Chamberlain Is Host To Candidates Friday Night

Crowds Gather From Many Sections Celebrating Program Meet

While candidates held sway at the big gathering held at the Chamberlain school building Friday night, others managed to enjoy themselves despite the handicap according to statements made to the writer by some of the folks who entered into the entire program with keenest enjoyment.

The speaking was enjoyed with practically every candidate present in person to present his claims. The candidates had been invited by the homefolks of that section and were treated with extreme courtesy as was all of the visitors. The Clarendon band boys were out to furnish plenty of good music which was one of the most pleasing numbers of the program. The High School band under the direction of Gus B. Stephenson as director, is making an enviable reputation over the county and will surprise the crowd here on the occasion of the big celebration of July 4th.

Homer Mulkey assumed his natural attitude of helping the ladies of the club in dispensing ice cream and cake. The financial nets after all expenses were paid, amounted to \$25.70. The ladies were especially well pleased with the success achieved and are voicing their thanks under a separate heading in this issue.

John Blevins Recovers From Accident

John Blevins, well known in this section and who suffered severe injuries from a car accident on the streets of Wellington some weeks past, is a practically recovered from the effects of his injuries.

Mr. and Mrs. Blevins are visiting at the home of Mrs. Blevin's parents, Mr. and Mrs. Roy Wilson of the Sunnyview community.

Naylor Community Goodwill Meeting Held Thursday Night

Interesting Program Features General Get-to-Gether Meet

A large crowd as usual gathered at the Naylor community school house last Thursday night in the fifth of a series of good will trips to the community centers of the county. The Clarendon Band gave several numbers out side of the school house to welcome the people as they came in. W. E. Ferrell, minister First Christian church, was master of ceremonies, he having been appointed to take charge of the program for the evening.

The whole affair was one entertaining moment after another. The program was somewhat different from those on previous occasions, bringing to the people something new and out of the ordinary. T. R. Brown, county agent, made a short but interesting talk and was immediately followed by a number from the band which closed the program. Closely following the close of the program, ladies of the Naylor community began serving ice cream and cake out in the open to a hungry crowd. There was plenty of delicious refreshments so it is doubtful that anyone left without getting his fill.

The following program was rendered in a very enjoyable manner: Band opened with special number. Quartet—Rev. Hukel, and two daughters, Miss Cecil and Mrs. Frank Heath.

Yodel—Don Martin, accompanied by Nored, Pierce and Palmer on guitars and banjo. Banjo and Saxophone duet—Palmer and Stevenson.

String Orchestra number—Pierce, Nored, Palmer and Keener.

Mr. and Mrs. Sam Barrett, and son Jimmie of Paducah, Texas, spent Wednesday of this week with Mr. and Mrs. J. G. Blanks and family.

July Celebration Plans Are Completed For Big Day

Contests of All Kinds Will be Main Feature of Day's Celebration

Plans for the big day's celebration have practically all been completed and enthusiasm for the coming event waxed high over the entire county and surrounding territory. Entertainments and amusements for the day's program have been planned out in such a manner that there will be something worthwhile and pleasing to everyone. A large crowd from all over the trade territory is being anticipated and it is expected that the attendance will be unprecedented.

There will be plenty of music as there will be visiting bands from Shamrock, McLean and Estelline here to help the Clarendon Band "strut its stuff". At least two baseball games will be played and there are rumors that there will be more, if the teams can be lined up. The east and west sides of the county will play during the morning in a heated match, while Goldston and Brice will try each other for the evening's match.

A new location has been selected for the picnic lunch and will be held in the grove of trees just northeast of the Junior High school building. This is a very beautiful place for picnicking as there is plenty of shade and all of the high weeds will be cleared away. Tables will be strung out under the trees and there will be plenty to accommodate all who may attend. Horse racing will follow immediately after lunch and next will be the turtle race. The turtle race is creating considerable excitement, so don't fail to see it.

The horse races will be the main features of the day; so will the special roping events. Officials Frank Whitlock and Clyde Douglas have arranged a hectic series of contests. Besides the main races and special roping, there will be a slow mule race, a saddle pony race for any Donley county boy who owns a pony and probably a Shetland pony race. There will also be a sweepstake race composed of regular saddle horses. Special features of bronc riding, calf roping, bulldogging and whatnot will furnish thrills galore. The special horse race is promising to be one of excitement as well as a fast one, for Adamson of Ashtola has entered two horses and Joe McMurry, one of his best. When these two men get into anything they know it worthwhile, so watch out for this special event.

Committeemen on grounds, C. C. Powell and Eddie Teer assure the public that there will be plenty of ice water on the picnic grounds. There will be plenty of lemonade, and since there have been requests made concerning the pink kind, there probably will be some of that too.

Late in the evening a band concert and speaking will take place in front of the old Grammar school building. Following this, a banquet will be given the band and at 8:30 o'clock there will be a massed band concert by the Shamrock, McLean, Estelline and Clarendon Bands.

E. Price and daughter, Miss Ruth Price, visited in Amarillo Saturday and were accompanied home by Miss Dorris Breckenridge, a granddaughter of Mr. Price.

Junior Swift in Amarillo Hospital Improving

Following operations for removal of tonsils and adenoids earlier in the week, Junior Swift has been confined to an Amarillo hospital where he is slowly recovering. Following the operation, it was necessary for his father, J. D. Swift cashier of the Farmers State bank of this city, to supply two blood transfusions to restore the loss of blood to his son.

The many friends of this estimable family will be pleased to learn that Junior is now recovering as rapidly as could be expected, and it is hoped that he will have improved to the extent that he may return home the last of the week.

Camp Fire Girls Spending Busy Week Here

Beginning Monday of this week when school rooms were decorated, the Camp Fire Girls have mapped out a week of program that will keep them busy until Sunday.

Tuesday was devoted to civic work. Wednesday afternoon a party will be given children under twelve years of age. This party will be held at the South Ward school grounds at 4 p. m. tomorrow.

Thursday a Mother and Dad banquet will be held. Friday will be devoted to a visit to the shut-ins of the city. Saturday will be "Girl's Day" and the closing event will be a special program at the Christian church at 8:30 p. m. Sunday evening.

