BILL SHOWN—The battle over whether Texans are going to bet on horse racing has begun again. This time Rep. Maurice Pipkin of Brownsville is introducing the race track betting bill. Last session Rep. V. E. (Red Berry) of San Antonio couldn't get it through the Legislature. Pipkin's bill would allow both Thoroughbred and Quarter Horse

racing on licensed tracks. Also, the city, county, and state could collect taxes from the track operators. Before a track could be licensed in a county, voters in that county would have to call and approve a referendum.

The bill is backed by Texas Racing Association, which has raised more than \$150,000 from some of the most prominent men in Texas ranching and business. Opposing the association will be a group of businessmen being organized by the Texas Council of Churches and the Texas Baptist General Convention.

Pipkin said the state would get \$20,000,000 a year from a sliding tax of four to six per cent on all bets and that the state would get millions more from increased tourism. One of the first men to speak in opposition, Rep. J. C. Whitfield of Houston, said, "The plain facts are that legalizing racing and gambling not only damage the moral fabric of our people, but that the revenues they bring in are more than offset by losses in other, more legitimate fields of commerce."

LIQUOR BILL INTRODUCED—A Texas Restaurant Association bill which would make legal the selling of two-ounce bottles of liquor in licensed restaurants has been introduced.

Sen. Jim Bates of Edinburg is handling it in the Senate and Rep. Willis J. Whately is in charge of it in the House.

The bill would permit customers to fix their own drinks from the small bottles of liquor. This would go part of the way for those people who like to buy their liquor by the drink. Church groups and others will oppose it.

REDISTRICTING PLAN SEEN—A committee of the Texas Legislative Council, which is made up of representatives from both houses of the Legislature, has prepared two plans for congressional redistricting.

According to a Houston federal court order, the Legislature must redraw the present 23 districts so that their populations will vary no more than five per cent from the mathematical average of 416,508 and they must do the job by August 1.

Both plans would give South Texas a new congressman. They would have a district from Laredo to South San Antonio and from Del Rio to Zapata.

Also, both plans would put parts of Dallas, Tarrant and Bexar counties with other counties to equalize district populations. This reshuffling would require some current congressmen to run against each other if they want to be re-elected in 1966.

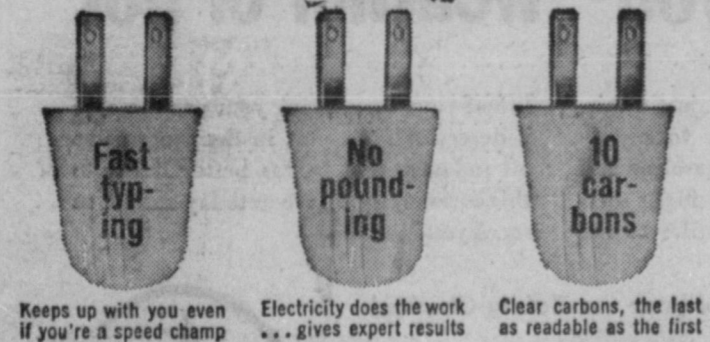

Some legislators said they liked the plans, but many said they did not like them and that they expect plans by individual members to be proposed as soon as introduction of bills begins.

TAX REVISIONS RECOMMENDED—Texas Commission on State and Local Tax Policy has suggested methods of obtaining \$15,300,000 in new state revenue (per biennium) through a variety of tax revisions.

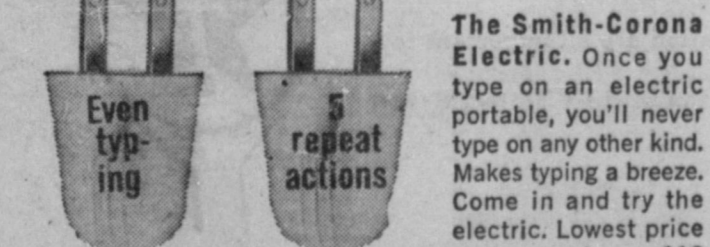

Commission said making sales tax applicable to telephone and telegraph service and other utility tax changes would pick up \$11,200,000; modernizing and inheritance tax, \$6,000,000; and removal of the sales tax exemption on farm machinery, \$9,000,000.

But not all the Commission's recommendations would mean more revenue. Losses would come from repeal of the theater admission tax, \$1,200,000; repeal of the chain store tax, \$7,200,000; and exemption from the production tax of gas used in field operations

MIKE HEATH RECEIVES PROMOTION

Mike Heath, son of Mr. and Mrs. Hershel Heath, received a promotion to Lance Corporal (E-3) in the Marine Corps last week.

Mike is Assistant Editor of "Flight Jacket" Marine Corps Air Station Newspaper at El Toro, California.

In a note to your editor last week, Mike stated "I'm beginning to really learn what a newspaper man has to go through every week right before deadline. Being assistant editor, I really begin to pull my hair on Wednesday afternoon before we put the paper to bed. I just enrolled in the Marine Corps Institute's Journalism course, I think it will help me a lot."

Your editor is proud of Mike and his advancement in the field of Journalism. When Mike received his assignment to the job as a reporter, he received a number of rough reporting assignments that would have made a civilian apprentice turn back but Mike dug in and the fruits of his efforts are evident by his promotion. We hope him every success in the Journalism field.
