

Centennial Countdown - Donley County - First 100 Years

\$2,500 hog dies from whack on head

Money had alot more value back in 1919 when this prize hog was purchased for the princely price of \$2,500! But this big bone polled Chira earned his keep by winning blue ribbons in the Dallas State Fair and in all of the local fairs. He had been purchased from Mr. Luther McFarlan in Hedley.

The Luther Butler family held this hog in high esteem on their big hog operation. Then the 1920's brought disaster to the entire nation, including the Butler hog farm. They lost \$50,000 in the hog business. The biggest blow of all came when the prize hog managed to escape from his pen. The hog herdsman, probably frantic

to capture this highly valued hog, ran after the hog with a big stick trying to herd him back into the pen. The herdsman gave the pig a healthy swat with the stick which, alas! broke the hogs' shoulder. The injury resulted in the untimely death of this fabulous hog and the fate of the herdsman is unknown.

Centennial material

Material for the Centennial countdown is still urgently needed. Time is running out quickly, however. We MUST have your stories, items, data, photos or memories in the office by the end of this month if we are to get them organized, printed and ready

for the press in July. Your help is needed and those who have helped us in the past will make this great and unusual issue a really remarkable treasure. Get going with those good intentions and get them into the office by the end of January.

If a red check appears by your name your paper has expired. Subscription rates for Donley County \$9.00 outside of County \$12.00. Mail Box 1110, Clarendon, Texas 79226.

Number 3

W. W. [Bud] LOVELADY.

W. R. [Billie] CHRISTAL.

WILL CHAMBERLAIN.

FREIDA GRAY.

C. W. [Dude] CORNELL.

P. C. MESSER.

Candidates who have filed for the May election

W. W. Lovelady

W. W. (Bud) Lovelady has lived in Clarendon for seven years and is a builder. He is a city Alderman now but that term expires. He is retiring from the building business so will have plenty of time to devote to the office of Justice of the Peace. Lovelady feels he is qualified to assess fines and said "I will try to be fair as I can be and try everybody alike, according to what the law says the fine should be. I don't know much about the law, but I will learn."

W. R. Christal

W. R. (Billie) Christal, has filed for the office of and announced his candidacy for the office of Donley County Judge.

Judge Christal has served 12 years as Donley County Judge with the exception of a two month hiatus.

There are approximately 80 volumes of Texas State Laws concerning family, civil probate and criminal codes the County Judge's office has to deal with.

Christal is a dedicated public servant and makes every effort to take care of the responsibilities of office with a maximum of attention to details of the situation.

In a statement, Christal said, "I am truly grateful for your co-operation in the past and will serve the office of County Judge to the very best of my ability".

Will Chamberlain

Commissioner for precinct 4 is Will Chamberlain, incumbent. Chamberlain is a farmer and rancher in the area where he was born. He has lived most of his life in Precinct 4 and is familiar with the people he has served the past 3 years. "I will continue to do my best as I have done for the past three years," Chamberlain said. This is his second term as county commissioner. "Thanks to the folks who have supported me and I hope they will continue to support me for this new term."

Freida Gray

Incumbent treasurer "I thoroughly enjoy doing this job," said a smiling Freida Gray over her stacks of ledgers and reports, "I love balancing things!" Her genuine expression of enthusiasm supports these unusual remarks about book-keeping. Most folks have trouble balancing a bank book, but Gray, without any real institutional education in the field, has earned high praise from the state auditors who cannot believe she has never had an educational background in finance. "All I know is that the columns should be even and I work on it until that happens. All of the skills I have, I learned on the job. This was an easy job for me to step into."

Besides balancing books, Freida has to work up the payroll, "and this county has a very large payroll!" Freida also does a quarterly report consisting of social security withholding tax and the crime fund. The crime fund is money taken in to reimburse the victims of a crime. A yearly report is also compiled in her office to be sent to the state.

"All of the money for the county comes through my office. If it is to pay a bill or paid to the county, I have to record it," said Gray.

Another duty of the office of county treasurer is being responsible for seeing that the money for the county is deposited in the best paying time deposit to help the county earn money in interest.

"I have not cost the county a penny with filing late reports," Freida Gray said with genuine honesty, "and I would die of shame if I ever did!"

Dude Cornell Place 2

"I think I need to run for this position," Dude Cornell remarked, "because I know everybody and think I can do a better job." Cornell has lived in Donley County for 35 years, working at a service station for 31 of those years. "I promise to do the best job I can, but I'm not making any rash promises. I feel I am qualified because I know needs of the people and I know everybody."

P. C. Messer-Clerk

"I've served in the office of county clerk for 28 years now, survived 7 elections and sure hope I can keep it going," P.C. Messer said Tuesday. He is entirely

happy and content with his job as county clerk and loves the variety of "chores" this elected position requires.

Among the many duties required of this office are the registration of all brands, all titles, deeds and powers of attorney, anything to do with property and power of attorney and keeping track of deed records and the insurance of marriage licenses. Child support checks are paid from that office as well. This is sometimes a real headache because of the delinquent reports which have to be tracked down and legal action taken.

Messer must also be responsible for keeping an accurate record of all district, probate and county court proceedings. Federal and state judgements, hospital liens and keeping track of all absentee voting boxes as well as all election proceedings are more of the many things the county clerk is directly responsible for.

P.C. Messer also keeps index files on all of the material recorded in the office. He is Ex-Officio clerk of the commissioners court as well. Helping him with the gargantuan chores are one part time and one full time helper.

Another, often over-looked chore, is that of doing names searches upon written request for birth and death certificates for genealogy work. This is often time consuming, but is necessary for him to perform it since these records are confidential.

Twenty-eight years of handling all of these records is a good proof of the level of competency exhibited by P. C. Messer.

Grand champion barrow owned by Doug Hawkins

Doug Hawkins excelled in several 4-H livestock projects this past year. His excellence did not fail him with his cross-bred 245 lb barrow that won him the Grand Champion Barrow at Saturday's FFA-4-H Donley County Barrow Show. Judges Randy Dunn and Tracy Angley of Pampa chose the pig from many Donley County entrants.

Reserver Grand Champion was Tim Cox with his 275 pound spot.

Rodney McAnear earned another showmanship award, this time on the local level. Others to receive showmanship awards were Lori Robinson, Jeff Helms and Doug Hawkins.

The results of the class I, 133-152 pound competition were: first place to Rodney McAnear, 2nd to Jeff Helms, 3rd to Doug Hawkins, 4th to Shane Klinnert, 5th to James Halford and 6th to Bret White.

The class II, 167-175 pounds competition went to Jeff Helms, Neal Johnston, James Halford with Todd Roberson, Mitch Johnson and Rod Keown coming in 4th-6th.

Class III, 181-205 pound winners were 1st Lori Robinson, 2nd Jay Gage, 3rd Shane Klinnert, 4th Todd Roberson, 5th Bret White, 6th Darrell Thomas and 6th to Rod Keown.

Class IV 208-223 pound winners were: Blade Barker, Joe Stefanatos, and third Neal Johnston, Tim Cole, Rod Keown, Ben Clifford and Rodney McAnear coming in 4th-7th.

Class V-229-245 pound winners were: Doug Hawkins with first place barrow, Bobby Asher, and Matt Mann placing 2nd and 3rd. Tim Cole, Lori Robinson, Ben Clifford and Matt Mann placing 4th-7th.

Class VI 246-280 pound winners were: Tim Cox first with Jay Gage and Lori Robinson taking the next honors. Jennifer Cox, Lori Robinson, Susan Mann and Colleana Cox placed 4th-7th. Thanks goes to the parents for supporting their off-springs efforts in these events as well as to the county agents for helping the event turn into a fine affair. Congratulations to our Donley Co. youth in their standard of excellence in 4-H.

DOUG HAWKINS and his blue ribbon hog.

Have you reported your acreage to ASCS

The Agricultural and Food Act of 1981 has been enacted into law. As a result, we will need acreage reports from some of you.

If you did not report your 1981 acreages of wheat, feed grains or cotton, we need these reports. Also, if you planted Oats in 1980 or 1981 and did not report these acreages when you reported your other crops, you should come to the office and make that report.

These reports must be made by February 5, 1982, so that you will be eligible for participation in the 1982 farm programs.

ACP

We are taking applications for 1982 Agricultural Conservation Program. If you have a conservation problem on your farm, come in and talk with us about cost-share assistance for solving these problems.

Holiday

This office will be closed on February 15, 1982 in observance of Washington's Birthday.

Guar meeting Jan.

28 at Clarendon

College

Guar, a non-edible legume, is being considered as the saviour of the panhandle farmer. It certainly has many inviting characteristics and good points but one major draw-back has come up for consideration: no contract as of yet for guar.

However, January 28 at 7:30 p.m. in room 102 at Clarendon College, agronomist Herbert Partridge of Munday will represent Henkle Co. and speak to interested farmers about guar production and possible sale of the bean.

For years, the summer legume crop has been planted mainly as a catch crop in the Texas Rolling Plains and in the Panhandle. But now with a higher contract offer

Private pilot ground

school offered by CC

Get your wings off the ground, get your sights soaring high, enroll in the new and exciting private pilot ground school to be offered at Clarendon Jr. College.

The course is designed to meet the requirements for the written F.A.A. Private Pilot Examination. The course is also designed to enhance the skills and knowledge of the right hand seat companion of the pilot and make flying more enjoyable and safe.

Flight training will also be available on individual basis, not connected with the Clarendon Jr. College school.

This exciting course will be taught by an experienced flight instructor and professional pilot with thousands of air hours in his background, Bob LaRue of Clarendon holds the commercial, instrument, CFI and CFII certification for single and multi-engine aircraft. He has been a pilot for many years and enjoys flying almost as much as he enjoys teaching folks to fly.

For more information contact Bob LaRue at 874-3711 during the day or at 874-2722 evenings. This course will be an experience you will never forget.

