Masa Plant Trial Run Scheduled Monday

Boost To Local Economy Possible

Since ground-breaking ceremonies for Valley Grain Products' new Masa Plant in late June of 1982, that particular section of Bailey County countryside has been a virtual beehive of activities. Actual construction on the building began on July 12, 1982. These activities will all come to a head on Monday, May 23 when the Valley Grain Masa Plant begins its first operations with a trial-testing run.

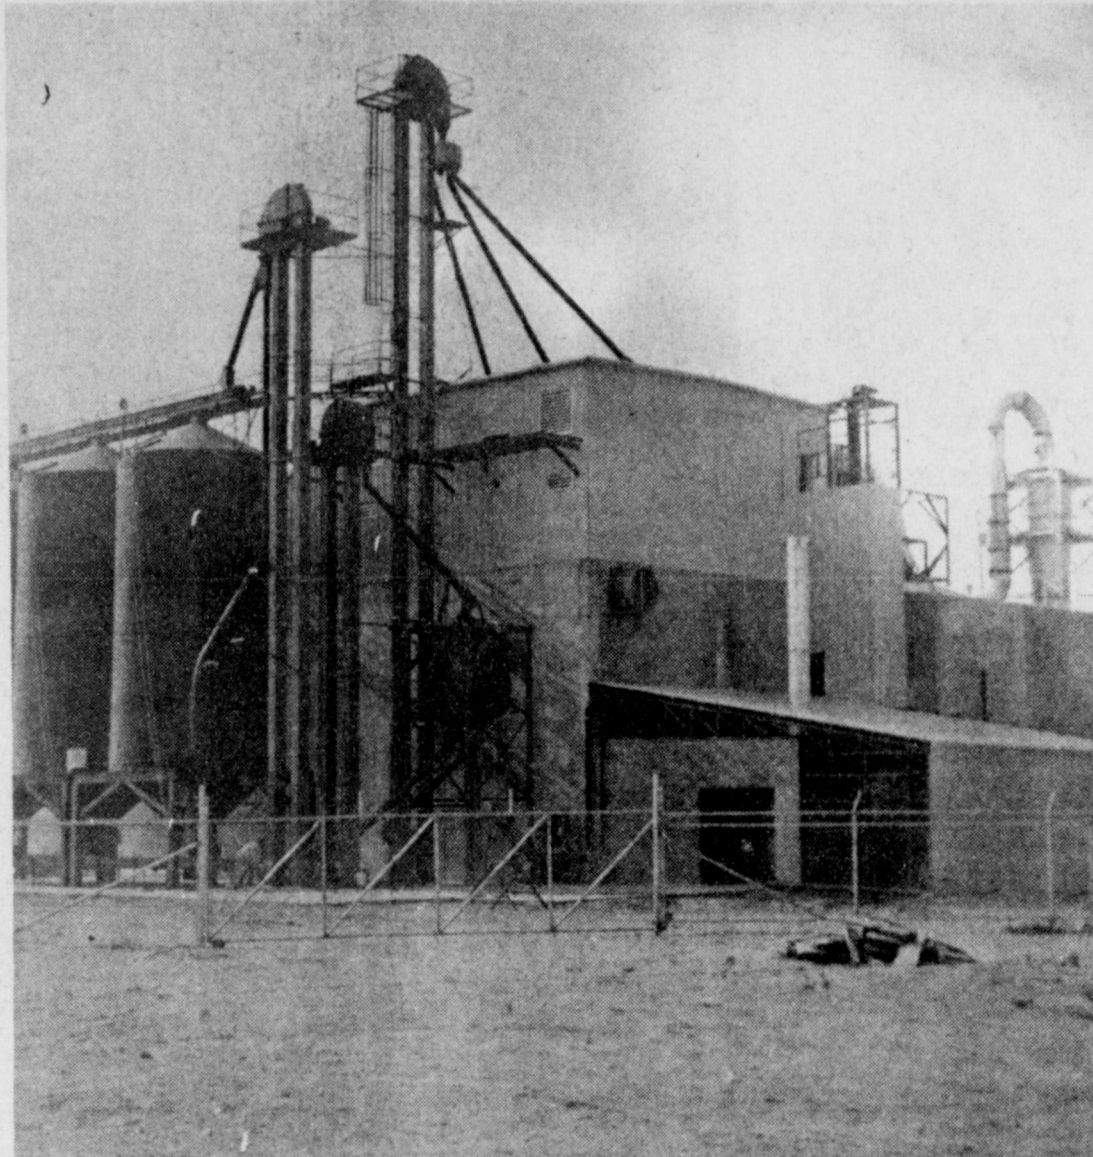

Jack Griffin, Masa Plant Manager, told the Journal Friday that "everything goes according to expectations, the plant will be nearing full scale capacity within the next 30 to 60 days." Griffin, who came to Mulleshoe from Valley Grain's California operations will be assisted in his managerial duties by Doug Row, who is also a California transplant. The original Valley Grain Products and the Masa Plant will be run as entirely separate operations.

What may be a boost to local and area economy, other than the job opportunity aspect, will be the fact that Valley Grain's plans include the purchasing of locally grown corn for use in the Masa Plant.

According to previous statements from Jeff Smith, Valley Grain's Divisional Manager, the plant has an 80 million pound capacity. "While that sounds like lots of corn," Smith added, "it is only about 20,000 acres of total production. The Masa Plant is expected to use an additional 12,000 tons of corn per year.

The New plant will employ an approximate total of 25 personnel, in both the offices and the plant. Plant hours are expected to run about 20 hours per day, broken into 14 shifts. Smith earlier stated that he "hoped to use as many local people as possible, and that likely, all except two or three would be local-with those being management.

Masa Plant Manager, Jack Griffin, stressed to the Journal that "no visitors, tours, etc. would be allowed within the plant without the express written permission of Valley Grain Executive officials. "Our methods of manufacturing are copied, in actuality, from the old Mexican or Indian ways of stone grinding corn into flour; we do have a lot of work and technology tied up in this operation and would like to keep our methods as our own". So, at this point in time, there will be a "no visitors" regulation at the Masa facility.

MASA PLANT READYING FOR TRIAL RUN...With the majority of the work completed on Valley Grain's new Masa Plant, just East of Mulleshoe, a trial testing period will take place on Monday if all goes according to schedule. The plant which cost in excess of \$2 million promises to be a boon to the local and area economy. Company officials are expected to oversee the Monday operations.

MHS Seniors Receive Diplomas

One hundred and one bright, young faces looked forward to the future Friday evening as they marched in time to the traditional processional of "Pomp and Circumstance" as the beginning of 1983 commencement exercises at Mulleshoe High School. On many faces could be read the visual question of "What next? Where do I go from here? as they made the transition from the world of school kids to that of young, responsible adults. The evidence of their thoughts is mirrored

in the expressions on their faces - some happy, some sad.

Leading the 1983 Senior Class of Mulleshoe were escorts Sherri Bessire and Jeff Hamilton, using the chosen class colors of pink and lavender to accent their entrance. The 1983 Seniors were wearing the Alma Mater colors of black and white, each carrying a single rose, the class flower.

