

## WASHINGTON'S BIRTHDAY

Monday, February 22 is the celebration of George Washington's birthday. "I walk on untrodden ground. There is scarcely any part of my conduct that may not

hereafter be drawn into precedent," Washington said when first sworn into office. "No taxes can be devised which are not more or less

inconvenient and unpleasant... even then, the President had the tough problem of deciding what to do for revenue. "Every act of my administration would be tortured

and the grossest and most insidious misrepresentations of them made by giving one side only of a subject and that too in such exaggerated and indecent terms as could scarcely be applied to a Nero, a notorious defaulter, or even to a common pickpocket," said Washington about the way the press had treated the

President of the new United States. Even the problems of recruitment and the draft were prevalent in his time. "It is vain to think that any Army can be kept together much longer under such a variety of sufferings as ours has experienced." The fixed salary of the

President then was a princely \$25,000 a year but even then that was not enough for a first family to exist and the Washington family had to draw heavily from their personal fortunes. At the death of George Washington, Alexander Hamilton wrote "If virtue can secure happiness in

another world, he is happy." Jefferson, however, was of another opinion altogether. "Curse his virtues; they have undone the country." Even our first President was beset by the plagues of being in the lime-light, and holding a high office. There is indeed nothing new under the sun.

## Farm program sign up dates Feb. 16-April 16

In effect for 1982 crops are reduced acreage programs of 15% for wheat, cotton and rice and 10% for feed grains. Participation in each program is voluntary, but only farmers who take part will be eligible for target price protection and regular price support or farmer-owned reserve loans. No direct payments will be made for the acreage reduction.

1982 crop wheat and feed grains are eligible for immediate entry into the farmer-owned reserve program. There will be no cap on the amount of grain in the reserve, nor will farmers be required to sell their grain when the release trigger level is reached. Storage payments will be 26.5 cents per bushel for all crops.

To qualify for program benefits, participating farmers must reduce their 1982 acreage planted for harvest from an established acreage base. The amount of the reduction is 10% for feed grains and 15% for wheat, cotton and rice. For each crop program, a producer's base acreage will generally be the higher of (1) his 1981 planted acreage, or (2) the average of his 1980-81 planted acreages. Two bases will be established for feed grains, one for corn and sorghum, the second for barley and oats.

Neither offsetting compliance nor cross-compliance will be required under any of the reduced acreage programs. This means that

When the state governor approves this application, it is sent on to Washington for final approval which then gives the FHA loans lienency of their loans.

farmers owning or operating more than one farm will not be required to participate on all farms in order to qualify for program benefits on participating farms. And farmers need not comply with other reduced acreage programs to be eligible for benefits on specific crops. In addition, current law provides for current law provides that normal crop acreages, national program acreages, allocation factors and voluntary reduction provisions are not applicable when reduced acreage programs are in effect.

## Community Center sets laws and levity

Rules and regulations are the mainstay of a free-enterprise and of any community action. The Donley County Community Building has established a Rules and Regulations Committee composed of six members and the president of the Outdoor Entertainment Association.

Members are James Owens as chairman with a 3 year term, Ike O'Neal and T. W. McAnear with 2 year terms as representing the Outdoor Entertainment Association; Genella Eads as secretary and Jerry Chambliss as Treasurer and Calendar coordinator with 3 year terms each. President John Hermesmeier will also sit on the committee.

A meeting was held February 4 to work out some rules and regulations. This will be an on-going process as the members wish to be sure the rules will be fair and will work. The only policy they have established to date is a rigid clean-up rule. There will be a mandatory \$50 deposit, payable at the time of requesting reservations. If you leave the building as you found it, the money is refunded. Two members of the Committee must decide that the building is NOT left to specified requirements before your deposit is with held. Actually, the members will give you a chance to correct your job because, face it, they don't want to waste their

time cleaning up your mess. But if they do, they want \$50 for the work.

Young folks such as FHA, FTA, FFA, Etc. are encouraged to use the building for rodeos, fairs, bazars, dances and even roller skating parties free of charge.

Revenues will be earned by requiring a modest fee for the use of the building for reunions, dances and so on. Any dance held that requires a charge will pay the Outdoor Entertainment Association a flat 15% off of the top at the time of requesting reservation time.

If you wish to reserve the building, call Jerry Chambliss to hold the date open.

