

Regatta Plans Are Completed By Committees

**Novelty Races Saturday Afternoon
To Be Featured; N. O. A. Races
On Sunday**

Program for the second annual Lake Brownwood Regatta, to be held June 20 and 21, was completed at a joint meeting of the program and publicity committees of the Brownwood Regatta Association Wednesday afternoon. The program follows the general outline of the first regatta held last year, with the addition of a number of new features.

If primary interest is the addition of two novelty races for Saturday afternoon, which the program committee feels will make the Saturday afternoon program possibly more interesting than the spectator's standpoint than the N. O. A. races Sunday afternoon. The two races were arranged by the committee after a trip to Fort Worth and Dallas two weeks ago, and will take the place of the originally announced sail boat races.

Contract also was signed this week with Louis Welk's orchestra to play for the Regatta Dance, to be held Saturday night on the roof of Hotel Brownwood. Welk, the most popular band man to play here in several seasons, will increase his orchestra to fourteen pieces for the Regatta Dance, and will add four performers, giving a first-class floor show during the dance. The augmented orchestra and floor show is now daily practicing for the Regatta Dance.

The Regatta will get under way Saturday morning, when bait and fly casting contests will be held at the lake, under the auspices of the Pecan Valley Chapter, Isaac Walton League. These tournaments will be the only feature of the Saturday morning program.

Saturday afternoon, aquaplane races and stunts will open the program, with local aquaplane riders performing. Following this will be specialty races for local and commercial inboard and outboard boats. These will be followed by the two novelty races, after which an additional program by the aquaplane experts will be given.

The dance Saturday night will complete the program for that day. Sunday afternoon, June 21, the National Outboard Association races will be held, with contestants from southwestern states participating. The large number of entries already secured assures a field of experienced racers in each race. Two heats of five miles each will be held in each class, with prizes of \$60, \$30, \$20, and \$10 offered the winners of each event.

The drivers' meeting will be held at 2 p. m. Sunday, promptly at 2:30 o'clock, the Class "A" race will start. This will be followed at 3:10 o'clock by the Class "B" race; 3:50 p. m., Class "C" and 4:30, Class "F", the big boats. A special free for all runabout race, Class "G", will be held at 5:10 p. m.

The publicity committee will start crews out through this section of the State on Monday posting bills, distributing literature and making advance arrangements. A sound truck will be sent over the same district the following week, immediately preceding the date of the races.

Advance sale of tickets to the regatta has been brisk, according to M. P. Wegner, ticket committee chairman. A prize of \$20 is being offered to the individual selling the largest number of tickets in advance; \$10 is offered for second prize, and \$5 for third prize. In order to qualify for these prizes, the contestant must sell a minimum of 100 tickets; however, a 10 per cent commission will be paid to all who sell more than 10 tickets, if they do not win one of the three major prizes.

According to an English expert, married life is very trying on the nerves until children arrive.

COMMITTEE TO MEET JUNE 15 TO MAKE UP DEMOCRATIC BALLOT

The Brown county Democratic committee will meet June 15 to make up the ballot for the July primary, make assessments of candidates to pay for expenses of election and name the election judges. Ten candidates for district offices filed their names with Thomas H. Taylor, county chairman before the deadline Monday midnight, and many county candidates have already filed their names, although the deadline is June 13 for them and for district offices that include only one county.

The state executive committee will meet to make up the ballot of state candidates and will certify the state candidates to the county committee before the June 15 meeting.

The district candidates are: For congressman, 21st district: Charles L. South of Coleman, (re-election); Dr. H. F. Miller of San Angelo.

For 35th district judge: R. L. McLaugh of Brownwood and E. J. Miller of Brownwood, (re-election).

For district attorney, 35th district: A. O. Newman of Coleman, (re-election).

For Representative, 125th district: D. D. Knight of Coleman, Rev. A. R. Watson of Brownwood, Ross Knight Prescott of Santa Anna and Zeno Ingram of Brownwood.

For Court of Civil Appeals: James W. McClendon, (re-election).

TRANSPORTATION AID IS GRANTED SCHOOLS

A total of \$4,636 of the \$11,591 received this week from the State Department of Education in final payment on this year's state school aid by county superintendent F. D. Pierce is for transportation to the schools of the county. The remainder will go for teacher's salaries and industrial departments. The state has paid \$7 per cent of the state aid grants approved for the year.

The warrants will be disposed of soon, according to Mr. Pierce, and the cash will be available to the school sometime next week.

The amounts received by the various schools as salaries and industrial aid are as follows:

Cross Cut, \$152 salaries; Grosvenor, \$358 salaries; Blanket, \$843 salaries; Early, \$719 salaries and \$37 industrial; Mukewater, \$180 salaries; Woodland Heights, \$239 salaries and \$37 industrial; May, \$1,626 salaries and \$74 industrial; Zephyr, \$871 salaries; Clho, \$152 salaries; Holder, \$54 salaries; Winchell, \$322 salaries; Brooksmith, \$827 salaries and \$37 industrial; Indian Creek, \$606 salaries; Bangs, \$1,747 salaries and \$74 industrial.

FARLEY TO EXPLAIN VETERAN BOND PLANS

James A. Farley, postmaster general, who is in charge of the distribution of the millions of bonus bonds to World War Veterans on June 15, will make a radio address on Saturday, June 13, explaining the final preparations for delivery of the bonds. The address will be from 6 to 6:15, Central Standard Time.

Mr. Farley's address will be over a nation-wide NBC radio hookup. Notice of the address, received by the local postoffice, follows:

"To all Veterans and others concerned:

"It will be my privilege on June 13, from 6 to 6:15, Central Standard Time, over a nation-wide radio broadcast (Blue Network, National Broadcasting Company), to bring to the men and women who participated in the World War a special message explaining the final preparations for the delivery and payment of the Adjusted Service Bonds.

"James A. Farley,
"Postmaster General."

Russian Wife Divorces Oil King

Troubled waters in the marital life of the man who controls much of the world's oil led to the divorce at The Hague, Holland, of Lady Sylvia Pavlova Deterding from her husband, Sir Henri Deterding, Dutch petroleum king, shown above. Sir Henri, director general of the Royal Dutch Shell Petroleum Co., was sued by his second wife, daughter of the late Paul Koudoyaroff, Russian general, for incompatibility. They were married in 1924.

BONUS BONDS WILL BE READY FOR DELIVERY TO VETERANS OF WORLD WAR ON JUNE 15TH

DELIVERY of bonus bonds to Brown county World War veterans will probably start June 16, according to an announcement made this week by Postmaster George Kidd, who said that the bonds would be mailed from Dallas June 15. To avoid congestion and confusion in the postoffice, delivery will be made from Memorial Hall, the first day. Definite announcement regarding plans for delivery will be made within the next few days.

It is estimated that there are approximately 800 veterans in this county who will receive the bonds and that about \$400,000 in the bonds will be delivered here.

The local post office will receive the registered letters containing the bonds, deliver the letters, certify requests for payment of the bonds and transmit the bonds to an office designated as a paying office.

The following instructions and regulations regarding the bonds and their delivery have been received by Postmaster Kidd.

The registered letters containing the bonds will be marked for delivery to addressee only. Regardless of the fact that the registered letters may be addressed in care of a person or institution, delivery shall be made to addressee only and in person. They must not be forwarded to another office the letter is to be returned to the sender immediately. If undelivered for other reasons, they are to be returned to the sender at the expiration of 30 days with reason for non-delivery shown on the envelope.

Veterans will be requested to be at home on the date of delivery to receive the bonds and be prepared to furnish suitable identification to the carrier, such identification to be made by a person known to the carrier. When the addressee is known to the carrier no other identification is necessary.

The identifying person should also sign the registry sheet. Every effort possible will be made to effect delivery by carriers for the reason that ordinarily they can secure identification much more readily than window clerks.

Redemption of Bonds

Adjusted-service bonds may be redeemed on and after July 15. Although they earn simple interest at the rate of 3 per cent per annum, no interest is payable on any bonds redeemed prior to June 15, 1937.

Veterans who desire to cash their bonds must sign the request for payment on the back of the bonds in the presence of a certifying officer.

(Continued on Page 6)

Will Move Bodies From County Farm

Removal of the eight bodies buried in one corner of the old poor farm site and discovered recently by WPA workmen who were clearing the tract for the construction of a municipal airport was made this week. After the graves were found an effort was made to secure the identity of those buried there, but only one was identified.

In accordance with law notices were printed and a court hearing was given for anyone who might wish to show cause why the bodies should not be removed. No contestants appeared. The bodies were placed in Greenleaf Cemetery.

In the village of Tenganan, Dutch East Indies, men are forbidden to work under penalty of a public thrashing administered by women.

COUNTY POLITICS IS WARMING UP AS JUNE MEETINGS APPROACH

With the coming of warm weather, politics in Brown county is beginning to warm up. Two community meetings, which would have been of importance to candidates for county offices, were to have been held during the past week, but were postponed because of bad weather. Other meetings will be held almost every week during June and July.

