Canadian Boxers To Exchange Blows With Locals Tonight

Boxing fans are all getting set again after several days rest to take in the invitation meet here tonight with the battlers from Canadian, and a sell-out crowd is expected as usual. It was understood that there were a few reserved seats left early this morning, so if you haven't bought yours yet, you had better rush right on down. The tickets are on sale at the Norwood Pharmacy. The event starts promptly at 8 p. m. and the doors will be open at 7 p. m. and it will take place at the Pastime Theatre.

It is understood that the Canadian boys are pretty fair at handling the gloves and promise plenty of competition in both the Grade school and High school divisions, the bouts being divided up in that manner for this particular occasion. This makes it much better as boys of near the same age and weight class will be more evenly matched.

Some of the local boys whose weights were matched definitely over the phone early in the week and who will most probably fight are: Grade School—Benny Eden, Leon Youree, Glenn Sanders, Royce Morris, Ronnie and Pacos Phillips. High School—McBrayer, Mayo, Gilbert Stewart, Whitsell and Ralph Nichols. There will probably be several other matches made after the Canadian youths get here and weigh in as their coach stated that he would bring at least 15 boys.

Lazy H Plumbing & Supply Co. To Open Saturday

Another new business to open in Clarendon will be the Lazy H Plumbing & Supply Company which will be located in the building next door to Virgil's Produce on the north end of main street. The new firm will open for business this Saturday, March 1st, and are inviting the public to visit them for their Grand Opening and look over their store.

The new firm will be managed by A. O. Hoti, prominent farmer in the Chamberlain community for a long number of years, and widely known throughout this area.

Mr. Hoti stated that the firm would feature a complete Plumbing and Plumbing Supply line of merchandise and that they had a good stock at the present time of many of the items that have been on the scarcity list for so long.

Mrs. Genevieve Bauer who has been ill is improving.

BASEBALL PLAYERS TO MEET SUNDAY

Bill Adams, local baseball promoter, is asking all those who are interested in Clarendon having a team entered in the Red River Valley League this year, to come out for a meeting Sunday afternoon at 2:30, March 2nd, at the Sinclair Station across from Lees Cabins. The purpose of the meeting is to thrash out a number of business items that have come up and to get the group organized.

Big Barn Dance Friday Night February 28th

The Band Parents organization is sponsoring an old-fashioned Barn Dance at the Jr. High gymnasium tomorrow night, Friday, Feb. 28, starting at 8 p. m., so make your plans now to don your overalls, apron, suit or whatever you care to wear and come out and have a wonderful time. The proceeds from the event will be used for various expenses of the band, thus you can have a good time and help a good cause at the same time.

There will be a varied assortment of music for the evening's entertainment as there will be a string band playing part of the time and popular recordings played over a public address system the rest of the time.

The charges for the dance are \$1.25 for couples and \$1 for stag. This is a very nominal charge for a grand evening entertainment, so get you a bunch together and be at the gym any time after 8 p. m. Friday night.

Tickets are now on sale at the Norwood Pharmacy and The Rexall Store.

NEWSPRINT SITUATION TO BE AIRED MORE

Getting the white paper with which your Donley County Leader is printed continues a problem, as it does with all publishers of newspapers, weeklies and dailies. Hearings will begin in Washington March 3rd, states Senator Homer E. Capehart who is chairman of the committee that will investigate the alleged shortage of news print.

There has been some intimation that publishers of the States are being held up by Canadian corporations, many of them owned by citizens of this nation.

HAZEL MARIE KING BURIED HERE SUNDAY

Funeral services were held Sunday afternoon for Hazel Marie King, infant daughter of Mr. and Mrs. James E. King, with Rev. H. H. Helms officiating.

The infant passed away a few hours after birth at the family home here. She is survived by her parents, two brothers, Melton and Harold and one sister Mildred King.

Burial was in Citizens Cemetery with the Murphy-Spicer-Buntin Funeral Home in charge of arrangements.

Local Firm Featuring Remodeling Sale

Hudson & Taylor, local business firm, is announcing in a double page advertisement this week, a store-wide sale, preparatory to remodeling their store within the near future.

The owners stated that they were going to remodel the interior of the store in order to properly display their merchandise and better serve the public, and that they were so crowded for room it would be almost impossible to make the change over without a great damage to merchandise. "We had rather make big reductions on every item in our store and pass this saving on to our customers rather than take a big loss through breakage," they explained.

Read their double page ad in this issue of the Leader for further information concerning the big sale which Mr. Taylor refers to as the "Sale of all Sales."

Vernon Goldston High Livestock Judger At Pampa

Vernon Goldston, member of the Clarendon Future Farmer Livestock Judging Team, won the silver medal and ten dollar bill that is the annual award to the high point man in the Top O' Texas Livestock Judging Contest at Pampa, Monday. Buster Bain and Jerry Morgan the other two members of the team ranked seventh and eighth respectively in individual rankings. Goldston and Morgan tied for high point honors in judging beef cattle, and Goldston and Bain tied for fourth honors in judging hogs.

Clarendon was the top ranking team of the Greenbelt F.F.A. District, but Panhandle of the Pampa District, and Dimmitt of the Tullia District outranked the local team in the final ranking. Over sixty boys from fifteen schools participated in the annual event. Clarendon was the top team in judging both beef cattle and hogs but ranked only sixth in judging of sheep. Claude, Shamrock, Canyon, McLean, Wellington, Estelina, Quail, Samnorwood, Memphis, Lakeview, Turkey and Childress participated in the annual contest.

LIGHT SNOW FALLS; MORE NEEDED

Many a bright face peered out the window early Tuesday morning at the light snow which fell during the night and in a thin layer scattered form up through the morning, and the main thought in mind was more snow or a good general rain.

Moisture is needed at this time especially by the wheat growers and everyone else concerned who have seen the dust and sand blow through the months of March and April when we had no top moisture. Well, once it has started, it usually keeps on until we get a pretty good seasoning; at least we all hope so.

Seemed like the O.P.A.'ers were always worrying about what would happen to "we the people" without them, but the other day when Congress was about to not appropriate any money for their pay, they were ready to quit within seventy-two hours. How did that old saying go? "If the money didn't come in at the door, love would go out the window."

You have heard it said that "money will talk". In the "March of Dimes," it will make someone walk.

Heard an "Old-Timer" telling about how cold it was back in 1898. Among other things, he said, that cattle froze to death standing up, and that it was several days before they thawed enough to fall over. How about this Uncle Jay or Mr. Winborn, am I being taken in?, or was it a pretty cold snap, even for West Texas?

LINE FOR CAT LIVING
A frisky cat once caught a mouse and was about to eat it. But while he stopped to wash his face

The wee mouse up and beat it. And I am told, until this day Each cat has taught his son; To never stop and wash his face Until his lunch is done.

Heard a man say that some of the whiskey being sold today, was having a very serious effect on the people that drank it. That even the drunken spell was none to pleasant, but the after effects were awful, and lasted for days and days. He had heard, on what he said was good authority, that some of the distilleries were owned by "Fifth Columnist" who were trying to destroy the health, or at least weaken the condition of our people. Has anyone else heard anything about this? Maybe Congress should investigate it.

All over the country, farmers are getting behind their organizations, and are letting the rest of the world know that they are going to share their part of the responsibilities, and reap their fair share of the nations rewards. If we will keep them truly Farm Organizations, and be fair in all our demands, we can be the balance between Labor and Management to the advantage of everyone.