## Open House and Dance

Saturday, February 20 from 1 until 5 p.m. the Outdoor Entertainment Association will hold an open house to show off the new Donley County Community

## Lady Bronco basketball

By SCOTT NEWLAND

A good basketball team will beat good opponents, but will sometimes not get up to beat the weaker ones. A great basketball team like the Clarendon Bronchettes, however, gets up to beat both the superb and weaker squads.

The Bronchettes demonstrated their awesome offensive ability last week in coming two steps closer to a bi-district playoff by beating the Wheeler and Shamrock teams. Wheeler never gave the Bronchettes much trouble as they were worn down in the first half by outstanding play from post-girl Lana Davis. Davis scored 9 points and ripped down 6 rebounds as Wheeler was outscored 32 to 14. Another major factor in the lopsided victory was 13 for 17 free-throw shooting from the fowl line. That was Clarendon's best single game faring from the charity stripe all year.

On Friday, the Bronchettes clinched the district 2-AA crown by scolding the Shamrock Irish 60 to 33 in front of a rowdy home crowd. The Bronchettes only held a 4 point lead after the first period, but by the half doubled Shamrock's score 32-16. Angelia Gardner led the Bronchettes in scoring with 20 points. Gardner also nabbed 9 rebounds leading the team.

With the district title wrapped up, the Bronchettes are eagerly looking forward to seeing the rival Phillips Blackhawks in the bi-district playoff next Tuesday. However two opponents lay between Phillips, Memphis and Nazareth will try to knock the Bronchettes' off their 17 game win, streak Tuesday and today, Thursday. Naz-

areth should be the biggest threat as the Swiftettes have won five straight Class A state championships. Past titles mean nothing because the Bronchettes aim to start their own string this year with one in a row.

The varsity boys play Follet at 6 p.m. Thursday here. This will be a fantastic game since both teams are District Champions. It is a warm-up game to test the muscle of each team.

Varsity girls play Nazareth at Amarillo College Thursday at 4 p.m. Nazareth has been State Champion five years in a row. This warm-up game will be nothing but hair-raising and exciting.

The girls Bi-District game will be next Tuesday against Phillips at the Civic Center at 4 p.m.

## Oil & Gas Lease meeting

A meeting on negotiating an oil and gas lease will be held Thursday, February 25 at 7:30 p.m. in Room 102 of the classroom bldg. Clarendon College. Dr. Wayne Hayenga, Extension Economist with Texas A & M University College Station will be the speaker. Everyone is invited to attend.

## Voters registration cards returned

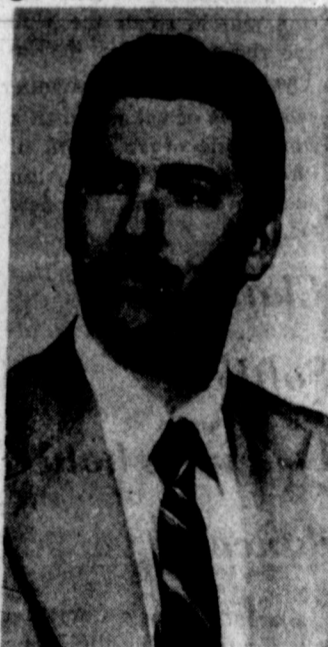

Wanda Smith from the office says she has gotten a lot of returned voting registration cards. If you have registered and not received your card, come by and pick it up and give her your correct address. Elections are coming up, so have your card ready to save possible difficulties at the polls.

## Girl Scout cookie salesgirls need help

Sometimes youngsters don't quite understand the finer points of salesmanship. Like, if you take money you must give something to the customer, or if you take an order you must remember whose order it is and take them the merchandise.

If this has happened to you and you are an irate, unhappy Girl Scout Cookie purchaser, contact Jondel Moffett at 874-2804 or Teresa Watson at 874-2178.

The leaders want satisfied, happy customers and the girls need to learn how to better represent themselves, so don't hesitate to call and get things straightened out.

### The Lions Tale

BY GENE ALDERSON

The Clarendon Lion's Club held its regular meeting at noon on Tuesday at the Lion's Hall. Twenty-two members and two guests were present. Johnny Homes of Groom was the guest of Lion Bivens. Following the meal, Boss Lion McCombs led us in the pledge to the flag followed by prayer by Lion Henson.

