Old Clothing Drive Begins April 10th

Plans are being made at this time by members of the Clarendon Lions Club to enlist the support of the entire community in the nation-wide drive for used clothing, the clothing, and shoes, and bedding are desperately needed by destitute and homeless people in the countries which are our Allies. All kinds of serviceable clothes, shoes, and bedding are being called for, as well as usable piece goods in lengths of 1 yard or more.

It is planned to use the Red Cross room as a concentration point, and everyone who has any of the items mentioned should take them there, beginning Monday morning, April 10th, and each day thereafter through April 30.

Every family has at least a few things of this kind which they no longer use, and we should send them to those unfortunate refugees who have no way to help themselves.

RATIONING AT A GLANCE

Phoebe Ann Buntin

Applications for canning sugar will be at the grocery stores by the tenth of April. Please wait and get your applications there and do not go to the Ration Board to obtain them, as they will be distributed to the grocery stores as soon as they are received from the Lubbock office. As soon as the applicant knows the exact amount of fruit to be canned, mail the application to the Local Board with Spare Stamp 13 from ration book IV for each person whose name appears on the application. Since these applications must be approved by the Board, it will speed matters both for yourself and the Rationing Board, if you will mail all applications. As canning sugar will be issued through October 31, it will be to the applicant's advantage to wait until you know how much fruit will be available and the exact amount of sugar needed to can it.

Moffett Governor Of Texas Today

Senator George Moffett of Chillicothe became governor of Texas Wednesday evening at 10:30 p. m. when Gov. Coke Stevenson crossed the line into Mexico at Laredo at that hour.

Lt. governor John Lee Smith is also out of the state. He is said to be on a mission to Mexico in connection with new airplane routes that soon are to be established between our nation and her sister Republic to the south.

Senator Moffett, known and loved by the thousands as "Cotton George," is president pro tempore of the state Senate and automatically became governor as explained above.

Senator Moffett has long been identified financially with the local Clarendon Motor Co. with W. W. Noblet, and makes several visits to our city each year where he has a legion of friends.

Interested in farming in a big way himself, Senator Moffett can readily understand the problems of the farmer. He has ever championed the cause of the farmer in Texas, and many of the most beneficial protective laws affecting farmers, were sponsored by Senator Moffett.

FORMER LELIA YOUTH KILLED IN GERMANY

Word has been received by Mr. and Mrs. Howard Hughes of Bentonville, Ark., that their son Louis was killed in action in Germany on February 12th.

Louis entered the service last September and went overseas in January. He, with his parents were residents of Lelia Lake up until about five years ago. Mrs. W. L. Butler is his grandmother.

Lt. Howard Strawn and wife and small son of Altus, Okla. spent the weekend in the home of his parents, Mr. and Mrs. W. H. Strawn.

Commission Form Of City Gov. To Continue

Clarendon voters went to the polls Tuesday of this week and cast a majority of votes to continue the present form of City government which consists of a mayor and two commissioners. There were 78 votes cast to abolish the commission form and 151 votes against the abolishment.

Clarendon has always had a reputation for close races and this was witnessed again Tuesday when O. C. Watson received 111 votes for the office of mayor and Cap Morris, write-in candidate received the same amount, 111 votes.

The present mayor and two commissioners will hold their regular meeting Saturday of this week and will canvass the election. If the results of the canvass still show a tie vote, they will order another election to be held in order to settle the question. Complete information will be announced after their meeting regarding the entire set-up.

POSTAL RECEIPTS ON STEADY GROWTH

The stamp sales of the Clarendon post office for the past three months shows a total of \$5,141.37 which is a gain of \$541.27 over the same period last year. The stamp sales for the month of March exceeded those of March of last year by \$373.59.

The sale of money orders set a new all-time high mark the past quarter which includes three months. The total value of money orders sold is \$18,185.60.

During the same time, the local post office cashed money orders to the amount of \$20,246.03 that had been issued by other post offices. Much of this amount represents the savings of men and women in the service who want to have a snug sum when the war is over.

