Christmas day hunting accident leaves businessman critical

Henry C. Massingill, 44, was critically wounded about 6:00 p.m. Sunday, Christmas Day. Massingill was hunting quail with his father-in-law and brother-in-law in Hall County at the time of the shooting accident. Hall County Hospital attendants said Massingill suffered wounds to his right hand and both eyes from an apparent shotgun blast from Hall County. Hosp. Massingill was transferred to Amarillo Emergency Receiving Center for treatment and was later moved to Hall Plains Baptist Hospital. Massingill has been a resident of Clarendon for two months. He, his wife and three daughters moved here from Amarillo. Massingill has leased the welding and repair shop formerly operated by Claude Thomas. Massingill is the nephew of Mark Pierce of Clarendon.

Senior Citizens seek funds for center

Senior Citizens currently are raising funds for a building expansion project. The Senior Citizens facility that currently houses the organization has become too small to adequately meet the needs of the group. Plans are under way to increase the present building by an addition of 1,000 square feet. To date bids have not been taken for the construction but fund raising has begun. The Department of O.H.D. will match funds raised locally on a 75% 25% basis. The estimated cost for the entire project is \$20,000 so the local organization will be responsible for \$5,000 to \$6,000. To date the local group has raised \$2,000 and have \$1,500 more pledged. Donations to the Center may be made by contacting Ruth Mills, Coordinator of the Senior Citizens Center.

'Toys for Tots' is a success

Christmas is a time for giving and remembering others and that is what the Clarendon Jaycees did as they gathered, repaired, and distributed toys to needy children here. The Jaycees were very successful with their annual Toys for Tots campaign. Numerous toys were donated to be distributed. Many of these toys were new, while others were in need of repair. Also some money was donated to be used toward the purchase of toys. At least children of eight different families received these toys for Christmas and benefited from the project.

'78 License plate renewal system changes

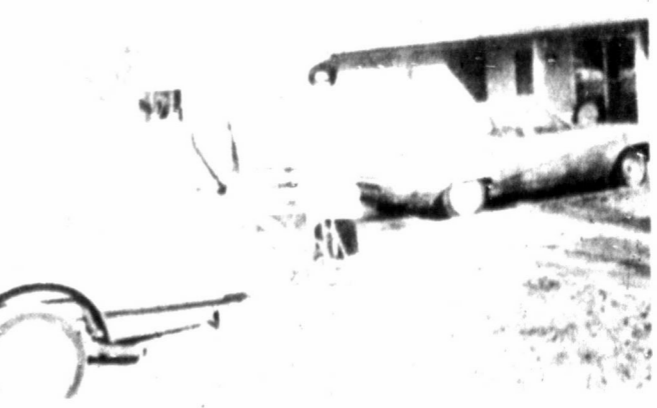

License plate renewal notices for almost 11 million motor vehicles are in U.S. post offices throughout Texas for delivery to owners beginning the day after Christmas. The plate renewals for passenger cars and light trucks such as pickups will be different from last year. A new law requires that renewal dates be spread as equally as possible over 12 months rather than have all expire at one time (April 1) each year. Since the Motor Vehicle Division does not maintain records by owner's name or birth date, the license number of the vehicle has been used to determine the month of registration renewal in the future. Renewal notices have been issued to reflect the number of months and the prorated fee to be paid to register each vehicle under the new system. A complete explanation of the new system is enclosed with each renewal notice for passenger cars and light trucks (one ton or less). It is imperative that vehicle owners not lose the registration notice as it must be presented at the county tax collection office to obtain new license plates. Because of the new system, registration may take longer this first year than ever before. The new law authorizes county tax assessor-collectors to start processing the renewals a month early. Your county tax assessor-collector is ready when you are - any time starting with the county's first work day in 1978. Do yourself a favor - take your renewal notice to your county tax office and register early. You'll be sorry if you don't.

BAPTISMAL SERVICE for John Phillip Hays.

Baptismal services held in First Presbyterian Church for sixth generation member

Thursday evening, December 22, 1977 when John Phillip Hays was baptized in special services, he became the sixth generation of a family to become a member of the First Presbyterian Church in Clarendon.

The George W. Smiths, great, great, great grand parents of the child, were charter members of the church when the church in Clarendon was organized in 1899. Their daughter, Sarah Edna Smith, was baptized in the church in the late 1800's and in 1901 when she married William McElreath Montgomery became the first to be married in the First Presbyterian Church in Clarendon. Succeeding generations of the family that have likewise been baptized in the church are Edna Montgomery Smith of Clarendon, Doris Louise Smith Hays of Lubbock and Fred Henison Hays of Houston.

John Phillip was baptized by the Reverend Owen McGarity, pastor of the First Presbyterian Church. Assisting the Reverend McGarity was Dennis Williams, a Disciple of Christ minister with the Christian Church from Amarillo.

The ceremony was conducted at 7:00 p.m. in the evening before a small crowd of family, friends, and church members in the church sanctuary that was beautifully decorated for the Christmas season. Participating in the baptismal services were the child's parents, the Fred Henison Hays, and the child's great grandmother and elder of the church, Edna Montgomery Smith. Beautiful organ selections were provided by Judy McCully, church organist, and hymns were sung by the congregation including "Away In a Manger" and "Jesus Loves Me."

John Phillip was born October 7, 1977 in Houston, Texas. He was born on the birthday of his great-great grandfather, W.M. Montgomery, some one hundred four years later.

Following the impressive baptismal service a reception hosted by Edna Montgomery Smith was held in Fellowship Hall. Appointments of crystal and silver were used. The tables were laid with white linen cloths and centerpieces of Christmas flowers and greens.

