## AROUND TOWN

With Otto B. Grate

Ye Easter Greetings from the Olde Baird Star Crier to the township. Dig out your passes and we're all set for our pre-Ester frolic.

Last week's "Tailspin" may have been a failure as far as entertainment goes, but "Made for Each Other" this week shouldn't be. The story, worn threadbare from constant usage, takes in new attractiveness in the chapel hands of Carole Lombard and Jim Stewart. This plot (but don't let this scare you) is about a young married couple who manage to scrape by despite financial troubles until a mother-in-law makes her debut and then they split. There's a happy ending, however, when the couple's baby falls sick and is saved by the timely entrance of it's father with a serum to cure it's illness. If you prefer the lighter vein of movie (and most of us do) there's "The Three Musketeers" with the Ritz Brothers and Don Ameche due here next Wednesday and Thursday.

It's dangerous to calculate on the weather in West Texas, but the mesquites are in leaf, (yeah, they really are) the buffalo clover is covering the roadside, and Mrs. J. B. Cutbirth's yard features the "Yellow Rose of Texas in full bloom."

One of the loveliest sights in town is the soft frothy wisteria vines in Mrs. H. N. Ebbert's yard.

West Texas sunsets are known throughout the world for their beauty, and nowhere is the reason for that more evident than in Callahan County. Certainly some of our most beautiful twilight pictures are to be found around the Clear Creek and Bayou sections where the tall trees, like sentinels of time, stand in dark relief against a sky of molten gold; the silhouette of a few cows wending their ways homeward from over the softly sloping hills, complete the picture to perfection.

There's abran new calf in Dude Pearce's back yard. He's about as big as a pecan and about the same color—Monicker: Abdul the Pierce, of course. If anyone else has any new calves, kittens, pups etc., just let us know and Around Town will swing down for an interview, yowah!

Congratulations to Bernice Robinson who had a movie letter printed in a recent Movie Book. Chee, hat's your place.

Spotlight of the week goes to Rev. Wright who's a nice guy even if he doesn't know the mesquite leaves are out. You can't blame a fella' from bein' wrong on the West Texas weather and besides, Rev. Wright's April freeze may be on it's way by the time this hits print, all of which gets us nowhere, and is a little off focus for what we intended to say in the first place is that Rev. Wright certainly is a right fella'.

## WASHINGTON NEWS

FROM CONGRESSMAN  
CLYDE L. GARRETT

### IMPORTANT CHANGES

Many changes are appearing, or to appear, in the following Social Security Reserves now existing be changed to a pay-as-you-go policy for old-age insurance; Only moderate changes can be made in the government departments according to the new government Reorganization measure. The President will get six new assistants.

### U. S. DEFENSES

Much has been heard these last few months about the building of our national defenses. Just what has been accomplished, and approved by the many measures and proposals may not be clear to many. Here is how our army, navy and air force will stand as a result of the national defense legislation: Our navy will be in line with the British navy and outstripping any third navy afloat; 9,000 planes large enough to repel any attack on the Western Hemisphere will make up our air force; Our army will consist of about 120,000 men plus the enlarged National Guard, forming an "Initial Protective Force" of 450,000 men; 10,000 to 12,000 factories are geared to turn out 12,000 planes a year, plus arms, ammunition, and equipment to equip the million-man defense army. More naval and air bases; stocks of raw materials, and hard to manufacture items as reserve supplies; and a trained reservoir of civilian pilots to which 20,000 young pilots will be added each year. All this is taking place with one object in view, that no war will ever be fought on the American mainland.

### LABOR

A change is wanted in the Wagner National Labor Relations Act, but just what changes will take place, if any, is not known as yet. A series of amendments to the Act is being sponsored by Senator Walsh of Massachusetts, and Senator Burge of Nebraska has another set of amendments. Senator Thomas of Utah, chairman of the Labor Committee has announced that hearings will be held on proposed amendments, beginning April 11th.

