

Great "Boost Cotton" Sale.

Beginning Friday, Nov. 10th and Ending Saturday, c. 2nd.

This cut shows how the production and consumption of cotton begins and ends with the planter. If the farmer will increase his own purchases of cotton goods and induce his friends to do likewise, he will assist in boosting the price of cotton.

To increase the consumption of cotton is the great work that lies before the Southern farmer to-day. There is no real surplus of cotton. The so-called surplus is merely unsold stock that only needs to be properly placed on the market to be sold. There are more people to-day using the products of cotton than at any time since the dawn of history—it is also being used in more diversified ways. People use it awake and asleep from the cradle to the grave, but there are still many opportunities for widening consumption that are now developed. Should the people of the United States alone increase their purchases of cotton one dollar each, it would create an actual scarcity of cotton.

Premium Tickets.

With every 25c Cash Purchase we give you 10 per cent in tickets, good at our store, and can be spent before leaving the store.

This work should begin right now, for a dollars worth of cotton goods bought now will have more influence in advancing the price of cotton than two dollars worth bought next summer.

Read what the great papers have said about expanding the use of cotton; read what this advertisement has to say about the low price on cotton goods; then decide whether or not we are right in urging you to buy your cotton goods to-day. If you decide we are right, come to the Great "Boost Cotton" Sale, wear one of the "Boost Cotton" badges and help to show cotton buyers of the world that the South believes in cotton and has made up its mind to boost it. So come help us boost cotton.

A Splendid Idea.

A new idea in a Cough Syrup is advanced in Kennedy's Laxative Honey and Tar. Besides containing Pine Tar, Honey and other valuable remedies, it is rendered Laxative, so that its use insures a prompt and efficient evacuation of the bowels. It relaxes the nervous system, and cures all coughs, colds, croup, whooping cough, etc. A red clover blossom and the honey bee is on every bottle of the Original Laxative Cough Syrup—Kennedy's Laxative Honey and Tar. An ideal remedy for children. Mothers praise it. It is best for all. Sold by R. Phillips.

REPORTS READ.

Session Is Principally Devoted to Hearing These.
 St. Louis, Nov. 14.—Immediately after the call at the afternoon session of the American Federation of Labor President Gompers and Secretary Morrison submitted their reports. Mr. Lennon's report was also read. The report of the printers' demand for hours, Mr. Gompers' report says that the International Typographical union is in every honorable way to avoid a strike with the Typothetae, but was to do so by the autocratic action of the latter organization. He

announced the American Federation of Labor in its inception has ever been in favor of the eight-hour day. "In 1884 we proposed and urged all labor to enter into the eight-hour day, if possible, by agreement with employers. We have been helpful in establishing the eight-hour day; the hours of toil for all are reduced."
 Secretary Morrison's report summarized: Income, \$208,435.56; expenses, \$196,170.10; balance on hand in 1905, \$12,265.46; in hands of secretary, \$2000; total funds Oct. 1, 1905, \$14,265.46.
 Gompers says that during the year he has had as treasurer the sum of \$1,470,195.83.

TRIALS IN PAWNSHOP.

Requests Trial of Pistol and Blows His Brains Out.

Nov. 14.—Fred Biltersdorf, 30 years old, went into a pawnshop on Congress avenue and asked to see a Colt's pistol, saying he desired to buy it. The pawnbroker would not sell him. The weapon was returned to the establishment, placed in a box and he pulled the trigger and blew his brains out.

In answering a certified question from the First court of civil appeals at Galveston the supreme court held that nowhere in the statutes of Texas is there a provision that votes in an election shall be void or shall not be counted because of departure from rules laid down in making nominations. The governor received a letter from Governor Pennypacker of Pennsylvania requesting him to appoint delegates to a divorce congress, which will be held at Washington, D. C., Feb. 19. The purpose is to draft new divorce laws. The governor will comply.

Permit Granted.

Austin, Nov. 14.—The Braun & Ferguson company of Bisbee, Ariz., with a capital stock of \$500,000 has been granted a permit to do a general mercantile business in Texas.

CASE CONTINUED.

Barrett Will Not Be Tried at This Term of Court.

Crockett, Tex., Nov. 14.—The case of W. S. Barrett, who is charged with criminal assault and incest, his stepdaughter, Cora Wright, being the victim was continued for the term.

This case was transferred to the district court convened at this place from Nacogdoches county, where the offense is alleged to have been committed. It will be remembered that a prominent citizen of Angelina county now stands charged by indictment with criminal assault on the person of the same girl, Cora Wright, which case is now pending in the district court of Nacogdoches county. The girl is fourteen years of age and all the parties concerned are white.

DEAD ON STEPS.

Body of a Merchant Found in Front of His Establishment.

Tyler, Tex., Nov. 14.—J. W. Mink, a merchant of White House, was found dead on the steps of his store Sunday night.

Deceased had been as well as usual during the day, ate a hearty dinner, and late in the evening went to his store for some purpose. The door was found unlocked and they key in the hand of the dead man, presumably he having fallen dead as he was coming out of the store.