B-boys beat White Deer 29 - 21

B-BOYS

The B-team had a busy
schedule prior to the
holidays. On December the
13th they beat White Deer 29
to 21 with Jim Brown leading
scorers with 10 points.

the Paducah B-team tourna-
ment December 15, 16 and
17 taking second place. They
beat Motley Co. 53 to 45.
Doug Foster led scorers with
14 points while Justin
Lemons added 13. Mark
Wilson and Dan Brandes hit
12 apiece. The second game
was against Quannah with
Clarendon winning 53 to 43.
Doug Foster led scores with
20 points. The Bronchos lost
a close final game to
Wellington 49 to 47 with
Doug Foster again leading all
scorers with 17 points.

On December 19 the
Bronchos beat Groom 52 to
20 with Lance Thornberry, a
freshman, leading all scorers
with 12 points.

On December 20 the
Bronchos lost to a fine
shooting Panhandle team 45
to 51. Dan Brandes had 18
points.

Their next game will be
December 29 against Spear-
man B-team at Spearman.

CLARENDON BRONCHOS

The Bronchos are taking a
deserved Christmas vacation
this week having played
fifteen games in the past six
weeks, including tourna-
ments. So far the Bronchos
have placed in two tourna-
ments, winning the Conso-
lation Championship at
Estelline and the Champion-
ship at Wheeler. Their
record stands at 10 wins and
5 losses.

On December 13 the
Bronchos hosted White Deer
and lost 39 to 44. The
Bronchos may get another
chance to play the Bucks at
the White Deer tournament
in January. Keith Floyd led
scorers with 18 pts.

On Dec. 15 the Bronchos,
traveled to Valley and won 45
to 42. The game was a very
physical game. Keith Floyd
and Irvn Thomas each had
15 pts.

On Dec. 19 the Bronchos

hosted Groom and won 59 to
48. The Tigers had beaten
the Bronchos earlier in the
season 54 to 49. It is always
enjoyable to beat a team
after having been beat. We
play Groom the first game of
the White Deer tournament.
All ten players scored during
this game with Billy Gardner
leading all scorers with 18
pts.

On Dec. 20 the Bronchos
traveled to Panhandle and
won 51 to 44. Irvn Thomas
had a good game and led
scorers with 14 pts. both
Keith Floyd and Duna
Weatherton had 12.

Now is the time to control cattle lice

Lice cost U.S. cattlemen
more than \$50 million
annually, so it is important
to control them, says Ronald
Gooch, Donley County A-
gent.

Dr. Carl D. Patrick of
Amarillo notes that lice begin
to reproduce rapidly with the
onset of cool weather, so
peak populations on cattle
occur in late winter and early
spring. Uncontrolled lice can
soon infest a whole herd
because with cold weather,
cattle tend to bunch up more
so that the pests can move
easily from one animal to
another. Heavy hair coats on
animals during cold weather
also afford protection for the
parasites and allow for
increased reproduction.

Both types of lice—
bloodsucking and biting—
infest cattle. Sucking lice
pierce the animal's skin and
suck blood while biting lice
feed on particles of hair,
scale, scab and skin
exudation, explains the
entomologist.

Lice infestations irritate
animals, causing itching,
scratching and rubbing on
fences or anything else
available. This produces
denuded areas, bruises and
lacerations on the affected
animal. Heavily infested
animals will have an
unthrifty appearance and will
suffer weight reduction,
decreased milk production,
anemia or even death. Lice
infested animals may also be

A review of our season
would include a compliment
from Coach Overcast to the
Bronchos for their good
attitude, determination and
hustle so far this year. Coach
Overcast feels that the ball
club is maturing into a
district contender with ex-
cellent potential. The team
improvement has been
steady, with seven practices
and seven games left before
district play starts.

On December 29 the
Bronchos travel to Spearman
and on the 30th to Kress.

THE CLARENDON COLLEGE Livestock Judging team took part in the Junior College Livestock Judging clinic at Panhandle State University. The clinic was sponsored by the Animal Science Dept. and the Block and Bridle Club. Back row [L.-R.] Reece Rabestraw, Fargo, Okla.; Jimmy Don Davidson, Quitaque; Cliff Wedener, Memphis; Bruce Pickens, Canadian; and Jerry Hawkins, Instructor. Front row [L.-R.] Lynette Gable, Panhandle; Jess Flores, Hart; and Denise Johnson, Lockney.

Position dust bags prior to
lice buildup so that cattle can
become accustomed to using
the bags. A dust bag station
should serve about 30 head.
Depending on cattle size,
place the bags so that they
hang 18-24 inches above the
ground. Forced-use of dust
bags, where they are placed
so that cattle must pass
under them to get feed or
water, begin to control lice
sooner than those used
free-choice. By allowing a
two-to-three week adjust-
ment period, free-choice
bags can be about as
effective as forced-use types.

To my patients:
Inflation is a growing problem for everyone including the physician's office. Rather than raising our fees now, as we may have to do from time to time, we are asking your assistance in a new cost cutting plan.
Beginning 1-1-78, we will ask you to pay for your office call at the time of your visit. By asking you to do this, we can significantly reduce the cost of bookkeeping and billing.
We understand that on occasion it will be necessary for you to ask for a statement rather than paying at the time of service. As in the past, we will do this for you if the exception is warranted.
For those of you with major medical insurance, Blue Cross-Blue Shield, Medicare, or other insurance, please retain your receipts you will receive from our office. You will note it is entitled "The Attending Physician's Statement" and it merely needs to be attached to your insurance or Medicare claim form with your policy number for reimbursement from your insurance company or Medicare. Please retain these receipts for your insurance