Interest in state politics is lagging this year, but is expected to pick up a bit after the middle of June, when Governor James V. Allred makes his opening speech of the campaign. One candidate for Governor, Senator Roy Sanderford, already has filled a speaking engagement in Brownwood, and one other major state candidate, Chairman Ernest O. Thompson of the railroad commission, facing re-election this year, was in Brownwood last week. Col. Thompson did not make a political speech, but his appearance here was of political significance. He made three non-political addresses during the day.

Nearly all county offices are being contested this year and rather warm fights are expected. The fact that W. E. Burleson, county clerk, is not a candidate for re-election has increased activity of candidates for this office. The same is true of the race for representative in the legislature from Brown and Coleman counties, where Courtney Gray, present representative has declined to seek re-election.

Following is the list of candidates for district and county offices that have authorized their announcements through The Banner:

For Representative, 125th District: Zeno C. Ingram, Rev. A. R. Watson.

For Judge, 35th Judicial District: R. L. McLaugh, E. J. Miller.

For County Judge: A. E. Nabors.

For Sheriff: Ellis Daughtry, J. J. (Jule) Alcorn, W. E. (Jack) Hallmark, Bert Hise.

For Assessor-Collector of Taxes: Winston (Wink) Palmer.

For County Treasurer: J. G. (Grandy) Gaines, R. A. (Bill) Sailer, Fred H. Smith.

For County Clerk: Myron Embrey, Vernon Green, Henry Taylor, County Commissioner, Precinct No. 4: Chas. B. Palmer.

For Commissioner, Precinct 1: W. W. Bourn, Lawrence Moore, E. S. Thompson, J. H. (Jim) Staton.

Commissioner, Precinct 3: L. L. Lanford.

MURDER TRIAL SET FOR MONDAY, JUNE 15

Trial of John Stover, charged with murder of Frank Davis in July, 1935, has been set for June 15, on the docket of the 35th judicial court here, and District Attorney A. O. Newman announced this week that the state will announce ready when the trial is called. A special venire of 60 men has been called for the case by District Judge E. J. Miller, and Allen D. Dabney, Eastland attorney, will assist the state in the prosecution, according to a statement made by the court this week.

The jury for this week was dismissed Tuesday afternoon until June 17. All criminal cases for the present have been disposed of, Judge Miller said. During the past week five men were convicted on various charges after entering a plea of guilty. They were as follows:

Jack Everett, tried for four cases of pipe theft, was sentenced to two years in each case, two of the sentences to run concurrently with two others, a total sentence of four years.

James Spencer Shaw, negro, on parole from the penitentiary at this time, was given two years in the penitentiary after pleading guilty to a forgery charge.

T. C. Reagan was given seven years in the penitentiary.

Merle Thomas, who plead guilty to a charge of theft was given a five year suspended sentence.

V. T. Thornton, charged with burglary, was given a seven years sentence.

Z. T. Fossitt, charged with theft of 1,000 feet of 2 inch pipe from the Woodridge lease near Cross Cut, entered a plea of not guilty. He was convicted and sentenced to two years in the penitentiary.

CONSOLIDATION OF SCHOOLS IN COUNTY CUTS NUMBER TO 18

Citizens of the Williams and Holder school districts voted to consolidate the two schools in a consolidation election held Saturday. Consolidation of the two schools reduces the number of schools in the county, including Brownwood Independent District, to 18. In consolidation election held Saturday voters of the Zephyr district and the Pompey Creek district of Mills county voted against consolidation.

Brown county commissioners court canvassed returns of the two elections in regular session Monday. In the Williams-Holder election the vote was 61 for consolidation and 58 against. In the Zephyr-Pompey Creek election the voters turned down consolidation with a 46 to 48 vote.

The Zephyr district voted in favor of the move, but the vote in the Mills county district was against it, according to the report given on the ballots cast.

Clear Creek school, which was operated last term, has signed a contract to send its students to Bangs school next year. Students of Elkins school, which is not consolidated with any other district, will go to some other school next year. They attended the Indian Creek school last year.

COMMITTEE TO MAKE REPORT ON PLANS TO ASSUME RELIEF WORK

All citizens of Brown county are urged to plan now to attend a mass meeting to be held in the district court room, Friday night, June 12, for the purpose of hearing the report of the relief planning committee, appointed several weeks ago to work out suggestions for formation of a community welfare agency. Unless immediate and concerted action is taken by the community, there will be a great deal of suffering and actual want among the needy of the county, members of the committee stated this week, pointing out the fact that the last checks to be issued to TRC clients have already been received, and that after July 1 all relief, other than the distribution of surplus commodities under the WPA program, by governmental agencies cease.

The planning committee, named after a mass meeting held several months ago, has considered the needs of the community at length and now has a report ready to present to citizens of Brownwood and Brown county, according to J. Edward Johnson, chairman. He urges that all organizations and individuals keep the date in mind and plan now to attend the second mass meeting when it is anticipated that a community welfare program will be adopted.

At the final meeting of the committee it was decided to present a plan whereby welfare matters would be handled by a board of seven members chosen from the county. The committee will recommend this step to the community at the meeting.

GLEN HUTTON JOINS CAREY LUMBER CO.

Announcement was made this week that Glen Hutton, formerly of Altus, Oklahoma, is now associated with the Wm. P. Carey Lumber Company here. Mr. and Mrs. Hutton and their five children have moved to Brownwood to make their home.

Mr. Hutton is an experienced lumber man, having been associated with the Long-Bell Lumber Company for a number of years. For the past two or three years he has been in government work, serving for a time as CWA administrator and later as district administrator of Federal relief in Southwestern Oklahoma. He resigned from a position as district representative of the Oklahoma State Board of Public Welfare, commodities distribution division of the WPA, in which capacity he had been serving for some time, several days ago to return to private business.

In Altus Mr. Hutton was active in all civic affairs. He is a past commander of the Altus American Legion post, and was a member of the Kiwanis Club, director of the Chamber of Commerce, roll call chairman for the Red Cross, was a director of the Salvation Army and a committeeman for the Boy Scouts.

As a general rule, a bear will not harm a motionless person.

Foils Woman's 'Air Suicide'

Grasping the tail of a mysterious young woman, as she fought furiously, intent on suicide Pilot Charles W. Sutherland manipulated his dipping, plunging plane to a successful landing in East Boston (Mass.) airport, and saved his passenger. The veteran aviator seized the woman when, at 1500 feet altitude, he saw her prepare to leap.

BROWNWOOD CLEAN-UP IS MAKING PROGRESS

Work of cleaning up Brownwood for the Centennial made rapid headway this week, with reports coming in from all districts of the city that residents and business men were co-operating in the clean-up and beautification campaign now in progress. Several hundred families have started cleaning and beautifying their part in the civic campaign, and an effort is being made to get all trash removed from yards and vacant lots and have it ready for the city's trash wagons when they come to pick up the trash.

In the downtown section several projects are under way. The fronts of several stores and other business houses are being refinished, and all business men have been requested to clean the sidewalks in front of their business houses, according to Dr. Mollie W. Armstrong, chairman of the business district.

Several large electric signs are being painted and repaired, and other beautification work is under way throughout the business section of the city. The Post Office department is having mail boxes throughout the city painted.

Definite progress has already been made in each of the four residential districts, according to Mrs. Carl Blasig, chairman of the entire campaign. The four districts are Coggin, South Ward, Central and Brownwood Heights, and a large corps of workers is handling the clean-up campaign in each district.

England pays less in the form of subsidies to its regular air service than do the United States, France and Germany.

Work Rushed To Complete WTCC Frontier Plans

Permanent Exhibit Will Show Resources of Section; Recreation To Be Stressed

Work on the West Texas Chamber of Commerce exhibit at the Centennial Frontier Exposition at Fort Worth is being rushed and will be ready in time for the opening of the big show July 1, according to Chester Harrison, secretary of the local chamber of commerce, who with a committee from the WTCC was in Fort Worth Tuesday to confer with Exposition officials regarding the exhibit. Mr. Harrison is in charge of arranging the diversified farming display, which will include exhibits ranging from pecans to dairy farming products.

The WTCC exhibit is to be housed in a replica of the old T&P railway station, a wooden structure, and will have a huge platform of the type usually found in stations built in the '70's. Railway lines extending from the Fort Worth terminal have been built to the station and will give passenger service to the Exposition grounds.

One portion of the building will be devoted to the Will Rogers Memorial Room. The remainder will be given over to exhibits representing recreational facilities, industries and agriculture of West Texas.

