OUT RUNNING THE DEFENSE ---Gage Angeley is pictured making the last pass completion of the evening, in last Friday's game against Dimmitt. Angeley ran into the endzone for the Mules touchdown, making the score 20-12 for a victory for the Mules. Quarterback Ruben Gonzales hit Angeley on four touchdown passes for 153 yards. On defense for the Bobcats is Derrick Thomas. (Journal Photo)

Mules Roll Past Bobcats 20-12

It was a big night for the Muleshoe Mules Friday night defeating the Dimmitt Bobcats 20 to 12 in Benny Douglas Stadium. Both teams went on to the field with a lot of determination, looking for their third win of the season.

Both teams were pretty evenly matched. Penalties cost both the Mules and Bobcats good yardage and the Bobcats had two touchdowns called back due to penalties.

Prior to the game, the Mules, Cheerleaders, Mighty "M" Marching Band, and their parents were recognized, since it was Parents Night.

The Mules received the opening kick off. On the first play of the game, off sides was called against Dimmitt. Two plays later illegal procedure was called against the Mules. Giving both teams a slow start. Being unable to move the ball, the Mules were forced to punt it away.

On the Bobcats first possession of the ball, the Bobcats failed to move the ball and were forced to punt it back to the Mules.

Again the Mules failed to move the ball and punted back to the Bobcats.

The Bobcats picked up two first downs before making it into the

endzone with 6:33 left in the quarter. The point after kick was no good and the Dimmitt Bobcats led 6-0 on the scoreboard.

On their next possession of the ball, the Mules were forced to punt the ball back to Dimmitt. The Bobcats fumbled the ball and the Mules came up with it. On the next play, Gage Angeley made it into the endzone on a 47 yard pass from Ruben Gonzales. The point after kick was good and with 4:14 left in the first quarter the Mules led 7-6 over the Bobcats.

The Bobcats picked up three first downs on their next possession of the ball before turning it over to the Mules on downs on their 20 yard line.

Following two big first down plays, one a 44 yard and a 49 yard, Angeley hit pay dirt once more. The point after kick was good and the Mules led 14-6 over the Bobcats.

The Bobcats picked up three first downs and made it into the endzone with 6:56 left in the half. The touchdown was called back due to a penalty down field. With 2:47 left in the half, Dimmitt made it into the endzone once again. A two point conversion attempt failed and the Mules led 14-12 on the scoreboard.

Dimmitt kicked the ball back to the Mules. On the next play the Bobcats intercepted a Mule pass.

The Bobcats picked up their 10th first down of the night before having another touchdown called back due to a penalty down field. With :57 left in the half, Dimmitt attempted a 41 yard field goal. It was no good.

At halftime the Mules led 14-12 over Dimmitt.

Getting the second half underway the Bobcats received the ball only to punt it away three

Board Gives Nod For Equipment

During the Hospital Board Meeting held Thursday night in the yellow dining room of the facility, the board authorized Richard Murphy, administrator to advertise for bids on a Data

Processing System for the HealthCare Center, a Security System, and Fire Alarm System.

Murphy stated some of the advantages of the Data Processing System. "It will save time as well as update all physicians orders," Murphy said. When asked about the cost, Murphy quoted a figure of \$17,069 plus a maintenance fee of \$195 per month.

A lengthy discussion was held prior to the consideration of a Security system for the hospital. The board approved the advertising for bids on the system.

"Our Fire Alarm System is virtually dead," said Murphy. "It just doesn't work any more." After a discussion, the board authorized the advertising for bids for the alarm system. Murphy stated that the system would cost from \$12,000 to \$15,000.

After a lengthy discussion, the board tabled advertising for bids for an EKG and Stress Test System. The cost of the monitoring system would have run from \$20,000 to \$45,000, with the Stress Test System would have run from \$15,000 to \$21,000. This will be discussed at a later date.

Buck Campbell called the regular meeting to order and the minutes of the previous meeting were approved as distributed.

Hospital Financial and Statistical Reports were given by Murphy. He also gave the Financial and Statistical Reports for the HealthCare Center.

There was no old business. Under new business, the board approved the 1993 Tax Roll.

With no more business, the board went into executive session.

New Tax Laws Discussed At Rotary

"What we have now is the Revenue Reconciliation Act of 1993," said David L. Sudduth, C.P.A., in speaking of the new tax bill, to the Rotary Club at noon Tuesday. "Before that we had the Revenue Reconciliation Act of 1990, Revenue Reconciliation Act of 1989, RRA of 1988, RRA of 1986 and RRA of 1984.

"One of the first tax increases was a 4.3 cents per gallon. You felt this tax increase on Oct. 1. Gas for agricultural purposes is exempt. The total tax on a gallon of gas is 18.14 cents per gallon. Tax on Diesel is 24.4 cents per gallon. This tax is supposed to phase out in 1998.

"Higher Individual Tax rates went into effect seven months before the tax bill was refined. The Capitol gain rate stayed at 28 percent.

"Estate and trust tax was hit hard 38 to 39 cents.

"They reinstated the 25 percent health insurance coverage for the self employed, and boosted the Corporate Tax Rate from 25,000 to 35,000.

The Tax Bill will also hit some five million older people on Social Security.

"Earned Income Credit for low income families has been expanded to a maximum of \$2,038 per child. The bill also makes Earned Income Credit available to low income households without children.

"Business and entertainment expenses have been cut. Formerly you could deduct 85 percent, now it is 50 percent. Club dues are also no longer deductible.

"When you take your wife on a

business trip, her way is not deductible."

Sudduth was introduced by Jay Feagly.

David Tipps opened the Rotary meeting and Charles Marow led the group in the pledge.

