

RED CROSS VOLUNTEER SERVICE

Production Room News

Unless you view it with your own eyes, you'll never know the change that has been wrought at the Production Room. Painters spent all last week re-doing the

walls, wood work and putting in shelves and the room has truly taken on the appearance of both a pleasant and busy workshop for the Volunteer Red Cross Workers. The walls have been finished in white and white shelves have been built and placed around the walls for the purpose of displaying the garments.

Clean curtains have been put up over the windows and a gener-

al rearrangement has taken place. The work table has been covered with linoleum thereby making garment cutting much easier. Above the mantel hangs the United States flag and a bowl of ivy on the mantel lends aid in making the room appear more homely.

Come in and visit the room and while you are there view the garments that are on display. If you came last week and found the

room closed, come in again soon. The room is open each afternoon from 3 until 5:30 o'clock.

Knitting

Helmets have been issued this week to Mrs. W. W. Noblet, Mrs. Ernest Kent, Mrs. W. T. Clifford, Mrs. Henry Williams, Mrs. Ed Dishman, Mrs. Hattie Palmer, Mrs. A. J. Sibley, Mrs. C. D. McDowell, Mrs. Tom Bugbee. We would like to mention here that this makes

the third helmet that Mrs. Ernest Kent has knitted within one month. It also makes the third for Mrs. W. W. Noblet.

Helmets were turned in this week by Mrs. A. B. Turner, Mrs. Ernest Kent, Mrs. Noblet (2), Mrs. A. J. Sibley and Mrs. Hattie Palmer. Sleeveless sweaters were turned in by Mrs. Noblet and Shirley West. Turning in sweaters with sleeves were Mrs. Clyde Price, Mrs. Hattie Palmer, Mrs. Floyd Lumpkin and Mrs. George Norwood. Squares for afagans were turned in by Mrs. C. D. McDowell and Lucille Wallace and Mrs. Mae Hayes turned in a muffler.

Sewing and Cutting

Mrs. W. M. Patman turned in ten hospital gowns this week made by the Win-One Sunday school class of the Methodist Church and twelve hospital bed jackets were turned in by Mrs. Roy Clappitt made by the Christian Church ladies. Forty blouses have been cut and are ready to go to the Martin community women.

There are still a great many blouses that have been cut and have not been taken out. If there is any club or church organization that wishes to help sew these garments, notify the Production Room any afternoon during the week.

Monday morning Mrs. C. C. Powell, Mrs. John T. Sims and Mrs. L. E. Thompson met at the Production Room and pressed all the ready-to-wear garments that have been turned in.

Mrs. Bill Abbott gave a very nice donation of baby clothes and old clothing to the Red Cross. Donations of this sort are always appreciated.

On June 14, United Nations Day, President Roosevelt, in his radio broadcast, gave to the nation the following prayer, written by Stephen Vincent Benet. It is being read in churches all over the world and is truly fitting in this column.

"God of the free, we pledge our hearts and our lives today to the cause of all free mankind.

"Grant us victory over the tyrants who would enslave all free men and nations. Grant us faith and understanding to cherish all those who fight for freedom as if they were our brothers. Grant us brotherhood in hope and union, not only for the space of this bitter war, but for the days to come which shall and must unite all the children of earth.

"Our earth is but a small star in the universe. Yet of it we can make, if we choose, a planet untroubled by war, untroubled by hunger or fear, undivided by senseless distinctions of race, color or theory. Grant us the courage and foreseeing to begin this task today that our children and our children's children may be proud of the name of men.

"The spirit of man has awakened and the soul of man has gone forth. Grant us the wisdom and the vision to comprehend the greatness of men's spirit, that suffers and endures so hugely for a goal beyond his own brief span. Grant us honor for our dead who died in the faith, honor for our living who work and strive for the faith, redemption and security for all captive lands and peoples. Grant us patience with the deluded and pity for the betrayed. And grant us the skill and the valor that shall cleanse the world of oppression and the old base doctrine that the strong must eat the weak because they are strong.

"Yet most of all grant us brotherhood, not only for this day but for all our years—a brotherhood not of words but of acts and deeds. We are all of us children of earth—grant us that simple knowledge. If our brothers are oppressed, then we are oppressed. If they hunger, we hunger. If their freedom is taken away, our freedom is not secure. Grant us a common faith that all men shall know bread and peace—that we shall know justice and righteousness, freedom and security, an equal opportunity and an equal chance to do his best, not only in our own lands but throughout the world. And in that faith let us march, toward the clean world our hands can make. Amen."