The recreational features of district 10, which comprises 17 counties, will be stressed in the "Heart of Texas" exhibit, plans for which are now being completed. This phase of the area is to be stressed inasmuch as the major resources of the district will be shown in the other exhibits. Mr. Harrison stated on his return from Fort Worth. A large map of the area will be displayed showing the highways, railroads, lakes, rivers and creeks. Hunting and fishing as well as other recreational features which will be of interest to tourists will be featured. All counties of the district will cooperate in preparation of the exhibit.

Major resources of West Texas will be shown in the WTCC exhibit. Among the products to be displayed will be grain, pecans, oil, livestock wool and mohair. All the exhibits are so arranged that they may be placed in the permanent Exposition Building at the close of the Centennial celebration.

Films showing scenes of West Texas towns, including those made in Brownwood recently, will be shown daily in one section of the building which is to be a replica of the old waiting room of the railroad station. A porter will be on duty in the waiting room, but instead of calling trains he will announce the films as they are shown.

The WTCC has opened a Fort Worth office in the Worth hotel where a staff of workers is in charge of arranging the exhibits and will be on duty to assist the towns and counties of the area in preparation of their exhibits.

PLAY AT EARLY WILL BE REPEATED JUNE 11

The play, "The Laughing Cure" which was such a success when it was given last week at Early High, will be presented again at the same place on Thursday night, June 11. In addition to the play, one hour will be allowed candidates to make talks.

For Representative, 125th District:
ZENO C. INGRUM
REV. A. R. WATSON

For Judges, 55th Judicial District:
R. L. McGAUGH
E. J. MILLER
(For Re-election)

For County Judge:
A. E. NABORS

For Sheriff:
ELLIS DAUGHTRY
J. J. (Julie) ALLCORN
W. E. (Jack) HALLMARK
(Re-election)
BERT HISE

For Assessor-Collector of Taxes:
WINSTON (Wink) PALMER
(Re-election)

For County Treasurer:
J. G. (Grundy) GAINES
R. A. (Bill) SNIDER
FRED H. SMITH

County Clerk:
MYRON EMBREY
VERNON GREEN
HENRY TAYLOR

County Commissioner, Precinct No. 4, Ward 2:
CHAS. B. PALMER
(Re-election)

For Commissioner, Precinct 1:
W. W. BOURN
LAWRENCE MOORE
E. S. THOMPSON
(Re-election)

Commissioner, Precinct 2:
L. L. LANFORD

35 CASES WILL NEED LOCAL ASSISTANCE AFTER FIRST OF JULY

July 1 the responsibility of 35 cases, or approximately 158 persons who have been receiving assistance from the Texas Relief Commission, will be turned over to the city and county governments, according to figures released this week from the district 14 T R C office here. The present case load in Brown county is 150, 80 of which will be eligible for old age assistance pensions.

Checks to cover the June budgets will be mailed out to the clients the first part of the month, and these funds are expected to take care of expenses of the clients for the entire month. After they are mailed there will be no more T R C budget checks sent out.

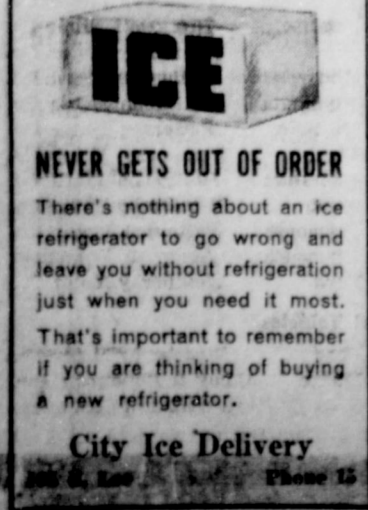

The county T R C office was closed last week, the work being taken over by the city-county case worker, Mrs. Bess DeBerry, who has been in charge of the Brown county office has been named district case worker supervisor and will be in charge in a supervisory capacity of welfare work in six counties of district 14. The remaining six counties will be supervised by Miss Sarah Knox, who has been case worker in charge for Runnels and Concho counties. The supervisors will assist in the distribution of government surplus commodities and assist in the work of the city-county case workers.

Chickens - Turkeys

Give them Star Sulphurous Compound in drinking water regularly. Use as directed and it will keep them free of germs and worms that cause diseases. Also free of blood-sucking lice, mites, fleas and bluebugs that sap their vitality and we guarantee you to have healthy, good egg-producing fowls and strong, healthy baby chicks at a very small cost of your money refunded.

FIVE POUND BASS LARGEST TAKEN IN FISHING CONTEST

First prize in the Lake Brownwood derby, sponsored by the Izaak Walton League Sunday, went to Grayson Brown, who brought in a bass weighing 5 pounds and 2 ounces. The second and third prizes were taken by Ben Fain, W. T. Fain and B. D. Sarles, who brought in a string of seven fish weighing 16 pounds and 11 ounces. First prize a \$15 rod, was for the biggest bass caught. Second prize, an \$12 rod, and third prize, a \$10 reel, were for the biggest string caught and for the first team to bring in the limit.

Some good catches were reported by the 37 fishermen who entered the derby, but fishing was not as good Sunday as it had been Friday and Saturday, the first two days the lake was open for fishing.

Judges of the derby were Game Warden J. H. Wood, M. P. Wegner and Luther Guthrie.

Fishermen who entered the derby, in addition to those who won prizes, were: Bob Ford, Bill Moore, A. T. Dunlap, Dr. D. R. Scott, Dr. Roy G. Hallum, J. C. Alexander, Walton Martin, Matt Scovell, Barnes Hoff, Wesley Hall, Norman Locks, N. D. Ledbetter, E. Stuter, Clay Parks Carey, G. H. Duren of San Angelo, O. D. Touchstone of San Angelo, H. L. Cravens, Taylor Hanna, Mr. and Mrs. Walter Emission, Dr. and Mrs. W. F. Corbin, David Camp, Homer Thomas, L. McKenzie, C. R. Ater, R. K. Boettcher, Walter Nelson, Bill Tullis of Graham, W. C. Leberman of Graham, Glen Brown and J. L. Brown.

PRODUCERS SEEK LOWER ALLOWABLE IN HEARING HERE

No ruling was made by Colonel E. O. Thompson, chairman of the Texas Railroad Commission Friday on a petition presented him by oil operators of the West Central Texas district at a commission hearing held here. Approximately 100 operators presented the petition which requested that the allowable production be placed on a top allowable basis rather than on the percentage basis now used and that the boundary line of the north end of the district be changed to include the south half of Jack county. Colonel Thompson said that the commission would rule on the petitions at one of its weekly meetings, and that they would act as soon as possible.

The change in basis to determine allowable production is sought to throw the cut on large flush producers recently drilled in Young and Jones counties. Impending overproduction is threatened due to the lack of market and pipeline outlets, according to the petition. The top allowable basis would reduce prorated production to 100 barrels per day for wells of 3,000 feet or less and to 150 barrels per day for wells of more than that depth. The move, if approved, will cut the district production about 1,400 barrels per day.

Judge Penick, representative of the Brazos River Gas Company of Jack county, voiced the only opposition to the change in the district. He pointed out that placing half of Jack County in this district will give the Gunn pool in that county an increase of 500 barrels daily, which will tend to undermine production of the Brazos company in an adjoining pool which will receive an increase in allowable.

Among those who spoke in favor of the move were Fred Upchurch of Austin, attorney for Thomas D. Humphrey, oil producer from Jones county; Jack Roberts, representative of the West Central Texas Oil and Gas Association of Breckenridge; Jack Elliott of Wichita Falls, district deputy supervisor of the North Central Texas district and M. M. Garrett, Wichita Falls geologist.

V. E. Cottingham, director of production for the oil and gas division of the commission, was secretary for the hearing. Mark McGee of Fort Worth, attended the hearing. Counties in the West Central district are: Brown, Callahan, Comanche, Eastland, Erath, Fisher, Haskell, Jones, Nolan, Palo Pinto, Shackelford, Stephens, Throckmorton, Taylor and the south half of Young county.

Rayon is said to take dye better than silk, and white rayon is brighter than white-silk.

The coast line of Alaska measures 35,000 miles, or about 10,000 miles greater than the circumference of the earth.

The natives of Timbuktu put up roasting poles on minarets to serve as resting places for the returning spirits of their dead.

CITY GOLF TOURNEY WILL START SUNDAY

Qualifying play for the annual city golf tournament, to be held at Brownwood Country Club during the week of June 7 will begin Sunday, June 7 and close Wednesday, June 10. Match play will begin the next day and close the following Sunday. Directors of the club made final plans for the tournament at a meeting Monday night.

Tournament committees named are as follows:
Banquet—N. A. Locks, D. D. McInroe and Hubert Levedice; entrance—W. O. Kemp, C. E. Boyd, and Bruce Francis; prizes—W. R. Ellis, A. H. Bell, and L. E. Dublin; caddies—Dr. J. N. Arvin, E. J. Robertson and Herman Bettis; pairings—Walter Watson, Dr. H. E. Arvin and M. W. Terry.