Terry Hutto led the group in singing "Auld Lang Syne" and "Vive le Rotary", accompanied by Curtis Shelburne on the piano.

Visitors were recognized including: Cindy Purdy, Darlene Henry, Marie Bass, Tony Pedilla and Evelene Harris.

Emergency Loans Available

Emergency loans for farmers, ranchers or aquaculture operations are available through county offices of the Farmers Home Administration (MFA), Joyce M. Thompson, MFA County Supervisor, said today.

Thompson asked that those who need farm credit as a result of drought, hail, high winds, tornado on July 7-14, 1993 make their needs known at the Farmers Home Administration office at 806-272-5549.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until June 8, 1994, for physical and production losses.

MFA loans covering actual physical and production losses may be used to replace installations.

Veteran Police Officer Named Chief Of Police

Tuesday morning the City Council appointed veteran police officer Julian Dominguez as Chief of Police.

Dominguez, who has been with the Muleshoe Police Department 14 years has 1255 hours of police training in different fields. He has experience in running the office, having taken command when the late Chief of Police Wayne Holmes was sick, and following Chief Holmes death.

Born in Muleshoe in 1958, Dominguez graduated from Muleshoe High School in 1977, and the Spag Regional Police Academy in Lubbock in 1979.

He has worked under three different chiefs in the Muleshoe Police Department.

"I received most of my experience and training while working under Holmes," Dominguez said. "Wayne was my supervisor during my time on the force. Everything I know, I learned while working under Wayne."

When asked about the drug program in our local schools Dominguez replied, "I will continue putting on programs in the school, educating students at a lower grade level, not only on drugs, but safety in general. With good team work we can accomplish more, making more arrests of drug dealers.

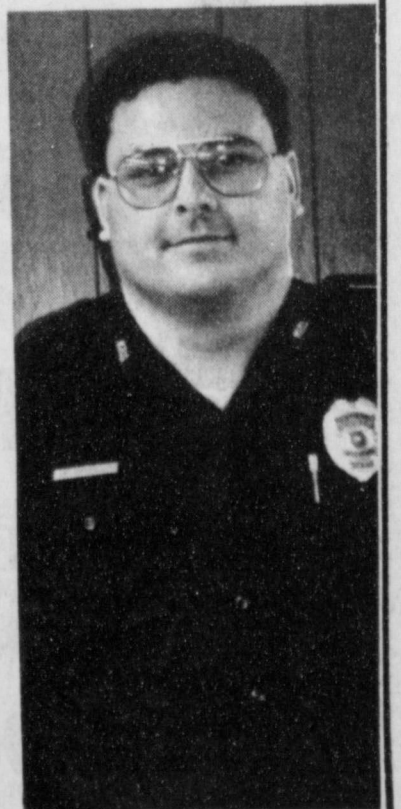

"I'd like to welcome the public-- to come by the station--and visit.

Come in and visit about any problem you have--let's work together and make this a safe community to live and raise our family in.

Dominguez's wife, Connie and family, reside in Muleshoe other children reside in Canyon.

Letter To The Editor

Dear Mr. Hall:

Since 1985, scores of families in Muleshoe have prepared Christmas Boxes for needy children in Latin America and sent them to us at Friends of the Americas. For most of the children, this wonderful box from America was the only present they received at Christmas. Each box is designed by an American family for a Latin boy or girl of a particular age and sex. It contains 30 new items, such as a dress or shirt and pants, socks, underwear, toothpaste, school supplies, toys, an American flag and most important, a photo and letter from the person who prepared the box. Over the past eight years, Friends has delivered more than 300,000 Christmas Boxes to the neediest children in 20 countries of Latin America: children who survived recent natural disasters, children in refugee camps, orphans, street children and children in the "marginal areas" of the big cities of Latin America. Friends has established an intricate distribution system for delivering the Christmas Boxes to needy children. We ship the boxes to each country where they are stored until distribution

day. By then, the country chairman has selected the boys and girls to receive the boxes. We have one strict rule: The box must be personally handed to the needy child by an American. This is how we make sure every box gets where it should.

This year, Christmas Boxes will be distributed in many countries of Latin America, jungles, the highlands of Guatemala, the slums of Quito, Ecuador, and Bogota, Columbia, the Miskito Indians of Nicaragua, the San Blas Cuna Indians of Panama as well as the poor areas of Panama and the poor areas of the Dominican Republic. The U.S. ambassador or his wife often serve as Friends' country chairman for the project. It is an opportunity for our diplomats and other Americans to go where the poor children are and provide them with direct assistance. But most important, it is a chance for American families to express their love for the children of Latin America by spending family time together to prepare these boxes. At Friends of the Americas, we are hard at work right now processing boxes as they arrive every day.

We want to take this opportunity to invite the people of the Muleshoe area to participate in this project and prepare Christmas Boxes this year. Thousands of children are praying that we in the

United States will remember them this Christmas. If you would like to prepare a box, please write for our "Christmas Box Action Kit" at Friends of the Americas, 1024 N. Foster Drive, Baton Rouge, LA 70806 or call (504) 926-5707. Please mention that you read about it in the Muleshoe Journal.

Sincerely,

Rep. Louis (Woody) Jenkins,

Navy Petty Officer 2nd Class Cresencio Lopez Returns To Homeport

Navy Petty Officer 2nd Class Cresencio Lopez, son of Paulino M. and Adele G. Lopez of Muleshoe, Texas, recently returned aboard the guided missile cruiser USS Truxtun, homeported in San Diego, Calif. from a six-month deployment to the Western Pacific and Persian Gulf as part of the aircraft carrier USS Nimitz Battle Group.

While operating in the Persian gulf, the battle group completed 19 bilateral and multinational exercises with various Gulf nations in continuing efforts to develop and strengthen political and military ties with countries of the region.