Heard an Old Timer telling about one time he and a friend were "Batching" out on the ranch, and this friend kept a pair of rabbit hounds. They got into an argument over how fast they were, that led into a bet, as to whether they could catch a jack rabbit at a given time. The day was set some two weeks ahead, and the time right after breakfast, and the rabbit was to be the first one jumped up. So the money was put up, and his friend put the dogs in training, exercising them every day, and feeding them a certain diet so they would not be too fat. This Old Timer always cooked the breakfast, and his friend did the milking, so when the day finally came, and his friend went out to milk, he slipped out the back way and began feeding the dogs, first some bread till they wouldn't eat it, then some meat, and then all the milk they could drink. When they wouldn't eat another bite, he slipped back in and finished breakfast, and they went out for the race. He assured us that he had no trouble winning the bet, that the poor dogs, just didn't seem to have their heart in the race.

Local Fat Stock Show Ready For Tomorrow

SERVICES HELD FRIDAY FOR MRS. S. P. PIERCE

Funeral services were held last Friday afternoon at the Church of Christ for Mrs. Donnie Gertrude Pierce with W. T. Hines, minister, officiating.

Mrs. Pierce, resident of Donley county for the past 35 years, passed away last Thursday evening, Feb. 26th. Her husband, S. P. Pierce, preceded her in death in 1943. She is survived by one son, Lavan Pierce, Clarendon; two daughters, Mrs. Lonabell Sloan and Faye Lynn Pierce of Clarendon and her mother, Mrs. Mary Etta Rhea of Clarendon. Four sisters, Mrs. Leo Rasen, Okla. City; Mrs. L. O. Gentry, Las Vegas, N. M.; Mrs. W. C. Rexrode, Lakeview; Mrs. Clarence Boehning, Clyde, Texas. Three brothers, U. N. Rhea, McLean, C. A. Rhea, Santa Fe, N. M., and J. D. Rhea, Clarendon.

Pallbearers were Buck Roberts, Tom Roberts, Carl Naylor, Roy Crutchfield, Al Devers and Geo. Self.

Burial was in Citizens Cemetery with the Womack Funeral Home in charge of arrangements.

MRS. BESSIE SHARP SERVICES IN HEDLEY

FORMER PIONEER RESIDENT BURIED HERE WEDNESDAY

Funeral services were held yesterday afternoon at the N. S. Griggs & Sons Funeral Chapel in Amarillo for Mrs. L. Hedgpeh, former Clarendon pioneer resident who passed away Monday afternoon at Hereford.

Mrs. Hedgpeh had lived in Clarendon for 30 years prior to moving to Hereford some seven years ago. She was a member of the Baptist church.

Surviving are three daughters, Mrs. W. M. Hodges, Hereford, Mrs. T. C. Brown, Amarillo, and Mrs. H. W. Buchanan, White Deer; a son, C. C. Hedgpeh, Danville, Ill.; a brother, T. J. Powell, Pomona, Calif.; two sisters, Mrs. Emma Jones, Gatesville, and Mrs. Phoebe Cranfill, Roswell; 16 grandchildren and 12 great-grandchildren. Burial was in the Citizens Cemetery here at 4 p. m. Wednesday.

FORMER RESIDENTS VISIT HERE

Visiting in the home of Mrs. M. M. McCracken this week are Mr. and Mrs. N. D. Hudson and their daughter, Mrs. Van Cope and babe.

Mr. Hudson looks after the county roads in the Happy area after wheat farming for some two years. Mrs. Hudson said their son was soldiering in Italy.

Sybil Head spent the weekend with Vivian Bones.

MRS. G. W. ANTROBUS IN RADIO DEBUT

Mrs. G. W. Antrobus received quite an honor while visiting her granddaughter, Mrs. Dorothea Mayville in San Antonio recently. While having lunch in Ciro's Restaurant, Mrs. Antrobus was chosen as the "Housewife of the Week," and was interviewed over Radio Station K.M.A.C., which performs a broadcast in Ciro's every Wednesday. The eldest lady is always chosen as the guest to receive this honor, and she is presented with several nice gifts. Mrs. Antrobus, after her first radio debut, was presented with a lovely orchid, two theater tickets, two tickets for dinner at Ciro's and two Yellow Cab fares. To add to her surprise and honor, Mrs. Antrobus received a write-up of her interview in the San Antonio Express.

Road Work Started On Highway 18

Construction work was started this week on the Highway 18 extension south toward Brice by the Stone & Falls Construction Co. It has been estimated that the entire job would comprise from 9 to 12 months to finish.

Approximately 50 workers, some of them with families, have arrived in town and are looking for places to stay. If you have a spare bed room, apartment or otherwise, you are asked to call the Olin Bain 66 Station and let Mr. Bain know what accommodations you have and he will contact those wanting the places to live.

Mrs. Ed Speed left Tuesday, to go to Dallas to be with her daughter, Mrs. Ella Jean Tyler who is in the Baylor Hospital at Dallas and is doing nicely.

LOCAL FIGHTERS WIN ONE AND LOSE 2nd FIGHTS AT CHICAGO

Well our two fighters who went to Chicago for the big affair did mighty well for their experience and in face of the fact that both had to fight twice in the same night.

Troy Wiley, bantamweight, met two negro 118-pounders Monday night. He looked good in beating the first one, Theotta Lillard of Danville, Ill., by a decision, and he started his second trial in great fashion, flooring Oscar Albaugh of Peoria, Ill., twice in the opening round. In the first few seconds of the second round however, Albaugh caught him with a terrific left hook and it was all over. Wiley was counted out. He suffered a slight, but not serious, cut over one eye.

We haven't much information concerning Charlie Johnson's fights except a phone call from Mrs. J. D. Coin to her husband that Charlie won his first fight and lost his second to a negro Tuesday night in the third round by a KO. It was understood that Charlie was going good at that particular time but that there were three rings going at the same time and Charlie got mixed up on the bells and thought the round was finished and dropped his guard; that's when his opponent connected a hard one that sent Charlie down.

Those making the trip to the Golden Gloves at Chicago were Mrs. J. D. Coin, Raymond Adams, trainer, Charlie Johnson, Troy Wiley and Miss Louise Underdown. They were scheduled to see the fights Wednesday night and start back home this morning, arriving here Sunday.

All plans are now complete for the 1947 Donley County Fat Stock Show to be held in Clarendon this Friday the 28th of February. H. M. Breedlove, county agent and J. R. Gillham, vocational teacher will have their club boys on hand with their prize winning livestock for the occasion. Mr. Carroll Lewis, president of the show board has consulted all committees and the big show is ready to go into action this Friday.

The show will be held on the vacant lot on main street by the Piggly Wiggly grocery. All livestock will be on the show grounds by 10 a. m. in the morning and will remain on the grounds until five in the afternoon. Judging will be by Mr. Charlie Franz, well-known registered breeder in the Southwest and former manager of the Tierra Blanca Farms.

After five o'clock in the afternoon the livestock will be loaded in trucks and taken to Amarillo for the Amarillo Fat Stock Show.

The Superintendents of the spring show are D. E. Leathers and E. S. Ballew. The show board under the direction of Mr. C. L. Lewis announces the following premium list for the show this year:

BOWLING TOURNAMENT MATCH POSTPONED TO FRIDAY NIGHT

The match scheduled for tonight in the local Bowling tournament has been postponed so everyone can back our local boxers in their boxing meet with Canadian, but the bout between the Mulkey & Pastime Theatre and the Palmer Implement Co., which was scheduled for tonight, will be played at 7 p. m. Friday night and the match between Norwood Pharmacy and Bryan Clothing Co. will be played as scheduled at 8 p. m. Friday night.