The flower of the largest of the Callas, or Amorphophallus Titanum, of the Malay Islands, lasts only a few hours.

Edward Bryant, of Tilton, N. H., found a spider with human features on its back.

Children's Books Needed By Library

An appeal for children's books or money with which to purchase the books was made following the monthly meeting of the Carnegie Library board of directors Tuesday night. The library has a limited supply of books suitable for children's vacation reading, and the demand is very great, according to the librarian, Mrs. Ira Hall.

Members of the board are urging people who have children's books which they no longer need to donate them to the library. Reports from various committees were heard and routine business was handled at the board meeting.

There is one general to every 123 soldiers in the Mexican army. Since the World War armistice was signed there have been 44 wars in the world.

Workers in the nitrate fields of Chile play an exciting game. They gamble who can hold a lighted stick of dynamite the longest.

Washing crêpe slip covers in brain water helps them to retain their color.

Ben Hester Joins Chevrolet Agency

Ben R. Hester, for several years a resident of Brownwood, is now connected with Holley-Langford Chevrolet Company as auto and service salesman. He was formerly a traveling salesman for the Ward-Floyd Company of Waco and later salesman for other auto parts jobbing houses, and is well known in local business circles. He invites his friends to meet him at his new place of business.

Hot Wells Pool To Be Opened Friday

Formal opening of Hot Wells Swimming Pool for the 1936 season will be held Friday night. The Brownwood High School Band will sponsor the opening and will have charge of all the concessions, proceeds from which will go to the band fund, according to W. R. Parkers, director.

The program will include band selections, a bathing beauty contest and several swimming and diving events will be under the direction of Toots Gilliam.

Texas Legends and Folklore

Olive M. Johnson, Director of Speech Arts
North Texas State Teachers College

III, "TALL TALES"

The Texas cowboy is what is commonly called the teller of tall tales. Compared with him, Baron Munchausen was a mere amateur. His stories ran the full gamut of subject matter, but particularly did they concern the weather, the herd, the tenderfoot, rattlesnakes, and horses. The tenderfoot heard of bales of cotton blown through the air like straws; or of shifting sands—"Why, two hombres were digging for prairie dogs and the sand drifted from under them and left them twenty feet in the air"; or of the sensitive ribs of the rattlesnake—the wise cow-hand soils his horse-hair lariat around his bed roll; and when the snakes attempt to crawl past the rope, it tickles their ribs and causes them to laugh themselves to death—or of the horse that was so speedy that his owner had a sore nose after each round-up, because the horse ran so fast that it burned the skin off the rider's nose.

for they hauled the snakes to the fence line, drove them into the ground, and nailed the barbed wire to them. This served well until the spring thaw; but alas and alack! the rattlers crawled off one day and carried with them about six miles of new barbed wire.

Here's another one. There were two rival ranches. Two cowboys in a restaurant sat across the way from a lone hand of the rival ranch. The waiter came for the orders.

"Gimme a T-bone steak an inch and a quarter thick. Scorch it!" said the first cowboy.

His partner equaled his nonchalance, saying "Gimme a hind quarter. Raw!"

The third man rose to the occasion. Without batting an eye, he gave his order. "Bring me a sharp butcher knife and then just cripple a steer and run him through here. I'll cut off what I want!"

Then there is the perpetual one about the Panhandle cold. Two cowboys were in Canada where it was fifty degrees below zero. "Gosh!" said one. "Wouldn't you hate to be in Amarillo today?"

Unrendered City Property To Go On Rolls July 1

All city property not rendered before July 1 will be placed on the unrendered roll. City Tax Collector H. H. Gresham announced this week. Renditions are being taken now by Assessor U. Y. Smith. He has been leaving the blanks at their home for those people whom he is unable to see with instructions that the rendition blanks be filled in and brought to the city hall.

Persons whom he has not seen are asked to go to the city hall and make their renditions as soon as possible.

Split-Tax Payments Due Before July 1

Property owners who are paying their taxes by the split-tax plan have until June 30 to make the last half payment. Collection of the last half taxes are expected to be good this month, according to Tax Collector-Assessor Winston Palmer, who says that more people took advantage of the split tax payment plan this year than did last year.

Final date of payment of city taxes for property owners who are using the city's split-tax plan is July 31.

Production of cotton substitutes from wood is increasing greatly in Germany.

BUY ON PROOF OF PERFORMANCE

for their Safety

THE New Firestone

HIGH SPEED TIRE for 1936

AVOID accidents—take no chances—buy your tires on Proof of Performance. Make sure that you and your family will be safe! Skidding, blowouts and punctures caused more than 37,000 accidents last year. Many of these accidents could have been avoided with safe tires.

The new Firestone High Speed Tire for 1936 is the safest driving equipment you can buy. Here is your proof:

PROOF OF GREATEST NON-SKID SAFETY
A leading university made 2,350 tire tests and found that the new scientifically designed Firestone High Speed tread stops a car up to 25% quicker than other tires.

PROOF OF GREATEST BLOWOUT PROTECTION
Every year, since Firestone developed the Gum-Dipped Balloon tire, Firestone Tires have been on the winning cars in the gruelling blowout test of the Indianapolis 500-Mile Race.

PROOF OF GREATEST ECONOMY
Firestone engineers designed the new Firestone High Speed Tire for 1936 to give you up to 50% longer non-skid mileage. This is proved by our own test fleet records and the fact that the world's largest transportation companies, such as Greyhound, to whom safety and tire economy means business efficiency, use Firestone Tires. This is further proof that they are the safest, most economical tires ever built.

Why risk an accident when it costs so little to protect lives worth so much? Equip your car today with new Firestone High Speed Tires—the Masterpiece of Tire Construction.

FIRST AID WORK TO BE TAUGHT BY MAIL AS NEW WPA COURSE

Extension courses on First Aid work for WPA project superintendents and timekeepers will be started immediately under the direction of H. C. Gamble, WPA District 14 Safety Supervisor, and under the direct supervision of Ivan B. Hayes, of Brownwood, certified American Red Cross instructor.

These extension courses are being provided for WPA project officials who were too remotely located to attend the regular First Aid Classes which have recently been conducted and some of which are now being conducted in the various counties in this district.

A series of twelve lessons in First Aid will be conducted by mail under this arrangement. At the conclusion of the course a final test will be required, also by mail, all of those who take this course.

It is estimated that about twenty five project superintendents and timekeepers of the WPA, who were unable to attend the regular classes, will enroll in this correspondence course which is obligatory to supervisory WPA officials.

Ivan B. Hayes is known as one of the best Red Cross First Aid instructors in this section. He recently conducted the WPA First Aid classes at Brownwood for WPA project superintendents and timekeepers and a number of other citizens. He is contributing his services in connection without any expense to the government and was chosen to conduct the correspondence course on account of his proximity to the

district office. District Director Karl E. Wallace, is gratified with the splendid work and cooperation of all Red Cross First Aid Instructors in the various counties in which these classes are being conducted. "These men are contributing their services to the government free of charge and the benefit of their instructions will be reflected manifold in the operation of WPA jobs where all of our project superintendents will know how to administer the proper first-aid attention to injured workers," Director Wallace states.

The Brown County class consisted of nineteen WPA officials and nine other citizens, all of whom completed the course on May 3, and were issued regular American Red Cross First Aid Certificates of Qualifications.

26 More Scholastics In County This Year

According to the 1936-37 Brown county scholastic census, completed recently, there are 6,156 children of scholastic age living in the county, an increase of 26 over the 6,130 listed for last year. The report has been completed by County Superintendent F. D. Pierce and sent to the State Department of Education, Austin, from which an official announcement regarding the census will be made.

Brownwood gained 51 students over last year with a total of 2,918. The county lost 48 with a total of 2,829, and Bangs gained 25 with a total of 399.

Football players in 24 colleges were helped by federal relief last fall.

Mortuary

RICE—Mrs. O. E. Rice died at her home in Mullin Thursday, May 27. Funeral services were held there Friday with Rev. I. A. Dyches officiating. White & London Funeral Home was in charge of arrangements.

Mrs. Rice is survived by her husband, one daughter, Mrs. Glenn Kettle, Mullin; one brother, Boland Tyson, Mullin; and three sisters, Mrs. Dave Henry, Sherwood, Texas; Mrs. Jim Guthrie, Brownwood; and Mrs. C. L. Summy, Mullin.

OATTS—Thomas D. Oatts, 53, formerly an engineer for the Santa Fe, dropped dead about eight o'clock Friday morning at the Jack Needham Service Station on Austin Avenue. He was rushed to a hospital in an ambulance but was pronounced dead on arrival. Funeral services were held in Godley Saturday afternoon. White & London Funeral Home was in charge of local arrangements, taking the body overland to Godley.

Mr. Oatts had been a resident of Brownwood for only a few months. He formerly lived in Cleburne.

His wife, the former Miss Alice Witcher of this city, and three sisters who live in Godley survive.