Documentary stamps to be used on legal papers, and which reflects the sale of local real estate, were in greater demand the past quarter when the sales reached \$489.73. This is more than double that of the same period in 1944.

Baptist Revival Begins April 8th At Lelia Lake

A revival meeting is to begin at the First Baptist Church in Lelia Lake next Sunday, April 8th, according to Rev. R. L. Cooksey, pastor. The preaching will be done by Rev. Cooksey, and he states that the singing will be under the direction of Mr. C. C. Scott of Lone Wolf, Okla.

Rev. Cooksey is well-known to people in Donley County who will want to hear him in the coming revival. His sincerity of purpose and ability to preach the gospel facts has won him praise wherever he has preached.

Song services, under the leadership of Mr. Scott, promise much enjoyment for those who love to hear and sing the gospel songs.

The morning services will be held at 10:30 a. m., and the evening services at 8:30 p. m.

A cordial welcome is extended to the public to attend every service.

Annual College Play, "Miss Jimmy" Scheduled For Friday Night

HAVE YOU CONTRIBUTED TO THE CEMETERY FUND THIS CURRENT YEAR?

The Trustees of the Citizens Cemetery Association have mailed out letters asking for donations for the up-keep of the Cemetery for the year 1945. They now have a man working six days a week, and later on will put on another man if donations come in sufficient to pay him. The Cemetery has grown so big one man cannot keep it up as it should be and everyone interested in any way in the up-keep will please make their donations as liberal and promptly as possible.

The Trustees urge everyone to visit the Cemetery and see just what has been done. It takes money to keep it up and every person owning a Lot out there is expected to contribute something each year.

Freeze Blasts Big Fruit Crop

The traditional Easter spell arrived two days late this year, but it made up in intensity for its tardiness. Thursday night, the thermometer fell to 20 degrees after a cloudy day that brought light snow to the entire county.

Fruit growers estimated that the greater part of the fruit crop had been killed and that the damage would be extensive with the exception of grapes and berries. While most reported that their fruit was ruined, there were some who are counting on the earlier moisture to pull a portion of the crop through.

Last year's killing freeze came on March 23rd but in spite of the low temperature reading, a fair fruit crop was harvested.

Wheat growers reported that their crops had been set back, but few expected any serious damage of a permanent nature.

GRANDPARENTS OF TWINS

Mr. and Mrs. W. H. Strawn are the grandparents of twins born Friday March 30th to Mr. and Mrs. Paul Curry of Clovis. The twins were a boy and a girl and were named Jane Ellen and James Ellis. Mrs. Curry will be remembered here as Harvey Lou Strawn.

ONLY 50 CHERRY TREES LEFT AT AGENT'S OFFICE

According to Chas. Reed, County Agent, only 50 Cherry trees are now left for those who desire them. These are of the sour variety, one of the surest in the Panhandle area. These trees are priced practically at cost and may be purchased at the County Agent's office. If you are planning on setting out cherry trees, now is your opportunity to get them at nominal cost.

Cpl. Chas. Cross from Ft. Leonard Wood, Mo., spent the week-end with his wife and to get acquainted with his new son.

In accordance with custom, the Clarendon Junior College will present its annual play Friday night, April 6, for which has been selected a comedy in three acts entitled "Miss Jimmy." It is acclaimed by members of the faculty as one of the best ever to be presented from the stage of the High School auditorium.

The role of Jimmy is played by Claude Hearn who, in an attempt to steal a dress from a girls' dormitory as initiation into a fraternity, is caught and held prisoner by a group of girls attending Brier Mountain College for Girls. The story revolves around the girls' holding him in captivity for ransom by his fraternity brothers.

The girls who hold him are: Florence, played by Helen Porter; Louise Ewing (his only sympathizer), played by Pat Alverson; Doris, played by Dorothy Kennedy; Harriet, played by Frances Phelps; and Catherine, played by Shirley Smith. Bill Lowe plays the part of Professor Frazier of the English Department of Brier Mountain; his sense of humor is an amazing one. Javan Tucker displays his acting genius in his part as "Droopy," the colored lightning bolt around the dormitory.