During this deployment, USS Nimitz's embarked aircraft squadrons flew nearly 3,000 missions in direct support of Operation Southern Watch, enforcing the U.N. "no fly" zone over southern Iraq.

Additionally, the carrier received its second consecutive Admiral Flately Memorial Award, presented annually to recognized ships which surpass all competitors in overall contributions to aviation safety.

The USS Truxtun is a nuclear-powered cruiser armed with guns, missiles and torpedoes. The ship also carries its own helicopter.

Today, American aircraft carriers, their planes and escort ships provide a global presence, standing

Labor Department Publishes Small Business Handbook on Laws

The U.S. Department of Labor has issued a handbook summarizing some of the principal laws that apply to business owners.

Designed primarily for small businesses in general industry, the 87-page booklet is organized in three segments: a general overview of department requirements; 11 sections on the requirements of specific laws and regulations, and an appendix listing phone numbers and addresses of labor department

agencies and offices, in Washington and across the country, that offer information and technical assistance.

Described are minimum wage and overtime pay, child-labor protections, employment eligibility of alien workers, occupational safety and health, employee benefit plans, whistle-blower protection, veterans' reemployment rights, plant closings and mass layoffs, lie detector tests, wage garnishment and family and medical leave. The booklet includes explanations of covered employers, basic provisions and requirements, penalties for non-compliance, relation to state laws and other federal laws and how to get information or help.

"Even the best-intentioned

small-business owner can find it hard to understand the range of relevant laws and regulations," said Secretary of Labor Robert B. Reich. "This handbook will make it easier for small businesses to meet their legal obligations so they can spend more time doing what they do best—creating good jobs for American workers."

The handbook is free and may be ordered, by mail only, from: Consumer Information Center, Dept. 629Z, Pueblo, Colo., 81009.

The U.S. Department of Labor is responsible for the administration and enforcement of more than 180 federal statutes. These laws and the regulations produced to implement them cover a wide variety of workplace activities for nearly 10 million employers and more than 100 million workers.

On Fig Trees And Christians

Minister and psychologist Roy Osborne tells of reaching the point all ministers pray will never come. He was moments away from stepping into the pulpit one Sunday when he realized, "I really don't have anything to say!"

Focus On Faith

Curtis Shelburne

But as he was approaching the rostrum, his hand discovered what he *did* have. His son had, for some reason, left a small screwdriver in his coat pocket. Osborne held the little tool up before the congregation and proceeded to do what Jesus did so very well. He took an everyday object and drew from it an eternal truth. He told a parable.

"You know," he intoned, "a screwdriver is an interesting instrument. You can use it for digging in the garden. You can use it to open paint cans and to stir the paint. "But," he continued, "a screwdriver is never as handy as when you're using it to put in and to take out screws. Why? Because that's what it's made for."

And then he made his point. "You are like that, too. You can do all sorts of things with your body and your talents and your life, but you're never as beautiful or efficient or happy as when your life is fulfilling the purposes for which God created it."

Didn't Jesus once say the same thing in a parable? He told a story about a man who planted a fig tree which would not bear figs (Luke 13). Oh, the tree was probably good for some things. Perhaps it was a fairly good shade tree. Maybe the birds enjoyed having its branches to sit on. But the fact remained that it was not fulfilling its real purpose--bearing figs.

What was the owner's order? "Cut it down; why should it use up the ground?"

Finally, though, he decided to wait one more year in hopes that it would produce fruit.

Like the owner of the fig tree, God is very merciful, but he is also insistent that those in his charge live fruitful and useful lives. Fig trees and Christians. Neither are worth very much without fruit.

Curtis Shelburne is the minister of the 16th and Ave. D. Church of Christ in Muleshoe.

When Self Esteem Goes Bad

There's no doubt that people need a healthy self-esteem. The key word is "healthy". There are instances when a person who has once felt

badly about themselves begins to feel better, can go to far. They start having some positive events in their life but instead of a healthy esteem they become power hungry and aggressive instead of assertive.

I've seen people become transformed from a likable, trustworthy individual who people respected to a person who people disliked, did not trust and resented--all due to self-esteem being blown out-of-proportion.

How do you keep that from happening to yourself?

1. Realize who you are and where you have come from.
 2. Know that a highly inflated ego is an easy target and will be shot down.
 3. People respect the properly humble more than the lofty proud.

Agriculturists To Honor Jay Eudy

After 35 years of service to Agricultural Education, Jay Eudy, Texas State Director for Agricultural Education and State FFA Advisor, has retired effective September 30th. Eudy, who grew up on a farm near Turkey in Hall County, graduated with both bachelor and masters degrees from Texas Tech University.

Prior to his teaching career, he graduated from the Army Airborne and Ranger schools and served in the Army for four years. Eudy commanded a company in the 101st Airborne Division for two years and served as advisor to the Royal Arabian Infantry School in Saudi Arabia.

He started teaching vocational agriculture in Turkey in 1958. He became area consultant for the Texas Education Agency in Plainview in 1978 and was named State Director for Agricultural Education for the Texas Education Agency in Austin in 1983.

During his service to agricultural education and the FFA, Eudy has held numerous positions of leadership and has been recognized many times with honor. He organized and was instrumental in establishing the Texas FFA Foundation.

From classroom teaching to consulting and directing, he has provided solid leadership for students and teachers. For the past 10 years, he has given direction to the largest agricultural education program in the nation with 1,400 ag science teachers in 950 schools throughout the state. In the past eight years, Texas's ag science classroom enrollment has increased by an impressive 50 percent. Texas is the largest and one of the fastest growing state FFA Associations in the nation, with 58,000 members.