### HOME OWNERSHIP

The pressure is rising for more government help to city home owners. The question arises should the government give city home owners the same subsidies which it now gives the other groups. Should home-building be promoted by making available money to home owners at less than cost? Home Owners in the cities are paying 5 percent for Government-held mortgages, and these owners are comparing their interest with that of the 3-1-2 offered to farmers and asking that their interest be lowered. If the HOLC mortgage rate is cut then this agency will no longer be self-sustaining and will run a loss of 200 or 300 million dollars each year.

### RAW MATERIALS

The Director of the United States Bureau of Mines assures us that the U. S. is more abundantly endowed than any one of the great nations with the supply of mineral raw materials. There are a few essential to national defense but for which we depend, wholly or in part, on sources outside the continental limits of our country. These include ores of aluminum, chromium, manganest, nickle, mercury tin, and tungsten. The con-

ensus of authoritative opinion is that ordinary prudence demands accumulation of stock piles of the efficiency minerals capable of supplying our needs at least two years. These stock piles have to be built at first chiefly by importation. In an emergency stock piles would have to be supplemented by increased domestic production. This would be vital if foreign supplies were cut off. Ample supplies of strategic minerals would prevent the confusion and insufficiency that resulted from enforced use of off-grade materials and substitutes during the last year.

### INSURING FARM MORTGAGES

Because the Federal Housing Authority policy if insuring mortgages on urban and suburban property has been such a success, the proposal has been made that this same principal be applied to the insurance of mortgages on farms which tenants are seeking to purchase. Up until this time the Government has bought suitable lands and turned them over to desirable tenants. It is now proposed that the purchasing tenants be selected by county farm committees under Federal supervision but loans would be made by local lending institutions, with a limited interest rate of 3 per cent. It is apparent that this type of insuring is more difficult than insuring loans to urban and suburban dwellers as the income of the farmer is more variable. Farming demands not only intelligence and energy but resourcefulness, endurance, and self-denial, and so personal character is depended on to a great extent in farming. Farming is also affected by factors over which the farmer has no control. These factors are some important reasons why everything possible should be done to enable competent farmers to borrow at low interest rates.

### Nobody's Business

By Julian Capers Jr.

AUSTIN—The special interest lobby's highly-touted "program" to freeze a \$40,000,000 sales tax constitutional amendment into the Constitution of Texas went down to overwhelming defeat in the House of Representatives this week end, after failing to muster over a majority vote, much less the two-thirds necessary to submit it to the people. The Petsch amendment thus is dead beyond recall, unless a two-thirds majority of the House can be recruited to revive it, and that seems highly unlikely. In the Senate, another sales tax amendment met rough going, and the consensus of observers here was that there will be no sales tax written into the Constitution by this session. Thoughtful men in both houses were looking toward a plan to raise some pension money by means of an omnibus tax bill, but in both houses there was such a wide divergence of opinion that a deadlock with no tax hike at all was still regarded as a strong probability.

### O'DANIEL THREATENS

Gov. Lee O'Daniel in his Sunday morning broadcast, largely offset the plea for harmony voiced by Lt. Gov. Coke Stevenson in the Senate Friday, when the Governor, abandoning the singing of "That Old-Fashioned Love In My Heart" sent out into the peaceful atmosphere of a gorgeous Palm Sunday morning a truculent, fighting talk that bristled with the threat that unless the citizens got behind the lobby-supported scheme of a Constitutional sales tax sponsored by the Governor, they "will be sorry that they didn't". O' Daniel, whipped and sore, left off the hill, billy music and the sticky songs, and "poured it on" opponents of his scheme. Then he became Lawyer O'Daniel, and quoted a section of the pension act passed by the 45th Legislature, placing a ceiling of \$30 a month from State and Federal sources for pensioners, and tried to prove this law was the same as his "\$30 total income for everybody" plan. His speech was regarded by listeners as unlikely to compose the divergent opinions in either house, and its immediate reaction was unfavorable in both Houses.

