BARLEY — Food grain producers who are participating in the program and have barley bases must certify to any barley seeded or no barley seeded or they will be considered overplanted. This must be done by May 1.

DIVERTED ACRES — No grazing on diverted acres will be allowed during the five month period beginning May 1, and continuing through September 30, 1969. No harvesting of any kind is permitted.

CCC WHEAT LOANS — 1967-68 wheat loans mature April 30, 1969. Both 1968 crop wheat under loan in a warehouse and 1967 crop wheat that is under extended loan will be eligible for a one year extension following the loan maturity date.

REAPPORTIONED COTTON — Producers who received additional cotton must sign a revised "Intention to Participate." This must be done before April 18, 1969.

Dog Vaccination And Tagging Set For 2nd Go April 25

Due to lack of notice and rainy weather, the City Dog Vaccination and Tagging will be held again Friday, April 25 from 4 to 5 p.m. Be sure and mark this date on your calendar so you can give your dog this protection and save money at the same time.

You can purchase your city dog tag and have your animal vaccinated for rabies for the reduced price of \$3 if you take your dog to the City Hall Friday, April 25. This annual combination deal is made possible through the cooperation of the City and Dr. Chas. E. Deyhle.

Les Beaux Arts Club Plans Art And Flower Exhibit

Les Beaux Arts Club president, Mrs. Forrest Sawyer, has announced that the club's spring Art and Flower Exhibit will be held in the Farmers State Bank and Trust Company lobby Sunday, April 27, from 2 to 5 p.m.

Local gardeners are encouraged to start thinking about entries their gardens can produce and try to develop these flowers into perfect specimens. Flowers will not be judged.

Each exhibitor should have his flowers arranged as he wants them to be when on exhibit. Committee members will be at the bank Sunday morning from 9 to 10:30 a.m., and from 1 to 1:45 Sunday afternoon to receive entries.

Paintings by six established professional area artists will be on exhibit: Olive Vandruff (Bugbee), Lee Simpson, Lloyd Cook, James Edwards, Jim Ward, and Don Ray.

Olive Vandruff (Bugbee) has been a Clarendon resident for several years and is Curator of Art for the Panhandle Plains Historical Museum at Canyon. She will exhibit paintings of particular interest to ranchers, farmers and outdoor enthusiasts.

Lee Simpson has lived, painted, and conducted classes in Amarillo since 1960 and has won over 50 awards. Lloyd Cook is a native of Oklahoma and has received several awards for both his commercial art and his paintings. James Edwards received his training at West Texas State University and has taught there. His work is primarily in water-colors and bronze castings. Jim Ward has given up several careers to devote full time to his art. His work is principally in Oil Painting.

Don Ray grew up in Clarendon, living with his parents on a ranch southwest of Ashtola. He attended West Texas State University at Canyon and has exhibited his work in many areas.

The public is invited to attend this exhibit set for Sunday afternoon, April 27.

Breedlove Heads Local Brush Control Association

H. M. Breedlove has been chairman of the newly organized, statewide Brush Control and Range Improvement Association for Donley County.

The BCRIA was established last November by a group of livestockmen to fight one of the state's major agricultural problems, brush invasion of land throughout Texas. Each county has a leader representing the association.

Breedlove said the BCRIA is a non-profit organization and is not directly associated with any university or company. The goal is to obtain 1 cent per acre, each year, for five years from landowners and other interested individuals and organizations to greatly increase brush control research.

He said surveys show that about 82 per cent of Texas rangelands are infested with brush, cutting the animal carrying capacity by 50 per cent or more. Despite much research in the past, greater financial help will be needed if the problem is to be solved.

Funds obtained at the county level will be pooled and used to support research and education projects on brush control and range improvement. A project evaluation committee, appointed by BCRIA Chairman John Matthews of Abilene, will approve research projects submitted by universities and other agencies.

A total effort by more than 200,000 landowners in Texas will go a long way toward beating back the brush invasion of rangelands.