Howardwick bingo

election passes 64-6

Howardwick recently held their bingo election to decide whether or not to enable

charitable organizations to play bingo as a means of income. 50% of the Howardwick population turned out to vote. The election passed in an overwhelming return of 64 for and 6 against.

Much of the City Hall at Howardwick has been built, refinished, added on to and maintained through donations and non-profit fund raisers such as bake sales and bingo. Howardwick is truly a city with a heart of gold because most of its fund

raising activities are for charity organizations. "We are 100% on ALL of our charities," says mayor Jim Milam.

If you want to play bingo legally and without fear of felony charges, come to Howardwick and enjoy the game. If you wish to play bingo at your local club or recreational center, you had better be sure it is legal with the proper permits and registration or you may be liable for arrest and prosecution, just like in the old days of prohibition. Bingo, unlicensed and unauthorized, is a form of gambling and is illegal in the state of Texas.

Extension Homemaker

salad supper

Jan. 23

The 1982 Extension Homemakers "Salad Supper" will be held Saturday, January 23, at 6 p.m. in the First Christian Church basement.

The Extension Homemaker "Woman of the Year" award will be presented at the supper. Three homemakers, selected by their clubs, for the honor are Maxine Hardin, Early Birds; Lois McVicker, Lakers; and Pauline Heath, Late Edition.

The "Woman of the Year" is selected by a resume of accomplishments and activities submitted by the Club. The resume's are then sent to another county for judging.

Jean Burchett, of Childress, will be the guest speaker for the evening. Mrs. Burchett will also be bringing her recently published book to share with the club members.

Sarpalius in town Thursday

If you have any questions about state legislation, about laws being passed or actions in your state government you question, your opportunity to have first hand answers to your questions will present itself Thursday when Bill Sarpalius comes to Clarendon. He will be at the Courthouse in his mobil office.

Don't let your problems go unattended, let your senator know about your griefs, questions, suggestions and opinions. Senator Sarpalius takes the time and makes the effort to contact each and

every town in his constituency, it would behoove you to contact him and make your effort on that behalf. It is not often that an elected official, particularly one as lofty as a state senator, takes time to come to the grassroots on a regular basis, not connected with an election year. We are honored and privileged to have such a senator represent us. Help him know what you want, what you like, what you wish were different and your opinions. If neither else, get a hand shake and a bumper sticker!

Sheriff's report

On 1-16-82 1 arrested for DWI.

On 1-17-82 1 arrested for speeding/displaying another DL.

On 1-17-82 1 arrested for burglary of a habitation and

reckless driving.

On 1-18-82 3 arrested for assault by threat.

On 1-19-82 1 arrested for public intoxication and disorderly conduct.

On 1-19-82 1 arrested for disorderly conduct.

On 1-19-82 1 arrested for DWI.

On 1-12-82 1 report of harassment and disturbing the peace.

On 1-13-82 1 report of a theft of a dog.

On 1-14-82 1 report of a burglary of a habitation.

On 1-14-82 1 report of hindering secured creditors.

Cookie seminar not for muppets

This week, ladies of all ages and sizes will be making an odyssey to Pampa for their annual Girl Scout Cookie Seminar to be held Tuesday. While no muppets will be attending the cookie class, a Moffett will, Jondel Moffett and Teresa Watson from Clarendon will take notebook in hand and learn about the upcoming Girl Scout Cookie Campaign.

Three residents recover in hospital
Eddie Floyd is recovering well from open heart surgery performed Monday in High Plains Hospital in Amarillo. He will be in intensive care and will be in the hospital for awhile to recuperate. Cards would be appreciated.

Harriet Kutz is also in High Plains Hospital recovering from surgery. Mrs. Kutz would certainly appreciate cards from her friends here in Clarendon. Frank Hommel has recently had surgery as well. He is also in High Plains Hospital in Amarillo. Those friends wishing to send cards may send them to Frank Hommel in room 415 of High Plains Baptist Hospital. It would be wise to check BEFORE going into Amarillo to see if your friend is up to receiving visitors. Often, visitors are not admitted too soon after surgery and sometimes the patient is not quite up to company other than family. Don't disappoint yourself and check first to see if a visit from you would be welcomed. Clarendon friends and relatives extend their heartfelt wish that our three citizens recover soon and return to the "fold".

\$13 million yearly to pick up trash

A total of \$13 million, almost a dollar per Texan man, woman and child - was spent just to pick up trash along the State's highways during the fiscal year that ended August 31, 1981.

The figures, released today by the State Department of Highways and Public Transportation, show an increase of 26 percent over the 1980 litter pickup price tag of \$10.3 million which was an all-time high.

"The litter problem, particularly in heavily populated areas, is growing to gargantuan proportions," said DHT Engineer-Director Mark Goode.

"If motorists would dispose of their trash properly it would save Texas taxpayers millions of dollars and would save DHT thousands of man-hours," Goode said. "That's time and money that could be spent better on keeping our aging highways in better repair."

The following is an area-by-area breakdown of litter pickup costs:

Abilene & surrounding 13 counties	\$347,00
Amarillo & surround 17 counties	\$466,000
Altanta & surrounding 9 counties	\$162,000
Austin & surrounding 11 counties	\$369,000

Defensive driving course save money

New Texas law requires motorists to be covered by liability insurance.

Motorists who've never been covered may be surprised at the high cost of liability insurance. This cost can be lowered by taking the Defensive Driving Course.

Administered by the Texas Safety Association the Defensive Driving Course was written and produced by the National Safety Council.

Texas Safety Assn. statistics show those who complete the 8-hour Defensive Driving Course are better drivers. The Texas State Board of Insurance allows insurance companies to grant those who complete the course a ten percent reduction in insurance rates.

This ten percent discount applies for three years and can be renewed by taking the course again and is allowed for the principal driver of each family car. The discount applies to policies written by rate-regulated carriers. Discounts are given at the discretion of assigned risk pool and country mutual carriers. Fee for the course is usually \$18.00. Defensive Driving courses is taught by more than 650 agencies across the state to more than 225,000 persons yearly.

Consult the yellow pages for Driver Improvement for an agency near you or call the Texas Safety Association 512-451-7421.

Q. My GI Bill education assistance unfortunately does not cover all of my education expenses. Does VA offer any other financial assistance?

A. Yes, you should ask about the Work-Study program. This is a good source of additional income for veterans enrolled in school on a full-time basis. Check with your school's veterans affairs office for the nearest VA regional office for details.

PAULINE HEATH.

LOIS MC VICKER.

MAXINE HARDIN.

Woman of the year candidates

Pauline Heath Late Edition Club

Pauline Heath, native of Clarendon, attended Clarendon schools and Junior College.

Pauline married Hershel Heath in 1938 and lived in Amarillo until Pearl Harbor. She spent War years in California and Oklahoma employed by Douglas Aircraft. She says that they found living outside Texas interesting.

Pauline and her husband returned to Amarillo in 1944, went into business and her older sons Michael and Patrick were born there. The third son, Kent, was born after a move to Clarendon in 1949. Pauline says, "Our lives were typical, happy family-oriented years full of church, school, and community activities. I truly enjoyed my family and was contented to be a homemaker."

The Heath's son, Pat, developed Hodgkins Disease and was ill three years before his death in 1962. The idyllic years were over. Mike, after High School and a semester of College, enlisted in Marine Corps and served in Vietnam. The youngest son, Hershel and Pauline held a family conference and approved a plan for Pauline to complete a long delayed College degree in Education.

After two years commuting to W.T.S.U., she graduated in 1969 and started teaching that fall in Clarendon High School. She enjoyed the English and Speech-Drama Classes, particularly the directing One-Act Plays. Pauline says, "I suppose in every teacher there's some desire to be 'on stage' and communicate ideas to others. My change to Elementary classes has been equally rewarding. Children are challenging and intriguing companions. I learn fully as much as I teach. I consider it a privilege to share in young lives and, perhaps, contribute something to their growth. My thirteen teaching years have gone swiftly."

Pauline's sons are grown and married with families of their own. Mike lives in Brownwood with his wife Judy and three children. Mike is employed by Santa Fe Railway.

Kent and Janice live in Denton. Kent has a B.S. degree in Nursing, and is a R.N. with the Emergency Room Staff of Denton and Carrollton Hospitals. Since her husband's death in 1976, Pauline's family has meant a lot to her, as each of us know.

In addition to teaching, she enjoys visits with her mother who has an apartment here in Clarendon. Pauline says that her mother values her independence and she tries to help her maintain it. Pauline is a member of the Baptist Church and teaches a Sunday School Class, sings in the Choir, attends the Business Woman's Circle and serves on the Library Committee. She belongs to the Book Club and Late Edition Home Extension Group. Pauline is a member of the American Cancer Society Board (Local Unit). She has belonged to the Clarendon Al-Anon Group for thirty years. Pauline says that she is pondering what her second career should be.

Her fourth musical hat was when she was a Dispatcher at the Dumas Police Station. She holds the honor of being one of the first Complete Cycle of Qualified Women Dispatchers in the Panhandle.

Her fifth musical hat was when she was a Charter Member of the Dumas Calvary Baptist Church making a total of 50 people joining at that time. They are now associated with the Howardwick Baptist Church.

Her sixth musical hat was in Public Relations and assisting her husband with the accounting and book-keeping in his Kirby Vacuum business.

Her seventh musical hat was in donating her time and talents toward every Fund Raising Drive between the years of 1957 and 1971.

Her eighth musical hat has been since moving to the town of Howardwick in 1971. She worked as Assistant on the Elections in Precinct 1 for the County and Howardwick until four years ago when she was appointed the Presiding Judge for Precinct 1, a position she still holds.

Her ninth musical hat has been as President of the Lakers Home Demonstration Club, which has a membership of 27. She has faithfully attended the Council Meetings. She was a member of the Cookbook Committee and obtained all the recipes from the Howardwick area and has spearheaded the sale of the Cookbooks in Howardwick.

Her tenth hat has been for loving and caring at different times for 15 grandchildren and 3 great grandchildren.