Meanwhile, the sales tax is so unpopular in both branches, that many observers here do not believe that even a bare majority could be mustered to pass it as a simple statute. Although the Weinert constitutional amendment was still pending in the Senate, it has been so butchered by amendments that even its author asked the Senate to kill it, and disclaimed further responsibility for it.

### OIL ROW THREATENED

Of intense interest to all oil-producing areas in Texas this week was a strong indication that disruption of the industry might

## SCHOOL DAYS

By DWIG

grow out of an apparent alliance between Lon Smith, commission chairman, and Jerry Sadler, new commissioner. The pair "got together" and issued a proration order abolishing Saturday shut-downs for April, and drastically hiked allowables in the Panhandle, North Texas, and East Texas fields, and slashing production by thousands of barrels in West Texas, Southwest Texas and the Gulf coast area. Total allowable was kept well within the Bureau of Mines estimate. Austin was full of talk, in the wake of the order, of a possible court attack upon the order.

### NAMES AND NEWS

Another effort to obtain an investigation of the Prison system by a committee on which "business men" will be represented, as well as the Legislature, was started in the House this week, after veto of an investigation by a legislative committee by Gov. O'Daniel, and the veto was upheld in the House. Rep. J. Ed Winfree, of Houston, who passionately contended the prison system is in need of an investigation cannot be obtained "cleanup", argues that a fair investigation cannot be obtained unless outsiders are on the probing body . . . Argument over the social security tax raising program has built a log-jam, behind which is banked a flood of legislation, including much that is meritorious. Awaiting action are bills providing for control of venereal disease, renewal of drivers' licenses, permitting the Public Safety Department to lift the truck load limit in emergencies, to move perishable crops, such as Valley citrus, and numerous other . . . Death in Dallas last week of Former Chief Justice Nelson Phillips of the State Supreme Court, removed one of the State's most brilliant legal minds from the current picture . . . Jim Goodman, House member from Midland has organized a strong bloc of House opposition to the so-called County Judge Bond Bill, which would force gasoline tax-payers of the State to take over nearly \$200,000,000 worth of "dead horse" county lateral road bonds, in order to obtain some small relief for ad valorem property tax payers.

The bill is sponsored in the Senate by Sen. Will Pace, of Tyler. Smith county, under its terms, would receive \$433,350 of ad valorem tax relief, and gasoline tax payers of that county would have to put nearly three times that sum

### ECONOMY THE BEST POLICY

The man who works for a living today Had better be careful, save part of his pay, For he never knows when his wages may drop, And his pay check, too, could easily stop. He who spends all as he goes along May see hard times when something goes wrong. Now is the time to lay something by. Begin today; you can if you try. The First National Bank has found the safe way Is always to save a part of your pay. Member Federal Deposit Insurance Corporation.

**Attention W. O. W.**

Every member of Baird Camp No. 508, W. O. W. is requested and urged to be on hand at a regular meeting, April 14—as important matter will be had for consideration.

Fraternaly,  
E. A. Langston, C. C.  
R. F. Jones, Clerk.

**Personal**

R. E. Bounds is back on the job at his blacksmith shop after a few days illness.

Mr. and Mrs. W. O. Spencer and son, Frank Spencer of Burnt Branch were in Baird Monday.

Miss Crystal Jackson of Fort Worth spent the week end with her parents Mr. and Mrs. Jackson.

Bian Bounds of Texas Tech, Lubbock is at home for the Easter holidays.

Mr. and Mrs. W. P. Curtis of Rule spent the past weekend with their son, W. H. Curtis and family.

O. E. Eastham was brought home from the hospital at Fort Worth a few days ago. His condition is very little improved.

Harry Warren left yesterday for Lubbock to attend the funeral of his niece Ola Mae Haddock daughter of Mrs. Annie Haddock.

Clifton Hill, Randall Jackson, J. R. Black Jr., Norris Black and Frank Stanley Jr. students in Texas State University are home for the Easter holidays.