STRANGE ADVICE!

Dr. G. G. Green gives alert personal attention to his great humanitarian contract.

In our Almanac for many years past we have given unusual advice to those afflicted with coughs, colds, throat or lung troubles or consumption. We have told them if they did not receive any special benefit after the use of one 75-cent size bottle of German Syrup, to consult their doctor. We did not ask them or urge them to use a large number of bottles, as is the case in the advertising of many other remedies. Our confidence in German Syrup makes it possible for us to give such advice. We know by the experience of over 35 years that one 75-cent bottle of German Syrup will speedily relieve or cure the worst coughs, colds, bronchial or lung troubles—and that, even in bad cases of consumption, one large bottle of German Syrup will work wonders. New trial bottles, 25c.; regular size, 75c. At all druggists.

the International and Great Northern railroad, was the victim of a fatal accident.

It is stated that Uhrick boy and others were playing on the track when a freight train came along and the boys began jumping upon and off the train, and the lad fell between the cars and both legs were cut off at the thigh.

A Diffident Lecturer.

Probably the most popular person on the lecture platform in Germany today is Professor Haeckel. Yet he makes no claim to being an orator. In the preface to his latest volume, containing his Berlin lectures, which created such a sensation, he declares that nature has denied him the gift of eloquent speech and that, although he has taught eighty-eight semesters at the University of Jena, he has never been able to overcome a certain timidity in appearing before an audience. For this reason he has seldom attended meetings of naturalists.

A Lucky Patient.

Lord Charles Beresford, feeling rather ill, once sent for Sir Frederic Treves, the great surgeon. Lord Charles began to describe his aches and pains. He was continually interrupted by Sir Frederic with "Capital!" and "Excellent!" Lord Charles was at a loss to understand this enthusiasm at his expense, and was astonished when, having completed his tale of woe, Sir Frederic ejaculated: "How fortunate you are! Let me congratulate you. You are the lucky possessor of one of the rarest complaints we know of one of the rarest complaints we know which we had actually thought to be extinct!" Lord Charles was afterward relieved to find that the trouble was as harmless as it was unique.

Ordinance For
Ownership.

THREE PLANS

First Calls For Purchase by Arbitration; Second, by Condemnation, and Third, Construction of Lines.

Chicago, Nov. 14.—Another ordinance providing for steps to secure municipal ownership of the street railways in Chicago was submitted to the city council Monday night by Mayor Dunne. The ordinance was accompanied by a message to the aldermen which gave three days, in which Mayor Dunne asserts he will be able to bring about municipal ownership. The first plan is by reaching an agreement with the traction companies by which their properties would be transferred to the city at a price to be decided upon by an arbitrator. The second is by condemnation of the property of the street railway companies under the provisions of the Mueller act. The third method is the one which Mayor Dunne has already presented as an alternative to his contract plan. It is for the construction of municipal street railway lines which will parallel the lines of the existing companies. The ordinance which accompanied the message from the mayor asked that authority be given to place on the ballots at the spring election the question whether the city shall issue the Mueller bill certificates to the amount of \$75,000,000.

This sum, it is declared by the mayor, is needed for the reconstruction of the lines and for the purchase of the unexpired franchise rights of the existing companies. The message and the ordinance were referred to the committee on local transportation, the same fate as that which met the other proposition submitted to the council by the mayor in regard to the municipalization of the Chicago street railways. Another ordinance submitted by the mayor was for the regulation of gas and electric light rates. This ordinance which provides for cheaper gas was referred to the committee on gas, oil and electric lights.

DOCTOR JAILED.

Charged With Having Performed Operation on a Girl.

Norfolk, Va., Nov. 14.—Dr. L. R. Chiles, aged sixty-eight years, one of Norfolk's most prominent physicians, was committed to jail without bond upon the charge of having performed an operation, from the effects of which Miss Sarah Atkinson, aged twenty-four years, is now reported to be dying in the Norfolk Protestant hospital. James T. Franklin, aged twenty-five years, formerly from Bedford county, Virginia, and a car inspector in the employ of the Norfolk and Western railroad, arrested on a charge of aiding and abetting in the alleged crime, was bailed in the sum of \$1500 for his appearance in court ten days hence. Miss Atkinson, in an ante-mortem statement, first refused to divulge the name of Franklin, but in the end accused the latter and declared that it was at the residence of Dr. Chiles that the operation was performed. Dr. Chiles declined to make a statement. He is in a highly nervous condition and fears are felt for him on account of an affection of the heart. Franklin denies his guilt, but admits visits to Miss Atkinson for two years.

NATHAN DISCHARGED.

Grand Jury Failed to Find an Indictment Again Him.

Boston, Nov. 14.—Morris Nathan who was arrested two weeks ago in Pittsburg in connection with the death in this city of Susanna Geary, the Cambridge chorus girl, was given his freedom in the municipal court. The reason for this action was that the grand jury, which has considered all the phases growing out of the Geary girl's death, and which indicted four persons, failed to find any indictment against him. Nathan was subpoenaed to appear at the trial of the persons who have been indicted as one of the important witnesses. The general charge of abortion against Dr. Percy D. McLeod was quashed in the district court, since the grand jury already disposed of the case by reaching an indictment charging accessory before and after the fact in the death of Miss Geary.