The cast has been working day and night for some time to bring the play almost to the peak of perfection; it guarantees that you will enjoy it immensely. The price of admission will be only 15¢ for students, and 25¢ for adults; it will start promptly at 8:30 p. m., so come early and be assured of a good seat.

Wayne Johnston Missing Over Germany

Word was received here Wednesday that Lt. Wayne Johnston was reported missing in action since March 18 over Germany. Wayne is the son of Mr. and Mrs. V. V. Johnston of El Paso and formerly of Clarendon.

The following article was received by this office and set up earlier this week concerning Lt. Johnston prior to receiving the message Wednesday.

AN EIGHTH AIR FORCE BOMBER STATION, England—On his first mission with the Eighth Air Force, 2nd Lt. Wayne L. Johnston, 21-year old B-17 Flying Fortress co-pilot, of Clarendon, flew against enemy marshalling yards at Dresden, Germany, recently, as the Allied air forces' fifteen day blitz, in coordination with the Allied drive to and across the Rhine, staggered Nazi military and industrial installations in Germany.

Before going into combat, Lt. Johnston, son of Mr. and Mrs. V. V. Johnston of near Clarendon, received tactical training in England. Before he entered the air forces, Lt. Johnston was a student at the University of New Mexico.

Lt. Johnston is serving with the colorful 390th Bombardment Group, which has been decorated by the President for skill and daring in battle, and which shares in another Presidential award for its contribution to the success of the Third Air Division's epic assault on key aircraft factories at Regensburg, Germany. His group has destroyed more than 400 enemy fighters in over 250 operations against military targets in Nazified areas in Europe.

Mister Peltz Is Peeved!

Mister P. sells charts. Pie-charts, bar-charts, fever-charts—in pink and green and purple—proving anything you want.

He has a nice new chart on the cost of living. It shows the price of practically everything curving sharply up after war began.

But one price stubbornly stays down at pre-war levels. It's the price of electricity. It upsets the neat cost-of-living curves. It upsets P. P. Peltz. He's peeved.

We're sorry to offend Mister Peltz, but glad that we've been able to keep electricity plentiful and cheap when so many things are scarce and expensive.

It hasn't been easy to serve busy homes and booming war plants at the same time—with the friendly, efficient service we like to give. But all our folks have pitched in and worked hard to make it possible.

BOOK CLUB OBSERVES TEXAS PROGRAM

The members of the Book Club held their annual Spring Round Up at the ranch home of Mrs. Bill Thornberry Tuesday afternoon. A typical western Rodeo was held at this time. Cow-hands assisting Mrs. Thornberry were Mrs. Allensworth, Mrs. Ballew, and Miss Berry.

Shortly before the appointed hour for beginning the stunts members from neighboring ranches arrived dressed in various regalia of true western style. Tenggallon Stetson hats, boots, riding breeches, and leather jackets were seen in abundance. Those not fortunate enough to possess a complete western costume added a bandanna, gun, scabbard, or some other similar item to their attire in keeping with the spirit of the day.

Rodeo Boss, Mrs. Allensworth, directed the events of the day. Each member present participated in the Bull-Dozing Contest by giving an item from "Tall Tales from Texas." Trick and fancy singing was done by two experts

in that field, Mrs. J. H. Howze and Mrs. Rolle Brumley, accompanied by Mrs. Rayburn Smith. They sang a medley of Texas songs. The World's Champion Cow-girl, Mrs. Joe Ritter, related the story of "Red Bar Ball", by Mrs. Lona Shawyer, a former Clarendon resident.

Following the stuents, chuck, consisting of steak, red beans, vegetable salad, apricots, hot rolls, coffee, and brown bread, was served.

Guests were Mrs. Howze and Mrs. Russell Sanborn. Members attending were Mesdames W. E. Ray, Frank Phelan, C. B. Morris, Don Grady, J. G. Stewart, Rayburn Smith, Lloyd Shelton, Nellie Hoigatt, Rolle Brumley, C. E. Bairfield, Walter Clifford, B. G. Watson, Joe Ritter, C. M. Lowry, Bill Bromley, L. N. Cox, and Miss Lucile Polk.