The graduation address was brought to the Seniors of 1983 by Reverend Brock Sanders, who advised the young men and women to "Laugh your way through life - it beats crying". The gist of Rev. Sanders message was to meet whatever life had for you, accept the challenge, face the future and learn to roll with things. "Life does not have

a set pattern, you have to play it by ear a lot of the way," he stated. He also related a number of humorous incidents portraying others' ways of meeting life's challenges. The Reverend stated that the amount of humor a person has can be determined by how soon he can laugh at his own mistakes or experiences he's had. On a final note, Sanders advised the youth to take their memories with them, "Whether good or bad, they will play a large part in your life in the years to come," he said.

A Salutatory address was given by Tamara Gilliland and a Valedictorian address by Michael Isaac.

Presentation of awards and scholarships were made by High School Principal. Page 6, Col. 1

Mark Harmon, son of Mr. and Mrs. Don Harmon of 4202 2nd Street, Plainview, Texas received his Bachelor of Science in Accounting from Lubbock Christian College April 30.

Mark was a member of the Acappella Chorus, Senate, and Koinonia social club. He also played for the LCC football team 79-80, and 80-81.

The purpose of Lubbock Christian College is to provide relevant academic educational opportunities in a Christian environment. The Bible is accepted as God's revealed will and taught as an academic subject.

Red Raider Tourney Successful Again

Mulleshoe's Annual Red Raider Day Golf Tournament went off without a hitch on Thursday, May 19, as about 59 golfers from local and area towns gathered at the Country Club for a day of fun, talk and man talk. The event, as is each year, was stag only.

Texas Tech Coaches and other Tech personnel were honored guests at the affair. Those special guests included Tech Athletic Director John Conley, Assistant Athletic Director Jess Stiles and coaches Robert Evans, Don Walker, Steve Lock, Gary Ashby, Kelly Robinson, Travis Simpson and the Executive Director of the Red Raider Club, Lette Jackson.

Winning team in the tourney was comprised of John Conley, Ken Box, Tommy Goff, Steve Smith who all shot a sixty. They received a sleeve of golf balls.

Three separate teams tied for second place with a score of 61. The first team was made up of Don Walker, Stan Wilson, Gene Paul Jarman, Jerry Don Glover, Tuffy Dent and Houston Hart. The second team shooting a sixty-one as team members. The third team shooting a "61" was made up of Leete Jackson, Irvin St. Clair, Herb Griffiths, Dee Brown and Randy Field.

Steve Smith received a shirt for being the closest

to the pin on the number nine hole. He was 7 foot 5 inches away. Tim Campbell and Bruce Chapman were runners-up and received golf balls.

Following the tournament and an adjustment hour, the golfers were treated to a dinner of barbeque with all the trimmings and talks by Leete Jackson, John Conley and other Tech coaches concerning the upcoming Tech teams. Chairman Max King deemed the tournament as a successful one.

On the 24th, Tuesday, the Sox will meet the Vets; Mustangs vs. Lions, D.B. vs. U-Bars, F-Ball vs. Bears; Gold vs. Orange and Green vs. Blue.

Thursday, May 26 games will be played starting with the Vets vs. K-Bars; Sox vs. Lions; U-Bars vs. Gingers, D.B. vs. Bears, the Orange vs. Maroon; and the Gold vs. the Blue.

Friday, May 27 will feature competition between

Mulleshoe Men Address Legislative Conference

Hubert Kidd, Manager and Directors, Jack Angel, Rex Griffiths, Bob Jones, Bob Foley, Delbert Watson, and Don Seales of the Five Area Telephone Cooperative, recently traveled to Washington, D.C. to inform Senator's Lloyd Bentsen and John Tower and Congressman Kent Hance, as well as others of the need for continued support of telephone service for millions of rural consumers.

The Group met with the state's members of Congress as part of a three-day legislative conference held by the National Telephone Cooperative Association (NTCA), a trade association representing independent local telephone companies and cooperatives throughout rural America.

The Mulleshoe Delegation told the lawmakers that the

dramatic changes taking place in the tele-communications industry make it more necessary than ever to preserve funding for the federal Rural Electrification Administration (REA) telephone loan programs, so that rural telephone systems will be in a strong position to continue serving their subscribers. They also related that policymakers need to be aware of the importance of universal service at reasonable rates, so that rural consumers are not confronted with deteriorating telephone service or drastic rate hikes.

The REA loan program was created in 1949 to provide funding for vitally needed telephone services in high cost, low density rural areas. The goal, then, as now, was to provide universal telephone service at reasonable rates.

However, the Reagan Administration has proposed a 76 percent cut in REA loan funds for fiscal year 1984. Since most REA borrowers cannot qualify for private market financing,

Texas Crop, Livestock Contacts Begin Soon

The Texas Crop and Livestock Reporting Service will begin contacting farmers and ranchers across the state in mid-May for 1983 crop information and mid-year Livestock inventories.

State Statistician Doug Murfield emphasized that information from the crop surveys will be used by county ASCS offices to set yields for the farm programs. "A good response on these surveys means that we can return more accurate acreage and yield figures back to the counties," Murfield said.

"This information is more important than ever in 1983, especially with the many production options available to farmers and ranchers," Murfield added.

The confidential interviews, conducted by mail or in person by field enumerators, can also help producers in planning their production and marketing programs for the coming year.

To reduce survey costs, Murfield is urging farmers and ranchers to return the mailed questionnaires as soon as possible. The reported information will be combined for state and county estimates.

Commissioners Meet Monday

The Bailey County Commissioner's Court will meet in SPECIAL SESSION at their regular meeting place in the Courthouse, Monday, May 23, 1983.

The meeting will begin at 8 a.m., and will continue until all business is concluded. Items on the agenda include: 1. Appointment of County Attorney Pro Tempore, according to County Judge Gordon H. Green.

Cotton Planting Makes Progress

Helped by research partially funded by Cotton Incorporated and Texas Tech University - Lubbock, researchers have been making progress in cotton seed quality research.

According to Dr. Norman Hopper, associate professor seed physiology, Department of Plant Soil Science, Texas Tech, cotton planting on the High Plains should be started when the soil temperature has reached 60 degrees at the 8" depth for