Our program today was secured by Lion Sanders and introduced by the program chairman. Our program was presented by Paul Hancock who started by passing out a pamphlet from the Texas Dept. of Human Resources. Paul told us that Texas was

in 49th place out of the 50 states in the amount of welfare help provided. In Donley County there are 12 families who receive payments under the Aid to Families with Dependent Children. Maximum monthly payments under this program subject to several provisions is as follows: mother and one child-\$85, with 2 children-\$118, with 3 children-\$141, with 4 children-\$164, with 5 children-\$183. There are 115 families receiving food stamps in Donley County. Of these, 90% are past age 60. We appreciate Paul Hancock bringing this program to us.

## American Cancer Board meets

Members of the Donley Unit of the American Cancer Society met Monday, February 8, in the hospitality room of the First Bank and Trust with president, Genevieve Caldwell, presiding.

Routine business was disposed of and a new member of the board, Melinda McAnear, was announced.

Following the goal of wider public education, Kay Hayes, Public Education Chairman, announced her line up of films to show in Donley County. Films have been planned to show high school girls, college girls and the local sororities.

Diane Chamberlain, will serve as Residential Chairman. Carol Bryant, will again chair the Business District Committee. Ms. Bryant and the Clarendon business community made Cancer Crusade history in their combined effort for the crusade in 1981.

Dr. R.L. Gilkey, member of the Donley Unit of the ACS will conduct a screening for colorectal cancer later in the spring. This service will be free to the persons desiring the examination and is a continuing effort to prevent cancer and to detect it at an early and easily controllable stage.

Present at the meeting were: Genevieve Caldwell,

Susan Rigler of Amarillo, Jeff Walker, Naomi Phelan and Melinda McAnear. Helen Cooke Carr, Mary Cooke, Pauline Heath, Ethelyn Grady, Ruby Jewel and Warren Hardin.

More information and publicity on this new service to Donley County citizens will appear at a later date.

### Foster Parents

The Texas Department of Human Resources is currently in great need of licensed foster homes. The Pampa office oversees Carson, Collingsworth, Donley, Gray, Hall, Hemphill, Roberts, and Wheeler counties.

Licensed foster parents work in conjunction with the Department of Human Resources' staff to provide care for children who are temporarily removed from

Jeff Walker, Crusade Chairman for the Donley Unit of the American Cancer Society, received the golden Achievement Award from Genevieve Caldwell, Presi-

dent of the Unit. The award, the highest given, was for reaching an all-time high in Crusade income for 1981 and for exceeding the per capita goal of the Texas Division.

their homes. These children are removed only when there are no other possible solutions and when it is in the child's best interest. The

the child can eventually return home.

Foster parents are special people. Some are young, old, married, and unmarried. These people accept children into their homes and help them work through an often difficult time.

Foster homes can be licensed to care for up to six children, according to the available space, however, most families keep only one or two at any given time.

Families are reimbursed for caring for a child. The current rate allots \$7 per day for a child under ten. For a child over ten, \$8 per day is paid. This small amount helps with some of the added expenses incurred by the child.

If you are interested in helping a child overcome a difficult time in his life, think about becoming a foster parent. For additional information, contact your local Department of Human Resources or call the foster home worker, Barbara Simms at (806) 669-6806.

## 50th Houston Livestock Show

Twelve 4-H members from Clarendon and 15 FFA members from Clarendon will be participating in the 1982 Houston Livestock Show and Rodeo, February 20-March 7. With more than 29,000 expected livestock entries, the Golden Anniversary Houston Show will once again be the largest livestock show in the world.

The Houston Show also provides an opportunity for

exhibitors to participate in some of the toughest of showing competition after a year's worth of preparation for their animals. This year's show once again promises to be profitable for them, as open show and junior exhibitors will vie for more than a half a million dollars in prize monies and premium auction prices above market value.

The annual rodeo parade will fall on the first Saturday

of the show, this year, which will be February 20, at 10:00 a.m. This event draws more than 6,000 trailriders journeying as far as 386 miles to downtown Houston where they meet with city officials, bands and spectators to lead the parade.

Open competition for the livestock show begins February 22. Professional breeders and ranch owners from some 35 states will bring in the best in breeding stock to compete in breeding beef, dairy, swine, poultry, sheep, Angora goat and rabbit shows.

As the Houston Show is a showcase of the livestock industry, cattlemen from Europe, Mexico and Central and South America travel to the open show to view the best in stock. Last year, more than 500 international visitors from 29 countries registered with show officials and the 1982 International Days, February 22-27, should draw an even larger crowd.