Two Cars Suddenly Meet On East First Street

As Philip Couch was said to be turning in to his garage Sunday morning on East First street, a car driven by John B. Naylor, accompanied by his wife, struck the Couch Chevrolet badly damaging the car.

Mrs. Naylor suffered the only casualty by being bumped against the windshield, receiving slight injuries. The Ford driven by Mr. Naylor was only slightly damaged.

Visitors From Over State Like Clarendon

Mr. and Mrs. E. P. Shelton had as their guests over the week end, Mr. and Mrs. V. F. Garrison of Dallas, Mrs. F. E. Croto and daughter Miss Inez of Tulsa, Oklahoma and Mr. and Mrs. Norville of Dallas over the weekend.

Hughes Markets First Corn Here This Season

Running ahead of schedule for the first time in several years, Clarendon people were buying Donley county roasting ears Thursday of last week, the first of the season.

The corn was marketed by Mr. W. A. Hughes of the Chamberlain community, is a field variety and of the best quality. He is finding a big demand for all that he has to offer. Corn is not usually marketed here before July.

A. N. Wood is Entering Terrapin Race

Hart Walters exhibits no little pride in offering "A. N. Wood" as an entrant in the terrapin tussle here the 4th. It has been rumored that the reptile originally came from Jack county, and if this is proven, the pest may be ruled out.

On the other hand, Hart is positive that he can prove that the terrapin is of noble birth being the progeny of West Texas steeds of a long lineage dating back to the time that Enchilada de Hotmail visited Texas in 1492 as a disgruntled sailor when Columbus failed to pay off.

Smith Brothers Purchase Mobeetie Gin

Smith Brothers, well known gin men of the Panhandle, added the sixth gin to their list of properties the last of the week with the purchase of the Farmers Cooperative gin at Mobeetie. While the price paid could not be learned, the gin property is said to be worth more than thirty thousand dollars.

Gins are operated by this firm at Clarendon, Lela Lake, Goldston, McLean and Kress also, the last being rebuilt at this time. They formerly operated a gin at Mobeetie selling it to the farmers, they again bought it and after operating a few years, again resold it to the farmers. This is the third time the firm has been given the preference in the gin field at Mobeetie by the farmer owners of that section.

Ashtola Ball Team Defies Winners July 4th

C. P. Merriman manager of Ashtola's crack league team or thereabouts, announces that his boys can "clean the plow" of any winning ball team here the 4th, and more especially the winning team in the East Side-West Side contest.

Davis Building Being Remodeled With Modern Entrance

Building Will be Occupied by Ready-to-Wear Store When Completed

The brick building owned by W. E. Davis located at the corner of Second and Kearney streets is being rapidly changed into a modern structure with a remodeling of the front entrance. The new plans will permit of plenty of show room space for display.

This building was formerly occupied by the Amarillo Furniture company and is located on one of the best corners of the city. The new stock will consist of a complete line of ladies' ready-to-wear and will be in charge of Nick Sawaya former yof Lubbock.

With his years of experience, and after giving this section a thorough inspection, the fact that a new line is to be added at this time is a compliment to the business opportunities offered by Clarendon and her trade territory.

Good Will Trippers Out Tonight Hedley Bound

All citizens of Clarendon are asked to join the motorcade to Hedley this evening for the good-will meet that is to be held there. The program will consist of band music, dancing, magic, art, steel guitar music with accompaniment, etc.

Banjo, saxophone solos, piano solos and yodeling will also be on the program. Refreshments will be served by the ladies as has been the custom at similar meetings.

Stores Will be Closed July Fourth

All of the grocery and other principal stores will be closed here on July 4th for the picnic celebration. Places of business contributing to needs of the public hourly, will be open only. Please bear this in mind and make your purchases the day before on Thursday.

John Fleming Fires Shot Through Own Head Today

Fires Fatal Shot Facing Mirror—Leaves Letters Explaining Act

Entering the Kerbow hardware store at about 11:30 today (Tuesday), John Fleming passed inside the office railing after the usual salutations to those in the store, removed his hat and, unnoticed, stepped before the mirror and apparently fired a pistol shot into his right temple expiring almost instantly.

It is alleged that his rash act was due to ill health, he having been practically unable to work for several years, being 72 years of age at the time of his death.

The deceased came to the Panhandle over forty years ago and was engaged in the stock business for a number of years and later engaged in the drug business in Clarendon where he had resided for over twenty years, and where friends of former years were friends up to his death.

He leaves his widow and one son, Jephtha Fleming, a daughter having died several ago. The body will be buried in the local cemetery here Wednesday.

Get Ready Now!

Showers Falling in Donley County Benefit Crops

Light showers falling in many sections of Donley county today (Tuesday) will be of benefit to growing crops even though rain is not badly needed at this time.

Except where damage resulted from high wind Sunday in isolated sections, crops in this county at this time were never better. Cotton is up to a good stand and growing rapidly with no insect pests in sight.

Corn is rapidly nearing the roasting ear stage and feed crops cover a much wider acreage than for several years. Wheat is making better than expected prior to harvest and ranges from 12 to 21 bushels to the acre. Eight bushels was the average a month ago.

Cotton Combine Harvester Offered for Sale Here

According to announcement in this issue, a combine cotton harvester manufactured by the Fort Worth Machinery company is being offered farmers in this section. The local representatives are Y. O. McAdams and Son. The fact that the McAdams name is coupled with the sale of the machine is proof that it has merit. Read the ads each week and learn more about the machine.

Union Church Meetings Every Sunday Night

Rev. Sam E. Allison will preach the first sermon Sunday night at the Presbyterian church in a series of union meetings to be held by the Methodist and Presbyterian bodies every Sunday evening throughout the summer.

High Winds Sunday Ruin Large Cotton Acreage

High winds prevailing over west Texas Sunday did thousands of dollars damage to growing crops, and especially did cotton suffer damage. Roy Wilson of the Pleasant Valley community was the heaviest loser so far as known when some sixty acres of his crop of cotton and feed was killed.

All farmers in the sandier sections made heavy losings. With no top season at present, it will be impossible to replant with feed stuff before a rain.