Lazbuddie Graduation Set Tuesday

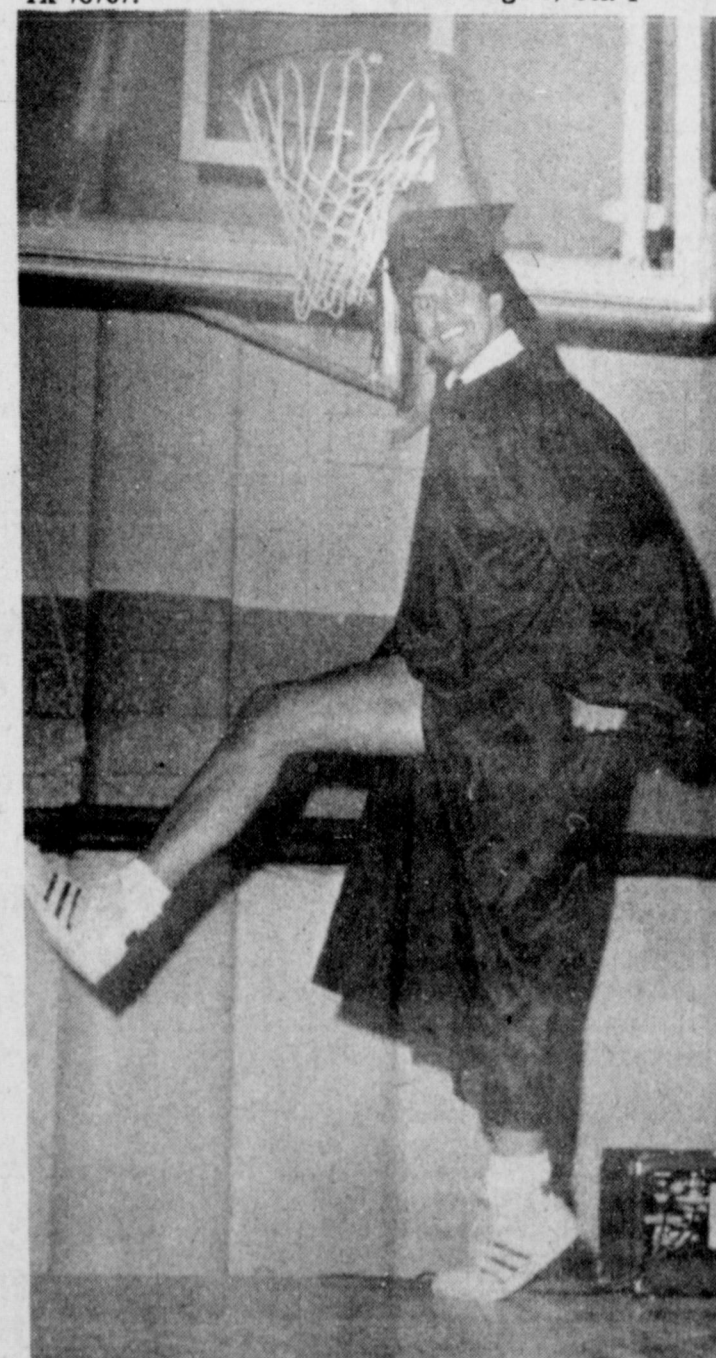

Commencement exercises for the 1983 graduating class of Lazbuddie High School have been announced for May 24, Tuesday evening at 8 p.m. in the High School Auditorium.

Delivering the graduation address will be Rev. David Bennett, minister of the Lazbuddie Church of Christ. Musician will be Adeana Carlyle, first grade teacher of Lazbuddie.

The class Valedictorian is Mark Lusk, son of Mr. and Mrs. Cont. Page 6, Col. 8

RED RAIDER COACHES HONORED...Several Texas Tech Coaches attended and played in the annual Mulleshoe Golf Club annual Red Raider Day Tournament on Thursday, May 19. From left: Don Walker, John Conley, Pat LoCascio, Leete Jackson and Bob Evans. Close to 60 players turned out for the event which culminated with an evening barbeque and a visit with the Tech coaches concerning the upcoming teams for 1983-84 season. The festivities were "stag" only.

ONE LAST SHOT...This unidentified (?) young man really seems to be in high spirits at receiving his high school diploma on Friday. In case you haven't guessed, Mike Isaac just couldn't resist one final slam-dunk at old MHS.

Most people fail to understand other people's problems because they never take time to consider them.

Two generations ago a boy was lucky to have a goat to ride; nowadays it must be the latest sports automobile.

You may be able to find a good excuse for anything, but this won't get you anywhere in the long run.

Art Class Designs NBW Mule Margee

The Muleshoe Rotary Club asked M.H.S. art students to redesign the marquee at the Mule Memorial and Mrs. Chitwood gave the project to the art classes as lettering, and pen and ink assignment. They did a great deal of research on the history of Muleshoe before putting their ideas on paper. The class and Mrs. Chitwood narrowed it down to the nine best posters. These were presented to the Rotary Club on Tuesday, April 5th when the students were guests for lunch. Each explained his/her poster and a committee from Rotary picked the design they liked best. They decided on a combination of several ideas contributed by Holly Oakes, Raul Garcia, Mark Moton, Kelly Bayless, and Joni Sudduth. Raul Garcia is currently combining the various ideas into the marquee design and should be finished painting it by next week. The Mule's Tale staff invites everyone to go by the Mule Memorial and see the new marquee!

The good neighbor policy should be practiced by more people, as well as countries.

In Fashion

The 5-inch wide belt is becoming quite a fashion accent. These wide corset-type belts come in various fabrics and leather. The buckle is the focal point. Silver buckles, jeweled buckles or large bows enhance these wide belts which are hooked in back.

A black and white dress is in fashion for spring and summer. Most shops show these dresses in soft material with dots or stripes. A crisp white suit with a black and white pinstriped blouse is quite elegant.

Hobby Club

The Muleshoe Hobby Club met Thursday, May 19 in the Community room of Muleshoe State Bank with Sammy Ethridge, president, in charge of the meeting.

Thirteen members were present, they included: Ola Epperley, Blanche Awbrey, Nan Gatlin, Opal Robison, Jo Wilson, Myrtle Chamberless, Mae Provence, Edith Fox, Fiddle Shafer, Sammy Ethridge, Allie Barbour, Mae Loyd and Ruth Bass. Ms. Ethridge was the hostess and she served pineapple slush punch and coffee.

Creative Woman

By Sheryl Borden

Topics to be presented "The Creative Woman" on May 24 and 28 include breads and flours, relationship between diet and heart disease and Jeff Lewis presented Storybook

soap jelly. Joy Best, Extension Home Economist in Portales will show us how to make use of all those small slivers of soap and also explain how to use the soap jelly. Mrs. Best will also prepare a homemae porcelain and ceramic tile cleaner.

Heart diseases is the number one cause of death among men and women in the Unites States. Karren Moreland is a registered dietician and consulting nutritionist from Roswell, and she will talk to us about the relationship between diet and heart disease.

Another guest will be Beverly Harder, Home Economist with Arrowhead Mills in Hereford, Texas, and she's going to talk about breads and flours. Viewers may be very surprised to know that bread is a real "plus" for dieters and Mrs. Harder will explain why.

On May 26, sewing with Simplicity and making waterbed sheets will be the topic to be presented on "The Creative Woman" show.

Do you ever think about why people sew? Zoe Graul, Educational Services Coordinator for Simplicity Pattern Co. in New York will talk about reasons different people sew and also explain the steps involved in how a pattern is developed from start to finish.

Waterbeds are becoming very popular but the bedding for them can be pretty expensive. Also, choices are somewhat limited as far as colors, prints, and fabrics are concerned. Joy Best, Extension Home Economist will show how to make waterbed sheets in less than an hour for about one-half the cost of ready-made ones.

TOURNAMENT WINNER--Brenda Black won the Naomi-Marie Memorial Golf Tournament Wednesday afternoon, May 18. Tommy St.Clair made the presentation to his sister. (From Left) Tommy St.Clair, Brenda Black and Irvin St.Clair.

Claudine's Country Club
Comments
By Claudine Elliot

May is always a fun month for our ladies with a lot of golf activities. Our annual Naomi and Marie Memorial Tournament was held this month with 19 ladies entering. Brenda Black won this tournament and it was an extra thrill for her and her family as the tournament is named in memory of her grandmother, Naomi St.Clair. It is also a memorial to Marie White. Naomi and Marie did so much to promote golf for the ladies of the Muleshoe Country Club, congratulations to Brenda for winning this tournament. A golf ball was also awarded the lady winning second and Pearl Gupton won this award.