In his honor, friends and colleagues have established the Jay Eudy Fellowship, through the Texas FFA Foundation, for the purpose of funding an endowed internship program for Agricultural Science and Technology/FFA. A state-wide goal of \$200,000 has been set for this endowment. A retirement reception will be held for Jay Eudy on Saturday, November 20, 1993 from 2 p.m. until 4 p.m. in the cafeteria of the new Extension Building of the State Capitol in Austin.

Contributions to the Jay Eudy Fellowship may be sent to the Texas FFA Foundation, 614 East 12th Street, Austin, Texas 78701. Those planning to attend the retirement reception should make reservations by calling 512/472-3128.

Lazbuddie News & Notions

by Marilyn

It's nice to be back on the printed page with you all again. There's been a brief absence (hope somebody noticed-ha!) due to the fact, Richard and I jetted to El Dorado Springs, Missouri, the second weekend in October. We flew to Dallas and then on to Springfield, Missouri, and on to a wonderful visit with my uncle, Willard Wilbanks and wife, Jane, who reside in the beautiful Ozarks town of El Dorado Springs. He is a retired school superintendent after many years of school teaching in Arkansas and Missouri. That runs in the Wilbanks family, school teaching that is! My dad, the late Fred Wilbanks taught in Arkansas and Lazbuddie for some 40 odd years.

We had a small family reunion

there at their home. Another uncle and his wife, James and Betty Wilbanks of Kirkland, Arizona had been there for two weeks, and we excellent, so they all agreed to have it there next year. About 40 cousins were in attendance. There usually is more, but for various reasons, some were unable to attend. The weather and trees were beautiful-Siloam Springs is Pug's birthplace and her grandparents lived there for many years, so they enjoyed seeing old familiar landmarks around the town.

Bill and Pug also had a house full of company this weekend. Their daughters, Debbie Jennings of Muleshoe and Darshan Blackburn of Grady, New Mexico and her children, Jennifer, Heather, and Brian, also Pug's sister. Betty

Sue Wortham of Hereford.

Well, well, how about that Texas Tech and their football season! I was an invited guest of Peggy Hicks in hers and Keith's season ticket section, Saturday night, and enjoyed visiting and renewing old times. James also has taught school.

Also there to round out the family fun times, were Susan (Willard and Janis' daughter) and David Pringle and son, Andy of Aurora, Missouri.

It was really nice to be back in the Ozarks. (close to my old hometown of Marshall, Arkansas, which is called the "hub of the Ozarks"). The beautiful fall foliage wasn't quite at its peak of perfection- it is probably that way now, for everyone said it lacked about 2 weeks from being really gorgeous.

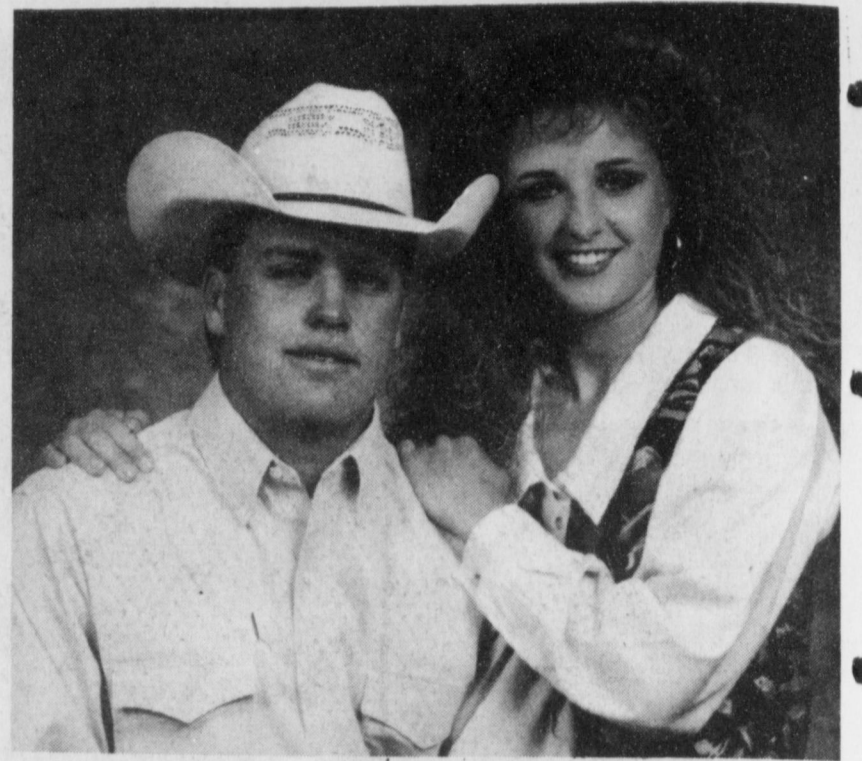

Mrs. Bill Jennings, (Pug) and her sister, Betty Sue Wortham of Hereford visited in Siloam Springs, Arkansas, the first week-end in October. They were there to attend their Cousins reunion that is held

somewhere every summer-it's all the cousins on their dad's side (Jack Walker) side of the family.

The reunion was held on the Campgrounds of the Arkansas Baptist Assembly, and it was so nice and accommodations were did we ever ever see a dandy football game--for Tech that is--not for Rice. It was Tech's homecoming, so the horses and chariots were prancing on the field carrying the homecoming queen candidates. And then the fabulous Tech Band made the evening all the more entertaining. And then-- Tech's team decided to actually play the way they are capable of playing and beat Rice by a score of 45-16. Most of their points was scored in the first half--so therefore Lisa Gilbreath had her work cut out for her as she rode her horse, Midnight Raider II, on the field, after each touchdown. By the way, Lisa is the daughter of the former Linda Gleason (a Lazbuddie graduate). Her grandparents are Trueman and Nancy Gleason of Lazbuddie and Hazel Gilbreath of Muleshoe. We are very proud of your accomplishments, Lisa!