Milt Mosley Enters Race With Other Terrapins

George Hall, aged 8, came into the Leader office Monday and in the presence of W. D. Martin and Finis Harp announced that he had a terrapin for the races July 4th. On further questioning, he announced that his terrapin bore the name of "Milt Mosley", and he knew he would win. George is a son of Joe Hall in the employ much of the time of Speed Brothers and we believe the sheriff owes that boy the treats.

Chicago Rotary Convention Closed Friday

After being in session from Tuesday to Friday, the Rotary International convention came to a close with the election of Almon E. Roth of Palo Alto, California as president over Raymond J. Knoepf of New York City by a vote of 2,216 to 1,119.

As a convention city, Chicago is a rank failure as compared with Dallas where the convention was held last year. Aside from the Chicago Rotary club membership, the visiting delegates of over 18,000 were shown no courtesy whatever.

The police were courteous, no arrests of delegates being reported. Gangster raids were more numerous in Clarendon during the week than in Chicago. The town is inhabited largely by foreigners who did not seem to realize "what it was all about."

Farmer Near Martin Has Leg Broken in Accident

A. A. Smith of the Martin community suffered a broken leg Saturday when he was struck by a car. He was taken to a Memphis hospital where he is resting easily with a prompt recovery in prospect.

Fourth Of July Celebration Assumes Definite Form

Biggest Event in History Planned to Celebrate Independence Day

Come early and stay late. Program will recall your childhood when really big days marked the passing of the glorious Fourth. Races—horses and terrapins. Ball games—lots of 'em.

Band music by several bands. Eats all day if you bring the eats. If you don't, you will have to eat with some one else. Anyway, it will be spread out in neighborly fashion under the trees on an improvised table on the creek near the South Ward school. You are welcome to step right up and help do a job of it.

At ten Monday the chairmen of the various committees met at the Chamber of Commerce offices and formulated final plans.

The program will start at 10 a. m. on the morning of the fourth with a ball game between the east and west Donley county teams. Captain for the East squad will be W. C. Johnson of Giles. West side, Roy Blackman of Chamberlain. The committee to look after the ball games is composed of T. D. Nored, U. J. Boston and Allen Bryan.

At noon the picnic eats will be served. Free ice water and lemonade. Tables have been arranged. Eddie Teer and C. C. Powell quite naturally will be the fellows to see after the arrangements of eats.

The terrapin race will be pulled off at 12:30 at the eating grounds. Phifer Estlack has charge of the turtles and terrapins.

Horse races, bronc peeling and calf roping will open at the ball park of the College at 2 p. m.

Races for 4th of July
5-8 Mile race \$3.00 entrance fee—\$10.00 1st, \$5.00 2nd. Plus entrance money.

Cow Pony race, 220 yards; \$2.00 entrance fee—\$10.00 1st, \$5.00 2nd. Plus entrance fees.

Boys pony race, 220 yards; \$5.00 prize, no entrance fee.

Slow mule race; \$5.00 entrance fee divided 1st, 2nd and 3rd money.

Goat roping contest, entrance fees \$2.00. Purse split 3 ways.

Bronc riding contest; \$3.00 entrance fees with 1st and 2nd money.

Please send in entry's by Friday July 4th, 10 a. m. to Clyde J. Douglas at the Rexall Store.

Frank Whitlock, P. B. Gentry and Cleo Norwood have charge at the College Ball Park. Races begin promptly at 2 p. m.

Band concert a n d candidate speaking at 3:45 p. m. at the band stand at the old Grammar School yards. Gus B. Stephenson a n d Homer Mulkey will manipulate this affair to a successful finish.

Another ball game at the College Park at 4 p. m. Brice vs. Goldston will make the fur fly at this hour. These teams are among the very best in the county and the contest will be most interesting.

No charges will be made for admittance to any of the above games or contests. All you are asked to contribute is your presence, and bring as many with you as possible. You are expected and your friends will be looking for you. Meet old time friends from other places. Make it a day of visiting and fun making. Don't forget to bring your motherinlaw.

Bank Robbery is Unsolved With No Clues

The robbery of the Donley County State Bank over a week ago of some \$8000 remains a mystery as the robbers left no clue. Those in the bank can give no positive description and the car came and went unnoticed by any one on the outside.

The robbery occurred at the noon hour when few were on the street. In the bank at the time were Holman Kennedy, J. L. McMurry, Miss Mantie Graves and Mrs. Elizabeth Holloway. The loss was fully covered by insurance.

Clarendon Wins Attendance Banner At Baptist Meet

Eleven Churches Represented in Associational Meet at Leslie Sunday

The meeting of the Associational S. S. and B. Y. P. U. Convention at Leslie, Sunday afternoon is reported one of the best yet.

The attendance was unusually good. There were representatives from Brice, Clarendon, Corinth, Harrell Chapel, Lodge, Lakeview, Leslie, Memphis, Martin, Turkey, and Parnell. The Parnell group came 52 miles. The tension was keen when it came time to check for the Attendance Banner, Memphis had 80 representatives, while Clarendon had 76, but Memphis had 20 miles to go while Clarendon had 26, so that gave the greater number of points to Clarendon, making them winner of the Banner three times in succession—and the permanent possessor of it.

But the outstanding feature of the meeting was not the enthusiasm and attendance, but the spirit of the service as the program was rendered, featuring Foreign Missions. Harold Woodson of Harrell Chapel gave the devotional, Miss Mabel Sibley of Martin presented the Waiting World, Miss Ruth Thompson of Clarendon the Waiting Workers, and Mr. Melton Evans of Leslie T h e Waiting Christ. Misses Ernestine Walker and Sarah Bradshaw of Memphis sang as a duet "How Long Must We Wait". As the congregation sang "Have Thine Own Way", one girl surrendered herself for special service to help take the message of light to those waiting in darkness.

Mrs. J. W. Roland Grows First Tomatoes

So far as can be ascertained at this time, Mrs. J. W. Roland of Clarendon has won first in growing the first ripe tomatoes this season as open grown fruit. They are of good size and quality.