Our monthly luncheon was Wednesday, May 18th. All business was discussed, and committees made their reports. Anita Foster reported that seven ladies went to Friona May 11 for the Hi Plains Association Playday. Avalita Haley won in the first flight with a score of 79. Helen Templeton won in the third flight with a score of 92. The next Hi Plains Playday is June 8th at Tulia.

Dorothy St.Clair reported that six ladies from Muleshoe are entered in the Women's West Texas Golf Tournament starting June 6th in Amarillo. This is quite an honor for Muleshoe to have this many represented in this prestigious tournament.

Our City Tournament in April was not complete on all our winners for last month's report, so we went to congratulate Elinor Yerby for winning consolation in the first flight.

Neats Foster presented awards for our Playdays to the following: April 20th--Most 6's -- Marlene, Jo, Dorothy, Cookie and Lynn. This was also Las Vegas Day for a 7-11 on hole No. 6, Pamala Miller won this with a 7 on this hole. April

Sudan Girls
Win State 1600

The Sudan Hornettes once again placed first in the State competition. They were in Austin during the weekend and ran on Saturday.

The 1600 Meter Relay won first with 4:04. This team includes Judy Wiseman, Shanda Vernon, Shawna Masten -- Sharla Harrison with Jeannia Nix as alternate. This is the same team that placed third last year in the State competition. Shanda Vernon, anchor runner, was determined not to lose the lead that Shawnda Masten worked so hard to get. This is Shanda V. and Judy Wiseman's last year as they will be graduating in the near future. "After winning state in basketball, we didn't want to come home with anything less than first", stated Shanda. Their coach said all the girls did great.

Memorial Day DPS Warnings Issued

Memorial Day signals the end of school and the beginning of summer vacations. There will be an increase in the number of vehicles on our streets and highways, according to Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety.

Cawthon stated, "countless lives would be saved if drivers would not disregard their own safety and the safety of others."

DPS records show that 58 persons died in traffic accidents on Texas streets and highways during the Memorial Day weekend last year, and the DPS Commander pointed out that, "one drinking driver or speeding motorist has destroyed an entire family."

Cawthon said, "Holiday or vacation trips should be planned a rest stop should be made every two hours,

of finished product per month. This 'masa flour' will be sold and marketed to the north and possibly south and southwest; hopefully within a 500 mile radius of Muleshoe, Texas.

For those who've not been introduced to "Masa" it is made from both white and yellow food corn which is processed by first being cooked in lime water for eight to twelve hours. In this time, also, a steeping process is continual. Following the lime water, the corn is washed, stone ground and dried at a high level of temperature. The fully processed masa will then be sacked in fifty pound bags and will be ready for shipping.

motorists of the activities. Traffic will not be rerouted during this period, since the east side of the street will be worked on first, then the west side. Single lane traffic both ways will accommodate local travelers during the work period.

The improvement for Muleshoe has been a long time coming, but the Highway Department hopes to have the actual work done by the first of June.

the proposal could lead to a deterioration of local phone service, as well as local rate hikes.

Congress has turned down similar Reagan Administration proposals during the past two years. The Group received a sympathetic and supportive reception from members of Congress, when they argued for a continuation of the REA loan programs at 1983 funding levels.

The National Telephone Cooperative Association (NTCA) represents more than 420 rural telephone cooperative and locally owned and operated commercial companies. NTCA provides its member systems with legislative and legal representation, education programs, meetings, publications, and a variety of insurance and benefits programs for member system employees.

FINAL PREPARATIONS...Seniors were busy Friday evening shortly before the beginning of Commencement Exercises in the Muleshoe Junior High School Auditorium, adjusting tassels, straightening collars and sometimes just an excuse to hug that old friend just one more time. A total of 107 students graduated on Friday.

Ethel Creamer Services Held In Childress

Services for Ethel Creamer, 91, of Childress were held at 2 p.m. Wednesday, May 18 in the Childress Church of Christ with Pat Abbantio, minister, officiating.

Interment was in Paducah Garden of Memories Cemetery under the direction of Schooler-Gordon Funeral Directors. Mrs. Creamer died at 2 p.m. Monday in a Childress hospital following a lengthy illness.

Mrs. Creamer was born in DeQueen, Ark and moved to the Goodland community, in Bailey County, around 1945, from Paducah. She moved to Childress in 1952. Her husband, Buck, preceded her death in 1952. The Creamers were farmers and she was employed at the Three Way School near Maple.

Survivors include two sons, Sherrill Creamer of Childress and Forest Creamer of Paducah; one daughter, Hazel Ryan of Childress; two grandchildren and five great grandchildren. Local relatives include Myrtle Creamer and Clea Williams.

seed. Therefore, the use of vigorous seed will allow for a more rapid rate of emergence and more plants from seed planted -- especially at the earlier planting dates. In addition, an earlier planting date should result in an earlier maturing crop with higher yields and better lint and seed quality."

"Under the more stressful conditions that exist during the early and middle part of the planting season, the cool germination test provided more reliable information," said Dr. Hopper. "In the seed lots we studied in which the cool germination test values were below 50% and in which the difference between the warm germination and cool germination test values exceeded 40%, we observed a 35% reduction in the emergence rate, a 22% reduction in the number of seeds planted that produced plants, and a 26% yield reduction."

"Those seed lots with cool test values in excess of 50% generally performed satisfactorily. And our studies indicate that the cool germination test provides as good measure of seed quality/vigor, especially when evaluating seed lots to be planted earlier in the planting season when the soil temperature is relatively cool."

Dr. Hopper encourages cotton growers interested in having their seed tested to contact either a commercial lab, or the Texas Department of Agriculture.

Inflation Level Important For Travel

Vacation-bound motorists taking advantage of lower gasoline prices this summer, can increase their savings by keeping tire inflation at the proper level, advises the Tire Industry Safety Council.

"By checking and adjusting the air pressure in your tires on a monthly basis and before a long road trip you can make your driving safer and place less strain on your gasoline budget," said Council Chairman Donald G. Brotzman.

Brotzman noted that tires inflated to the vehicle manufacturer's recommendations can improve fuel economy by up to three percent compared to tires whose pressure has been allowed to drop to low levels.

"Saving three percent on your annual gasoline bill is something worth doing, especially when it doesn't cost anything," Brotzman declared. "For every 1,000 miles you travel on vacation and throughout the year, you can gain up to 30 extra miles on the same amount of fuel by keeping your tires properly inflated," he said.

He pointed out that correct tire inflation also allows you to obtain the optimum amount of wear from your tires.

Driving on bald or worn-out tires, Brotzman said, is not only hazardous but against the law in many states.

"Tires with less than one-sixteenth inch of tread design showing are dangerous and should be re-

placed," he said. When you've reached that danger point, wear bars will begin to show as narrow bands of smooth rubber across the tread at intervals around the tire.

When you check the air pressure make sure the tires are "cold" or have been driven less than a mile. Pressures typically rise three or four pounds per square inch when the tire is "hot."