A very careful driver approached a railroad crossing. He stopped—he looked and listened. All he heard was the car behind crashing his gas tank.

A large electric fan contains enough steel to make three .38 caliber revolvers, enough zinc for the zinc parts of an Army motorcycle, enough copper for 77 .30 caliber machine gun bullets and enough aluminum for the aluminum parts of seven gas masks.

BELIEVING IS SEEING

We always hear it the other way: "Seeing is believing." But if we had believed the warnings of those who knew we would have seen the plan of the Japs in time for action.

Take this thing of personal debts. All economists are urging people to use all spendable money possible to get rid of debts, instead of using it to buy things in a scarce market, and let debts ride, to drag one down when spending money will be scarce.

If we believe the warnings now we will sacrifice, save, wipe out every possible debt, and wait to see the sure results of this program. Believing today is seeing for a certainty tomorrow.

And the above policy is entirely consistent with our desire to make needed loans.

Official U. S. Treasury War Bond Quotas for August

Washington, D. C., August 5.—While maintaining a tentative annual level of twelve billion dollars as its goal, the Treasury Department today fixed the August quota for the sale of War Bonds at \$815,000,000 as shown by the accompanying map by states. In lowering the quota from a billion dollars in July to \$815,000,000 in August, the Treasury has given recognition to certain factors which may be expected to result in variations in sales over the 12-month period, such as the seasonal character of farm income.

These factors have been taken into account in determining each state's share for the national quota for August and will be given consideration in fixing quotas for subsequent months. In addition to the state quotas as set out in the map there is a federal payroll allotment quota of \$9,750,000 and territorial quotas as follows: Alaska, \$760,000; Canal Zone, \$213,000; Hawaii, \$4,800,000; Puerto Rico, \$440,000, and the Virgin Islands, \$17,000. MARRIED MEN NEED NO WAIVER TO ENLIST NOW IN NAVY

Applicants for enlistment in the U. S. Navy are no longer required to secure waiver of dependency affidavits from their dependents. L. H. Ridout, Jr., Officer in Charge of the Navy recruiting district of North Texas announced today. "Since the recent enactment by congress of the bill providing for allowances for support of the serviceman's dependents, marl may now be enlisted in any navy rating without the necessity of dependents executing such waivers."

Navy beginning base pay ranges from \$50.00 to \$126.00 a month depending on qualifications of applicants. Married men in pay rating of \$78.00 a month or less receive under the new pay bill \$28.00 a month allowance for wives, \$12.00 for first child and \$10.00 a month for each additional child. Men in pay rating of \$96.00 a month or above receive \$34.50 a month for dependents. Other men, who have dependents receive similar allowances," Lieutenant Ridout, Jr. said.

Age limits for naval service are 17 to 50 years. Many petty officers ratings are now open for qualified men. Navy recruiting stations are located at Abilene, Amarillo, Big Spring, Dallas, Fort Worth, Longview, Lubbock, Paris, San Angelo, Sherman, Tyler, Waco and Wichita Falls. Insured Farms May Earn Premium Cuts

COLLEGE STATION, Aug. 5.—A reduced cost plan by the Federal Crop Insurance Corporation for those insured wheat growers who have built up large premium balances in excess of losses will go into effect with the new 3-year contract beginning with the 1943 crop, according to the State AAA Committee. In some cases, this reduction plan will cut an individual's 1943 crop insurance premiums as much as 50 percent, the maximum allowed. This maximum reduction will be given the farmer only in those years when no loss occurs. To qualify for the lower premium, a farmer must have insured his wheat crop for an unbroken series of crop years up to the present, with few or no losses. In general, if his total paid in premiums, less indemnities, during this period equals or exceeds his insured production for 1943, the farmer will receive a 50 percent cut in his premium. If "paid in" premiums during the unbroken series of crop years are slightly less than his 1943 insured production, the grower's premium cost for the 1943 crop year will be counted toward the premium balance and a proportionately lower premium cost will be given him. In no case will farmers be granted the lower rate simply because they have built up a premium balance from a large operation and shifted to a smaller operation. Adjustments will be made in cases where growers have materially reduced acreages or lowered their insured production for any other reason. This premium plan was designed to distribute the cost of insurance more equitably by recognizing the smaller risk on those farms where there have been few or no losses. The plan is comparable to the practice of some commercial insurance companies which refund some of the premium in cases where the insured suffered no loss during the insurance period. Mrs. Roy Clayton left Saturday for Los Angeles where she will visit her daughter, Mr. and Mrs. Durwood McCracken. Mrs. F. C. Johnson is visiting a sister at Sunset.