During the second week of the livestock show, junior show exhibitors take over the 22.6 acre livestock exposition facility. Judging this second week begins on March 3, although some junior show competition is held during the first week. Competition here is fierce as these exhibitors know they're up against both the best in livestock and in judges.

Junior shows include breeding beef heifers, dairy cattle, breeding sheep, Angora goats, beef and dairy scramble heifers, commer-

cial steers, breeding rabbits, market lambs, market poultry, market turkeys, market swine and market steers, including a carcass contest.

Exhibitors of market animals realize that, in addition to the premium awards and trophies, a grand championship in their market division at the Houston Show could pave the way for a future cattle herd or college diploma.

The Houston Livestock Show holds the world's record in all categories of prices paid for champion market animals: grand champion steer--\$112,000; grand champion lamb--\$60,000; grand champion barrow--\$51,500; grand champion pen of 5 broilers--\$33,000; and grand champion turkey--\$20,000.

Spectators at the 1982 rodeo, February 24-March 7, will again be treated to top flight rodeo competition. Cowboy champions will be matched against rodeo's toughest stock with one of the richest purses in American rodeo riding on the outcome.

This year's rodeo performances feature superb television and recording star talent. Fans will be assured that whatever performance they attend, they're bound to see a true superstar.

Some of the Clarendon "Super Stars" participating are: Doug Hawkins in market steers and market barrows; Dyron Howell; Leland Howell; Matt Mann; Susan Mann; Lacreia Petty; Lori

Gina Smith and Lee Smith will exhibit market steers.

Christie McAnear and Rodney McAnear and Melody Moreman will exhibit both market steers and beef heifers. Lori Robinson will exhibit market steers beef heifers and market barrows. These youngsters are exhibiting as 4-H Club members under the direction of Ronald Gooch.

Mykie Patterson will exhibit market lambs. The following FFA youngsters will exhibit market barrows: Ben Clifford; Tim Cole; James Halford; Jeff Helms; Mitch Johnson; Neal Johnson; Rod Keown; Shane Klinnert; Matt Mann; Rodney McAnear; Lacreia Petty; Todd Roberson; Joey Stefanatos; and Bret White.

We wish the best of luck to these folks. Milton Mann will be taking them to the show. Good luck 4-H'ers!

# IS THIS YOUR ONLY RETIREMENT PLAN?

Years ago Social Security might have been enough. But how much will it help you today? Or 20 years from now?

## Individual Retirement Account (IRA)

For a retirement plan to work in your best interest, it has to be tailored to fit your special needs.

With an IRA from Vernon Savings & Loan you can deposit as much as \$2,000 of your earned income each year and deduct it from income on your federal income tax return — \$4,000 if filing a joint return and both are wage earners, \$2,250 if there's a non-working spouse. And you're eligible even if you have a plan where you work.

By the time you're ready to take distribution of the funds, you'll probably be in a lower tax bracket. So, you'll have deferred a good chunk of taxes forever.

Come by soon and get all the details from one of our specially trained IRA advisors. Then you can relax about your retirement.

## HOT TIPS ON HEATING

A Public Service From INTERTHERM Inc. Making Supplementary Heat Heat Better

Homeowners using portable heaters to help make a cold or drafty room comfortable should pay heed to a few tips that will help the heater heat better.

Heaters should be properly sized to provide the amount of warmth required. An undersized heater will work hard, but will not do the job. An oversized heater will warm the room, but will inefficiently waste heat at the ceiling and provide uneven temperature distribution.

Heaters should be placed along exterior walls and under those areas of greater heat loss, such as large windows.

Portable heaters should be equipped with thermostats to save energy and provide maximum comfort.

Toaster-type radiant heaters should be used with considerable caution to guard against potentially-dangerous heat build-up within the unit.

The most effective and attractive portable heaters are generally the low-slung hot water baseboard models with greater mass and lower density heat production.

For a free heating analysis for a single room or a whole house, write INTERTHERM Inc., Sotheat Dept. P. 10820 Sunset Office Drive, St. Louis, MO 63128.

## DOING MORE... WITH LESS! THE MOTHER EARTH NEWS

Playing the harmonica is one of life's little pleasures. Most harmonicas aren't expensive, you can easily carry one in your pocket or purse, and, whenever you need a lift or the spirit moves you, your little musical companion will be right there ready to play a tune.