Mrs. J. W. Hays and daughter, Miss John Faye left Monday for Marble Falls in response to a message that Mrs. Hays father A. L. Askew was seriously ill.

Mrs. Irl Haley and Miss Edith Rowius returned Saturday night from Odessa bringing their little niece Bertha Joyce Ogilvy who has been ill with pneumonia. She was accompanied also by her father and little brother Alex Ogilvy and Alex III.

Mrs. Joe Shackelford of Putnam was in Baird Tuesday. Mrs. Shackelford is an applicant for the position of postmaster at Putnam. Mrs. Shackelford is the daughter of the late John T. Gilbert, pioneer business man of Cross Plains and a sister of Victor B. Gilbert, former county judge of Callahan county, now with the railroad commission.

Mrs. W. B. Atchison, Mrs. Haynie Gilliland, Mrs. James Ross, Mrs. Frank Bearden and Miss Maxine Williams returned Monday from Austin where they spent the week end with Judson Atchison and Mr. and Mrs. C. B. Holmes. Judson came in yesterday to spend the Easter holidays.

**County Agent News**

Delbert Mac Sawyer 4-H club boy of Bayou reports a profit above of \$24.00 on his calf that was fed out last fall and winter. The calf came from the Fred Cutbirth ranch and was an outstanding individual, in spite of the fact that he was fed only 5 months. At least 6 months is required to properly finish a calf. As a result of the spring FFA and 4-H Fat Stock Show indications are that some 25 of the 147 club boys of the county will feed out calves next fall and winter. A complete list of these is being compiled and will be published in the near future.

19 farmers of the Lanham community attended a meeting last Wednesday, March 29 at the school where R. C. Reed, of the S. C. S. at Abilene, J. S. McKnight F. S. A. County supervisor, and Ross Brison, county agent explained the new water facilities program that is available to any farmer that lives on the clear fork of the Brazos river watershed. Reed pointed out in his discussion that under this program tanks could be dug, tile made, pipes laid to the house, and wells might be drilled in order to help out with these farms where it is necessary at times to haul water. In addition to the water facilities program the S. C. S. may lay off contour and terrace lines to farmers getting the water facilities. The money for financing a water facilities program on a farm may be borrowed from the F. S. A. at 3 per cent interest from the Farm Security Administration. McKnight explained. The terms of the loan is from 5 to 29 years.

13 men attending the meeting were hauling water and 9 of them said they expected to apply for a loan and improve the water facilities on their farms.

The first step to take if one is interested is to apply for a loan at the F. S. A. office on the 3rd floor of the court house. After this the S. C. S. men out of Abilene will make an inspection and give the farmer an estimate of the cost. If he agrees to this the loan is then completed and the work started on the farm. This new program is available only to farmers of the Lanham community, farms West of Clyde, and these farms West of the West and North of East, the waters of which drain into some creek that finally drains into the clear fork of the Brazos river. Those interested in the program are urged to see Mr. McKnight.

At the meeting of the Clyde Truck Growers at the School Auditorium Tuesday night, April 11 the following program will be given:

1. Benefits to be derived by the farmers of Clyde community by cooperating in the 1939 farm program—Wallis H. Airhart.
2. Report of committee on establishment of central markets—John W. Robbins.
3. Report of seed, fertilizer, and credit committee—F. A. Ferguson.
4. Social hour, songs and readings.

This as all other meetings are open, and the men, women, boys and girls of the community and surrounding communities are invited, by president M. H. Perkins. Seed dealers from all parts of the county report sales of blight resisting maize are far more than sales of ordinary maize seed. There is such a little difference in price and such a great difference in value between the two varieties that farmers of the county are recognizing the bargain. One dealer is selling the state certified seed for 3 cents per pound and that is an inducement also. And druggists report sales of chemicals used for treating seed for smut far in excess of such sales this time last year. It looks like there won't be so much smut in cane, and grainsorghums as last year.

