WORLEY WAS FRIEND WHEN NEED CAME

Scattered over the district in which Gene Worley campaigns today, are numbers of young men and women whom he helped secure jobs by which they worked their way through the State University down at Austin while Gene was in the legislature. If he does not meet those whom he helped, he meets many of the relatives and friends of those whom he helped. It all counts for Gene Worley.

When Gene Worley, a fatherless youth, went to Austin as a University law student, he had many handicaps, chiefly among them, a lack of finances. He worked at any kind of a job he could get that was honorable in order to attend school. Despite all handicaps, that spark of enthusiasm, faith and hope lived eternal and he worked on.

After completing, and even before, other young people went to Austin to work their way through school as a stranger in a strange land. Jobs were scarce. It was then that they found a real friend in Gene Worley, a veteran at finding jobs. Gene Worley helped them find jobs, not once but many times in individual cases. He was a friend of the ambitious, energetic young men and women who yearned for an education that they might become more useful as citizens. Many of these young people have relatives living right here in old Donley county. They and their friends are working for Gene Worley's interests today. Worley needs a friend now just as those young folks did in the middle of the depression down at the State University. There is no ingratitude now that the need is great. Voters of old Donley county gave Gene Worley a nice majority in the first primary. They will make that majority an overwhelming victory August 24th. Gene Worley does not ask for undue sympathy. He is used to fight-

ing his battles alone, but that grateful heart of Gene Worley will appreciate that help more than mere words can tell when that big vote piles in on August 24th. He has earned it. He deserves it. The writer knows because two of his sons were among that large number whom Gene Worley helped.

JUDGE OLIN CULBERSON WELL KNOWN HERE

In the run-off primary August 24th, Judge Olin Culberson and Pierce Brooks are contesting for a place on the Railroad Commission to succeed Lon Smith, who is not a candidate for re-election.

Judge Culberson is pretty well known here, he having presided at the gas rate hearings more than a year ago. Judge Culberson discharged his duties as an employee of the Railroad Commission. There was quick action so far as he was concerned. The case is now pending before the Third Court of Civil Appeals, and has been for long months. Judge Culberson has no authority there.

As an employee of the Railroad Commission, Judge Culberson was chairman of the gas division. It was while he was insisting upon an investigation of a large gas distributing system in Texas that he was summarily discharged by the Railroad Commission.

Many of those who attended the hearings here admired Judge Culberson for his fairness, and for the alertness with which he discharged his duties. There was no unnecessary delay. The hearing was thorough and open and above board. Those who vote for Judge Culberson August 24th will be voting for a man who knows the duties of the office he seeks by reason of personal experience. It means a step forward toward better government in Texas.

Misses Nell Simmons and Dorothy Jean Richerson of Hedley were in town Tuesday.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

It is August, and already our gardens are beginning to show signs of too much heat and too little water. But where the gardener has planned for fall bloom there will be two or three more months of beauty.

If you wish to be greeted by a cascade of double white morning glories drive by the Henry Williams yard aery some morning.

The lawn at the City Hall is very restful with its velvety grass and lovely canna beds.

Several small lawns are attractively landscaped and carefully kept, such as Dick Lanham's, H. M. Breedlove's and S. C. Bell's.

The trumpet vine clambering over the fence at Walter Taylor's makes a picture hard to rival.

"Find a gardener and you have found one who knows where to dig for happiness."—Anon.

fish is tender and the crumbs are brown.

Veal chops and cutlets are first pan-broiled and then baked in the sour cream.

And Miss Elliott points out that sour cream makes a gravy that goes extra well with chicken, chipped beef, and such vegetables as fried tomatoes, snap beans and spinach.

SOUR CREAM HAS MANY USES IN COOKING

The tragedy of sour cream may be turned into a triumph if it is used in a baked fish dish, or for baked veal chops or cutlets, or for gravy.

Nora Ellen Elliott, foods preparation specialist of the Texas A&M College Extension Service, comes up with this argument:

Fish and veal are often seasoned with lemon and butter. The acid of soured cream corresponds to the lemon and the cream supplies the fat.

The method is to season the fish with salt and put it in a very hot oven for about five minutes. Then add sour cream to cover, sprinkle with bread crumbs, and bake at a moderate temperature until the

TEMPLE OF TRUTH

By the Apostle

FAMILY NECESSITY.

After you have finished reading this newspaper, every other member of the family can still read it and find some benefit from it. You can't say that for gum, candy or tobacco.