The teams got off to a smashing start Monday night when the Coca-Cola Bottling Co. trampled Thompson Bros. Hardware and on Tuesday night Whitlock Barber Shop bowed to the powerful Foxworth-Galbraith Lbr. Co. Wednesday night the C.J.C. Outlaws met Rundell & Estlack Machinery Co. and moved on to victory.

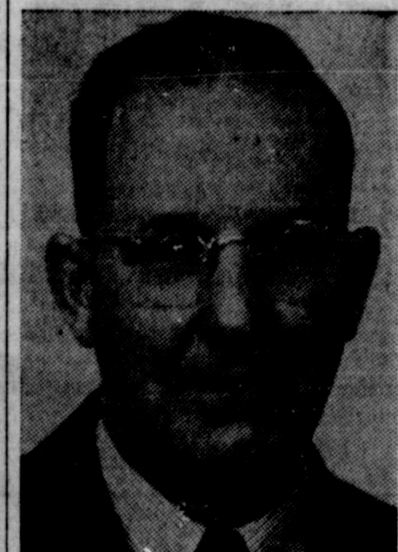

Clyde Butler made a business trip to Amarillo Monday.

Institution Ceremony For Local VFW Here Wednesday, March 5th

E. R. Bruce, of Amarillo, Deputy Chief of Staff Veterans of Foreign Wars, will institute the Clarendon Post No. 8917 Veterans of Foreign Wars on Wednesday night March 5th. WILSON—BLACKMAN

Arrangements of white gladioli and blue iris with fern made the floral decoration for the altar which was backed by palm leaves and flanked by seven-branched candelabra to form the setting for the marriage of Miss Klyda Fern Wilson, daughter of Mr. and Mrs. Clyde Wilson, to Billy Roy Blackman, son of Mr. and Mrs. Roy Blackman, on Monday evening, February 24.

Rev. Hal Upchurch read the double ring service in the parlor of the First Baptist Church. Miss Cora Lee Muse sang "Because" preceding the ceremony, and "The Lord's Prayer" as a benediction. Mrs. Rayburn Smith played the Bridal Chorus—Wagner for the wedding march. Miss Dorothy Jean Tatum and Mrs. J. D. Riley lit the tapers at the altar and on the table.

The bride wore a grey colored wool suit with black accessories. Her hat was an off-the-face style with a halo of blue flowers. She wore a corsage of white and blue carnations, and carried a white Bible.

Miss Ada Sue Smith was maid of honor, wearing a brown suit with brown accessories and a corsage of pink carnations. Douglas Lowe was best man. Jiggs Mann and Wayne Lowe served as ushers.

Mrs. Wilson, mother of the bride, wore a navy blue dress with a corsage of pink gladioli, and Mrs. Blackman chose a sheer blue dress trimmed with white with a pink gladioli corsage.

A reception, following the wedding, was held in the parlors of the Church. White baby breath and blue iris formed a center piece for the bride's table which was highlighted by a three-tiered wedding cake.

Miss Melba Ruth Grady and Mrs. Joe Goldston served the cake and punch assisted by Miss Betty Rhodes. Miss Elise Norwood presided at the bride's book.

Mrs. Blackman is a graduate of Clarendon High School and is now employed by Mr. Kelly Chamberlain. Mr. Blackman is also a graduate of Clarendon High School and is now employed by the Clarendon Furniture Company.

Out of town guests who attended the wedding were Mr. and Mrs. Ernest Davis, Plainview; Mr. and Mrs. Clayton Peabody, Mr. J. B. Pettit, Mrs. W. G. Carter and son Kenneth of McLean; Mr. and Mrs. T. L. Shumate and daughter Glennamae, Mr. and

Mrs. R. E. Walker and son Ronnie and Miss Opal Tate and Mr. Kenneth Ferrman all of Amarillo.

McCLESKEY—BREEDLOVE

Mrs. Eva Phelps is announcing the marriage of her daughter, Mrs. Dorothy McCleskey to H. M. Breedlove. The vows were read at 7 p. m., February 21, 1947 at the Methodist Church by Rev. H. W. Hanks with only relatives and close friends in attendance. Mrs. Rayburn Smith, Organist, played "I Love You Truly" by Carrie Jacobs Bond and Wagner's "Bridal Chorus". The couple left immediately following the ceremony for a short trip.

CAMPBELL—WILLIAMS

Mrs. Dorothy Campbell, daughter of Mr. and Mrs. F. A. White, and Mr. Howard Williams of San Bernardino, Calif. were united in marriage Friday, Feb. 21st.

At the present time the newly weds are visiting in the home of her parents, Mr. and Mrs. F. A. White.

McCOY—MANDEN ANNOUNCED

Mr. and Mrs. Bob McCoy of Borger, formerly of Lelia Lake, announce the approaching marriage of their daughter Melba Jean to Gene Manden, also of Borger. No definite date has been set for the wedding.

Miss McCoy is a senior of Borger High School and will graduate with the class of '47. She is a member of the order of Rainbow for girls.

Mr. Manden is employed by Skelly Oil Co., after serving four years with the Air Corps in the Atlantic theater of war.

BIRTHDAY PARTY

Bertha Mae, daughter of Mr. and Mrs. Frank Reid, entertained a number of her little friends with a party at her home, Friday afternoon. A variety of indoor games were played until the hostess opened her many nice gifts.

Refreshments of cake and hot chocolate were served with candy favors.

Those present were Martha Nichols, Frank White III, Harlene Smith, Carroll Joyce Aduddell, Ola Mae Pittman, Rose Ann, Kenneth and Donna Duckett, Montey Smith, Bill Noblet, Janice Benson, Glen Wallace, Vanetta McClellan, Eva Lee Pharr, Evelyn Jean Wood, Ruth Ann and Rebecca King, and hostess, Bertha Mae Reid.

THE KAPPA SUB-DEBS

The Debs have had several interesting activities the last month. First, we received our official membership papers. We are now an affiliated club with the Ladies Home Journal. Second, we received membership cards along with information regarding our activities for the following year. Mae Morris, our correspondent, expects literature each month from the headquarters in Pennsylvania.

Last Wednesday 19, the Debs met in the home of Ardith Warren. The hostesses were Louise Underdown and Ardith Warren. Plans for the Amarillo trip were discussed and the date decided. Washington's Peculiarities was the theme and Louva Hunt presented the program.

Friday the 21st, everyone journeyed to Amarillo. We left around 4:30 and went in the following cars: Mrs. Rufus White, our sponsor, Mrs. B. N. Head, Mrs. Ernest Hunt, and Mrs. Johnson. We arrived around 6:00 and went to dine at the Mexican Inn. There were twenty of us in all. After eating we went to a movie. The excursion was enjoyed by everyone as it was something entirely new for the Kappas.

Our next regular meeting will be Wednesday, March 6th.

SIMS P. T. A.

The Sims P.T.A. met Feb. 20 in the Elizabeth Stevens gym.

The first part of our program was rendered by Mrs. Hendrix' Third Grade and consisted of historical facts and songs based on the lives of George Washington and Abraham Lincoln. This group is especially enjoyable because of their singing ability. The second part was given in commemoration of the fiftieth anniversary of the founding of the P.T.A. Our guest speakers were Mrs. J. H. Howze and Mrs. J. T. Sims. Since the week of Feb. 16-23 had been designated as "Brotherhood Week" by President Truman, Mrs. Howze gave an inspiring talk on that subject. Mrs. Sims, for whom our P.T.A. is named, gave us the early history of the organization in Clarendon. Following her talk she was presented a corsage in behalf of the P.T.A. by Miss E. Stevens. Both Mrs. Sims and Miss Stevens are life members of the P.T.A.