Her eleventh hat is for being a good neighbor. Always willing to help in time of need, to drive a friend to town, to sit with a sick friend, to help in cases where no one else will go.

To sum it all up, her musical hats are in being a wife, mother, grandmother, neighbor, Christian, dispatcher, Public Relations, Presiding Judge, fund raiser, counselor and Club president.

We, the Lakers Home Demonstration Club presents this resume of Lois McVicker our candidate for the Woman of the Year Award.

Hardin family is active in the Episcopal Church and it's teaching activities. Maxine has been a lifelong member and is currently president of the women's organization.

Aside from her home and children, Maxine has other interests which include the Les Beaux Art Club where she has been an active member since college. She is also a member of the Clarendon Country Club board of directors, the Women's Golf Association, Duplicate Bridge Club and the Saturday supper bridge club.

With Maxine's broad range of experience, interests and talents, it is easy to see why she is such a valuable part of our organization. This is why she is our Woman of the Year.

Accent On Health

Texas Department of Health
Robert Bernstein, M.D., Commissioner

The increase of 17 and 18-year-old girls smoking cigarettes coupled with the increase of teenage pregnancies, could lead to more health problems in Texas since smoking presents increased risks for pregnant women.

That's the opinion of Dr. Walter P. Peter Jr., Chief of the Bureau of Maternal and Child Health, Texas Department of Health.

According to information from the American Cancer Society, smoking is increasing faster among teenage girls than among teenage boys, Dr. Peter said. More boys actually smoke, but their percentage has remained fairly constant at around 30 percent, whereas 27 percent of the girls now smoke as compared to 22 percent in 1969.

Dr. Peter said approximately 1.5 million teenagers live in Texas. He said it is estimated from national surveys that 180,000 of these teenagers are unmarried, sexually active 15 to 19-year-olds at risk of pregnancy. In 1979 Texas teenagers gave birth to 47,764 infants, compared to 50,097 in 1980.

Not to forget the importance of spiritual training, the

Property tax code takes effect statewide this month

A major change in the structure of ad valorem tax administration occurred January 1 when the state's new Property Tax Code took full effect.

The code, initially enacted by the 66th Legislature as Senate Bill 621 and modified by the 67th Legislature in House Bill 30, replaces a variety of statutes which previously had governed the taxing powers of counties, school districts, cities and various special districts.

Kenneth Graeber, executive director of SPTB, noted that it is important for tax officials to be aware of the fact that previously existing property tax statutes in conflict with the Property Tax Code have been repealed.

He called attention to a provision in Sec. 6(b) of Senate Bill 621 which states, "All other general, local and special laws in conflict with this Act are repealed to the extent of the conflict, and the failure expressly to repeal or amend any law in conflict with this Act is not evidence of legislative intent that the law not be repealed."

Among the more significant portions of the code are sections which:

"establish a central appraisal district in each county which will value all property for tax purposes and provide that value to each taxing unit in the district;

"provide a single board of equalization—which will be empowered to hear taxpayer appeals on a wide range of matters rather than just questions of value;

"make it possible for taxpayers to file all exemption applications and property renditions with one office rather than with multiple taxing units;

"permit one-time applications for homestead exemptions and open-space land valuation, rather than annual applications as previously required;

"provide, for the first time in Texas, a method of taxpayers to limit tax increases through an initiative and referendum process applicable to all taxing units.

Graeber noted that the

code actually established county appraisal districts effective January 1, 1980, and placed them in full operation on January 1, 1982, except in those counties where taxing units opted for a delay to 1983 or 1984.

"In quite a number of counties, the appraisal district provided valuation services to taxing units in 1981 under local contract. Such contracts will not be required in 1982, though a contract would be necessary if a taxing unit desires that the appraisal district also provide tax collection services," he said.

SPTB has been surveying chief appraisers and, from reports filed with the agency through December 21, has determined that 18 out of 254 counties have delayed implementation of appraisal services. These include two heavily populated counties—Harris, delaying until 1984, and Bexar, delaying until 1983.

Others reporting delays to 1983 are Glasscock, Gray, Hardin, Hartley, Jasper, Leon, Live Oak, Moore, Motley, Oldham, Rockwall, Stonewall and Zapata counties.

Reporting delays to 1984, in addition to Harris, were Crockett, Bowie and McCulloch counties. The appraisal districts in Bowie and McCulloch counties will appraise their largest school district and largest city in 1982. Crockett will serve the county's only school district.

"The property tax is the primary source of local government revenue and it is important that all officials involved in the tax administration process seek to make the new system work in a manner which will provide equity to taxpayers and maintain needed funding for local services," Graeber said.

Round Ball Roundup

By Spencer Hayes
It has always been said that "What goes up must come down." This saying held true for the Canadian Broncos as they had their seven-game win streak snapped by the Tiffin Hornets last their district opponent at Clarendon.

The Broncos were stung by the Hornets on Tuesday in both teams' final non-district contest, 55-45, in Tiffin. Clarendon was outscored quickly by the 17th ranked (in AAA) Hornets, but the Broncos were still within striking distance at halftime, trailing 37-24. But an awesome Tiffin outburst early in the third quarter put the Broncos away before they had a chance to come back.

Coach Don Holmes could not help being disappointed. "We were just completely shut out off their Championship (at the North Plains Tourney in Canada)," remarked Holmes. He added, "I'm not taking anything away from Tiffin, however, they are a super club." John Brunton led the Broncos in both scoring with 13 and rebounds also with 13 while Brad Thompson scored in both categories, scoring 12 points and matching nine boards.

Three nights later, however, the Broncos jumped back into the win column with a 21 point win over the defending district Champions, the Canadian Wildcats. Trained by Holmes as "the best-coached team

we've played", Canadian stayed with Clarendon throughout the first half, when Clarendon pulled in with only a 26-22 lead. But Holmes' team's eight third quarter points widened the margin to twelve at the end of the third period before Clarendon put the Cats away in the fourth. Thompson led the Broncos in scoring with 26, while Brunton added 14. Brunton added 11, while pulling down 13 rebounds. Thompson followed with nine boards. Despite a 60-39 victory, Holmes says he is not satisfied. "We still have lots of room for improvement," stated the head coach.

The Broncos were tested again at home Tuesday against the arch-rival Wellington Redskins after news

fixes are motivated specialists with challenging jobs in an advanced engineering environment. In initial job assignments, a nuclear propulsion officer will have five to 20 highly qualified specialists working for him.

To qualify for the program, the applicant must be a male at least 19 and not more than 27½ years of age at the time of commissioning. The nuclear power training program is not available to women, as all nuclear submarines and surface ships in the Navy's inventory are combatants. Title 10 of the U.S. Code prohibits women from serving in combatant vessels. Additional requirements stipulate that the individual be entering his junior year of college, be enrolled in a technical major and be maintaining a grade average of at least 3.3 on a 4.0 scale. Those entering the program in their senior year or about to enter their last year in pursuit of a master's degree are not required to be enrolled in a technical field but must have calculus and calculus-based physics to be considered. Seniors who have a grade point average below the 3.3 mark may also be considered. Each applicant must meet the basic qualifications for eventual commission as a naval officer and must agree to achieve and maintain a 3.3 grade point average for his remaining time in school.

The selection process is initiated by the interested candidate when he calls the Navy Recruiting Information Center at (800) 841-8000, toll-free, or by writing Commander, Navy Recruiting Command (Code 312), 4015 Wilson Blvd., Arlington, Va. 22203.

Lady Bronco Basketball

By SCOTT NEWLAND
For any organization to be successful, it must be efficient in all aspects. If one part fails, the other parts must be able to bear the load. The Clarendon Lady Broncos are very much like this organization since mentioned. Last Tuesday against Tiffin the Lady Broncos operated well in all areas, while on Friday one part fell off, but the other strengths took care of the weakness.

Against Tiffin, the last of Clarendon's pre-conference games, the Lady Broncos totally dominated the Hornets of Tiffin 70-49. Vanessa Cal-

loway led the way with 19 points, while Kelli Hardin and Angelia Gardner added 17 and 14 respectively. Hardin also dominated the boards with 11 in limited play.

Although the games against the weaker teams such as Tiffin, helps the regular's little, it gives hard-workers off the bench like Rhonda Butler, Talyan Acila, Kristina Walker, Dorothy Braddock and Cassie German playing time to prove their capability. Sometimes the role of the reserve is forgotten, but their play is often the deciding factor in many games.

The game against Canadian meant the start of conference play for the Lady Broncos. It was also the time that part of the organization was to fail. The always hot shooting of Clarendon was just not to be last Friday. The final totals showed the Lady Broncos shooting a meager 33% from the field. The state Clarendon offense could only muster 26 points. But where the offense left off the defense picked up. The tenacious defense limited Canadian to a low 22 points.

The win made Clarendon 1-0 in district play and better offense should mean the Lady Broncos will end up the same way, perfect.

to be hauled to livestock. The ice also brought headaches to plumbing and electrical lines. The temperatures were cold, beginning with December 31, the temperature hit 1 degree and stayed below 10 until the 18th of January when the sun came out and the temperature went up to 34.

At least we are dry and warm again this year. January 1982 began dry and warm with a high of 75 and only four days below freezing since January 1. Pardonable weather is always unpredictable, but we can almost assure our readers that this trend will change radically in February. Enjoy it while it lasts.

The NUPOC program

The Nuclear Propulsion Officer Candidate (NUPOC) Program is indeed a program designed to attract exceptional students in technical disciplines to the Navy's nuclear power training program. Through this program offers financial aid paying more than \$10,000 per year to defer college expenses for an individual's last two years of college education and leads to entry into the "best nuclear power training program in the nation," few students and even fewer parents are aware of the availability of this program.