SAVED BY POLICE.

Whits Man Accused of Assaulting Negro Girl Has Close Call.

Atlanta, Nov. 14.—Suspected of having committed criminal assault on a five year old negro girl, R. Z. Justice, a white farmer residing near Decatur, narrowly escaped lynching here at the hands of a mob of more than 1000 frenzied negroes. Justice was rescued by the police. He protested his innocence when taken to the police station. The police and many negroes who were in the vicinity of the scene of the alleged crime have declared their belief in the innocence of Justice and declare that an innocent man came near meeting his death.

SON CHIEF CLERK.

State Treasurer Robbins Fills Place of Major Roberdeau.

Austin, Nov. 13.—State Treasurer Robbins announced the appointment of his son, Brown Robbins, to be chief clerk of the treasury department, succeeding Major Roger Roberdeau, resigned. R. C. Lomax, assistant chief bookkeeper, succeeds Brown Robbins as chief bookkeeper. H. A. Turner succeeds Lomax as assistant chief bookkeeper. Wallace English succeeds Turner, and Arthur Taylor of Amarillo was appointed to succeed English. Taylor is the only new appointee; all others are now employees of the department. Each of those promoted get an increase of salary, effective Nov. 15.

LAST BULLET KILLED.

Negro Fires Five Fruitless Shots at Spouse, Then Suicides.

Houston, Nov. 13.—Terry Rogers, colored, Monday morning walked into the Texas-Kentucky saloon, pulled off his coat and vest, then pulled a six-shooter, placed it to his temple and blew out his brains. He committed the act to escape the police, who were trailing him. Rogers shortly before suiciding had fired five shots at his wife, but missed her. This is the first instance of a negro suiciding on record at Houston.

No-Tsu-Oh carnival opened with threatening weather, but with the city full of people. All excursion lines came heavily loaded.

NOT JOHN MARTIN.

Note Left by Suicide Said That Name Was Good Enough.

Fort Worth, Nov. 13.—An unknown man was found Monday morning dead hanging to the end of a rope dangling from a second story window of a rooming house on Fifteenth street. The man tied a rope to a pair of scissors, which were placed crosswise in a chimney flue. He carefully tied the other end of the rope around his neck and leaped out of the window. He left a note in which the suicide said his name was not John Martin, but that name would do as well as any other.

EXPERIMENTAL FARM.

Department of Agriculture Will Raise Crops by Irrigation.

Wichita Falls, Tex., Nov. 9.—Dr. Elwood Meade, irrigation expert of the agricultural department at Washington, has wired J. A. Kemp that an experimental farm has been established near Wichita Falls and that F. W. Roeding of Cheyenne, Wyo., has been directed to make a soil examination preparatory to locating the farm. The department will expend not less than \$3000 a year raising crops by irrigation. This is the consummation of Mr. Kemp's untiring efforts in behalf of the irrigation farmers.

"YES," WROTE SHE.

Texas Traveled One Thousand Miles to Wed His Sweetheart.

Cincinnati, Nov. 13.—H. H. Worthington traveled more than 1000 miles to be secretly married here to the sweetheart of his schoolboy days, Miss Estle L. Anderson, of East Monroe, O. Mr. Worthington is a resident of Lancaster, Tex., and did most of his courting by mail. As soon as Miss Anderson answered "Yes," in one of her letters he wired that he would meet her in Cincinnati. When he arrived Saturday night, they found they were unable to get a license here because of the non-residence of the bride. A friend directed them to Covington, Ky., just across the river, where the laws are more lax, and they secured the document, enjoining the clerk to "keep it dark." A justice of the peace performed the ceremony here Sunday.

SLEW MRS. STEDMAN.

Wife of Railroad Agent Killed by a Couple of Desperaters.

Lawton, Nov. 13.—Two negro men Sunday night entered the Rock Island railway depot at Binger, broke into the money till and secured several dollars. Mrs. Stedman, wife of the agent, was awakened by the noise. She arose in bed and screamed. One of the robbers fired at the lady with a revolver, killing her instantly. Both men made their escape. Mr. Sedman and one of the robbers exchanged shots. A large posse started in pursuit.

FORTY-FIVE INDICTED.

Charge Is Inciting a Riot to Get Rid of Negro Cotton Pickers.

Lawton, Nov. 13.—The grand jury of Greer county has returned indictments against forty-five men in the vicinity of Ladessa and Blake. They are charged with inciting a riot to get rid of negro cotton pickers. Thirty-nine men were brought before Judge Irwin at Mangum. Ten pleaded guilty and were fined. Resolutions passed at mass meetings in several neighborhoods created a race war that came near causing loss of life. The sentiment against negro cotton pickers is strong.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Gates is a Good Spender.