WAR GOES ON DAILY.

During the past twelve months, more people have been killed on highways in the United States than were killed in action during the World War, so far as our soldier boys were concerned. Just another reason why we should all get into the army.

ARMY AND SAFETY.

According to the English version of Nazi bomber attacks in England over the week end, they lost very few as compared with the number killed during the same period on highways in the Amarillo area. Maybe we better change up our enlistment laws and let the general public get into the army as a matter of safety.

HISTORY REPEATS.

There was a time when the inhabitants of every hick town felt it their 'bounden' duty to help the passenger train get to the depot. More especially was this a favorite diversion of the younger set after they had tired of the family album and the stereoscope on Sunday afternoons. Then along came the meat slicer, which supplied amusement and amazement for some years when week days were draggy as the 'apple of his eye' sought to hold the young man who was tempted with going jelly bean at any opportunity. Then along came the picture show and the auto and the passenger just had to get in the best way it could, unattended. Now we are right back to where we started, since stream-lined trains have brought curiosity to the front. Go down to the depot in this or any other small town about passenger time, and you will see people of all ages from infants up to elders ready to see "how the thing works." The Apostle has been down to see it come in several times, and always finds a crowd made up of other curious folks trying to keep up with the "march of progress." And traffic has increased by leaps and bounds since the old rattlers have been displaced on the longer hauls.

THE MODERN GROCERY.

When pig's knuckles were brought on in glass containers, that was quite an innovation. Then came nubbins canned right on the cob. Now a whole meal may be gotten from one can. The can may be selected according to the size of the family. Merely heat the can, open and serve the different varieties of food it contains. Making biscuits was greatly improved in many homes when the 'canned flour' came along. Now it may be had in package. Add water and bake. They are already rolled out for the oven if the housewife chooses to select certain brands. Every year we are getting closer to the point to where a mere press of the button will bring a complete meal out ready to serve. All sounds good, but the dish washing inventors still are far, far behind the parade of progress.

REFUGEE FOR CHILDREN.

The innocent always pay the penalty for the wrong committed by a mere man or men. The dependents of a drunkard pay the penalty. Dependents of a nation at war always pay the severest penalty. At this time there is a great clamor being made to take care of the children of England. Only those void of human sympathy would deny them a haven in our nation, except for the fact that we already have too many American children in great need. They will go into the winter underclothed and undernourished. When we can take care of our

own, it is then time to help those of other nations. Charity begins at home. Again, for half a century thousands of children have been starving in China. It is true that they were not of our race, but they were human beings just the same, and deserving. Did you hear much of a cry going up to aid them? Not much. Then over in India thousands have continually starved each year, more during famine periods of course, but have you heard of very many coming to their aid with food and clothing? Not many. They are of the same race as we, yet there was no decided charity work done in their behalf except by a few kindly souls. In every town, Clarendon included, are a number of children in need of help. Why not help our own first? Canada and Australia each have plenty of room yet to care for the helpless of the mother country. On the other hand, the children of America may become the victims of treacherous politicians who are delaying preparedness. We appear to be far short on patriotic national leadership right now.

A HARDY PEOPLE.

It takes more than a mere matter of adverse weather conditions to dampen the spirit of our Panhandle folks. They take it as it comes, good or bad, and make the most of it without complaint. Real Americans keep plugging along no matter what comes. Had you noticed that the Panhandle always wins out by this plugging? She just keeps on keeping on and progressing regardless.

WIN ONE S. S. CLASS

The Win One S. S. Class of the Methodist Church met in the home of Mrs. C. D. McDowell Monday afternoon in a business and social meeting. After the business meeting, during the social, Mrs. McDowell served a lovely plate refreshment.

ADVERTISING, THE BUILDER

Of recent years it has been the fashion among radical reformers to question the value of advertising. The question is easily answered.