Dr. Harris To Conduct Health Examination Clinic, Aug. 10-15

A complete Health Examination Clinic will be held in Dr. B. B. Harris' office, Clarendon, Texas—August 10, 11, 12, 13, 14, 15—Monday, Tuesday, Wednesday, Thursday, Friday and Saturday.

The clinic will be carried on with the aid of the Radioclast instrument which detects traces of disease as well as other body deficiencies through electrical radio vibrations.

In diagnosing with the Radioclast poison or destructive toxins of the body are located that may be causing colitis, asthma, headaches, liver disease, kidney trouble, arthritis, sinus trouble, ulcers of the stomach, backaches, heart trouble, lumbago, nervousness, indigestion, rheumatism, fatigue, over or under weight, constipation, high and low blood pressure, as well as many other pains in the body.

After making the examination

and finding your trouble, the proper procedure for correction will be advised. Also, the correct vitamins and minerals will be recommended in each case.

A nominal fee will be charged for a complete examination.

Remember the date—August 10th through 15th, 1942 at Dr. B. B. Harris' office, Edgington Apt., Clarendon, Texas.

War Production Program In General Gives Signs of "Growing Pains"

Warnings by WPB Chief Donald Nelson against excessive optimism—voiced in connection with his mid-1942 report that war materials production was tripling the 1941 rate—have been grimly underlined by quite a run of news of a definitely sobering kind coming from many salients along the industrial front, as well as from world battle areas. The war production program in general gives signs of having "growing pains" as material "unbalances" show up - - despite the almost unbelievable record pace in shipbuilding, production has failed to keep pace with United Nations' losses by sinkings. WPB canceled the Andrew Jackson Higgins project—the one that was going to build some 200 Liberty ships on the assembly-line plan in Louisiana—with the explanation that even if construction could be completed, there wouldn't be enough steel to keep it supplied. The expansion program of the electric utility industry had to take a 40 per cent cut because of the acute, competing demands for steel for other uses. Wright Aeronautical had to lay off a thousand men in each of three shifts for several days because lack of materials had caused failure of a supplier to deliver needed parts—and the copper situation is exceedingly tight.

Wheat Sowing Decision

COLLEGE STATION, Aug. 5—Can you shift part of your wheat acreage to warcrops?

The Texas U. S. Department of Agriculture War Board this week asked wheat growers that question and urged them to "think twice before seeding your entire wheat allotment."

"Where land usually planted to wheat is suitable for the production of warcrops, we urge farmers to cut their wheat plantings and increase their plantings of warcrops," B. F. Vance, board chairman, declared. "The national wheat acreage allotment of 55,000,000 acres, the minimum under the law, will produce far more wheat than we can use, especially in view of the two-year supply already on hand."

Other crops more vital to the war effort can be grown in place of wheat in most of the Texas wheat area, Vance pointed out.

Cliff Swallows Win Battle

CANYON, August 4—There has been a battle between the sparrow and the cliff swallow on the campus of West Texas State, and the latter has won.

The sparrows, always ready to repossess abandoned homes, showed much interest in the pear-shaped mud nests being built by the swallows along the eaves of the huge Administration Building. But the scrappy little swallows, whose ability to sustain flight indefinitely is remarkable, repelled all attacks.

Friends of the swallows also repelled a move to have the nests removed from the building.

Bill's a bigger man than his dad was in '17

...and ELECTRIC POWER, too, has grown to Meet the Wartime Needs of 1942!

Plenty of Electricity on Hand

WASHINGTON, July 22. (AP)—J. A. Krug, chief of the power branch of the War Production Board, expressed confidence today that war production would not be crippled by a shortage of electric power.

"We have sufficient electric power," he said, "to meet all the requirements of war production and for essential civilian needs, if used wisely—as far as we can see ahead."

WAR DEPARTMENT figures show that today's average soldier is nearly an inch taller and ten pounds heavier than in 1917—a great gain for one generation and a real tribute to the men of science and the men of industry who helped build Bill's husky frame.

We're glad electric service had a hand in it.

Food experts discovered new vitamins and better diets for Bill; doctors developed new serums, drugs and healing techniques; and electric research worked out new and better ways to refrigerate... preserve... his food so it would be fresher, safer, cheaper.