Unique Races Attracting Children With Entrants

Public Greatly Excited As Terrapin Derby Entrants Stacking Up

If one had any idea that the turtle contest would draw little interest, that party has another guess coming. Every terrapin almost in the county has been lassoed and corralled already for training for the prize money.

Among the entrants is Clyde Skinner of Hedley with "Charles Jr.", and Charles Nidever owner of a beautiful lady steed bearing the cognomen of "Rose Marie." Eldridge Chilton enters "Hump" and Truett Holtzclaw passes in "Clint C. Small."

Henry Toomb, Jr. will present "Mutt" and his sister Charlotte a modestly offers "Jiggs" as a winner. George Hall has pinned his faith to "Milt Mosley" while Forrest Adamson knows "Gallant F6x" will strut his stuff. G. C. Meredith of Giles will enter a choice reptile under the name of "Giles Special".

Lamar Adamson has polished up "Rhea Count" as a titled gentleman of Donley county and feels that he will win fame on the 4th. Phebo Noble of Windy Valley enters "Abram Lincoln" and Hart Walters from the same place pins his faith to "A. N. Wood" to win over any scrub turtle that flops up.

Floyd, Lloyd and Bill Jack Brooks have a batch of racers corralled for the races and their actions are clothed in mystery. These boys may spring a surprise as they are credited with being a shrewd bunch and know how to train their live stock.

Bring your race stock in the reptile line to the South Ward school building on the morning of the 4th. The races will be held at the noon hour. Be prepared to take care of your "racers" until time to enter the "speedway" that no reptile be damaged before given a chance to win cash money.

POLITICAL GUNS.

Politicians over the state are beginning to fire their guns, despite the fact that some of the platforms are unfortified. Some of the candidates already feel a minority plague coming their way, but they hope that some considerate brother will drop out of the race and let him have the support of his intended gun fire.

COMING BACK.

Better times are gradually returning and general crop conditions are looking better over the country. The depression which spread over the country is gradually passing toward the west. The East had it first, then we had it, and now it is headed toward the western portion of the United States.

SHOULD IT HAPPEN!

Should those tough babies suddenly start scattering from Chicago, who have lived a life under the stern hand of gangleaders, holdups will become as common as West Texas sandstorms. Hard boiled outlaws of the past will be docile compared to these "eggs" from the underworld. If such a thing should happen the only thing to do would be for the people to get sawed off shotguns and shoot them on suspect and ask questions afterwards.

OVER PRODUCTION SCARE.

"Cheese heads" manipulating the stock exchanges and controlling market fields are still crying that over production is the cause for low marketing prices and the fluctuation of prices in general over the country. Any one who stops to think—knows that as long as there are hungry people there isn't any such thing as over production. It is under consumption and nothing more. An equalization must be stabilized between products and values, and until that tentative fact has materialized, marketing prices will fluctuate and continue to be irresolute.

CHICAGO'S GANGLAND.

Dailey newspapers still carry blood red streamers of the barbarous and horrifying deeds of the Chicago underworld. Gang leaders rise to pedestal honor amid the clamor of voices filled with fear

and hatred, only to be treacherously murdered while the mock of glory still clings to the foul and morbid air. Still further reach those blood tipped fingers as they beckon and seize innocent souls and drag them away, leaving a flood of depression and mystery behind.

This type of underworld society cannot and will not be tolerated by civilized people. Already the better element of Chicago has flung her challenge far into the depths of this barbarous underworld. Many officers and officials of the city have resigned and their places taken by men of efficiency who intend to claim honor only after this dreaded underworld has been white washed from beer keg to gambling hall.

Since the recent murdering of one of Chicago's oldest crime reporters, Alfred Lingle, Tribune reporter, newspapers have joined in the fight and are contributing considerably toward the convicting of gangland leaders. The whole world is eagerly watching to see if Chicago can cure her black eye.

THE LOCAL NEWSPAPER.

Some time ago it became known that big men of the world were advocating the gradual passing of the small town newspaper. This provoking statement perplexed the small town editor to some extent. His ingenuity was tried, but the absurdness of such a prediction could never be a reality—he knew, as long as country life existed.

Despite the fact that daily newspapers reach into nearly every county, home at dawn, the local papers are gaining more recognition, getting on a firmer foundation and are becoming more and more useful in the territory which they represent. Its sheets are full of local news as well as carrying display ads which tell the people what the merchant has to sell. This is one thing the metropolitan papers cannot afford to do. Its field is to broad and its locals limited. It is in the local field that the country paper dominates and puts out its usefulness to the community.

The home town paper is the sheet which records visits, births, deaths and fosters donations as well as aids in civic interests. It

copies with the business man in helping him to put his wares before the public and it cooperates with the farmer in his plea to the government for some kind of a relief that will protect and regulate crop prices.

It is the intention of the local paper to play no favorites, print no scandal and to carry no statement which might jeopardize personal or public interests. It is the playground of mirth and sometime a sanctuary of sorrow. It is a mirror of revelations—a mock of errors. It makes its apologies and retaliates no hatred. It is a forerunner of progress and a recorder of affairs. It is a gift from time—echoing of the past, registering the present, and abiding posterity.

Editorials by A. D. Estlack

WE THANK YOU

We, the club ladies of Chamberlain take this method of thanking the public in general for so liberally supporting us in our efforts to entertain the candidates Friday night, June 27. We specially thank Mr. Mulkey for the assistance he and his fine band boys rendered on this occasion. Also Mr. Boykin secretary of the Chamber of Commerce and other business men of Clarendon. Mr. Simmons and others from Hedley have our lasting gratitude. The net proceeds from the meeting were twenty-five dollars and seventy cents, for which we again thank everyone.

Mrs. W. A. Hughes, reporter.

Youngsters Entering Turtle Race Early

Phifer Estlack, chief of the turtle division of the 4th of July celebration, was besieged by two happy youngsters Monday bringing in terrapins which were promptly labeled "Jiggs" and "Mutt" according to the wishes of the owners.

Mutt is owned by Henry Dwight Toomb, aged 8, and Jiggs is owned by Miss Charlotte Ann Toomb aged five. When it comes to doing things, the Donley county youngsters never disappoint.