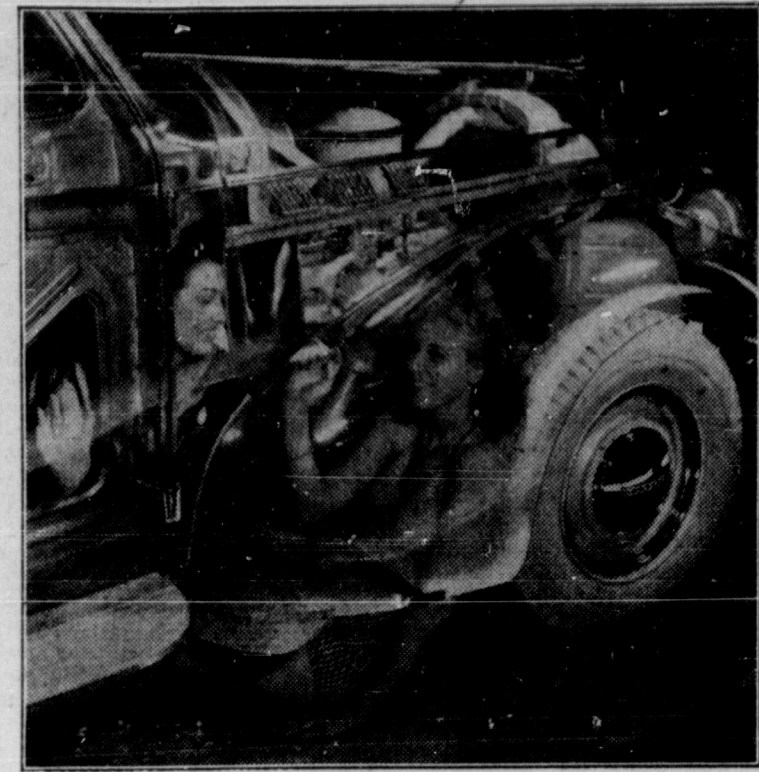

Nothing in the world sells until it is known. No successful commodity blunders its own way into a store and waits until somebody by some strange chance blunders into buying it, says Nation's Business.

If merchants and factory managers had not hired salesmen, and had not placed advertising, our America would still be what it was in 1740, a handful of poor villages and penniless farmers, dotted on the edges of enormous forests.

National distribution, in its simplest terms, means that you can get your favorite foods, beverages, clothes, shoes, cigarettes, soaps, cosmetics, books, magazines and all other manufactured articles, wherever in the country you are. Bringing this about, in a country 3,000 miles wide, and once apparently divided forever by the Rocky mountains, has been no child's play. It would never have taken place without national advertising.

Railroads and steamship lines and highways provided the means

of transport. But what is the use of transporting goods from a factory in Delaware to a store near a family in Oregon if the goods are not known and, therefore, are not bought?

Advertising is the dissemination of news about better and less costly goods than people could make for themselves at home.

Carl Morris was in Stephenville during the week, on a matter of vacation.

Mrs. W. H. Elenburg of Newport will arrive this evening to visit her sister, Mrs. M. M. McCracken and other relatives here.

Leamon Wallace was in Graham last Friday and Saturday on business.

Mr. and Mrs. Van Kennedy and children are spending several days touring the mountains of New Mexico and Colorado.

Mrs. Lucille Kent, Mrs. McAlister and Miss Isabell Wright were Amarillo shoppers Saturday.

More than one-tenth of all the people in the United States depend directly on cotton for their living.

Mr. and Mrs. B. N. Adam and children returned Tuesday from Amherst, Texas where they spent a few days visiting her parents, and a brother from Bastrop, La.

Elise Norwood is spending the week in Amarillo, a guest of a cousin, Martha Vanshaw.

Veona Barnett of Groom spent the past week here as a guest of Mable Johnson.

Mr. and Mrs. T. W. Zeigler of children were up Sunday to visit his sister, Mrs. Mary Dozier and family.

Wells Active Over District

WELLINGTON, August 5.—Hardly waiting until the primary votes were counted, Deskins Wells, who led his nearest opponent in the 18th Congressional race by approximately 6,000, plunged into the run-off campaign with characteristic vigor, visiting eight counties last week.

"I am visiting each of the counties in the district, as rapidly as possible," Wells declared, "and I would like to personally thank as many as possible of the 15,373 men and women who so loyally supported me in the first primary."

During the last week, Wells visited the northern part of the district, while spending the weekend in the extreme southern part of the district.

Not to be outdone by their hard-working candidate, the farmers, ranchers, and just "plain" people of Wells' home county of Collingsworth, where he received over 81 per cent of the total vote, are working day and night on a campaign that is reaching every section of the Panhandle.

"I am working harder now than ever before," Wells said. "I want to repay friends who gave me such a splendid lead by working now, just as I expect to work when they send me to Washington."

That this campaign is well received is amply demonstrated by the hundreds of people who supported one of the ten eliminated candidates in the primary who have offered Deskins Wells unqualified support in the run-off.