Brotzman listed the following tips for summer driving:

-Look out for "summer ice." Sudden showers mix with oil and grime on the road causing a light film, can result in skidding. Slow down and drive according to prevailing conditions.

-Don't overload. Too

much weight can severely cause damage to springs and shock absorbers. The load which a tire will safely carry depends on its size,

load range and its inflation pressure.

-Check tire inflation pressure with your own hand gauge. Many service station towers and some hand gauges are inaccurate due to exposure and abuse. Refer to the tire information sticker attached to the vehicle for the correct inflation pressures recommended by the vehicle manufacturer.

-Check alignment. If your wheels are out of alignment, tire life may be drastically shortened.

Jr. High Student Council Saves Labels, Get Video Machine

The Muleshoe Junior High School Student Council sent 43,000 labels and Swanson triangles to Campbell Soup Company for our new video. This was done by the help of a wonderful community and it's loyal people.

We send a big "Thank You" to each one of you who contributed labels and especially to Pay 'n Save, Cashway Grocery, The Bailey, Castro, Cochran, Farmer, Deaf Smith, and Randall County Sheriff Departments, our lunchroom helpers, and some families who have moved away and still save and send us the labels.

Sudan Industrial Arts Projects Win at State

The first year for the Industrial Arts program at Sudan has ended with two projects winning Best in State awards at the Texas Industrial Arts Association competition in Waco on May 8, 1983. Winning first in the high school manufacturing division was a wooden rocking horse designed, engineered and manufactured by class members Lyn Bartley, Brian Burns, Debbie Hill, Sandra Hill, Caprice Johnson, Keevan Masten and Marie Withrow. Winning first in the Junior High finishing division was an antique oak plant stand reconditioned by Grace Espinoza, Lorrie Gonzales and Dalia Limon.

Also receiving high honors at the state competition were a table refinished by Sandra Hill and a toilet seat refinished by Chip Humphreys. In order to qualify for the state competition each of these projects received a first place award at the regional meet in Lubbock. Chip's project also qualified for a Best in Division medallion at the regional level.

thank the Muleshoe Journal, KMUL, and Channel 6 for their publicity of our project.

Labels are still being saved for next year. On hand are 28,000 labels that are planned for use to get another video recorder or some other school equipment. "We would like to encourage you to keep saving your labels from Campbell's soup, Swanson's T.V. dinners triangles, Swanson's broth and meat products, Franco-American products, Frango Spaghetti Sauce, Recipe dog food, and V-8 vegetable juices," said council members.

JUNIOR HIGH ACCOMPLISHMENT--The Student Council of Muleshoe Junior High School has been busy over the past months saving labels from various kinds of soups and TV dinner products in order to get a new video recorder for the school. With the help from local merchants, law enforcement, school cafeterias and others, they managed to collect enough labels for the video and still have some left. It took 43,600 labels to get the machine. Artists Work On Illustrations

Texas Christian University Press has announced plans to publish "150 Years of the Texas Cowboy," a major art book to be written and illustrated by the 16 members of the Texas Cowboy Artists Association as their sesquicentennial project.

Scheduled for publication in the summer of 1985, the book will be over 200 pages, with approximately 100 pages in full color. Each painting, drawing and sculpture used in the book will be specifically designed for this book and will be available for private purchase. After publication of the book, the original art will be kept together during the sesquicentennial period for display throughout the state at various art galleries and book signing parties.

Texas Cowboy Artists

Association is an 11-year old organization dedicated to documenting historically--through art--the heritage and domain of the cowboy. Membership in the organization is by invitation only, and the work of any prospective member is carefully considered for quality and authenticity. The group previously illustrated "XIT: The American Cowboy," published in 1975 by Oxmoor House. For their sesquicentennial book, TCA members will hold several juries at which members will vote on each piece of art submitted for the project.

In recent years, TCA has expanded to accept members not living in Texas whose work meets the standards of the group and whose interests will promote the group's dedication to the history of the cow-

boy. Current Texas members are Bill Chappell and Bill Leftwich of Fort Davis; Ben Konis, Justin Wells and Richard Thompson of Amarillo; Joe G. Russell, Kerrville; G.L. Sanders, Pampa; Mark Storm, Houston; Jim Thomas, Leander; Jim Ward, Canyon, Garland Weeks, San Angelo; and Paul Wylie of Lubbock. Other members are Keith Avery of Roswell, NM; Steve Devenyns, Cody, WY; Harold T. Holden, Kremlin, OK; and Bob Toomey, Carthage, MO.

Dr. Donald Worcester, TCU professor emeritus of history and a well-known Western author, will serve as consulting editor for the book.

An emotional person is usually easily led--the wrong way.

Sudan's New Junior High School Nears Completion

The bricklayers are finished with laying of the bricks, and the new Sudan Junior High School is nearing completion in the nearly \$5 million complex.

Plan X and Talk Stations, both Southwestern Public Service plants, near Sudan, paid more than \$950,000 in school taxes to Sudan in 1982. This amount is expected to increase when Tolk Unit No. 2 is completed.

Ron Montgomer, Sudan's local manager, says the new school will add 2,940 Kilowatts in load to SPS lines and more importantly, the largest portion of the school's electrical consumption will be during the winter months, SPS's off-peak period.

The new complex covers 80,000 square feet and features a gymnasium that can seat 800 persons and an auditorium that can hold more than 700.

The first steps in making the new building energy-efficient, were installing 10 inches of fiberglass insulation in the ceiling, six inches in the walls, and reducing the number of windows in the building. In addition, 24 high-efficiency heat pumps which can be centrally controlled from a master panel in the principle's office, were installed on top of the building.

Heating for the automotive woodworking and welding shops will be provided by electric unit heaters. Evaporative coolers, which are generally efficient in West Texas (normally dry weather) and generally cheaper to operate, will help keep the shops comfortable in the warmer months.

The buildings central unit of 10 classrooms, has been designed as an emergency shelter for up to 1,000 persons. The shelter is constructed of concrete-filled masonry blocks supported by reinforced steel and has a six inch concrete ceiling.

Kenneth Noles, states that during severe weather such as tornado warnings, townspeople are welcome to take shelter in this area.

The new school will feature a modern cafeteria, science lab, band hall and tennis courts and a new track field as well as offices for the administrative members and a library.

The 30,000 square foot elementary school has been renovated for maximum energy efficiency in that the ceilings have been lowered and ten inches of insulation has been added. Four inches of insulation have been added to exterior walls and glassed areas which originally covered 75 percent of the walls, have been reduced by almost 90 percent. The school's old windows have been replaced by fluorescent lighting to eliminate energy inefficiencies created by improperly shaded windows. Individually classroom - zone

TSTI Summer Registration May 24

TSTI-Amarillo will hold registration for the Summer Quarter from 8:30 a.m. to 7:30 p.m., May 24, at the Resource Center, with classes starting on May 25. Registration will be for day and night classes.

Full-time day classes are being offered in Auto Body Repair, Aircraft Mechanics, Automotive Mechanics, Boot and Shoe Operations, Construction Technology, Cosmetology, Computer Science Technology, Diesel Mechanics, Electronic Systems Technology, Machine Shoe Operations, Interior Design Technology, Industrial Instrumentation Technology, Meat Processing and Marketing, Printing Technology, saddle and Tack Making, Professional Truck Operations, Technical Office Training, Transport Refrigeration Mechanics, and Welding and Fabrication.

ed two-top heat pumps will replace the old steam boiler. Hallways & classroom have been carpeted.