STEWART—Joe W. Stewart, 80, resident of Brown county for 60 years, died at home at Byrds Friday after a short illness. Funeral services were held Saturday afternoon at the Hog Creek Church with interment in the cemetery near there. Austin-Morris made funeral arrangements.

Mr. Stewart was born in Georgia September 29, 1856. He was married to Miss Ghidah Livingston in 1876. He had been a member of the Methodist church for most of his life. Survivors include his wife and the following children: Mrs. W. D. Long, Brownwood; Mrs. T. S. Walker, Plainview; Mrs. C. N. Keeler, Indian Creek; Mrs. J. H. Keller, Pearsall; Mrs. Cecil Byrd, Wilcox, Arizona; Miss Ruth Stewart, Byrds; J. A. Stewart, May; J. N. Stewart, Dallas; Lawrence Stewart, Brownwood; and J. N. Stewart, Byrds.

INGRAM—Watt Ingram, for more than 20 years engineer on the Santa Fe railroad between Brownwood and Fort Worth, died Sunday evening in Holy Cross, New Mexico. Funeral services were held Wednesday in Fort Worth.

Mr. Ingram was for many years a resident of Brownwood and his wife was the former Miss Ida Mae Gentry of Brownwood. Survivors include his widow, one son, his mother, one brother, and one sister.

BOURLAND—G. W. Bourland, 75, resident of Brownwood for 45 years, died early Tuesday morning at his home after an illness of several days. Funeral services were held Wednesday morning at 10 o'clock at Cozgin Avenue Baptist Church with Rev. A. N. Todd, Rev. J. M. Bradford and Rev. J. M. Cooper officiating. Interment was in Greenleaf Cemetery with Austin-Morris Funeral Home in charge of arrangements.

Mr. Bourland was born June 26, 1860 in Princeton, California. He was converted and joined the Methodist Church at the age of 16, but joined the Baptist church in 1918. He was a Mason and a Woodman of the World. He and Mrs. Bourland had lived in Brown county for the past forty-five years.

Survivors are his wife and four sons, Elliott Bourland of Brady, Guy Bourland of Dallas, Luther Bourland of Brownwood and Eugene Bourland of Ardmore, Oklahoma; and the following grandchildren: Melba Bourland, Brownwood; Evelyn and Buster Bourland of Brady; T. C. Bourland, San Saba; Perry and Jack Bourland of Brownwood; and two sisters, Mrs. Della Newberry, Alice, Texas, and Mrs. George Cavness, Phoenix, Arizona.

HENDERSON—Johnnie Henderson, four year old son of Mr. and Mrs. Roy Henderson of Mullin, died in a local hospital Tuesday. Funeral services were conducted Wednesday afternoon at the Methodist church at Zephyr, followed by interment in the Zephyr cemetery with Austin-Morris in charge of arrangements.

His parents and his grandparents, Mr. and Mrs. Beaty and Mr. and Mrs. Henderson of Zephyr, survive.

CLAY—Mrs. Mary E. Clay, 63 was buried in the Pleasant Valley Cemetery, north of Brownwood Thursday following funeral services held at White and London Funeral Chapel. She had been a resident of Brownwood for 14 years. She was born November 17, 1873, in Fulton county, Arkansas and had been a member of the Baptist Church for over 14 years. Her husband died on March 16, 1935.

Mrs. Clay is survived by one daughter and one son, Mrs. W. E. Pitts, Brownwood and Willie Clay Brownwood. Two grandchildren, Mary Lou and Adella Clay; and two brothers and four sisters, C. A. Smith, Brownwood; Mrs. J. T. Hollingsworth, Brownwood; Rev. T. W. Smith, Oklahoma; Mrs. J. L. York, Pilot Point; Mrs. E. L. Russell, Westlake; Mrs. T. E. Mason, Austin; and her mother, Mrs. E. P. Smith of Brownwood, also survive.

Many Students Are Active In College

Several students of Daniel Baker College who were prominent for outstanding scholastic achievements and campus activities during the past school term are listed in a report sent to the Banner by the school reporter. The students listed together with their accomplishments, are as follows:

Charles Chrane, son of Mr. and Mrs. G. L. Chrane, who is attending Daniel Baker this year was among those to receive sweaters for having lettered in both football and basketball. Chrane has been an active and popular student throughout the year.

Rudolph Brewster, son of Mr. and Mrs. J. A. Brewster of Blanket, who is a student in Daniel Baker this year has made the honor roll for the past two six weeks having made 1A and 4B's both times. Brewster has been on the honor roll during the entire year.

Miss Edna Merle Smith, daughter of Mr. and Mrs. J. A. Smith of Indian Creek, who is a junior in Daniel Baker this year has made the honor roll for the past six weeks, making 3A's and 2B's.

Misses Maebelle and Aleene Fitzgerald, daughters of Mr. and Mrs. C. E. Fitzgerald of Indian Creek have both made the honor roll for the past two six weeks. Both made straight A grade cards for the term ending March 6, and all A's with the exception of 1B for the past six weeks.

LUCY MAE BROWN IS CHOSEN FOR PART IN FORT WORTH FOLLIES

Miss Lucy Mae Brown, popular local dancer and student in Daniel Baker College, will leave Saturday for Fort Worth to start rehearsals for the Casa Manana Follies Show, feature of the Fort Worth Frontier Celebration which will open the first week in July. Miss Brown represented Brownwood in a contest held at Fort Worth last week when Billy Rose, director of the exposition, and several nationally known beauty judges selected the Number One Texas Sweetheart and the 35 girls who will be given parts in the Follies. There were 80 girls, representing towns and communities over the state, entered in the contest.

Miss Faye Cotton of Borger was selected as the Texas Sweetheart. Miss Brown is a niece of Mr. and Mrs. J. S. Joplin of Route 1, with whom she makes her home. She has been a pupil of Mrs. Lon L. Smith for the past six years. She is a graduate of Brownwood High School and for several years has been a popular entertainer and a prominent member of the local high school and college social set. She was chosen as representative of Brownwood by a committee of local merchants.

The first internal combustion engines were designed about the year 1680 and were made to operate on gunpowder.

Imogene Grady, daughter of Mr. and Mrs. C. M. Grady of Blanket, who is a graduating senior in Daniel Baker this year, has made the honor roll for the past two six weeks, having made 4A's and 1B during both terms.

Thelma McCulley, daughter of Mr. and Mrs. T. M. McCulley of Blanket, who is a graduating senior in Daniel Baker this year, made the honor roll for the past six weeks, making 3A's and 2B's.

JUNE 19TH WILL BE CELEBRATED HERE IN APPROPRIATE MANNER

An attendance of approximately 3,000 representing many towns in Central West Texas is expected to be held here June 19, emancipation day, according to D. Y. Hall, principal of the Brownwood colored schools. Representative colored girls from San Angelo, Hallinger, Abilene, Cisco, Eastland, Coleman, Winters, Gatesville, Stephenville and many other towns in this section of the state have been selected for entry in the contest for queen of the Jubilee. Coronation of the queen at a program to be given at Soldiers and Sailors Memorial Hall the evening of the 19th will climax the day's activities.

Several trips to surrounding towns for the purpose of advertising "June Tenth" and the Lake Brownwood celebrations have been made by members of the committee in charge. The Brownwood delegation has been courteously received by both the colored and the white people in all the towns visited, according to Hall, who says that much interest is being taken in the Regatta literature which he is distributing.

Leaders in the work of planning the combination Centennial and Emancipation program planned are Hall, Geo. Croyton, Lewis Reid, Clarence Allen, Parker Gillum and Cecil Holman.

BOX SUPPER
Announcement was made this week by Miss Floesie Lappe that a box supper and ice cream party would be held at the Rock Creek church north of Blanket Saturday night. Everybody is cordially invited to come and bring a box or a pie.

The center of the rattlesnake population of the United States is not in the west, but in the east. Eavesdropping is against the law in Oklahoma.

WILL CONTINUE WORK

Hugh Grove, son of Mr. and Mrs. H. L. Grove of Brownwood, was granted a fellowship at Baylor University in Waco for the 1936-37 term to continue his study of art at the close of the past term. He received his Bachelor of Arts degree from the university at commencement exercises last week and has returned to Brownwood to spend the summer. He will serve as instructor of mechanical drawing at the University next year while working on the fellowship.

The Centennial Begins

While the New Year actually ushered in the hundredth year of Texas history; though April 21 and March 2 are the most prominent Centennial dates and in spite of the fact that numerous small Centennial Celebrations have been held during the past few months in widely scattered Texas cities and towns, the Texas Centennial actually opens this week, when the big Central Exposition in Dallas is opened to the public.

Saturday will mark the opening day of the Centennial Exposition which to the world and to most Texans actually represents the observation of the Birthday of Texas, and after Saturday, Texas actually will be in the position of host to the world, at the greatest birthday party ever attempted.