Mrs. J. C. Wood and daughter, Miss Della, of the Martin community, spent Sunday here with their son and brother, L. L. Wood and family.

TANTALIZING TEXANS

Willington, S. C. June 17th, 1930.

Editor Leader:

I am enjoying myself at my old S. C. home again and living on the good things of the land. My farms lie along the river here and we keep fish boats in the river all the time. Hence we are eating the finest of fresh water fish nearly every day. I find the cotton stands good in most cases and the crop in nice growing condition, clean and well cultivated. The earliest cotton fields here are just beginning to get ready to bloom. The farmers are poisoning for the boll weevil now and this will have to be kept up for sometime, as "an ounce of prevention now is worth a pound of cure later." We are now applying Nitrate of Soda to our corn crops and I have seen some as fine corn growing about head high, as black as a cloud and beginning to tassle, as a man ever feasted his eyes on. Corn, if nothing goes wrong with it, will best one hundred bushels per acre. I have counted as many as fifteen stalks to the yard. But I suppose about three hundred stalks to the seventy yard now will be about the average of the best parts. All we hear now is hail and high water. But I must tell you about my cultivated black berry vine. It is 80 feet long and 15 feet wide at present, and is loaded with berries beginning to get ripe. I never have seen a vine with more fruit on it. I counted one fruit stem ten inches long that contained 87 large berries on the stem. Now the only thing that has kept this one vine from taking the entire garden of one half acre is it has been kept cut back from taking the garden all to itself. I have been figuring a bit that if I turned that vine loose to go its way, I would have to get a permit from Mr. Mellon to establish me a winery like they do in California and I would soon be able to keep me two or three costly cars and live on "Easy Street" the balance of my life.

Well I see the tariff bill has at last been signed after 17 months fighting over it. You will recall that Mr. Hoover promised the farmers if they would elect him, he would call a special session of Congress and see that the farmers were put on the same parity with the manufacturers of the Republic North. All the farm relief the

farmers will ever get out of this bill, they can put it in their eyes, and see clear. This Vicons tariff bill is what they got for going hog wild and "voting for Mr. Hoover because he is dry" when I doubt if there is a man living who knows whether he is dry or wet, and will probably not know until he can tell a little better how the cat is going to jump on prohibition. The political pot is beginning to boil a bit here. I see one candidate for the U. S. senate is out and his slogan or battle cry is down with the chain stores. As far as I can tell at present this seems to be a popular cry and the hounds are crying on the trail with open mouths. Enough for this time. I am Rept. R. F. Morris.

OUR WEEKLY CHURCH CHAT "Giving"

It is a tremendous rhetorical question which closes the final prophecy of the old testament. "Will a man rob God?" And for a terrible dramatic answer comes the gospel record of God's own Son. Go to Calvary and see! They robbed Him of His liberty; they robbed Him of His sandals, of the shirt off His back; they hanged Him high between two thieves and robbed Him of His life. Yes men will rob God. They will steal from orphans; they will steal from widows; they will steal from their own mother; they will rob their brothers; and they will rob God. The basis of Christ's teachings about money is the fundamental conception of stewardship (Luke 12:42; 16:1-8). Not only money, but every gift of God, is received in trust for His use. Man is not an owner, but a trustee, managing another's goods and estates, God being the one original and inalienable Owner of all. The two things required of stewards are that they

"Be faithful and Wise", that they study to employ God's gifts with fidelity and sagacity—fidelity, so that God's entrustments be not perfected to self-indulgence; sagacity, so that they may be converted into as large gains as possible. The Jew was branded as a robber if he held back his tithe. Why should a Christian who robs God of His dues be considered a good saint? For such, a reckoning day is coming. They must give an account.

In our Sunday morning message we hope to sound the warning to three groups: children, Christians, and sinners. Our subject will be "ACHAN'S GOLDEN WEDGE." In this message we hope to give to you some new information on an old subject.

The Sunday evening hour will be used by the "Camp-Fire Girls". They will have complete charge of the program and service. Everybody invited to attend these Sunday services. W. E. Ferrell, minister, First Christian Church.

Knight Dairy Inspected By Federal Veterinarian

The Knight Dairy Farm southeast of this city and owned by C.

L. Knight was inspected last week by state and federal veterinarians Dr. Lewis, of Fort Worth. The examination was held to determine whether any of the cows showed symptoms of tuberculosis. The animals were declared to show no signs of positives and were pronounced to be in the best of health by the official. Mr. Knight has 13 head of the very best dairy cattle on his farm.

Lubbock Man Could Hardly Get Around at Times, He Says

BEFORE TAKING ORGOTANE LOFTIS HAD SUFFERED 10 YEARS FROM RHEUMATISM

"Before I started taking Argotane, at times I was so badly crippled up with rheumatism that I could hardly get around, but it's different with me now," said H. P. Loftis, as well known farmer living on rural route 5, Lubbock, Texas, recently.

"I had been in bad fix for going on ten years," continued Mr. Loftis. "Of course, not so bad all the time but enough to make me suffer a lot. My legs pained me so at times I could hardly get any sleep for the agony I suffered. Then, about five years ago, stomach trouble set in, and nearly everything I ate disagreed with me, and I suffered a lot with gas and bloating and finally got so I lived mostly on light diets but that didn't seem to help me any and I got awfully weak and run down. This rheumatism and stomach trouble caused me a lot of worry because I really wasn't fit to do my work as I wanted to. I had tired all kinds of medicines, and treatments without being helped any and got so I never expected to be well again."

"Then I read about Argotane and saw a statement by a man I knew so I decided to give Argotane a trial and I'll never forget how that medicine started right in to help me—it was simply wonderful and I could hardly believe it myself. I hadn't finished the first bottle until I was feeling a lot better so I kept on taking the medicine and now my rheumatism is not only completely gone, but all my stomach trouble as well, and I can sit down to the table now and eat as big a meal as anyone else. I am just so thankful to be free from my trouble that I can't say too much in praise of Argotane."

Genuine Argotane may be bought in Clarendon at the Stocking's Drug Store.

Mrs. Eva Draffin and son Jack spent the week end at Amarillo with the family of Olin Walker.

CHAMBERLAIN

Attendance at Sunday school was not so large Sunday.