At a recent meeting W. I. Glass District Agent, explained to a group of 20 men and women of the county the aims and benefits to be derived from a land use planning program for this county. He cited the needs for more land to be terraced and better recreational facilities for the children as two very worth aims for such a program.

Earl C. Hays of Clyde was elected President of the county land use planning committee and county agent Ross Brison was elected Secretary. A survey of the county is to be conducted after which more detailed work will be taken

**State Chairman To Aid Cripples**

Ernest R. Tennant, president of the Dallas National Bank, this year leads the sixth annual Easter Seal sale campaign in Texas. Announcement of Mr. Tennant's acceptance of this work in behalf of Texas crippled children was made today by Chas. F. Ashcroft of Sulphur Springs, president of the Texas Society for Crippled Children.

The sale of Easter Seals will commence March 25 and continue until April 15. All receipts from the sale of Easter Seals will be devoted to the hospitalization of crippled children otherwise unable to help themselves.

up. Attending the meeting were the following persons: Mesdames Jim Barr, C. M. Garrett, Clyde Johnston, Miss Clara Brown, H. J. A. Mrs. Ella R. McBride, Mrs. Steve Foster and Lester Farmer, Rob Stephenson, C. A. McIntyre, W. H. Airhart, J. S. McKnight, M. H. Perkins, Geo. Clifton, Fred Stacy, Earl C. Hays, George Brown, Russell Morriset, Steve Foster, E. J. Barton and Clyde Johnston.

During the last several days terrace or contour lines have been laid off on the following farms of the county: Escar Crawford, Quincy Loven, B. F. McCaw, H. M. Redding, Jim Edwards, Raymond Breeding, L. P. Jones, Ralph Fuller, Frank Johnson, Ernest Franke, J. C. Thompson, J. C. Dyer, and H. N. Sherman. Some 600 acres of land is involved in this piece of work and it no doubt will result in increased yields, not only this year but in years to come.

The Callahan County Club bought and paid for Ben Louis Russell's calf named W. Lee O' Daniel. The stipend being 12 1-2 cents per pound, W. Lee O' Daniel weighed 885 when bought and dressed out 585 pounds of good beef that was sold by the Brashear Grocery and Edwards Cafe. It will be remembered that this calf was the grand champion at the Fat Stock Show held in Baird Feb. 25 and a good calf he was. Any calf is a good one that will dress out eta etai etainnann will dress out 66 per cent as this one did. Check the figures.

Earl C. Hays, R. W. Robinson, Blain Odum, Charley Straley and Norrell Long and Jim Faircloth, club leaders of Clyde, Bayou, Oplin Dressy, and Midway clubs respectively attended a recent meeting at Baird. This meeting was conducted by J. W. Potts, Ass't. State Boys Club agent from College Station, who talked with the group about the aims and objectives of 4-H club work and the opportunities it afforded for helping boys to become good citizens as well as learning some of the valuable lessons if agriculture by actually doing them. Examples are, feeding pigs and calves, planting an acre or more of good cotton, corn, grain sorgum, or peanut seed on terraced land and keeping a record of same. "The job of being a club leader is an important one but there is no money to pay for it Potts explained, but the boys appreciate their leaders and the job is one that will pay dividends for a long time in the community.

Rev. I. N. Demy says:  
I have found nothing in the past 20 years that can take the place of Dr. Miles Anti-Pain Pills. They are a sure relief for my headache.

Sufferers from Headache, Neuralgia, Toothache, Backache, Sciatica, Rheumatism, Lumbago, Neuritis, Muscular Pains, Periodic Pains, write that they have used Dr. Miles Anti-Pain Pills with better results than they had even hoped for.

Countless American housewives would no more think of keeping house without Dr. Miles Anti-Pain Pills than without flour or sugar. Keep a package in your medicine cabinet and save yourself needless suffering. At Drug Stores—25c and \$1.00

**DR. MILES' ANTI-PAIN PILLS**