Our president, Mrs. Walter Clifford, presided over the business meeting. Reports were given by committee members. Of special interest was the report of the many needed articles the local P. T. A. had contributed to our school lunch room.

Jacobs and Wayne and Mr. and Mrs. E. R. Perdue and Dickie of Amarillo and Mr. and Mrs. T. E. Perdue called in the afternoon. All wished Mrs. Jacobs many more happy birthdays.

WORLD DAY OF PRAYER

On Friday, Feb. 21, Christian women all over the world made their way to places of worship to join in a fellowship of prayer.

As the sun moved eastward, dusky women from distant coral strands and steaming jungle trails, pheasant women from the fields, East Indian believers in picturesque saris, veiled sisters from Harems; Chinese in lehue trousers, Japanese in kimonos, Germans, Norwegians, Hollanders now joining publicly instead of secretly, until late when the final reverent service was held by fur clad eskimos on little St. Laurence Island off the coast of Alaska thirty miles from the Arctic Circle.

Clarendon women joined this church family by observing the day with services at St. Johns Episcopal Church at 2 p. m.

Mrs. Millard Word and Mrs. Clyde Hudson were leaders with parts taken by women from the Presbyterian, First Christian, Episcopal and Methodist churches. Cora Lee Muse was soloist.

Those attending received encouragement and strength from this meeting which crosses all denominational and racial lines.

JUNIOR R. A.'s

The Junior R.A.'s met in the home of Mrs. Dale Hill Monday night.

Those present for the program were Billy Bradshaw, Don Gordon and Jack Moore, Tommie Lane, Rondie DeShazo, Bill Dale Hill and counselor Dale Hill.

BAD COLDS

Retained undigested food becomes putrefactive, causes toxins, which overload the liver and other vital organs of the body, lessening your resistance to colds and other winter ills and interfering with their treatment. Why take this chance when you can take Calotabs? Calotabs thoroughly yet pleasantly act on every foot of your intestines, sweeping out toxin-laden putrefactive foods and virus-laden mucus, enabling you to more effectively avoid or fight a cold. Nothing acts like good old Calotabs. Use as directed. 10c and 25c at all druggists.

Veterans News

President Truman has signed legislation further liberalizing the National Service Life Insurance Act for some 10 million World War II veterans who have permitted their term policies to lapse, Veterans Administration announced Friday.

Robert W. Sisson, VA regional manager at Lubbock said, "The head of every American family

should protect those dependent upon him through life insurance. World War II veterans have a most unusual opportunity in this respect through National Service Life Insurance. It is a privilege available only to veterans. It is backed by the United States Government."

The new law gives the Administrator authority to determine the conditions of reinstatement by Administrative Regulation.

General Omar N. Bradley, Administrator of Veterans Affairs immediately announced that National Service Life Insurance term policies which have lapsed at any time may be reinstated by payment of two monthly premiums provided the holders are in as good health as they were at the time of lapse.

Under the new law a veteran may obtain any permanent National Service Life Insurance plan from the VA without the necessity of previously holding term insurance.

Under the old law VA was required to issue National Service Life Insurance originally on a term plan only and it had to be

carried on that basis for one year before it could be converted to a permanent plan.

The new act provides in certain cases for automatic conversion of term insurance to a permanent plan for policy holders who are totally disabled. Under the old law if they failed to convert within the term period their insurance protection ceased.

All National Service Life Insurance policies provide for a waiver of premiums for veterans who become totally disabled for six or more consecutive months. Even though premiums are being waived these veterans can convert their term policies to all types of permanent insurance except that for an endowment plan. The premiums will be waived during continuance of the total disability.

Veterans Warned Not To Cash VA Subsistence Checks After Training Has Been Stopped

West Texas Veterans Administration regional office today warned veterans not to cash VA subsistence checks received after training has been stopped.

In many instances, veterans have dropped out of training under the G. I. Bill without advising VA, and have continued to accept subsistence checks.

When a veteran terminates his training he is no longer entitled to subsistence payments and all checks subsequently received must be returned to the VA reg-

SCHOOL CAFETERIA TO RAISE PRICE OF MEALS MONDAY

O. D. Lowry, principal of the Jr. High School, announced yesterday that due to exhaustion of Federal funds the local school cafeteria would have to raise the meal rates from 20 cents to 25 cents beginning Monday, March 3rd.

It is possible that the State will appropriate funds for this project sometime within the near future, allowing the rate to be cut back to 20 cents but until they do appropriate some additional money the charge for the noon-day meal for school children will have to remain at the new rate, Mr. Lowry stated.

He asked that this statement be printed so that parents would know the reason for the increase.

Warning Sounded To Veterans Working for Firms Not Submitting Training Program

West Texas veterans taking on-the-job training in firms that have not submitted a training program to the Veterans administration are in danger of being suspended from the VA subsistence rolls on February 28th, Eldon F. Fuller, Chief, Vocational rehabilitation and education division of the VA regional office at Lubbock, warned today.

In accordance with Public Law 679, all firms who train veterans are required to furnish the Veter-

ans administration regional office with copies of a training program for each veteran in training. Also a training program is required for each specific job objective in which a veteran is to be trained.

The VA regional office has made numerous attempts to secure the necessary training programs. In most cases, firms have responded favorably; but in several instances firms have failed to send in their course of training. In these cases VA's only alternative will be to suspend the veterans' subsistence, Fuller said.

Every effort will be made to determine that a training program has positively not been received before a veteran is suspended.

In cases where VA has been informed that a program would not be provided, veteran-trainees have already been dropped from the subsistence rolls.

Full information and sample training programs have been sent to all establishments in this region conducting on-the-job training, Fuller stated.

Another Reminder On Your Income Tax Returns

H. E. Arnold, Acting Collector of Internal Revenue for the 2nd Texas district, reminded taxpayers today that their income tax

returns should be filed before March 15th at his office at Dallas, Texas.

Collector Arnold cautioned that returns should not be sent to Washington and thereby cause needless expense and delay in shipping the returns back to the home district.

Because of the millions of returns that must be handled at this time of year, the Collector urged taxpayers to facilitate the work by making sure their returns are complete and signed, that all necessary documents are enclosed, and that the envelope (if mailed) is addressed to "Collector of Internal Revenue, Dallas, Texas."

Although March 15 is the deadline, Mr. Arnold requested taxpayers to save both themselves and the government needless expense and inconvenience by filing as far ahead of March 15 as possible.

MAN-MADE SNOW

Man-made snow not only has been created in the laboratory, but for the first time a natural cloud has been transferred into snow.

Snow was first created by man in the G-E Research Laboratory by Vincent Schaefer. Natural clouds from which snow is formed consist of "supercooled" water

droplets. Water in this condition is not frozen, even though it is far below the freezing temperature. In a laboratory cold chamber, similar to a home freezing unit, a "supercooled" cloud is produced by dropping the temperature to about five degrees Fahrenheit and then introducing moist air from a person's breath.

To provide nuclei upon which snow crystals can be built, the cloud is seeded by passing thru the chamber a tiny pellet of dry ice, which is solid carbon dioxide at a temperature of minus 70 degrees Fahrenheit. The seeding results in formation of submicroscopic ice particles in the air close to the surface of the dry ice. A vast number of these ice germs form in this manner.

Once started freezing, the crystals begin growing at the expense of the water particles, and within a few seconds the fog vanishes. In its place appears a cloud of tiny snowflakes, glinting in a special light beam set up in the cold chamber for better visibility. Amazing as the laboratory cre-

ation of snow may seem, still more amazing is the creation of snow from a natural cloud.