Report has it that John W. Gates is making all the other plungers at Saratoga look small. Gates thinks and acts in thousands where the average man does tie same things in dollar bills. He hardly recognizes small change when he sees it. His bets at the races are all up in three figures, he pays a dollar for a shave, and tosses another dollar to the boy who shines his shoes. He buys a good dinner for a large party at a time and gives the biggest tips ever heard of. The chances are that even with his big expense he will break even or better on the present meet. At present he is away ahead of the game.

Maceo Runs an Elevator.

Antonio Maceo, son of the Cuban general, is running one of the six elevators in the University block in Syracuse, N. Y., a position provided for him by Syracuse University for the summer. He went there a year ago from Cornell University to take an engineering course. Mr. Maceo was sent here to be educated by the Cuban government. Being unable to secure a position as a draughtsman, he accepted one as elevator boy. He will re-enter college in the fall.

Father John, of Cronstadt.

Father John of Cronstadt, who has such extraordinary influence with the czar, is 86 years old. In personality he answers the description of the average Russian peasant, only in his case abstemiousness has wrought a refining effect on his features. He is short of stature, with a somewhat florid complexion, and his small, twinkling gray eyes have that furtive appearance characteristic of the Russian working class. In spite of his great age he is remarkably active, and his long, brown hair is untouched with silver.

Mrs. Carnegie Cooks.

Few persons outside the Carnegie household have any idea of Mrs. Carnegie's solicitude for the material comforts of her husband. In past years the laird of Skibo looked after all sorts of minor business details, but lately his faithful spouse has relieved him of much worry in that direction. With her own hands she cooks the morning dish of oatmeal, and she must do this by 7 o'clock, for Mr. Carnegie is always out and about by 7:30.

Entered at the postoffice at Baird, Texas, as second class mail matter.

Civic righteousness is a good thing, so many politicians in the land are trying to push it along with the hope that later they may get aboard the band wagon and ride into office.

The Greek Church is directly responsible for the horrors that Russia is passing through. For a century the church has resisted every effort to give the people of Russia a voice in their own government.

What particular benefit are the five Civil Courts of Appeals to the average citizen, is a question often asked, but never answered satisfactorily to the litigants or the tax-payers that foot the bills.

Honesty is the best policy in the long run. That old saying that honesty is the best policy, but keeps a man poor has made a thief of many a man. The latter saying is false and should be frowned down.

Intemperance is a great evil, but not the only evil in the land by any means. Dishonesty and graft in public and private life is not always caused by the love of drink. Some of the biggest and slickest rascals in the country do not drink at all.

The wholesale murder of the Jews in Russia is said to make the St. Bartholomew massacre in France insignificant. France paid dearly for that inhuman outrage as she will pay for a greater crime against humanity? She certainly will if justice has not fled the earth. The wholesale murder of the Jews in Russia the past few weeks is one of the darkest and bloody history of that country. The world shudders at the revolting pages of the black and bloody record made by the people of Russia, of whom perhaps, con-outrages, but will the name of an avenging God.

The way the Russian people treated the Jews it was license, they wanted. The outbreak upon the helpless people of the darkest stains in history, which is black all conscience. The world Russian people will secure liberal government, some have never had, but a people must deserve freedom. The helpless people because of their race does not indicate people of Russia deserve concessions the Czar was forced to concede to them after the Jews was hor- extreme.

Senators dispatch says: "Senator for F. F. Hill of Deny for lieutenant governor, in the house for sever.

He was of that famous which investigated the oil question and he for the Senator. When is for Senator was called ill made the most brilliant heard in favor of a man, for Senator Bailey's. It that Mr. Hill distinguished a white-washer, roamed with Socrates and with Euripides in behalf of Mr. Bailey, the latter is certainly under obligations to support him for lieutenant governor. Mr. Bailey being for him, and Mr. Hill having been a member of the 'famous' whitewashing legislature, leaves nothing more to be said in his behalf? The esteemed Fort Worth Record may frame another border around an announcement that the contest for lieutenant governor is ended in favor of Mr. Hill, of Denton. —Breckenridge Democrat.

Rev. Dr. Talmage gives the following sensible reasons why skepticism exists among newspaper men: "One of the greatest trials of the newspaper profession is that its members are compelled to see more of the world than other professions. Through all newspaper offices, day after day, passes all the wickedness of the world, all church bickering, all vanities that want to be repaired, all the mistakes that want to be corrected, all the dull speakers that want to be eloquent, all the meanness that wants to get its name noticed gratis in its columns, in order to save the tax advertising columns; all the men that want to be set right; all the crack brained philosophers with stories as long as their hair and as gloomy as their faces. Through editorial and reportorial rooms all the follies of the world are seen, day after day, and temptation is to believe in neither God nor man. It is no surprise to me that in this profession there are skeptics. I only wonder that journalists believe anything.

We are under obligations to Editor Crayton, of the Taylor County News for a supply of paper for this issue, otherwise THE STAR would have been delayed a day at least. An order for paper that for some cause was unusually delayed caused the trouble and for this reason we did not publish the two extra pages we intended. A number of articles in type are again left out for want of room, but hope to straighten out matters next week.