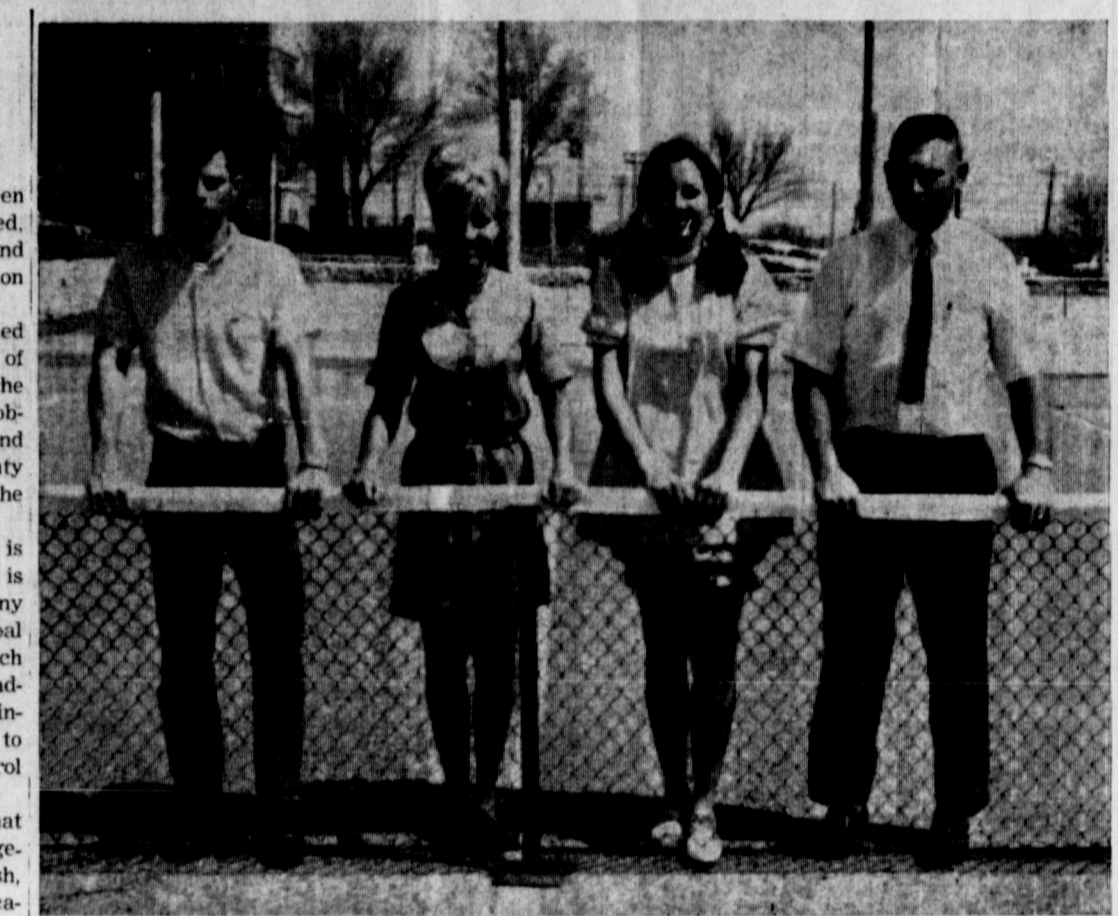

WARREN HARDIN IS PRESIDENT OF PUBLIC SCHOOL BOARD

Officers to guide the affairs of the public school system were chosen at the regular meeting of the school board last week and one new member was installed.

Warren Hardin, who has been serving as acting president of the board since the resignation of W. O. Mooring, was elected president, Eldon Lyles, vice-president and Richard Tunnell, secretary.

L. P. (Bud) Moore was installed as a new member of the board. Billy Goodman was previously appointed to serve the remaining term of Mooring. Other members of the board are James McAnear and E. W. Barbee.