Flying in a plane, Vincent Schaefer dispensed six pounds of small dry-ice pellets over a cloud tract about three miles long. Within two minutes a radical modification of the cloud took place, and streamers of snow began to pour out of the base of the cloud. Though the cloud was of the stratus type, pillars of cumulus cloud began to rise from its top. This turbulence in the cloud is caused by the heat which is generated by the freezing of the water. It enables the process to spread as a type of chain reaction and draws more moisture into the active region.

Precipitating snow before it reaches urban areas, causing it to fall on ski slopes, removing dangerous icing conditions from the flight paths of planes—these are some of the uses to which this process may be put.

Few changes should be made in feeding hens, and those that are made should be gradual.

Congratulations F.F.A. & 4-H CLUB BOYS ON YOUR TWELFTH ANNUAL FAT STOCK SHOW

You young fellows are doing a mighty fine work in finishing off the best in Herefords, Hogs and Sheep. You offer proof of a possibility within the reach of most any stock farmer.

Stock feeding is an industry that affords a home market for both stock and feed, and employment for those engaged in the work. It is a "farm pay roll" that means success when properly handled.

Veterans' News

About 900,000 World War II veterans in Texas, Louisiana and Mississippi will soon receive letters from the Veterans Administration acquainting them with their rights to reinstate lapsed GI insurance.

VA's insurance offices in the Dallas Branch Office, 1114 Commerce Street, said that was the approximate number of Southwestern veterans who dropped their National Service Life Insurance following discharge.

About 95 per cent of the 1,300,

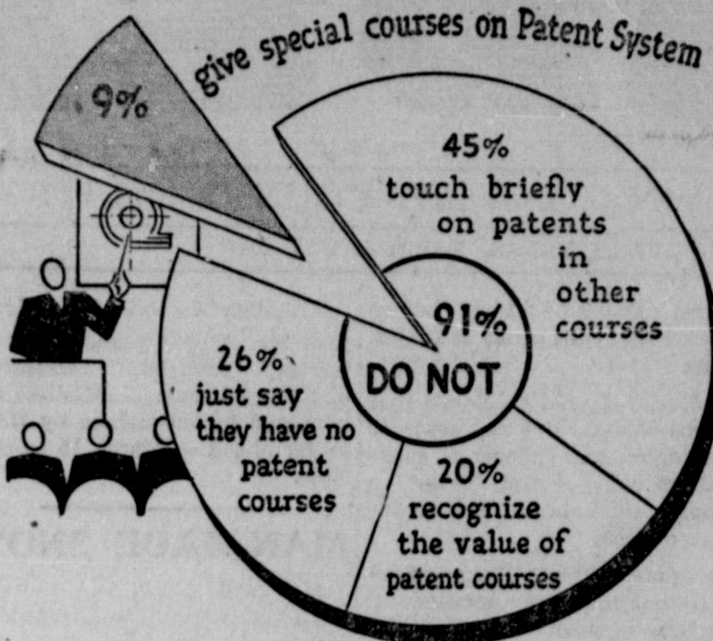

000 World War II veterans in the Dallas Branch Area had GI policies during military service. The minority who had no government insurance are also eligible to receive it on application along with medical evidence satisfactory to VA.

Both the Senate and the House have approved a bill authorizing extension of the deadline for reinstatement of GI term insurance without a physical examination upon payment of two monthly premiums.

The bill was awaiting the President's signature at the time this was written.

VA anticipated that a new deadline of August 1, 1947, would be set. Before August 1, veterans will have only to sign a statement that their health is as good now as it was at the time of lapse.

Colleges report on Patent Courses

Prepared by National Patent Council

Completion of a survey among 123 engineering colleges has been announced by John W. Anderson, president of National Patent Council. Replies received from 96 reveal that only nine per cent offer engineering students a formal course on the U. S. Patent System. Of the 91 per cent who do not include a full course in their curriculum, about half offer lectures or discuss patents briefly in other classes. The 20 per cent who recognize the value of patent information for students expressed a willingness to do something to make such a course available.

to reinstate.

Most lapses came immediately after demobilization before records were decentralized to Branch Offices. The trend has now reversed. Nearly 24,000 veterans reinstated during January, alone, in the Dallas Branch Area.

VA is now paying out about \$700,000 a month to 18,689 beneficiaries of veterans in Texas, Louisiana and Mississippi, on in-

surance claims. About 10,000 veterans in the area have received waiver of premiums because of total disability.

The four percent gratuity payments made by Veterans Administration to the credit of veteran-borrowers under the GI Bill loan provisions are exempt from Federal income tax, the Commissioner of Internal Revenue has ruled.

In addition, it was added, all interest paid on loans guaranteed or insured under the amended law may be listed as a deduction by the veteran regardless of whether or not part of the interest actually was paid with the gratuity.

Questions and Answers

Q—Before his death, my husband received a pension from Veterans Administration. Am I entitled to this pension now that he has passed away?

A—You may apply for a widow's pension. Your eligibility will be determined on application.

Q—My son has been totally disabled for the past five months. I would like to know if he must pay his National Service Life Insurance premiums or is a waiver on these premiums granted automatically?

A—No automatic waiver of premiums can be granted. A veteran must be totally disabled for six months before he is entitled to apply for a waiver of premiums. He may also file claim for refund of those premiums paid from the date on which the waiver was made effective. A beneficiary of an insured veteran likewise is entitled to file a claim for a refund if the insured had been totally disabled for six months or more before his death.

Q—If a veteran and his wife are separator and she receives a portion of his compensation, would she be entitled to widow's pension at his death?

A—A widow may be eligible to full widow's pension even though there was a separation during the veteran's lifetime. If she desires a pension or compensation, she should make application to Veterans Administration.

Winters Are Warmer Now

Winters really are warmer now than in Grandfather's day.

Since 1850, earth temperatures everywhere have been rising—more emphatically since about 1920, Dr. Clarence A. Mills of the University of Cincinnati's laboratory for experimental medicine declared in a General Electric Science Forum address at Schenectady, N. Y., recently.

Earth temperatures rise regularly by 2000-year cycles, Dr.

Mills pointed out in the WGY and WGFM broadcast.

Much against her will, the little old lady had consented to spend a day in town. But the outgoing was not a success. The buses were crowded, people jostled, and it rained. As she wearily climbed the steps of her own front porch late that night, the tired traveler was heard to remark: "Sakes alive, I'm so glad I'm home, I'm glad I went."

Teacher—"Johnny, can you tell me where the Red Sea is?"
Johnny—"Yes, Ma'am, on the third line of my report card."

Bert Solves the Labor Problem

You hear a lot about capital and labor nowadays, as if the two could never get together. But look at Bert Childers—who has 320 acres of producing land, a fair-sized herd of cattle, and two farm hands working for him.

If you called Bert a "capitalist" he wouldn't know what you meant, and neither would Spike and Sandy, the hired men. Bert works side by side with both of them; and in the evenings they sit around the fire together—sharing a friendly glass of beer or two.