Easter lilies and peach blossoms were used in decorating the spacious living room. The center piece on the dining table was a nest of colorful Easter eggs placed on a reflector. Each service was set on a lacy place mat edged in a pastel color. Place cards were pretty colonial girls, and nut cups were tiny Easter baskets filled with colored glazed almonds. Favors were miniature straw sailiors. The following menu was served: shrimp cocktail served in sea shells, chicken a la king, asparagus, carrots, mint peach salad, rolls, orange sherbet, and iced tea.

RED CROSS VOLUNTEER SERVICE

HOME SERVICE

The National Odd Shoe Exchange is operated for the benefit of persons who, through disease or injury wear shoes of different sizes, or who because of amputation must buy two pairs of shoes in order to get properly fitting pair; which involves expense and the problem of what to do with the other pair of mis-mates.

The exchange keeps a file of such persons and notifies them of the opportunity to exchange. This service is on a national scale. The St. Louis Odd Shoe Exchange, sponsored by the midwest Polio Association and the Child Conservation Conference carries on a similar service.

The War Department has set up procedures for handling and safeguarding soldier money, and this encouraging the soldiers to save. Four plans are suggested. 1. Purchase of war bonds which will be held by the Treasury department if he is overseas or delivered to him if in this country. No bonds are sent overseas. 2. By opening a soldier deposit account. After six months this money will draw interest at 4%. 3. By personal transfer account, arranged through his commanding officer. 4. By Class E allotment, by which the money is deducted from his pay and sent to the individual or bank designated

by him. The War Department is encouraging men overseas to send back to the U. S. as much of their money as possible by one of these methods.

A woman in the Army, commissioned or enlisted member of the WAC, nurse, hospital dietitian or physical therapy aids, serving overseas may request return for duty in the U. S. when her husband is returned to this country from a permanent overseas assignment with the Army.

A large number of states are passing laws for the benefit of servicemen and ex-servicemen.

ASSEMBLY OF GOD

A. W. Harris, Pastor
I was glad when they said unto me, Let us go into the house of the Lord. Psalm 122:1.

Parents have you said that to your child? Juvenile delinquency is largely the result of parental delinquency.

If right principles are instilled into their hearts and minds there will be no room for evil tendencies. Children brought up in Sunday school are seldom brought up in court.

Let's all go to church. But there is a spirit in man, and the inspiration of the Almighty giveth them understanding. Job 32:8.

Global Air Evacuation System Speeds Wounded Yanks Back Home

Nearly 800,000 wounded, sick and injured American servicemen have been transported by airplane from battle zones in all parts of the world in the two and a half years since air evacuation became an accepted part of the Military Medical Program, the Office of War Information says in a comprehensive report on air evacuation for our wounded servicemen abroad.

One out of five American war casualties who returned to this country last year came by plane. They totaled 43,000—a number 10 times as great as the number brought home by plane in 1943.

Military authorities today are enthusiastic about air evacuation and term it one of the five greater life-saving measures of modern military medicine. Without air evacuation, reported the Air Surgeon General of the Army Air Forces, "Neither sulfanilamide, plasma nor surgical skill could have availed to save the lives of the wounded."

Not only does air evacuation provide the speediest means of removing the wounded from battle zones to rear areas, but it has proved its value logistically, the Army told OWI. The same planes that fly the wounded out of battle areas, have flown in laden with vital supplies—food, munitions or medical necessities.

In the fighting zones it is likely that the roads are limited in number and capacity, and that rail lines are either non-existent or consist of one-track lines. By moving patients out over these surface lines, sometimes it is impossible to move supplies in. Air evacuation relieves the roads so that there is no interruption in the flow of needed supplies.

Air evacuation has also been endorsed because of its strategic value to the Military Commander in battle. It is reported to have contributed to the success of every major land offensive involving American Forces in this war. The success of a campaign, it is said, sometimes may hinge on an army's ability to evacuate its non-effectives. In Tarawa, for instance, the retention of the wounded on the island would have hampered military operations. In New Guinea, where the only other form of evacuation was by foot or on pack animals over the Owen Stanley Mountains, all casualties were moved by air.