Well, the "Deer Boys" Richard, Dave and Jerry Engelking and Kyle Kimbrough are deer hunting in Rifle, Colorado this week-they called in from their mountain-top camp site (those cellular phones are wonderful) and reported having good Elk meat for supper Sunday night. Yep, they actually shot it themselves, didn't borrow from the Kentuckians camp or anyone else's, ha! Just a joke folks, they really are dedicated deer hunters. I ought to know, I have put up with deer seasons in Colorado and Texas for almost 40 years! They will all be home safe and sound (we hope) when you read this.

On Sunday, October 3rd, Iva Carpenter attended her old school reunion in Olney, Texas, I say old school, because the schoolhouse stood there in the Loanoke Community from 1912-1930. Iva attended all her school years there, except the last two high school years were in Olney. There were 65 present and a great time of renewing old stories and acquaintances was enjoyed by all.

ENGAGEMENT ANNOUNCED-Craig and Gaye Frizzel, of Sterling City, TX would like to announce the engagement and approaching marriage of their daughter, Stephanie, to Coby Baldwin, son of Stacy (Baldwin) Johnson of Lubbock, TX and the late Gaylon Baldwin. The couple plans to wed on Saturday, December 11, 1993 at 6:00 p.m., at the Sterling City Church of Christ in Sterling City, TX. They will reside in Muleshoe, where Coby is engaged in farming.

Vourazeris-Turner United In Holy Matrimony

On Saturday, August 28th, at 6:30 in the evening, Noel Vourazeris became the bride of Steve Turner. The parents of the bride are Mr. and Mrs. Keith

Vourazeris of Dripping Springs, TX, formerly of Muleshoe. The groom's parents are Mr. and Mrs. Royce Turner of Muleshoe.

The entry and sanctuary of the

1st Baptist Church were filled with a beautiful array of green plants. Intermingled with the coleudima ferns and ficus were white calla lilies, white roses, deep purple and white glads, and purple status.

The bride was attired in a beautiful white silk, summer style wedding gown, with cabbage roses around the off shoulder neckline. Cabbage roses also adorned the back of the dress above the long flowing train. The bride's bouquet consisted of red and white sweetheart roses, purple glads, and sprigs of rye fern.

The brides maids were Jill Winter of Lubbock, TX, Monica Swint of San Marcos, TX, Shelli Rodriguez of Anaheim, CA, and Stacy McElroy of Dallas. They wore purple silk off the shoulder sheath style gowns of ankle length. They carried bouquets of assorted fresh flowers. The maid of honor was Tisha Young, of Denton, TX.

Best Man was Clark Durham of Dallas. Groomsmen were Adam Vourazeris, Hobbs, NM, Spencer Dunn of Lubock, TX, Dan McGibney of Dallas, and Mark Washington of Muleshoe. They were attired in traditional black tuxedos.

Ushers for the evening were Jeff Rennels, uncle of the bride, Tim Winter, brother-in-law of the groom, and Kent Oliver, cousin of the groom.

Special guests were grandparents of the bride, Clyde Jones, Albuquerque, NM, Glenna Rennels, Hobbs, NM, and Wilma Clary, Jal, NM, and grandmothers of the groom, Alma Turner, Ruth Briscoe, and Betty Bryant all of Muleshoe, and special friend of the groom, Arther Lee Hayes.

A reception dance followed the ceremony at the fellowship hall and Muleshoe Country Club.

Members of the house party were Ronnie and Donna Black, Ronnie and Rhonda Spies, Gene and Carolean Hamilton, Judy and Paul Wilbanks, Pam and Mike Miller, Hugh and Pat Young, Sandi and Dick Chitwood, Jim and Jan Crawford, Corky and Donna Green, Jerry and Diana Harrison, Buddy and Alva Lee Peeler, Polly Oliver, and Rita and Eugene Hawkins.

A rehearsal supper was held in the home of Eugene and Rita Hawkins on Friday. A "Beauty and the Beast" theme was carried out in back yard of the house and fajitas with all the trimmings were served to family and wedding party.

A brunch hosted by Pat and

Becky Wiggins and Janelle and Doyce Turner was held on Saturday morning for family and wedding party. Breakfast casserole, fruit and assorted breads were served in the backyard of the Turner's house.

After a short trip the couple was at home in the Austin, TX area. The groom is self-employed in the landscaping field. The bride is planning to continue her education at Southwestern State University.

When Sweet Dreams Turn Into Nightmares

Anyone can be plagued with a nightmare, at times. They are most disturbing when they keep occurring. A person can begin dreading sleep, feel fearful after the nightmare and begin to worry about the cause.

If you are troubled with occasional nightmares, there are a few things you might check out. First, be aware of what you are eating or talking about prior to bedtime. It could be something that is making you susceptible to having bad dreams.

Second, it will help you to talk about it with someone. Sometimes, bad dreams can be the result of strong feelings we have that have not been worked through.

Third, if the above steps do not help, you can tell the nightmare to someone but, tell it twice. The second time, change the ending of it. Change it to: where you are in control; to something pleasant; you being the victor!