Bargains in second hand buggies. C. S. Boyles. 50-4

One of the most unfair and most one-sided laws on the statute books is the Sunday law. Now don't get excited and jump to the conclusion that THE STAR is opposed to the law, because it is not, that is a just law, and that is what the present law is not. Why not make the buyer equally guilty with the seller? To make one party to a transaction guilty of a crime, while the other goes scot-free it not founded in either common sense, equity or justice. THE STAR is in favor of amending the Sunday law so as to make the buyer equally guilty with the seller and then you will have a just law and Sunday violations will not be so frequent. We have never heard one iota of real argument in favor of the present one-sided Sunday law. Have you? Did it ever occur to you that a man who will hunt up a merchant or saloon keeper and plead with him to let him have what he wants in violation of the Sunday law is morally more guilty, if there is any guilt attached to Sunday trading, than the man who sells the merchandise or booze? If there is no difference morally between a buyer and a seller then why punish one and not the other?

DETAINED ON LUNACY CHARGE.

Rev. C. W. Byron, known all over this section as "the Clown preacher" was this morning placed in the hospital ward of the county jail, where he will be held pending a trial for lunacy. Byron held two meetings in the district court room here Sunday, afternoon and night, at which time he seemed to be of sound mind, but unusually nervous. On Monday he formed the acquaintance of a man who was selling small articles and notions on the public square. That night Byron was the guest of the street salesman at the hotel.

On Tuesday morning Byron's speech and actions were peculiar. He was taken to his home, by friends who believed that he had been persuaded to drink something which produced the wild hallucinations. This proved not to be a tact, however, as the unfortunate man continued to grow worse, and although he had committed no rash act, it was deemed best to have him locked up; hence he was brought in and turned over to the county officers.

His hallucinations are many and varied, the chiefest of which however, is that he is a skilled and scientific workman in steel and brass something he knows absolutely nothing about.

Byron is about 40 or 45 years of age and has a family. —Weatherford Herald.

DISTRICT COURT.

Court convened Monday morning and the first case called was Sam Newcomb charged with the murder of T. N. Baker in Shackelford county last September and transferred to this county for trial. A special venire was summoned to appear Monday from which the following jury was selected to try the case, to wit:

- W. J. Ringer. W. M. Isenhower. J. H. Johnson. J. M. Rouse. G. S. Reed. R. T. Fleming. C. H. Jackson. W. B. Dodds. C. L. Peak. Z. H. Wilkey. Henry Austin. J. L. Ashabranner.

The regular jury for this week was discharged Monday as probably most of the week will be taken up with the Newcomb case.

The following attorneys are employed in the case:

For the State:—W. J. Cunningham District Attorney; Sam Webb, Judge A. A. Clark, T. A. King, Albany.

For the Defense:—T. L. Blanton, Albany, B. D. Shropshire, Fort Worth, C. H. Steele, Anson.

Every inch of ground is being contested. A host of witnesses both for the State and Defendant from Shackelford county are present and at this time, Thursday morning, they are still examining witnesses.

OPHTHALMOLOGIST & NEUROLOGIST.

An optician is anyone who sells a pair of spectacles. An oculist, nine times in ten, is a make-believe; he wishes to be viewed with a superstitious awe; he knows but very little about the causative factors eyes are to human ills; he prefers being considered a professional mystery, he claims a knowledge of medicine is necessary in scientifically fitting glasses, which only exposes his criminal ignorance or base dishonesty, or both, which I am able to prove is incorrect.

If one calls on you to explain to you the difference between an oculist and an ophthalmologist and neurologist, he classes him as a vernal spec vendor, owing to his lack of up-to-date knowledge and base untruthfulness.

An ophthalmologist and neuralogist is the master mechanic of the human body. He should be chosen before others, because he traces effects to causes, and removes eighty-five per cent of causes of ills without mystery medicine or surgery. He knows most all so-called diseases are only functional troubles and how to find the organ causing them and how to remove the cause, and nature does the rest. He prescribes from a positive analysis, taking things as they actually are, and not as he thinks they ought to be. He knows that real eye disease is almost as scarce as frog hair, and is backed by the very best authorities in this country and Europe.

He particularly requests the people to demand that the so-called oculist and Ophthalmologist and Neurologist back up their claims either by practice or modern authorities or quit the community. Now then will you either put up or hush up, or at least try to be good. 50-1 DR. E. SANDFORD, Ophthalmologist and Neurologist.

HANG AT HENDERSON.

Negroes Charged With Murder Are Lynched Sunday.

SWUNG TO SYCAMORE

Mob Broke Into Jail and Got Four Prisoners, but Placed One Back in Cell Who Confessed, Implicating the Rest.

Henderson, Tex., Nov. 13.—Despite the pleas and vigorous resistance of Sheriff Stone, also appeals of others to permit the law to prevail, a mob broke open the doors early Sunday morning of the jail and took charge of four negroes named Williams, Reese, Sherrow and Askew. After listening to the sheriff, County Judge Moore, Senator Brackenfield and R. T. Brown ten young men seized the officers and proceeded with hammers and chisels to tear down the jail doors, which they did in thirty minutes. Reaching the prisoners, ropes were placed around their necks. The men were then permitted to make statements. All asserted their innocence except Williams, who confessed the murder of Henry Howell, implicating John Reese, Henry Sherrow and Robert Askew. By unanimous vote Williams was placed back in his cell.