Brush Control Meet Set For Tuesday

A meeting to discuss brush control and a recently organized Texas Brush Control and Range Improvement Association will be held Tuesday night, April 22, at 8:00 p.m. The meeting will be held in the Agriculture Building of Clarendon High School, in Clarendon, according to County Agent Ronald Gooch.

W. R. Breeding, Samnorwood, Texas, is a district director of the Brush Control and Range Improvement Association. He will attend the meeting and will explain what the Association is trying to do.

H. M. Breedlove was recently appointed to serve as the Donley County Chairman of the Brush Control and Range Improvement Association.

The Brush Control and Range Improvement Association is a non-profit, tax exempt association formed to raise funds to promote more intensive research on the problems of brush control and the improvement of the land after the brush has been brought under control.

LOCAL MAN ON SHIP OF YEAR

Navy Personnel Man Seaman Richard L. Lockwood, son of Rev. and Mrs. R. L. Lockwood of Clarendon is one of the 85 crewmen on the salvage ship USS Current, named Ship of the Year by Our Navy Magazine.

In the fiscal year 1968, the Current handled six major salvage operations; won a Battle Efficiency "E"; won a NEY award for excellence in food preparation and dining facilities, and attained the highest refresher training score registered in the Pacific Fleet in the last two years. Two top admirals had recommended the Current for the magazine's award.

Apply Now For Notary Public Seal

Secretary of State Martin Dies, Jr. announced that all qualified Notaries Public desiring re-appointment for the new term which begins June 1, 1969 and ends June 1, 1971, must pay the required fee and file a new oath and bond with the County Clerk between May 1, 1969 and May 15, 1969, inclusive.

Mr. Dies emphasized that Notaries Public should not send requests for re-appointment or for commissions directly to the Secretary of State inasmuch as the law specifically requires that the County Clerk approve Notary Bonds and forward copies of the Application to the Secretary of State.

Secretary of State Dies further stated that any person not now a Notary Public who desires appointment for the beginning of the new term on June 1, 1969, should apply to his County Clerk before May 16, 1969. The applicant must be at least 21 years of age, a citizen of the United States of America and Texas, and a resident of the county for which appointed. The required Application Forms may be obtained from the County Clerk.

DPS REPORT THREE ACCIDENTS IN COUNTY

The Texas Highway Patrol investigated three accidents on rural highways in Donley County during the month of March, according to Sergeant Vernon Cawthon, Highway Patrol Supervisor of this area.

These crashes resulted in two persons injured and an estimated property damage of \$1,310.00.

The rural traffic accident summary for this county during the first three months of 1969 shows a total of nine accidents resulting in no persons killed, five persons injured, and an estimated property damage of \$3,685.00.

Courtesies Honor Miss Sharron Henson Bride-Elect

A miscellaneous shower honoring Miss Sharron Henson, bride-elect of Ronald Dale Winfrey, was held at Patching Club House Monday evening, April 14. Receiving hours were from 8 to 9:30 p.m.

Mrs. J. H. Spier, Jr. greeted the guests and presented them to the bride-elect, her mother, Mrs. Redell Henson, and Mrs. E. C. Winfrey of Dallas, mother of the prospective groom.

Sixty guests signed the register presided over by Mrs. Billy Hearn of Amarillo.

A beautiful outwork cloth covered the refreshment table where Miss Henson's chosen colors of royal blue and lime green were accented in a centerpiece of white daisies with blue shower umbrellas entwined with fern and ivy. Appointments were silver and crystal. Presiding at the table were Susan McAnear and Mrs. Jim Robinson.

An array of lovely and useful gifts were on display.

Hosting the affair were Mesdames G. W. Bradshaw, J. R. Brandon, Gerald Noble, Alvin Hicks, James Ashcraft, T. W.

McAnear, J. H. Spier, Jr., J. G. McAnear, Aubrey Martin, Mary Ann Riley, and Bill Spier.

Other courtesies extended Miss Henson include a Lingerie Show in the home of Mrs. John Knorpp. A royal blue and lime green decor was used in entertaining and at the table. Approximately 15 guests attended. Hostesses were Mesdames John Knorpp, Jim Robinson, and Mike McCleaky of Denton.