If they persist, it may be helpful for you to seek some professional help—that's not bad. Sweet Dreams! Article by Ron Trusler, M.Ed. L.P.C., L.C.D.C., L.M.F.T. Supervisor, Clinical Staff Central Plains MHMR & Substance Abuse 2700 Yonkers, Plainview, TX 79072

Pistachio Pasta Salad Florentine

6 oz. small tube-shaped pasta 2 cups (2 oz.) torn fresh spinach
2 cups (11 oz.) halved cherry tomatoes
1 1/2 cups (10 oz.) frozen peas, placed in sieve and thawed with hot running water
1/2 cup shelled natural California pistachios
Dressing (recipe follows)

Drop pasta into boiling water; return to boil. Cook 10 to 15 minutes or until tender. Drain. Toss pasta, spinach, tomatoes, peas, pistachios and dressing in large bowl. Makes 4 (2 cup) servings.

To live is like to love--all reason is against it, and all healthy instinct for it.

Texas Department Of Transportation Introduces Stickers

Introducing the latest in anti-theft devices from Texas.

The Texas Department of Transportation (TxDOT) is issuing a new vehicle registration sticker-for placement inside windshields instead of outside on license plates. The program begins with registrations expiring January

1994.

The sticker is larger and of a different design. Its main purpose is to deter theft-bringing up another important feature.

If the sticker is peeled off the windshield, the word "VOID" appears on it, making it a useless scrap of paper. It's not even worth stealing.

In 1992, 568,885 replacement license plates and stickers were issued. TxDOT estimates that 60 percent of replacement stickers issued were due to theft. At \$5.30 per replacement, replacing the stickers cost the public \$1.8 million and a lot of time and aggravation.

"When the word gets out that these stickers are useless when peeled off the glass, incidence of stolen stickers will drop quickly, as will the cost of replacing stolen stickers," said Jerry Dike, director of Tx DOT's Division of Motor Vehicle Titles and Registration. "But the savings don't stop there. If all stolen stickers were used on vehicles that would otherwise be legally registered, state and county revenue losses could exceed \$17 million. Recouping these losses could mean savings passed on for use on other projects."

The 72nd Texas Legislature passed a law in 1991 mandating the sticker change to lower vehicle registration theft. Drivers whose vehicles have no windshield will continue using the license plate stickers.

Trusting

"Of course, I must ask you for a deposit," said the landlady.

"Certainly," replied the new tenant, handing over the required sum.

"Thanks, now, shall we trust each other, or do you want a receipt?"

Advisory Board's Blood Drive Successful

The Muleshoe Blood Advisory Board announces successful results from the October 5 community blood drive. A total of 60 people volunteered and 55 were able to give that day. Many more went by the drive but were unable to wait. "The response by the community was greater than we had expected and we apologize for the wait experienced by some donors," said Jana Belew.

"Special thanks go to the Blood Advisory Board, who sponsored this drive," Ms. Belew continued. Board members are: Glenda Powell, chairperson; Dwayne Dale, publicity chair; Carol Cox, Alex Garcia, Kay Graves, June Green, Evelene Harris, Jo Anne Head, Kay Mardis, David Marricle, Sharla Saylor, Chuck Smith and Cheryl Puckett.

"In Addition, thanks go to Muleshoe State Bank for volunteering their community room for the drive and Pay-n-Save for donating orange juice for the donors. Thanks to KMUL, Channel 6 and the Muleshoe Journal for publicizing the drive."

United Blood Services awarded gallon pins to the following donors: one gallon-Debbie Coburn; two gallon-Hilbert Wisian, Howard Zimmerman; and four gallon-Juanita Mejia.

Once again the Mules could not move the ball and were forced to punt back to the Bobcats.

Jake Adair intercepted a Bobcat pass. Four plays later, after not being able to move the ball, the Mules attempted a field goal. It was no good and the Bobcats took over on their own 25 yard line.

The Bobcats fumbled the ball and the Mules came up with it on the Bobcats 25 yard line. The Mules picked up two first downs before Angeley raced 18 yards into the endzone with 2:25 left in the third quarter. The point after kick was no good and the Mules led 20-12 on the scoreboard.

Dimmitt picked up two first downs on their next possession of the ball and with 9:15 left in the game, the Mules took over on Downs.

With 7:14 left in the game, the Mules were forced to punt the ball back to the Bobcats.

With 3:54 left in the game, the Mules took over on downs and made a first down before being forced to punt the ball away.

Buffalo Lake N.W.R. Items Of Interest

by Lynn A. Nymeyer

The fall migration is underway and an increasing number of the interesting birds are passing through. Several species of warblers are present as well as kingbirds, flycatchers, hawks and sparrows. During August, heavy rainfall in the Hereford area provided water to Stewart Marsh. With water available, numerous water loving species have been observed including ducks, herons, ibis, sandpipers, and plovers.

Rehabilitation of the Umbarger Dam flood control structure is completed. Terra Blanca Creek remains dry except during major rainfall events. Due to reduced area rainfall patterns and runoff, lowering water tables and other area water use factors, there is no water to refill or maintain Buffalo Lake. The reconstructed Umbarger Dam will release major storm runoff at a controlled rate, protecting downstream communities from major flooding.

Refuge pheasant populations began dropping in 1991 and remain low. As a result, there will be no pheasant hunting on the Refuge during the 1993-94 hunting season. The pheasant hunt, canceled since 1991, may continue when Refuge pheasant populations improve.

I have a strong interest in providing wildlife information and education in the local area. I invite schools, teachers, clubs and

other organizations interested in receiving information on the Refuge, wildlife, or the U.S. Fish and Wildlife Service to please contact the Refuge. I would be happy to present a talk and slide show on wildlife topics to any interested group.

There are a variety of projects available at the Refuge for anyone interested in volunteering time to help wildlife. Available volunteer projects include wildlife surveys and maintenance projects and may be conducted by individuals or groups. Anyone interested in volunteering is urged to contact the Refuge.