The three negroes were taken to the court house square and hanged to a sycamore tree. The bodies were then placed in the court house corridor. Not a pistol shot was fired, nor an oath uttered.

About 11 o'clock on the night of the 6th four negroes went to the home of Elias Howell, eleven miles north of here, an old bachelor, living alone. One stood guard while the others broke in the door with an axe, striking him several times on the head with this instrument, cutting his throat and otherwise mutilating him. They found \$40, but overlooked \$100. They tried to burn the house, but failed, completely demolishing the household household goods, however. The body was not discovered for forty-eight hours. The four negroes assaulted in the burial. The only clue the officers had to work on was one negro wore a lady's shoe and a man's shoe.

Mr. Howell has a niece in Alabama. The negro who made the confession stated that they had planned the murder and robbery for several days, and had taken the "black oath."

TEXAS' TAXABLE VALUES.

Increase For Past Year Exceeds Over Fifty Million Dollars.

Austin, Nov. 13.—Total valuation of property in Texas for the fiscal year ending Aug. 31, 1905, is \$1,139,032,302, against \$1,082,779,775 the previous year, showing an increase of \$56,252,527 for 1905. Increase is principally in larger cities.

While there is a most flattering increase in the wealth of the state for the past year, there has been a decrease in the occupation taxes collected for 1905 is \$921,430 against \$940,479 for 1904, showing a decrease for the year 1905 of \$19,076. The decrease on whisky and beer licenses was \$39,500, this being due to the great number of counties which have gone dry and local option prevails. The biggest increases noted in occupation taxes was on billiard tables, the increase being \$3284 over 1904. In 1904 there were 659 billiard tables in Texas upon which a tax of \$20 each was being made, and in 1905 this number increased to 823.

The next biggest increase was in eleventh class merchants. This class is the ordinary merchants who pay an annual occupation tax of \$3. In 1904 there were 14,528 of this class of merchants against 13,342 in 1905, and the tax for 1905 is \$40,026 against \$31,784 for 1904.

Lawyer Sent to Jail and Jurors Engaged in Altercation.

Houston, Nov. 13.—During the trial of Jessie Mercer, a young Creole of much beauty, charged with disturbing the peace, her lawyer, a young man, claimed his client had been surrounded with immoral environments, and asked that the jury be merciful with her. Judge Kerlick objected to the lawyer's remarks, and ordered him jailed. When the jury got the case the foreman and others agreed with the attorney. A fight resulted and several jurors were hit and furniture smashed. The girl was dismissed.

CHEATHAM CRITICISES

Secretary of Southern Cotton Association Displeased.

WILSON IS ROASTED

Declares That It Is a Piece of Spite Work, an Attempt to Get Even, and Predicts an Upreaval in Department.

New York, Nov. 13.—Richard Cheatham of Atlanta, Ga., secretary of the Southern Cotton association, and who uncovered the disclosures being made in the government cotton crop reports, whereby officials and speculators were using advance information to buy or bear the cotton market, is quoted by the Herald as having severely criticised the report of the cotton crop issued Friday from Washington, in which the condition of the crop on Nov. 1 was stated to be 68.8.

Mr. Cheatham, who is stopping in the city, said among other things: "The most absurd piece of spite work ever attempted was the issuing of the crop report Friday by Mr. Wilson, the secretary of agriculture. In this report he announced the 'condition' at 68.8. Now there is no sane man who ever saw a cotton stalk who does not know that on Nov. 1 and Nov. 10 it is not only far beyond the fruiting or bearing stage, but in nearly every case is entirely void of foliage of every kind. It has passed far beyond the increasing stage. Its condition, so far as conditions are recognized in reports, is the same as on Oct. 1 previously. For Secretary Wilson to make a report on 'condition' of Nov. 1 is to assist in the operations of the bear speculators to hammer down the price of cotton."

"I say to Mr. Wilson, 'shame, shame, shame' on him and the men who assisted him in this attempt at spite work against the cotton producers of the south. It is a final effort to 'get even,' and the attempt will result in sure discomfiture for the department of agriculture before the next congress is far advanced. That there will be an investigation of this department by congress and an uncovering of matters now concealed by which all previous disclosures will pale into insignificance I do not for an instant doubt."

The Southern Cotton association in its bulletin of the crop, issued Oct. 31, estimated the crop for 1905 at 9,444,314 bales, a smaller production than Friday's estimate of 68.8 would produce.

URGED TO ATTEND.

Farmers, Merchants and Bankers Asked to Be at Meetings.