The NUPOC Program can provide up to approximately \$1,000 a month to qualified college students who are within one to two years of graduation. It was established to provide officers for the Navy who are qualified to pursue nuclear power training immediately after graduation from college and to serve aboard the nuclear submarines and surface ships of the fleet. Navy nuclear propulsion officers operate, supervise and maintain more than 140 nuclear reactors—65 percent of all nuclear reactors in the United States. Filling a technical, managerial and leadership role, nuclear propulsion of-

Weight room to be opened at night

Winter flub got you down? Coach Bryant has the solution for those of us who would like to increase our muscle tone, decrease our fat and become mighty healthy to boot. He will have the High School weight room open every night possible at 7 p.m.

This opportunity to work out is being extended because several folks asked the coach about doing it again. The cost will be \$1 per night. This money does NOT pay the coach for his time at the weight room helping you or keeping it open. It does NOT pay for wages.

What the money does do, however, is pay for upkeep, utilities and it goes into a kitty to build up funds to purchase new equipment. Last year, the money accrued was used to purchase two 25 pound weights and a new bar.

What is available for \$1? Bench presses, open weights, machines, incline bench, cut bar, leg pulls, push downs, dips, sit ups and more. There will be the mighty Coach Joe Bryant in attendance to show you the proper techniques, help you develop your particular needs, to encourage, to give you pointers and help you develop your own individual programs. He will have two skilled high school students to assist him in making this program as smooth, professional experience.

Women interested in body building are welcome, says Coach Bryant, if they are willing to learn the rules and do it properly. It is too easy to hurt yourself if you just plunge in without guidance

Weather different this year

Many of us are the little concerned about the "unusual dry and warm spell" we are experiencing. Some of our bushes have even thought enough of the warm weather to begin to bud out. This is not "unusual" because last year we were experiencing the same type of weather trend for January.

January 1 thru 8 had a high of 60 and only reached a low daytime temperature of 37. January 9-15 was not much different with a high of 78 and a low of 42 for the daytime temperatures. There had been no precipitation since early December.

1979 was another story altogether, however. Although the precipitation was in the form of un welcomed ice, it did not measure to much more than a trace. It did prevent cattle from grazing and froze over wells and ponds so food and water had

Twenty-one Brownies went Christmas caroling on December 22nd, 1981 to the Medical Center Nursing Home. Troop 29 members attending: Leshel Calloway, Kelly Edwards, Renee Erdmann, Suzzette Henson, Cindy Hermesmeier, Jodi Kidd, Tamara Martin, Kim McAfee, Crystal Riley, Regina Watson, Christina White and their leader, Teresa Watson. Troop 120 members attending: Dottie Bryant, Claire Boston, Sheri Hall, Stella Jaramillo, Amy McCord, Jenny Naylor, Ginger McAnear, Dorcas Osburn, Krista Percival, Tracy Shadle, along with their leader, Jondel Moffett, and Susan Hall. Thank you, Susan!

Everyone enjoyed the singing and we hope the Nursing Home enjoyed the girls. Appreciated also were the special refreshments furnished by the parents. We thank the Lions for letting us use the hall afterwards. We also thank Bill and Mary Jo Hodges for the use of the

GIRL SCOUT CHRISTMAS carolling. Troops 120, 29 and 180 and 82.

van. 1st. grade Brownies are working on their Ready Helper requirements. Their helping becomes a happy task.

2nd. grade Brownies are trying to complete their Friend-Maker requirements this year. Troop 29 will miss Christina Nixon who moved to Hedley and Renee Erdmann who has moved who has moved to Olney. We hope they will find new Brownie friends soon. We miss Burdean Erdmann

also. Both Brownie troops worked very hard before Christmas to collect used toys for the Day Care Center. A lot of these toys were generously picked out of their outgrown possessions. Both troops have picked up litter outdoors around their meeting place. Soon the High School will have a new litter can painted maroon and white by these girls.

We can't thank all our Brownie parents enough--they enable these girls to

spend extra time working on Girl Scouting. We think this time is well spent making young people into citizens concerned with God, our country and mankind.

The onion is a lily that has been bred through the centuries for development of its bulb and suppression of its top.

HEALTHY ADVICE

by Fred Lucas, M.D.

Backache Can Be Avoided

Even in today's advanced society, we haven't made much progress in avoiding the common backache. In fact, more things cause backache today than ever before.

Some shoes, tension, ignoring simple safety rules, lack of exercise and bad posture are major causes of back pain, according to a study by the Texas Medical Association.

High-heeled shoes--can be a hazard because they change the way the foot strikes the ground and can cause pain from the legs up. The possibility of twisted ankles and assorted tendon, ligament and muscle injuries adds to the danger of wearing these shoes.

Tension is often the cause of such physical problems as headaches and backaches.

Not following simple safety rules when lifting something also can cause backache. People who are not used to picking up heavy loads often make a mistake by lifting while leaning over with their backs bent. Bending from the knees and then lifting with the back straight can help to avoid back pain.

Lack of exercise also causes muscles that are out of shape to hurt just from carrying the body around. And usually when people are out of shape, they are overweight, which adds to the problem.

Remembering to stand up straight pays off in an attractive appearance while helping to avoid pain. Overly soft beds and chairs discourage good posture. Any chair in which someone spends a lot of time should be firm to provide support and be the right height to avoid putting the body at odd angles.

Once back pain strikes, simple remedies should help. Resting, taking non-prescription pain relievers and applying heat will ease most back pains. If the pain is severe or does not go away after a few days, see your physician. He can recommend treatment that might include prescription drugs, special exercise or other remedies.

Dr. Lucas is medical director of National Heritage Insurance Co. of Austin. National Heritage is a subsidiary of Electronic Data Systems Corp. of Dallas. EDS underwrites and administers the Texas Medicaid Program.

The common cold, probably the world's most common illness, is caused by at least 30 different viruses. It is the greatest single cause of lost working hours in America.

NEWS FROM TROOP 33

The Kiowa District will hold our annual District Banquet on Friday night January 22 at 7 p.m. in the First Christian Church Fellowship hall in Pampa. This is a pot luck feed and each adult going should plan on taking one dish. Please contact Mr. Saye, Donny Garman or James Thomas if you plan on going.

The following Scouts received their Tenderfoot Rank, Brad Harguess, Roger Estlack, Mike Dodd, Tracy Baker, and Dale Phillips.

Due to cold weather last Saturday the men did not work on taking down the house. So this Saturday January 23rd weather permitting will be work day.

Miss Christine Craft weds Kade Legett Matthews

St. John Baptist Episcopal Church, Clarendon, was the scene Saturday night, January 16th, 1982, of the service uniting in marriage Christine Craft of Clarendon and Kade Legett Matthews of Abilene.

The bride is a daughter of Mr. and Mrs. William E. Craft of Clarendon. Mr. John Matthews of Albany and Mrs. Julia Jones Matthews of Abilene are parents of the bridegroom.

The Rev. Scott Turner, Vicar of St. John Baptist Episcopal Church officiated.

Given in marriage by her father, the bride wore an heirloom wedding gown of embroidered ivory brussa silk from Asia Minor, which was worn first in 1896 by her maternal great-grandmother. The bride was the fourth generation to wear the dress. Her floor length veil was of linen lace and she carried a bouquet of ivory roses, stephanotis and ivy.

Mrs. John T. Keene, Jr. of San Antonio was matron of honor. Bridesmaid was Miss Kimberley Dick of Ft. Worth and brides matron was Mrs. Hardy Grissom of San Angelo. Miss Kathleen Keene, niece of the bride, was the flower girl.

John A. Matthews, Jr. of Abilene served as best man for his brother and groomsmen were Sam Baxter of Dermott, Arkansas and William P. Craft of Clarendon.

Joe Matthews of Abilene and John R. Craft of Clarendon were ushers. Acolyte for the service was Spencer Hayes of Clarendon.

Following the ceremony a reception was held at the Amarillo Country Club.

Parents of the bridegroom hosted a rehearsal dinner at Mrs. Bromley's Dining Room, Clarendon, Friday evening.

The couple will be at home in Abilene after February 1.

MRS. CHRISTINE MATTHEWS
nee Chris Craft.

The Rev. Scott Turner, Vicar of St. John Baptist Episcopal Church officiated.

Given in marriage by her father, the bride wore an heirloom wedding gown of embroidered ivory brussa silk from Asia Minor, which was worn first in 1896 by her maternal great-grandmother. The bride was the fourth generation to wear the dress. Her floor length veil was of linen lace and she carried a bouquet of ivory roses, stephanotis and ivy.

Les Beaux Art Club met

By Gladys Sawyer

The January 15 meeting of the Les-Beaux Arts Club was a trip to "The Castle" and refreshment and business in the home of Betty Boston.

The old Murphy home west of Clarendon, affectionately call "The Castle", has been restored to its turn of the Century elegance by Mr. and Mrs. Robert Jones. It was a delight to be in this historic home.

After the tour of the Jones home, the club was served refreshments by the hostesses Betty Boston and Jo Baldwin in the Boston home.

The president, Bobby Thornberry presided at the business meeting. The collect was read and the secretary-treasurer report were heard and approved.

Leona Henson reported the following slate of officers for the 1982-83 club year:

President Ruth Robinson; vice-president Bobby Thornberry; Secretary Dianne Chamberlain; Treasurer Annabeth McNabb; Parliamentarian Dorothy White and Historian Gladys Sawyer. These officers were unanimously elected.

Helen Phelps reported on funds raised by the hat show of December 5 and asked for suggestions for another project.

Those present were: Jo Baldwin; Elmonette Bivens; Betty Boston; Diane Chamberlain; Theda Hardin; Maxine Hardin; Leona Henson; Annabeth McNabb; Helen Phelps; Cennet Rhode; Ruth Robinson; Gladys Sawyer; Lucy Saye; Anna Moores Simmons; Bobbie hornberry; Mary Thornberry; Dorothy White; Linda Kay Bell and Virginia Browder.

The January 15 meeting of the Les-Beaux Arts Club was a trip to "The Castle" and refreshment and business in the home of Betty Boston.

The old Murphy home west of Clarendon, affectionately call "The Castle", has been restored to its turn of the Century elegance by Mr. and Mrs. Robert Jones. It was a delight to be in this historic home.