Refuge hours are between 8:00 a.m. and 10:00 p.m. Visitors are reminded to be off of the Refuge by 10:00 p.m. unless camping in the designated area. Camping is prohibited on the Refuge except in the designated camping area. No camping is allowed in the picnic area. To be eligible for an emergency loan, an applicant must have suffered losses from the disaster.

Bullock, Laney Name Appointees For Review Of Education Agency

Lt. Gov. Bob Bullock and House Speaker Pete Laney announced appointments to an interim committee to examine every facet of the Texas Education Agency's mission and operations.

Creation of this 17-member select committee was one of the education accountability measures adopted this year by the Texas Legislature. The committee will make recommendations to the 1995 session of the Legislature.

"This is a strong committee with a heavy blend of educational and business expertise," Bullock said.

Laney said: "I know this committee will look for the best ways to deliver state services to the

school campuses and districts to make sure our kids have an excellent education."

Senate Education Committee Chairman Bill Ratliff, R-Mount Pleasant, and House Public Education Committee Chair Libby Linebarger, D-Manchaca, will co-chair the Select committee to Conduct a Comprehensive Review of the Texas Education Agency.

Bullock's appointees are Senators Gonzalo Barrantes, D-Austin; Teel Bivins, R-Amarillo; Bill Haley, D-Center; and Jim Turner, D-Crockett. Laney's appointees are Representatives Christine Hernandez, D-San Antonio; Scott Hochberg, D-Houston; Steve

Ogden, R-Bryan; and Paul Sadler, D-Henderson.

Bullock and Laney also appointed Mr. Henry Jennings of Waco, a teacher in a Waco ISD high school; Ms. Lydia Savedra of McAllen, an elementary school principal in Pharr-San Juan-Alamo ISD; and Dr. Mike Moses of Lubbock, superintendent of Lubbock ISD.

They also named the following business and community representatives: Mr. Joe Ramos of San Antonio, Southwestern Bell Telephone Company's area manager for municipal affairs; Mr. Sandy Kress of Dallas, vice president of the Dallas Independent School District board; Ms. Shirley Igo of Plainview, a regional vice president for the National Congress of Parents and Teachers (PTA) and a past president of Texas PTA; and Ms. Rhonda Kay Haynes of Austin, project director for the State Bar's Public Service/Law-Related Education Department.

The committee is asked to study the mission, organization, size and effectiveness of the Texas Education Agency and to compare it with similar agencies in other states and with national educational goals.

Some of the other items in the committee charge include: recommendations on how to best manage state resources and assistance to school districts; identification of which functions should be performed by regional service centers; effectiveness of programs for special students and for staff development; and effectiveness of site-based management teams.

In reviewing the use of state resources, the committee also will monitor school finance litigation and the implementation of the school finance law set out in Senate Bill 7. A final committee report is due by Dec. 1, 1994.

Child Health Improvements Require Support At All Levels

According to Dr. David R. Smith, Texas Commissioner of Health, Gov. Ann Richards' proclamation of "Child Health Month in Texas" throughout October is "...part of a welcome trend at every level of state service in Texas."

The observance coincides with National Child Health Month proclaimed by the American Academy of Pediatrics. "As both a pediatrician and commissioner of the Texas Department of Health (TDH), I applaud every effort to improve health conditions for our youngest Texans. Advances on behalf of child health must remain permanent priorities," Dr. Smith said.

TDH has innovated numerous initiatives to prevent children's health problems from developing. "However," Dr. Smith said, "it is vital that we further assure healthier babies at birth, and health protection for children during their development. As moral issues, these aims are important enough, but they also are economic necessities," he explained.

"Health care improvement is a continuous task, but recently we have begun dramatic reforms, both nationally and in Texas. True reform poses monumental obstacles, especially in terms of cost. One of the few certainties for real reform to work is that we must reduce health costs per person by effectively preventing expensive health problems. That means ensuring better health for every child's mother, even before the child is born," Dr. Smith said.

He said that TDH's effort to reduce neural tube birth defects in the Rio Grande Valley is "an example from a future textbook" on preventive health care.

TDH is conducting one of the most intense investigations in its history into cases of spina bifida and an abnormally high rate of anencephaly in the Valley. Both kinds of defects are the result of incomplete development of the neural tube (the spinal cord or brain). Although no specific cause for the birth defects has been identified, TDH, the U.S. Centers for Disease Control and Prevention, researchers, pharmaceutical companies and other experts last year joined in a campaign to supply child-bearing women in the region with folic acid (a B vitamin) supplements. Increased folic acid intake is the only known treatment believed potentially to prevent neural tube defects.

Partly as a result of the Texas folic acid initiative, the federal Food and Drug Administration last week said it will require folic acid fortification of food staples such as flour and grain products.

With this year's authorization by the Texas Legislature, TDH has begun creating a statewide birth defects registry, meant to gather and analyze reports of all types of birth defects.

Dr. Smith said that despite TDH-operated programs to combat children's health problems, many aspects of child health in Texas need further improvement. As examples, he cited recent statistics showing that:

- * The state ranks 48th among the states in its percentage of mothers receiving prenatal care;
- * In 1991, 2,443 babies died before their first birthdays;
- * Poor prenatal, natal, nutritional, medical or environmental conditions combine to place from 12 to 15 percent of all Texas children at risk of developmental delays; and
- * Two of every three of the state's infants are vulnerable to vaccine-preventable diseases because they have not received the recommended immunizations.

"Other children are victims of abuse, neglect and injuries of all kinds. We have made headway toward better emergency trauma care for children and added technology to speed treatment for poisonings. However, the modern social climate, poverty and family stress contribute to growing dangers to children," Dr. Smith added.

Nature is grand until the snow begins to fall.

Memorials may be made to the Building Fund of the First Baptist Church in Springlake, TX.

second consecutive year.