The school has been designed for all-electric comfort and conservation, Noles says. "The only natural gas in use in either building will be for lab burners in the High School's science department", he added.

(Statistics were taken from an article in the Southwesterner written by Randy Eminger, and SPS employee for three and a half years and okayed by Kenneth Noles.)

The Royal Athletic Industries of Austin, and Farmingdale, NY has completed the installation of the new "Fast Track" for the Sudan School District. The new track is a half inch rubber mix over an asphalt base. The runways for the high jump, pole vault, and the lone jump are a three fourths rubber base. The track is marked in the metric measure as all newer tracks today have been so recommended. The new track adds much to the Sudan School facilities.

Giveaways Cutback Ordered

The U.S. Department of Agriculture will be giving away less cheese due to a large drop in commercial sales.

In ordering a 52 percent cutback in the cheese giveaway program that was started about a year ago, Secretary of Agriculture John Block cited two reasons--needy people who qualify for free cheese normally buy their own, and some people who are not so needy receive free cheese rather than buy it.

"Evidence that the cheese giveaway program was hurting cheese sales started showing up during the last quarter of 1982," said Dr. Bud Schwart, dairy marketing specialist with the Texas Agricultural

Extension Service, Texas A&M University System. "During that quarter commercial sales were down 8 percent from a year earlier. But the real shocker came last February when commercial sales were down a staggering 29 percent from February of 1982."

The cheese giveaway program was started in early 1982 as a means of reducing government stocks of dairy products purchased under the dairy program. More than 50 million pounds of cheese had been given away each month before the cutback.

"Not having outlets for surplus dairy products complicates the problem of what to do about dairy policy," said Schwart. "The

USDA has imposed a 50 cents per hundredweight tax on milk producers to try to discourage increased production which has been hurting the dairy industry in recent years.

1982 life expectancy calculated at 74 1/2 years.

Former MHS Graduate Assists Better Speech-Hearing Month

May has been proclaimed Better Speech and Hearing Month and a former Muleshoe woman is helping that with additional emphasis on language problems the public will be more aware of what can be done to help.

Karen Jones Howard of Abilene, a Muleshoe High School graduate, is a speech pathologist who recently opened private practice and who sees a need in this area for helping children and adults with speech and hearing problems.

With the month of May dedicated to such problems, Ms. Howard said she and other professionals hope to make people "aware of speech language problems and to make them aware of our profession".

The special month is sponsored by the American, Speech, Language and Hearing Association and features Lorne Greene and a child Brooke Broberg, as symbols of the month. Posters are being viewed across the country all month.

Mrs. Howard stated that nationwide 10 million people have speech or language disorders.

"I find it a little high-

er in children", she said, but added that such disorders afflict people "from birth to 108".

Speech disorders include articulation, poor breathing, nasal tones and stuttering while language afflictions include semantics, syntax (language structure) and sound systems. A new area of language disorders deals with use of language, Mrs. Howard said, including "not electing to talk."

In older people, a common language problem called aphasia results from strokes or head injuries.

Mrs. Howard, who last year served as president of the Big County Speech and Hearing Association, said her profession is a relatively new one but that it is a "very dynamic field".

Only three persons graduated from the first class which taught the profession and one is still living, Mrs. Howard said.

"More and more peo-

ple, mainly females, are entering the profession for several reasons. For one thing the field appeal to people who really want to use their energies to help someone.

She also stated the opportunity to work with people on a one to one basis is another attraction of the profession. And, to make it even more appealing, the profession is a very interesting one, she added. But, Mrs. Howard warned the profession is a difficult one that involves tough coursework and strenuous training.

To be certified as a speech pathologist, Mrs. Howard explained, a candidate must earn a master's degree and serve a one year internship with a certified person.

Mrs. Howard has a bachelor's degree from the University of Texas at El Paso, a master's degree from Texas Tech and a doctorate from the University of Houston.

Senior Talent Shines In Annual Production

In one of the best senior day productions ever, the class of '83 entertained high school students, faculty, and parents on Friday, May 13th. Hosts for the morning's "Solid Gold" show were Rex Smith and Marilyn McCoo, alias Perry Flowers and Janelle Burks. The "Solid Gold" dancers, Kelly Bayless, Rhonda Dunham, Berna Lopez, Mike Pugh, Zeke Contreras, Todd Holt, June Perez, Michael Isaac, Cristal Taylor, Sandra Agundis and Chris Kirven performed a rousing introduction number to "We Got The Beat" followed by Janelle and Perry who slowed things down with "Up Where We Belong". The wills and prophecies were presented between acts by "Wayland and Madame", alias Denise Wilson and Sheri Ellis. Holly Oakes and Jay Pearson sang "Another Honky Tonk Night on Broadway" while two - steppers Todd Holt, Berna Lopez, Dale Hughes, Kelly Bayless, Zeke Contreras, Laura Leal, Rhonda Dunham, and Scott Branscum performed in the background. Accompanied by Rosa Alacorn on the guitar, Lynda Bell and

Shawna Kelton sang "Let Me Be There" and "One Tin Soldier". In a change of pace, the "Punk Rock Ballet Company" consisting of Scott Ellard, Jeff Combs, Kris Gibson, Todd Holt, Gibson, Todd Holt, and Sammy Gonzales pirouetted and plied through a classical number performed on the piano by Laura Leal that ended as they rocked their bright red tutus to "I Didn't Know Your Name Was Alex".

The Oak Ridge Boys, alias Jay Pearson, Kevin Grant, John Wuerlein, and Robert Nowlin sang their popular hit, "American Made". Then English cowboy star Slim Whitman made his appearance as Raul Garcia singing "Una Paloma Blanca" surrounded by screaming groupies Sandra Martinez, Martha Flores, June Perez, Lori Del Toro, Rosa Garza, Mary Jane Madrid and Sandra Agundis. Stevie Wonder and Paul McCartney, alias Janelle Burks and Lynda Bell performed "Ebony and Ivory". It's a good thing "Stevie" couldn't see what "Paul" was doing during the song! Back by popular demand were the "Jungle Players" who made their debut as sophomores at the Junior-Senior banquet two years ago. Jeff Combs, Scott Ellard, Todd Holt, and Laura Leal reprised their roles as the "Guitarzan" clan.

In a flapper number dedicated to faculty mem-

bers Lucy Faye Smith, Johanna Wrinkle, Jean Allison and Esther Marie Dillman, three seniors, Marleia Cox, Abbye Kennedy and Dana Rasco did the Charleston to "In the Mood". Another skit was performed to the song, "The Streak" by senior "Girls" (?) Michael Isaac as Ethel, Kevin Grant and Robert Lopez as innocent bystanders, and senior guys Leroy Hurtado as the announcer, Yrri Vandiver, as Ethel's husband and Danny Seales, complete with barrel, as the "The Streak". was the "Ethel" we saw chasing Danny???