First, you need to learn how to hold the harp. Cradle the instrument in a "ten-finger sandwich" by placing your hands around it as if you're praying... arrange the organ between your palms (with the "blow" part toward you) and aligned with your fingers. Then rotate your hands one way or the other (whichever feels most comfortable to you) so that one winds up with the fingers on top of the mouth harp and the thumb on the bottom... and the other hand is wrapped around the first with the heel of its palm squarely facing your mouth. The high notes should be to your right. This grip creates a sort of "chamber" around the harmonica, producing a richer tone.

The manner in which you "kiss" your instrument also has a lot to do with the sound you'll get out of it. The best way to get a pure tone from your harp is to experiment and practice until you've trained your lips and your tongue to direct a breath of air (either in or out) through just one of the openings in your instrument at a time. This will produce one steady, clean tone after another which is what basic harmonica playing is really all about.

Next, you'll want to get some emotions... feelings... into your music. The simplest way to add this flavor to your tunes is by varying the volume at which you play. Make your harp's sound rise and fall according to the character of the song. Expression can also be added to harmonica music by soulful use of the waver tones made possible when using the "ten-finger sandwich" grip.

Of course, when you really want to add something special, you'll just have to teach yourself to play some chords on your ol' harmonica. To do so, you'll need to open your lips enough to allow you to blow through four of the organ's openings at once. At the same time, though, press your tongue up against the wooden partitions on the instrument's front and use it to cover either the three holes to the left (if you want to add a low chord to your melody note from time to time) or the three holes to the right (if you wish to add a high chord). And then—while one corner or the other of your mouth concentrates on blowing a steady tone through the single hole that's uncovered—your tongue is moved (in rhythm!) to cover and uncover the other three openings, thereby adding and subtracting the high or low chord.

That's right: To play chords you have to be able to do two things at once. It isn't easy... but it sure can drive an audience wild!

## Discovering The Sea

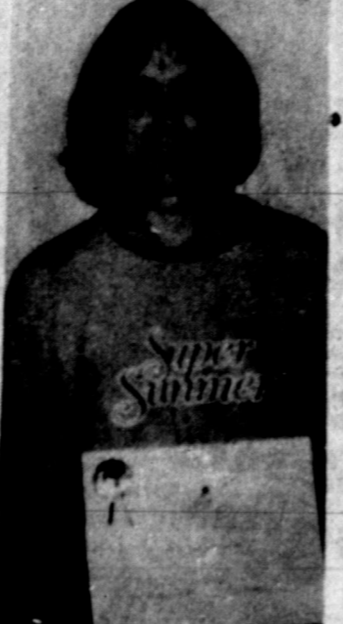

How deep is the ocean? Deeper than the highest mountain on earth. The Challenger Deep in the Pacific Ocean is seven miles deep; Asia's Mt. Everest is 5 1/2 miles high!

Every year about 12,000 icebergs break off the Greenland ice cap and drift into the North Atlantic. Those that enter the shipping lanes must be towed away by vessels of the International Ice Patrol.

Whales are the largest animals to ever live on earth. The largest, the blue whale, can grow to a length of 150 feet and weigh 150 tons!

If all the ice on earth were to melt, the sea level would rise another 200 feet, completely submerging the entire state of Florida—and most of the world's major cities!

Cutright for State Treasurer

John Cutright, conservative Democrat from Austin.

announced Monday, that he is seeking election as State Treasurer in the May Primary. "State Treasurer," Cutright said, "is responsible for watching over the public's money. I believe that a successful business man can look after this money better than political hacks and liberal politicians." Cutright, a 46 year old

ex-professor at San Antonio College, is part owner in several real estate ventures and is an independent Oil and Gas producer. He was one of the organizers of the Republic Bank of San Antonio and of the Cielo Vista Bank of El Paso.

The taxpayers need an honest and hard working businessman to discharge the duties of State treasurer.

Cutright has worked as Committee Clerk for the House Committee studying Rivers and Harbors and Committee Clerk for the House Committee studying Fire Ants. He received his

B.S. and his M.S. degrees from East Texas State University in Commerce, Texas. Cutright is married to the former Janna Thanish of Dalhart and they have two children.

**NUMB ARMS, LEGS Danger Signals**

There may be misalignment of vertebrae in the spine causing pressure on nerves. yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble:

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals call for in depth consultation in Layman's terms.