Judging from the final vote tabulations, Wells is extremely strong in the agricultural districts and small towns, having carried ten counties with predominately rural interests.

MUSKRATS IN PANHANDLE?

Muskrats are a great money crop in the coastal marshes, especially in Chambers, Jefferson and Orange counties, and the regional game manager for that section estimates it could be developed by proper management of the marshes into a \$2,000,000 crop annually.

But if you think muskrats live exclusively in the coastal marshes you are wrong.

Ever hear of trappers harvesting muskrats in the Panhandle? It's a fact. On one ranch alone in that supposedly very dry belt, trappers harvested 600 muskrat pelts last year, according to reports to the Game Department's executive secretary.

Mary Beth Bent of Wellington visited in the J. E. Burch home the past week.

Mrs. Bob Mann of Springtown is visiting her daughter, Mrs. Henry Toomb.

Miss Dorris Fowler, who had an appendectomy at Amarillo recently, was brought home Saturday.

Mrs. Howard Randal of Memphis is a guest of her sister, Mrs. Gene Herd.

Mrs. Ray Wilson of Paducah is visiting her parents, Mr. and Mrs. Cap Lane.

BOYER TO MAKE FEWER SPEECHES IN RUN-OFF CAMPAIGN PLANS

Max Boyer, Ochiltree County candidate for State Senator in the runoff Primary to be held August 24, stated Monday that he did not anticipate a heavy speaking program during the remaining days of the campaign. Boyer said his friends over the 26 counties who have supported him so loyally in this race are of the opinion that the general public needs a rest from political speeches.

Boyer opened his runoff campaign Saturday night, July 27, at midnight when it became apparent that he would oppose the Amarillo candidate in the coming election. Phone calls from friends over the North Plains Area poured into the Boyer headquarters at Perryton Saturday night and Sunday. The candidate urged all his friends to begin at once in the new campaign for State Senator.

Boyer stated this week that he felt he must wage a more active campaign during the remaining days before the election than he had in the first primary. He based this statement on the fact that his large support in the first election was scattered over the entire 26 counties of the district, whereas the bulk vote of his Amarillo opponent was grouped in a few counties near Amarillo. Mr. Boyer stated that he believed it was necessary for him to visit briefly in practically every town in the 26 counties, in order to keep the strong vote outside of the largest city in the Panhandle.

Mrs. Gene Herd and Mrs. Howard Randal of Memphis were Amarillo visitors Tuesday.

While on the way to Brice Wednesday, the truck of Lonnie Hahn caught fire and is said to have been a complete loss.

Hazlewood Is Early Pioneer

CANDIDATE FOR SENATE GREW UP AT SILVERTON

Grady Hazlewood is of pioneer Panhandle stock, his family having lived in Miami before 1900. He grew up on a farm near Silverton and between school terms, he freighted hogs to Tulsa before the time of railroads. In 1920 his family moved to Canyon where Grady entered West Texas State College. After working his way through college, he entered the law school of our State University, working and studying to a degree there in 1926. Returning to Canyon, Grady Hazlewood was appointed assistant District Attorney of the 47th District. He served six years as assistant District Attorney and then four years as District Attorney of this same 47th District. Following this service, he has attended to private law practice and owned and operated a farm in Deaf Smith county.

In addition to his busy professional and business life, Grady has always found time to be of service in the civic and church life of his community. He has been superintendent of the Young People's Department of one of the leading churches in Amarillo for four years, most of this time he was also teacher for this mixed group of young people. He was also the first president last year of a newly organized civic club in Amarillo. This club has as its main object aid for the underprivileged boy. In addition, Grady Hazlewood was chairman of the Brick Fund Campaign for the entire Panhandle to obtain funds to complete the Museum on the campus of our West Texas State College. He resigned this chairmanship when he felt he would not be able to give it the proper attention while making the race for senator of the 31st Senatorial District of Texas.

Grady Hazlewood speaks over radio station KGNC Saturday, August 10 at 1 p. m.; Monday, August 12, at 1 p. m.; and Thursday, August 15, at 7:30 a. m.

FAMILY HISTORY

Family lived near Miami before 1900. Grady grew up on a farm west of Silverton and was graduated from the high school of that city. Moved to a farm northwest of Canyon. Graduated from law school and was appointed assistant district attorney. Family still lives in Canyon. He married Andrine Smith, former school teacher in Childress and Tulsa. He is 38 years old. Former district attorney of 47th district, and was re-elected by majority of more than 3 to 1 after serving in office for 8 years. Voluntarily retired in 1937.