Pantomiming to Toni Basil's "Mickey" were Freddy Velas as Mickey and Lori Del Toro, Martha Flores, Eva Rejino, Sandra Agundis, June Perez, Berna Lopez, and Shirley Simnacher as his admirers. The Long, Tall Cowboys followed with their version of "When It Comes To Cowgirls". Behind the pillowcases were Darin Bratcher, Todd Thornton, Eddie Flowers, and Scott Brans-

Punk Rock Ballet Co. (L-R) Kris Gibson, David Pruitt, Scott Ellard, Todd Holt, Sammy Gonzales, and Jeff Combs.

cum. We never did find out which Cowboy lost his Wranglers!

Jeff Combs appeared as Richard Simmons with exercisers Kelly Bayless, Ab-

bye Kennedy and "Fat" people Todd Holt, Laura Leal, Zeke Contreras, Kris Gibson, Belinda Clayton, Mike Pugh, and Shirley Simnacher. Also exercising to "Let's Get Physical" were teachers Esther Marie Dillman, Stephen Johnson, Jamey Thrasher, Johanna Wrinkle, and Lucy Faye Smith.

Rex Smith interviewed Sylvester Stallone as Rocky Balboa (Kris Gibson) on the possibility of his doing "Rocky IV". Accompanied by Laura Leal on the piano, Beth Harmon, Charli Hawkins, Rhonda Dunham, Berna Lopez, Kelly Bay-

less, and Cristal Taylor danced to "New York, New York".

In a close contest for the "Tootsie" Look-alike winner, Raul Garcia beat out Robert Vela and Jeff Combs. Brooke Shields (Sandra Agundis) made a cameo appearance to help the audience declare the winner by a show of applause. "Short People" Kristi Ethridge, Shelli Walker, Belinda Clayton, Lori Del Toro, and Sandra Martinez stomped to "Beat It". Kenny Rogers and his group, who looked suspiciously like the Oak Ridge Boys, performed "Blaze of Glory".

Michael Isaac reprised his role as Atahualpa from the state winning one act play "Royal Hunt of the Sun", only this time he shed his cloak, he had on bright polka dotted boxer shorts. We thought he looked much better in the loin cloth!

The senior speech students took the opportunity to present Mr. Kerry Moore with the "Goat" award for all the times he called them "Goats", called them "goats", "hags", "wenches", etc. during the last four years. We have it from a very reliable source that the award was to have been a live goat that unfortunately expired the night before the Senior day program. A pair of ram horns served the purpose, however.

Cristal Taylor sang the class song "Theme from Ice Castles" accompanied on the piano by Laura Leal and on roller skates by Joni Sudduth and Zeke Contreras. Sandra Agundis as Carol Burnett's charwoman sang "I'm So Glad We Had This Time Together".

Finally, the senior class emerged from Todd Holt's bathtub to "Rubber Duck" and reminded all present "We're the best ever to be, we're the class of '83! And somehow, we agree!"

Senior sponsors Jamey Thrasher and Keith Taylor would like to thank all of the seniors for their hard work and participation in the senior day production! They appreciate their efforts and cooperation very much.

Mighty 'M' Band Has Successful Trip To Enid

The Muleshoe Mighty "M" Band traveled to Enid Oklahoma, May 4-7 for the fifty-first Tri - State Band Festival.

The Band left Wednesday morning, May 4 on chartered buses. They soon arrived at their hotel around 6:00 p.m. While the band directors attended the small band marching contest, the students and their chaperones, Mr. and Mrs. Weldon Whitford, and Carylyn Harris went swimming or played miniature golf.

Thursday morning the band rose early and traveled to a marching field where they practiced their marching show for Friday night. Alan Finney and Joey Cox went to play their solos, while the rest of the band marched. Both of these two young men received a first division for their solos. Alan performed a piano solo while Joey performed a tuba solo. We would like to congratulate these two people! When the band finished marching, the band traveled to Enid High School to practice their concert show.

When they finished they went downtown to either go shopping or go to a carnival. The band returned to the hotel excited and tired, waiting for the big day. Friday morning everyone rose early and prepared for the contests. The band traveled to Enid High School, where they performed their concert show. They play "Domingo Ortega" and "Devonshire Overture". They made a II.

Afterwards the band traveled to the Aultry Vo-Tech Center where the stage band performed "More Blues", "Bridge Over Troubled Waters", and "Midnight Crawler". They also received a II. After the trip to the hotel, the band rode to the Enid Stadium, where they performed their marching show, which consisted of "Spanish Fever", "Solar Friend", "Music Box Dance", "Strike Force", and "Georgia on My Mind". They received a III. After the band stayed and watched the rest of the bands perform, they traveled back to the hotel and swam.

Saturday morning the band marched in the Tri-State Parade. They received third place. After the parade, they traveled back to the motel where the manager invited the band to stay in his motel if they returned to Enid next year, saying that he was favorably impressed with the Muleshoe band's behavior. The group returned home about 9:00 Saturday.

Thanks to the Mighty "M" Band for representing Muleshoe High School so well!

Joni Sudduth

Sudduth Named Feature Artist

Senior Art II student Joni Sudduth has been chosen as the final feature artist of the week for this year. Joni is 18 years old and was in Art I for the first time her Junior year. She is currently taking art lessons from Rheta White.

Joni commented, "I enjoy art, especially painting because it is a good way for me to express myself." She prefers oil painting over anything else and plans to continue taking art lessons for a long time. Last week Joni entered and won first place in the art show here in Muleshoe. Congratulations to Joni Sudduth, this week's feature artist!

Pep Club Organized

Monday, May 10, 1983, members of both Muleshoe High School and Jr. High eighth graders met to establish a new Fighting Mule Pep Club.

Officers were installed during the meeting Monday. The president is Donna Horn, Vice Pres. is Karen Kelton, secretary Marilyn Lewis, Treasurer Melissa Wagnon, Reporter Leah Bell, and Representative Kathy Horn.

The Pep Club will be meeting regularly to discuss uniforms and to make fight signs.

All those interested eighth graders and high school people are encouraged to join the club and help the Mules to win!

Art Students Commissioned By Police

The Muleshoe City Police Dept. commissioned the High School Art Dept. to paint three paintings for their newly remodeled offices. Mrs. Chitwood asked three of her students to paint, in oils, these paintings. Raul Garcia, Leroy Hurtado, and Melissa Wilbanks did the art work for the police department. Les Irwin, the City Police Chief, specifically wanted the Police Badge, the arm patch, and their stationary logo to be the main theme of the three paintings, with red, white and blue being the main color them.

Raul chose the arm patch, Melissa painted the logo, and Leroy painted the police badge. The paintings are presently on display in the trophy case at Muleshoe High School and will be framed and hung next week in the Police Dept. Offices.

Police Chief Les Irwin hoped that this project would establish a relationship between high school students and the police dept., and promote positive involvement with the youth.

'83 Seniors Honored With Banquet

On Saturday night, May 14th, the Junior class honored the senior of '83 with a trip into the Twilight Zone. After stepping through the black hole into a sparkling world of blue and silver, of flashing lights and shining stars, they were greeted by Mr. Spock (Jerry Gleason) and Princess Leia (Kristi Campbell). Galactic Go-Fers Rob Donaldson, Hector Flores, Terry Graves, Chris Hopkins, John Isaac, Todd Jones, Charlie Mata, Mark Moton, Eddie Perez, Preston Scoggin, and Tracy Tunnell ushered Junior class members and their guests to the tables where they enjoyed orbiting hors d'oeuvres and chatted by candle light until everyone had arrived. Other Galactic Go-Fers Tamara Bean, Trisha Burgess, Lori Ellis, Zonell Gatewood, Polly Harrison, Betsy Lunsford, Florida Mendoza, Shelley McMeans, Barbie Seaton, Kristi Spies, and Janna Wuerlein served tea and water to the guests while they waited.