After the tour of the Jones home, the club was served refreshments by the hostesses Betty Boston and Jo Baldwin in the Boston home.

The president, Bobby Thornberry presided at the business meeting. The collect was read and the secretary-treasurer report were heard and approved.

Leona Henson reported the following slate of officers for the 1982-83 club year:

Beta Sigma Phi meets

Xi Lambda Xi met January 18, 1982, in the home of Susan Henson with Charlene Mays as co-hostess.

The opening ritual opened the meeting. The roll was called, the minutes were read and approved.

President Genella Eads read communication from International Headquarters concerning the Exemplar, Endowment and Scholarship Funds. International asked to have a vote on whether to renew the grants to the Arthritis and Rheumatism Foundations and to St. Jude Children's Hospital. Our chapter voted unanimously for it.

Genella Eads read a letter from WTSU, thanking us for our \$10 donation to the Speaker's Endowment Fund for the Distinguished Woman Award Program.

Genella read an invitation from Jamie Deyhle, Brenda Ward and Donna G. for a baby shower for Maurine Butts on Thursday, January 14, at Jamie Deyhle's home.

Our president reported on the meeting of city council for Beta Sigma Phi. She reported that the Sweetheart Banquet and the Charity Ball

will be 2 separate events. The Sweetheart Banquet will be for the sorority sisters and dates at the Country Club, February 6, 7:00 p.m. She broke the work schedule down and our chapter will be responsible for decorating the Queen area. She appointed a Decorating Committee: Charlene Mays is chairman, with Committee members being Carol Bryant, Donna Edwards, Beth Johnston and Barbara Morrow. Plans are under way for the Sweetheart Banquet.

Being no further business, the business meeting adjourned. There was no pledge training meeting for Donna Goss as she was gone.

Genella Eads presented the program entitled "Vive La Difference." She read very interesting quotes from the New Woman magazine on how women have changed through the years. Very enjoyable program.

The closing ritual was repeated.

Following the program, Maurine Butts was surprised with a baby shower. Genevieve Summers won the raffle. Next meeting will be January 25 at Donna Mann's.

WTSU honor roll for 1981 fall semester

Honor roll lists at West Texas State University for the 1981 fall semester include the names of 761 students.

The President's List includes 104 students who finished the semester with overall grade point averages of 3.85 or higher. A perfect grade point average is 4.0.

On the Dean's List, names of 657 students are included. To be eligible for inclusion on the Dean's List, students must have completed the semester with overall grade point averages of 3.25 to 3.84.

Students listed on either of the honor roll lists must have been enrolled in and completed 12 semester credit hours.

During the 1981 fall semester at WTSU, 6,694 students were enrolled.

The President's List includes from Clarendon, Sherilyn J. Walker, a sophomore music therapy major, daughter of Mr. and Mrs. Jeff Walker, Jr.

The Dean's List includes Kimberly B. White, senior elementary education major, daughter of Gene White.

Attending tonight were: Genella Eads, Genevieve Summers, Pat McCombs, Peggy Anderson, Donna Edwards, Maurine Butts, Gloria Gage, Susan Henson, Beth Johnston, Charlene Mays, Sandra Mooring, Janie Finch, Barbara Morrow, and Betty Veach.

Southwestern Oklahoma State University has announced both the President's and Dean's Honor Rolls for the 1981 fall semester.

Bill Cornell is on the Dean's List after completing the semester with a grade point average of 3.0 (B) or higher, with no grade lower than a "C".

Area student named to honor roll

Bill Cornell is on the Dean's List after completing the semester with a grade point average of 3.0 (B) or higher, with no grade lower than a "C".

Friendship Quilting Club

The Friendship Quilting Club met in the lovely home of Edna Dishman Wednesday, January 13 in an all day meeting. A delicious noon meal was prepared and served by the hostess which all enjoyed very much.

A business meeting was held at 2 o'clock by the president Edna Dishman. Minutes were read by Sec. Louise Aten. Yvonne Belle McDaniel thanked the Club for their concern and prayers during her illness. The next meeting will be in the home of Norma Corgill February 10 in the afternoon.

Those present were: Louise Aten; Ora Aten; Florene Bennett; Lily May Carmichael; Norma Corgill; Lucille Luttrell; Yvonne Belle McDaniel; Odie Moss; Laura Mae Moffitt; Mary Lee Noble; Annie Thomason and the hostess Edna Dishman.

Being no further business, the business meeting adjourned. There was no pledge training meeting for Donna Goss as she was gone.

Genella Eads presented the program entitled "Vive La Difference." She read very interesting quotes from the New Woman magazine on how women have changed through the years. Very enjoyable program.

The closing ritual was repeated.

Following the program, Maurine Butts was surprised with a baby shower. Genevieve Summers won the raffle. Next meeting will be January 25 at Donna Mann's.

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: My insurance contract excludes pre-existing conditions, and the company has denied coverage for my pregnancy. It is true that my pregnancy pre-dates the coverage, but in a recent telephone conversation, my agent assured my doctor I would be covered. Is that telephone call binding on the insurance company?

A: No, your agent's promise contradicting the contract does not bind the company. You may be able to collect, however, on a fraud or deception theory based on the agent's misrepresentation to your doctor.

Q: Some time ago I had a lawyer draw up my will. I'm pleased with the job she did, but I object to a line of the document that named her the executrix. I did not tell her to do that. I can't afford another lawyer. Can I delete this statement and initial the change before a notary? Will this hold up in court?

A: If the document has not been executed, that is, signed, ask your lawyer to make the necessary changes. You should not attempt to change the will by marking or erasing on it. There are formal procedures to change a part of a will, and unless these steps are observed, your attempted change will have no effect.

Q: I am due to inherit an estate. The problem is that debts

from the estate far outweigh the assets. Will I be responsible for these debts? Who will pay the debts if I don't?

A: As a named beneficiary in someone's will, you do not automatically assume the debts unless you were the spouse and the debts were community debts.

As a first step, all debts will be classified according to the Texas Probate Code and the non-exempt assets will be sold.

Using all available cash, debts enjoying priority will first be paid, either entirely or so many cents on the dollar, until the funds are exhausted. Lower priority debts will lapse and simply not be paid.

Q: My husband and I are planning to divorce. I am concerned about the division of our community property. How should I proceed?

A: Once the divorce is final, the court will hear the party dispute concerning occupancy of the residence and will award temporary possession of the home to one spouse. The court can then, upon motion filed by your attorney, enjoin your husband from occupying or coming about your home during divorce proceedings.

Your rights and the specific procedures in divorce should be discussed with an attorney. There are many remedies available to you once a divorce is begun.

ning on a divorce but he refuses to leave our home and rent an apartment. Can he be forced to leave? What procedure should I take?

A: Once the divorce is final, the court will hear the party dispute concerning occupancy of the residence and will award temporary possession of the home to one spouse. The court can then, upon motion filed by your attorney, enjoin your husband from occupying or coming about your home during divorce proceedings.

Your rights and the specific procedures in divorce should be discussed with an attorney. There are many remedies available to you once a divorce is begun.

Chamberlain News

By MRS. HAWLEY HARRISON

Chamberlain Community Center held their regular meeting Friday night and Mr. and Mrs. Richard Dingler and Mrs. Opal Darnell hosted the meeting. There was a nice crowd and all had a wonderful time. Lots of good food.

We were so sorry to learn of the death of Mrs. Mertie Alice Headrick. Our sympathy goes to the loved ones and friends in their loss.

Mark Mann visited Mr. and Mrs. Richard Dingler Tuesday morning, en route to Lubbock to enroll at Texas Tech.

Ernest and Roxie Barbee visited in Quitaque Tuesday with Mr. and Mrs. Cecil Price and Mr. and Mrs. Toni Barbee.

Mr. and Mrs. Charles Blackburn, Mr. and Mrs. Dick Delaney, Marguerite Alderson and Ann Kennedy attended an Eastern Star meeting in Spur Tuesday night.

H.A. and Jean Harrison of Heyburn, Idaho are in Denver, Colorado for a Hereford Livestock Show and Cow Belle Meeting. They will come to Clarendon January 21st.

Wayne Lowe visited his mother Mrs. Genoa Lowe Saturday.

Mr. and Mrs. Cecil Price and Mr. and Mrs. Tom Barbee visited Ewayne and Janice Barbee Beth and Tommy awhile Thursday.

Dennis and Loretta Harrison visited David and Betty Lane Saturday night.

Mark Mann visited Mr. and Mrs. Richard Dingler Sunday morning, en route to Lubbock and Texas Tech.

Mr. and Mrs. Henry Mann visited his sister Mrs. Hal Riley Sunday night.

Mrs. Clara Mae Carter and Mr. and Mrs. Donald Ballew visited Ruth and Nell Corbin Sunday afternoon.

Mrs. Pauline Koontz is visiting her daughter Mrs. Glenda Rogers of Albuquerque Mrs. Rogers had surgery last week.

Youth Services were held at Martin Baptist Church Sunday evening.

Charlie Hearn and Chester

Gregory visited Mr. and Mrs. Richard Dingler Sunday.

We were so sorry to learn of the death of Mr. Bill Todd's brother Dr. Edd Todd. Our sympathy goes to the loved ones and friends in their loss.

Gilbert Mann of Amarillo visited Mr. and Mrs. Richard Dingler Monday.

The Lion's Tale

By GENE ALDERSON

The Clarendon Lions Club held its regular meeting at noon on Tuesday at the Lion's Hall. There were 17 members, Lion Sweetheart Jessie Adams and 2 guests present. Following the meal Boss Lion McCombs led us in the Pledge to the Flag and then called on Lion Henson for the prayer. Lion Messer then introduced Don McLain of Spearman who is in the investment business. He was the guest of Lion Hayes.

Lion SoRelle had charge of the program today and he was fortunate to get Alice Courtney to render us a number of musical selections accompanied on the piano by Jessie Adams. Following this enjoyable program, the date for the Annual Broom Sale was set for May 14 and 15th or May 21 and 22nd. Meeting adjourned.