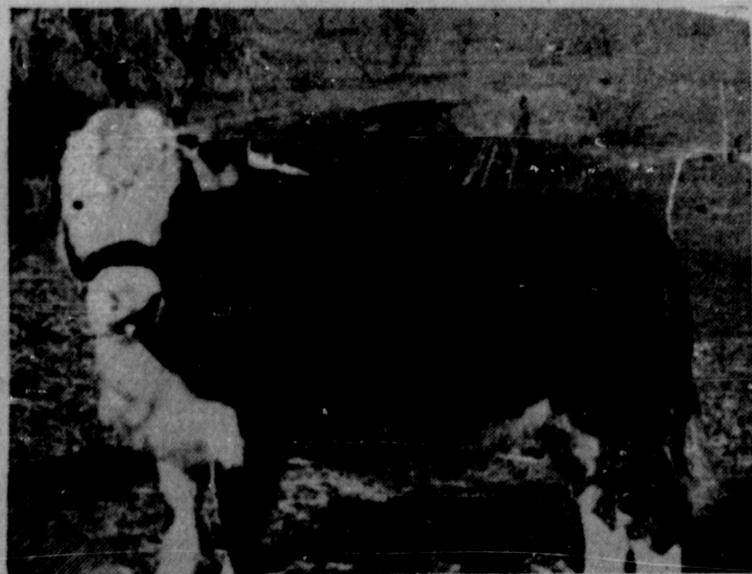

If anybody has a beef—whether it's about wages or hours or equipment—they talk it over at those friendly evening sessions.

I don't say all labor problems are as simple as Bert's. But from where I sit, the basic principle applies to any farm or factory or business: A principle of confidence and mutual respect, of daily talks together in a friendly and congenial atmosphere.

Swing of Southwest Farm Markets

Leading farm commodities registered sharp gains last week, according to Productoin and Marketing Administration, U. S. Department of Agriculture. Cotton, grain and hogs highlighted the advance, but most other products sold at steady to higher prices.

Wheat led the upward trend in cash grains with a dime advance per bushel. Corn was up a penny or two and sorghums held fully steady with late increases of the previous period. Oats closed at a net advance despite late period weakness. Rice held firm, but buyers could obtain supplies with slightly less difficulty. Feed mar-

kets seemed little influenced by the upward trend in grain. Most prices held relatively steady, but gluten feed dropped \$4 per ton. Hay marketings slackened at unchanged prices.

All classes of hogs went up sharply during the week, averaging a dollar or more higher at some markets. Butcher hogs topped at \$24.50 at San Antonio and \$26 at Fort Worth. Friday's bulk of Good and Choice grades went at \$26.50 to \$27 in Oklahoma City; \$26.75 to \$27 at Wichita; and \$27 to \$27.50 at Denver.

Steady prices were paid for most sheep, but lambs at Wichita lost 25 cents for the week. Medium and good fat lambs sold at San Antonio for \$15 to \$19.50; and at Fort Worth for \$18 to \$21.50. Friday's sales of good and choice lots at Oklahoma City netted \$21; and at Wichita \$21.50 to \$22.35.

Calves and Yearlings weakened at Texas markets, but mostly steady to higher prices were paid for other cattle at southwest terminals. Houston paid \$12 to \$17 for the week's bulk of common and medium slaughter steers and yearlings; while Fort Worth moved medium and good kinds at \$16 to \$21.50. Low to average medium grass fat steers at San Antonio brought \$17.25 to \$18.50, and yearlings \$18 to \$19.50. At Denver medium to high good

KOREAN REHABILITATION PROGRESSES UNDER U. S.

One of the least known of the lands into which American occupation soldiers have gone to uphold what was won in the holocaust of World War II, Korea today is a country of contrasts and contradictions, full of the lore and traditions of the Orient and imbued with determination to rehabilitate itself and take its proper place in the world structure.

Korea reeled before the full impact of Japanese imperialism at a time when it was beginning to make strides toward modernization after virtually hibernating for three centuries as a passive defense against recurrent economic and political oppression by foreign powers.

One of the earliest victims of Japanese aggression, Korea was under Japan's control from 1905—and direct rule from 1910—until the Moscow Decision in December 1945. After the surrender of Japan, Soviet Russia assumed control of the area of Korea north of the 38th parallel, United States forces the area to the south of that dividing line, and in September 1945 the United States Military Government in Korea was established in South Korea. A proclamation issued by General of the Army Douglas MacArthur, as Commander-in-Chief, U. S. Army Forces in the Pacific, provided the basis on which military government was organized. Lieutenant General John E. Hodge was named Commanding General, U. S. Army forces in Korea, and responsibility for fulfillment of American occupation duties was vested in him.

A look at ancient Korea and her people serves to point up the strides made since the war's end, and at the same time the distance which remains to be covered in the march toward recovery from the steady drain of the country's resources by the Japanese during World War II.

Under U. S. military government, Koreans have been urged to gain governmental experience through active participation in government at all administrative levels. The policy has been to gradually turn over to Koreans the actual responsibilities of government, and they have assumed operation of all but a few departments of the administration in South Korea. Further, an interim Korean legislative assembly was established pending consummation of the terms of the Moscow Decision. The police system has been reorganized, a modest constabulary established and a beginning made toward establishment of a Coast Guard.

Koreans have been quick to seize on the privileges provided. Exercise of their new political liberties has resulted in the organization of numerous political parties running the gamut of political ideologies.

It is not strange that Koreans should react in this manner, for they are experiencing a degree of freedom not known in their country during 40 years of Japanese domination. Its lands felt no bombs or shells during the war years, but the conditions prevalent in the country are such as might have been caused by actual war damage. There is pressing need for clothing and housing; agriculture suffers from four decades of exploitation for the benefit of Japan and from a serious lack of fertilizers to replenish wasted lands; industries and mines labor under shortages of materials and manpower; communications and transportation systems combat overloading and obsolescence; food is in short supply, and inflation has worked its evils.

steers ranged from \$17.50 to \$23.35 for the week. On Friday's market at Oklahoma City good and choice vealers and calves realized \$18 to \$20.

Seasonally increasing receipts of fresh eggs were fairly well absorbed at mostly unchanged prices of around 36 cents per dozen at most central points. Live poultry marketings slowed, but prices held generally steady at 24 to 26 cents per pound for heavy hens and 27 to 30 for fryers and broilers.

Potatoes gained strength at Colorado shipping points last week and sold mostly at \$2.30 per hundred pounds. Sweet potatoes remained about steady in Louisiana but demand was light.

Southwest markets for shelled peanuts strengthened. Dealers report the supply limited because of seed holdings and exports.

Cotton climbed steadily last week, gaining around \$3 to \$4 per bale. Higher spot prices brought fairly active selling.

Veterans Administration now has about 130,000 employees eligible for veterans preference. They comprise 60 per cent of all VA employees, male and female

Clean Your Sewing Machine

College Station—Before sewing machines are given heavy use for spring and summer sewing, the wise housewife will give hers a thorough cleaning and oiling, says Mrs. Dora R. Barnes, specialist in clothing for the Texas A&M College Extension Service. Cleaning now will save time in the long run with improved service.

Cleaning fluid can be obtained from gasoline dealers. Mrs. Barnes suggests kerosene or carbon tetrachloride.

To clean the machine, use a small oil can, squirting the fluid into oil holes and on bearings. Run the machine until it operates smoothly; then wipe carefully with a cloth. Allow it to stand idle several hours until the cleaning fluid is dry.

Mrs. Barnes advises caution in cleaning an electric machine as most cleaning fluids are inflammable. She suggests running it

by hand rather than by motor.

After cleaning, oil the machine well and run it awhile to work oil into the bearings. Wipe off any excess oil carefully. For later oilings, one drop in each bearing and oil hole is enough. The machine should be oiled after each day's work or after eight to 10 hours use. Even when not in use, an occasional oiling will prevent drying and gumming.

Around 65,000 veterans are applying monthly for admission to Veterans Administration hospitals or homes.