A fine young lady is making her home with Mr. and Mrs. Huffstutler since Friday June 27.

Mrs. Joe Ratlick of Goodland is

visiting her father, N. Dingler and other relatives.

W. A. Hughes attended to business in Amarillo Wednesday and heard Jim Ferguson speak in behalf of his wife who is making the race for governor.

Chamberlain had a rare treat in oratory Friday night when the candidates of the county presented their claims to a large audience. Judge McIntosh, candidate for District attorney made a strong appeal for votes and emphasis very strongly his promise of law enforcement. The ladies club sold refreshments from which they realized the net sum of twenty-five dollars.

Every one had a nice time.

The community feels under last obligation to the Clarendon band boys for the splendid music they brought to us free of charge.

Then Mr. Mulkey is due the Lions share of praise for the way he so generously treated the band boys.

Mr. Whitlock of Clarendon in his own easy way made a strong appeal for Clint Small next governor of Texas.

Mrs. Freeman of Clayton, N. M.

visited in the home of her brother Owen Hott for the week end.

H. B. Rhodes and family of Brice visited in the Millsap home Sunday.

This Happens So Often

A school teacher near here bought stock in an "investment company." It was arranged for her to pay for this stock on a monthly basis. The returns would be immense.

After two months she asked her local banker about the matter. He made an investigation and she stopped paying. The "Company" is now broke and she lost her \$100.00.

This bank does not pretend to suggest when and how you should invest your money—that is entirely your business. But we DO urge you to investigate. We will gladly lend you any assistance.

Why Dine your Neighbor's Cow?

SAGGING BARBED WIRE is an invitation to your neighbor's livestock to take dinner on your property and at your expense.

You can stop these free meals by using COLORADO Cinch Fence Stays—the patented wire stay that prevents sagging wires and makes barbed wire fences strong and tight.

Cinch Fence Stays cost but little and take only a few seconds to apply. They are fireproof and rotproof. In erecting new barbed wire, they will save you money because you can set your posts further apart and have just as strong a fence.

• YOU MERELY twist the stay down over each successive strand and then give the forked end a twist with the pliers. That's all there is to it.

W. C. Stewart Displays General Electric Commercial Refrigerators

W. C. Stewart, local dealer, co-operating with the E. O. Cone Co., General Electric distributors of El Paso, recently displayed several of the large commercial models of the General Electric line. The display was carried on a three ton Reo truck with special body.

The General Electric Commercial models, like the Domestic models, are complete units, the same efficient, trouble free hermetically unit being used on these large models, eliminating all installation problems.

According to Mr. W. C. Stewart, more General Electric Refrigerators are going into homes today than any other make. He attributes this overnight popularity to the fact that "of the hundreds of thousands of users, not one has spent a cent for service or repairs."

Tyndall Meeting Begins July Fourteenth

Announcement is made of the beginning of a revival with the local Christian church the 14th under the leadership of Dr. John W. Tyndall, reputed to be one of the most learned bible scholars of the present day.

Dr. Tyndall has been here on many occasions and will draw large congregations from over the Panhandle. Not only is he well versed in Bible history, but he is also a respecter of opinions of others and says nothing that will offend. No other minister ever came to Clarendon and left more friends than he, and this visit will be no exception.

Mr. and Mrs. W. H. Grounds visited her brother, Mr. John Dodson of Amarillo Sunday.

Morris Hayter of Long Beach, California and Jones Logan of Lubbock, are visiting their uncle and aunt, Mr. and Mrs. W. T. Hayter if this city.

Amarillo Zoo's Growing Population Attracts Notice

Sixty Specimens of Native Birds and Animals Have Been Contributed

"The zoo today has about 40 animals and 20 birds, ranging in size from guinea pigs to a big cinnamon bear. And even though that beginning is admitted by the club members to be small, the work has progressed far enough now, they say, that it will be easy to fill cages as fast as they are built. Dozens of other valuable specimens are available today, as soon as preparations can be made to receive them, according to Robert Burke, who is taking the lead in securing animals for the zoo.

Under the management of Burke, very little expense has been necessary up to the present time in bringing animals to the zoo. He has been able to solicit valuable specimens without cost, and has the promise of many more. It is his declaration that he can fill pens as fast as the county commissioners will provide them, and there will be no expense, except for transportation, and so far there has been little of that. He had a pair of Davis Mountain lions brought all the way from Abilene without cost, except incidental expenses that he paid himself.

Burke has devoted more time to the movement since the pens were constructed than any other individual. Walsh, local architect; Carter Matthews, cabinet maker, and C. L. A. dual. Before construction, Harold Boehmole, structural engineer, were active and designed the plans for the zoo. Matthews, especially, devoted many hours to the work.

Lawrence Nobles, chairman of the committee, of course has been active, as well as Lewis Fields and Floyd Jones, members of the committee. Hugh P. Simmons of the Panhandle Lumber Company, an honorary member also has taken much interest in the work.

County commissioners first appropriated \$4,500 for the zoo, and the expenditure of considerably more than that can be foreseen, if the demands are met.

Improvements Under Way

Improvements are being made daily to make the zoo more comfortable for the animals, and objectionable features have almost been eliminated, and will be entirely as soon as the work can be done.

Although a few smaller animals have escaped, steps have been taken to guard against such an occurrence in the future.

Animals in the zoo now and their donors are listed below:

List of Donors

- A cinnamon bear, J. M. Adams, Adams Dry Goods Company.
- Two mountain lions, Abilene Zoo, Abilene, Texas.
- Two bobcats, J. H. Bartlett and W. H. Brymer.
- Three raccoons, Ed Mosley, Hedley, Texas, and Henry Maggard, Amarillo.
- Two badgers, Williams Hardware Company.
- Two skunks, Ed Mosley, Hedley, Texas.
- One ringtail cat, Harmon Motor Company.
- Four coyotes, E. H. Estlack, Clarendon, Texas.
- Four squirrels, Mrs. Ben Hensen, and Model Fixit Shop.
- Four owls, Frank Gamblin and Ed Mosley, Hedley, Texas.
- Two white rats, Joe Brooker.
- Eleven guinea pigs, Kansas City Blackleg Serum Company.
- One chinchilla rabbit, F. W. Trent.
- Eight wild mallard ducks, R. W. Burke.
- Eleven Canadian wild geese, R. W. Burke.
- An eagle, J. D. Cazzell, Amarillo.
- A female monkey, and a parrot, the donors of which are not known.