Lelia Lake news

By LAURA HARBERT

An apology to everyone for the cancellation of our volleyball and fellowship meeting Saturday night the 16th. The children grumbled but old man winter won out. We hope no one was inconvenienced.

Our sincere condolences to "Cowboy" Leroy Leathers for injuries sustained during his wild calf chase. Ouch!

Leroy and Allene told us to remember his mother, Nora Leathers, who is recuperating from a fall at the Medical Center. Be sure to go by and let her know you are thinking of her.

Here is a warning to all Lelia Laker's from Ronnie and Peggy Baker, "Don't leave your porch light on late on a Saturday night." They were up to wee hours helping motorists in trouble. Peggy said they didn't mind helping; but, all on one night?

J.B. and Vona Bell McDaniel were very pleased with Vona Bell's good report from the doctor and her recuperating so well. Rachel and Roy Lee Noble visited with them last week and the J.W. and Dorothy Helms

came over for a visit Sunday afternoon, so they appreciate everyone who visited and all the prayers.

Andrew and Avos Henderson went to Kildare to see Andrews' Dad who is very ill. So, let's remember them in our prayers.

J.W. and Dorothy Helms visited relatives in Wellington Sunday night.

Jerry and Janan Helms with their children Amy and Nathan took Jerry's mother Pauline to Albuquerque, to be with her daughter Mrs. Gary Rogers while she recuperates from surgery.

Don't forget! Community Center is this Saturday night at 6:30. Covered dish, remember?

HEATS ON

By KATE DVORAK

Who says there are no new things to do with grapefruit? The Imperial Sugar company kitchens have invented a fantastic new parfait using Texas Ruby Red grapefruits.

GRAPEFRUIT PARFAIT

1/2 C Texas Ruby Red Grapefruit juice
1 envelope unflavored gelatin
1/2 C brown sugar
2 C light cream
1 to 2 tsp lemon juice
2 egg whites
2 TBS brown sugar
4 grapefruit peeled and sectioned

Cut grapefruit in halves and section. Set sections aside and let drain. Squeeze

grapefruit halves for juice. Combine grapefruit juice and gelatin in small saucepan and stir; let stand 1 minute. Warm over low heat just until gelatin is dissolved; add 1/2 C brown sugar and stir to dissolve sugar. Stir in cream and lemon juice and transfer to large mixing bowl. Chill thoroughly; while chilling stir occasionally until mix begins to thicken. Meanwhile, in medium bowl, beat egg whites to soft peak stage; gradually add the 2 TBS brown sugar and beat until stiff peaks form. Fold into chilled mix. Transfer to chilled parfait or wine glasses alternately with grapefruit sections. Chill until

serving time. Makes 8 6-oz. servings.

Short on time and energy? Try this Sun Giant meal-in-a-glass for a satisfying breakfast or luncheon.

STROMBOLI SLICE-A-SANDWICH

1 lb ground beef
1 C chopped onion
1/2 C chopped green pepper
2 TBS oil
one 12 oz can tomato paste
1/2 C quick or old fashioned oats
1/2 C water
one 2 1/2 oz can mushroom, sliced and drained
1 TBS basil leaves crushed
1 tsp oregano crushed
1 tsp salt
1/4 tsp garlic powder
1 lb loaf vienna bread
one 6 oz pkg Mozzarella cheese slices

Heat oven to 400. In large skillet, brown meat, onion and green pepper in oil. Drain. Add tomato paste, oats, water, mushrooms, and seasonings, mix well. Simmer over low heat about 5 min., stirring occasionally. Cut lengthwise slice from top of bread scoop out center of loaf to form a 1/2" thick shell. Lay half of cheese slices onto bottom of shell; fill with hot meat mix. Cover with remaining cheese and top bread slice. Wrap in aluminum foil, bake 10 to 12 minutes. Unwrap and cut in 1 1/4" thick slices. For lunch pails, slice and send along cold with chips and carrot slices.

TEXAS CURRIED CHICKEN

1 3-3/4 lb. broiler-fryer, cut up
1 1/2 tsp. salt, divided
1/4 tsp. pepper
3 TBS butter or margarine
1/2 C minced onion
1 seeded, diced green pepper
1 C diced celery
1 clove minced garlic
2 tsp curry powder
1/2 tsp crumbled leaf thyme
1 (1 lb. 12 oz.) can tomatoes, coarsely chopped with liquid
1/2 C raisins
1/2 C crushed peanuts
2 TBS chopped parsley

Pat cut-up chicken dry with paper towels and sprinkle with 1/2 tsp salt and 1/4 tsp pepper. Melt butter or margarine in large skillet and brown chicken pieces on both sides. Remove and reserve. Add onion, green pepper, celery and garlic to skillet. Cook 5 minutes, stirring frequently. Add curry powder and thyme and cook 1 min. Add tomatoes and liquid and 1 tsp salt. Return chicken pieces to skillet; cover and bring to boil. Simmer 25 minutes or until chicken is tender. Transfer chicken to serving platter. Add raisins to sauce in skillet and cook 1-2 minutes. Pour sauce over chicken. Sprinkle with peanuts and parsley. Serve with rice. Serves 4.

DATE-ORANGE ENERGY BOOSTER

1 C orange juice, chilled
1 envelope plain gelatin
1 egg
6 pitted dates

Cut dates in half and put all in blender. Process at top speed until smooth. Serves 1
Dates are one of the richest fruits of all in potassium, much higher than bananas and full of energy that we all need. This potassium is especially necessary if you do a lot of running or work that causes you to perspire. You need to replace that lost potassium. Try this refreshing drink to renew your energy and potassium.

The flavors of garden-fresh carrots, savory chicken broth, creamy butter combine in this tantalizing soup.

GOLDEN CARROT SOUP

1/2 C butter
2 C (4 medium) grated carrots
1 can (13 1/4 oz) chicken broth
3 TBS all purpose flour
1/4 C milk
2 TBS cooked, crumbled bacon
1/8 tsp each salt and pepper
cooked, crumbed bacon
In 2 qt saucepan melt butter. Add carrots, cover and cook over med. heat stirring occasionally, until carrots are crispy tender (8 to 10 min.). Stir in flour until smooth. Add other ingredients. Continue cooking, stirring often until soup comes to full boil. Boil 1 minute. Garnish with bacon.
Packing a lunch is boring and difficult. Try this idea for a nifty sandwich.

Research has shown that the most important qualities of a toothpaste to consumers are anti-cavity fluoride protection, taste, whitening/cleaning performance, breath freshening after brushing and form—with many consumers buying only a gel toothpaste.

CALCIUM BLOCKERS

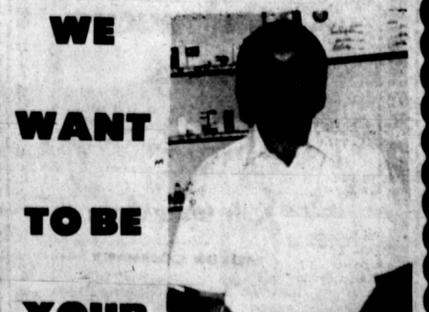

Calcium is an important mineral in the body. It is necessary for maintenance of the tone of the blood vessels (arteries) and for contraction of the muscles which comprise the heart. Calcium is also important to many enzyme systems that produce normal body function.

Changing the movements of calcium ions in the body appears to provide benefits to some persons having irregular heart beat or angina pectoris. The calcium ion antagonists (also known as calcium channel blockers) inhibit the flow of body calcium. This slows conduction of electrical impulses and, in the case of certain types of irregular heart beat, restores normal and healthy beating of the heart.

Two calcium ion antagonists have recently been released for marketing in the United States. Some heart specialists have heralded the availability of these drugs as the "most important development since the introduction of digitalis in 1785". But why is there so much interest in the calcium channel blockers? At least two reasons are apparent: (1) They may be safe and effective in health problems for which other medicines have been relatively ineffective. (2) They may prove to be of value in a great variety of health problems including high blood pressure, migraine headache, and even allergy.

We wish to express our thanks to the Clarendon Fire Dept. and to all volunteer firemen for their quick work in getting the fire out in our well house. A special thanks to Dan Sawyer and Jim Shadle for getting the 250 lb. butane tank out of the way so quickly. May God Bless each of you.
Tom & Louise Shadle 3-1tp

Sweet potatoes were unknown in Europe until Columbus found them in the West Indies and took them back with him. They have turned into one of the world's cheapest food crops. 3-1tp

Q: What is the effective date of a divorce? Is it the date the final hearing was held, or the date the written judgment of divorce was signed by the judge? Quite often the written divorce decree may not be signed by the judge for two or three months after the hearing. After what date could a person remarry?

A: There are, unfortunately, several answers to your question. First, there is case law that when the judge announces the divorce granted, the couple is divorced whether or not the written judgment is signed. However, if one party appeals the court's ruling, that party has 30 days after the judgment is signed to appeal. Filing an appeal has the general effect of staying the divorce; that is, continuing the marriage, until the appellate court disposes of the case. The absolutely safest course is not to remarry until the written judgment of the court becomes final, which is 30 days after the judgment is signed.

Inflation - Fighting IDEAS

As the cost of heating homes continues to climb,

it's good to hear of an alternative whose day appears to have arrived again. The modern portable kerosene heater is an up-to-date method of providing cozy warmth all winter. Fuel-

efficient, it can keep a good-sized room cozy and warm all evening at a cost of pennies per hour. During that time, you can reduce the thermostat setting for the remainder of the house, resulting in significant savings on your central heating bill.

It's The Law!

The Texas Legislature has enacted a law that requires you and all other Texas motorists to carry automobile liability insurance beginning January 1, 1982. Bodily injury coverage of at least \$10,000 per person and \$20,000 for two or more persons per accident must be in force at all times. Property damage coverage must be at least \$5,000 per accident.