Veterans Administration board of appeals now is disposing of an average of 2,900 appeals from VA rulings monthly.

More than 40,000 veterans are operating their own businesses with G. I. loans guaranteed by Veterans Administration.

Texas, with its 254 counties stocked with a large number of cattle, sheep and goats, swine, chickens, turkeys, horses and mules, has only about 300 veterinarians engaged in private practice.

Weekly SURPLUS NEWS WAA

Sales of surplus war property to veterans will be simplified March 1 when WAA introduces a national network of regional set-aside lists and makes Army or Navy discharge papers the only instrument necessary for veterans to purchase items especially set aside for their personal use. Veterans are advised to consult Veterans' divisions of their regional WAA offices for further details and the correct procedure in order to avoid later misunderstandings.

A fixed-price, mail order sale of general industrial machinery and equipment has been announced by the Fort Worth regional office of WAA. The sale closes March 6. Among the items offered are arc welders, high pressure pumps, platform trucks, button sewing machines, darning machines, lock stitch type sewing machines, overedge sewing machines, shoe sanding machines, hoist chains, platform scales, laundry trucks, pressure paint tanks, heel trimmers and one electric bank saw. The property is being offered to priority claimants, including Veterans of World War II, and commercial channels concurrently.

A large sale of valves, fittings and metals will be held on a sealed bid basis by WAA, Fort Worth, with bid opening date being March 6. Included in the sale are various types of valves, flanges, reducers, pipe fittings and couplings, unions, stainless steel rounds, cold roll bars, shim

stock, wire rope and one water tank. The items are being sold to all levels of trade concurrently. For further information inquire of WAA, Metals Division, North American Plant "B", 3rd floor, Grand Prairie, Texas.

Bargains in drilling machines, grinders, turret lathes, milling machines, polishing machines and hydraulic presses are among the heavy machinery offered by the Dallas WAA office, P. O. Box 6030, Dallas, until 11 a. m., March 4th.

Free Pre-School Nursery for Cerebral Disorders of Children

A free pre-school nursery for cerebral palsied children will be opened in Dallas March 1st. The school will be sponsored by the Dallas Society for Crippled Children in quarters furnished by

Seeds of Goodwill

A major project of the Girl Scouts in 1947 (their 35th anniversary year) is collecting vegetable seeds to be sent abroad. The potential beans, peas and other edibles are being transmitted through the Brethren Service to help prevent famine in Europe.

the Texas Society at the state headquarters, 3703 Worth St., Dallas.

R. L. Thomas, president of both Societies, made the announcement. He pointed out that the establishment of the nursery is the first step in the statewide program assumed by the Texas Society at a meeting in November.

"Since cerebral palsy, commonly called spastic paralysis, is caused by a brain injury which affects the muscles but not the mind, most cases can be appreciably helped to overcome their handicaps through proper treatment and training," Mr. Thomas said. "Home treatment is even

more important than school training, so to make the program complete, parent education classes also will be held at the nursery."

Director of the school will be Mrs. Juliette M. Gratke, now head of the cerebral palsy clinic at Children's Hospital, Denver, Colo. For a master's degree in child welfare and speech correction, she has written a thesis on home care of cerebral palsied children. One of Mrs. Gratke's four children is deaf and has athetosis.

The Supreme Compliment

A young matron was enjoying the attentions of her dinner partner, a handsome Westerner. "But how old do you think I am?" she asked.

"Shucks," he replied, "I don't know, ma'am, but if I saw you on the street, I'd whistle first and estimate afterwards."

A drunk entered a phone booth, dropped in a nickel, waited a moment and then started to bang and twist everything on the instrument. Finally the voice of the operator came through the receiver, asking "Number please?" "To heck with your numbers," cried the drunk. "I want my peanuts!"

Construction is underway on nearly \$37,000,000 in contract awards for new Veterans Administration hospitals or for additions to existing hospitals.

Good dairy management cannot be a hit and miss affair. Milking time and milking methods must be regular, and the cows handled so that they will be kept as comfortable as possible.

WASHINGTON NEWS LETTER

By Cong. Eugene Worley

The gravest danger which has menaced the livestock industry of the United States, the dread foot and mouth disease, has cropped up in Old Mexico. The importation of several hundred head of bulls from Brazil into Mexico last year brought the disease and unless prompt and effective action is taken by the United States and Mexico, it could and will undoubtedly spread to Texas and all over the United States.

This disease, according to competent testimony taken by us as members of the special group of the Committee on Agriculture of the House, attacks and can be transmitted by cattle, hogs, sheep and goats, and other cloven-hoofed animals and is highly infectious. In addition, the germs may be carried on the shoes, clothing, or bodies of persons, feet

cats, or other animals which may have been in the immediate vicinity of infected animals; also by insects, particles of straw or litter which may be carried by the wind; and in many other ways. For example, a tourist

or bodies of poultry, birds, dogs, could fly overnight by commercial plane from Mexico to New York and be a carrier of the disease, and infect the dairy cattle in New York, thousands of miles from the infected cattle. It can

spread like a prairie fire.

The United States has had seven outbreaks of the foot and mouth disease since 1900, which have cost the State and Federal Governments in excess of two hundred million dollars. The

most serious occurred in 1914, spreading to 22 states and the District of Columbia. In that year it was necessary to slaughter 172,222 head of cattle, hogs, and sheep in this country to eradicate the disease. Only by herculean efforts and tremendous financial costs was it finally stamped out. Should it again spread to this country, it could cost multiplied millions of dollars in losses to both our livestock and farming industries.

So serious is the threat of this disease that the House Committee on Agriculture last week promptly reported to Congress measures which would provide full cooperation between this country and Mexico in taking any steps necessary to completely eradicate the disease. We hope to have immediate and full approval of the Congress and President in order to begin a quick attack on the infected cattle in Mexico. The Mexican Border has been closed to cattle shipments into the United States but it is impossible to effectively close the Border to human beings and other carriers of the dread disease. Especially is this true of buzzards and other birds which are probable carriers. The foot and mouth virus is so tiny it can hardly be seen under a microscope and to date no quick and positive remedy except prompt slaughter and burial of infected livestock is known. Since this virus has no respect for international state lines it is imperative this country fight it where it exists and not wait until it reaches our own animals.

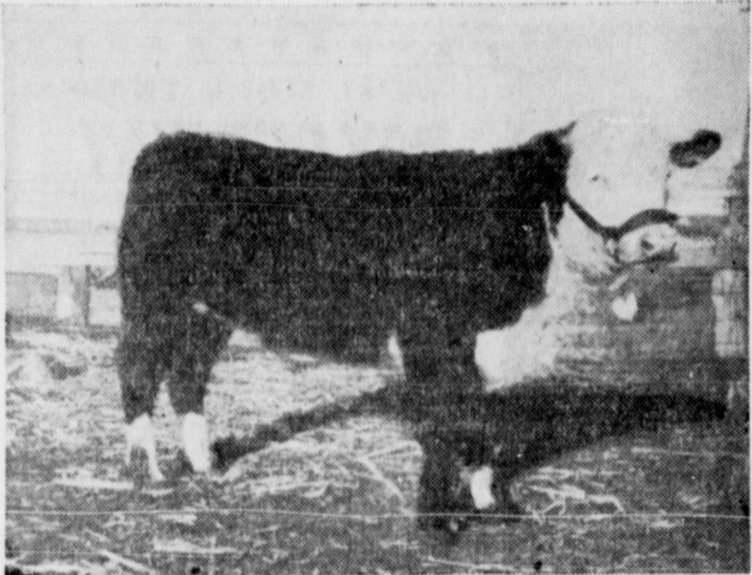

In the proposed legislation Congress has asked for thirty day progress reports from the Department of Agriculture so we may be kept informed as to exactly what is being done to exterminate and prevent the spread of this disease.