## LVNA scholarship to Clendennen

The Sue Hopper Scholarship fund, made up by the LVN Association is presented to an LVN student each year at the capping ceremonies.

The ceremonies were held Friday, February 12th at 8 pm in the Harned Sisters Auditorium at the Clarendon College.

Alot of thought and planning goes into this fund. Who should receive it? It was a hard decision this year. But

we feel like if Sue Hopper was here and could have made the decision, she would have chosen Paula Clendennen as we did. She helped Paula in her plans to take this LVN course. I know she would be very proud of Paula as we all are. We have worked with her and we know what a great nurse she is going to be. We are proud of all the students and wish the best for all of them.

### DARLENE BALL

Around our Hedley area, has been a general clean up program, trying to save the cattle from coyotes and bobcats and possible rabid coons.

Mr. Harry Ginter from Lipscomb, comes to Hedley once a week on Monday afternoon to collect the animals. So far Mr. Ginter has collected 800 coyotes and gives \$32 per coyote. 120 coons and 22 bobcats at \$70

each for the pelts. Mr. Ginter gathers the animals across the street from Hill's Texaco Station. 30 coyotes were killed on the J.T. Hill ranch alone, feeding on a dead cow's carcass.

Ollie Tyler is in the hospital in Memphis with a broken arm.

Frank and Linda Stiles were here this weekend from Amarillo to visit his grandmother Mrs. Stiles.

Woodrow Farris is in the hospital in Memphis.

## Just Thoughts

BY ABIGAIL JOHNSON

Our Senior Citizens are delightful people. I enjoy them so much. But some of our people are shut-ins and can't get out and around. They get so lonesome, even though their kids and kin-folks come when they can, and are loved greatly. They spend lots of days alone. A lot of them have hobbies they would love to share with others and have stories and tales of their childhood days that are more interesting than a library book. They piece quilts, sew, and make a lot of beautiful things. Some would love to learn your hobby. I spent the day with a lovely lady last week. We pieced on our quilt tops, ate a nice lunch together and shared memories of days gone by. I had such an enjoyable time. When I returned home, I found a new peace inside my heart I had not had in quite awhile.

If you have a little spare time, even one hour a week and would like to spend it with a shut-in, please don't put it off. We never know if

there will be a tomorrow for them or ourselves. I think you will find it very rewarding. After all, God is never too busy for us, so should we be too busy for others? □

### THANK YOU

I wonder why when it comes time to say thank you we never know the right words to say. I guess the best way is just to say it "Thank You". Everyone's prayers were deeply appreciated. Each and everyone of you mean so much to us.

Please keep Hollie in your prayers. She still has a long road ahead of her and for Bob, Mandi and I to have the strength to help and care for her every need.

We love you,

### THANK YOU

To all our friends of Hedley and Quail, we would like to thank you so very much for the surprise supper and gifts presented to us last Thursday night. We have enjoyed serving your communities and will miss all of you very much.

"They said to Him; 'What are we to do to work the works of God?' Jesus answered, 'This is the work of God, to believe in Him whom He has sent.'" JOHN 6:28,29.

The one work that God desires from man is faith. Now what does faith mean? Faith means a certain relationship with God, such a relationship that we are friends with God. He is not our enemy and prosecutor, but our Father. This relationship would never come to be if it had not been for Christ as our saviour through our repentance of sin and accepting Him through faith.

## Energy Saving tips on Electric Heating.

Check your thermostat setting. Recommended temperature setting for winter heating is 68°. Remember, the lower you set the thermostat in the winter the lower your energy cost.

Have your heating system checked regularly! Proper servicing is good preventive maintenance.

Keep filters clean. Check the filter every 30 days on forced-air systems. If filter is permanent, clean it by manufacturer's directions, if it's disposable, replace when dirty.

Have your home properly insulated! Adequate home insulation keeps the warmth in, cuts energy use... can pay for itself by lowering heating (and cooling) costs.

Use the warmth of the sunshine! On sunny days open the drapes. The sun shining through the glass will supply additional heat at no cost.

**Xi Lambda Xi met**

Sandra Mooring and Geneva Summers were the hostesses for the regular meeting held at Sandra's home Monday evening at 7:30 for the Xi Lambda Xi chapter of Beta Sigma Phi. After the opening ritual

was recited in unison, the roll was called, then the business meeting resulted in a few interesting subjects being discussed.