Failure to maintain the coverages required by this law will result in a fine of at least \$75.00 for the first offense and a minimum of at least \$200 for any subsequent offense. If you are convicted you may lose your drivers license and motor vehicle registration as well.

After January 1, 1982 law enforcement officers in Texas will ask to see proof of your insurance coverage when investigating a traffic accident or violation. The Department of Public Safety has advised that the following are acceptable forms of this proof:

- Your automobile insurance policy.
- A photocopy of the declarations page of the policy which contains the policy number, limits of liability, term of the policy, etc.
- A special identification card that some insurance companies may provide.

Even though many more Texas motorists will purchase and maintain liability insurance coverage as the law requires, hundreds of thousands of motorists will intentionally violate the law and remain uninsured.

For this reason we urge you to continue to carry uninsured/underinsured motorist coverage on your own policy. This important coverage will give you added protection should you be involved in an accident with an uninsured or underinsured driver.

Farm & Ranch News

Report on financial condition of borrowers

Representative Hightower today released the figures he had requested from the Farmers Home Administration last December with regard to the financial condition of borrowers in the 13th Congressional District.

In a letter to the Texas Congressman, the Washington officials of the Department of Agriculture reported that out of 16,000 farm borrowers in Texas, about 35 percent are delinquent. The officials estimated 1,250 would not be able to obtain additional credit or refinance their accounts.

The letter went on to explain that of that 1,250 borrowers, 900 were in the West Texas/Panhandle region of the state. Representative Hightower expressed concern that 72% of the farmers in serious trouble were concentrated in the West Texas/Panhandle region.

"I am not asking that Farmers Home continue to extend financing to farmers that are in an economic hole that they cannot climb out of," Hightower explained, "but the agency does need to take into consideration the past disasters and the price disasters of this year. There is a difference between bad

weather and bad management.

"The numbers reported are bad enough and close to the reports that had caused my first concern. My concern is that if we are not creative, this is just the tip of the iceberg. If large numbers of farmers are forced to liquidate, farmers and taxpayers are both going to suffer. I am hearing reports on farm sales now of weak prices for farm equipment and far more lookers than buyers.

"It took close to a month for the U.S.D.A. officials in Washington, D.C. to get these figures together. I hope we all have a better understanding of the situation and action will be based on factual information. The nature of the problem is serious and no one involved should approach it without an understanding of what can happen. If loans can be paid back, it will be better for all sectors.

"The local farmer committees set up in Farmers Home, working with the county Farmers Home officials, know the people involved and understand who can pay loans back. I hope they will have the flexibility to make common sense decisions."

NEWLY ELECTED OFFICERS of the Texas Junior Hereford Assoc. include Melody Moreman, (third from left).

Moreman 1st VP of Texas Jr. Hereford Assn.

Clarendon seems to be quite prominent in its distinction of having great showmanship, terrific talent and excellent stock in the Hereford and Shorthorn areas. Another proof of this undisputable fact is the recent election of Miss Melody Moreman as the 1982 first vice-president of the Texas Junior Hereford Association.

Miss Moreman was elected at the January 13 gathering of the Association in Odessa. The annual meeting and elections of officers was

held in conjunction with the Sandhills Junior Hereford Show.

Elected to the post of president for the active organization was Lea Weisheimer Stonewall, daughter of Mr. and Mrs. Roy Weis-

heimer. She succeeds Ellen Eckert of Doss. Melody, daughter of Mr. and Mrs. Jack Moreman, Clarendon

will execute her duties in the same exuberant manner she reserves for her many other official duties.

McAneer Showman at Sandhills Jr. Hereford Show

Rodney McAneer, the multi-faceted stockman from Clarendon, has added yet another bangle to his saddle. McAneer was recently selected as the third-place showman at the Sandhills Junior Hereford Show staged in Odessa January 13. Some 260-head, including 126 steers and 37 females, were paraded on the tanbark before judge Wayne Haygood of Canadian.

Rodney McAneer is the son of Mr. and Mrs. James McAneer Jr. The coveted grand cham-

panion steer award was won by 12-year-old Kody Newman, daughter of Mr. and Mrs. Tommy Newman, Station. Here 1,170-pound entry, bred by Larry Descheemacker, Grassrange, MT was purchased by the Odessa Championship Club for \$7,500.

Do you collect picture post cards as a hobby? If you do, you're a deltiologist.

RODNEY MCANEAR wins membership award at Sandhills Hereford Show in Odessa. J.C. Selo Memorial Show.

Jack Hightower writes letter to President Reagan

Thirty members of the House of Representatives including Rep. Jack Hightower have written a letter to President Reagan requesting an urgent meeting with him to discuss the economic crisis in agriculture. The meeting was requested for sometime soon after Congress reconvenes January 25th.

"It is impossible to overstate how bad economic conditions are for the agricultural sector," the letter reads. "... the increasing debt into which farmers are forced in order to stay in business and the resulting high bankruptcy rate is at a much more critical level than can be appreciated from Washington."

"This is a matter of utmost urgency and we respectfully ask to meet with you to present our views regarding the state of agriculture and see if we can work together to improve this sector of our economy," the letter concludes.

Congress just passed the 1981 Farm Bill which has been criticized in many agricultural quarters as the "Farm Bankruptcy Act of 1981." Congressman Hightower and other farm-state members of the House worked against passage of the bill and voted against it on the floor claiming it was more harmful to farmers than helpful. The Reagan Administration supported passage of the legislation.

Hightower has also previously written Agriculture Secretary John Block urging him to use the special authority provided him by the Congress to defer farm foreclosures by the Farmers Home Administration in certain instances and do everything possible to give struggling farmers an opportunity to survive current low farm commodity prices before foreclosing on government loans. Hightower also has obtained a commitment from the Farmers Home Administration to go slow on foreclosures and provide farmers as much leeway as possible in their repayments.

Texas Farmer's Union honors Sarpalius

The Texas Farmer's Union Friday honored Senator Bill Sarpalius of Hereford as one of the five outstanding state legislators of 1981.

Mike Moeller, president of the farm group, cited Sarpalius' passage of the gasohol tax credit bill in the last legislature as the reason for the honor, called the Distinguished Service Award.

The bill, the first in the state's history, gives a five-cent-a-gallon tax credit for gasohol made from renewable resources. Proponents of the bill say it will help make the new fuel competitive with unleaded gasoline.

In accepting the award, Sarpalius remembered the bill's at first rocky, then smooth path to passage.

"The bill died during the regular session because of a filibuster. We went back to the drawing board and drew up a completely new version, which removed the opposition. Then we passed the new bill in the special session in three days.

"We think there is a tremendous future in this state for gasohol. Times seem hard for agriculture now, but if the Farmer's Union and other groups work together, we think we will

see a bright future for agriculture as well," the Hereford lawmaker said.

Sarpalius was one of five state legislators honored by the Farmer's Union at the union's 78th annual convention in Ft. Worth.

Clarendon Artists to give show in Wellington

Several area artists will be taking some of the finer samples of their art work, including drawings, paintings, sculpture and ceramics to Wellington Friday all day and Saturday afternoon.

James and Donna Edwards will take some of their work as will Mary Martin. Chris Cummins, Jeff Topper and Vance Farrell will also be bringing some of their finer works for display in the Wellington State Bank in the Heritage Room.

You get the highest interest rates, a healthy tax deduction, an insured retirement plan, and FREE checking with Vernon Savings' IRA.

Everyone that's a wage earner is eligible for Vernon Savings' Insured Retirement Account effective January 1, 1982.

You can make up to a \$2,000 tax deductible contribution annually — \$4,000 if you file a joint return and both work.

Or \$2,250 if one spouse is not a wage earner. You even get a FREE Vernon Savings checking account if you allow us to automatically charge it for your IRA contribution.

All contributions are tax deductible. Even the interest earned is deferred until retirement (when your tax bracket will probably be lower).

Your principal and interest continues to earn the highest interest rates until you withdraw it. You may begin making withdrawals as early as age 59½ but must begin by age 70½. There is a substantial interest penalty and tax consequence for early withdrawal.

All Vernon Savings' Retirement Accounts are insured to \$100,000 by the FSLIC.

To get the highest interest rates, a healthy tax deduction, an insured retirement plan, and FREE checking simply call or come by any Vernon Savings office. Or ask your employer about a payroll deduction plan.

Cheerleaders fund raising

Hedley High School Cheerleaders this year are Cheryl Phelps, Melanie Hansard, Tanya Moore and Debbie Clubb. These girls have several fund raising projects during the year to raise money for their uniforms. Such as, bake sales, car washes, house cleaning etc. One thing they do is sell changes on a cake to be given away at each home ball game.

These chances are only 25c so all you fans try to win a cake and help the cheerleaders boost the Owls. The cheerleaders are sponsored by Nancy Mullins.

Hedley FHA meeting

Hedley FHA held the first annual Hedley Homecoming Friday, Jan. 15, 1982. The Owls and the Owlettes played Estelline. Kelley Woodard, Chairman of Mum sales, reported that over 40 mums were sold to school and community members.

Letter from Bro. Knowles

Hedley certainly has extended a warm welcome to us, could recommend this friendly community to anyone without hesitation.

Since moving here I have observed an effective and dedicated School system, three nice churches for those who choose to worship, also there is a solid capable group at City Hall, friendly merchants, an excellent Senior Citizens organization, an active Lions Club and Masonic lodge to some it up "if you've never lived in Hedley, you've never really lived - come join us.

Rev. Bryan Knowles

Senior Citizens meet

Hedley Senior Citizens meet on each Monday and Friday nights from 7 p.m. to 9 p.m., to enjoy playing eighty four and skip bo. Also, a birthday party the fourth Monday of each month each one brings a covered dish and games afterwards.

The Voluntary Fire Dept. meets twice a month, plus nightly domino games.

By DARLENE BALL

Even thou the weather is cold, people are beginning to talk garden and setting out trees. I like to think of Hedley as a town of gardens, they really are beautiful in the spring and summer.

The Eastern Star meets on the first Monday of each month at 7:30 p.m.

the Masonic lodge meets on the first Tuesday of each month, at 7:30 p.m. So all members please come.