A group of Texas Congressmen, together with representatives of the Cattle Raisers' Association, called on President Truman to enlist his active support. We found him thoroughly familiar with the facts and seriousness of conditions in Mexico and their probable danger to our own livestock industry. He promised his

full support in every respect. As a matter of precaution, I most earnestly suggest to any owner of livestock that he immediately contact his local veterinarian or his County Agent should any of his livestock show

symptoms of foot and mouth disease. May I also urge further that such owner, veterinarian or county agent immediately contact me by wire or long distance telephone at the Capitol in Washington, D. C.

TEXAS HAS

Faith!

"This is my son... five years old last month. He was born in Texas... and I hope he will always stay in Texas... for he will some day inherit all the things you and I have tried to build for him. His are the industries, the vast plains, the wooded hills, the teeming ports, the boundless natural resources. His is the heritage of free enterprise that will keep Texas prospering in the years to come."

Yes—Texans have FAITH in Texas, a deep faith that has its roots in the strong, resolute, fearless souls of those pioneers who built our great state. United Gas has this faith, too, in the future of Texas, as evidenced by its expanding program of conserving gas... converting it into a USEFUL commodity. United Gas is seeking in all its operations to be a useful citizen of this great state.

"THE QUALITY STORE"

LIBRARY NOTES
By Mrs. C. A. Burton

Mention has been made of "The Last Trek of the Indians" by Grant Foreman of Muskogee, who is spoken of as the dean of Southwestern historical writers. One of the six books on display for the month of January in Rockefeller Center, New York City was this book of Dr. Foreman's. The six books on display were books on the American Indian together with items of historical interest from the Museum of the American Indian.

William Hallam Bouner has a new book to come out in March called "Pirate Laureate." He is

giving information of sixteen possible sites of loot buried by Captain Kidd two and a half centuries ago amounting to two million dollars. Quite a treasure hunt ahead!

Stephen Foster seems to be the only author whose song made Hit Parade 37 years after his death. The song is "Jeanie With the Light Brown Hair," which radio suddenly discovered in 1941. Foster's best songs are now being offered in "A Treasury of Stephen Foster."

Some of the city-bred book reviewers have scoffed at a coincidence in Mary O'Hara's "Green Grass of Wyoming" which is being so popular not only with our readers but with the reading public which loved "Flicka" and

"Thunderhead." They think the incident of Crown Jewels falling off a box car and later being protected by a farm house is far-fetched. Miss O'Hara verifies that part of the story from her own experience.

Booth Tarkington, who won the Pulitzer prize for his "Alice Adams" in 1922, and who died last May at the age of 76, left an unfinished novel, "The Show Piece", which has lately been completed and offered to Tarkington's large reading public.

Kenneth Roberts, with his first book in six years, is leading the best sellers with his "Lydia Bailey" in which he uses about 100 characters.

What was once a Navy "galley" with enough cooking equipment to feed 18,000 sailors is now the reading room of the library of the new Chicago Undergraduate Division of the University of Ill. This 5200 volume library is some 3000 feet out on Lake Michigan and serves 4,000 students.

"Under Cover" was one of the sensations of the war years—author, John Roy Carlson, and now this same author has a new sensation, "The Plotters." In it he records in burning words his undercover investigations of individuals and groups who are working to enlist returned veterans and other loyal Americans in the growing legions of hate that menace our national unity.

Eight southern states have recently made large appropriations for library assistance.

Richard Sherman sold his "The Bright Promise" to Good Housekeeping for \$50,000 and now Fox has bought the movie rights for \$310,000.

Dr. Werner Heisenberg, Nobel prize winning nuclear physicist, has been invited to Argentina, but has not yet been given permission from British zone authorities to leave Germany.

Mr. and Mrs. Emmett Gill moved to San Antonio on account of her health. Mrs. Gill is the mother of Mrs. Victor Smith.

Fight Pneumonia With Early Care

According to Dr. Geo. W. Cox, State Health Officer, pneumonia caused approximately 2,460 deaths during the past year in Texas, a total which is entirely too high. This disease is most prevalent during the winter and spring months.

Pneumonia is caused by a germ called the pneumococcus, which many of us have lurking in our throats ready to start trouble, when our resistance to it is lowered. We can keep up our resistance by avoiding undue fatigue and unnecessary exposure to extreme weather conditions. When we go outside in cold weather sufficient wraps should be worn to protect us. Keeping the temperature of our homes as low as is consistent with comfort will greatly lessen the difficulties encountered in adjusting ourselves to the cold when we leave the house.

Another method of prevention in pneumonia is not to neglect a cold, for the common cold often results in pneumonia when neglected. A person with a severe cold should stay at home, and call his physician for advice if temperature persists or the cold lingers on. He should follow his physician's advice until the cold has disappeared.

The successful treatment of a pneumonia case often depends upon starting treatment very early. That is why a physician should be called at once when pneumonia is suspected. A patient may really have beginning pneumonia when he thinks it is only a cold. If the physician's advice is sought, he will have an

Pending Legislation Musn't Be Confused With 1946 Returns

H. E. Arnold, Acting Collector of Internal Revenue, cautioned taxpayers today not to confuse pending tax legislation in Congress with the 1946 income tax returns which must be filed not later than March 15 by every person who had \$500 or more income last year.

The Collector pointed out that, if any changes are made in the tax laws, the changes will apply only to 1947, and therefore will not alter in any way the filing of last year's return due by March 15th.

For 1946, a return is required by March 15 from every person who had \$500 or more income, regardless of all other circumstances (except, of course, members of the armed forces still overseas). Returns are required even though part or all the tax has been paid by withholding.

About three-fourths of the feed fed to a hen goes for body upkeep; and the remaining one fourth for egg production.

Over 63,000 World War II veterans are studying farming right on the farm under two Federal laws administered by Veterans Administration.

Refrigerator Rules

College Station—Whether the family refrigerator is one of the newest models or an old one, a few simple rules for care will lengthen their serviceability.

Mrs. Bernice Clayton, home management specialist for the Texas A&M College Extension Service, suggests several good rules to follow:

First, place the refrigerator level in a cool spot—away from sunshine, radiators, and the kitchen range.

Keep it at the right temperature—between 40 and 50 degrees F is best.

Follow directions for defrosting exactly. Never use anything sharp to chip off frost or loosen ice-trays.

Keep every part clean. Do not neglect the rubber seal around the door, the condenser, or, in an ice refrigerator, the drain pipe and trap.

When repairs are needed, have them made at once by an authorized service company.

Single copies of "How to choose and use your refrigerator," a new booklet giving detailed directions for both selection and care, may be had free by writing to the Office of Information, U. S. Department of Agriculture, Washington 25, D. C.

ANOTHER DISCOVERY

Perhaps you never realized it, but you have a "servants' entrance" in your house—in fact, you have several! They are your electrical outlets, of course, where you plug in your household appliances—your electric washer, your vacuum sweeper, and all the others that add so much to the comfort and convenience of your everyday living.

There, at the inlets, ready and waiting, is your electricity—a servant who's never late, never tired, working around the clock—around the calendar—and at such low wages! Actually, your electricity comes to you today at the lowest price in history.

Technical research and sound economic policies by business managed, tax paying electric companies have brought the cost of electricity steadily downward, until today the average family is getting twice as much electricity for its dollar as it did fifteen years ago!