The Army, Navy and Marines all use air evacuation today. The Troop Carrier Commands of the Army Air Forces transport wounded from battle zones to rear areas of safety, and the Air Transport Command flies those who are returned to this country. The Naval Air Transport Service carries out a similar program for the Navy.

Edith Shelton of Amarillo spent Easter holidays at home.

Edith Shelton of Amarillo spent Easter holidays at home. Geo. Watson and Victor Smith from Lubbock were home for the Easter holidays. The world's largest tin smelter was completed at Texas City in 1942. Bolivian ore is utilized primarily.

BIG GENERATORS FOR RUSSIA

The famous Soviet Dnieprostroy hydroelectric development, developed by U.S.S.R. forces in 1941, and further destroyed when the German invaders were driven from the Ukraine in 1943, is to be rebuilt. The nine new generators, to be built by General Electric at Schenectady, will be rated 90,000,000 kva each, 16 per cent more than the earlier ones. Weighing more than 1000 tons each, they will exceed all existing machines in both diameter and total weight.

BLACK BOY

Reviewed by Beth Davis

"Black Boy" is the true story of the life of Richard Wright, Negro, who was born on a plantation near Natchez, Mississippi. It is a pitiful story somehow, and makes one realize how hard it must be for a Negro to grow up in the South and be a decent individual personality. It shows that, even in America, there can be poverty, ignorance with little hope of education, fear, and uncertainty. In fact these qualities in the Southern-born Negro are almost as characteristic of America as an apple pie or fried chicken.

This book is written in the usual style of American literature, with no Negro dialect, with correct punctuation, and with no "swears" or curses spared.

The setting changes from one small, Southern town to another several times. Richard finds new friends in each town only after he

has fought the "town bully."

The other characters are Mrs. Wright, Richard's mother, who is strict and often beats him; Mr. Wright, Richard's father, who leaves his family to live with another woman; several uncles and aunts who think they are Richard's betters and beat him occasionally; and his grandmother and grandfather.

"Black Boy" is unlike any of the recent books; it opens the eyes to the fact that Negroes are men and women with hearts, souls, and minds as well as bodies, who need opportunities to improve their race. It will live on as a challenge to white Americans to give the Negro fair and equal rights, and a hope to Negroes of being granted these rights.

THE REAL MEANING OF EDUCATION

By Manly Bryan

Too many people believe that an education is just the process of learning and equipping oneself for his future life. Although this is the most important factor, there are some more steps which everyone must have. In going to school a person doesn't only learn the three "R's" but also many other things. Lasting friendships are made in the schools; even marriages arise there. One also learns how to act in the midst of people, how to be disciplined, and at the same time how to have fun. Yes, it is true, the happiest days of one's life are in the schoolrooms.

After a student has just graduated from college, or the last step of his education, he may think that his education is completed. But this is not true. Education begins the minute a child is born.

He learns how to talk, to walk, and to do other numerous things. Isn't this education? Later he goes to school and learns additional things. Then he starts what everyone thinks is the most important part of his life, manhood. Yet, the real education has just begun. He then learns the hard facts of life; everytime he reads a newspaper or magazine he is being further educated. Therefore, one can never truthfully say that his education is completed. Yes, the real meaning of education is just life, or the art of living.

THE DOINGS OF THE CHOIR

Friday morning at the fourth period we were honored by the High School Choir's singing for us. Then Sunday afternoon at 5:30 the choir put on a very nice program at the Presbyterian Church. The songs were "Midnight on Olive's Brow," "The Lord is in His Holy Temple," "Low in the Grave He Lay," with a duet by Lovey Stanley and Cora Lee Muse, "O Lord of Heaven," by the girls, "Peace on Earth," by the boys. There were scripture readings throughout the service illustrating the songs. The last number was the "Rostary" sung by the Chorus. It was really very nice, and we hope the choir will put on another program very soon.