Owls basketball report

Jr High Basketball

Hedley Jr. High teams traveled to Silverton Monday, Jan. 11. The girls met a much larger and more experienced team and lost 20-40. Amy Shields had 8 points and Susan Phelps had 6 for Hedley. Former Hedley teammate Shonda Stafford was high for Silverton with 12 points.

The boys game was a close one all the way with the score tied 31-31 at the end of regulation time. This was the first overtime game Hedley boys had played this year and the pressure got to them.

Silverton came out ahead 37-32. Keith Watt was high scorer for Hedley. Ricky Springer added 8 points.

Members of the Junior High Girls Team are, 8th graders Stephanie Holland and Karen Helms. 7th graders Amy Shields, Holly Wilson and Diedra Word; 6th graders Susan Phelps, April McCary, Scheli Holland, Cheryl Glover and Carol Glover, 5th graders Mindy Baker, Dana Guthrie and Norma Andaverdi.

Members of the boys team are Ricky Springer 8th grade, Terry Moore, Calvin Holland, Keith Watt and Shaun Long. 7th grade. John Shields, Steve Mullins, Shawn Bright and Allen David 6th grade, Billy Clubb, Chris Ward, Chad Wiggins and Jeff Wilkinson 5th grade. Both teams are coached by Clovis McCary.

High School Basketball

Hedley High School teams played host to Wheeler, Tuesday, Jan. 12. The girls game was a close contest. Both teams played a strong defensive game. The score was tied 4-4 at the end of the first quarter, and Wheeler led by 1, 12-13 at the half-time. Hedley girls came back stronger offensively in the second half and led 24-21 at the end of the 3rd quarter. Hedley girls managed to hang on to their lead and won 39-36. Kim Taylor had 16 points and Twannah Woodard had 8.

The boys contest started out to be another close one with Hedley leading 6-4 after one quarter and Wheeler leading 17-12 at the half. Wheeler boys took over in the second half. They led 32-17 at the end of the 3rd quarter and went on to win it 44-27. Scott Doherty and David Phelps each had 6 for Hedley.

Members of the 1981-82 Owlettes are; Seniors - Robbie Gurthrie, Melanie Hansard, Linda Kennedy, Cheryl Phelps, Pam Sullivan & Kim Taylor, sophomores Debbie Kennedy, Alice Johnson and Twannah Woodard and freshman Debbie Clubb, and Tonya Moore. Team manager is Rosemary Felan. The girls are coached by Gano Wilson.

Members of High School boys team are seniors - Scott Doherty, Shane Farris, Randy Langley and Tim Taylor, Junior Bobby Branum and freshman - Thunder Denton, Mike Glover, Brent Hall, Billy Mullins and David Phelps. They are coached by Vernon Scott.

BUY NOW! BUY NOW!

Astronomer predicts Los Angeles to be devastated by giant earthquake in 1982

In a book called "The Jupiter Effect" two astronomers predict that in 1982 Los Angeles will be devastated by a vast earthquake while other tremors strike around the globe.

According to John Gribbin and Stephen Plagemann, all the planets will line up on the same side of the sun in March of 1982.

The rare conjunction of planets will create a huge gravitational tide on the sun, causing the star to blast immense quantities of atomic particles into space.

Some of these particles will strike the atmosphere of earth, causing unusual storm and wind patterns.

The friction of the winds against the surface of the earth will cause a glitch in the normally smooth rotation

of our planet. This tiny change will strain the earthquake fault zones.

One of the most dangerous earthquake regions is the San Andreas Fault in southern California, the cause of the great San Francisco earthquake in 1906. The fault runs for 850 miles, southward through California.

Gribbin and Plagemann believe that 1982 will mark the last days for the City of the Angels.

How accurate is this prediction?

Because media speculation has caused concern among the segment of the population, planetariums have been receiving many inquiries about the accuracy of the forecast.

Scientists and astronomers have come up with the

answer which can be seen in "PLANETS OF DOOM" starting this weekend and running through April 3/4, at the Don Harrington Discovery Center in Amarillo.

While it is true there will be an unusual alignment of planets on the same side of the sun in March of 1982, this alignment, which happens approximately every 179 years, has occurred many times in the millions of years of the solar system's existence.

Those who have plans beyond March of 1982 need not change them because of this rare but not unusual occurrence.

Those wishing detailed information about this astronomical spectacular may obtain it by attending "PLANETS OF DOOM" showing at the Don Harrington Discovery Center Planetarium in Amarillo.

Performances are scheduled at 2:00, 3:30, and 8:00

Clarendon Press, Thurs., Jan. 21, 1982

p.m. on Saturdays, and at 2:00 and 3:30 p.m. on Sundays. Admission is \$1.00 for students and senior citizens, and \$1.50 for adults.

Mexico is estimated to have enough oil to supply all U.S. needs for the next 40 years.

for guar beans 20c a pound and low grain and cotton prices, guar production is moving into the role of principal commodity in the eyes of more and more farmers.

Henry Hasty planted 38 acres of his worst cotton land in guar. "It cost me less than \$30 an acre to put in, I didn't have to fertilize and an acre would have made \$100 on the

market if I had sold, but I had kept my beans for seed." Hasty is really impressed with the ease of putting in guar, but unless there is a market and contract made, it is a useless crop "because you can't do anything with it, nothing eats it."

Bob Keown also put in a small acreage of guar, the magic plant that restores nitrogen into the soil and requires little or no irrigation. "I really would like to

invest in planting guar because I was killed with the cotton crop this year. But unless we can get a contract, there isn't any use in planting guar," Keown said.

80% of the guar used in the food and oil industry in the US is imported. Guar used to be produced locally many years back. There are only two plants in Texas that buy guar for production, one in Vernon and one in Kennedy. They are only able to handle 200,000 acres of guar and are not interested in buying more. Hasty brought in 1000 pounds per acre on his poorest quality soil.

Some farmers in other areas put in a double crop of wheat and guar. The land and climate here are good for guar production. The problem is not with techniques of soil types, but rather with a market for the product.

Guar sold for \$20 a 100 last year but the contract for this year must be based on the overseas commitment. This contract has yet to be firmed. Without a contract, it would not be feasible for local farmers to plant guar, good producer though it may be.

Those farmers interested in finding out more about guar and the potential benefits of producing it will want to attend the meeting next Thursday, January 28 at 7:30 p.m. in room 102 at Clarendon College. Contact Ronald Gooch for further information at 874-2141

Federal excise tax on telephone service dropped

Telephone users throughout the country got at least one gift for Christmas that isn't the wrong side or the wrong color.

On Jan. 1, 1982, the federal excise tax on telephone service dropped from two percent to one percent.

Nationwide, the one percent reduction should save telephone customers approximately \$516 million, according to estimates by the U.S. Independent Telephone Association.

The tax was imposed by Congress as a "temporary" measure during World War II. Congress voted in 1970 to gradually eliminate the tax, reducing it one percent per year beginning in 1973 and continuing until 1982 when the tax would be eliminated.

However, the Fiscal Year 1981 Budget Reconciliation Bill, signed by former President Jimmy Carter on Dec. 5, 1980, contained a provision maintaining the excise tax on telephone and typewriter service at the two percent level during 1980. And this year's tax bill further postpones the phase out, keeping the tax at one percent until Jan. 1, 1985.

Doing MORE...With LESS!

AN IN-TOWN HOMESTEAD!

The Farallones Institute is a non-profit organization begun in 1969 by several northern Californians who were interested in low-impact, non-resource-intensive living... especially in the city. A two-story Victorian building in Berkeley, California—which has been remodeled inside and out—is their proving ground. The structure, called the Integral Urban House, is no longer merely a dwelling... it's the nucleus of a mini-ecosystem in which rabbits, chickens, fish, honeybees, plants, microbes, and people interact in a flourishing example of interrelated self-reliance.

The variety of fruits and vegetables raised on the home's 125' X 60' lot is nothing short of astounding. There are raised beds of vegetables scattered about the yard, and plots of herbs and perennials near the kitchen. In addition, dwarf fruit trees—espaliered to a wall of the house—provide lemons, plums, and three kinds of apples.

IUH staffers use no chemical fertilizers to bring forth this bounty of luscious edibles. Rather, a one-inch-deep layer of compost—made from kitchen garbage, rabbit manure, grass clippings, sawdust, and other wastes—is maintained on the garden's beds.

To further make the point that anyone, even apartment dwellers, can grow their own food, Integral House residents have created a rooftop garden... consisting solely of containers filled with pure compost.

All together, about 15 chickens—layers and fryers—inhabit the Institute's urban homestead. Four hens live in a "composting house" on the roof, where the birds lay eggs and produce rich manure for the compost heaps. The remaining chickens are kept at ground level, on the shady north side of the building.

Some 10 to 20 rabbits are also housed on the structure's shady side. (The rabbits and chickens provide a couple of hundred pounds of animal protein a year.)

Bees are another ideal variety of city "livestock". They're quiet, take care of themselves, and don't need to be fed (at least not often). The Integral Urban House has two hives located on a platform high above the fish pond.

Recycling is important at IUH. As a result, almost nothing is "thrown away". Milk cartons, paper bags, scraps of paper, even garbage, human wastes, and dirty water are recycled right on the premises.

Human wastes are composted, but not in the usual bins. Instead, the wastes decompose inside a waterless toilet which local authorities have allowed to be used on an experimental basis. (One resident figures that the entire IUH household uses only as much water as the average family does just in flushing their toilet during a day!)

The sun's energy heats the home's water and, by shining through south-facing windows, provides a degree of passive solar heating during the day. Also, one bathroom sports a "bottle wall", made up of one-gallon glass jugs, filled with ink-blackened water and supported in rows inside the windows. The jugs serve as heat sinks, absorbing the sun's rays.

So, you see, it is possible to live a more self-reliant, ecologically sound lifestyle, even when you have close city neighbors. The Integral Urban House proves it.