Mrs. Ruby Bromley entertained with a Brunch Saturday morning, April 12. Fresh fruit in an epergne with silver candles accented the serving table. Guests presented Miss Henson with an assortment of useful gadgets.

NEWS FROM Congressman Bob Price 18th District, Texas

Although my mail these days is voluminous, I would like to take this opportunity to review with you some of my efforts on subjects in which my correspondents are particularly interested.

GUN CONTROL ACT

On April 1, I introduced a bill, H. R. 9766, to repeal the Gun Control Act of 1968. This bill is in addition to the bill, H. R. 8628, which I introduced on March 11, 1969, to exempt ammunition from Federal regulation under the Gun Control Act of 1968.

I opposed the Gun Control Act when it was enacted and still believe it violates the constitutional rights of the individual citizen to own and bear arms.

I voted against the bill in its original form as it was passed by the House and again after it had been amended by the Senate and gutted by a House and Senate Conference Committee. The bill was the result of a wave of misguided emotionalism and a surrender to the bleeding hearts who believe that registering the guns of peaceful and law-abiding citizens will have any effect on the crime rate or act as a deterrent to any criminal who owns or wants to own and use a firearm.

There is no evidence that even suggests that the present requirements are making any significant contribution to the fight against the criminal use of firearms. The new law has only subjected law-abiding citizens to harassment and inconvenience not to mention storekeepers and legitimate gun dealers who have been injured or put out of business.

The Federal Firearms Act, which this bill would restore, had all of the safeguards of the Gun Control Act as far as deterrence of criminal ownership or use of firearms. And, that is only the basis I can see for any firearms legislation.

THE 1970 CENSUS
The Subcommittee on Census and Statistics of the House Post Office and Civil Service Committee recently received letters from eight Federal agencies opposing passage of legislation to limit the number of mandatory questions on the decennial censuses. However, public support for enactment of this legislation is rapidly growing. Letters from the Panhandle clearly express a strong demand for limiting the

census questions. On April 24 the Subcommittee on Census and Statistics will resume hearings to consider H. R. 4791, which I introduced on January 28, 1969. My census bill would eliminate the jail sentence from all questions and would limit the criminal penalty to refusal to answer any one of six compulsory questions on the forthcoming decennial census form. The bill would eliminate any questions the Director of the Bureau of the Census decided to include but would require, by penalty of a \$100 fine, answers to only six basic questions: (1) name and address; (2) relationship to head of household; (3) sex; (4) date of birth; (5) marital status; and, (6) visitors in home at the time of census. Failure to respond to these six mandatory questions would carry the criminal penalty but all other questions on some 67 subjects now proposed would be on a voluntary basis with no penalties involved. Some of the questions would be of a very personal nature and would certainly be an invasion of personal privacy if required by law. Privacy would not be invaded under voluntary procedures. People would be asked rather than told they must comply with the census questionnaire.

Of this \$69.7 million support of Public Law 91-354, \$10.2 million level of support. Difference of 150 million, 50 and 10 agents, a an addition son Jr. P. in Austin.

Showdown time is near in the Legislature. That's when the time comes for crucial issues of spending and taxation.

Moving at a billion-dollar-a-minute clip, the Senate whipped through a record \$5.8 billion 1970-71 appropriations bill which would require a minimum \$63.3 million in new taxes.

Of this \$5.8 billion budget, \$69.7 million is recommended for support of the State Department of Public Safety, an increase of \$10.2 million over the current level of spending by that agency. Difference would pay for the hiring of 150 more highway patrolmen, 50 more narcotics agents and 10 additional intelligence agents, as well as \$864,638 for an addition to the Homer Garrison Jr. Police Training Academy in Austin.

Despite all its heft, the Senate bill contained no funds for the anticipated \$220 million teacher-pay-raise, the contemplated \$30 million lift in the welfare ceiling, \$16.5 million for two new medical schools, \$7.5 million for a new dental school or \$6 million for planning new colleges.