There are still pecans for sale at \$4.50 a bag if anyone would like some for Valentine's Day baking. They may be purchased at Henson's. The Spring Dance was also discussed. It will be a tri-chapter affair for the Community in the Community Center Building. A friendly venture project for Claude is in the initial planning stage with Peggy Anderson being in charge of the endeavor. Peggy's beautiful little daughter Stephanie, was chosen to represent Clarendon's Xi Lambda Xi chapter in the Shamrock St. Patrick's parade as Miss Irish Rose. And speaking of parades, the city council representatives will discuss with the council the possibility of having a joint float entry in the grand and exciting July 4th Centennial Parade in Clarendon this summer. Some very interesting ideas were discussed, but President Eads declined the offer to wear bikinis and ride in a rocking chair.

New Secret Sisters were drawn. Everyone is looking forward to a new year trying to please and surprise their new secret sisters. Gifts were exchanged later revealing this past year's secret sisters. Some guessed who it might be right away, others were surprised and pleased. Everyone hugged and giggled and spent a great deal of the time sniffing each other's little boxes of scented sachets.

The program was a split-level affair. Betty Veach presented some interesting excerpts from Frederick Stork's book "How to Say No to a Rapist and Survive" available from the Clarendon High School library. We all had some mixed feelings about some of the suggestions and agreed that keeping your cool would be the hardest step to follow. Since the title of the program was "The Woman Alone", we all agreed that it would be wiser never to go anywhere alone again. After the lively discussion following Betty's presentation, Peggy Anderson presented a more solemn aspect of being alone; widowhood or divorce. She gave us some sound advice on things to prepare for and ways to ready ourselves for the inevitable situation of aloneness. Establishing credit in your own name and being aware of where all of your important papers are is vital to the success of a woman suddenly left on her own. Having a will is not only practical, but will save you a great deal of money in the long run.

After the closing ritual, the following ladies enjoyed a sugar-free repast of tuna dip and a very fire hot and pepper hot cheese dip with a variety of wholesome crackers, hot spiced tea, tea or coffee: Betty Veach, Peggy Anderson, Geneva Summers, Sandra Mooring, Maurine Butts, Pat Archuleta, Beth Walker, Beth Johnston, Barbara Morrow, Gloria Gage, Charlene Mays, Pat McCombs, Genelia Eads, Dona Goss, Donna Edwards, Donna Mann, Frances Johnson, Carol Bryant, and Katie Dvorak.

The next meeting will be at Beth Walker's home February 22.

**Martin Quilting Club met**

On January 21, the Martin Quilters met with Dona Goss. One quilt was completed and half of another one started. Members attending were: Jo Hardin, Raenell Shadle, Eunise Land, Mary Lee Noble, Marie McCracken, Ruth Mandrosky, Leane Thornberry of Memphis, Meiba Risley, Hazel Edens, Flossie Reynolds, Lorene McAnear, Dolores Davis of Memphis, Patty Wolfcale of Memphis, and Jondel Moffett.

Guests attending were: Andrea Hardin, Seth Thornberry of Memphis, Josey Shadle and Mandy Goss.

Enjoyment of our meetings grows with every new member. We will meet on February 18th at Dixie Ward's home.

**It's The Law!**

The Texas Legislature has enacted a law that requires you and all other Texas motorists to carry automobile liability insurance beginning January 1, 1982.

Bodily injury coverage of at least \$10,000 per person and \$20,000 for two or more persons per accident must be in force at all times. Property damage coverage must be at least \$5,000 per accident.

Failure to maintain the coverages required by this law will result in a fine of at least \$75.00 for the first offense and a minimum of at least \$200 for any subsequent offense. If you are convicted you may lose your driver's license and motor vehicle registration as well.

After January 1, 1982 law enforcement officers in Texas will ask to see proof of your insurance coverage when investigating a traffic accident or violation. The Department of Public Safety has advised that the following are acceptable forms of this proof:

—Your automobile insurance policy.  
—A photocopy of the declarations page of the policy which contains the policy number, limits of liability, term of the policy, etc.

—A special identification card that some insurance companies may provide. Even though many more Texas motorists will purchase and maintain liability insurance coverage as the law requires, hundreds of thousands of motorists will intentionally violate the law and remain uninsured.

For this reason we urge you to continue to carry uninsured/underinsured motorist coverage on your own policy. This important coverage will give you added protection should you be involved in an accident with an uninsured or underinsured driver.