One Third Of Texas Dairy Cows Loafing

Weed Out Drones Says State Dairy Chairman; Give Producers a Chance

Fort Worth, June 30th.—Two thirds of the dairy cows in Texas should produce the state's total of milk and butter, according to J. W. Ridgeway, Texas chairman of the National Dairy Council.

"Replace all non profitable cows, now boarding on Texas farms with those who pay their way with milk and butter, and you can cut down the numbers in the herds," Mr. Ridgeway advised the dairy farmers of the State in a recent official bulletin.

The remainder of the herds that are high producing, thoroughbred cattle should be fed with more scientific attention to production, bred only to high grade bulls, and the herds thus weeded out until the farmer would no longer be paying board for scrubs in his herd, the Texas chairman says.

"If only calves from high producing cows were raised, and these were fed the proper mixture to increase their production," and all diseased cows and descendants of diseased cows were eliminated from the herds, we would soon see increased production with a fewer number of cows. The old range cow is still having her influence on the Texas dairy herd, and must be weeded out for the modern cow of a different breed and for a different purpose. The old pioneer was valuable in her day but her day is past."

The condition of too many cows for the amount of dairy products markets is found not only in Texas but throughout the United States. According to the National Dairy Council, the entire country is fed with about 22,500,000 cows. And the amount of dairy products from these cows could be obtained just as well from about 14,000,000 cows if the herds were properly thinned out.

"The American dairy industry cannot look to foreign markets to absorb American dairy products. The world is sufficiently well supplied by other countries now," the National Council has declared.

"Those nations which do not use dairy products as an important part of their diet are so low in the economic scale as to leave them out of the picture for a good many years," according to Mr. Ridgeway. A balance between production and consumption must therefore be adjusted within our own boundaries.

"If the farmer will help himself the problem will be solved. He

must learn to consume his own products and to work out his herd to the highest degree of efficiency, and then he can look to others of the state and country to help him in his efforts to create sufficient home markets for all of his production," Mr. Ridgeway said.

BUTTER versus OLEOMARGINE

In response to numerous requests for accurate information relative to the comparative food values of butter and oleomargarine, the following statement has been prepared:

Butter	
Fat	81.0 per cent
Moisture	15.5 per cent
Salt	2.5 per cent
Curd	1.0 per cent

Oleomargarine	
Fat	81.0 per cent
Moisture	14.5 per cent
Salt	3.0 per cent
Curd	1.5 per cent

The difference between the food value of oleomargarine and butter is the quality of the fats or oils. The nutritive function of all fats is to make heat (energy.) A pound of meat fat or vegetable fat and a pound of butterfat will yield the same amount of heat, or energy—about 3,500 calories. A calory is the amount of heat required to raise 1 kilogram of water 1 degree centigrade.

The superior value of butter as a food is due to certain elements which are carried in the milk fat, and which are not to be found (at least in sufficient quantity for human requirements) in other animal fats, or in vegetable oils.

The most important of these is Vitamin-A the growth-promoting factory. No young animal or child can grow to normal size unless it receives an adequate amount of this vitamin.

Vitamin-A is found in such foods as the fat of the yolks of eggs, the leaves of plants, and the heart, liver and kidneys of animals, but it is in these foods in such amounts as to be insufficient for human needs. Milk fat is the only source of human food which carries a sufficient amount of this vitamin.

Beside promoting physical and mental development, Vitamin-A protects the eyes of young children from a disorder which affects them if there is no Vitamin-A in the diet. It is known as Xerophthalmia, or the dry eye disease. The tear ducts dry up, and the consequent friction of the lids against the eyeball sets up inflammation, and the lack of moisture over the eyeball allows the lodgment of harmful bacteria. The eye ball swells and total blindness ensues, in time. There is no medicinal cure for this disorder. If the case is taken early enough the addition of milk to the diet will restore normal conditions.

Another element is iodine. The human system requires an adequate amount of iodine in the thyroid gland, as a protection against goiter. Butter is our most reliable food source of iodine.

The disease or condition known as rickets is due to a lack of sufficient calcium in the system, as well as a lack of sufficient direct sunlight on the individual. Milk fat is one of our main safeguards against rickets.

In addition to those facts, it is known that butterfat is necessary to enable the digestive apparatus to extract and retain calcium in the system. It has been proven that even though a child be given more calcium than is really needed for proper growth and development it will not be retained if butterfat is not a part of the diet.

It is on these three points that the superiority of butter as a health food even all other fats is based. A large amount of research and experimental work has been done with both animals and children, and these facts are now regarded by all scientists as having been proven beyond question. The authorities on whom we principally depend in this matter are, Doctor E. V. McCollum of Johns Hopkins University, Doctor H. C. Sherman of Columbia University, and Doctor Albert Hess of the same institution. Their findings are supported by the work of scientists in scores of other institutions, not only in this country, but in England, Germany, other European countries, and Japan.

We hope this information will prove helpful in clearing up possible misunderstanding with respect to comparative merits of these two foodstuffs.

Mrs. J. C. Estlack visited her sister, Mrs. S. H. Manning at Ralls over the week.

Ancient History Taken From Paper in 1894

An issue of the Industrial West, paper published here on March 3, 1894 has been loaned us by John Hunt, W. P. Blake, now of Amarillo and Del W. Harrington, were owners and editors of this paper at this time.

The legal profession was represented by J. H. Peebles, W. R. Butler, W. L. Saye and the firm of Browning & Madden. Each were advertisers, that being before the day of "ethics," each fellow following his own inclinations.

August Williams tells the world that "fine collars and shirts washed better than a Chinaman." Doshier & Moore operated a livery stable making a specialty of hunting outfits.

At that time one bank served the needs of the town and country and was known as the Bank of Clarendon. Chas. Goodnight was president; H. W. Taylor, vice president; D. W. Van Horn, cashier; W. H. Patrick, assistant cashier. The capital stock was fifty thousand which is the same as today except we know it as the First National Bank.