It is useless to say that the opening of the Central Exposition marks the culmination of the dreams of millions of Texans; that it represents the achievement of some hundreds of individuals who have devoted so much of their time during the past few years in this patriotic work for their State. That is well known to all Texans.

It is noteworthy, though, that as the time for the opening of the exposition approaches, there is a whole-hearted and enthusiastic interest in the Centennial throughout Texas. There were many a few months ago who were not so enthusiastic. Many who thought the central exposition should have been awarded to some other city; and some who felt that no great amount of money should have been spent upon an exposition at all. Now all are agreed that the Centennial was and is a great idea; that it should be held in a big way, to attract to Texas the millions who will come during the next few months.

As a matter of fact, the attention which the Centennial has attracted to Texas already has been worth more than the dollars and cents cost to Texans. The picturesque features of Texas history; the rapid development of the state and the character of the people who live here already had created an unusual interest in the Lone Star State. There was a need, however, for quickening that interest; the need for offering an incentive which could cause those already interested to visit the State. The Centennial is that incentive; as such it is worth while, and under capable direction it is performing this task well.

For a number of weeks there have been appearing in Dallas newspapers one of the most interesting and instructive series of advertisements that we have seen in many years. The advertisements are published regularly by Sanger Brothers, pioneer department store which has been in business in Texas since 1857.

No effort is made in the series to sell merchandise, although of course this is the ultimate aim of all advertising effort. Instead, the store assumes the role of pioneer among Texas merchants, and portrays in words and pictures, graphic events in the history of Texas and Dallas.

The advertisements serve to recall to memory many interesting and dramatic events in Texas' history, and do it in a dignified, attractive and interesting manner. The series forms a distinct contribution to the study of Texas history and events, and give a fitting background to the Centennial observations.

It is extremely difficult to be exactly fair in politics, where judgment is often swayed by the emotions. To see the good in one's favorite, bad in the opposition, is human nature. And yet, close at hand, definite results cannot be overlooked.

Thus we see the San Antonio Light, owned by William Randolph Hearst, has a rather inconsistent attitude. Mr. Hearst is supporting Governor Landon of Kansas for the Republican nomination; his newspapers are sparing no effort to belittle the Roosevelt Administration. The Light is joining in the chorus of the Anti-New Dealers.

In one of its issues of last week, The Light published three large pictures of beautiful stone construction nearing completion at the San Antonio Zoo, being done as a WPA project, financed jointly by the WPA and the City of San Antonio. The Light is proud of this work, says "San Antonio will soon have a zoo of which any city might well be proud," and points out the good features of the WPA work in the San Antonio park.

Immediately under the pictures, however, is one of a regular series criticizing similar work. In this article The Light, with biting sarcasm, holds up for ridicule WPA improvement work in the Sabino Canyon, described as "the one important recreational area for the residents of Tucson, Arizona." The San Antonio work is worthy, but The Light calls similar work in Tucson, neighboring Southwestern city, "boondoggling."

Would The Light have San Antonio forego improvement work which it approves, in order that other cities might not enjoy similar benefits?

If you think the so-called rich pay all the taxes, and the rest of us receive all the bounty of government for nothing, here are some facts that will disillusion you. They are taken from an editorial in the Charlestown News and Courier, entitled "Taxing the Worker."

Every dollar spent by the Federal government in the last fiscal year was derived as follows: Seven cents from personal income taxes; eight cents from corporation taxes; six cents from liquor taxes; six cents from tobacco taxes; seven cents from processing taxes; five cents from excise taxes; five cents from customs duties; three cents from estate and gift taxes; four cents from all other forms of taxes.

Practically every one of those taxes is, in effect, a sales tax. Each represents a part of the cost of the things we buy. Each one, with few and unimportant exceptions, must be and is passed on to the consumer.

And that isn't the worst of it. The total of the taxes listed above comes to just 51 cents, leaving 49 cents of each dollar unaccounted for. That forty-nine cents was obtained by borrowing—and when the day of reckoning comes, it will be the worker and the man of average means who will have to foot practically all of the gigantic bill.

A Minnesota co-ed has drawn the plan for a new bridge across the Missouri River. Another designing female!—Dallas News.

Jean Hatlow contends that she attracts friendship, not romance. Soon we'll hear that Primo Carnera is a jockey.—Pampa News.

FLAPPER FANNY SAYS

There's nothing Scotch about a Scot's affections.

PEEP SHOW — For Ladies Only — BY MIGNON

Bugger Red Centennial Briefs Saddle Songs My new John B. is waiting, I'm going on a spree, A big old birthday party is calling, calling me. How could the folks be happy, They might as well be dead? For Texas can't be Texas Without a "Bugger Red!"

Yes, I have thrilled many times over that grand old rider, "Bugger Red" from Texas. When the band plays certain tunes, I can see him now—not how his face looked, but the rhythm of every rippling muscle in his body. Slim waisted and jaunty, he sat in his saddle like a thoroughbred. A cowman's cowboy and a real one. Teasing big brothers and cousins applied that name to this columnist and it has stuck through the years. But this Bugger Red is headed back to Texas. I'll be sending you gals some first hand news as I go along so that when you get ready to go to the big birthday party you'll be knowing what they're wearing, etc. (Of course, Solly may have a few more fans in Texas than she wears all the time.) Otherwise picture me leading a blind man through this part of the show, as friend hubby insists on going too!

I keep thinking as I write this what a friend of mine said: "A columnist who fills the correct number of inches about himself displays the poverty of his mind. He is supposed to tell what he thinks." Ouch and oochee.

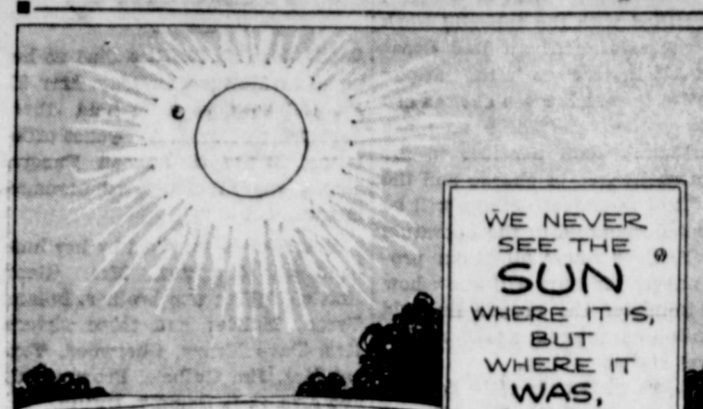

Lookee here! "Texas has enough land to supply every man, woman and child in the whole world with a tract of five by twenty feet, and have enough left over for the armies of the world to march around the border five abreast."

When I think of Texas, I at once think of greatness... not only of the state physically, but of the greatness of its people, its hospitality and its great pride. I love to think of its men as chivalrous, as those who hold women as something to reverence. I hope it wasn't a Texan who instituted that fool idea about not tipping their hats to a lady. I've had some tall arguments about it, however. Someone said that men love to sweep their hats off their heads to salute a woman whose frock swishes around her ankles, but a breezy "Hi" and a casual wave of the hand seems adequate for skirts twelve inches from the ground.

I have waited until this very time to review "Saddle Songs" by L. Gough of Amarillo, Texas. Because it fits in so perfectly with this time we are reviving Texas lore, history and the development of the Lone Star state. This book does that very thing. It is really entitled "Spur Jingles and Saddle Songs." The poems, most of them are jingles. The free and rhythmic songs of the cow country. They do not boast the exact pattern of the "hisses and thuds" of true poetry, rather do they portray the real feeling for heart-throbs of a Texas we once knew and which is fast becoming something to read about. The songs and jingles in the volume never rhyme with that non-sensical word "rodeo" pronounced by the radio stars as rodeo as if were plain old day as opposite to night, neither do they have any other flashiness or falseness. The cowmen who ride through the pages of this book are those old kind who wore duckies on the last hip joint, shopmade boots slightly run over at the heels, his vest crammed full of everything from a chewed point of a pencil to a rattler's tip. Not those flashy boys of scarlet kerchiefs, studded chaps and perfumed bathsalts, one greets in the movies. One sees again the milling herd, smells the "java" as it boils over in the old tin can, and hears the lonely song of the night herd as they read these saddle songs.

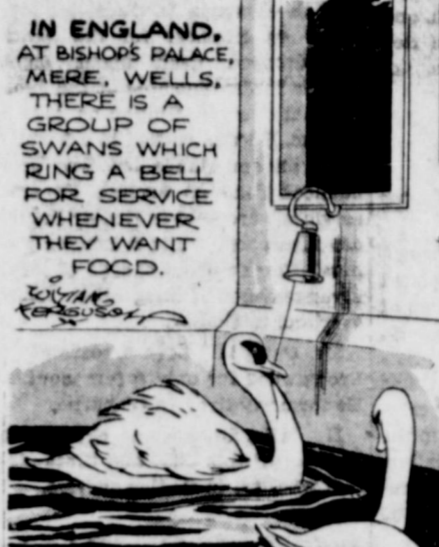

The author is a native Texan, born in Lamar County in 1862. He ran away from home to be a cowboy and the trail led him through Northwest Texas, close to where Wichita Falls now is, and into the Panhandle and up into Indian territory and all around. An old camp cook took a fancy to him and told him that while cow-camp life had its attractions, there wasn't much future to it and he ought to finish

THIS CURIOUS WORLD By William Ferguson

WE NEVER SEE THE SUN WHERE IT IS, BUT WHERE IT WAS, EIGHT MINUTES AGO!