Include these high-priority items and you are looking at a tax bill a lot closer to \$345 million than \$63.3 million.

However, House Speaker Gus Mutscher has called for an appropriations bill which will require no new revenue. It would include money for new medical schools, dental school and college planning.

Major difference in the bills is in the area of higher education, where the Senate would raise general fund appropriations of

22 senior colleges and universities \$106.5 million, public junior colleges \$19.3 million.

First hearings on major tax bills are getting under way. Hearing on Gov. Preston Smith's supplemental revenue recommendation, to place a one-half of one per cent levy on chemical producers and raise the cigarette rate to 15 cents a pack, will be set for mid-April.

House may very well pass its version of the budget next year. It would permit a \$240 million increase in general revenue spending without additional taxes. Difference between lean House and fat Senate spending measures must be ironed out in conference committee during the next two months.

Tax battle, which must start in the House, will see-saw back and forth from House-to-Senate-and-vice-versa. Senators have some revenue ideas of their own. LEGISLATURE MOVES ON — Senators stole the spotlight from the House by churning out 53 bills to 38 for their colleagues across the rotunda.

What's more, included on the Senate's things-done list were such monumental accomplishments as passage of constitutional amendments to legalize local option sale on liquor-by-the-drink and to raise the water revenue bond ceiling to \$3.5 billion to finance the statewide water plan. Senators further approved their \$5.9 billion version of the budget and voted for a constitutional amendment to remove the welfare ceiling.

Voting date on the water bond and welfare amendment was set at August 5. Hopefully, several other constitutional amendments, including volunteer fireman's benefits, college student loans, and an increase in the interest rate on constitutional bond funds will be submitted on the same date. To get on the August ballot, measures must be finally passed

by the Legislature no later than April 16, due to the 90-day advertising requirements.

House passed bills to establish a University of Texas medical school branch in Houston and authorize state payment of moving expenses to property owners displaced by highway right-of-way buying.

PRIVATE COLLEGE SUBSIDY — Texas college students who attend private schools will have some relief from the cost of tuition of Rep. Lynn Nabers of Brownwood has his way. He has submitted three bills that would provide assistance to students of private colleges. Each of the three are different plans. HB 451 would equalize the tuition paid by a resident at state and non-state schools. HB 1153 would establish a Tuition Scholarship Program for state students attending private schools, and HB 1154 would authorize the Coordinating Board, Texas College and University System, to pay a private school a given amount of money for every Texas graduate.

TRAFFIC TICKET IMMUNITY SCORED — State Rep. Maurice Angly of Austin has touched some state lawmakers on a very sore spot.

He wants them to renounce their immunity from traffic and parking citations in the capital city. Angly said, as an Austin lawmaker, he has participated in the practice of "taking care of" his colleagues' tickets and is ashamed of it. He introduced a resolution asking legislators to go on record as "expressing a desire to be treated without special favor or undue accord."

U.I.L. MAY GO — In the Legislature is a bill to abolish the University Interscholastic League, which administers all inter-high-school athletic and literary competition. Proposal by Rep. Burke Musgrove of Breckenridge would put all UIL functions under the State Board of Education.

Musgrove says his bill is in response to complaints about UIL's strict rules, such as those prohibiting gifts to athletes and requiring a year's layoff for athletes after a change of schools. Another bill, by Rep. Bill Swanson of Houston, would in-

validate the UIL rule requiring that year's lay-off. Both measures are awaiting hearing in the House Public Education Committee.

COURTS SPEAK — Third Court of Civil Appeals tossed out Fort Worth Surdaco, Inc.'s suit to determine the legality of its scheme for evading the state's Sunday closing law. Court said operations, which include "buying stock" of certain stores every Saturday night, have not been challenged yet.

Meanwhile, State Supreme Court heard arguments on the constitutionality of a 1961 closing law. San Antonio discount houses claim the law is vague and indefinite and therefore invalid. Bexar County District Court held the law unconstitutional, State appealed.