Here's the new Arrow tie that's making fashion headlines in the May Esquire. It gets our vote as one of Spring's best looking ties because:

Its patterns are so varied and handsome—its colors so crisp and masculine and because it's fine fabrics have just the body that's needed for creating neat, well formed knots. A special lining makes each proof against premature wrinkles. How \$1.50 about a few for you today?

MOOS OF THE MOMENT
BY UNCLE BOB
of the Kraft Dairy Farm Service

American cows have good reason to feel all puffed up over their 1944 production record. But I hope they don't get really puffed up—by bloat.

I just want to drop a reminder that if you are using legume pasture there is danger of bloat when the cows are shifted from winter feeding to pasture.

When you turn cows out on alfalfa, sweet clover etc., it is best to let them graze only a short time, in the first few days on this forage, the extension people tell me. Also, feeding hay and grain in the barn before they go into the pasture will help reduce the danger of bloat.

Bloat can prove troublesome and nowadays no dairy farmer has time to give to special problems such as this. I hope you'll use extra care to prevent it.

Would you like to have some good, sound suggestions on how to save time and labor when you start making hay, together with some ideas on improving hay quality? The current issue of the Kraftman features an excellent article on hayting which will give you some mighty worthwhile tips. Write Uncle Bob at 500 Peshtigo Court, Chicago 90, Ill., for a free copy of the March-April issue.

reduction in supplementary grain feeding.

The extension services recommend drilling Sudan but the seed may be broadcast with good results. If you use it with soybeans, the seeding rate suggested is 25 pounds of Sudan and one and one-half bushels of soybeans per acre. Sudan should be seeded as close to corn planting time as possible.

Seeded alone, up to 35 pounds of Sudan seed per acre is preferred. The rate depends somewhat on your type of land and the locality in which you live, so I suggest you get recommendations from your county agent and from the following booklets:

Circular 276, Extension Service, University of Missouri, Columbia, Mo.; Circular 321, Oklahoma A. & M.; Stillwater, Okla., and Bulletin B-69, Texas A. & M., College Station, Tex.

Don't forget—let the Sudan grass reach at least 18 inches in height before you turn your cows into it.

One of my school teacher friends asked if I could help design a stall or something to fasten around each child's desk, to keep the youngsters from doing so much squirming. For some reason or other that reminded me that stanchions have proved a considerable aid in the milk barn.

Stanchions help keep cows quiet while they are being milked. One college made a test and proved that use of stanchions actually helped increase milk production.

Ready-made metal stanchions are best, of course. But if you're having trouble getting them, Missouri offers two simple designs for stanchions which you can make yourself. Detailed instructions will be found in Circular 491, Extension Service, University of Missouri, Columbia, Mo.

If you "plant" more War Bonds now, you'll reap a harvest of new equipment sometime in the future!

*NOTE: There usually is a 3c charge for pamphlets mailed to non-residents of a state, but possibly your own state has a free pamphlet on the same subject. Ask your county agent.

ASHTOLA SCHOOL NEWS

Easter Egg Hunt

Sandra Jo Bownds, Royce Morris and Mary Evelyn Brinson enjoyed hunting Easter eggs Saturday on the S. J. Ranch. They were guests of "Bumpy" Word.

Writing Certificates

The children of Ashtola school were interested in how their writing compared with the national requirements. They wrote certain specified letters, numbers and paragraphs, and sent their papers to the National Board of Examiners at Bridgeport, Illinois. They received their papers Friday and are happy to report that each one received a writing certificate for effort. Twenty-five out of thirty-six pupils received certificates with these words on them: "Passed by the National Board of Examiners."

Party

Mrs. Brandon and Mrs. Viola Graham entertained their Sunday school class with a party given in Mrs. Brandon's home. Those present Saturday night were: Sandra

Bownds, Donsey Leffel, Harry Cox, Allen Ray Graham, Shirley Wilson, Betty Anglin, Lovell Myers, Gene White, Wanda Jo Graham, Frankye Wilson, Betty Wilson, Royce Morris, Billy Jo Marshall, and Floyd Henson. Mrs. Mildred Tomlinson, Mrs. Eutha Hickey, Mrs. Jane Bownds and Richard were also present. All reported a wonderful time and promised to come to Sunday school every Sunday and try to bring someone with them.