Even before Bill was born, electric servants freed his mother of much household drudgery—so that she and her children might be healthier and happier.

At the same time that the electric industry was helping Bill to develop into a stronger, healthier man than his dad, it also was expand-

ing to provide the power vitally needed in 1942. In back of Bill today is plenty of electricity for building tanks and planes, guns and ships... power to run the factories making weapons with which Bill will win the war!

Actually, this country now has five times more electric power than we had in 1917.

And over 90 per cent of ALL the nation's commercially generated electricity is being provided by companies like this institution... companies that developed the American way, free to work and create things that men and women want and need for everybody's benefit.

This company "grew up" that way—organized by a few men with foresight to see West Texas' great need for ample, cheap electric power. Today it represents the savings of thousands of small stockholders, operating under good business management, regulated by the government, paying taxes, and providing excellent service at low cost.

A JOINT RESOLUTION
 proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
 Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:
 "Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of

the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.
 "From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.
 "For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement

of serial bonds, equal in principal to the total outstanding, valid, and approved obligations 'owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."
 "Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:
 "For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."
 Those opposing said proposed Amendment shall write or have printed on their ballots, the words:
 "Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds, for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."
 Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

State; and providing for the necessary proclamation and expense of publication.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
 Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall read as follows:
 "Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the Permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."
 Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:
 "For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words:
 "Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."
 Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.
 Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

concurrent jurisdiction with the county court in civil, criminal or probate matters."
 If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.
 Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.
 Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election.

TO THE PRODUCERS OF DONLEY COUNTY:

Walter J. Flynt, Secretary Donley County ACA

In 1942 the Applications for Payment may be filled out as soon as the Producer has completed Compliance on his farm. This will be approximately September 20th. Many of the Producers are depending on green manure and cover crops such as cane, sudan, peas, etc. left on the land. The statements which each producer signed on the back of the compliance papers will allow us to submit these applications at an early date. These statements are that each producer will leave these crops on the land exactly as the Reporter entered it on the Form 31.

The usual way to check up on these cover crop practices is to visit each farm again in the fall, but with the certification of the Producer this check will be eliminated, and only a 10% spot check will be made in the fall, to see if producers have done in general, what they stated they would when Reporters first visited the farm.

Suppose for instance that a producer has earned all the soil-building allowance with the aid of some cane or sudan left on the land, and in order to get payment as quickly as possible we were to submit his application for payment, and he received payment. If the spot check were made and the cane or sudan was not left as stated on the forms, the producer would owe the government a refund of money earned by this practice.

We sincerely hope that there will be no misunderstanding regarding this practice. When the Producer signs the statement, it is accepted as if the practice were actually completed, whereas this practice cannot actually be completed until after the stalks of cane or sudan have fallen on the ground or are in such shape that it will be impossible to harvest them.

Another feature about which there may be some misunderstanding is when cane is entered on the forms as government land. If you intend to cut the cane for hay and at the same time count it government land, there are two ways that this may be done: (1) The Producer may cut 5 rods and leave a one rod strip or (2) Producer may cut all the cane provided it is cut at least 12 inches high. These are the only ways cane may be government land except to leave it on the land. If it is found that all cane has been cut below 12 inches, it will be disqualified as government land.

ADMISSION TO NAVAL TRAINING SCHOOLS IS BY SELECTION

By Mrs. David E. Caraway
Following last week's general resume of the courses offered by Naval Training Schools, we will continue with a more detailed outline of this training system.

No promise will be made to any man enlisting in the U. S. Navy that he will be placed in any of the service schools because much depends upon the man himself—his conduct, education, ambition and adaptability. These qualifications are ascertained while he is under going his recruiting training.

Just before finishing this training, each man is given a series of simple tests to determine his general intelligence and basic education. At the same time he is given an opportunity to apply for admission to any of the various service schools. Those who apply for Group 3 schools (machinists,

metal workers and woodworkers) are given an additional test to determine their mechanical aptitude.

All applicants are interviewed, their classification marks reviewed with consideration of the requirements for the school requested and those who are best qualified, are selected and enrolled in the school of their choice.

Selection for Group 3 schools is based on adaptability to learn the mechanical trades—hence previous experience is not necessary.

Next week this series will include the curriculum of these schools, and nature of the instructions.

It is suggested that all men who are registered for selective service, from the ages of 18 to 50, take note of these articles, and seriously consider the advantage of enlistment in the U. S. Navy.