PENSIONS

"Why haven't these debts due the aged people been paid before now?? I'll do more than co-operate with the governor. I'LL NOT LEAVE THOSE LEGISLATIVE HALLS UNTIL THESE DEBTS ARE PAID—while the old people are still living."

FARM PROGRAM

GOVERNOR O'DANIEL SAID HE'D TELL YOU!

Here is his report on Gene Worley's official acts down at Austin while Gene was a member of the Legislature. Read what the Governor has to say about Gene Worley.

The State of Texas Austin

May 30th 1939

M. Lee O'Daniel GOVERNOR

Mr. Eugene Worley, Member House of Representatives Shamrock, Texas.

Dear Mr. Worley:

I am sending you this little note to express my personal appreciation for the help you rendered the old folks and others included in the Social Security Program when on May 10th you voted for Senate Joint Resolution No. 12 to raise the money to finance these services.

If we continue to do all we can to pass this Resolution I believe a sufficient number of your colleagues will see the reasonableness of joining with us in submitting this Resolution to the people for their final decision.

If our united efforts fail, then RESPONSIBILITY FOR FAILURE WILL MOST CERTAINLY "NOT" REST ON US.

Sincerely yours,

M. Lee O'Daniel

The Governor has told you what kind of a fellow Gene Worley is in representing the people when the pinch comes. Don't you think plain old-fashioned honesty should have some reward? A vote for Gene Worley for Congress August 24th will be a vote of confidence, and an endorsement of the actions of your Governor.

Here's Where YOU Get Paid!

Advertising works two ways.

It pays the advertiser to "run" advertisements—and it pays YOU to read them!

Why? Because that's the ONLY way you can keep abreast of new trends and developments in the merchandise you're interested in. Because you can SAVE time, effort and money by learning, through the advertisements, where to find the "best buys" and the outstanding values.

"Hit-or-miss shopping" is as old-fashioned as the tandem bicycle. The MODERN shopper reads the advertisements!

McCORMICK-DEERING
Power-Operated Corn Binders
The Fast Way to Cut Corn

This McCormick-Deering 1-Row Power Corn Binder and Farmall 20 Tractor cut 10 to 12 acres of corn a day.

WHETHER you're cutting corn for the silo or the shock, McCormick-Deering Power-Operated Corn Binders are a good investment. They easily handle more acreage in a day than horse-drawn binders. They perform smoothly, turning out bundles that are firm, well-tied, evenly butted, and easy to handle.

These binders are made in 1- and 2-row sizes and are available in two types—one for average corn and one for short, small varieties.

Ask us to demonstrate these labor-saving machines. The McCormick-Deering line also includes vertical and horizontal horse-drawn binders.

AUSTIN—Besides resulting in Governor O'Daniel's re-election over all his opponents, the July primary also played havoc with some of the senators and representatives. Sergeant-at-arms Ernest Boyett reports that probably 80 new members will be elected to the House of Representatives. A total of 26 new ones are already

elected. Fifty old members did not run for re-election and only 51 old members have been re-elected so far. Many of the famous 56 will not be back but G. C. Morris of Greenville, leader of the 56 was re-elected. Price Daniel of Liberty, another of the 56, also was re-elected. Many of the 94 club also went down in defeat, the figure representing those who voted for S.J.R. 12.

Hotel lobbies in Austin this week were filled with legislators, oil men, and job seekers, most of the latter seeking places with one of the run-off candidates. The

race between Olin Culberson of Edna, former Hill County judge, and Pierce Brooks of Dallas for Lon Smith's place on the Railroad Commission promises to be one of the hottest run-off affairs in many years. The odds now favor Culberson, so far as general report is concerned here. Judge Culberson is thoroughly familiar with the duties of the railroad commission having been head of the Oil & Gas division for five years. His opponent has no experience whatever with public office of any kind and neither with the oil business. Judge Culberson also is widely known for his fight for lower fire insurance rates since he is secretary of the State volunteer firemen's association. Although the final report showed Brooks slightly ahead of Culberson, yet it is pointed out that Brooks led in the race for lieutenant governor two years ago only to lose out in the August run-off to Coke Stevenson.