After the meal, Sherri Bessire gave the Radiant Recognition in a tribute to the seniors climaxed by the lighting of the 25 foot North Star to guide the seniors on their way through life. For the evenings' entertainment, Magician Keith Mitchell from Amarillo performed magic in keeping with the Twilight Zone theme.

Galaxy Gratuities were presented by class officers to Senior sponsors Jamey Thrasher and Keith Taylor, and Junior sponsors Pat Black and Stephen Johnson. The evening ended with the Splash Down by Jeff Hamilton and was termed a success by the Junior class members and their guests. The Junior Class would like to thank their sponsors and the Junior mothers who helped in the kitchen. They were Margaret Gleason, Donna Shaw, Jeanine Gunstream, Sharon Agee, Doris Scoggin, Julie Cage, and Sharon Hamilton. Their hard work is greatly appreciated!

Saturn Supper provided by Suthpens of Amarillo. The meal consisted of BBQ'd Cosmic Cow and Swine Saucers (brisket and sausage), Satellite Spuds (Potato salad), Celestial Slaw (cole slaw), Rocket Fuel (ranch style beans), Martian Drops and Saturn's Rings (pickles and onions), Binary Star (bread and butter), Milky Way (Chocolate mint ice cream), and Moonshine or Lunar Liquid (tea or coffee).

The Master of the Universe, Junior class president Jeff Hamilton, greeted the voyagers who had dared to enter the Twilight Zone and Darin Shaw blasted off with his welcome to the seniors. Michael Isaac, Senior class president, responded to the greeting with thanks to the Junior class for a beautiful banquet. Melissa Wilbanks gave the Heavenly Salute which was followed by a

FTA Puts Wraps On Busy Week

The Future Teachers of America have been busy with end of the year activities. Stephen Johnson and Kerry Moore took the retiring and incoming District officers to the installation held Saturday, May 14, at the 50 Yard Line Restaurant in Lubbock. Scott Campbell was recognized as retiring Parliamentarian. Jeff Hamilton was installed as President, Sherri Bessire as Historian, and Kacy Henry as Corresponding Secretary by Mr. Moore. Darin Shaw gave a brief summary of the State Convention to be held next year in Austin. Darin is state Financial Secretary for next year.

Monday, May 16, Mr. Stephen Johnson took Scott and Kristi Campbell, John David Agee, Kacy Henry, Jeff Hamilton, Darin Shaw, and Polly Harrison to Plainview. The group met the Tulsa FTA at Family

Fun Park where they enjoyed the waterslide, bumper boats, go-carts, and miniature golf. The group also played in the game room afterwards.

This past week local FTA officer elections were held. The results were close but finally announced Tuesday, May 17. Winners were: President, Jeff Hamilton; Vice-President, Darin Shaw; Secretary, Kristi Campbell; Treasurer, Sherri Bessire; Parliamentarian, K-K Flowers; Historian, Kacy Henry; and Chaplain, Polly Harrison.

The new officers' first project was preparing breakfast for the faculty on Thursday, May 19, in the Home Ec. department. At that time they also presented their annual "Teacher of the Year" award to Mrs. Johanna Wrinkle. Congratulations to Mrs. Wrinkle!

VA Housing Assistance Program Passes State

Texas veterans will now have the opportunity to purchase a home through the Veterans Housing Assistance Program if it is approved by voters as a constitutional amendment in November. Texas Land Commissioner Garry Mauro announced. The legislature completed action Tuesday on a measure which will provide a loan of up to \$20,000 for eligible Texas veterans to purchase a house.

"The Texas Legislature, Governor Mark White, Lieutenant Governor Bill Hobby and Speaker of the House Gib Lewis have shown the veterans and the people of this state that we need a modern housing program which will not cost the taxpayers of this state one cent," Mauro stated.

The proposed constitutional amendment will allow for the sale of \$500 million in bonds for the Texas Veterans Housing Assistance Program and \$300 million for continuation of the Veterans Land Program. The election is set for November 8, 1983. The measure was sponsored by Senator Lindon Williams (D-Houston) and Representative Frank Tejeda (D-San Antonio). The program passed in the Senate unanimously and overwhelmingly in the House of Representatives.

"We will finance this program through the sale of general obligation bonds with the veterans themselves covering the costs through their payments. Taxpayers will not have to provide any tax money for the housing or the land program. Over 80,000 Texas veterans have participated in the Veterans Land Program since 1949. We

want every eligible Texas veteran to have the opportunity to purchase land or a home," Mauro stated.

Mauro said private businesses and the entire state economy will benefit from the establishment of the Texas Veterans Housing Assistance Program. "Existing lending institutions will administer the housing

program so we will not have to create another state agency or bureaucracy. We also will stimulate construction of 25,000 new homes and provide another 45,000 jobs for people in Texas. This program is the best example of the cooperation between government and private enterprise which can work to the benefit of

New Law Expands VA's Collection

Recent legislation has expanded the Veterans Administration's authority to collect debts it is owed, advises the director, Waco VA Regional Office.

Public Law 96-466 authorizes the VA to charge interest and administrative costs on those debts. Effective now, simple interest and administrative collection costs will be charged on unpaid principal balances, he stressed.

However, veterans and beneficiaries first are given the opportunity to pay in full within 30 days of the date of notification to prevent any of those interest charges. Additionally, the VA now has the authority to notify consumer reporting agencies of the debts -- which might adversely affect a veteran's ability to obtain credit.

In debt cases where legal action has resulted in a judgment being granted, property may be attached, wages garnished or liens filed against property. In the case of federal employees, salaries may be offset up to 15 percent of the disposable income to satisfy the debt.

He noted that stiff coll-

all people," Mauro stated. Mauro noted Texas currently has more than 1.6 million veterans including 525,000 Vietnam era veterans.

"The Texas Veterans Housing Assistance Program has the support of our state leaders, veterans organizations, lending institutions and thousands of other Texans. I am hopeful Texans will agree with me in November in voting for the Texas Veterans Housing Assistance Program and the continuation of the Veterans Land Program," Mauro said.

"As I stated during the campaign and continue to state while in office, we don't need to do the veterans a favor, just repay one," Mauro concluded.

Where does the moisture in the air come from? Where does the moisture of clouds come from?

Since the sun produces no moisture, and since the air around us continuously presents clouds which bring us rain, naturally the question arises: "Where does the moisture come from?"

The answer is that the air through evaporation, absorbs moisture from the earth and ocean at an amazing rate.

Millions of tons of water are absorbed through evaporation ever second!

Thus, when a rain brings us hundreds of thousands, or millions, of tons of water from the sky, this water has been picked up from the oceans, rivers, lakes and the earth itself--through evaporation!

Without evaporation, which makes possible the transfer of moisture, large areas of the earth would be useless, desert wastes.