Last year, Texas had its best quail hatch since 1987. A quail harvest of 1.9 million also was the best since 1987.

Most regions of the state showed a decline in numbers of quail according to August counts, but only because the previous year was so exceptional. The Cross Timbers region improved dramatically.

The 20-mile roadside count in South Texas was 26 birds per route, down from 61 in 1992, but about average since 1976. In the Rolling Plains, the count declined from 28 per route to 23, also about average over the long-term. The Edwards Plateau count dropped from 15 to 10.5.

The Cross Timbers quail count increased from 5 in 1990 to 10.5 in 1991, 12 in 1992, and 19.5 this

year. This year's count is the fourth highest year since 1976 and the highest since 1987. Gulf Prairies region counts remained low at 5, which it has been four of the past five years, while the Trans-Pecos dropped from 18 last year to 2.5 this year and the lowest since almost no quail were seen in 1984.

"We had a mild, wet winter, excellent spring and early summer rains which produced good nesting and brooding habitat," said Don Wilson, upland game program leader at the Texas Parks and Wildlife Department. "The rains ended in May and a drought began that was the longest period without rainfall in the approximately 100 years of weather data.

"Despite the dry weather we still had good August counts. Twenty-three or greater is a good count," he said. "The Trans-Pecos is in an extended drought. The Cross Timbers got good rains when they

needed them. They had a good weather pattern."

Even though much of the state has not received rainfall of late, Wilson said 1993 promises to be another good year-it won't be as good as last year except in the Cross Timbers.

"We have had a very severe summer drought, but it has not hurt the quail population at this point," he said. "We had a tremendous increase in the harvest last year. We'll have a little less this year but we're going to have a good quail year, unless it falls apart this fall. We're going to have two good quail years in a row, which is unusual."

The statewide season runs from

Oct. 30-Feb. 27. The daily bag limit is 15, 45 in possession. Legal shooting hours for all non-migratory game birds are one-half hour before sunrise to one-half hour after sunset. The bag limit is the maximum number that may be killed during the legal shooting hours in one day. The possession limit is the maximum number that may be in one person's possession at any time, after the first day. On the first day of any open season the

possession limit is the same as the daily bag limit.

Straight as an Arrow

In Archery you score only when you hit the target. To score well, you must have straight arrows.

When you attend church, it makes it easier to stay on the straight path. The church wants to help you in all ways of life, but can only do so, if you stay within its circle. Attend church and know the joy of a good life.

"For God is not the author of confusion, but of peace, as in all churches of the saints."

**EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

B.J. CROWLEY'S HOROSCOPE

Week of Oct. 25, 1993

LIBRA—Sept. 23 to
Oct. 22—Don't interfere
in the lives of younger
people close to you. It is
better to live and let live.
SCORPIO—Oct. 23
to Nov. 22—Don't let
your ambition override
your conscience. Take
time to listen to those who
are lonely. Giving is more
pleasurable than taking.
SAGITTARIUS--
Nov. 23 to Dec. 22—Curb
a tendency to talk too
much or you spoil the ef-
fect of your dynamic per-
sonality.

CAPRICORN—Dec.
22 to Jan. 19—Hard work
now will prove worth-
while later. A new ven-
ture is in the making. Suc-
cess is indicated.

AQUARIUS—Jan. 20
to Feb. 18—Someone
needs to be accepted by
you as though they were a
member of your family.
By all means welcome,
trust and accept them.

PISCES—Feb. 19 to
March 20—Improve your
appearance. Follow good
grooming habits faith-
fully. New clothes may
make a difference.

ARIES—March 21 to
April 20—If time goes by
too fast this week and you
are not able to gain mo-
mentum, don't worry
about it. A slower pace
may prove more effective
at this time.

TAURUS—April 21 to
May 20—You achieve a
new understanding in
your spiritual life. You
are inspired to the point of
finally realizing that your
life has meaning and pur-
pose.

GEMINI—May 21 to
June 20—Forgive some-
one close to you who says
the wrong thing. Put
yourself in his place. Re-
member the last time you
put your foot in your
mouth.

CANCER—June 21 to
July 22—Your mood sud-
denly changes this week
from gloom to cheer.
Good fortune may be ex-
pected at this time in any-
thing you choose to un-
dertake.

LEO—July 23 to Aug.
22—Neighbors may seem
unfriendly without mean-
ing to. Don't let this throw
you. They may have seri-
ous problems you don't
know about.

VIRGO—Aug. 23 to
Sept. 22—Someone you
consider undeserving may
receive the promotion or
reward you have had your
eye on. Accept the unfair-
ness of the situation, even
though it hurts. These
things happen.

HALLOWEEN HINTS

(NAPS)—Parents look-
ing for a fun and safe
Halloween can call on the
family VCR. Instead of
sending your youngsters
out, invite the neighbor-
hood in for a fun evening
of traditional games, cos-
tumes and candy at a
party that also features a
few hauntingly good
Halloween videos.

There's a "spooktacu-
lar" kids collection at
video stores from Walt
Disney, Buena Vista and
Jim Henson Video,
including the classic ani-
mated ghost tale, *The
Legend of Sleepy Hollow*.

Other titles include
Boo-Busters with Chip 'n'
Dale, *Donald Duck's
Scary Tales*, *Alvin and
the Chipmunks: Hair-
Raising Chipmunk Tales*,
and *Fraggle Rock: The
Haunting of Castle Gorg*.

And, when the little
ones tire out, these titles
will help keep the party
going: *Arachnophobia*,
Watcher in the Woods,
starring two-time Oscar-
winner Bette Davis and
Blackbeard's Ghost star-
ring two-time Academy
Award-winner Peter
Ustinov.