IT TAKES EIGHT MINUTES FOR ITS LIGHT TO REACH THE EARTH

IN ENGLAND, AT BISHOP'S PALACE, MERE, WELLS, THERE IS A GROUP OF SWANS WHICH RING A BELL FOR SERVICE WHENEVER THEY WANT FOOD.

IN ANCIENT EGYPT, DOCTORS NOT ONLY WERE EXPECTED TO CURE THEIR PATIENTS, BUT ALSO TO RID THEIR HOMES OF SNAKES AND VERMIN.

A PERSON looking in the direction of the sun sees light that left that body eight minutes ago, and since that time, the sun has advanced steadily along its path in the sky. Although light travels at the enormous rate of 186,000 miles per second, it must be remembered that the head of our solar system is about 93 million miles away.

ON TEXAS FARMS

COLLEGE STATION—A State Agricultural Council was recently organized here composed of representatives of the twelve Extension districts. Each member of this Council came from a county farm demonstration council.

V. C. Marshall, Heidenheimer, Bell county, was elected chairman; L. P. Cooke, Corpus Christi, Nueces county, vice chairman; and J. H. Watson, New Castle, Young county, secretary.

The function of this Council is to cooperate with the Texas Extension Service in an advisory capacity, in all of its Extension activities, including the administering of the new Soil Conservation and Domestic Allotment Act.

During the first organized meeting recently at College Station, the members of the State Agricultural Council unanimously passed a resolution favoring all farmers filling out work sheets in the Soil Conservation program on the grounds that such cooperation does not obligate the farmer in any way, that it is needed to make the program effective this year, and that it will help in the 1937 program.

Members of the council who met here with the Extension staff and with the Soil Conservation Committee are: V. C. Marshall, chairman; L. P. Cooke, vice-chairman; J. H. Watson, secretary; L. R. Conner, Perryton, Ochiltree county; C. H. Day, Plainview, Hale county; L. F. Johnston, Arlington, Tarrant county; H. A. Terry, Clarksville, Red River county; Terry Elkin, Midland, Midland county; J. Walter Hammond, Tye, Taylor county; T. M. Drew, Onalaska, Polk county; S. A. Burchard, Gonzales, Gonzales county; and George Slaughter, Wharton, Wharton county.

COLLEGE STATION—J. F. Rosborough, Extension horticulturist, recently gave some garden hints for the early June season.

In regard to Irish potatoes, he said, "In harvesting Irish potatoes, place them in a shady place as soon as dug where they can 'dry off' for 24 to 48 hours before storing."

He explained that when onion tops have fallen over, pull up the onions and pile them in a shady place and the second day clip the tops back to one-half to one-fourth of an inch in length. Onions of the Bermuda type can be stored for a short while. The sweet Spanish or globe type of onions are preferable for long storage. Rosborough went on to say that "Should the low leaves on the tomato plants have small brown or black areas and the general lower foliage of the plant begin to turn

yellow, it is a sign that leaf spot is starting, and the plants should be sprayed with one pound of bluestone, two pounds of hydrated lime to 12 gallons of water.

"At this time of the year, the orchard should be kept under close observation. The thin skinned early varieties of peaches are subject to brown rot and to protect them, spraying should be done," Rosborough stated.

The Extension horticulturist said that the spray should consist of four pounds of hydrated lime, four pounds of sulphur mixed together with five gallons of boiling water. Heat until dissolved and add enough water to make 25 gallons of spray.

"Give the trees a good spraying now and at intervals of three to four weeks apart until the fruit is harvested," he said.

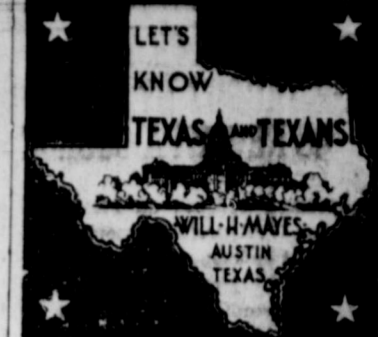

Some of the suggestions he gave on care of berry vines were to cut old berry vines now and as soon as all of this year's crop of berries are picked, cut the old vine off at the ground level, and leave the new sucker growth on which next year's crop will be borne.

"Young grape vines should be tied to the wire of the trellis in order to build a framework for next year's crop. The old vines making extra growth may be pruned at this time by pinching out the ends. This will prevent the vines from trailing on the ground, making cultivation and spraying less difficult," Rosborough concluded.

CIVIL SERVICE EXAMS

The United States Civil Service Commission announces that open competitive examinations for positions as assistant geologist, junior park archeologist, park historians, principal biochemists and senior insect pathologists will be held soon. Further information regarding the positions and the examinations may be obtained at the Brownwood post office from Clyde D. Woods, local secretary of the U. S. Civil Service Board of Examiners.

The construction industry of the United States is the second largest in the country. It once was capitalized at \$6,000,000,000 and employed 4,000,000 persons.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses. But only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Where is Landa Park? R. L. J. Ranger.

A. It was a well known privately owned park at New Braunfels, but was closed a few years ago by its owners. New Braunfels recently has voted a bond issue to purchase it and it will be reopened to the public soon. It is one of the beauty spots of Texas.

Q. Who was the first Czechoslovakian to locate in Texas? L. T. Bartlett.

A. Dr. Anthony Michael Dignowity, who came to America in 1832, stopped at Natchez, Miss., and located at San Antonio in 1833, where he spent the rest of his life.

Q. When did the Santa Fe railroad reach Santa Anna? R. D., Houston.

A. In the early spring of 1886. A town lot sale was held there May 4, 1886.

Q. Who was the first governor of Texas? R. D. G., Corpus.

A. James Pinckney Henderson, a North Carolinian who came to Texas early in 1836, was attorney general of the Republic and served as governor of the State from Feb. 16, 1836 to Dec. 21, 1847. During the 1846 war with Mexico he was in command of the Texas troops.

Q. For whom was the city of Seguin named? R. O. L., Luling.

A. For Col. Juan Seguin, a native Texan, who commanded a company of Texas-Mexicans at San Jacinto, fighting under Gen. Houston. The town was first known as Walnut Springs.

"Texas Empire Builders of '36"

Every man, woman and child in Texas should know the principal events of the momentous period of Texas history from March 1 to April 21, 1836—events that changed the shape and the destiny of the United States. The facts essential to this understanding are briefly set forth in a 32 page booklet entitled "Texas Empire Builders of '36," telling of the stirring days when all Texans, native and adopted, are celebrating in 1936. The booklet will be mailed postpaid for 10 cents. Send all orders to Will H. Mayes, Austin, Texas.

Will H. Mayes, 2510 Salado Street, Austin, Texas. I enclose 10 cents in coin, securely wrapped, for a copy of "Texas Empire Builders of '36." Name: Address:

Walton League To Have Barbecue At District Park Fri.

Tickets are now being sold for a barbecue to be held in connection with annual meeting of Pecan Valley Chapter of the Izaak Walton League to be held at the district park at Lake Brownwood at 6:30 p. m. Friday. All members of the chapter and prospective members are urged to buy the tickets, which are being sold for \$1, before Thursday.

Any profits from the barbecue will go toward paying for construction of a fish rearing pond at the Lake. Election of officers for the next year will be held during the business session.

400 SINGERS FROM BROWN COUNTY WILL BE AT CENTENNIAL

Most of the Brown county students who will participate in the chorus of 50,000 Texas school children to be presented in a concert at the Centennial Exposition in Dallas June 13 will be carried to Dallas in large buses, according to County Superintendent F. D. Pierce. Tickets for 400 children, Brown county's quota, were received this week, and Mr. Pierce states that from present indications the county's quota will be filled.

A number of schools in the county have agreed to send students, and the others are expected to make arrangements soon to send representatives to Dallas.

The concert to be given by the huge chorus is attracting attention all over the world. It will be broadcast over a world-wide radio hookup. District rehearsals, attended by students of the schools which are to participate in the chorus, were held all over the state during April and May. The rehearsal for this district was held in Brownwood.

Special arrangements have been made to insure the safety of the students who will go to Dallas. An extra force of police in addition to the regular Dallas and Centennial officers will be maintained as a precaution against accidents. The school buses from all over the state will be directed to the Centennial grounds and through Dallas over special routes as a measure of precaution against traffic hazards.