Atlanta, Nov. 11.—President Jordan of the Southern Cotton association issued the following:

The annual re-organization and reelection of all the officers of the Southern Cotton association in all of the cotton growing counties and parishes is near at hand. The election of officers and delegates for all the civil subdivisions, townships, militia districts and school precincts, as they are differently termed in the several states, will take place on the first Saturday in December. Farmers, merchants and bankers are urgently requested to meet on that day at their local meeting points in the various sections of the county and choose from one to five delegates to represent them in their county organization. The county or parish meeting will be held at the county site on Dec. 9, or the following Saturday. These delegates will then perfect their county organization by the election of officers and the selection of from one to three delegates to represent their county or parish at the general state meetings. The state meetings will be held at the different state capitals on Jan. 3, and the delegates so chosen by the county organizations on Dec. 9 will elect their state officers for 1906, and also the members of the executive committee of the Southern Cotton association on the same basis of representation as for 1905. The executive committee of the national organization so chosen will meet at Hot Springs, Ark., on the third Tuesday in May, 1906.

Farmers throughout the cotton belt are urged to promptly attend this call on the first Saturday in December and get the machinery of the local organization in motion. Follow the different meetings up and let the association go on a sound, systematic and substantial basis. Members of the Farmers' union and other organizations are cordially and earnestly invited to join the association that every farmer in the south may co-operate shoulder to shoulder for the one purpose of handling the great staple crop of the south at profitable prices to the producers.

JORDAN SATISFIED.

Says Wilson's Cotton Estimate is Accurate and Trustworthy.

Atlanta, Nov. 14.—President Jordan of the Southern Cotton association in an interview Monday says: "The open declaration of Secretary Wilson of the department of agriculture in his recent condition report of 68.8 is accurate and trustworthy, and shows the year's crop will be in the neighborhood of only 9,000,000 bales. This should knock out

all high estimates and put everybody down on a working basis of a short crop. Secretary Wilson's estimate confirms the report made by this association some time ago, predicting a crop of about 10,000,000 bales. As this report is confirmed by accurate information from the two most reliable sources unquestioned, he remainder of the crop now in the hands of the planters should not be marketed for less than 15 cents per pound. I shall at once issue a proclamation advising this course."

Bureau Was a Burro.

There was a time when Senator Elkins of West Virginia was a hustling young freight agent in New Mexico. His office was a box car and his principal troubles were in making his receipts of freight tally with his bills of lading. One day he had a carload of household furniture switched to his siding. The seal of the car door was quickly broken, as young Elkins then, as now, always liked to keep up with his work. He was greeted with the bray of an ass as the door slipped back on its rollers. The bill of lading was at once scanned, but there was nothing to show that the animal should be a passenger on this particular car. The goods were all checked out and then Elkins wired the general office thus: "I am a bureau short and a jackass long on this carload of furniture." After a little delay the answer came: "All O. K. The bureau is a burro."

Decoration for Mikado.

The famous British Order of the Garter has so far been conferred on only one Oriental ruler, viz, the Shah of Persia. Before long, however, it will be bestowed on the Emperor of Japan, between whose country and Great Britain the closest relations now exist. It is the present intention to have the Prince and Princess of Wales, at the end of their visit to India, sail in a great warship to Japan, bearing the coveted decoration with them.

BALLARD'S SNOW LINIMENT

READ THIS REMARKABLE CURE

"I was much afflicted with rheumatism, writes Ed. C. Nud, Iowaville, Sedgwick Co., Kansas, 'going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, and am able to perform a great deal of light labor on the farm.'"

Empress' Humble Cottage.

The German empress usually spends her summers at Kadinen, on the northeast coast of Prussia. Kadinen is such a small village that its railway station is simply a waiting room; tickets have to be bought on the train. The royal residence is a plain, two-story cottage, so small that the emperor, who prefers to spend his summers on his yacht, never remains more than a few hours. From the park adjoining the house one gets fine views of the Danziger bay. Near the park there is to be seen a botanic curiosity—a far famed oak tree which is more than 1000 years old. Its spacious trunk has been hollowed out and provided with windows and a table, on which a game of skat is occasionally played by the natives.

Aged Physician's Advice.

A famous physician, now hale and handsome at 75, sums up his half century of medical practice and observation in this simple rules of health: "Be temperate in all things, in matters of amusement or study as well as in regard to foods and drinks. To be temperate in all things, however, does not imply that one must be a prohibitionist about anything. Don't be afraid to go to sleep, for sleep is the best restorer of wasted energies. Sleep a certain number of hours every night, and then remember that a short nap during the day is a safer rejuvenator than a—cocktail. Don't worry either about the past or the future. To waste a single hour in the regretful past is as senseless as to send good money after that which has been irrecoverably lost."

Rosen's Modesty.

They tell a story about the modesty of Baron Rosen, the new Russian ambassador. Wishing at one time to make friends with some Japanese, he paid court to their wives and one Japanese lady showing interest in European dress, he ordered for her a complete outfit, with every garment included, and directions as to the order in which they were to be put on, he being too modest to suggest. In some way the gown got on top and the other garments beneath. Following directions, Mme. Chrysanthemum put the gown on first, and the other garments on top of it, making a very peculiar combination, to say the least.

A Royal Milkmaid.