"Broncho Busters"

Since the Cozy Theatre burned, the children haven't been seeing very many "Wild West" shows. It seems as though Theron Holland, Royce Morris and Gene White tried to create one of these shows Sunday. These "three Mesquiteers" all climbed aboard a favorite horse. The latter didn't like such nonsense and just "dumped" them off. Theron got a smashed foot and a scratched finger. Royce landed on a fence and now has an ear pierced ready to wear an ear-ring. Gene has an arm that is quite butchered up after landing on the same fence. He declares he can't write on the board but when asked if he could use the arm on a dark night with a certain cow-girl, he grinned and said, "Just the thoughts of that makes me well again!"

Easter Program

The children and grownups of this community presented a very touching Easter program Sunday night. We had a house nearly full of people and several told us they enjoyed the program.

On behalf of Mrs. Graham, Mrs. Brandon, Mrs. Miller, and Mrs. Hickey - - - we would like to express our thanks to each one that took part in the program or helped out in any way.

Picnic

We have never seen so many "red noses," scratched legs, and black eyes as are present this morning. All of them are results of an all-day picnic on S. J. Ranch Friday. Everyone in school got to go and each enjoyed the day.

Other than the children, we were happy to have Mrs. Springer, Mrs. Henderson, Mrs. Wallace and Bobby, Mrs. Graham and J. R. Mrs. White, Mrs. Marshall, Mrs. Barker and Doyce Graham Jr.

LIBRARY NOTES

By Mrs. C. A. Burton

According to the reviews, two types of books are predominating just now—books dealing with the racial question, and war books—not stories but descriptions of actual invasions such as "Thirty Seconds Over Tokio" or "Guadalcanal Diary." "Black Boy" illustrates the type of racial stories, really stories or novels. Then there is an increasing number of books of history or travel about other countries, not only for grown-ups but for children.

The Braille Institute of America has announced that a Braille Edition of John Hershey's best selling novel, "A Bell for Adam," has been prepared for lending libraries for the blind.

Interesting things come out of auction sales sometimes. Recently Edgar Allan Poe's "Murder in the Rue Morgue," the grisly tale that set the fashion for the modern detective story illustrated this fact. It was twice rescued from the rubbish heap and three times saved from fire, and now this with 269 literary treasures is being sold by Drexel Institute of Technology in Philadelphia.

Poe's story was first published in 1841. This original manuscript in Poe's firm neat handwriting, was plucked from a waste-basket

by J. M. Johnson, a hotel keeper. He had it bound in its present form after rediscovering it in an old music book which he was about to throw away. There is no record of what Poe was paid for the story, but later he offered it and 32 other stories, to a publisher in exchange for 20 free copies, and the publisher turned down the offer.

George Sessions Perry's first novel, "Walls Rise Up," was printed in 1939 and will be reissued by Whittlesey House, who are the Publishers of his famous "Texas; A World In Itself," and of his recent book "Where Away." One of his earlier books which our readers have enjoyed is "Hold Autumn in Your Hand."

The May Book-of-the-Month selection is "American Guerrilla in the Philippines" by the Pulitzer Prize-winning correspondent, Ira Wolfert. It has been sold for early filming.

W. L. White's "They Were Expendable" is to be filmed, and the movie adaptation is being made by Commander John Ford who has been making Navy films ever since the war began. He is to receive the largest fee of his career—\$200,000—but it is all to be used to help the survivors of those who have paid the supreme sacrifice in the war.

Gwethalyn Graham's "Earth and High Heaven" wins an Anisfield-Wolf award for the best fiction of 1944 on racial relations.

But how can we tell which oil is fine quality?"

If you also wonder how to pick a quality lubricant... Phillips comes to the rescue. Gives you one easy way to make certain of getting quality motor oil.

NEED MORE CHICKENS

Judge Jones has asked the Extension Service to help with a presently urgent food problem. I have assured him that Extension will help—as it will always help to solve either wartime or peacetime food problems.