Fish Fry Is Held By City Employees

More than 150 city employees and officials, members of their families and their families friends were guests of four city employees at a fish fry Tuesday evening at Fred Hayes Park. The fish, which dressed out 140 pounds, were caught in Lake Brownwood the first part of the week by Sam Thomas, Pryor Martin, Homer Andrews and Audie Keesee.

The fish were cooked in a large wash pot over a barbecue pit. Buck Keith was in charge of cooking the fish.

\$21,500 In Cotton Checks Received

Cards were mailed by County Agent C. W. Lehmburg last week to 797 Brown county farmers notifying them that their cotton subsidy checks had arrived. The checks, which total \$21,499, are being distributed by Mr. Lehmburg this week. Farmers who call at the office for the checks are asked to bring their notification cards as the number of the check is on the card, and it is difficult to find the check if the number is not known.

Mr. Lehmburg stated this week that he expects more of the checks soon. The subsidy checks are in payment of the difference to the farmer between the price he received for his cotton, as shown by the average price on the ten spot markets of the country on the date of sale and the 12 cents per pound price guaranteed by the government.

Tokio, Japan, has one store for every 28 inhabitants.

The world's heaviest meat eaters are the people of the Argentine. They annually average about 346 pounds of meat a person.

Community Teachers Are Needed By U. S.

Open competitive examinations for Civil Service positions as teachers in the Indian Field Service community school will be held soon, according to C. D. Woods, local secretary of the U. S. Civil Service

Examiners included in the community school positions are those in primary, intermediate, special or opportunity and one-teacher day schools. Salaries in this service, which includes schools in Alaska, are \$1,620 a year. Further information may be obtained from Mr. Woods at the Brownwood post office.

TEXAS' AGED NEEDY TO BEGIN RECEIVING STATE AID JULY 1; \$20 PER MONTH TO BE AVERAGE

These are questions that the people of Texas are asking. Orville S. Carpenter, executive director of Old Age Assistance Commission, answers them: Q. When will the first pension payments be made? A. July 1. Q. Are you sure of this? A. Yes, because both State and Federal pension money will be in the Texas Treasury. Texas was granted only recently \$1,181,250 by the United States Government. Q. How much will each one receive? A. As far as I can estimate now, there will be approximately 65,000. Q. How much will each one receive? A. Each one will receive up to a maximum of \$50 a month, or \$15 from the State and \$15 from the United States. However, payments will be based upon need because of the Federal Social Security Law and the Texas law. People who do not need as much as \$30 will receive less. All payments considered, the average will be around \$20 to each applicant who meets the requirements of the Texas law. Q. Does not the Texas law re-

quire that each applicant for assistance be investigated? A. Yes. Q. Is not the organization of the Old Age Assistance Commission based upon rules laid down by the Washington and the Texas laws? A. Yes. Q. Is not the entire procedure for obtaining a pension required by the Texas Law and the Social Security Board in Washington? A. Yes. Q. Then the method in which you handle applications for assistance is mandatory upon you because of the Texas law and rules of the Social Security Board? A. Yes. Q. Is it true that some payments will be only \$9 or \$10 per month? A. Yes. Payments will be based on need. It is also true that payments will be \$30 per month to those whose needs require it. However, the general average will be about \$20 to each old person on the pension rolls. This average is in itself \$5 a month more to each needy old person than he or she could get if Texas had a blanket pension program of \$15 a month only.

Federal Mortgages Reach Many Farms

During the year 1935 new mortgages were written on 28,160 acres of land in Brown county, according to the real estate mortgage survey now being made under a WPA project for the U. S. Department of Agriculture. The acreage was mortgaged for \$176,578.07, which is not inclusive of mortgages made prior to 1935. Tax rolls show 557,280 acres of land rendered for taxation in the county.

Of the total land mortgaged in 1935, 53 per cent with the Federal Land Bank of Houston, 7 per cent with the Farm Credit Administration, 5 per cent with the Home Owners Loan Corporation, 15 per cent with others outside the county and 20 per cent with local banks and others.

Pasture Work of SCS Is Inspected

An inspection of pasture work being done in the Brownwood area under the direction of the Soil Conservation Service was made last week by A. T. Semple, of Washington, D. C. and Simon E. Wolff from the SCS regional office at Fort Worth. The officials were accompanied on a tour of sections of the Brownwood area by members of the technical staff of the erosion con-

rol camp here. Semple is from the division of agronomy and range management of the United States Department of Agriculture, Wolff is a pasture and range specialist.

Reconstruction Of Depot Is Started

Workmen who are rebuilding the Frisco freight depot, destroyed by a windstorm in March, will complete the job about Wednesday of next week, according to J. H. Forzey, local agent. The work, which is being done by the railroad's regular bridge and building crew of twelve men, was started Monday morning.

Size of the building will be about 10 per cent less than the old one, as there is no necessity for the larger building. It will be 29 by 90 feet of frame construction with shingle roof. The large loading platform adjoining the building will remain about the same size.

Mortuary

STANLEY — Mrs. Louella Jane Stanley, 79, widow of the late E. R. Stanley, died Thursday morning in a local hospital. She and her husband were prominent residents of Brownwood for more than 40 years, coming here in 1882. Funeral services were announced for 2 o'clock Friday afternoon. They will be held at the residence of her son, Rufus Stanley, 2301 Darham street. Rev. Karl H. Moore, pastor of First Baptist Church, will officiate. Interment will be at the Rocky Creek cemetery, and Rev. Z. T. Blanton, friend of the family for many years, will assist in the service at the cemetery.

Louella Jane Hammond was born February 21, 1857, in Alabama. She moved to Arkansas in early childhood and was married there to E. R. Stanley in 1873. They moved to Texas in 1882, locating in a section of school land six miles northwest of Blanket, where they built a large stone house which was Mrs. Stanley's home at the time of her death and which is one of the finest structures in Brown county.

Surviving children include Mrs. E. M. White, Temple; Mrs. W. C. Urbach, Temple; D. M. Stanley, Byrds; Mrs. Henry Buck, Brownwood; W. A. Stanley, Brownwood; G. C. Stanley, Ballinger; Mrs. H. F. Hennigan and N. R. Stanley, Phoenix, Arizona, and Rufus F. Stanley, Brownwood. Other survivors are one sister, Mrs. W. T. Powers, Blanket, one brother, Dan Hammond, Henrietta, Oklahoma; an uncle, W. S. Porter, Blanket; twenty-one grandchildren and five great-grandchildren.

ISHAM A. SMITH TO BE HONORED SUNDAY AT ZEPHYR SERVICE

At a memorial service to be held at Zephyr at 4 o'clock Sunday afternoon by Isham A. Smith American Legion Post, Isham A. Smith, first Brown county soldier killed in the World War, will be honored. The memorial services honoring Smith are held annually at Zephyr cemetery, where he is buried. Local Legionnaires who wish to attend are asked to be at Memorial Hall in Brownwood at 3 p. m. and leave in a body for Zephyr. The National Guard firing squad will fire a salute at the grave.

The graves of 65 World War veterans who are buried in Greenleaf Cemetery were decorated in the annual Brownwood memorial service held last Sunday afternoon. Services were in charge of the local Legion post and the Spanish War and Civil War veterans were also decorated.

A volley was fired by a firing squad furnished by the National Guard. Prayers were offered by Rev. Karl H. Moore, post chaplain, and a short talk was made by James C. White. Flowers were furnished by a number of local citizens.

Bonus Bonds

(Continued from page 1.) ficer. The certifying officer will be one of the employees of the postoffice named by the postmaster.

Certifying officers will be held responsible for positive identification of the person requesting payment as the one whose name appears on the face of the bond. If the veteran is personally known to the postmaster or designated employe, witnesses are not necessary. If he is not known, one or two witnesses who know the veteran and who are known to the certifying officer must sign the bond in the space provided, with their addresses, in the presence of the certifying officer. The owner must sign the request for payment exactly as his name appears on the face of the bond in ink or indelible pencil.

When the bonds have been accepted for payment, the owner will be given an interim receipt until a Treasury Department check is returned to him by the designated paying office.

Other Requirements Postmasters are not authorized to certify for payment bonds presented by others than the registered owner whose name is inscribed on the face of the bond. In case of death or incompetence of the registered owner, the person presenting the bonds will be instructed to secure information as to the cashing of the bonds from the Treasury Department, Division of Loans and Currency, Washington, D. C.

There will be no cash payments in any postoffice of adjusted-service bonds. Payments will be made only by special Treasury Department checks, supplied to the designated paying offices. All bonds surrendered for payment at non-paying offices will be transmitted daily to their respective central United States savings bond depository offices for the issuance of Treasury checks.

The famous cross of snow, in the Holy Cross National Forest of Colorado, is formed by two snow-filled mountain. The cross is visible for miles.