A news item, "Chinese Competitors", announces that Chinese will soon own the state of Montana since Sam Wah King had purchased a cattle ranch for \$110,000.00 and had employed only Celestials for cowhands. He made his money out of mining investments in the Black Hill country according to the alarming news item.

Rev. Emanuel Dubbs operated a dairy and also announces that he has installed a feed crusher and chopper.

Miss Ethel Crane of Amarillo visited Miss Edna Crane here Friday.

Miss Pauline Shelton will leave Wednesday for an extended visit with relatives at Dallas.

Mr. and Mrs. Joe Cluck and Virginia are touring the west on a vacation trip.

SOCIETY
TRUE WORKERS SUNDAY SCHOOL PICNIC

Members of the True Workers Sunday school class, with their teacher, Mrs. Nathan Cox, motored to the river Thursday evening on a picnic excursion. The girls report a grand and glorious time with thrills and excitements galore. The girls went in swimming and report exciting moments when some mischievous members tried to put a frog down another's back. Screams, yells and giggles took honors for bombarding the quietitude while a delightful spread of edibles took second for hulling it down. A war dance of peculiar form took place, in which the girls are said to have used frogs instead of snakes.

This health promoting excursion was enjoyed by: Misses Nova Cook, Melba Del Warner, Margaret Dillard, Elizabeth Kemp, Helen Rodgers, Mary Naylor, Ruth Price, Eula Naylor, and Mrs. Nathan Cox, Sunday school teacher.

MISS MANTIE GRAVES HOSTESS

Miss Mantie Graves entertained the Business and Professional Women's Club last Tuesday evening in a very interesting and lovely manner. After a clever bit of stratagem, places were found and the stunts that followed revealed much talent among the members.

Miss Rhoda Weidman rendered a very pleasing number on the piano to those present. No reports were made from the standing committees and Miss Naomi Allison was elected to membership.

A discussion followed the business meeting in which the recent bank robbery was fully discussed by the two members who were present at the time of the holdup.

MRS. T. H. WALTERS GIVES ANNOUNCEMENT PARTY

Mrs. T. H. Walters, assisted by Mrs. E. K. Hulsey and Miss Mildred Hulsey, entertained with a bride party at her home last Tuesday afternoon announcing the engagement and approaching marriage of her daughter, Marjorie to Mr. Gordon Bain of Clarendon, Texas. The wedding ceremony will take place Monday evening June 30, at 8:30 o'clock at the Presbyterian church. Dr. Geo. S. Slover, of Amarillo, Texas will officiate.

In the games of bridge, high score went to Mrs. H. B. Hankins, second high to Miss Hazel Cantrell and cut to Miss Roberta Hutchinson.

Refreshments were served to the following: The honoree, Misses Nell and Virginia Walters, Mary McGlaun, Mabel Claire Engleman, Francis Morrow, Estelene Vaughn, Gladys Spear, Madine Cavet, Elizabeth McFarling, Roberta Hutchinson, Mattie Jordan, Hazel Cantrell, Mildred Hulsey, Frances Croson, Canyon, Mesdames Hazel Anderson, Connor Oden, H. B. Hankins, Frank McGlaun, Claude B. Dyer, W. C. Bangie, R. G. Clennin, E. K. Hulsey and Ray Clark, Amarillo, Texas.—Tulia Herlad.

PARTY GIVEN YOUNG MATRONS HARMONY CLASS

Mrs. Kirtley and Mrs. Henry Tombs entertained the members of the Young Matrons Harmony Class last Tuesday afternoon in the B. F. Kirtley home with a very enjoyable party.

The game 42 was introduced after the business lesson and was enjoyed until a late hour when a lovely ice course was served.

Those present were: Mrs. Paul Shelton, Mrs. Y. E. McAdams, Mrs. Elba Ballew, Mrs. J. M. Redfern, Mrs. Fred Buntin, Mrs. C. E. Miller, Mrs. Tom Goldston, Mrs. O. C. Watson, Mrs. C. W. Bennett, Jr., Mrs. Joe Ellison and Mrs. F. E. Croto of Tulsa, Okla.

MRS. B. C. ANTROBUS ENTERTAINS SISTER

Mrs. B. C. Antrobus complimented her sister, Miss Sarah Williamson, Iowa Park and her friend Miss Polly Wilerson of Nashville, Tenn., with a bride party at her home Monday June 23.

House decorations of gladiolas, water lilies and chasta daisies made a very beautiful color scheme for the afternoon. Bridge was enjoyed during the afternoon during which two courses of refreshments were served.

High score went to Miss Leta Verne Martin who received a very lovely favor as well as the two honorees, Miss Williamson and Wilerson.

JUST AVERAGE FOLKS

The world's work is carried on by average folks. Occasionally we have a Burns, a Shakespeare, a Caesar, or a Napoleon, but they are rare. The output of humanity is, on the whole, only fair; fair sermons, fair poems, fair crops raised, fair business and professional accomplishments.

This is because most people are not willing to put forth the utmost effort. They are content with the average. Not "somewhat better," but "that will suffice." Instead of most of us giving all we can of self, we try to figure out what the smallest amount is that will answer.

The average in people is seen in two things—inherance and attainments. Some people are blessed with about 100 per cent native ability and their attainments are

50 per cent of what they should be. Sometimes there are those who rank about 50 per cent in endowments, but their returns are 100 per cent. Others are blessed with about 50 per cent of what we like to call "genius" and their attainments are about in that ratio.

Now the trouble with our world is that most of its people are in the third class when they could just as well be in the second class mentioned. A mediocre kind of work is being accomplished when it should be first class. The reason for this is that those of limited endowments claim exemptions from responsibility. That principle is not only wrong, but it is perilous.

Refuse to use your right arm for a few weeks, and you will find it hard to use. Fail to exercise it for

a few months, and you will lose the use of it. That atrophy of disuse is manifested in our heaven-born gifts. The less we do, the less do we want to do. Disinclination to serve arises from moral atrophy. It is the result of failing to exercise the gifts we do have.