In a nutshell, the present problem is this—the Nation needs more meat chickens, as quickly as possible. The solution to the problem is to urge chicken raisers to grow one or two extra broods of chicks, starting right away, or to greatly increase the size of broods already in prospect.

That means a big additional burden on the hatcheries. They have been contacted and will handle their part of the load. Immediate action is necessary because if chicken raisers will order now, they can have meat chickens to sell by mid or late July—and the country needs them.

As an added incentive to growers and all who handle poultry,

ceiling prices of broilers, fryers, and roasters will be raised by a national average of about 1 1/4¢ per pound on July 1. The exact tentative advances for various parts of the country are shown on the sheet attached to press release.

Extension's major job is to make known the need for these additional meat chickens and induce growers to raise more—beginning right now.

Military demands for meat of all kinds are so heavy that civilian per capita supplied for "red" meats in 1945 will not be greater than 126 pounds, as against 147 pounds last year. Civilian chicken supplies for 1945—at present—are forecast at 20 pounds per capita as against 24 pounds last year. The over-all meat shortage picture can be very happily improved if growers will raise more meat chickens. The advanced ceiling price (for July 1 operation) applies to broilers, fryers, and roasters.

In all of your contacts and informational outlets—please stress the need and desirability of additional meat chickens to be started right now. Hatcheries in all parts of the country have signified their willingness to run a longer season and at higher output—to furnish the baby chicks for growers who desire to increase their number of meat chickens.

A substantial increase in the number of chicks planned for today is the quickest and most effective method of increasing the civilian meat supply. Extension workers can be an important factor in obtaining this needed increase.

Wolfe's New Berry Gets Big Boost

A new Texas plant is getting unusual attention and creating sensational interest all over the United States. More than 60 official State and Federal Experiment Stations have already arranged to test the new Rosberry that was recently introduced by a Texas Horticulturist, Ross R. Wolfe, of Stephenville, Texas. These experiment stations include internationally recognized horticultural stations like Geneva, N.Y.,

ROSS R. WOLFE

South Haven, Michigan, and Berkeley, California, and other stations representing complete coverage of every state in the Union.

The Rosberry was created by the famed Luther Burbank, but due to unfinished business in other fields of endeavor he never got around to giving it the time he desired. Discovered in the hills of Arkansas by Ross R. Wolfe of Wolfe's Nursery, it has brought sensational and widespread attention. In recent weeks hundreds of Texas people have planted it in gardens, on paling fences, trellises, and other places where the prolific growth of the vine shows to best advantage.

"I have never offered any new plant that I believe has more possibilities than the Rosberry," said Wolfe. "I believe in all sincerity that the results of official

experiment stations will prove its merit, not only as a luscious berry but also as a beautiful vine."

Mr. and Mrs. Jesse Harvey of Phillips spent Sat. night and Sunday with his mother, Mrs. Monica Harvey.

The many friends of Mrs. Cal Merchant will be glad to know that she is much improved though she is still confined to her bed.

SEVENTH WAR LOAN DRIVE TO OPEN MAY 14 WITH GOAL OF 14 BILLION

The Treasury will open the Seventh War Loan Drive on May 14th, 1945, with a goal of 14 billion dollars, the Treasury Department announces. One objective of this drive will be the sale of \$7,000,000,000 worth of Government Securities to individuals. This is the largest quota ever set

for individuals in a war loan drive. As a part of the campaign to raise this amount, an intensive program for the sale of Series E Bonds in plants and factories will begin April 9. "It is clear," Secretary Morgenthau said, "That federal expenditures are going to remain at a high level for some time to come. It is also apparent that funds in the hands of non-bank investors will continue to increase sharply under present con-

ditions. It is highly desirable to channel as much of these funds as possible into Government security investment, and to put them to work in the prosecution of the war."

Mrs. Thomas, who has been visiting her sister, Mrs. A. A. Mayes the past month, left for her home in Nashville, Tenn. Tuesday night. Mrs. Mayes accompanied her home for a visit.