Department Changes Coming
Inside dope here in Austin is to effect that one Adam Johnson, director of the Department of Public Welfare, will be one of the first department heads to feel the axe in the next few months. Johnson allegedly was outspoken in his support of another candidate in the recent race for governor. Also, Johnson's hard-boiled methods of administering the welfare department have been condemned by both pro-O'Daniel and anti-O'Daniel legislators and others. Liquor Administrator Bertie Ford is reliably reported as moving heaven and earth in an attempt to get a job with the Federal alcohol tax unit. Word

has gone out to employees over there to begin to look for other jobs. Colonel Ernest O. Thompson last week was "fired" by Governor O'Daniel off the Interstate Oil Compact Commission to which the governor had appointed him more than a year ago. The Colonel said he would attend meetings of that body, anyway, as a member of the Railroad Commission.

Mr. and Mrs. W. H. Kolb of Amarillo spent Sunday here with her mother, Mrs. E. O. Barnes. Mrs. Kolb before her marriage a few months ago, was Miss Lillie Jewell Barnes.

It is difficult for a human being to live with more than one-fourth of his skin area seriously damaged. That is why sunburn can be so dangerous.

George Raft and Joan Bennett Turn In Thrilling Portrayals In New Daring Modern Drama Picture

Highly emotional drama and honest-to-goodness thrills are in store for filmgoers when they witness Walter Wanger's new film production, "The House Across the Bay," which opens Wednesday at the Pastime Theatre, with George Raft and Joan Bennett heading an imposing cast of Hollywood topnotchers. This new picture not only introduces a new romantic team composed of Raft and Miss Bennett, but it brings the beautiful Miss Bennett forward in one of her most varied and exciting roles to date.

Miss Bennett, in a word, look-

ing more ravishing than ever, plays a straight dramatic role—and she does it stirring and brilliantly. In addition, the star with the brunette tresses does her first dancing on the screen—a new type of rumba which required tireless practice and intricate studio rehearsals. Miss Bennett's dancing equals her acting, which is another way of saying that the glamorous star has added another laurel to an otherwise long list.

As for George Raft, his impersonation of Steve Larwit, a latter-day gentleman of means and ambitions, is as deft as it is clever.

Joan Bennett, whose outstanding beauty has made her the most talked-of star in filmdom, as she appears in Walter Wanger's "The House Across the Bay," the new United Artists release, showing Wednesday and Thursday at the Pastime Theatre.

Raft knows how to fill his screen characterizations with life-like qualities, with punch and drama, with humor and imagination.

Others who contribute stirring and unforgettable portrayals in "The House Across the Bay" are Gladys George, Walter Pidgeon, June Knight and Lloyd Nolan. Gladys George, as a worldly-wise wife whose husband is serving a prison sentence, does an impres-

sive piece of down-to-earth acting, while Walter Pidgeon as the second male lead is a romantic hero who hasn't been typed at the studios.

Archie Mayo directed "The House Across the Bay" with tempo and rhythm, working steadily and surely to an exciting and unexpected climax which leaves the audience tense and breathless. The story is told compactly and

KIDNEY STAGNATION IS WORSE THAN CONSTIPATION!

Because We Treat Constipation at The Onset, While We Neglect Our Kidneys Indefinitely

No other organ in your body is of more importance than your kidneys. For in your kidneys there are nine million tubes which must work day and night to filter the fluids and keep the system free from wastes, acids, poisons which, if permitted to remain, may cause serious kidney and bladder troubles.

It is no wonder then that Nature often calls for help to clean out the kidneys. So if you are troubled with Getting-Up-Nights, Leg Pains, Backache, Nervous Headache, Dizziness or Loss of Energy, due to functional kidney disorder, try KIDANS, the famous kidney remedy, which aids Nature to flush out the kidneys, to filter all wastes, to prevent kidney stagnation.

Part of every Texas oil dollar finds its way INTO YOUR POCKET

EVERY merchant in our State—every business and professional man—every worker, shares in Texas oil's huge expenditures.

Many Texas cities with all their varied businesses and employment exist and prosper today because of oil.

Last year petroleum created a direct buying power in our state of 550 million dollars.

Of this, Texas retail merchants received 324 million dollars, landlords 44 million, utilities 38 million and professional men 22 million, while 83 million more went for insurance and savings.

This huge sum is distributed and redistributed in an endless chain of income for our State and its people!

Texas oil payrolls are over 60 per cent of all the wages paid to all Texas workers. Directly or indirectly, you get a part of your income from oil.

If you're a Texan, you're in the oil business.