High Court declared the state's new polygraph-examiners licensing law is unconstitutional. This due to a defective title which fails to size up the full extent of coverage.

Court of Criminal Appeals upheld the death penalty given a Dallam County man for rape of a 74-year-old woman.

AG OPINIONS — Governor Smith challenges the validity of last minute appointments to the University of Texas board of regents made in January by former Gov. John Connally. Smith made it clear that he wasn't objecting to the individuals, he merely questioned the legality of the action.

TRAFFIC LAW QUESTIONS AND ANSWERS

Q—Does the law allow a right turn after stop on a red light?

A—The law does not allow a right turn on a red traffic light unless there is a green arrow pointing in that direction.

Q—What is the law regarding right of way at uncontrolled intersections?

A—The driver of a vehicle approaching an uncontrolled intersection shall yield the right-of-way to a vehicle which has entered the intersection from a different highway. When two vehicles enter an intersection from different highways at approximately the same time the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

Q—What is the speed limit for a car or pickup pulling a small two wheel trailer?

A—The speed limit is 60 MPH in the day time and 55 MPH at night.

Q—How close to the curb should a vehicle be when parallel parking?

A—The law requires you park parallel to and within 18 inches of the curb. You should try to park approximately 6 inches from the curb. This will allow the passengers to step down out of the vehicle and will allow you room to turn your wheels if you need to maneuver out of a short parking area.

Q—What type of lights must a farm tractor have at night if driven on a public highway?

A—It must have at least one light visible for at least 500 feet to the front and at least one red light visible for 500 feet to the rear.

Q—If a license plate or plates are lost, stolen or mutilated, what must I do to get a duplicate set?

A—Take the remaining license plate if there is one and your license receipt to your county tax collector and make an affidavit that the plate or plates have been lost, stolen or mutilated and will not be used on any vehicle owned or operated by the person making the affidavit and a duplicate set will be issued for a fee of \$1.00.

HAZLEWOOD'S HIGHLIGHTS

By Senator Grady Hazlewood

The Legislative Whirlpool is really getting into a "whirl" this 51st Session of the Legislature. Bills have been passing in both the Senate and the House which no former legislature has ever considered seriously.

This week, the Senate passed to third reading a bill providing for the tort liability for all governmental agencies, including cities, county-owned hospital, the highway department and other except school districts and equipment used in connection with the operation of flood gates. This proposed bill would hold such agencies liable for the negligence of its employees using motor driven vehicles or equipment between the limits of \$100,000 per person to \$300,000 per accident.

Strangely enough, drivers of such vehicles were exempt though guilty of gross negligence. Heretofore, such agencies have only been liable if engaged in some activity for profit, which represents rare instances. The amendment excluding school districts passed by a narrow margin.

Naturally, I have a keen feeling about the Panhandle Medical School because I was the author of the Act which created the Amarillo Medical Center, and our people have been pointing for 14 years towards a needed medical school. ARE THEY SORT OF A PRIVATE CLUB... JUST FOR THE RICH?

Ha! You should be around when the nearest Episcopal parish is trying to finalize its annual budget. You'd know better.

Actually, this church did acquire a bit of snob appeal during the early days of our nation. English colonists introduced their own Episcopal version of The Church of England. It was only natural that many of these "first comers" became the wealthy landowners, the merchants, the gentry of this young nation. George Washington, Alexander Hamilton and — indeed — three-fourths of the signators to the U. S. Constitution were Episcopalians.

But today, the Episcopal Church represents an exceptionally-broad cross section of the nation: people of every vocation, social status, race and political persuasion gathered under one roof.

You see, Episcopalians believe strongly that the church is a proper meeting ground for men's differences. Christianity, they say, represents the world's greatest hope for reconciling the divisions between one man and another.

You don't have to agree with your fellow man; you only have to live with him. Your nearest Episcopal minister may have some very good thoughts for you on that ticklish subject. There's no obligation on your part if you care to pay him a visit.