Lord Carew, the English nobleman, is a farmer of renown and owns a herd of Jerseys of rare strain and milk-giving qualities. It is Lady Carew's delight to go, milkmaid fashion, in short skirt and low cut bodice, and fill a bright tin pail with the creamy yield. She is an expert milker and can put many of the dairy maids to blush in rapidity and in obtaining milk from the most fractious cow of the herd. Of course, it is pure sport for her ladyship, and nothing pleases her more than to invite aristocratic friends to watch her as she plays the part of milkmaid.

THE WIFE BEHIND THE URN.

There's a man behind the capital,
The man behind the gun,
The man behind the enterprise,
The man behind the son.
Though all-important they may be,
I quit them and return
To her who cheers my home for me—
The wife behind the urn.

What though the frenzied financiers
Do tear each other down;
I leave my struggles, cares and fears
Behind me in the town.
For splendors and the gauds of pride
I'll never, never yearn,
No other gift can rank beside
The wife behind the urn.

The wind may shake the window-pane
And boofie in the flue;
Our roof can shed the driving rain,
Our love sheds trouble, too.
With CHASE & SANBORN'S coffee, dear,
True comfort do we learn;
I pledge you in its fragrant cheer—
The wife behind the urn.

BAD WRECK.

The excursion train that left Baird early last Saturday morning for the Dallas Fair was wrecked about two miles east of Aledo at 9:30 Saturday morning, in which one man was instantly killed and several dangerously wounded, two of whom have since died. The train was crowded when it passed Baird and every station east added more to the already overcrowded train. There were 15 coaches at the time of the wreck. At Aledo a freight engine with its crew was put in front of the train to assist in pulling over the divide. A box car was placed between the two engines, the freight engine was running backwards, which many believe caused the wreck. About two miles east of Aledo the freight engine tender jumped the track and a frightful wreck was the result. Both engines were ditched, the box car was smashed into kindling, the baggage and mail cars and one chair car were ditched, chair car put on at Eastland. The balance of the train did not leave the track but one car was partially telescoped away back in the train. Killed, Luther Wilson fireman on freight engine. Injured, George Corpeny, freight conductor, and L. C. Swick, freight engineer. Both died Sunday. Not seriously injured, R. B. McKinney, brakeman; A. L. Tomlinson, brakeman and Ed Schewerck, passenger engineer.

All the passengers were more or less shaken up, but none dangerously hurt, which is remarkable.

There were about seventy people from Baird on the ill-fated train, and were in the second coach from the chair car that left the track. None of the Baird people were seriously hurt. Dock Ramsey was perhaps hurt most, having been thrown backwards over a seat. It is a wonder that many passengers were not killed, but it is bad enough as it is.

Every effort was made to aid the wounded by the physicians and others on the train. There were several physicians on the train including Dr. R. G. Powell, local surgeon of the T. & P. at Baird. Some of the trainmen were frightfully scalded and presented a pitiable appearance, and suffered untold agony. Luther Wilson was caught under his engine and instantly killed.

It was the first wreck most of the passengers were ever in and many stories could be related, some pathetic and some amusing, but space forbids. Mayor Russell, Jno. Woods, Dock Ramsey, George Scott and J. H. Walker, foreman of THE STAR office, were all standing up in the

coach in which the Baird people were. They felt a sudden jolt then two more and all was over. Jno. Woods says at the first jolt of the train he could see the section men running away from the track, when he realized that something serious was in store for them. Some think the rails spread which caused the wreck, others say according to what the section men say the tender of the freight engine jumped the track and caused the wreck, but the real cause may never be known. It was the worst wreck of a passenger train, perhaps, that ever occurred on this division of the T. & P.

CALLAHAN COUNTY AT THE FAIR

Callahan County is indebted to S. H. French for having the best agricultural and horticultural exhibit at the Dallas Fair. Mr. French, ably assisted by his two daughters, Misses Jeffie and Ruth, made the best exhibit ever seen at the Dallas Fair and all the assistance they received was made up by the Baird Commercial Club from citizens of Baird. Mr. French took 48 premiums all, or about all, that were offered in his line. French says he took every thing in sight except the Fair Buildings and Fair official, did not want them as he could not use either. Mr. French says lots of people told him they were coming to Callahan County to see for themselves. There is no doubt that Mr. French's exhibit at Dallas will be worth thousands of dollars to the town and county. The editor of THE STAR had a hard time raising the small amount Mr. French requested and we are grateful to know that the money was well spent. We heard more from Mr. French's exhibit from others than from him. All who saw it said it was the finest exhibit of the kind ever seen at the Fair.

Elba Kendrick, of Eagle Cove, had a rather unexpected encounter with a would be bad man on the Dallas Fair excursion last Saturday. On the return at Fort Worth, a man pulled him off the steps of the car as he was trying to get aboard, and Elba returned the complement by pulling his assailant off, who drew a knife and proceeded to make things lively for a time. The train was so crowded that the only thing Elba could do was to land on his antagonist with his fist, which he did so effectually that he knocked him down and the train pulled out before the scrapper could recover his wind. Elba had his coat cut in three places on his left breast, but the knife did not reach the skin.