FLAGPOLE ALL DRESSED UP ON TUESDAY

Not only Tuesday, but all days. The job of painting the 80-foot pole was done by a traveling dare-devil artist Tuesday. It did not take the man long to paint, once he was 'all set', but he dropped his bucket of paint from the top of the pole after painting about two feet of it, and had to make a trip back to earth. Climbing that pole is very little pleasure even to an expert.

Old Glory floats in the breeze during the regulation hours. The flag is kept waving as a matter of routine by the local Legion Post.

GONE TO LAKE KEMP

It looked bad for the fish when three local men took off for Lake Kemp Wednesday. Fred Buntin, Grover C. Heath and Bill Crawford made up the armada that is now sailing on the brineless deep south of Vernon.

Fifty-nine universities, foundations and government agencies were represented at the University of Texas' recent conference on war problems of the western hemisphere.

Mrs. McMurtry Improves

Mrs. Joe McMurtry, who suffered a broken knee from the kick of a horse at their ranch some three weeks ago, is now able to walk with the aid of crutches. She spent several days in St. Anthony's hospital in Amarillo following the injury.

Employed As Instructor

r. and Mrs. Lewis Wood are spending the week with relatives in Amarillo.

Mrs. H. E. Westmoreland and children, Katherin, Janice and Louise, who have been visiting her parents, Mayor and Mrs. Tom F. Connally, spent the past week with friends in Canyon and Lubbock. They left Monday for their home at Columbia, Mo.

Rain Restores Crop Prospects

Farmers Say Late Planted Crops May Be Normal

Rain began falling this morning around three o'clock. A slow fall continued to the noon hour bringing approximately three-fourths of an inch that fell slowly with most beneficial effect.

Early plantings in the main, are said to be too badly damaged from the prolonged drouth. Late cotton and feedstuffs will make a normal crop yet with adequate moisture, county agent Breedlove stated.

Many farmers have been dusting in black amber cane the past two weeks for a catch crop of roughness should late rains come. This cane crop is expected to get off to a good start on the moisture falling the past 12 hours.

The fall varied over the county, and did not extend as far west as Claude, the Leader was informed.

CONTRIBUTION TO FREEDOM

Choose any alert boy or girl who stood for anything in the class of 1940. Find out by a few friendly questions what he or she wants.

Romance! That will be the answer. Romance of choosing a career. Romance of courtship and marriage, romance of climbing the ladder of life with more income from year to year, more power, more freedom to enjoy all the things that loom large in the heart of youth.

Your alert young friend may find his first job right at hand in business or farming. Or he may elect more years of training for medicine, engineering, law, or the other professions. But the boy or girl you question knows that in our country in normal times, complete freedom of choice will be given. In America the choice of a career is entirely free.

And the boy or girl knows that this freedom is the result of the American system of free enterprise, says Nation's Business. Every career, from the presidency of our nation to similar leadership in any profession, cooperation in any institution, is open to the talents of him or her who can climb. This freedom was won for us by hosts of Americans who chose their own careers, installed as much machinery and other aids as they needed, did what selling was necessary to keep their farms and factories busy, and used whatever aids in selling were legitimate and in the public interest.

One of these aids is advertising. Advertising spreads the news and speeds up the sales of only those products and services which deserve to be speeded. Any intelligent young American, no matter what distorted or ignorant teaching he has received in school, is far smarter than those teachers and text book writers who claim that the intensive advertising of good commodities and services has been a detriment.

GREAT IN ANY TANK

and I'd be dumb not to prove it!

I wouldn't be smart if I'd lose sight of one swell way to make you my steady customer. I couldn't keep you coming here by nothing but the polish on my manners. That isn't much to you unless at the same time you notice all your swell mileage from my Conoco Bronz-z-z gasoline. You still want mileage, no matter how much like a good hotel I keep both the restrooms, and no matter how bright I always shine your windshield and windows. And I fill your radiator and tires exactly enough, but the thing you get with all the swell service at my place is good high Conoco Bronz-z-z mileage. Please don't think I'm just talking, because I sure want to give you one of the Conoco Mile-Dials free—a certified instrument, installed in half a minute, to make your Conoco Bronz-z-z gasoline prove its own true mileage. Consumers these days are wanting real dope on what they buy, and here is gasoline that gives it to you. As long as I can keep any supply, you can get your Conoco Bronz-z-z Mile-Dial here free. Drive in today.