One of a series presented by "Those Crazy Episcopalians" in your area.

Delay 10 Weeks Writing About Tax Refund

Ten weeks from the date a Federal income tax return calling for a refund is mailed, the taxpayer either has his check or a letter explaining why it is held up, Ellis Campbell, Jr., District Director of Internal Revenue for Northern Texas, said today.

For this reason, a taxpayer who has not heard about his refund should wait ten weeks before writing IRS. By waiting this length of time, most taxpayers will find their inquiry unnecessary, Mr. Campbell said.

If it becomes necessary to write, the taxpayer should indicate where and when he filed his return and give his name, address and social security number, Mr. Campbell said.

Millions of tax returns are handled every filing season at the Austin Service Center which serves Northern Texas taxpayers. The volume of processing operations there makes it practically impossible for IRS to locate a particular return and to answer any question about it until processing is complete.

Parallel Terraces Under Construction In Donley County

By Monty Sowers
Soil Conservation Service

Today's modern terraces require an entirely different type of equipment than did the small, crooked terraces which were built with small tractors and a disc a few years ago. The fact that the

terraces were so small and crooked is the main reason that so many of them have been destroyed. With the coming of large tractors and multi-row equipment, farmers have found that the advantages of this equipment can not be fully realized when so much time is lost in working point rows and crooked terraces.

As a result, many of these terraces have been destroyed, resulting in tremendous erosion

damage on the county's cropland. Several roads throughout the county have been abandoned due to repeated wash-outs. Many fields now have gullies so severe that they cannot be economically repaired.

Parallel terraces seem to be the answer to this dilemma. On strongly sloping land, the lack of point-rows brings out the efficiency of large equipment. Also due to the unique method of construction, the slope may be decreased considerably. On flat land, the increased water efficiency will many times result in a net return to the farmer higher than irrigated land, due to the lack of overhead cost.

Several Donley County farmers are currently constructing these terraces. There would be more were it not for a shortage of parallel terrace contractors this year.

Leroy Leathers and W. P. Doherty now have their terraces under construction in the Hedley area. Homer Hardin is building some north of Clarendon. Next year, more are planned for Hardin, Jack Land at Ashlola and David Bray, who also farms north of town.

DPS To Start Classes May 6

Specialized training in an elite field and a rewarding career are the opportunities being offered by the Texas Department of Public Safety.

A call was issued for applicants to fill a 120-man class beginning May 6 in Austin. Because of the short time remaining to test applicants, immediate inquiry is urged for area young men interested in becoming a member of the Texas DPS.

Applicants must be between 20 and 35 years old, at least 68 inches tall, weigh not less than two pounds or more than 3 1/2 pounds per inch of height, and be in sound physical condition. They must have a high school education or the equivalent and their record must be able to stand a rigid examination pertaining to character and citizenship.

Those selected will take their training at the Texas DPS Law Enforcement Academy in Austin. This training period will last for an approximate period of four months. Upon graduation, the patrolman will be assigned to one of the four field services — Highway Patrol, Li-

cense and Weight, Motor Vehicle Inspection and Drivers License.

For complete information concerning the position of patrolman, training and benefits, young men are encouraged to contact the nearest DPS patrolman or DPS office. Hurry — for the time is short before the start of the May 6 training school.

FALL SURVEY SHOWS GRASSHOPPERS PLENTIFUL

Grasshoppers could cause more trouble in Texas this year than last. A survey made last fall by the USDA showed 'hoppers were infesting more than 4 million acres, nearly double infested acreage shown in the 1967 survey. The fall survey, points out L. R. Green, Extension entomologist, indicates the potential problem; however, a survey to be made this spring will give a more accurate estimate of the situation and will pinpoint areas which are likely to require control programs. Farmers and ranchers should be on the alert for hatching 'hoppers, and if numbers warrant control, treatment should be done before the 'hoppers leave their hatching beds, notes Green.
